# **CATALOG and STUDENT HANDBOOK 2017-2018**

# CAPE FEAR COMMUNITY COLLEGE

## NOTE

The catalog and handbook are published for the purpose of providing information about the College and its programs. Announcements contained herein are subject to change without notice and may not be regarded in the nature of binding obligations on the College or the State. Efforts will be made to keep changes to a minimum, but changes in policy by the North Carolina State Legislature, the North Carolina Community College System, or by local conditions may make some alterations in curricula, fees, etc., necessary.

## NON-DISCRIMINATION POLICY

Cape Fear Community College, its faculty and staff, and the Board of Trustees are fully committed to the principles and practice of equal employment and educational opportunities. The College does not discriminate against applicants, students, or employees in any programs and activities provided on the basis of race, color, national origin, sex, disability, religion, age, genetic information, veteran status, gender identity or expression, sexual orientation or any other protected status as required by Title IX of the Educational Amendments of 1972, Americans with Disabilities Act of 1990, Section 504 of the Rehabilitation Act of 1973, Title VII of the Civil Rights Act of 1964 and any other applicable statutes and CFCC policies. This statement applies to all students and employees at Cape Fear Community College. Robert McGee, the Dean of Student Affairs serves as CFCC's Title IX Coordinator and has primary responsibility for coordinating the College's efforts to comply with and carry out its responsibilities under Title IX, which prohibits sex discrimination in all the operations of the College, as well as retaliation for the purpose of interfering with any right or privilege secured by Title IX.

## INSTITUTIONAL ACCREDITATION

Cape Fear Community College is accredited by the Commission on College of the Southern Association of Colleges and Schools to award associate degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call (404) 679-4500 for questions about the accreditation of Cape Fear Community College.

Cape Fear Community College (CFCC) provides the above information to enable interested constituents (1) to learn about the accreditation status of CFCC, (2) to file a third-party comment at the time of CFCC's decennial review, or (3) to file a complaint against CFCC for alleged non-compliance with a standard or requirement. The Commission on College's should be contacted only if there is evidence that appears to support Cape Fear Community College's significant non-compliance with a requirement or standard. Otherwise, the Commission on College's website provides membership information and accreditation status of its members at [www.sacscoc.org](http://www.sacscoc.org). All other inquiries about Cape Fear Community College should be addressed directly to the college and not to the Commission on College's office.

## MEMBER OF

Cape Fear Community College is a member institution of the North Carolina Community College System, the League for Innovation in Community Colleges, and the American Association of Community Colleges.

## ACCREDITATIONS AND CERTIFICATIONS OF SELECT PROGRAMS

**Associate Degree Nursing:** Accreditation Commission for Education in Nursing, Inc. (ACEN). The address and telephone number of Accreditation Commission for Education in Nursing, Inc. is 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326, (404) 975-5000.

**Basic Law Enforcement Training Program:** The North Carolina Criminal Justice Education and Training Standards Commission and the North Carolina Sheriff's Education and Training Standards Commission. The address and telephone number of the North Carolina Criminal Justice Education and Training Standards Commission is NC Criminal Justice Standards Division, Post Office Drawer 149, Raleigh, NC 27602, (919) 661-5980. The address and telephone number of the North Carolina Sheriff's Education and Training Standards Commission is Post Office Box 629, Raleigh, NC 27602, (919) 779-8213.

**Cardiovascular Sonography:** The CFCC Medical Sonography program - Cardiac Concentration is accredited by the Commission on Accreditation of Allied Health Education Programs ([www.caahep.org](http://www.caahep.org)) upon the recommendation of The Joint Review Committee on Education in Diagnostic Medical Sonography. The CAAHEP address is 25400 US Highway 19 N., Suite 158 Clearwater, Florida 33763 Phone: 727-210-2350

**Criminal Justice Technology:** The North Carolina Criminal Justice Education and Training Standards Commission. The address and telephone number of the North Carolina Criminal Justice Education and Training Standards Commission is NC Criminal Justice Standards Division, NC Department of Justice, 114 West Edenton Street, PO Drawer 149, Raleigh, NC 27602, (919) 716-6470.

**Dental Assisting:** The Commission on Dental Accreditation of the American Dental Association. The address and telephone number of the Commission on Dental Accreditation of the American Dental Association is 211 East Chicago Avenue, Chicago, IL 60611-2678, (312) 440-4653.

**Dental Hygiene:** The Commission on Dental Accreditation of the American Dental Association. The address and telephone number of the Commission on Dental Accreditation of the American Dental Association is 211 East Chicago Avenue, Chicago, IL 60611-2678, (312) 440-4653. The dental hygiene program is accredited without reporting requirements.

**Early Childhood Education:** National Association for the Education of Young Children (NAEYC), NAEYC Associate Degree Accreditation, 1313 L Street NW, Suite 500, Washington DC 20005-4101, (202) 232-8777 or (800) 424-2460.

**Emergency Medical Science:** Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP), 8301 Lakeview Pkwy, Suite 111-312, Rowlett, TX 75088, 214-703-8445. The CFCC Paramedic program holds a Letter of Review (LOR), which is NOT a CAAHEP accreditation status, but is a status granted by CoAEMSP signifying that a program seeking initial accreditation has demonstrated sufficient compliance with the accreditation Standards through the Letter of Review Self Study Report (LSSR) and other documentation. However, it is NOT a guarantee of eventual accreditation. Students in the program are eligible to take both the state and national certification examination upon completion of the program based upon the issuance of the LOR.

**Medical Sonography:** The CFCC Medical Sonography program is accredited by the Commission on Accreditation of Allied Health Education Programs ([www.caahep.org](http://www.caahep.org)) upon the recommendation of The Joint Review Committee on Education in Diagnostic Medical Sonography. The CAAHEP address is 25400 US Highway 19 N., Suite 158 Clearwater, Florida 33763. Phone: 727-210-2350.

**Nurse Aide Level I:** and Home Health Care Aide: The North Carolina Department of Health and Human Services (DHHS), Health Care Education and Credentialing Section. The address and telephone number for the DHHS, Health Care Education and Credentialing Section is 2709 Mail Service Center, Raleigh, NC 27699-2709, (919) 855-3969. The NC DHHS website is [www.ncnar.org](http://www.ncnar.org).

**Nurse Aide Level II:** The North Carolina Board of Nursing (NCBON). The address and telephone number of the North Carolina Board of Nursing is P. O. Box 2129, Raleigh, North Carolina, 27602, (919) 782-3211. The NCBON website is [www.ncbon.org](http://www.ncbon.org).

**Occupational Therapy Assistant:** The Accreditation Council for Occupational Therapy Education (ACOTE of the American Occupational Therapy Association (AOTA), located at 4720 Montgomery Lane, Suite 200, Bethesda, MD 20814-3449, (301) 652-AOTA, [www.acoteonline.org](http://www.acoteonline.org).

**Pharmacy Technology:** The American Society of Health System Pharmacists (ASHP), 7272 Wisconsin Avenue, Bethesda, MD, 20814, (301) 657-3000, [www.ashp.org](http://www.ashp.org).

**Phlebotomy:** The National Accreditation Agency for Clinical Laboratory Sciences, 8710 W. Bryn Marr Avenue, Suite 670, Chicago, IL 60631-3415, (773) 714-8880.

**Practical Nursing:** The North Carolina Board of Nursing, PO Box 2129, Raleigh, NC 27602, (919) 782-3211, [www.ncbon.org](http://www.ncbon.org).

**Radiography:** Joint Review Committee on Education in Radiologic Technology, 20 N. Wacker Drive, Suite 2850, Chicago, IL 60606-3182, (312) 704-5300, [www.jrcert.org](http://www.jrcert.org).

**Surgical Technology:** The Commission on Accreditation of Allied Health Education Programs (CAAHEP) in cooperation with the Accreditation Review Council on Education in Surgical Technology and Surgical Assisting (ARC/STSA). Commission on Accreditation of Allied Health Programs (CAAHEP), 1361 Park Street, Clearwater, FL 33756, (727) 210-2350. Accreditation Review Council on Education in Surgical Technology and Surgical Assisting (ARC/STSA), 6 W. Dry Creek Circle, Suite #110, Littleton, CO 80120, (303) 694-9262.

**ADMISSION TO ANY AND ALL EDUCATIONAL PROGRAMS OFFERED BY CAPE FEAR COMMUNITY COLLEGE IS MADE WITHOUT REGARD TO RACE, COLOR, SEX, RELIGION, NATIONAL ORIGIN, PHYSICAL HANDICAP OR OTHER NON-RELEVANT FACTORS**

# Wilmington Campus Map

## North Campus Map

## President's Welcome

Thank you for considering Cape Fear Community College! As one of the largest and oldest community colleges in North Carolina, CFCC has helped thousands of students improve their lives through education for more than half a century. At CFCC, there are many opportunities awaiting you and it is our hope that you will find a class, a program and ultimately a career path that you will find rewarding.

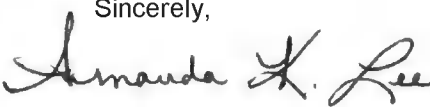

Our curriculum features over 50 academic and job training programs which offer two-year associate degrees along with a variety of diploma and certificate options for specialized training. Many of our programs have been recognized by national and regional accrediting agencies and other professional organizations for achieving high standards and best practices.

We take pride in our college, but more importantly, we take pride in the success of our students. Each member of our faculty and staff is here to help you reach your goal. Our class sizes are designed to be small so that students can experience individualized instruction whenever possible. In addition, there are numerous resources outside the classroom which can provide extra academic and personal support if you need it.

Our employees are experts in their fields and are the most dedicated and talented you'll find at any college or university. All of these resources are offered as part of the collective CFCC experience which is designed to help you reach your educational goal, whether it is to earn a degree, improve your job skills or prepare for a new career.

# MISSION & VISION STATEMENTS

## *Mission Statement*

### **FOR THE NORTH CAROLINA COMMUNITY COLLEGE SYSTEM**

The mission of the North Carolina Community College System is to open the door to high-quality, accessible educational opportunities that minimize barriers to post-secondary education, maximize student success, and improve the lives and well-being of individuals by providing:

- Education, training and retraining for the workforce, including basic skills and literacy education, occupational and pre-baccalaureate programs.
- Support for economic development through services to and in partnership with business and industry.
- Services to communities and individuals, which improve the quality of life.

*Adopted by the State Board of Community Colleges, October 1993; revised March 1994, April 1994; reaffirmed January 1998; revised and adopted June 1998; revised and adopted September 2006.*

## *Mission Statement*

### **FOR CAPE FEAR COMMUNITY COLLEGE**

Cape Fear Community College is an open door, multi-campus, comprehensive community college that strengthens the academic, economic, social and cultural life of the citizens of New Hanover and Pender counties.

As a member of the North Carolina Community College System, Cape Fear Community College fully supports the system mission and fulfills its purposes by:

- Focusing on vocational, technical, pre-baccalaureate, literacy education, and continuing education programs and services;
- Recruiting, enrolling, advising and retaining a diverse student body;
- Recruiting, retaining and developing a highly qualified and diverse faculty and staff who are dedicated to quality education and service to the College and the community;
- Evaluating existing programs and implementing new curricula and instructional strategies to serve the changing needs of the service area;
- Providing support services that help students succeed;
- Enhancing student life through clubs, cultural activities, leadership opportunities, and athletics; and
- Interacting and cooperating with others to encourage, promote and facilitate economic and community development.

*Approved by the CFCC Board of Trustees, March 23, 1995; revised January 18, 1996; revised November 19, 2003; reaffirmed January 26, 2006; reaffirmed September 10, 2010, reviewed September 2015.*

## *Vision Statement*

### **FOR CAPE FEAR COMMUNITY COLLEGE**

“Cape Fear Community College: Building a future-oriented world-class workforce and a community of lifelong learners in partnership with regional businesses and agencies. Imagine the possibilities!”

*Approved by the CFCC Board of Trustees, March 26, 1998.*

# ABOUT THE COLLEGE

Cape Fear Community College is a comprehensive community college that offers education and training services through numerous (1) **TECHNICAL/VOCATIONAL CURRICULA** in such broad areas as health care, business, engineering technologies, computer sciences, architecture/construction/ interior design, law enforcement and numerous other fields, (2) **COLLEGE TRANSFER/UNIVERSITY PARALLEL** studies in the freshman and sophomore years of baccalaureate programs, and (3) a host of **CONTINUING EDUCATION** programs that can be broadly clustered into such categories as Basic Skills (including Adult High School and GED, among other programs), Occupational Extension (custom-designed training related directly to the in-service training needs of various professions), and Community Services/Self-Supporting classes that may include a wide range of avocational interests.

The core of the College's mission is world-class workforce development.

CFCC is one of fifty-eight institutions comprising the North Carolina Community College System. The North Carolina Community College System and its constituent institutions operate in accord with legislation enacted by the North Carolina General Assembly and as contained in Chapter 115D of the North Carolina General Statutes. Governance of Cape Fear Community College is further defined by policies, rules, and procedures as promulgated in accord with state and federal laws by the North Carolina State Board of Community Colleges, the Cape Fear Community College Board of Trustees, and College officials.

Cape Fear Community College's official service area includes New Hanover and Pender counties. CFCC's Wilmington campus is located in downtown Wilmington and the North Campus is located in Castle Hayne. CFCC offers classes at the Burgaw Center and at the Alston W. Burke Center in Pender County. Several CFCC technical and vocational programs are unique to southeastern North Carolina and to the state as a whole, and the College therefore serves as a regional provider of workforce training. The number of different students annually enrolling at the College typically exceeds 27,000.

# ADMISSIONS

CFCC operates under an "open door" policy. This means that the College offers instruction to all adults; therefore, if you are 18 years of age or older, or if you have a high school diploma or equivalent, and can benefit from courses and programs offered by our College, WE WELCOME YOU. While CFCC advises all students to seek a high school diploma or equivalent, admission to certain certificate programs may be granted without prior completion of a diploma or GED®. In addition, admission to the college does not mean that students will be admitted immediately to a program with specified admissions requirements.

Admission to degree, diploma, and certain certificate programs has additional requirements including high school graduation, official transcripts, placement testing, and medical examinations. Contact the Admissions Office for specific program requirements.

The College reserves the right to refuse admission or readmission to any applicant during any period of time that the student is suspended or expelled from any other educational entity. 23 SBCCC 02C.0301 (d).

The College reserves the right to refuse admission to any applicant if it is necessary to protect the safety of the applicant or other individuals. 23 SBCCC 02C.0301 (e) and (f).

Applicants who are refused admission have the right to an appeal. To initiate such an appeal, the applicant must submit a written appeal to the Vice President for Student Services and Enrollment Management within five (5) calendar days after being notified of the refusal to admit. The Vice President for Student Services and Enrollment Management will present the appeal to the Judicial Board within (5) calendar days of receipt of the written appeal. If the student wishes to appear before the Judicial Board, the request must be included in the written appeal. The Vice President for Student Services and Enrollment Management will notify the applicant of the Judicial Board's decision. The decision of the Judicial Board shall be final with no further appeals.

## **Admission as a Non-Degree Seeking Student (Special Credit)**

Students who do not wish to enter degree or diploma programs may enter CFCC as "special credit" students. Students admitted as special credit may carry only a part-time course load. Special credit students must meet course prerequisites including Placement testing. Admission as a special credit student does not constitute admission to any curriculum program. Special credit students may attempt no more than 18 credit hours without meeting admissions requirements. Students who exceed this number will not be permitted to register until admissions requirements are met.

Students who enter a curriculum program from special credit status must meet all admissions requirements prior to time of registration. Exceptions are programs which do not culminate in a degree, diploma or certificate. Admissions requirements do not apply to these programs.

<http://cfcc.edu/admissions/non-traditional-admissions/>

## **Special Credit - Lifelong Learners**

Students who have no desire or intention to work toward a degree, diploma, or certificate and wish to take classes for personal development, enrichment, or simply for the joy of learning may enroll as a Lifelong Learner. To be admitted as a Lifelong Learner, the student need only submit a completed college application for admission. Students admitted as Lifelong Learners may carry only a part-time course load and must have their registration approved by a counselor or a transcript evaluator. Lifelong Learners must meet and verify course prerequisites that may include placement testing. Official post-secondary transcripts are required; faxed transcripts are not acceptable. Admission as a Lifelong Learner does not constitute admission to any curriculum program. A Lifelong Learner who wishes to be reclassified as a regular student must complete admission requirements as outlined in the General Admissions Process in this catalog. Lifelong Learners are not eligible to receive financial aid or Veteran's benefits.

## **Selective Admission/ Health Science Programs**

Students applying for admission to health science programs must meet general college admission requirements as well as specific program requirements. Each of the selective admission programs requires that applicants be a high school graduate or have a High School Equivalency, meet the minimum placement test scores required for the specific curriculum program and complete the program application process by the deadline established for that particular program. Prior college course completion with a grade of "C" or better in English and math could eliminate the placement test requirement. Students will need to consult with counselors or academic advisors.

Certain CFCC academic programs have additional entrance requirements beyond general admissions to the College. Selective admission programs at the College include: Associate Degree Nursing, Cardiovascular Sonography, Dental Assisting, Dental Hygiene, Nurse Aid Nursing Transition, Occupational Therapy Assistant, Pharmacy Technology, Phlebotomy, Practical Nursing, Radiography, Regionally Increasing Baccalaureate Nursing (RIBN), Sonography, Surgical Technology, and the Veterinary Medical Technology program.

Students may visit the Counseling Office for specific program requirements and applications or visit our website at <http://cfcc.edu/studentservices/health/>. Information about the Veterinary Medical Technology program requirements can be found by visiting the Public Services website at <http://cfcc.edu/publicservice/>.

## **Admission of Transfer Students**

1. Transfer students must complete CFCC's admission requirements (see General Admission Process). Official transcripts of undergraduate coursework from regionally accredited institutions are required for transfer credit, eligibility for veterans' benefits, placement testing waivers, and health science applicants. Graduate and post-graduate level transcripts are not required. Transcripts should be sent immediately after applying to the College but no later than 2 weeks prior to registration.
2. Only courses with a grade of "C-" or better can be transferred from other institutions to CFCC.
  - a. CFCC will accept courses completed with a grade of "C-" or above as they apply to the student's program of study.
  - b. Credits are transferable from regionally accredited two and four year institutions within the United States. Courses are transferred that compare in content, quality and credit hours to those offered at CFCC.
  - c. Transcripts of course work completed at a college or university located outside of the United States must be accompanied by (1) a certified English translation and course evaluation (2) course descriptions if transfer credit is needed. Contact the Director of Admissions for acceptable translation and evaluation agencies.
  - d. Credit for Military Experience--Veteran applicants should submit an official military transcript to the College in order to request credit for previous military experience and training. The College grants credit where applicable for military service schools in accordance with the recommendations of the American Council on Education's *Guide to the Evaluation of Educational Experiences in The Armed Services*. Credit recommended must be consistent with the requirements and objectives of an academic program in order to be granted. Students should be aware that the transferability of these credits is totally at the discretion of the receiving institution and that Cape Fear Community College makes no guarantee of such transfer.
3. Some courses that depend heavily on technology, speed and accuracy, physical skills, and/or language skills will be subject to review after five years unless the student has been continuously enrolled. Courses subject to review may include, but not limited to, keyboarding, computer, foreign languages, developmental, and trades courses.
4. Credits transferred from other institutions will be noted on the student's CFCC transcript. Grades achieved at other institutions will not be used in the grade point average computation at CFCC.

5. Credit gained through advanced placement testing will require official transcripts from the testing agency.
6. Experiential learning, proficiency testing, and work based learning experience will not be transferred as course work to CFCC.
7. Students who wish to receive transfer credit should submit official copies of all transcripts at least two weeks prior to registration so that evaluation of transfer credit can be completed. Faxed transcripts are not acceptable.
8. To receive a degree, diploma or certificate from CFCC, transfer students must complete at least 25 percent of program requirements at CFCC.

## **Re-Admission of Curriculum Students**

Students (including CFCC graduates) returning to CFCC who have not been enrolled for two (2) or more academic years must submit a new Admissions Application. Students must also meet the admissions requirements for the current program of study including evaluation of all coursework earned at CFCC and other institutions.

Some courses that depend heavily on technology, speed and accuracy, physical skills, and language skills will be subject to review after five years unless the student has been continuously enrolled. Courses subject to review may include, but not limited to, keyboarding, computer, foreign languages, developmental, and trades courses.

## **Admission of Transient Students**

Transient students are those who are admitted and enrolled in another college or university and wish to enroll in CFCC as a full-time student for one academic session.

Transient students must:

- Submit a completed CFCC Admission Application.
- Submit written permission from their home institution to enroll in CFCC.
- Provide verification of completion of applicable prerequisites prior to enrolling in CFCC courses.

## **Provisional Admission**

Provisional admittance may be considered on the last day of registration before classes begin. Students whose official high school transcripts have not been received by the Admissions Office at the time of registration may be admitted provisionally. Financial Aid will not be available to a student who is provisionally accepted until the final official transcript is received in the Admissions Office. All admissions requirements must be met within thirty (30) calendar days from the first day of the academic session. Those students who do not meet admissions requirements within thirty (30) calendar days may be dropped from courses. Students will not be allowed to register for upcoming semesters until all

admission requirements are met. Students must take the placement test or qualify for a waiver prior to registration to meet course prerequisites.

## ***The North Carolina Career and College Promise: College Opportunities for High School Students***

The Career and College Promise Program allows qualifying high school students the opportunity to enroll in college classes in order to earn both high school and college credit upon successful completion of CFCC courses. This program offers the following pathways:

- Career and Technical Education Pathway
- College Transfer Pathway
- Cooperative Innovative High School Pathway (or Early College High School)

***The Career Technical Education Pathway*** allows high school students the opportunity to enroll in a CFCC CTE Pathway that aligns with their high school career cluster programs. To be accepted into this program, students must meet the following criteria\*:

- Be a high school junior or senior;
- Have a weighted GPA of 3.0 on high school courses or have the approval of the high school principal or designee;

\*Some CTE Pathways include courses that require testing prerequisites for enrollment.

***The College Transfer Pathway*** allows high school juniors and seniors the opportunity to complete core general education classes required during the first two years of a four-year degree. To be accepted to this program, students must meet the following criteria:

- Be a high school junior or senior;
- Have a weighted high school GPA of 3.0 or higher;
- Demonstrate college readiness in English, Reading, and Math on an assessment or placement test such as the PLAN, PSAT, SAT, ACT, or the CFCC Placement Test.
- Meet all program prerequisites.

***The Cooperative Innovative Pathway or Early College High School*** allows students the opportunity to earn a high school diploma and up to two years of college credit within five years. CFCC partners with New Hanover County Schools and Pender County Schools to host two early college high schools. Pender Early College High School (PECHS) and Wilmington Early College High School (WECHS) are high schools located on the campuses of CFCC. Both early colleges enroll rising ninth-graders each year. Students must have the desire to attend a smaller school with high expectations for academics and behavior. Admission to the program is granted by each respective school system.

For more information on college courses available to qualifying high school students, visit our website at <http://www.cfcc.edu/ccp>.

## ***Admission of Out-of-State Students***

In 2013 the North Carolina General Assembly (SB 402) instructed the educational entities in North Carolina to work collaboratively to create a centralized process for determining residency for the purpose of tuition and administration of state financial aid. These entities included the University of North Carolina General Administration (UNC GA), the North Carolina Community College System (NCCCS), the North Carolina Independent Colleges and Universities (NCICU), and the North Carolina State Education Assistance Authority (NCSEAA). As a result of the legislative directive, College Foundation, Inc. (CFI) was selected to develop and administer the statewide Residency Determination Service.

CFCC implemented the Residency Determination Service (RDS) on February 20, 2017. All individuals applying to CFCC after March 20, 2017, will be required to complete the online residency determination prior to applying to the college. It is recommended that applicants complete the residency determination well in advance of the semester they wish to start. Upon completion of the residency determination, students will be issued a Residency Certification Number (RCN) which will be utilized at all colleges in NC.

CFCC will continue to work with students who have business sponsorships, are using military benefits or other exceptions allowed by the state. All other residency determinations will be made by CFI and not CFCC.

The Residency Determination Service will provide separate processes to reach a residency classification. Most students will only be required to complete the Initial Consideration process. The Reconsideration and Appeal processes are for those students who experience a change in circumstances (Reconsideration) or who have not had a change in status and believe their residency classification is incorrect (appeal).

All students, parents, faculty, staff, and constituents of the North Carolina Community College System should refer to the Residency website at [www.ncrcsidncv.org](http://www.ncrcsidncv.org) for more current details regarding the North Carolina Residency Determination Service, processes, and required residency guidelines.

## ***Admission of International Students***

Cape Fear Community College does not issue the necessary documents to obtain the F, J, or M student visas. Other visas may be acceptable for admission. Contact the Director of Admissions for further information.

## ***General Admissions Process***

**New students should complete all admission requirements at least two weeks prior to registration.**

### **1. APPLICATION**

An application for admission must be submitted prior to placement testing and registration. Applications may be submitted online at [www.cfcc.edu](http://www.cfcc.edu). Valid email addresses are required for electronic applications.

### **2. OFFICIAL HIGH SCHOOL OR EQUIVALENT TRANSCRIPT**

An official transcript from high school or equivalent from an accredited institution recognized by the Department of Education is required for most programs. High school/Equivalent transcripts must indicate the date graduated. Official transcripts are those received either by mail, by hand-delivery to CFCC in the original, sealed envelope from the awarding institution or agency, or electronically submitted via Parchment or eScrip-Safe. North Carolina public high school graduates may request their official high school transcripts be sent electronically to the Admissions Office via the College Foundation of North Carolina (CFNC) website at [www.cfnc.org](http://www.cfnc.org). Home schooled students must submit a copy of the home school's approved registration from the state in which they are registered (if applicable) and an official transcript of all high school courses, grads, graduation date and unweighted GPA.

### **3. OFFICIAL COLLEGE TRANSCRIPT(S)** Official college transcripts from all regionally accredited institutions of higher education previously attended must be submitted to CFCC for transfer credit, eligibility for veterans' benefits, placement testing waivers, and health science applicants.

### **4. PLACEMENT TESTING** All applicants to degree, diploma and certain certificate programs are required to have valid placement test scores on file prior to acceptance at CFCC. (There is no charge for the placement test). All or parts of the placement test may be waived upon receipt of official transcripts if the applicant:

- has satisfactorily completed college level English and/or Mathematics course above the developmental level
- **OR** has made the following minimum scores within the last five years **AND** has submitted official SAT or ACT transcripts to the Admissions Office:
  - SAT: Writing 500 OR Critical Reading 500 and/or SAT Math 500 (Tested prior to Mar. 2016)
  - SAT: Evidence Based Reading/Writing 480 and/or Math 530 (Tested Mar. 2016 and after)
  - ACT Reading 22 OR English 18 and/or ACT Math 22
- **OR** has ■ NC high school graduation date less than 5 years old with an unweighted GPA of 2.6 or higher **AND** the successful completion of specific math coursework
- **OR** is ■ current NC senior completing his/her first semester with an unweighted GPA of 2.6 or higher **AND** the successful completion of specific math coursework
- **OR** has achieved CFCC's cut-off scores for the desired curriculum program by submitting official Accuplacer or Compass scores taken within the last five years
- **OR** has earned developmental course credit, with ■ "C" or better, at a school in the North Carolina Community College System.

Testers may take the placement test twice (2 times) in twelve (12) consecutive months (one initial test and one retest). In order to request accommodations based on a documented disability, requests for approval, assistance, and scheduling must be arranged through CFCC's Disability Support Services office (910-362-7800).

### **5. MEDICAL EXAMINATIONS** A medical history is required for specific program admission or completion. Students are notified of this requirement as applicable to their programs of study. Selected programs within the college may require drug screening prior to final acceptance into the program. Contact Counseling for further information.

# SERVICES TO STUDENTS

## ***Campus Visits***

Cape Fear Community College encourages prospective students and parents to visit the campus and tour our facilities. Guided tours may be scheduled Monday through Friday when classes are in session. Appointments are necessary to ensure that appropriate staff will be available to answer questions. Information pertaining to academic programs, student services, and the admissions/registration processes will be presented during the tour. Tour dates and times are available on the College's website at [www.cfcc.edu](http://www.cfcc.edu).

## ***Orientation***

The Student Services and Enrollment Management Division offers an online orientation to acquaint new students to the College, its facilities, resources, services, activities, organizations and policies. This online orientation is mandatory for all new students prior to class registration.

## ***myCFCC***

myCFCC is a web-based portal that links all aspects of campus life to create a community environment. It provides services such as e-mail, campus announcements, message boards, calendars, and discussion groups. Accounts are created upon acceptance to the College. Students are encouraged to check myCFCC on a regular basis to receive important college information. A link to myCFCC is on the College's website at [www.cfcc.edu](http://www.cfcc.edu).

## ***WebAdvisor/***

### ***Student Planning (Self Service)***

WebAdvisor is another web-based portal that gives students access to class schedules, on-line registration, grades, address changes, and graduation progress. A link to WebAdvisor is on the College's website at [www.cfcc.edu](http://www.cfcc.edu). There is a Student Planning feature within WebAdvisor that allows students to access academic and financial personal records, plan program completion, and register for classes.

### ***Counseling***

Confidential academic, personal, and career counseling services are provided on an ongoing basis to all students. The counseling staff is available Monday through Friday on both campuses. Please refer to our website for specific hours based on campus location. Summer hours may vary. Students are seen on a walk-in basis or appointments may be made by calling (910) 362-7017 (Wilmington Campus) or (910) 362-7523 (North Campus).

The professional counseling staff is experienced in assisting students in developing skills and attitudes needed to deal effectively with their academic environment.

Students who are uncertain in selecting their major course of study or who are experiencing academic difficulty are encouraged to seek the assistance of a counselor. Students with personal concerns that may interfere with their academic success are also urged to seek guidance from the counseling staff.

When appropriate, and with the student's permission, the counseling staff may make referrals to community resources/agencies.

### ***Academic Advising Center***

The Academic Advising Center provides supplemental advising support to students and their assigned faculty advisors. The center is located on the second floor of the Wilmington Campus' Union Station room U-246. Students may meet with a staff advisor and use the center's computers for web registration and academic planning.

Faculty advisors serve as primary advisors for all students. Students are assigned a faculty advisor based on the student's program of study (check Academic Profile in WebAdvisor for name of faculty advisor). During designated pre-registration advising periods, students should schedule an appointment with their faculty advisor. Faculty advisors will assist students in selecting and scheduling appropriate classes to fulfill program requirements. The staff advisors located in the Academic Advising Center serve as an additional resource for students who have registration issues or advising questions that the faculty advisor cannot resolve. New students who have not yet met with their faculty advisor may use the center for advising and registration guidance.

Additionally, students enrolled in college transfer programs are encouraged to visit the Academic Advising Center for help in developing a transfer plan to a 4-year college or university.

During registration, this transfer plan will assist the student and faculty advisor in selecting courses that will help the student meet admission and program requirements at the 4-year school. To further assist students with transfer planning, the center hosts visits from regional 4-year college and university admission representatives throughout the academic year.

### ***Career Development***

Career development services are available through the Academic Advising Center at the Wilmington Campus and the Student Services Office at the North Campus. Career counseling assists students with career decision-making and provides information on employment trends and educational requirements. Job placement assistance including resume writing, interview techniques, and other employment readiness preparation is also available to students and graduates. Online job listings are provided through the CFCC Career Connection. This online job bank gives students, graduates, and employers an opportunity to connect.

### ***Disability Support Services***

Cape Fear Community College and all employees shall operate programs, activities, and services to ensure that no otherwise qualified individuals with disabilities shall be excluded from participating in, be denied the benefit of, or be subjected to discrimination under any such program, activity, or service solely by reason of their disabilities. Disability Support Services provides numerous services that assist students in reaching their academic goals. Assistance may include services such as registration assistance, academic counseling, student advocacy, interpreters for the deaf or hard-of-hearing, academic aides, assistive technology and other reasonable accommodations. To be eligible for Disability Support Services, students must provide professional medical, psychological, and/or educational documentation of their disabilities, including associated functional limitations, to the Disability Support Services' staff. If classroom adaptations, interpreters, or academic aides are necessary to participate in class, advanced notice of 4 weeks is required to coordinate such services.

### ***Grievance Procedure***

A student with a grievance based on discrimination, accommodation issue and/or denial of services based on a disability, are to be filed initially with the Director of Disability Support Services. If this action does not result in an acceptable resolution of the issue within the standards of CFCC's policies and procedures and/or the standards of the class/curriculum, then the student should consult with the Dean of Student Affairs by referring to the Complaint Form for Alleged Violation webpage. (<http://cfcc.edu/osa/complaint/>)

## Placement Test Advising Guide

Applicants entering vocational/technical and college transfer courses must begin their English sequence with the course corresponding to their score levels on the following placement tests.

### ENGLISH PLACEMENT

Testing is not required with  
**SAT Reading 500 or Writing 500 (Prior to March 2016)**  
 OR  
**SAT Evidence-Based Reading/Writing 480 (Tested March 2016 and after)**  
 OR  
**ACT Reading 22 or ACT English 18**  
 OR  
 Transfer credit of ENG 111 or its equivalent with a grade of "C" or better.

Register for your English class based on the guide below.

PLACEMENT	NCDAP ENGLISH	ACCUPLACER Reading + Sentence Skills	COMPASS Reading + Writing
Basic Skills	100-103	40-71	0-63
DRE096	104-116	72-91	64-84
DRE097	117-135	92-128	85-111
DRE098	136-150	129-165	112-150
ENG111	151 and higher	166 and higher	151 and higher

### MATH PLACEMENT

Testing not required with **SAT Math 500 (Prior to March 2016) or Math 530 (Tested March 2016 and after) or ACT Math 22**  
 OR transfer credit for the appropriate college math required for your major.

#### Math Modules

#### Scores Ranges

DMA-010 Operations with Integers	1 = Basic Skills	
DMA-010 Operations with Integers	2-6 = DMA IS needed	7-12 = DMA is NOT needed
DMA-020 Fractions and Decimals	1-6 = DMA IS needed	7-12 = DMA is NOT needed
DMA-030 Proportions/Ratios/Rates/Percents	1-6 = DMA IS needed	7-12 = DMA is NOT needed
DMA-040 Expressions/Linear Equations/Inequalities	1-6 = DMA IS needed	7-12 = DMA is NOT needed
DMA-050 Graphs/Equations of Lines	1-6 = DMA IS needed	7-12 = DMA is NOT needed
DMA-060 Polynomials/Quadratic Applications	1-6 = DMA IS needed	7-12 = DMA is NOT needed

(A score of 7 or higher on DMA-060 will also award credits for DMA-065, DMA-070 and DMA-080)

MAT-110 = A score of 7 on DMA-010 through DMA-030 Needed  
 MAT-143 & MAT-152 = 7 on DMA-010 through DMA-050 Needed  
 MAT-121 = A score of 7 on DMA-010 through DMA-060 Needed  
 MAT-171 = A score of 7 on DMA-010 through DMA-080 Needed  
 MAT-271 = See Course Description for Criteria for Direct Placement into MAT-271 or visit: <http://cfcc.edu/testing/>

#### Math Courses for Registration

DMS-001 = If you need 1 DMA (Excluding DMA-050, 060, 070, 080 or 065)  
 DMS-002 = If you need 2 or more DMA's (Excluding DMA-050, 060, 070, 080 or 065)  
 DMA-050 = If you need DMA-050  
 DMA-060 = If you need DMA-060  
 DMA-065 = If you need DMA-060 through DMA-080

Register for the maximum number of credits in each semester until you have successfully completed all of the DMA courses that are required on your Program Evaluation.

All scores are valid for 5 years.

### **Placement Testing**

All applicants to degree, diploma, and certain certificate programs are required to have valid placement test scores on file prior to being accepted at CFCC. All or parts of the placement testing requirement may be waived if the applicant meets certain criteria (see General Admission Process). The placement test is not an entrance examination. The primary purpose of placement examinations is to determine the individual's skill level and readiness. Assessment results will be used to determine the need, if any, for developmental placement. Advisors will also use the results in planning students' programs and classes.

Placement assessments are administered in the following areas: English and Math. All placement scores are valid for five years from date of examination. An admission application must be submitted prior to testing to ensure that results are properly posted.

The Accuplacer College Level Math (CLM) test is available for testers who are already proficient in all developmental levels of Math (DMA10-80) and who are attempting to place directly into MAT-271 Calculus I. More information about Direct Placement into MAT-271 Calculus I can be found in the course description for MAT-271 Calculus I and on the Testing Services website: <http://cfcc.edu/testing/>

### **North Carolina Diagnostic Assessment & Placement Test (NCDAP)**

The NCDAP is an un-timed test taken on a computer. Fluency using a computer is not needed to take the test. The test is divided into two sections: English and Math. Currently there is no fee for the test.

Testers need to bring a picture ID, and know their CFCC Student ID Number when coming to a test session. Testers should arrive at the testing center. The testing room opens fifteen (15) minutes prior to start of the testing session. Testing. Parking for testers is available in visitor parking on the open surface lots on the Wilmington or North Campuses.

Testers can access the testing schedule and sign up for a testing session by visiting the Testing Services website: <http://cfcc.edu/testing/schedule/>. Testing is generally offered every week of the year on both the Wilmington and North campuses. To request accommodations based on a documented disability, requests for approval, assistance, and scheduling must be arranged through CFCC's Disability Support Services office (910-362-7800).

A schedule of dates/times of the Placement Tests can be obtained from CFCC's website: <http://cfcc.edu/testing/>.

### **Retest Policy**

Testers may only take the placement test twice in (12) twelve consecutive months. It is recommended that a student retest after successfully completing a developmental course (if needed) in the subject area.

### **High School Equivalency Exam Testing**

The General Educational Development (GED®) Exam is a computer based High School Equivalency (HSE) test administered at CFCC. GED® exam registration is done on the website <https://ged.com/>. Please see CFCC's Academic and Career Readiness Dept. for information about taking GED® classes to help prepare for GED® exams.

### **Right to Know Act**

Anyone wishing to obtain information about first-time students' rate of persistence and/or graduation rates should contact the Office of the Executive Director of Institutional Effectiveness and Planning.

Cape Fear Community College measures and reports retention, graduation and transfer rates, along with seven other institutional performance standards, on an annual basis and in accordance with definitions and standards established by the North Carolina State Board of Community Colleges. Establishment of these common performance measures of institutional effectiveness, along with definitions and standards for each, are the result of a mandate by the N.C. General Assembly to review past performance and define standards of performance to ensure quality and effectiveness of programs and services in all of the 58 community colleges. Please refer to CFCC's performance report on these measures. Historical data and additional details may be viewed at <http://cfcc.edu/ie/>.

### **Developmental Studies**

To help insure student success, the college offers developmental courses to students who need help in the basic skills: mathematics, reading, and writing. These courses are required for those students who have been identified by Career and Testing as needing enhancement in these skills.

Developmental courses count toward registered credits as it applies to financial aid, veterans benefits, and enrollment status. Developmental courses do not count attempted or earned hours, nor do they count in a student's academic grade-point average. All developmental courses are given grades of PA, PB, PC, or R (Repeat).

CFCC will recognize developmental courses completed with an equivalent grade of "C" or above at other North Carolina accredited institutions. Counselors will mail students a transfer credit slip following an evaluation of the coursework. The transfer evaluation will be used for class placement by the advisor.

Below is a selected list of transferable courses for students who are deficient in reading (a CPT score less than 80). Some courses have additional prerequisites and corequisites (listed within parentheses), and students must comply with them. Reminder: Students may also take math courses if they (students) comply with the prerequisites and the corequisites.

### ***The Learning Lab***

The Learning Lab provides free educational support and access to computers to promote student success and academic independence.

Masters-level and Bachelors-level facilitators along with experienced student tutors cater to individual learning styles to help students develop self-reliance and build self-esteem.

The Lab provides the following

#### **Free tutorial assistance:**

- in many CFCC curriculum courses (face-to-face as well as online), Adult Basic Skills, and GED/Adult High School readiness
- for Supplemental Instruction that assists students in traditionally challenging courses through facilitated group sessions. These courses may include ACC, BIO, CHM, PHY, MAT, MSC, and other courses as needed

#### **Drop-in help is available for the following:**

- basic skills in reading, writing, and grammar
- all math classes from the basics to advanced calculus
- all science courses such as anatomy & physiology, biology, chemistry, physics
- Spanish language courses
- Film and Video Production courses
- building stronger academic skills
- guidance and materials to prepare for the PSB Test for Health Science careers
- free access to over 100 computers for students to complete assignments and type papers
- assistance developing computer skills applicable to schoolwork and students' future careers

#### **Additional services:**

Academic skills workshops on Time Management/Study Skills, Note and Test Taking Skills, Plagiarism, and Resume and Cover Letter Writing upon request

#### **Learning Lab - Wilmington Campus**

Computer Lab - Room L-218 • Health Sciences/Learning Resources Center  
Math Lab - Room S-606 • McLeod Building

Writing Center - Room L-219 • Health Sciences/Learning Resources Center

Science Lab - Room N-407 • Natural Sciences Building

Hours: Monday-Thursday from 8:00 a.m. to 8:45 p.m.  
Friday from 8:00 a.m. to 5:00 p.m.

Saturday from 10:00 a.m. to 2:00 p.m. (not all services are available, call 910-362-7476 for more information)  
(Hours are subject to change)

For more information about the Wilmington Campus Learning Lab or for summer hours, please call (910) 362-7476.

#### **Learning Lab - North Campus**

Computer Lab - Room NA-113I • McKeithan Center

Tutoring Center - Room NA-113J • McKeithan Center

FVP Lab - Room NA-102 • McKeithan Center

Hours: Monday-Thursday from 8:00 a.m. to 6:00 p.m.  
Friday from 8:00 a.m. to 3:00 p.m.  
Saturday-Closed  
(Hours are subject to change)

For more information about the North Campus Learning Lab or for summer hours, please call (910) 362-7554.

### ***Health Services***

Cape Fear Community College does not maintain health facilities or medical services. The responsibility for medical services rests with the student. In the case of illness or injury on campus, Emergency Medical Services may be called to assist individuals.

First aid kits are available in labs and the Student Services and Enrollment Management office.

If ■ student is injured or becomes ill while on campus, the Campus Police office should be contacted at 910-362-7777.

### ***Learning Resource Centers (LRC)***

The Learning Resource Centers include the libraries, TV studio, and Online Learning. The Wilmington Campus LRC is located on the second floor of the Health Sciences/LRC building. The North Campus LRC is located on the first floor of the McKeithan Center (NA-113).

Additional information about the LRC is available at our website: <http://cfcc.edu/lrc/>.

### ***Library***

The Wilmington and North Campus libraries provide resources, services, and instruction that directly contribute to student success. The libraries have approximately 54,000 books, 500 current print periodical subscriptions, and over 16,000 audiovisual items. A wide range of more than 100+ electronic resources, including NC LIVE, is accessible online through the libraries. These e-resources contain thousands of full-text articles from more than 15,000 newspapers, journals, magazines, and encyclopedias and access to 189,000+ ebooks and 2,500 evideos. Students may use the libraries' 60 computers or their own computers to access these resources via the Internet. Students can also access the Surf CFCC wireless network from the libraries. A current CFCC ID is required to check out library materials. For individual reference or research assistance or to schedule an instruction session or tour for a class, contact the Reference Desk at (910) 362-7034 or via email: [lrcref@cfcc.edu](mailto:lrcref@cfcc.edu). Library staff and resources will assist you with reference questions, help you meet your course objectives, supplement classroom assignments, and enable you to pursue topics of interest.

### **TV Studio**

The TV studio provides students with a laboratory setting for learning the tools and tasks needed to produce television content. The studio also produces programming for broadcast on The Learning Network and creates promotional videos highlighting CFCC students and programs and provides video services in support of the curriculum.

### **Online Learning**

Online Learning is dedicated to the evaluation, design, and implementation of high quality online education. Online Learning staff provide resources and services to assist students and faculty to be successful in teaching and learning online.

### **Continuing Education Services**

The Continuing Education Division promotes the concept of lifelong learning by providing meaningful educational experiences that will help adults meet occupational and professional goals and fulfill social and personal needs. Non-credit classes and seminars offered will allow adults to achieve their full potential in our ever-changing world of knowledge and skills by preparing for employment to upgrade their skills or learn a new skill.

### **Human Resources Development Program**

The Human Resources Development (HRD) program is designed for unemployed or underemployed individuals who wish to become more marketable by upgrading their employability skills. Classes are year round and are free for those who qualify. See Corporate and Continuing Education Division for further details.

### **Basic Skills and Career Readiness Department**

The Basic Skills and Career Readiness Department offers literacy classes for adults 16 years of age or older, who wish to begin, continue, or expand their educational skills. All classes are free and are offered at convenient times and locations. Anyone under 18 years of age must have school and parental release forms. See Extended Services Continuing Education Division for further details.

The Career Readiness program (formerly known as Human Resources Development) is designed for unemployed or underemployed individuals who wish to become more marketable by upgrading their employability skills. Classes are year round and are free for those who qualify. See Corporate and Continuing Education Division for further details.

# REGISTRATION INFORMATION

Registration is the term used for enrolling in classes. The Academic Advising Center, faculty, advisors and counselors provide information which will assist students in choosing required classes, completing the registration form, securing a space in class and paying tuition fees.

### **Semester System**

The academic year is divided into two semesters and summer sessions. The Fall and Spring semesters offers sixteen (16) weeks of instruction, a twelve (12) week session and two eight (8) week mini sessions. The summer terms are provided either in a ten (10) week session, eight (8) week session, two four (4) week sessions or two five (5) week sessions. Consult the Schedule of Classes for specific scheduling information.

### **Semester Hour Credit**

Each course listed in the catalog and class schedule is followed by a notation on the number of semester hours it earns. Normally, the number of semester hours earned is based on the number of class, laboratory or shop hours spent under the supervision of the course instructor per week for the semester. Usually one semester hour credit is given for each lecture hour of class per week, for each two hours of laboratory work per week, or for each three hours of shop or manipulative laboratory per week. (A class hour is usually defined as 50 minutes of instruction.) Exceptions may be made in cases where specific classification is not feasible.

### **Course Load**

Students enrolled in the fall and spring semesters for 12 or more credit hours are designated as full-time students. Students taking 11 or fewer credits during a semester are considered part-time. Students enrolled in the Summer Session for 9 credit hours or more are designated as full-time students for insurance purposes. Students receiving Financial Aid benefits must be enrolled for 12 or more credit hours each semester to receive full benefits. Veteran's benefits for the Summer-full time is eight (8) hours for the 10 week session or four (4) hours each five week session. Students who are placed on academic probation or suspension may be required to take a reduced course load.

Maximum course loads for which students may enroll are as follows:

- Fall and/or Spring Semester(s) - 18 credit hours except when program requirements determine otherwise.
- Summer Term - 13 credit hours except when program requirements determine otherwise.

Any exception must be approved by the Registrar, Director of Academic Advising Center, or Dean of Enrollment Management.

### **WebAdvisor/Student Planning (Online Registration)**

Currently enrolled students are assigned registration priorities based on their major and number of completed credit hours. Registration information is emailed to students' CFCC email account. Students may register online using WebAdvisor and Student Planning (Self Service).

### **Auditing Courses**

Students who wish to audit courses must register for the audit by following the regular registration procedures and indicating in writing on an audit form which course(s) they are auditing. Auditing students must meet all course pre-requisites. The audit form must be signed by the instructor and turned into the Registrar's office on or before the course date. Auditing students receive no credit and are not required to participate in class discussion or take tests. Tuition and Fees for audit courses are the same as those taken for credit. Changes from audit to credit or credit to audit may only be done during registration and through Final Schedule Adjustment Day. Students should be aware that Financial Aid and Veteran benefits do not pay for audited courses. Audited courses do not transfer.

### **Withdrawal**

Visit <http://cfcc.edu/registration/> to obtain official withdrawal procedures. Students may request to withdraw from one or more courses using the "E-Withdrawal" link on your myCFCC homepage or through WebAdvisor. Online Learning students may go to <http://cfcc.edu/online/> for more information. Students who have not attended at least once by the 10 percent date of the class will be dropped by the instructor as "no show" and assigned a non-punitive transcript grade of "NS." No tuition and fee adjustments will be made.

Students who officially withdraw from a class within the first 60 percent of the term will receive a grade of "W." Students who do not officially withdraw from a class by the 60 percent point **date** and continue to attend and/or participate by completing assignments will receive at the conclusion of the term a final grade from the class instructor(s) that is based on the attendance and grading policies for the class.

**Withdrawing has a negative impact on students' Satisfactory Academic Progress status, and as a result, withdrawals may lead to a loss in eligibility for future financial aid (including loans). Students are urged to review the college policies on Satisfactory Academic Progress for**

**Financial Aid Recipients and contact the Financial Aid Office before withdrawing to discuss potential impact on their bill and/or financial aid eligibility.**

#### **Unofficial Withdrawals:**

An "unofficial withdrawal" occurs when a student stops attending all classes and does not participate in any academic-related activities beyond the 60 percent date of the term.

Students who are unofficially withdrawn will be issued final grades of XF. The grade of XF will be assigned as a student's course grade when all of the following conditions are met:

1. Failed a course (no credits earned).
2. Attended a course at least once in the first 10 percent of the course.
3. Stopped attending and did not participate in any academic-related activity (as defined below) on or before the 60 percent date of the term.
4. Did not officially withdraw or return to the course beyond the 60 percent date of the term.

No tuition or fee adjustments will be made. The XF grade will calculate the same as an F (failure) grade, affecting GPA in the same manner as an F. Students who receive an XF grade may be required to repay a percentage of their Federal Aid back to the Department of Education or to the Veteran's Administration.

Notes:

- Examples of "academic-related" activities that may count as attendance are inclusive of (but not limited to): physically attending class, participating in class with a "clicker" device, submitting an assignment/exam/tutorial, attending a study group assigned by the instructor, or participating in an online discussion about academic matters. Simply logging into an online course does not count as an academic-related activity.
- Please refer to the Academic Calendar for the withdrawal deadlines for each term.
- Financial Aid students who stop attending class and receive a grade of "W" or "XF" may be required to repay a percentage of their Federal Aid back to the Department of Education.

Go to <http://cfcc.edu/finaid/> for more information about financial rules and policies.

\*Last updated: Approved 5/27/17\*

# ACADEMIC INFORMATION

## Student Advisement

Cape Fear Community College views student advisement as an important, on-going process. Each degree/certificate seeking student is assigned a faculty advisor who assists the student in selecting and scheduling appropriate classes to fulfill his/her educational requirements. Non-degree students are assigned a counselor as their advisor who assist in selecting and scheduling appropriate classes. The Academic Advising Center provides supplemental advising support to students and their assigned faculty advisors. Students are strongly encouraged to meet with their assigned faculty advisor each semester/session for assistance in scheduling classes. Students must accept the responsibility of familiarizing themselves with specific course, prerequisite, corequisite, and program requirements. While advising is an on-going process, specific times are designated prior to each registration period for advising.

## Grading and Grade Point Averages

Grading is done by the traditional method of "A" through "D" along with negative categories such as "F" (Failure), and "W" (Withdraw). Grades are assigned a numerical value when determining a student's Grade Point Average (GPA).

## Grading System

### Quality Points

Grade	Significance	per Semester Hour
A	Superior	4
B	Good	3
C	Average	2
D	Poor	1
F	Failure	0
XF	Unofficial withdrawal	0
I	Incomplete	n/a
W	Official Withdrawal	n/a
AU	Audit	n/a
CR	Credit by Proficiency Exam	n/a
CT	Credit by Transfer	n/a
NS	No Show	n/a
PA	Passing (remedial courses only)	n/a
PB	Passing (remedial courses only)	n/a
PC	Passing (remedial courses only)	n/a
R	Repeat (remedial courses only)	n/a

## Grading Scale

The College grading scale is:

A	=	92	-100
B	=	84	-91
C	=	76	-83
D	=	68	-75
F	=	0	-67

## Translating Course Grades into GPA

By taking the number of semester hours assigned to a course and multiplying them by the value of the grade, you determine the grade points for each course attempted. Example: If you take five courses that are assigned a total of 18 semester hours, you may determine your GPA in the following manner:

Semester Hours	Grade	Times Attempted	Equals Value	Quality Points
1	B	2	X3	= 6
2	A	6	X4	= 24
3	C	4	X2	= 8
4	B	3	X3	= 9
5	F	3	X0	= 0
TOTALS			18	47

Divide the total number of hours attempted into the total quality points and that will give you your GPA; in this case 2.61 is the GPA

## Attendance Policy

College instruction is designed for students to learn by way of class attendance, and regular attendance is a key to academic success. Attendance is based on class meetings and calculated from the first class meeting, not based on when the student enrolls in the class. Students are expected to punctually attend all class sessions in the courses for which they are registered. Late arrivals and/or early departures may count toward total absences in classes.

Students who have not attended at least once by the 10 percent date of the class will be dropped by the instructor as a "No Show." No tuition or fee adjustments will be made. For example: A student enrolls in a three credit hour class totaling three meeting hours per week. The class meets 16 weeks for a total of 48 hours during the semester. Ten percent of this class would be 4.8 hours rounded to 5. Therefore, the fifth class meeting would be the 10 percent point of the class.

Within their respective departmental guidelines, instructors are responsible for stating their own course attendance and tardiness requirements on course syllabi distributed at the beginning of the academic term. It is the student's responsibility to know and understand the attendance requirements for each instructor and to understand how attendance in class might affect his or her final grade.

Regardless of how attendance is used in grading, faculty are required to keep a timely record of attendance for each student through the end of the semester using a college approved record keeping software.

Attendance in online (Internet and Hybrid) courses is measured not only by completion of an initial enrollment verification assignment (within the first 10% of the semester) but also by completion of the required coursework and/or online participation, as defined by the instructor on the course syllabus. In Hybrid courses, students MUST meet on the required meeting dates specified by the instructor (first class meeting, lab, etc.). See [www.cfcc.edu](http://www.cfcc.edu) for course information.

Special note to Marine Technology students: Students in the Marine Technology curriculum are at times involved in cruises on the ship that might take place during a holiday or semester break during which time students are normally off. When such occurs, students must participate in the cruise.

### ***Religious Observance Notification***

Students will be allowed two days of excused absence each academic year for religious observances required by the faith of the student. Students are required to provide written notice of the request for an excused absence by completing the Religious Observance Absence form available in Student Services and Enrollment Management. The completed form must be submitted to the Vice President for Student Services and Enrollment Management or his/her designee a minimum of ten (10) school days prior to the religious observance. The Vice President for Student Services and Enrollment Management or his/her designee will notify the instructor within three (3) school days of receiving the request. Students will be given the opportunity to make up any tests or other work missed due to the excused absence and should work with their instructors in advance of the excused absence to delineate how to make up the missed coursework (N.C.G.S. 115D-5).

### ***Student Veteran Attendance Policy***

CFCC recognizes the unique situations student veterans sometimes face which can affect their attendance. If a student veteran receives orders for unexpected short-term deployment or training, or for medical appointments, he/she may receive absences totaling 30 percent of the total clock hours of a class. The 30 percent includes a combination of the 20 percent allowed by the college policy (unexcused absences) plus an extra 10 percent (excused absences). In most cases, absences in excess of 30 percent would result in the student receiving a grade of "W" for the course.

A student seeking an excused absence should first present orders/documentation to the CFCC Veteran Affairs Coordinator, to be shared with the respective Department Chair and the student's instructor. The college acknowledges that some classes, such as biology and clinicals in health sciences programs, have unique content; it may not be possible for a student to receive an extension on the assignments in these courses.

We also recognize that there will be unique cases that will require the exercise of sound judgment. Instructors are encouraged to discuss these cases with their Department Chair and the Veterans Affairs Coordinator. Our collective goal is to assist student veterans in completing their course of study.

Student veterans that are currently serving in the Guard/Reserve must adhere to the College's No Show Policy by attending all of their classes before the deployment or training begins. Veterans unable to attend the beginning of the semester should register for the second mini classes when available. (Example, if you have a Military School/AT that begins before the start of the semester, you will need to delay your registration until the next applicable date.)

### ***College Closings or Delays***

In the event of inclement weather, Cape Fear Community College may close or delay classes depending on the weather forecast and local conditions. All official college closings and delays will be posted on the college web site at [www.cfcc.edu](http://www.cfcc.edu), myCFCC online portal, the CFCC Emergency Information Hotline (877) 799-2322, and through the local news media. Students who subscribe to the text messaging alert system through CFCC online portal will be notified of closings and delays through text messages. Students are encouraged to familiarize themselves with these resources as soon as possible.

### ***Inclement Weather***

While the College makes every effort to provide a safe environment on campus, the College does not take responsibility for student safety while traveling to and from campus. During periods of inclement or hazardous weather, students must use their best judgment when deciding to come to class. College officials do not expect students to take extreme risks to their personal safety to attend class. However, if a student chooses not to come to class due to inclement weather when the college is open, the student will be counted as absent in accordance with the course syllabus (see the Attendance Policy on page 21).

### ***Expressive Activity Policy***

#### **1. POLICY STATEMENT**

Cape Fear Community College (CFCC) upholds the freedoms of speech and expression guaranteed by the First Amendment of the U.S. Constitution for all members of the College community. The College is a place where all ideas and opinions may be expressed freely. The right to free speech and expression does not include unlawful activity that endangers the safety or well-being of any member of the College community. Further, it does not include any activity that interferes with the education of other students or the mission of the institution.

The College has the right, under appropriate circumstances; to regulate the time, place, and manner of exercising these and other constitutionally protected rights.

Providing forums for expressive activity is important because members of the College community have a right

to hear, see, and experience diverse intellectual and creative inquiry. Defending that right is a fundamental obligation of the College. Controversy cannot be permitted to abridge the freedoms of speech, thought, expression or assembly.

## 2. NO ENDORSEMENT

Although expressive activity is allowed, it is not endorsed by the Board of Trustees or the College unless specifically approved as a College-sanctioned activity. No individual or group may claim approval or endorsement by the College except with prior written approval by the President or designee.

## 3. FORUMS FOR EXPRESSIVE ACTIVITY

To facilitate the free exchange of ideas, the College has established space on the College's premises that may be used by any person, including external groups and other campus guests, for expressive activities. Such activities are inclusive of literature distribution. This use may be without permission or approval from the College so long as the area has not been previously reserved or scheduled for a particular function; no sound amplification is used; and the participants do not violate other College policies. Although it is not necessary for a person using one of the designated outdoor spaces to obtain prior permission from the College, CFCC encourages such persons to contact the Office of Community Relations for scheduling purposes to minimize possible conflicts.

### 3.1. OUTDOOR LOCATIONS

The College has set aside outdoor areas for forums, rallies, demonstrations, and other similar activities. These areas may also be reserved through the College's space reservation system (Community Relations Office). Organizations or individuals who reserve these areas have priority. The outdoor areas currently designated for expressive activity are:

**3.1.1. Downtown Campus:** The grassy area in front of the Burnett (W) Building on Water Street.

**3.1.2. North Campus:** The covered brick patio between the Eric B. McKeithan Center and the soccer field.

## 3.2. ADDITIONAL SPACES FOR EXPRESSIVE ACTIVITY

Members of the College community and external guests may also utilize other spaces on College premises for expressive activities on a first-come-first-serve basis such as: courtyards, walkways, grassy areas, and all other areas of the College's premises (including without limitation hallways, lobbies, offices, classrooms, libraries, cafeterias, and auditoriums). Participants must not violate College policies or use sound amplification for expressive activities. Similar to the guidelines outlined in Section 3.1, CFCC encourages the College community and external guests to contact the Office of Community Relations for scheduling purposes to minimize opportunities for disruption to the College's educational and administrative functions.

**3.3.** External groups and individuals also have access to those public forums that may exist on the city sidewalks, city parks, and other public non-College properties that are near or adjacent to the College campuses.

## 4. POLICY EXPECTATIONS

At CFCC, anyone may distribute printed material, offer petitions for signature, make speeches, and hold protests or demonstrations on college premises. To ensure the safety of all members of the College Community, and the functional integrity of the institution's educational mission, the following points are emphasized as policy expectations:

**4.1.** All such activities must be peaceful, avoiding acts or credible threats of violence and preserving the normal operation of the College.

**4.2.** No event shall infringe upon the rights or privileges of anyone who disagrees with the content of expression conveyed.

**4.3.** No one will be permitted to harm others, damage or deface property, block access to College buildings, or disrupt classes.

**4.4.** The enforcement of these conditions will not depend in any way on the message or sponsorship of the act or event.

**4.5.** Members of the College community who engage in expressive activity shall continue to be fully responsible for their educational or occupational obligations.

If an expressive activity does not satisfy these policy

expectations, disrupts College operations or creates a safety hazard, College officials will require the activity to be relocated or rescheduled. Students, employees, and or community visitors who do not abide by the established policy expectations may be subject to discipline by the College and/or law enforcement.

### 5. SPACE RESERVATION PROCEDURES

The President or designee shall implement space reservation procedures that comply with this Policy.

#### 5.1. CONSIDERATIONS FOR EVALUATING SPACE REQUESTS

CFCC administration and the Office of Community Relations will consider the anticipated size, required accommodations, noise levels, traffic, time, relationship to nearby areas, security needs, and the evaluation of other relevant scenarios to determine (a) whether a suitable location exists and (b) whether health and safety concerns require special precautions or arrangements.

### 6. DEFINITIONS

For the purposes of this Policy, (1) "expressive activity" means public speech protected by the First Amendment to the U.S. Constitution, which includes, by way of example and not limitation, attempts to address all or portions of the College community with the intention of expressing social, political, religious, artistic, or other views; to disseminate written materials; or to request, accept, collect donations or contributions for a non-profit purpose and (2) "College premises" means property owned, leased, managed, or otherwise controlled by the College including without limitation green space, courtyards, walkways, buildings, and vehicles.

\*Last updated: Approved 1/11/17\*

## ***CFCC Student Activity Fee Allocation Procedure***

### **Student Activity Fee Allocation Committee**

The Student Activity Fee Allocation Committee (SAFAC) is an internal committee within the Student Services and Enrollment Management Division. The role of the committee is to review and allocate student activity fee funds to active student clubs/organizations for their programs and activities. Active clubs and organizations have completed the annual New Club/Organization Application or Club Renewal Form and have the documents approved by the Department of Student Activities. Clubs/organizations must be in good standing to receive student activities fee allocations. Active clubs or organization in good standing send a representative to at least 75% of the Student Government Association (SGA) General Assembly meetings each semester.

The SAFAC strives to insure that the final allocations are fair and represent the diversity of the campus community. The committee is composed of six members: two student members appointed by the SGA President; one faculty member appointed by the Faculty Association; one staff member from the Student Services & Enrollment

Management Division appointed by the Vice President for Student Services, and one standing member who shall be the Assistant Director of Student Activities. The Director of Athletics and Activities, or his/her designee, serves as the chair and as an ex-officio member of this committee. All members except for the "standing" and "ex-officio" members are appointed annually.

The role of the SAFAC ensures collaboration and inclusivity in the process for reviewing budget requests and making recommendations for student club/organization allocations. The diverse composition of the committee serves as a safeguard that provides checks and balances among the constituency groups that are involved in the decision-making process. All meetings of the SGA and the SAFAC shall be open to the public and minutes shall be available upon request. SAFAC meetings will be recorded. These recordings will be made available on the Student Activities website; back-up recordings of SAFAC meetings will be stored and maintained by the Director of Athletics and Student Activities.

### **Student Club/Organization Fund Allocation Priorities**

Allocation of student activity fees are consistent with the following priorities:

1. Established programs that are institutionally supported and recognized. These are generally collaborative programs sponsored by student clubs/organizations and College departments designed to benefit the campus community.
2. A program and/or project, which is educational in nature and is intended to be of service to the entire campus community.
3. Travel for competitions against students and/or teams from other colleges and universities; and student representation or presentations at regional and national conferences.
4. Non-educational programs or projects that are available to the entire campus community. Such programs are intended to create an atmosphere conducive to the development of positive social connections among students, faculty, and staff.
5. A comprehensive program and/or project which provides both educational and/or academic experiences designed to benefit the members of the sponsoring club/organization and/or national / state / regional conferences to benefit the membership of the club/organization.

Note: In addition to the established priorities and before approving allocations of funds, the SAFAC should take into consideration the diversity of student clubs/organizations represented on campus and work to ensure that the distribution of these funds provides the maximum benefit for all students.

## Regulations

1. No student activity fee funds shall be used by any person or eligible student club/organization for the personal benefit of any of its members, other persons or another club/organization.
2. Student activity fee funds shall not be used to establish petty cash funds.
3. Student activity fee funds shall not be used to finance, support or influence the voting on any governmental issue at any level and funds may not be used to influence public opinion or legislation.
4. All eligible student clubs/organizations receiving funds from the student activity fee are subject to the general regulations set forth by CFCC and the North Carolina Community College System <http://www.nccommunitycolleges.edu/sbcccode/chapter-e-student-tuition-and-fees>.
5. The maximum amount that an eligible club/student organization may be allocated cannot exceed \$500 per academic year.
6. A separate club/organization account will be established. The Business Office maintains the funds for clubs/organizations until such time as the club draws from them.
7. Respective club funds may be expended using CFCC's established purchasing guidelines only <http://cfcc.edu/sacscoc/IMAGES/PURCHASINGGUIDELINES9F1B.PDF?id=0229c922-12b6-e511-b837-d639cd757391>. These guidelines ensure that those persons (CFCC Advisor) within the club/organization are authorized by the College to administer the funds and follow CFCC purchasing guidelines for all business transactions.
8. Any club/organization found to be abusing the student activity fee funds may be ineligible for further allocations of funds during the remaining portion of the academic year. Additionally, the SAFAC committee may find the club/organization ineligible to receive student activity fee funds for the following academic year.

## Club/Organization Funding Decision Factors

The SAFAC will use several general criteria in the evaluation of budget requests. They are as follows:

1. The success and effectiveness of the club/organization in planning and executing past programs. Newly established club/organizations will not be judged by this criterion.
2. The quality and thoroughness of the written applications. Clubs/organizations are responsible for ensuring that the application is completed thoroughly and in its entirety.

3. Only clubs/organizations registered through the Department of Student Activities are eligible to receive funding.
4. Funding decisions and allocations will be made in a viewpoint neutral manner and will not be done because of an activity/organization's point of view or message.

## Funding Allocation Process

1. Clubs/organizations are required to outline plans for proposed activities; including dates, locations, and budget. Plans should be reviewed and approved by club/organization advisors. All clubs / organizations planning to request funds from the SAFAC are required to submit the online CFCC Club/Organization Activity Funds Request Form 30 days prior to the date funds are needed.
2. SAFAC will convene monthly review sessions, following scheduled SGA meetings, to discuss funding requests. Funding decisions will be conveyed to student clubs/organizations via email within one business day.
3. SAFAC shall entertain appeals from student clubs/organizations. The appeal process is outlined in the next section.
4. Clubs/organizations will do their best to raise other funds for activities each respective club/organization wishes to participate in. Active clubs/organizations in good standing can request that student activities match total amounts raised by 50% (Cap \$500) per academic year.
5. Student Activities will only match a percentage of funds raised by clubs/organizations over the academic school year (subject to funds availability and approval).

NOTE: Student activity fund requests must go before the SAFAC to be approved; no funds will be allocated or distributed without the committee's endorsement.

## Appeal Process

All appeals must be filed in accordance with the guidelines established by the Student Activity Fee Allocation Committee (SAFAC). Appeals shall be submitted in writing to the Vice President for Student Services and Enrollment Management within ten (10) business days of funding notification. The written appeal must outline the specific funding decision being appealed and the reason for the appeal.

Appeals may only be based upon the following criteria:

1. Established policies and procedures were not followed.
2. The funding decision was arbitrary or capricious. The fact that the SAFAC did not fund a request at the requested level does not constitute grounds for an appeal.

\*Last updated: Approved 2/11/17\*

## Student Participation in CFCC Activities

Student success at Cape Fear Community College is based upon academic excellence. Accordingly, students should attempt to attend all scheduled class and laboratory sessions. Participation in extra-curricular activities is also important to the total education and personal development of CFCC students. Occasionally, a student may be required to miss a class session in order to participate in college-sponsored activities such as athletics, Phi Theta Kappa Honor Society, CFCC Ambassadors, Student Government Association, program conferences and competitions, and other activities approved by the Director of Athletics/Student Activities.

College officials sponsoring such approved student activities are expected to provide advance notice to faculty of anticipated absences and the list of students who will be participating. In addition, participating students must also inform their instructors in advance of such anticipated absences and are expected to make advance arrangements for making up all missed assignments. In such cases, class time missed will not usually be counted as absences provided participating students are otherwise in good academic standing.

If a faculty member believes that missing class due to a student activity is detrimental to the academic success of a specific student, the faculty member may request that the Vice President for Student Services and Enrollment Management (or his/her designee) review that student's overall academic and attendance records to determine if the student's absence warrants exemption from the College's regular attendance policy.

Students who disagree with the Vice President's decision may appeal to CFCC's Judicial Board according to the College's Grievance Procedure.

## Final Grades

Final grades will be available through Student Planning or WebAdvisor to students after the end of each academic session. Course grades, along with semester and cumulative grade point average (GPA), will be displayed. Grade reports are no longer printed and mailed to students.

## Incomplete Grades

An incomplete (I) will be given only when circumstances justify additional time to complete the course. Students must contact the instructor to request an Incomplete Grade. When an incomplete is granted, the course requirements must be completed within six weeks of the beginning date of the next academic session. Incompletes (I) not finalized within the appropriate time frame will convert to an "F". Exceptions may be made by the Vice President for Student Services and Enrollment Management.

## Credit by Proficiency

For selected courses, students may request credit by proficiency examination for previous experience or training. The student must be currently enrolled at CFCC and **must not have enrolled in the course prior to taking the proficiency exam.** The student must make written

application to the Registrar and the department chair. Students may challenge a course only once. Students successfully passing a proficiency exam will receive credit for the course as a "CR" (credit for record). Credit by Proficiency does not usually transfer. CLEP and AP exams (see below) may be used in lieu of proficiency exams.

## CLEP-College Level Examination Program

### CLEP – College Level Examination Program®

The College-Level Examination Program® or CLEP provides students of any age with the opportunity to demonstrate college-level achievement through a program of exams in undergraduate college courses.

CFCC may grant credit in appropriate courses on the basis of CLEP examination results. The following guide describes the cutoff scores and credits that may be earned through the CLEP. *Credit may be awarded for other CLEP tests not listed.* Students should submit official CLEP scores and meet with a counselor in Student Services and Enrollment Management prior to registration for possible credit and proper course placement.

CFCC Examination	Credit Course	Min. Hour	Score
Accounting	ACC 120	4	50
Biology	BIO 110	4	50
Chemistry	CHM 151 + lab	4	50
Information Systems & Computer Applications	CIS 110	3	50

### IB (International Baccalaureate)

Students may receive credit by examination for achieving acceptable scores on the High Level (HL IB) International Baccalaureate examinations. Official test scores should be sent to the Registrar's Office for evaluation prior to registration for possible credit and proper course placement. CFCC only accepts certain exams of the "High Level".

### DSST

#### (DANTES Subject Standardized Tests)

Students may receive credit by examination for achieving acceptable scores on the DSST (DANTES Subject Standardized Tests). Students should submit official DSST scores prior to registration for possible credit and proper course placement.

### Educational Partnerships

Cape Fear Community College and its partners work together to provide a variety of academic, cultural, and work-based experiences designed to enhance the educational experience of students and improve the quality of life for local residents.

### Partnerships with Business and Industry

#### Work Based Learning

CFCC partners with local business and industry to offer students on-the-job training opportunities through Work Based Learning. Participating students may earn college credit using approved work experience(s) specifically related to their educational program goals. Work Based Learning classes include WBL 111, WBL 112, WBL 121, and WBL 131.

Employers and organizations interested in having a work-based-learning student are urged to contact the Dean of Vocational and Technical Education at 910-362-7009 and see our web page: <http://cfcc.edu/wbl/>.

Student Enrollment Criteria: To qualify for one of these classes, students must meet the following criteria:

- Must be at least 18 years old. Students under 18 years old may participate if they have approval from the college and worksite. They must also complete an online NCDOL Youth Employment Certificate. The responsibility for filing the certificate lies with the employer.
- Must be enrolled in a program that offers WBL courses.
- Transcripts or degree audit must be attached with your application.

Please Note: Individual programs may have additional requirements for enrolling in a work-based-learning work experience course.

**Registration Process:** To register for a Work Based Learning course, a student must submit an application directly to the WBL instructor. After the college has approved the application, the student may register using WebAdvisor or through his/her academic advisor during the registration period. A Work Based Learning application is required each semester the student plans to enroll. The application is available online (<http://cfcc.edu/wbl/>).

Please note: Work-based-learning courses may not transfer to four-year institutions. Students should always check with the receiving college or university to verify transferability of any course. The college reserves the right to limit work-based-learning experiences based on the appropriateness, applicability, and location of the position.

For more information, please see the Work Based Learning Web page: <http://cfcc.edu/wbl/> or contact the Dean of Vocational and Technical Education at 910-362-7009 or your lead instructor (AAS programs only).

### ***Partnerships with Community Agencies***

#### **The North Carolina Career and College Promise Program: College Opportunities for High School Students**

CFCC partners with high schools to offer high school students the opportunity to enroll in college classes early in order to earn both high school and college credit upon successful completion of CFCC courses. For more information, please see "The North Carolina Career and College Promise" in the Admissions section of this catalog or see our web page: <http://www.cfcc.edu/ccp>.

#### **Service Learning**

CFCC partners with local community service-based agencies to provide students enrolled in select classes the opportunity to complete service learning activities to fulfill requirements for a course project. The goal of service learning is to integrate into an assignment meaningful community service activities that help students better understand the course content. These activities should:

- Provide opportunity to apply ideas and theories learned in class to a reflective, service-based experience;
- Help students become more interconnected with the community through their contributions.

For more information about service learning projects at CFCC, please see our web page: <http://www.cfcc.edu/ServiceLearning>.

#### **History Teaching Alliance**

The History Teaching Alliance (HTA), a partnership between CFCC, UNC-Wilmington, high schools, and local public historical sites and organizations, coordinates events

designed to appeal to the intellectual curiosity of history educators and students. For more information about the HTA, please see our Web page: <http://cfcc.edu/blogs/hta/>.

#### **Partnerships with Four-Year Institutions:**

CFCC partners with public and private North Carolina four-year colleges and universities to provide a clear pathway from associate degree coursework to baccalaureate studies.

**Statewide Comprehensive Articulation Agreements:** The following transfer articulation agreements between North Carolina community colleges and North Carolina colleges and universities provide qualifying AA, AE, AS, and AFA graduates clear guidelines for transferring from CFCC to a four-year college or university in North Carolina:

- The North Carolina Comprehensive Articulation Agreement between North Carolina community colleges and North Carolina public universities.
- The Uniform Articulation Agreement between the University Of North Carolina Baccalaureate Engineering Programs and North Carolina Community College System Associate in Engineering Programs.
- The Independent Comprehensive Articulation Agreement between North Carolina community colleges and 24 North Carolina independent colleges and universities.

**Bilateral Agreements:** CFCC and select UNC institutions have bilateral agreements that provide qualifying graduates of AA, AS, and some AAS programs a pathway for transferring coursework into a four-year degree.

#### **Select AAS programs:**

- Qualifying graduates have the opportunity to transfer to UNC-Pembroke and earn a Bachelor's of Interdisciplinary Studies through online learning courses or face-to-face courses that UNC-Pembroke offers on the campus of CFCC.
- Qualifying graduates have the opportunity to transfer into UNC-Wilmington's Education of Young Children bachelor's program.
- Qualifying graduates can transfer to NC Wesleyan College to earn either a Bachelor of Science in Business Administration or a Bachelor of Science in Education. Both degrees are offered partly at a CFCC campus and partly online.

#### **AA and AS (college transfer) programs:**

- CFCC and UNCW Bilateral Agreement: Qualifying graduates have assured acceptance into UNC-Wilmington, provided graduates have completed the UNC-Wilmington application process and met all criteria stipulated in its bilateral agreement with CFCC. Graduates are admitted to UNC-Wilmington on a space-available basis; spring applicants may be deferred to the FALL SEMESTER if space is not available.

- CFCC and NC Wesleyan College Bilateral Agreement: Qualifying graduates can transfer to NC Wesleyan College to earn either a Bachelor of Science in Business Administration or a Bachelor of Science in Education. Both degrees are offered partly at a CFCC campus and partly online.

For more information, refer to the "College Transfer General Information and Articulation Agreements" section of this handbook and see our Web page: <http://cfcc.edu/partnerships/>.

### **Independent Study**

CFCC provides the opportunity for students to pursue, on an individual basis, subjects in the students' major area of study. Independent study is not intended, nor will it be allowed, as a substitute for existing courses as listed in the schedule of classes. If the student is preparing to complete the last full semester of study prior to graduation and the college is unable to offer a major course required for a degree, independent study may be considered. In an independent study arrangement, the student first seeks approval from the respective department chair who then works to identify an instructor to supervise the study. The chair will contact the student to let them know if there is an instructor available to supervise the study. The student then meets with the instructor. The instructor provides for a course outline and discusses course requirements and expectations with the student. The instructor then notifies the appropriate chair who authorizes scheduling of the course. The number of credits may vary. Current tuition rates apply, as do standard grading policies. Independent study opportunities are for students who:

- are currently enrolled in classes at CFCC
- have earned a 2.0 or higher cumulative GPA
- have completed 12 credits in their major program of study
- have met the pre-requisites and/or co requisites of the course proposed for independent study

Independent study courses are subject to the consent of the department chair and the availability of qualified instructors. Courses are run by semester and all work must be completed within the semester dates. Only one (1) course taken as independent study may be applied toward an associate degree, diploma, or certificate.

### **North Carolina High School to Community College Articulation Agreement**

Through an agreement between the North Carolina State Department of Public Instruction and the North Carolina Community College System, high school graduates are eligible to receive CFCC credits for certain courses upon presentation and evaluation of a high school transcript. Courses eligible for CFCC credit can be found in the articulation agreement. Copies of the agreement are located

in the offices of high school counselors. Award of credit will only be given for courses that are required in a student's CFCC program of study. Criteria to award college credit:

- Students must enroll at the community college within two years of their high school graduation date.
- A grade of "B" or higher is required for the course.
- A raw score of 90 or higher is required on the standardized Career and Technical Education (CTE) post-assessment score report.

Any student wishing to receive credit should submit both an official high school transcript and CTE post-assessment score report. A CFCC counselor should then be contacted for transcript evaluation.

### **Experiential Learning**

CFCC does not award direct credit for previous experience or training. Proficiency exams or CLEP exams may be used as a means of receiving credit for prior knowledge.

### **Academic Program of Study**

A Program of Study is a specific or specialized academic field. Students seeking a degree, diploma or certificate are enrolled in a program of study. All programs of study/curriculum programs can be found on pages 54-55.

### **Academic Program Change**

Students who desire to change from one academic program to another must see a Counselor to complete a Change of Program form. The counselor will evaluate program requirements and prerequisites and advise the student of any academic deficiencies. Students should also request re-evaluation of their transfer credits including previously earned CFCC credits. Students should complete this process prior to any registration period.

### **Course Repeat Policy**

Courses that are repeated fall into three different categories:

1. Courses with an earned grade of "C" or better may be repeated two times.
2. Courses with an earned grade of "D," "F," "W," "WP," "XF," or "WF" may be repeated until successfully completed.
3. Audit courses may be repeated a maximum of two times.

When a course has been repeated, the higher grade will be used in the Grade Point Average (GPA) calculation. Lower grades will be removed from GPA calculation; however, these grades will continue to appear on the academic transcript.

Students who receive Veteran's Benefits or Financial Aid should be advised that they may not receive funds for repeating courses which they have already passed.

Also, students who have received a degree from CFCC should be advised that the policy will not apply to courses which were taken to fulfill previous graduation requirements. A final student GPA is computed at the time of graduation, and this GPA may not be recalculated as courses are repeated.

The above Course Repeat Policy became effective Fall quarter, 1991 and were revised Fall 2004.

### **Academic Forgiveness**

Students may request, in writing, to the Registrar to have previous credits exempt from calculation in their cumulative grade point averages. Academic forgiveness is designed to assist returning students with low grades to have a fresh start upon re-enrolling after having at least a three-year period of non-enrollment at CFCC. Prior to evaluation for Academic Forgiveness, the student must be re-admitted to the college, register and successfully complete the first semester of course work at the 100 level or above with a GPA of 2.0. Exceptions may be made by the Vice President for Student Services and Enrollment Management.

Grades which may be disregarded from students' grade point averages are "F", "XF", "WF", and "NC".

Students granted academic forgiveness will have their cumulative grade point averages recalculated. While the forgiven grades will continue to appear on the official transcript, they will be marked as forgiven.

Academic forgiveness will be granted only one time and must be completed before graduation from a Cape Fear Community College Program

Grades that are included in academic forgiveness are not exempt from academic progress relating to Financial Aid and VA educational benefits.

Academic Forgiveness has no bearing on any other institution or how they calculate grade point averages.

Note: The three year period of non-enrollment begins starting the term after the last enrollment and goes for three years or nine full terms. For example, if the student stops attending after the Spring term, they must not be enrolled for nine full terms, Summer, Fall, Spring, Summer, Fall and Spring, Summer, Fall, Spring. The next Summer (or after) would be the term that they could return, achieve a 2.0 or higher, and then submit for academic forgiveness for courses that were taken prior to the non-enrollment.

### **Grade Appeal Procedure**

The purpose of the Student Grade Appeal Procedure is to provide an orderly and equitable process for resolving differences between students and faculty relating to final grades where the student believes he/she is being treated unfairly or arbitrarily.

### **Procedure**

- Step 1. The student with the conflict must first discuss the issue with the class instructor to attempt to resolve the difference. Every reasonable effort should be made to resolve the matter at Step 1. This initial conference must occur within fifteen (15) week days of the beginning of the subsequent school term. The instructor must notify his/her department chair of the grade appeal and provide written documentation.
- Step 2. If a satisfactory resolution is not reached at Step 1, the student may contact the department chair seeking resolution. The student must contact the chair within ten (10) weekdays of the conference with the instructor. The department chair will seek equitable resolution by conferring with both the student and the instructor.
- Step 3. If the student continues to be dissatisfied, he/she may, within five (5) weekdays of the date of notification of Step 2, file a written notice with the instructional dean responsible for the course in question. The dean will review and evaluate the conflict to determine what action, if any, should be taken to resolve the conflict. Written notification of that determination will be sent to the student within fifteen (15) weekdays of receipt of student's written notice.
- Step 4. If the student is dissatisfied with the outcome of Step 3, he/she may file a written grade appeal with the Vice President for Student Services and Enrollment Management. Within ten (10) weekdays of receipt of the written appeal, the Vice President for Student Services and Enrollment Management will convene the Academic Subcommittee of the Judicial Board to hear the appeal and make a determination regarding the issue. The Vice President for Student Services and Enrollment Management will then notify, in writing, the student, the dean, the department chair, and the instructor of the Academic Subcommittee's decision. The student may appeal the Academic Subcommittee's decision to the President of the College or his/her designee. This appeal must be made within ten (10) weekdays of the student's receipt of the Academic Subcommittee's decision. The appeal process consists of the President of the College or his/her designee reviewing the written record submitted to date and does not involve an additional hearing. The President of the College or his/her designee will respond with his/her final decision to the appeal within ten (10) weekdays of receipt of the appeal.

Students dismissed from the clinical area in Health Sciences and Nursing programs will follow the appeals process outlined in the program student handbook.

## ***Satisfactory Progress Standards***

Each student is expected to make satisfactory progress toward obtaining the degree, diploma, or certificate he/she has declared. The cumulative grade point average is reviewed at the end of each semester to determine whether the student has made the expected progress. The minimum cumulative GPA for remaining in good standing is  $\geq 2.0$ .

## ***Academic Warning and Probation***

Students whose cumulative grade point averages fall below Satisfactory Progress Standards (Cumulative 2.0 GPA) for any given semester will be placed on academic warning for the following semester. The notice of the warning will be sent to the students and their advisor for documentation only. Students on academic warning are encouraged to access CFCC resources including the Learning Lab, Counseling, enrolling in ACA 111 or ACA 122, advisors, Disability Support Services, and/or Career Services.

Students on academic warning whose cumulative grade point average remains below the Satisfactory Progress Standards (Cumulative 2.0 GPA) for the subsequent semester will be placed on academic probation for the upcoming semester. Students and their advisors will be notified of the academic probation. In addition, during the fall and spring semesters, students on academic probation may register for a maximum of ten (10) credit hours after meeting with their advisor and/or  $\geq$  counselor to ensure academic success. During the summer session, students on academic probation may register for one course per session but not more than two for the entire summer semester.

Furthermore, students on academic probation whose cumulative grade point average remains below the Satisfactory Progress Standards (Cumulative 2.0 GPA) any subsequent semester thereafter will remain on academic probation until the satisfactory progress standard (Cumulative 2.0 GPA) is met. Students on academic probation are encouraged to repeat courses in which they received failing grade, and may register for a maximum of six (6) credit hours per semester. Students will remain on academic probation with limited credit hour enrollment until their cumulative GPA reaches 2.0. Students receiving financial aid must maintain satisfactory academic progress (SAP) to be eligible to continue to receive funding. All earned grades will be used to determine a student's compliance with the 2.0 cumulative GPA requirement, and all attempted hours will be included in the calculation of maximum time frame.

## ***Academic Integrity / Cheating and Plagiarism***

Cheating is any practice which gives one student  $\geq$  dishonorable advantage over another student engaged in the same or similar course of study. It shall include, but is not limited to the following: securing or giving assistance during examinations or on required work; the improper use of books, notes, or other sources of information; or the altering of any grade or academic record. Plagiarism includes submitting as one's own work or creation of any kind that which is wholly or in part created by another. All sources, including Internet content, whether paraphrased or quoted, must be cited

correctly. Direct quotes must have quotation marks around them, or they are considered plagiarism even if the quote is correctly cited. Rearranging parts of author's sentences or substituting  $\geq$  few words is NOT paraphrasing and also constitutes plagiarism. When a faculty member observes cheating or acts of plagiarism on the part of the student, the case shall be handled in accordance with the following procedures:

1. The faculty member shall notify the student who has been observed cheating or plagiarizing that he/she will receive a grade of "F" on the assignment or "F" in the course. The faculty member, however, shall afford the student an opportunity to clarify his/her position. If the student accepts a grade of "F" on the assignment, the student may remain in the class.
2. The faculty member shall submit  $\geq$  written report of the incident stating the facts and the action taken to the Department Chair, the Dean, and Vice President for Student Services and Enrollment Management within ten (10) weekdays from the time the incident was discovered.

## ***Right of Appeal***

To initiate an appeal of an action taken in response to a violation of academic integrity, the student must submit a written appeal to the Vice President for Student Services and Enrollment Management within ten (10) weekdays after being notified of the action. The Vice President for Student Services and Enrollment Management will present the appeal to the Academic Subcommittee of the Judicial Board within ten (10) weekdays.

The committee will provide written notification to the Vice President for Student Services and Enrollment Management of its decision. The Vice President for Student Services and Enrollment Management will then notify the student, faculty, department chair, and dean of the committee's decision. The student may appeal the Academic Subcommittee's decision to the President of the College or his/her designee. This appeal must be made within ten (10) weekdays of the student's receipt of the Academic Subcommittee's decision. The appeal process consists of the President of the College or his/her designee reviewing the written record submitted to date and does not involve an additional hearing. The President of the College or his/her designee will respond with his/her final decision to the appeal within ten (10) weekdays of receipt of the appeal.

## ***Prerequisites and Corequisites***

A prerequisite is a course that must be taken prior to another course. A corequisite is a course that must be taken at the same time as another course or prior to the course to be taken. The college may mandate prerequisites and corequisites to ensure students are prepared to meet the requirements of the course material. Pre and corequisites are identified in the catalog. Students are responsible for meeting their program requirements, including prerequisites and corequisites. If students sign up for a class and do not meet the pre and/or corequisite requirements they may be administratively dropped from the course.

Students who drop on their own or who are administratively dropped after the first day of class and before the published refund date, are only eligible for a 75% refund. Students are advised to review published course prerequisites and co-requisites carefully before enrolling.

### ***Waiver of Prerequisites and Corequisites***

The Vice President for Academic Affairs and Workforce Development and the academic deans may waive pre and corequisites. Normally, a waiver will be recommended by the appropriate program director and approved by the department chair, dean, and the Vice President for Academic Affairs and Workforce Development.

### ***Catalog of Record***

Students are expected to meet the catalog requirements in effect at the time of their enrollment into a curriculum program. Anyone not in continuous enrollment for more than one semester (not counting summer) will be readmitted under the requirements of the current catalog. A student who changes programs must meet the requirements of the catalog in effect at the time of the change of program. A student's academic advisor can recommend substitution of courses with adequate cause. Substitutions must have written approval from the instructor, department chair, and the Dean.

Most courses can be counted for credit toward graduation for an indefinite period of time. Some courses that depend heavily on technology, speed and accuracy, physical skills, and language skills will be subject to review after five years unless the student has been continuously enrolled. Courses subject to review may include, but not limited to, keyboarding, computer, foreign languages, developmental, and trades courses.

### ***Degree Audit (Program Evaluation)***

Degree Audit is a tool for tracking graduation progress based on the student's catalog of record. Degree Audit can be accessed through Student Planning and WebAdvisor so that students, advisors, and counselors can follow their progress towards completion of a degree, diploma or certificate. Students can also use the system for "what if" scenarios when considering changing majors.

### ***Requirements for Graduation***

To receive the Associate in Applied Science Degree, Associate in Arts Degree, Associate in Fine Arts Degree, Associate in Science Degree, Diploma or Certificate, a student must maintain satisfactory grades in all laboratory and class subjects and a cumulative grade point average of at least 2.00. (Students must earn a minimum of 25 percent of credit hour requirements at Cape Fear Community College).

### ***Computer Competency***

All CFCC degree graduates must demonstrate basic computer competency. Students in programs that require specific computer coursework may demonstrate their competency by successfully completing the computer class that has been designated in their program. Students in programs that do not require specific computer coursework will need to pass the Computer Competency Test offered through the Learning Lab (second floor, Health Sciences/Learning Resource Center Addition). Results will be forwarded to the Office of the Registrar and added to the student's academic record prior to graduation. Students may acquire basic computer instruction by successfully completing the computer class that has been designated in their program.

Students may demonstrate computer competency in one of the following ways: take the Computer Competency Test in the Learning Lab, or take a college transfer computer course: CIS 110, or CIS 115, or CSC 151. CIS 111 may be used to satisfy the computer competency requirement, but it is not a College Transfer course.

Information and help for students electing to take the Computer Competency Test through the Learning Lab may be found at <http://cfcc.edu/learninglab/>. Additional help may be found at <http://www.gcflearnfree.org/office2013>. Students are advised to prepare for the test through materials found on these pages.

### ***Intent to Graduate***

Candidates for graduation must file an Intent to Graduate in WebAdvisor and complete the Graduating Student Opinion Survey by the following dates:

#### **Academic Year 2017-2018**

Fall-Friday, November 3, 2017  
Spring-Friday, March 16, 2018  
Summer-Friday, June 15, 2018

Commencement exercises are held following the spring semester and at the end of the summer session.

Students who graduate in December are invited to participate in the May commencement exercises.

Upon graduation, a student's eligibility for financial aid and veteran's benefits may end. Therefore, students must contact the Financial Aid and counseling offices if they plan to continue enrollment at CFCC and receive aid in another program beyond graduation.

## Graduation Needs

Orders for caps, gowns and class rings will be accepted by a company representative during announced dates. Students who anticipate graduating at the close of spring or summer academic sessions will be provided a limited number of commencement announcements. Students completing graduation requirements at the close of the fall academic session will be invited to participate in the May ceremony.

## Academic Honors

### President's List

Full time students (12 or more credit hours during fall and spring semesters and 9 or more credit hours in the summer semester) who have earned a grade point average of 4.00 will be placed on the President's List.

### Dean's List

Full time students (12 or more credit hours during fall and spring semesters and 9 or more credit hours in the summer semester) who have earned a grade point average of 3.50 with no grade lower than a "C" will be placed on the Dean's List.

### Honors List

Honors list students are part time, have completed at least 4 credit hours and earned a grade point average of 3.50 with no grade lower than a "C". Part time is 11 credit hours or less during the fall and spring semester and 8 or less during the summer semester.

### President's Award

Graduating students who have achieved an "A" average, defined as a cumulative grade point average of 4.0, are recognized each year at graduation exercises for academic excellence.

(Courses numbered below the 100 level are not used to determine Academic Honors.)

### Departmental Honors

Students who have demonstrated outstanding leadership, attitude and ability will be awarded Departmental Honors. Recipients for these awards are selected by lead instructors in cooperation with appropriate faculty.

## CFCC Honors Program

Mission Statement: The Honors Program at Cape Fear Community College is an academic enrichment program designed to increase the educational experience of students who demonstrate academic excellence. The program offers students distinctive coursework that provides an opportunity to engage in an academically rigorous experience with other outstanding students; and the program allows students to develop skills in effective communication, critical thinking, independent learning, and scholarly exploration. The Honors Program will assist the growth of students both academically and personally and help ensure their continued academic success at Cape Fear Community College and beyond.

## Honors Program Eligibility

Students must be enrolled in an Associate in Arts, Associate in Science, or Associate in Fine Arts program and meet one of the following criteria:

- **Current CFCC Student:** If you are a **current CFCC student** with a **3.5 GPA** in at least **12 Credit Hours** completed at college level, then you are eligible for the Honors Program.
- **Recent High School Graduate:** If you are a recent high school graduate with a **3.5 GPA (unweighted)** or a **3.75 GPA (weighted)** in high school, then you are eligible for the Honors Program.
- **Early College High School:** If you are currently enrolled in an early college high school with a **3.5 GPA (unweighted)** or a **3.75 GPA (weighted)** in high school or a **3.5 GPA** in at least **12 Credit Hours** completed at college level, then you are eligible for the Honors Program.
- **Career and College Promise (Dual Enrollment):** If you are currently in high school and taking college courses through a Career and College Promise program with a **3.5 GPA (unweighted)** or a **3.75 GPA (weighted)** in high school or a **3.5 GPA** in at least **12 Credit Hours** completed at college level, then you are eligible for the Honors Program.

## Benefits to Honors Students

- Honors designation on the degree/diploma
- Recognition at graduation as an "Honors Program" graduate after the successful completion of at least 12 SHC of honors work (4 honors designated academic courses)
- Transferability of CFCC honors credit to several honors programs at North Carolina four-year institutions
- Increased competitiveness and preparation for leadership roles.
- Smaller class sizes
- Increased academic rigor
- Honors advising and mentoring
- Priority registration

To apply to the CFCC Honors Program or for additional information go to [www.cfcc.edu/honors](http://www.cfcc.edu/honors).

# FINANCIAL AID

Cape Fear Community College administers Federal, State and institutional aid programs designed to assist students and their families in meeting the cost of obtaining a college education. These aid programs are intended to supplement available family resources, considered to be the primary source of educational funding.

## Available Aid Programs

### Federal Pell Grant

The foundation of federal student financial aid, Pell Grants are awarded only to undergraduate students (those who have not earned a bachelor's or graduate degree) who demonstrate financial need.

### Federal Supplemental Educational Opportunity Grant (FSEOG)

Supplemental Grants are awarded to undergraduate students. Federal Pell Grant recipients receive priority for FSEOG awards.

### Federal Work Study (FWS)

Work-study awards provide part-time employment opportunities for eligible students to earn money to meet college expenses.

### Federal Direct Stafford Loan

The U.S. Department of Education provides the funding for student loans which are borrowed money that must be repaid with interest. Student must be enrolled in at least six credits each semester to be eligible. Returning student must have earned 30 credit hours to be eligible to borrow a second-year loan.

### Federal Direct PLUS Loan

PLUS loans are available to eligible parents of dependent students who are enrolled in at least six credits each semester. Parent loans are borrowed money that must be repaid with interest.

### North Carolina Community College Grant (NCCCG)

This state grant provides funding to North Carolina residents enrolled in a community college who demonstrate limited or no eligibility for Federal Pell Grants. Eligible students must also:

- Enroll for at least six (6) credit hours per semester in a curriculum program.
- Be a North Carolina resident for tuition purposes as defined by the State Residence Classification Manual.

### North Carolina Education Lottery Scholarship (NCELS)

This state grant provides assistance to NC resident students enrolled at least half-time. Eligibility is determined based on the same criteria as the Federal Pell Grant. Eligible students must also:

- Enroll for at least six (6) credit hours per semester in a curriculum program.
- Be a North Carolina resident for tuition purposes as defined by the State Residence Classification Manual.

### Institutional Scholarships

Scholarships are awarded on the basis of financial need, academic excellence, special talent, or any combination thereof. A separate application is required.

## Applying for Financial Aid

Apply for FSA ID. It will allow a student to apply online for federal and state financial aid and "sign" the application electronically-no paper is involved. Go to [www.fafsa.gov](http://www.fafsa.gov) anytime to request your FSA ID.

### Complete the Free Application for Federal Student Aid (FAFSA)

Go to [www.fafsa.gov](http://www.fafsa.gov) to apply for financial aid. A "FAFSA on the Web" worksheet is available online to assist in completing the application.

## Eligibility after Graduation

Upon graduation, a student's eligibility for financial aid and veteran's benefits will end. Therefore, students must contact the Financial Aid, Veteran and Counseling offices if they plan to continue enrollment and want to receive aid in another program beyond graduation.

## Financial Need and Expected Family Contribution (EFC)

Most federal and state financial aid is awarded based on need. An EFC number is used to determine financial need:

$$\begin{aligned} &\text{Cost of Attendance} \\ &- \text{EFC} \\ &= \text{Financial Need} \end{aligned}$$

The EFC is a measure of a family's financial strength and indicates how much of the family's resources should be available to help pay educational costs. The EFC is calculated from the information provided on the FAFSA according to a formula established by law.

## Verification

Copies of federal tax transcripts and other documents may be required of financial aid applicants to verify the accuracy of the information submitted on the FAFSA. CFCC will notify applicants of documents required to complete the process upon receipt of FAFSA data.

## Notification of Awards

Students will receive a notice announcing that the financial aid award has been processed.

Students who have been awarded Financial Aid, registered for classes, but do not attend at least once by the 10 percent date of the class will be dropped by the instructor as "never attended." Financial aid awards will be adjusted accordingly. No tuition and fee adjustments will be made.

Students who do not qualify for federal or state grant programs will be notified of their non-eligible status.

## Programs Not Eligible for Financial Aid at Cape Fear Community College

Students enrolling in the following programs cannot receive financial aid because the programs do not meet the U.S. Department of Education eligibility requirements.

- Air Conditioning, Heating & Refrigeration Technology (certificate)
- Automotive Customizing Technology (certificate)
- Boat Building (Wooden) (certificate)
- Collision Repair & Refinishing Technology (certificate)
- Construction Management Technology (certificate)
- Industrial Security
- Electrical Systems Technology (certificate)
- Electronics Engineering Technology (certificate)
- Industrial Systems Technology (certificate)
- Landscape Gardening (certificate)
- Sustainable Gardening (certificate)
- Retention Pond Management (certificate)
- Mechanical Engineering Technology: CAD Drafting (certificate)
- Nurse's Aide (certificate)
- Phlebotomy (certificate)
- Plumbing (certificate)
- Real Estate Licensing (certificate)
- Special Credit (major)
- Sustainability Technology (certificate)
- Sustainability Renewable Energy Technology (certificate)
- Sustainable Building Technologies (certificate)
- Truck Driver Training (certificate)
- Welding Technology SMAW/GTAW (certificate)
- Welding Technology GTAW/GMAW (certificate)

NOTE: Associate in General Education (AGE) Program – No financial assistance is available for free elective courses taken from curriculum programs that are ineligible for financial aid unless the courses are required for completion of the diploma and/or degree programs in the same discipline.

## Satisfactory Academic Progress for Financial Aid Recipients

Federal and state regulations require that students receiving financial aid maintain satisfactory academic progress (SAP) to be eligible to continue to receive funding. This policy

applies to all students receiving assistance from any financial aid program administered by the Financial Aid Office at CFCC.

## Qualitative and Quantitative Standards

Financial aid recipients must meet both a "qualitative" and a "quantitative" standard to maintain eligibility for financial aid. Students must maintain a cumulative 2.0 grade point average (GPA) to meet the qualitative standard. Students must also successfully complete 67 percent of all credits in which they enroll to meet the quantitative standard.

Developmental Education courses (designated by course numbers below "100") are included in the calculation of a student's enrollment status. However, no more than 30 Developmental Education course hours can be used to determine a student's enrollment status for financial aid purposes. "Foundation" courses in math and English are NOT eligible for financial aid funding or inclusion in the determination of enrollment status because their content is below the post-secondary level.

Transfer credits from institutions other than CFCC will be totaled and counted in the determination of completion rate and maximum time frame.

Grades of "W", "WP", "WF", "NC", "NS", "I", "R", "U", "XF" and "F" do not count as successfully completed courses but do count as credits attempted and are used in the determination of enrollment status and maximum time frame. Audited courses are not eligible for financial aid funding and are not included in the determination of a student's enrollment status for financial aid purposes.

A student is permitted to repeat a previously passed course one additional time for the repeated course to be eligible for financial aid. A student can repeat a previously-failed course an unlimited number of times. All earned grades will be used to determine a student's compliance with the 2.0 cumulative GPA requirement and all attempted hours will be included in the calculation of maximum time frame.

## Timing of Measurement

Satisfactory academic progress is measured after every semester. All terms of enrollment at CFCC are included in the measurement, even if the student did NOT receive financial aid. Summer and mini-sessions are also included.

## Failure to Achieve Satisfactory Academic Progress

Students who fail to meet either of the progression standards will receive a warning notice. The preferred method of notification is electronic; messages are sent to the student's CFCC e-mail account. Students on warning are eligible to receive one additional semester of financial aid and are expected to use this period to reestablish satisfactory academic progress.

If a student fails to meet either standard for a second consecutive semester, s/he will receive a suspension notice.

No financial aid will be awarded to a student on suspension until the student corrects the academic progress deficiencies. Students who do not meet the satisfactory academic progress requirements for financial aid eligibility can enroll at CFCC without financial aid to correct the deficiencies.

## Appeal Process for Probationary Semester

The right to appeal is granted to any student whose financial aid eligibility has been suspended. An appeal must be based on significant mitigating circumstances that seriously impacted academic performance.

The student should submit a written appeal to the Financial Aid Office. An appeal letter must include why the student failed to make satisfactory academic progress and what has changed that will allow the student to make progress at the next evaluation (i.e., at the end of the next semester of enrollment).

An appeal letter must be accompanied by:

- A typed academic plan clearly stating how the student intends to meet progress standards, and
- A copy of the student's degree audit, which is available on the student's Web Advisor account. The degree audit displays completed courses and courses still required for program completion.
- Students are strongly advised to submit third party documentation supporting significant mitigating circumstances. For example, in case of significant medical issues, documentation may require medical reports and signed statements by physicians regarding the circumstances.

An appeal submitted without adequate documentation will be denied.

The appeal letter and supporting documentation submitted by the student will be forwarded to the Financial Aid Subcommittee of the Judicial Board. If the student chooses to make his/her own presentation to the Subcommittee, a written request to do so must accompany the appeal letter.

Please note that merely filing an appeal does NOT guarantee continued eligibility for financial aid.

The Financial Aid Subcommittee of the Judicial Board will review the appeal within 15 weekdays. Students will be notified of the Subcommittee's decision. The preferred method of notification is electronic; the decision notice is sent to the student's CFCC e-mail account. The decision of the Financial Aid Subcommittee of the Judicial Board is final and no further appeals are allowed.

If the appeal is denied, the student may reestablish financial aid eligibility for subsequent semesters ONLY by taking courses, without benefit of financial aid, until s/he is in

compliance with all components of the CFCC satisfactory academic progress policy (67% completion rate and 2.0 minimum cumulative GPA).

If the appeal is approved, the student regains financial aid eligibility for one probationary semester. During the probationary semester and all subsequent semesters, the student must achieve a 75% completion rate and maintain a term GPA of 2.0. Failure to do so will result in suspension of financial aid after which the student will regain eligibility ONLY by taking a minimum of six (6) credits, without benefit of financial aid, until s/he is in compliance with all components of the CFCC satisfactory academic progress policy (75% completion rate and 2.0 minimum cumulative GPA). The classes in which a student registers to regain eligibility must be required for program completion. Previously-passed courses which the student retakes will not be included in the determination of Continued on Appeal status.

## Maximum Time Frame

Federal regulations also establish 150 percent of the published length of the program as the maximum time frame allowed in which to complete an educational program. Maximum time frames allowed to complete CFCC programs, measured by credits attempted as a percentage of credits required for graduation, is as follows:

Program	# of Credits Required for Graduation	Max # of Attempted Credits Allowed for Financial Aid Eligibility
Certificate	18	27
Diploma	48	72
AAS	76	114
College Transfer/ AGE	65	98

If a student earns 67 percent of the credits attempted each semester, the student should complete the program of study within the maximum time frame.

The 150% count will include transfer credits and all credits attempted in all programs of study in which the student has been enrolled, regardless of whether or not a certificate, diploma, or degree was received. The number of credits attempted will be measured against the student's current active program of study.

## Maximum Time Frame Appeal

Students who have exceeded the maximum time frame for their declared program of study must submit an "Exceeding Maximum Time Frame" appeal. The student must be meeting the cumulative 2.0 grade point average and 67% cumulative completion rate in order to submit a maximum time frame appeal. An appeal must be based on significant mitigating circumstances that seriously impacted academic performance.

A complete maximum time frame appeal will include:

1. The "Exceeding Maximum Time Frame" Appeal form, and

2. A copy of the student's degree audit, which is available on the student's Web Advisor account. The degree audit displays completed courses and courses still required for program completion.
3. Students are strongly advised to submit third party documentation supporting significant mitigating circumstances. For example, in case of significant medical issues, documentation may require medical reports and signed statements by physicians regarding the circumstances.

A student for whom a maximum time frame appeal is approved must complete 75% of all attempted credit hours with a minimum 2.0 grade point average each semester following the appeal approval. Failure to do so will result in suspension of financial aid eligibility.

Additional information and forms required to submit an appeal can be found on the Financial Aid Office website, <http://cfcc.edu/finaid>.

## ***Student Responsibilities***

It is the student's responsibility to monitor satisfactory academic progress as it relates to maintaining eligibility for financial aid. The Financial Aid Office assists with periodic measurement and notification to students who fail to meet the standards.

It is the student's responsibility to notify the Financial Aid Office of any grade change made after the official posting of semester grades.

It is the student's responsibility to follow up with the Financial Aid Office if s/he does not receive an appeal determination notice within three weeks of submitting the appeal.

NOTE: The Satisfactory Academic Progress Policy for financial aid recipients is different than the College's satisfactory progress standards maintained by the Counseling Department that places students on academic warning, probation or suspension for failure to achieve a 2.0 grade point average.

## ***Return of Federal Funds***

Financial aid is awarded to students under the assumption that they will attend school for the entire period for which financial assistance is provided to them. Per the U. S. Department of Education, students must attend at least 60% of the term to be eligible to earn the funds they are awarded. If student receives all "XF" grades for a semester, aid will be recalculated.

Federal regulations require the College to perform a Return of Title IV calculation for students who enroll at the College using Title IV Funds, but who later stop attending classes, without initiating an official withdrawal. The results of the calculations may include full or partial cancellation of Title IV Funds (Pell Grant, FSEOG, Loans), which may result in the student owing funds back to the U.S. Department of Education.

An account balance will be created if the calculation results

in the return of financial aid to the Department of Education's Title IV programs. The funds will be returned to the appropriate federal programs in the following order:

1. Unsubsidized Direct Loan
2. Subsidized Direct Loan
3. Federal PLUS Loans
4. Federal Pell Grants
5. Federal Supplemental Educational Opportunity Grants (FSEOG)

Unpaid balances due to CFCC that result from amounts returned will be charged back to the student and must be repaid under the conditions set by the College. Students with unpaid balances may be subjected to the following actions:

- Accounts forwarded to collections for non-payment.
- Registrations for future classes may be dropped.
- Future transcripts requests may be denied.
- Ability to register for classes and/or make changes to class schedules may be suspended.

\*Last updated: Approved 5/27/17\*

## ***Tuition/Fees/Books***

Students who are eligible for financial aid can charge their tuition, fees and books up to the amount of their awards. If the amount of financial aid received is less than tuition, fees, and books, the student is required to pay the remaining balance at the time of registration or purchase of books.

Students who have been awarded financial aid, registered for classes, but do not attend at least once by the 10 percent date of the class will be dropped by the instructor as "never attended." Financial aid awards will be adjusted accordingly. No tuition and fee adjustments will be made.

Students will receive a check for the excess amount of financial aid remaining in their account following the payment of tuition, fees and books. It is the student's responsibility to make certain that the mailing address on file with CFCC is correct to avoid delays in delivery of refund checks.

## ***Foundation Scholarships***

Student scholarships are established through donations to the CFCC Foundation. Criteria for scholarships are specified by a donor in collaboration with Foundation staff, ensuring the most efficient use of the donation while helping as many students as possible.

The Foundation establishes endowed and Annual scholarships. Endowed scholarships are generated through the investment of permanently held principals from which only the interest is used. Annual scholarships are those from which all funds are dispersed as scholarships rather than as long-term investments. These scholarships are commonly referred to as "pass-through" scholarships.

### **Merit Scholarships**

Many outstanding local high school students want to attend CFCC. To assist them, the CFCC Foundation awards ten Merit Scholarships annually to deserving New Hanover and Pender County seniors who exhibit academic excellence. To qualify for a CFCC Merit Scholarship, you must:

- Be a current high school senior
- Have applied for or been approved to enroll in CFCC in a curriculum program
- Submit a letter of recommendation from your high school principal, guidance counselor, or a high school teacher
- Demonstrate academic potential through high school grades, rank in class, and/or aptitude test results
- Be a US citizen or documented alien

Consideration will be given for non-school activities, work experience and community service. To apply for a Merit Scholarship, students should see their high school counselor or download an application from the Foundation website, <http://cfcc.edu/foundation/>.

The CFCC Financial Aid Office administers scholarships to CFCC students. Students should contact the Financial Aid office for applications, forms and specific information (910-362-7338). Scholarships are subject to change without notice.

For a current list of available scholarships, please go to <http://cfcc.edu/foundation/>.

To learn more please visit the Foundation website at [www.cfcc.edu/foundation](http://www.cfcc.edu/foundation) for scholarship applications and additional information.

### **Student Ambassadors**

During the spring semester, Student Ambassadors are selected to represent the College and the Foundation at a variety of college-sponsored events such as student registration and orientation, donor recognition events, and graduation.

Student Ambassadors should possess:

- An outgoing personality
- A professional appearance
- High academic achievement
- Strong oral and written communication skills
- Knowledge of the college and community
- The ability to make a positive impression
- Scheduling flexibility
- Access to transportation
- A high level of commitment to CFCC

Ambassadors must maintain full-time student status, a 2.5 GPA, and perform 2-5 hours required volunteer service work per week during their one-year appointment. Candidates must complete an application package and submit three letters of recommendation from faculty and staff of the College and other mentors from external sources. A

committee appointed by the Executive Director of the CFCC Foundation interviews ambassador candidates and selects students to serve in the following year. Extensive training for new ambassadors is held during the summer.

Ambassadors receive scholarship funds to apply toward their tuition, fees and books. Official items of clothing are also provided. Applications for the Ambassador program are available to students in February of each year. For more information, visit <http://cfcc.edu/foundation/>.

### **Veterans Educational Benefits**

The Veterans Administration determines the eligibility of students requesting Veterans educational benefits. The staff assigned Financial Aid staff member located in the Veterans' Center processes necessary documentation, certifies enrollment and students' academic progress. Students must be certified each semester for their benefits after they register for classes. The Veterans' Center provides assistance to student veterans in the transition to civilian and academic life. The center also provides guidance in obtaining other VA benefits to eligible students enrolled at CFCC.

Veterans' educational benefits are available to eligible veterans, spouses and children of certain categories of living and deceased veterans and to certain active duty military personnel, reservists and National Guard members.

The Veterans' Access, Choice, and Accountability Act of 2014 ("Choice Act") Section 702 requires Public schools to charge the in-state rate for covered VA beneficiaries that meet the state guidelines beginning July 1, 2015.

### **Maintaining Eligibility for Veterans Educational Benefits**

Students receiving veterans educational benefits are required to maintain satisfactory academic progress. CFCC's progress standards appear on page 23 of this catalog. Recipients of veterans educational benefits whose cumulative GPA falls below 2.0 will be placed on academic probation for the subsequent semester. If the cumulative GPA remains below 2.0, the student will not be eligible to receive veterans educational benefits.

Prospective students who are eligible, or believe they may be eligible, to receive veterans educational benefits should contact the Veterans' Center.

Visit <http://cfcc.edu/veterans> for additional information.

### **Vocational Rehabilitation**

This is a program administered by the North Carolina Department of Human Resources. The Division may provide services as are necessary to enable a physically, mentally and/or educationally disabled person to become self-employed. If a prospective student has a disability or is limited in his/her activity because of a disability, he/she may contact the nearest Division of Vocational Rehabilitation Office for consideration of assistance. The Wilmington Unit Office is located at 3340 Jaeckle Drive, Suite 201, Wilmington, NC. The telephone number is (910) 251-5710.

# EXPENSES

## ***Tuition***

Tuition is established by the North Carolina State Legislature and is subject to change without prior notification. Current tuition costs can be found on the College's website at [www.cfcc.edu](http://www.cfcc.edu), in the Schedule of Classes published for each academic term, or in the Admissions Office.

Tuition is due and payable on the day of registration unless otherwise noted. Any deferred payment or exceptions must be approved by the Vice President for Business and Financial Services. Self-supporting classes are not free for any student. If tuition is a major factor in the student's determination to attend CFCC, the student should contact the Financial Aid Office as soon as possible.

Students who register for a course and do not attend at least once during the first 10 percent of the course's term will automatically receive a grade of NS or "No Show" for that course. No tuition and fee adjustments will be made for grades of NS.

Payments can be made by cash, check, debit card, MasterCard, Visa, American Express, and Discover. Web Advisor is available for making payments by debit, credit cards and checks. Payments are not accepted via the telephone.

## ***Student Fees***

A non-refundable student fee is charged to all curriculum students each semester. This fee is due and payable on the day of registration. The maximum fee charged is \$105.00 per academic year, but is subject to change.

Funds collected from activity fees are used to support the costs of student publications, athletics, social activities sponsored by the Student Government Association, and student identification cards.

In the fall of 2003, the Board of Trustees of Cape Fear Community College approved a non-refundable "Technology Fee" to be charged to all curriculum students for the fall, spring and summer sessions. The \$3.00 per credit hour fee, not to exceed \$48.00 in a semester, is due and payable on the day of registration.

## ***Tuition Refund Appeal Procedure***

Tuition refund appeals must be in writing and are reviewed by the Vice President for Student Services and Enrollment Management and appropriate area staff (in direct consultation with the Business Office). Appeals that do not represent a sound basis for reimbursement will be denied. Written notification of approval/denial of appeals normally occurs within two weeks.

If a tuition refund appeal is denied by the Vice President for Student Services and Enrollment Management, a second-level appeal may be initiated by a student in writing. The Executive Vice President (or designee) conducts the second-level review. The Executive Vice President (or designee) will respond to a second-level appeal in writing within 10 working days. The decision made at the second level is final. Should an appeal be approved, Cape Fear Community College will promptly refund tuition and/or cancel a financial charge from a student's account.

## ***Submitting an Appeal***

Tuition refund appeals will not be considered unless the student has officially withdrawn from the class(es). Students who are receiving financial aid should check with the Financial Aid Office prior to withdrawal to determine what effect this action may have on future financial aid eligibility and/or balances that may be owed if students withdraw from all classes before the 60% point. All tuition appeals must be in writing and submitted with supporting documentation to the Vice President for Student Services and Enrollment Management no later than fifteen (15) workdays after the start of the subsequent school term.

**Tuition appeals may generally be approved** for the following reasons as long as the appropriate written supporting documentation is provided

- Extended incapacitation/hospitalization of the student (which caused the student to miss 20 percent or more of scheduled instruction) documented by a physician's statement on the doctor's official letterhead (copies of the student's medical records will not be accepted). This must be an unscheduled medical emergency diagnosed after the last day to drop for tuition refund. The physician's letter (on his/her letterhead) must include the date the student was first seen for the medical condition, as well as the beginning and ending date the student was incapacitated/hospitalized and must state that the student was physically unable to participate in classes during this period of time. A letter that does not specifically state, "the student was physically unable to attend classes" will not be grounds to approve an appeal.

- Extended incapacitation/hospitalization or death of a student's immediate family member (which caused the student to miss 20 percent or more of the scheduled instruction) – verified with appropriate documentation. Immediate family is defined as father, mother, spouse, child, sibling, stepfather, stepmother, stepchild, stepbrother or stepsister.
- Administrative difficulties with internships, placements or practicums involving the single enrollment of a student with supporting material from placement official.
- Late notifications of denial to a specific degree program with supporting documents.
- Institutional errors by CFCC that cause the delay of administrative processes relative to registration or the delivery of financial aid funds.

\*Other items may be considered with valid supporting documentation and/or evidence.

**Tuition appeals will not be approved** in the following instances:

- Personal errors in judgement or irresponsibility involving transportation, availability of finances, academic ability, time management, etc.
- Misinterpretation or lack of knowledge of college policies and procedures as published in the CFCC Catalog & Student Handbook or CFCC Schedule of Classes.
- Dissatisfaction with course content; issues concerning academic instruction must be addressed with the appropriate Department Chair and/or Academic Dean.
- Dissatisfaction with academic progress in course(s).
- Non-attendance or minimal attendance of class.
- Inadequate investigation of course requirements prior to registration and attendance.
- Non-qualification, late application, or loss of eligibility for financial aid or scholarship.
- Non-receipt of mail or electronic mail due to obsolete address on file with the Registrar's Office.
- Changes of, or personal conflicts with, the instructor of record.
- Student error resulting in the delay of administrative processes relative to registration or the delivery of financial aid funds.

- Voluntary/involuntary acceptance of employment or other activity affecting the ability to attend class. (i.e. work schedule/hours changed; lack of childcare; vacation).
- Incarceration in a civilian or military facility.
- Other reasons not already specified.

\*Last updated: Approved 1/19/17\*

### ***Statement on Involuntary Military Orders\****

Involuntary changes in military orders that result in the active duty member moving outside the New Hanover or Pender County areas are automatically refunded 100% of tuition, unless the active duty member decides to remain enrolled in online classes after redeployment. Such changes will be documented by the commanding officer or the student providing valid and properly endorsed orders (includes dependents enrolled at Cape Fear Community College). Orders must be Permanent Change of Duty Orders. Short-term orders (for more than 20 percent of the class sessions) associated with a national emergency may qualify. **(Approved 1/11/17- College Council).**

### ***Electronic Signature Policy for Students***

Cape Fear Community College (CFCC) recognizes an electronic signature as a valid signature from employees and students subject to Conditions 1 and 2 below:

#### Condition 1. Campus Network Username and Password

- Institution provides student with a unique username
- Student sets his or her own password
- Student logs into the campus network and secure site using both the username and the password

#### Condition 2. Student Login ID and Personal Identification Number (PIN)

- Institution provides student with a unique PIN
- Student sets his or her own PIN
- Student logs into a secure site using both the login ID and PIN

An electronic signature is defined as any electronic process signifying an approval to terms, and/or ensuring the integrity of the document, presented in electronic format.

Students use electronic signatures to register, check financial aid awards, pay student bills, obtain unofficial transcripts, update contact information, log into campus computers, complete forms, submission of class work, tests, etc.

It is the responsibility and obligation of each individual to keep their passwords and PIN private so others cannot use their credentials. This is further explained in the CFCC Student Catalog section on "Computer Acceptable Use Policy".

Once logged in, the student is responsible for any information they provide, update, or remove. CFCC will take steps to ensure both the passwords and PIN are protected and kept confidential. Furthermore, users are responsible for logging out of all systems and exercising the necessary precautions when using publicly accessible computers.

This policy is in addition to all applicable federal and state statutes, policies, guidelines, and standards. The policy as it applies to employees is explained in Section 9.13.1 Computer Use Policies of the CFCC Faculty and Staff Handbook.

### ***Student Identification Card***

The student ID card is included as part of the curriculum student tuition and fees. The ID card should be carried at all times and presented upon request to a College representative. The ID card serves as the College library card, permits access to campus parking decks, and is required for participation in campus events and sports activities. Lost cards should be reported and a replacement card purchased for \$10.00. To obtain an ID card, students need to present their current CFCC schedule, proof of tuition payment, and a photo ID, such as a driver license, passport, or military ID.

### ***Parking and Security Permits***

A non-refundable fee is charged to curriculum students for College access, parking and security. A parking permit is issued when a student is paying for their tuition and fees in the Business Office. The parking permit is valid September 1 to August 31. The maximum cost of the College access, parking and security fee per semester is \$75, but is subject to change.

### ***Insurance***

The College provides limited student accident insurance for curriculum students at no cost to the student; however, this insurance may not cover all expenses of treatment received by the student. Coverage is a (secondary) policy unless there is no other insurance in place. The College is not responsible for non-covered expenses. This accident insurance coverage is subject to approval by the Board of Trustees each fiscal year. Individual health insurance is the responsibility of each student. Students may purchase health insurance. Information is available in the Business Office.

The following students are required to purchase professional liability insurance: Associate Degree Nursing, Cosmetology, Dental Assisting, Dental Hygiene, Practical Nursing, Nursing Assistant, Occupational Therapy Assistant, Pharmacy Technology, Phlebotomy, Early Childhood, Paramedic, Sonography, Surgical Technician, and Radiography.

### ***Textbooks, Educational Tools, and Fees***

Students are expected to purchase textbooks which are usually available from the college bookstore at the beginning of each academic session. Although not required in all courses, additional educational tools are required in certain courses and programs. Some PED courses require an off campus gym fee. Cameras, chef's tools, safety eyewear, steel-toed boots and computers are examples of educational tools that are required for specific courses and/or programs. The bookstore does not have a charge or credit system; therefore, books and tools must be paid for at the time of purchase. Effective July 1, 2010, textbook pricing information for curriculum courses will be available on the College's website as required by the Higher Education Opportunity Act.

### ***Bookstore***

There are two CFCC bookstores. The Wilmington Campus store is located on the ground floor of the Health Sciences (L) building. The North Campus store is located in room NA114 in the McKeithan Center. The bookstores provide textbooks, supplies and other collegiate materials. Hours of operation and policies governing textbook refunds and buy-backs are posted in the bookstores.

### ***Refund of Tuition***

A **100 percent** tuition refund will be made if the pre-registered curriculum student officially drops any/all classes prior to the first day of the College's academic session/semester. Students are also eligible for a 100 percent tuition refund if the College cancels the class. Drops must be processed through the Registrar's Office or through WebAdvisor.

A **75 percent** refund will be made if the student officially drops a class(es) during the period starting from the first day and ending on the 10 percent day of the academic session/semester. A student is not officially dropped until he/she processes a signed drop card with the Registrar's Office. The effective date of the drop is the day the Registrar's Office receives the form. WebAdvisor is not available to drop classes during the 75 percent refund period.

### ***Classes beginning at times other than the first week (seven calendar days) of the semester***

A **100 percent** refund shall be made if the student officially drops from the class prior to the first class meeting. Students are also eligible for a 100 percent tuition refund if the College cancels the class. Drops must be processed through the Registrar's Office or through WebAdvisor.

A **75 percent** refund shall be made if the student officially withdraws from the class prior to or on the 10 percent point of the class. WebAdvisor is not available to drop classes during the 75 percent refund period.

Students who have not attended at least once by the 10 percent date of the class will be dropped by the instructor as a "No Show" and assigned a non-punitive transcript grade of "NS." No tuition and fee adjustments will be made.

### ***Return Check Guidelines***

Tuition payment made with a check returned by the bank will be considered nonpayment of tuition. Students will lose their classes or will not be able to attend classes until full restitution is made. Absences incurred due to nonpayment of fees will be counted in accordance with the College's attendance policy.

A returned check processing fee will be charged in the amount of \$25.00 for a paper check or e-check when payment is refused by the bank for any reason.

### ***Transcript of Record***

#### **(Curriculum and Continuing Education)**

Upon written request of the student, a transcript of classes taken and credits earned at Cape Fear Community College will be sent to other colleges or third parties. Transcripts can be requested through the College's website ([www.cfcc.edu](http://www.cfcc.edu)). Transcripts requested in person will be printed on demand except during peak registration days or mailed as designated. The non-refundable cost for an official transcript is \$5.00 each.

### ***Graduation Fees***

Fees for graduation are not included in the activity fee. The cost for caps and gowns are paid by the student directly to the company representative from whom they are being ordered.

### ***Institutional Indebtedness***

No student will be permitted to graduate, register for classes, or have a transcript issued until all financial obligations to the College are satisfied.

### ***Personnel in the Armed Services***

Any active duty member of the armed services or a military dependent who does not qualify as a North Carolina resident for tuition purposes may be eligible to pay a reduced tuition rate if eligibility requirements for the Military Tuition Benefit (N.C. General Statute Section 116-143.3) have been met. Members for reserve components are not eligible for the benefit unless they have been called up for active duty.

## **STUDENT ACTIVITIES**

Extra-curricular activities are an important part of the total educational program at Cape Fear Community College and fulfill the College's mission by providing a variety of activities that enrich students' lives. The goal of Student Activities is to accommodate student diversity in backgrounds, abilities, interest, and career objectives; enhance academic success; and promote diplomacy, unity, self-discipline, physical and emotional well-being, and leadership skills. The Student Activities Office is located in the Health Sciences Building (L112) and offers space for the many clubs at CFCC to hold their monthly meetings and is the home of CFCC Athletics. Student Activities also provides services, programs, and facilities for the students, faculty, and staff of the College.

### ***Athletics and Intramural Activities***

Cape Fear Community College is a member of the National Junior College Athletic Association (NJCAA), competing in Region 10, a high level of competition. College athletics may include basketball, volleyball, golf, soccer, and other NJCAA sponsored sports depending on student interest and facilities availability. Students participating in intercollegiate athletics must meet NJCAA/NCAA eligibility requirements and standards. Individuals participating in college athletics must be a high school graduate/GED, and or obtained a GED currently enrolled at CFCC and be in good academic standing. The goals and objectives of intercollegiate athletics are listed below:

#### **Goals:**

- To enhance academic success of student athletes
- To provide opportunities for participation in competitive college sports
- To promote the development of self-discipline and leadership skills

#### **Objectives:**

- Monitor the academic grade point average of collegiate student athletes
- Develop and monitor sports activities based on student interest as gleaned from Student Interest Survey and participation
- Monitor the retention and graduation/transfer rates of student athletes

## ***Intramural Program***

The CFCC Intramural Program is specifically designed to provide opportunities for students, faculty and staff to have fun, socialize, manage stress and improve personal health and wellness by participating in organized competitive sports and recreational activities.

The intramural program includes a wide variety of events. Past activities have included a table tennis tournament, 3 on 3 basketball, kick ball, flag football, volleyball, and other competitive activities based upon the overall interest of the CFCC students, faculty, and staff. General information and registration materials for intramural sports may be obtained through the Student Activities Office (L-112).

## ***Student Government Association***

The Student Government Association (SGA) is the official organization authorized by the administration to represent all students at Cape Fear Community College. The SGA is a democratic organization and as such elects officers each year. The State Board of Community Colleges, the CFCC Board of Trustees, and the administration, faculty, and staff fully support the SGA. This support is most visible in the office of the SGA President who, upon election to that office, automatically becomes a member of the Board of Trustees and the College Council. Additionally, students have SGA representatives on standing college committees. These committees are charged with annually reviewing and recommending changes to the College.

The Student Government Association is an active organization; it is the voice of the student body and has paved the way for good lines of communication between students and administration. Students receive practical experience in responsible citizenship through participation in a program of self-government.

The SGA is governed by its Constitution and By-Laws. Copies of these documents are available in the Student Activities office (L-112 or the Student Government Office S-400).

## ***Social Activities***

The social development of the student is an important phase of the total educational program at Cape Fear Community College. Under the sponsorship of the SGA, social events include concerts, cookouts, holiday celebrations, charity events, tournaments, athletic events and various other student body activities.

## ***Student Ambassadors Program***

Each year the College selects student ambassadors to represent CFCC at various college functions and special events. These students are selected based on their leadership ability, academic achievement, college involvement and their desire to assist other students and represent the College. The major purpose of the program is to teach students the importance of responsibility and teamwork, raise self-esteem and create a well-rounded college experience. See page 29 for more information.

## ***Phi Theta Kappa***

The Phi Theta Kappa International Honor Society encompasses the upper ten percent of all students enrolled in the two-year college system. Alpha Chi Sigma is the CFCC Chapter of Phi Theta Kappa. Membership in Phi Theta Kappa is extended by invitation only. Today Phi Theta Kappa is the largest honor society in American higher education with more than 2 million members and 1,200 chapters located in all 50 of the United States, U.S. territories, British Virgin Islands, Canada, Germany, Marshall Islands, Micronesia, and Palau. The innovative programs and services and array of membership benefits offered by Phi Theta Kappa are unequaled among honor societies. Programs and projects focus upon the Society's Hallmark of Scholarship, Leadership, Service and Fellowship. To be eligible for membership a student must complete a minimum of twelve hours of associate degree course work and generally earn a grade point average of 3.5 or higher.

## ***Clubs and Organizations (\*active)***

- Aikido
- Anthropology
- Brazilian Jiu Jitsu
- Business Technologies
- Cape Fear Association of Nursing Students (CFANS)
- Cardiovascular Sonography
- Community Involvement and Service Learning (CISL)
- Computer Technology
- Creative Arts
- Criminal Justice
- Drama
- Dental Assisting
- Dental Hygiene
- Environmental Concerns Organization (ECO)
- E.V.O.L.V.E
- Fellowship of Christian Athletes (FCA)
- Feminist Alliance
- Flying Pigs
- F.O.C.U.S. (Film)
- Gender Studies
- Green Building
- Honors
- IASL (Interpreter American Sign Language)
- Live Production Technologies
- Mathematics
- NAMI On Campus (National Alliance on Mental Illness-Psychology)
- Nixon Minority Male Leaders Program
- Paralegal Technology
- Phlebotomy
- SOTA (Occupational Therapy)
- Pineapple Guild (Hospitality/Hotel/Restaurant)
- Portals Literary and Arts Magazine
- PHI THETA KAPPA (ΦΘΚ) Alpha Chi Sigma (ΑΣΧ) Chapter
- Salt~n~Light Club(Campus Ministry)
- Spanish Community Interpreter
- Student Government Association
- Student Veterans Association

## ***Former Clubs and Organizations – (inactive)***

- Align Your Sails
- Architectural Technology
- ASID
- Biology
- Boat Building
- Ceramics
- Chorus
- Christian Inquiry
- Collegiate Secretarial
- Cosmetology
- Creative Minds (Creative Writing)
- Criminal Justice
- Culinary
- Deaf and Hearing Impaired
- Engineering Technology Club (ETC)
- Entrepreneur
- French
- French Cine
- Geology
- Global Diversity
- Industrial Electricity
- Instrumentation
- Interior Design
- Jazz
- Machining Technology
- Mechanical Engineering/Drafting and Design
- Metals Guild
- Nuclear Technology
- Nursing ADN and LPN
- Philosophy
- Political Science
- Practical Nursing
- PRIDE
- Radiography
- Science
- Spanish
- Sociological Society (CFSSS)
- Sonography
- SOAR (Success through Outreach, Access and Building Relationships)
- Students for a Free Tibet
- Surfrider

**Student organizations and clubs that help fulfill the mission of CFCC, accommodate student diversity, enhance academic success, promote diplomacy, unity, discipline, physical/emotional well-being, and develop leadership skills are an important part of Cape Fear Community College.**

New student organizations and clubs may be approved by the Vice President for Student Services and Enrollment Management, in consultation with the Director of Athletics & Student Activities, after written application is submitted to the Director of Athletics & Student Activities. The written application must state the proposed name of the organization, the names of all students proposing the organization, the name of at least one faculty/staff member (full-time CFCC

employee) who has agreed to serve as a sponsor to the group, and a complete description of the proposed activities of the group including, but not limited to, (1) purpose statement, (2) goals, (3) complete description of the organization's proposed activities, and (4) Club Constitution.

Once a student organization and/or club is approved, each activity must be individually approved by the Director of Athletics & Student Activities before it is undertaken. Student Activity Forms are available from the Director of Athletics & Student Activities. It is the primary responsibility of the proposing organization to provide accurate and complete descriptions of individual activities of the organization. Inactive student organizations and/or clubs may be disbanded at the College's discretion.

## ***Guidelines for Display or Distribution of Handbills, Posters, or Other Materials by Student Clubs, Community and Non-Profit Organizations, and Individuals***

The College would like to provide educational opportunities to its students and others in the college community and believes that public expression through displays or distribution of handbills, posters, or other materials can play an important role in accomplishing this goal. The College also believes firmly in its obligation to college employees and its students to provide an environment that is conducive to learning. Public expression that enhances this environment by affording students and others in the college community exposure to a variety of ideas is encouraged. Subject to the terms and conditions set forth in these procedures, to any rules or regulations established by the College pertaining to display or distribution, and to other applicable laws, rules, and regulations, an organization or individual may display or distribute handbills, posters, or other materials that are aimed at providing information to students.

The following guidelines apply to materials posted on the campus of Cape Fear Community College, regardless of the source of those materials. They include:

- Posted information shall not contain obscene or libelous information or other information that is not protected by law.
- Information will not be placed over existing notices. Outdated material will be removed to make room for timely information.
- All event items must be removed by the sponsoring organization immediately following the event.
- All notes to be posted in stairwells, at doorways, or in other college locations not otherwise permitted in these guidelines, require approval by the Vice President for Student Services and Enrollment Management five work days (Monday through Friday) in advance of the proposed posting.

Due to extreme space limitations, information to be posted by student groups, community groups, or individuals in areas other than those reserved for Phi Theta Kappa and academically-oriented student clubs will be posted for a maximum of two weeks and must be no larger than 8.5" x 11".

Items not approved in the prescribed manner will be removed and discarded.

Placement of information on vehicles of others on campus is prohibited.

The College reserves exclusive rights to re-arrange materials to accommodate the display of additional materials, to establish limits on the amount of information organizations may display, and to deny additional requests when all designated space is being used.

Failure by any organization or individual to abide by CFCC guidelines will be grounds for denying additional requests from the same organization or individual.

The College will grant access by an eligible organization or individual to areas of College premises, designated for public expression on a neutral basis, in accordance with these procedures. A grant of access to any particular organization or individual does not mean that the College endorses the beliefs, practices, or views expressed by that organization or individual, and outside organizations and individuals are expressly prohibited from stating, implying, or suggesting in any manner that they are endorsed by or associated with the College or that any publication, announcement, or other form of expression provided by the organization or individual has been approved by or is associated with the College. Areas of college premises designated for public expression will not be denied to any organization or individual on the basis of the content of information sought to be provided by or the convictions or affiliations of that organization or individual.

Given the varying nature of different organizations and the wide-range of notices that individual students and/or college personnel may wish to post on occasion, additional guidelines apply to certain types of organizations and individuals, as noted in the following information:

### ***Academically-Oriented Student Clubs***

Academically-oriented student clubs that are directly linked in name, purpose, and practice to specific instructional disciplines or programs offered at CFCC may post discipline-related displays and materials, including announcements of upcoming club meetings, on College bulletin boards in their respective academic departments, subject to advance approval of faculty sponsors, department heads, and the appropriate division Deans.

Other student clubs and community and non-profit organizations may distribute or display information relating to the approved purpose including announcements of upcoming meetings, in accordance with the following guidelines:

All items displayed by other student clubs in the category must be approved by the faculty/staff sponsor and the Vice President for Student Services and Enrollment Management. Items submitted by community and non-profit organizations must be approved for display by the Vice President for Student Services and Enrollment Management. The Vice President for Student Services and Enrollment Management will consider all requests for display and distribution in light of the availability of areas that are designated for such purposes and the availability of space for the proposed display or distribution within any designated area(s). Requests for access to distribute or display publications will be reviewed and granted on a first-come, first-serve basis. The College will communicate its approval or disapproval of access for distribution or display and any conditions of access to the requesting organization or group, generally within three business days after the request is submitted. Access for display or distribution of materials will not be provided if previously approved requests for access to display or distribute materials have resulted in space being unavailable for additional displays or distributions within any designated area(s). Approved materials may be displayed on the designated bulletin board(s). No one club may use a disproportionate amount of the allotted space unless other clubs do not elect to display information.

Committee organizations and individuals may display approved notices on designated bulletin board(s).

### ***Appeal***

Any organization or individual who believes that the opportunity to display or distribute handbills, posters, or other materials has been denied improperly may appeal the denial by providing written notice of the appeal to the Vice President for Student Services and Enrollment Management within three business days of the date on which the organization or group has been advised of the denial. Information supporting the appeal (which may include a written statement or, at the election of the individual or group, a conference with the College's Judicial Board) also should be provided. As a general rule, the Judicial Board will make a final decision within five business days of receiving the appeal and any written information or, if a conference with the organization or individual has been scheduled, after conducting the conference.

### ***Student Publications***

All student publications, printed and electronic, are supervised by the Director of Athletics & Student Activities, and the Vice President for Student Services and Enrollment Management. Students are invited to submit information to the Director for possible inclusion in printed material. All material must adhere to the canons of responsible journalism, including the avoidance of libel, indecency, vulgarity, undocumented allegations, attacks on personal integrity, and the techniques of harassment and innuendo.

The Vice President for Student Services and Enrollment Management has the authority to determine responsible journalism and to prohibit the publication of any material in violation of the canons of responsible journalism.

# GENERAL INFORMATION

## ***Change of Name/Address***

It is extremely important for the College to have accurate name and address information for each student. Students must have their name formally changed with the Social Security Administration and the Department of Motor Vehicles in order to process a name change. Name changes can only be done in person in Student Services and Enrollment Management. Students with new addresses may complete a form in Student Services and Enrollment Management or update their address online through WebAdvisor.

## ***Children on Campus Policy***

Children cannot be taken into classrooms, laboratories or shops unless authorized by College personnel. Responsible adults will be expected to remove disruptive children immediately. Children cannot be left unattended on campus including the Learning Resources Center, the cafeteria, lounge areas, registration sites, administrative offices or parking lots.

Failure to comply with this policy will lead to disciplinary action as outlined in the College Catalog, Student Handbook and Faculty and Staff Handbook. Visitors violating this policy will be notified of the violation and continued violation will result in the individual being asked to leave campus.

## ***Dress***

CFCC invites prospective employers and industry representatives on campus throughout the academic year. Therefore, while students may dress casually, they are encouraged to dress neatly and cleanly. Students are required to wear shoes to help ensure safety on campus and/or college facilities.

Where special dress or safety devices are required by the College, North Carolina Community College System, regulations, or public law, students are expected to fulfill those requirements.

## ***Housing***

The College does not have housing facilities. However, upon request and if known, college officials will provide students information concerning available housing. Students are advised to have a clear understanding with landlords regarding all rental and/or lease agreements. Students are urged to make housing arrangements well in advance of enrollment.

## ***Lost and Found***

The Campus Police office will accept articles found on campus. If contact information is available, the owners will be notified. Articles will be held for the remainder of the semester and will then be donated to a non-profit organization.

## ***Parking***

To park on any CFCC property, you must clearly display a CFCC parking decal. Parking decals, along with rules and regulations, are obtained in the Business Office. Violation of parking policy may result in citations, towing or booting of vehicle, or further disciplinary action.

Downtown, the College offers student surface parking lots and a parking deck at 200 Hanover Street. Students must have a CFCC Student ID card to enter and exit the parking deck. North Campus, the Burgaw Center, and Alston W. Burke Center offer student surface parking lots.

Handicap parking is provided at each of the Downtown Campus buildings, North Campus buildings, the Burgaw Center, and Alston W. Burke Center. Downtown, anyone displaying a DMV Handicap placard or license plate may park in any of the metered parking spaces without paying.

For complete rules and regulations, along with the most up to date information regarding parking and traffic conditions, please refer to <http://cfcc.edu/parking/> or follow us on Twitter @cfccparking.

# STUDENT EXPECTATION, RIGHTS, AND RESPONSIBILITIES

### ***Student Records***

CAPE FEAR COMMUNITY COLLEGE RESPONSIBILITIES UNDER THE FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT OF 1974 (THE BUCKLEY AMENDMENT)

Under the Family Educational Rights and Privacy Act of 1974, the rights of the student and the responsibilities of the institution concerning the various types of student records maintained by the institution are established. Consistent with this legislation, Cape Fear Community College establishes the following policy to ensure compliance. Failure to comply with standards prescribed in the Act could jeopardize federal funding received by the institution and its students.

### ***Rights of Students***

In compliance with the law, an individual becomes a student when he/she registers at the College. Upon reaching age 18 or attending an institution beyond the high school level, the student has the right to view his/her own school or college records. These records include the academic transcript of the College, post-secondary transcripts, high school transcripts, and other documents maintained as part of the students permanent file with the exception of confidential letters of recommendation. All permanent academic records are housed and maintained by the Registrar.

CFCC requires written authorization from the student prior to release of academic records. A minimum of 48 working hours will be required by the College to access the requested academic information. The student may inspect, copy, and review his/her records in the Registrar's Office. There may be a charge for copies.

### ***Rights of Parents***

Parents of a child who is under the age of 18 and has never attended an educational institution beyond high school level has the right to inspect and review that child's academic records. After a student reaches the age of 18 or enters a post-secondary institution, the parent will be denied access to the student's academic record unless the student gives written consent in the Office of the Director of Records and Registration. The College assumes that all students are independent adults attending an institution designed for adult education. Parents do have the right to review the academic records of their child if they are claiming the child as an income tax deduction; however, they must show proof of the claim.

### ***Rights of Faculty***

The faculty of the College has a legitimate educational interest in a student's academic records. Therefore, access to those records is authorized by the institution. Along with this access comes certain obligations and responsibilities.

A faculty member shall not access educational records of any student for which he/she does not have a direct advisory responsibility. Those with direct advisory responsibility include the current instructors of the student, the student's faculty advisor, and the appropriate department head and division chair. A faculty member not professionally associated with a student shall not access educational records of the student without the written consent of the student.

A faculty member shall not disclose any information from a student's record to a third party (i.e., other students, other faculty members, employers, etc.) without the written consent of the student. Parents of the student do not have special access rights and should not be given information without the student's written consent.

A faculty member shall be responsible for the security of all academic information in his/her possession. These records must not be accessible to students and unauthorized personnel.

A faculty member shall refrain from disclosing academic information by phone without the expressed written consent of the student.

### ***Rights of Administration***

Student Services and Enrollment Management and specifically the Registrar's Office, has the responsibility of maintaining and safeguarding the academic records of all students of the College. Consistent with this responsibility, the personnel of Student Services and Enrollment Management will access student records as needed. However, these individuals bear the responsibility for ensuring that no unauthorized disclosure of student academic information occurs without the expressed written consent of that student.

The President, Vice-Presidents and Deans of the College may access student records when needed to facilitate the student's educational pursuit. College administrators may disclose a student's educational records to appropriate parties in connection with a health or safety emergency. Furthermore, College Administrators have the right to contact parents of any student under the age of 21 that has violated a Federal, State, or local law, or any rule or policy of the institution, governing the use or possession of alcohol or a controlled substance.

Educational records of a student will not be accessed for employment decisions without the expressed written consent of the student. Information from student academic records may be shared in aggregate for educational research purposes.

### **Directory Information**

Directory information includes name, major field of study, full time/part time enrollment, the most recent college attended, dates of enrollment, degrees and awards received, and the College assigned email address.

Students have the right to withhold disclosure of any directory information by completing a request for non-disclosure in the Registrar's office. Requests for non-disclosure must be filed annually. The College assumes that a student's failure to file a request for non-disclosure indicates approval for disclosure.

Under the Family Education Rights and Privacy Act of 1974, commonly referred to as the Buckley Amendment, students are granted a certain level of privacy with respect to their educational records. The complete text of The Buckley Amendment is available for review in the Registrar's office.

### **Patent and Copyright Policy**

Every invention, discovery, material, work, product, or any part thereof, that results from the efforts of a full or part-time employee, student, or outside consultant carried out while in the employment of, or under contract or agreement of any kind with, the College and that is produced or brought about in any fashion with the aid of the College's facilities, staff, or through funds administered by the College shall, as between the College and the full or part-time employee, student, or outside consultant, be the property of the College. Any patents, trademarks, trade names, and/or trade secrets shall belong to the College and any legal protection applied for shall be applied for by the College or through an authorized agent, assignee, or licensee in the name of the College.

As a general rule, all rights to copyrightable material are the property of the creator. The creator shall be deemed to be the College where a specific contract so provides, where a full or part-time employee, student, or outside consultant is employed for the purpose of producing a specific copyrightable work, or where necessary to reflect the contribution of the College to the work, as in the case of software or audiovisual material of any kind.

As between the College and The State Board of Community Colleges, ownership of any of the above-described items shall be determined in accordance with applicable regulations of the State Board of Community Colleges.

The College may charge a reasonable rental fee for use of any of the above-described items and, further, if such item is a learned journal, work of art, book, publication, textbook, library book, form bulletin, or instructional supply, then it may, as allowed by the Umstead Act, be offered for sale by the College.

This policy shall be deemed to be a part of any existing and/or future employment or consulting agreements of the College. (approved by the CFCC Board of Trustees, March 17, 1994)

### **Computer Acceptable Use Policy**

#### **Purpose**

College owned or operated computing resources are reserved for the educational, instructional, research, and administrative computing needs of the faculty, students, staff, and other individuals authorized by the College. The College's computing resources include but are not limited to all College computers and hardware, access to the Internet or access to any College intranet provided through College owned or operated computers, online and offline storage, and network and communications facilities. Access to these computing resources is a privilege and, therefore, it is essential that all users exercise responsible ethical behavior when using these resources. Users are expected to read, understand, and comply with the College's Acceptable Use Policy.

The College monitors access to the computing resources and reserves the right, without prior notice to users, to access the College's computing resources and to use any and all information retrieved from the computing resources. Users do not have an expectation of privacy regarding their use of the computing resources, and by accessing and using the College's computing resources, users expressly consent to such monitoring, access, and use by the College. Further, information contained on the College's computing resources and in College accounts, including but not limited to e-mail, may be subject to inspection under the Public Records Law of the State of North Carolina.

The College does not attempt to articulate all required or unacceptable behavior by its users. Therefore, each user's judgment on appropriate conduct must be relied upon. To assist in such judgment, users will follow this policy:

1. College computing resources are to be used only for educational, research, or instructional purposes for which access is provided, and are not to be used for any unauthorized purpose, including but not limited to commercial purposes, unauthorized access to remote computers or non-College related activities.
2. An access account assigned to a user must not be used by any other individual. Users are responsible for the proper use of their accounts, including proper password protection and appropriate use of the College's computing resources. Obtaining another user's password, allowing friends, family, co-workers, or any other individual use of your or another user's account, or other unauthorized use of an access account is a serious violation of this policy.
3. Users may not attempt to impersonate another person or organization. Users may likewise not misuse or appropriate the College's name, network names, or network address spaces.
4. All computer software is protected by federal copyright law. In addition, most software is proprietary and protected by legal licensing agreements. Users are responsible for being aware of the licensing restrictions for any software used on the College's computing resources.

## STUDENT EXPECTATIONS, RIGHTS, AND RESPONSIBILITIES

5. Users shall not download, reproduce and/or distribute copyrighted or licensed materials without proper authorization from the author or creator. Additionally, users shall not publish information, messages, graphics, or photographs on any web page, without the expressed permission of the author or creator.
6. Users shall not engage in activities to damage or disrupt the hardware, software, or any communication associated with the College's computing resources, such as virus creation and propagation, wasting system resources, overloading networks with excessive data, or any attempt to circumvent data protection schemes or uncover security loopholes.
7. Users shall not waste, monopolize, interfere or misuse the College's computing resources by, for example, requesting an excessive number of copies from a printer, playing games or participating in chain letters or Ponzi schemes.
8. Users shall not access or damage any portion of the College's computing resources or other College property, such as College records, applications or data. The College's computing resources shall not be used for illegal activities.
9. Users learning of the misuse of the College's computing resources or violations of the Acceptable Use Policy must notify a faculty member of the College or other College official immediately.
10. Any student identified as initiating or participating in the verbal, social, or physical bullying; whether in person, through social media or through electronic devices will be subject to disciplinary action as determined by the Office of the Vice President of Student Services and Enrollment Management.

### Enforcement

Failure to follow the Acceptable Use policy and/or any misuse of the College's computing resources may result in the suspension or revoking of access accounts, removal from the class with a grade of "F", as well as other College disciplinary sanctions including but not limited to conduct warning, probation, suspension, or dismissal from the College. All College policies and procedures are applicable to users of the College's computing resources. A violation of the Acceptable Use Policy is considered participation in an activity which disrupts the educational process of the College and is a violation of the Code of Conduct, as well as other applicable policies and procedures of the College. Any conduct, which violates local, state, or federal laws, will result in the immediate loss of all access to the College computing resources and will be referred to appropriate College offices and/or law enforcement authorities.

\*Last updated: Approved 1/19/17\*

### CFCC Student Code of Conduct

It is expected that at all times the student will conduct himself/herself as a responsible adult. Participation in any activity which, in the opinion of the administration, disrupts the educational process or functioning of the College may result in disciplinary action. Specific violations of the code of conduct include, but are not limited to the following:

- a. destruction of college property
- b. larceny
- c. gambling
- d. use of profane language
- e. fighting
- f. possess or carry, whether openly or concealed, any weapon on campus
- g. violation of the College's drug and alcohol policy
- h. possession and/or use of any drug as defined under North Carolina General Statutes
- i. noncompliance of the Tobacco Free Campus Policy
- j. initiating or participating in verbal, social, or physical bullying; whether in person, through social media, electronic devices or any other means
- k. sexual misconduct policy
- l. general disruptive behavior
- m. Academic integrity/Cheating, Plagiarism
- n. harassment
- o. violation of the Computer Acceptable Use Policy
- p. fraud
- q. violation of the zero tolerance policy
- r. violation of federal, state, or local law
- s. forgery

Violation of these rules of conduct will not be tolerated in or on any part of the campus, its satellites, equipment it operates, or wherever its employees or students are required to be while performing their duties as employees or students. Any violation of these standards of behavior may result in disciplinary sanctions and/or dismissal from the College. Additional classroom rules will be designated by instructors or supervisors and must be followed by all. College administrators have the right to contact parents of any student under the age of 21 who has violated a federal, state, or local law, or any rule or policy of the institution, governing the use or possession of alcohol or a controlled substance (g and h above).

Any person observing conduct violation(s) should immediately contact the Vice President for Student Services and Enrollment Management or the Dean of Student Affairs.

### Drug and Alcohol Policy

1. Cape Fear Community College does not differentiate among unlawful users, sellers, or pushers of drugs or alcohol. Any employee or student who unlawfully uses, possesses, sells, gives, or in any way transfers alcoholic beverages or a controlled substance is subject to disciplinary proceedings by the College, and referred for prosecution.

2. The term controlled substance means any drug listed in CFR part 1308 and other federal regulations, as well as those listed in Article V, Chapter 90 of North Carolina General Statutes. Generally, these are drugs which have a high potential for abuse such as: Marijuana, Cocaine, PCP, Heroin, and Crack among others. They also include legal drugs that are not prescribed by a licensed physician. The term alcoholic beverage includes beer, wine, whiskey and any other beverage listed in Chapter 188 of the General Statutes of North Carolina. Persons within the College community are responsible for knowing about and complying with the Cape Fear Community College Drug/Alcohol Policy.
3. Any employee or student who is convicted of violating any criminal drug or alcoholic beverage statute while in the workplace, on College premises, or as part of any College sponsored activity, will be subject to disciplinary action by the College up to and including termination or expulsion, and referred for prosecution. Specifically, any such person convicted of a felony, or a misdemeanor which results in an active prison sentence will, if a student, be expelled, or if an employee, be terminated from employment (subject to existing disciplinary policies applicable to state or federal law which may apply to employees). Other misdemeanors or convictions will be evaluated on a case-by-case basis and the specific penalties may range from written warnings with probationary status to enrollment expulsions and employment discharges. The College may also require the employee or student to successfully complete a drug abuse treatment program as a precondition for continued employment or enrollment. Persons charged with illegal drug/alcohol involvement may be suspended pending any legal proceedings if, it is determined by the President, or his designee, that the persons continued presence within the College would pose a serious and immediate danger to the health or welfare of other persons within the College.
4. Each employee or student is required to inform the Personnel Director or the Vice President for Student Services and Enrollment Management, respectively, in writing within five (5) days after a conviction of any criminal drug or alcoholic beverage control statute where such violations occurred in the College workplace, on College premises, or as part of any College sponsored activity. A conviction means a plea or a finding of guilt (including a plea of nolo contendere) and the imposition of a sentence by a judge or jury in any federal or state court.
5. College Administrators have the right to contact parents of any student under the age of 21 that has violated a Federal, State, or local law, or any rule or policy of the institution, governing the use or possession of alcohol or a controlled substance.

For those students or employees receiving or working under a federal grant, the College must notify the United States governmental agency from which a grant was made within ten (10) days of receipt of such notice from the grant employee, or otherwise after receiving actual notice of a criminal drug conviction. Appropriate disciplinary action will be taken by the College within 30 calendar days from the receipt of such notice. The law requires that all employees abide by this policy as a condition for continued employment on any federal grant.

### **Legal Consequences**

The illegal use of drugs and alcohol constitutes a serious crime under federal, state and local laws. Convictions may result in imprisonment, fines and/or mandatory community service. A drug conviction can disqualify a student for federal student aid. A record of a felony conviction may prevent a person from entering a chosen career. North Carolina law makes it illegal to manufacture, to sell or deliver, to possess with intent to sell or deliver, or to traffic controlled substances.

Under North Carolina law, the minimum age to purchase, possess, or consume any alcoholic beverage is 21 years old. Consumption of liquor or fortified wine by anyone 18 years old and younger is a Class 1 misdemeanor. Those 19- and 20-year-olds who drink beer or wine will be charged with a Class 3 misdemeanor. A person convicted for the first time of selling or providing alcohol to someone under 21 will receive a minimum sentence of a \$250 fine and 25 hours of community service. For a second or subsequent offense within four years, the penalty is no less than a \$500 fine and 150 hours of community service. A person convicted of aiding and abetting the sale or provision of alcohol to someone under 21 for a second or subsequent offense within four years, the sentence is no less than a \$1000 fine and 150 hours of community service. A driver may not consume any alcoholic beverages while driving. Driving after drinking with an alcohol concentration of .08 means a person is driving while impaired. No person may transport in the passenger area spirituous liquors in any container other than the manufacturer's unopened original container. Violations may result in imprisonment, fine, mandatory community service and/or loss of driving privileges. Therefore, 19- or 20-year-olds who are convicted of an alcohol violation may have a criminal history that would affect professional organizations, and employers could use such a record to reject an applicant.

### **Federal Penalties and Sanctions for Illegal Possession of a Controlled Substance**

- 21 U.S.C. 844(a) – 1<sup>st</sup> conviction: Up to 1 year imprisonment and fined at least \$1000 but not more than \$100,000, or both. After 1 prior drug conviction: At least 15 days in prison, not to exceed 2 years and fined at least \$2,500 but not more than \$250,000, or both. After 2 or more prior drug convictions: At least 90 days in prison,

## STUDENT EXPECTATIONS, RIGHTS, AND RESPONSIBILITIES

not to exceed 3 years and fined at least \$5,000 but not more than \$250,000, or both. Special sentencing provisions for possession of crack cocaine: Mandatory at least 5 years in prison, not to exceed 20 years and fined up to \$250,000, or both, if:

1<sup>st</sup> conviction and the amount of crack possessed exceeds 5 grams.

2<sup>nd</sup> crack conviction and the amount of crack possessed exceeds 3 grams.

3<sup>rd</sup> or subsequent crack conviction and the amount of crack possessed exceeds 1 gram.

- 21 U.S.C. 853 (a)(2) and 881 (a)(7) Forfeiture of personal and real property used to possess or to facilitate possession of a controlled substance if that offense is punishable by more than 1 year imprisonment. (See special sentencing provisions re: crack)
- 21 U.S.C. 881(a)(4) Forfeiture of vehicles, boats, aircraft or any other conveyance used to transport or conceal a controlled substance.
- 21 U.S.C. 844a Civil fine of up to \$10,000.
- 21 U.S.C. 853a Denial of Federal benefits may apply, such as student loans, grants, contracts, and professional and commercial licenses.
- 18 U.S.C. 922(g) Ineligible to receive or purchase a firearm.

Miscellaneous: Revocation of certain Federal licenses and benefits, e.g. pilot licenses, public housing tenancy, etc., are vested within the authorities of individual Federal agencies. Note: These are only Federal penalties and sanctions. Additional State penalties and sanctions may apply.

### Health Risks

No illicit drug is free of health risks. Most carry the danger of psychological or physical addiction. All cause distortion of brain functioning and can alter thinking, perception, and memory, as well as, affect behavior. The use of intravenous drugs also presents the risk of infection with potentially deadly diseases (e.g. AIDS develop as result of damage to the respiratory, circulatory, and other body systems). Every illicit drug has the potential to result in death-whether from the body's own reaction to the abuse of drugs or from accidents caused by persons who are impaired. Although alcohol is not an illegal substance when consumed by adults over the age of 21, it presents many of the same health risks as illicit drugs. Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol

also increases the incidence of a variety of aggressive acts, including spouse and child abuse. Moderate to high doses of alcohol cause marked impairments in higher mental functions; severely altering a person's ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described. Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver. Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of alcoholic parents are at greater risk than other youngsters of becoming alcoholics.

### Available Resources

Many public and private resources are available for those needing assistance with drug or alcohol issues. In New Hanover County, call (910) 251-6530. In Brunswick County, call (910) 253-4485. In Pender County, call (910) 259-5476.

Another resource is the Alcohol/Drug Council of NC Information and Referral Service: (800) 688-4232. This is a drug abuse information and treatment referral line where individuals can get information and referrals to appropriate treatment facilities.

### Counseling and Rehabilitation Services to Prevent Substance Abuse

Students, faculty, and staff may seek assistance with an alcohol or drug-related problem through Cape Fear Community College. A listing of available services and referrals will be provided in the Counseling Office of Student Services and Enrollment Management.

A copy of this policy is distributed annually to students and employees.

### Zero Tolerance Statement

The College reserves the exclusive right to immediately suspend any activity that is not being conducted in exact accord with the college-approved description of the activity or any activity that substantially disrupts or materially interferes with the work, discipline, and/or educational activities of the College (e.g., by violating reasonable college rules and regulations, interrupting classes or other college programs or activities, or inciting or producing imminent violence or other lawless action on college premises) as adjudged by designated college officials. The College reserves the exclusive right to disband any student organization and/or club that; (1) conducts such inappropriate and/or unapproved activities; and (2) fails to follow college guidelines.

Moreover, Cape Fear Community College has "zero tolerance" when it comes to drugs and alcohol consumption while representing the college during college events. Any violation will result in immediate suspension from the college for one academic year and complete withdrawal from all current classes; no exceptions. In addition, the suspended individual will have a notation placed on their permanent CFCC record.

Cape Fear Community College does not differentiate among unlawful users, sellers or pushers of drugs or alcohol. Any student who uses, possesses, sells, gives or in any way transfers alcoholic beverages or a controlled substance is subject to disciplinary proceedings by the College and referred for prosecution. For more information refer to the Cape Fear Community College's Drug and Alcohol Policy.

### ***Tobacco Free Campus Policy***

#### **Cape Fear Community College:**

- is committed to providing its employees and students with a safe and healthful environment.
- recognizes the use of tobacco products on campus grounds is detrimental to the health and safety of students, staff, faculty and visitors.
- recognizes that it has the legal authority to prohibit tobacco use pursuant to G.S. 143-599.

Therefore, Cape Fear Community College has set the following 100% tobacco free campus policy, to be implemented on August 1, 2009.

#### **1. Use of tobacco is prohibited by students, staff, faculty or visitors:**

- in all campus buildings, facilities or property owned, maintained, or leased by Cape Fear Community College and outside areas of the campus;
- on campus grounds, facilities, or in vehicles that are the property of the college;
- in personal vehicles while on property owned or leased by Cape Fear Community College;
- at lectures, conferences, meetings, athletic, social and cultural events held on college property;
- for the purposes of this policy, tobacco is defined as any type of tobacco product including, but not limited to, cigarettes, cigars, cigarillos, pipes, bidis, hookahs, smokeless or spit tobacco or snuff, e-cigarettes or any product simulating smoking instruments.
- except at a specific location(s) on the North Campus as approved by the College President due to unsafe conditions going off-campus.

2. The sale or free distribution of tobacco products, including merchandise, on campus or at school events is prohibited.

3. Student organizations are prohibited from accepting money or gifts from tobacco companies, including:

- Events sponsored by tobacco companies and allowing them to distribute free, reduced-price, or fully priced tobacco products (T-shirts, hats, etc.) on campus.
- All tobacco advertising, such as billboards and signs in all campus buildings, facilities or property owned or leased and operated by Cape Fear Community College.

4. Tobacco advertisements are prohibited in college-run publications and on grounds or facilities, including athletic facilities, owned or operated by Cape Fear Community College.

5. Cape Fear Community College will provide access to tobacco cessation programs on campus.

These tobacco treatment programs shall be publicized regularly in student, faculty and staff publications and academic buildings, through Student Services and Enrollment Management and through other appropriate means.

#### **6. Implementation:**

- A campus committee shall develop a plan for communicating the policy with students, staff, faculty and visitors.
- The College ensures that appropriate signage and other physical indicators of our policy are provided.
- All tobacco waste management products such as ashtrays shall be removed.
- Those who violate the policy shall be given a citation for each policy violation.

#### **7. Citation:**

##### **Students:**

- 1<sup>st</sup> Offense-Conduct Warning
- 2<sup>nd</sup> Offense-Conduct Probation
- 3<sup>rd</sup> Offense-Conduct Suspension from CFCC if deemed necessary

In accordance with the Code of Conduct students who repeatedly violate the policy shall be referred to the Vice President for Student Services and Enrollment Management.

## STUDENT EXPECTATIONS, RIGHTS, AND RESPONSIBILITIES

### Faculty and Staff:

Staff and faculty who violate the policy shall be referred to their supervisor. Repeated violations by faculty and staff may result in further personnel action.

### Visitors:

Visitors are expected to adhere to the college policies. Visitors who ignore the policy shall be asked to leave campus.

## Sexual Harassment

Discriminatory personal conduct, including sexual harassment toward any member of the College, is a violation of both State and Federal law and college policy. Such conduct will not be tolerated in the College community.

All members of this college community are expected and instructed to conduct themselves in such a way as to contribute to an atmosphere free of sexual harassment. "Sexual Harassment" means:

- a) unwelcome sexual advances;
- b) unwelcome requests for sexual favors; or
- c) other behavior of a sexual or gender-based nature where:
  - i) submission to or rejection of such conduct is made either explicitly or implicitly a term or condition of an individual's employment, evaluation of academic work, or participation in a college sponsored educational program or activity;
  - ii) submission to or rejection of such conduct by an individual is used as the basis for an academic, employment, activity, or program participation decision affecting that individual; or
  - iii) such conduct is sufficiently severe and pervasive from both a subjective perspective (i.e., the recipient's view) and an objective perspective (i.e., a reasonable person's view) that it unreasonably interferes with an individual's academic or work performance or creates an intimidating, hostile, humiliating, demeaning, or sexually offensive working, academic, residential, or social environment.

Any student who believes that he or she has been subjected to sexual harassment in violation of this policy should make a confidential complaint to the Dean of Student Affairs or the CFCC Campus Police Department. If this is not feasible, the student may take the complaint to the Vice President for Student Services and Enrollment Management.

\*Last updated: Approved 1/19/17\*

## Sexual Misconduct Information

Title IX of the Education Amendments of 1972 states: "No person in the United States shall, on the basis of sex, be

excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance."

Cape Fear Community College is committed to providing a learning, and working environment that promotes respect, responsibility, communication, collaboration, critical thinking, and accountability in an environment free of sexual misconduct and discrimination. Sexual discrimination violates an individual's fundamental rights and personal dignity.

Cape Fear Community College considers sexual discrimination in all its forms to be a serious offense. This plan refers to all forms of sexual discrimination, including: discrimination against pregnant and parenting students, sexual harassment, sexual assault, and sexual violence by employees, students, or third parties. (Title 20 U.S.C. Sections 1681-1688)

Cape Fear Community College has a responsibility to ensure compliance by demonstrating that our education programs and other activities are operated in a manner consistent with Title IX regulations and provisions. Throughout the year there are several programs offered to the Cape Fear Community College community that provide knowledge to help prevent, avoid and respond to sexual misconduct.

### Procedures

If you feel you have been subjected to sexual harassment or discrimination, you should seek assistance as soon as possible. Please review the Sexual or Gender Misconduct Plan and the related Plan Explanations listed below.

### How Can We Help

Our plan helps to ensure the Cape Fear Community College's community is free from discrimination based on sex or gender behavior. We are here to help assist you in an effective and efficient manner. If you feel you are or have experienced sexual misconduct or discrimination, the most important thing you can do is to get help.

### Who Should I Contact

If you think you have been a victim of sex or gender discrimination, or if you are aware of its existence in any of our education programs or activities, or you have any questions about the sexual or gender misconduct policy, you can get help from any of the offices/individuals below:

- Faculty or Staff: Contact the Chief Human Resource Officer and/or Title IX Coordinator, your supervisor, or Campus Police/Safety;
- Students: Contact the Vice President for Student Services and Enrollment Management, any Student Services and Enrollment Management Director, Counseling Staff, Athletic Director, or Campus Police/Safety;
- Visitors or Applicants for employment: Contact the Chief Human Resource Officer or Campus Police/Safety.

## ***Sexual/Gender Misconduct Plan and Plan Expectations***

### **I. Plan Statement**

Members of the Cape Fear Community College's community, guests, and visitors have the right to be free from sexual violence. All members of the campus community are expected to conduct themselves in a manner that does not infringe upon the rights of others. Cape Fear Community College believes in zero tolerance regarding sexual or gender-based misconduct. When an allegation of misconduct is brought to an appropriate administrator's attention, and a respondent is found to have violated this plan, serious sanctions will be imposed to reasonably ensure that such actions are never repeated.

This plan has been developed to reaffirm these principles and to provide recourse for those individuals whose rights have been violated. This plan is intended to define community expectations and to establish a mechanism for determining when those expectations have been violated.

The college reserves the right to take whatever measures it deems necessary in response to an allegation of sexual misconduct in order to protect students' rights and personal safety. Such measures include, but are not limited to; modification of class schedule, interim suspension from campus pending a hearing, and reporting the matter to the local police. Not all forms of sexual misconduct will be deemed to be equally serious offenses and the college reserves the right to impose different sanctions, ranging from verbal warning to expulsion, depending on the severity of the offense. The college will consider the concerns and rights of both the complainant and the person accused of sexual misconduct.

In campus hearings, legal terms like "guilt", "innocence", and "burden of proof" are not applicable, but the College never assumes a student is in violation of college policy. Campus hearings are conducted to take into account the totality of all evidence available, from all relevant sources, to ensure a fair prompt and impartial hearing. All Title IX, sexual misconduct, violations are determined and based on the "preponderance of evidence" standard.

### **II. Expectations with Respect to Physical Sexual Misconduct**

The expectations of our community regarding sexual misconduct can be summarized as follows: In order for individuals to engage in sexual activity of any type with each other, there must be clear, knowing and voluntary consent prior to and during sexual activity. Consent is sexual permission. Consent can be given by word or action, but non-verbal consent is not as clear as talking about what you do and do not want sexually. Consent to one form of sexual activity cannot be automatically taken as consent to any other form of sexual activity. Silence--without actions demonstrating permission--cannot be assumed to show consent.

Additionally, there is a difference between seduction and coercion. Coercing someone into sexual activity is a violation of this plan in the same manner as physically forcing someone into sex. Coercion happens when someone is pressured unreasonably for sex.

Because alcohol or other drug use can place the capacity to consent in question, sober sex is less likely to raise such questions. When alcohol or other drugs are being used, a person will be considered unable to give valid consent. They cannot fully understand the details of a sexual interaction ("who, what, when, where, why, and how") because they lack the capacity to reasonably understand the situation. Individuals who consent to sex must be able to understand what they are doing. Under this plan, "No" always means "No" and "Yes" may not always mean "Yes". Anything less than a clear, knowing and voluntary consent to any sexual activity is equivalent to a "No".

**Expectations with Respect to Consensual Relationships**  
Romantic or sexual relationships between individuals in unequal positions (such as teacher and student, supervisor and employee) may be less consensual than perceived by the individual whose position confers power. The relationship also may be viewed in different ways by each of the parties, particularly in retrospect. Furthermore, circumstances may change, and conduct that was previously welcome may become unwelcome. Even when both parties have consented at the outset to a romantic or sexual involvement, this past consent may not remove grounds for a later charge of a violation of applicable sections of the faculty/staff handbooks.

### **Sexual Violence – Risk Reduction Tips**

Below is a list of suggestions to help avoid and reduce the risk of experiencing a non-consensual sexual act:

- If you have limits, make them known as early as possible.
- Tell a sexual aggressor "NO" clearly and firmly.
- Try to remove yourself from the physical presence of a sexual aggressor.
- Find someone nearby and ask for help.
- Take affirmative responsibility for your alcohol intake/drug use and acknowledge that alcohol/drugs lower your sexual inhibitions and may make you vulnerable to someone who views an impaired person as a sexual opportunity.
- Take care of your friends and ask that they take care of you. A real friend will challenge you if you are about to make a mistake. Respect them when they do.

## STUDENT EXPECTATIONS, RIGHTS, AND RESPONSIBILITIES

### Definitions

**Sexual Misconduct:** Sexual misconduct, including sexual assault, is defined as deliberate contact of a sexual nature without the other person's consent. Sexual misconduct may vary in its severity and consists of a range of behaviors or attempted behaviors that may be grounds for student conduct action under college policy. These behaviors, all of which constitute sexual misconduct include:

**Non-consensual sexual contact:** Non-consensual sexual contact is any sexual touching, with any object, by a man or a woman upon another person without consent or making any person touch you or them in a sexual manner. It is defined as engaging in any sexual contact other than intercourse with another person without that person's consent and/or cognizance. It includes any non-consensual sexual contact, including any improper touching of intimate body parts. It also includes the non-consensual removal of another's clothing, indecent contact (i.e., the unwanted touching of intimate body parts including, but not limited to; genitals, buttocks, groin, or breasts) or causing another to have indecent contact with them.

**Non-consensual intercourse:** Non-consensual intercourse is any sexual intercourse (anal, oral or vaginal), with any object, by a man or woman upon another person without consent. It is defined as engaging in sexual intercourse (oral, anal or vaginal) with another person without that person's consent and/or cognizance. Non-consensual intercourse may be accomplished by expressly or implicitly forcing or coercing another person to have sexual intercourse against his/her will, including the use or threat of physical force, or any behavior that is designed to intimidate and induce fear in another person. Non-consensual intercourse can also occur when another person is under the influence of alcohol or other drugs, is undergoing physical or emotional trauma, is less than 17 years of age, or is otherwise incapable of denying or giving consent (for example, when an individual is in an unconscious or semi-conscious state).

**Sexual Exploitation:** Sexual exploitation occurs when a person takes non-consensual or sexual advantage of another or his/her own advantage or benefit, or to benefit or advantage anyone other than the one being exploited, and that behavior does not otherwise constitute one of the other sexual misconduct offenses. Examples of sexual exploitation include, but are not limited to:

- prostituting another person;
- nonconsensual video or audio taping of sexual activity;
- going beyond the boundaries of consent (such as letting your friends hide in the closet to watch you having consensual sex);
- engaging in voyeurism;
- knowingly transmitting an STD or HIV to another.

### Sex Discrimination

Sex discrimination includes all forms of sexual harassment, sexual misconduct, and sexual violence by employees, students, or third parties against employees, students, or others on campus. Sex discrimination also includes stalking, dating violence and domestic violence. Students, college employees, and third parties are prohibited from harassing other students and/or employees whether or not the incidents of harassment occur on the college campus and whether or not the incidents occur during working hours.

### Sexual and Gender-based Harassment

Sexual harassment is unwanted sexual advances, requests for sexual favors, or visual, verbal, or physical conduct of a sexual nature when: (1) submission to such conduct is made either implicitly or explicitly, as a term or condition of an individual's employment or academic status; (2) submission to or rejection of such conduct is used as a basis for employment or education decisions affecting the individual; or (3) such conduct has the purpose or effect of unreasonably interfering with a student's or employee's work performance or creating an intimidating, hostile, or offensive working, educational, or living environment. While sexual harassment encompasses a wide range of conduct, some examples of specifically prohibited conduct include:

- Promising, directly or indirectly, a reward to an individual if the person complies with a sexually oriented request.
- Threatening, directly or indirectly, retaliation against an individual, if the person refuses to comply with a sexually oriented request.
- Denying, directly or indirectly, an individual employment or education related opportunity, if the individual refuses to comply with a sexually oriented request.
- Engaging in sexually suggestive conversation or physical contact or touching another individual.
- Displaying pornographic or sexually oriented materials.
- Engaging in indecent exposure.
- Making sexual or romantic advances toward an individual and persisting despite the individual's rejection of the advances.
- Physical conduct such as assault, touching, or blocking normal movement.
- Retaliation for making harassment reports or threatening to report harassment.

Gender-based harassment is also prohibited. It includes, but is not limited to; acts of verbal, nonverbal, or physical aggression, intimidation, or hostility based on sex or sex stereotyping, even if those acts do not involve conduct of a sexual nature.

Sexual harassment can involve males or females being harassed by members of either sex. Although sexual harassment sometimes involves a person in a greater position of authority as the harasser, individuals in positions of lesser or equal authority also can be found responsible for engaging in prohibited harassment. Sexual harassment can be physical and/or psychological in nature. An aggregation of a series of incidents can constitute sexual harassment even if one of the incidents considered separately would not rise to the level of harassment.

### Coercion

Coercing someone into sexual activity violates this policy as much as physically forcing someone into sex. Coercion exists when a sexual initiator engages in sexually pressuring and/or oppressive behavior that violates the norms of the community and that application of pressure or oppression causes another individual to engage in unwanted sexual behavior. Coercion may be differentiated from seduction by the repetition of the coercive activity beyond what is reasonable, the degree of pressure applied, environmental factors such as isolation and the initiator's knowledge that the pressure is unwanted.

### Consent

Effective consent is the basis of the analysis applied to unwelcome sexual contact. Lack of consent is the critical factor in any incident of sexual misconduct and sexual violence.

- Consent is informed, freely and actively given, and requires clear communication between all persons involved in the sexual encounter.
- Consent is active, not passive. Consent can be communicated verbally or by actions. But in whatever way consent is communicated, it must be mutually understandable. Silence, in and of itself, cannot be interpreted as consent.
- It is the responsibility of the initiator of sexual contact to make sure they understand fully what the person with whom they are involved wants and does not want sexually.
- Consent to one form of sexual activity does not imply consent to other forms of sexual activity.
- Previous relationships or consent does not imply consent to future sexual acts.
- Consent cannot be procured by use of physical force, compelling threats, intimidating behavior, or coercion. Coercion is unreasonable pressure for sexual activity. Coercive behavior differs from seductive behavior based on the type of pressure someone uses to get consent from another.
- Incapacitation is a state where one cannot make a rational, reasonable decision because they lack the ability to understand who, what, when, where, why and how of their sexual interaction.
- Effective consent cannot be given by minors, mentally disabled individuals or persons incapacitated as a result of drugs or alcohol.
- Use of alcohol or other drugs will never function to excuse behavior that violates this policy. When alcohol or other drugs are being used, someone will be considered unable to give valid consent if they cannot appreciate who, what, when where, why and how of a sexual interaction. Individuals who consent to sex must be able to understand what they are doing.
- If you have sexual activity with someone you know to be, or should know to be, mentally or physically incapacitated (by alcohol or other drug use, unconsciousness or blackout), you are in violation of this policy.
- This policy also covers someone whose incapacity results from mental disability, sleep, involuntary physical restraint, or from the taking of a so-called "date-rape" drug. Possession, use and/or distribution of any of these substances, including Rohypnol, Ketamine, GHB, Burundanga, etc., is prohibited and administering one of these drugs to another person for the purpose of inducing incapacity is a violation of this policy. More information on these drugs can be found at <http://www.911rape.org/>.

If you find yourself in the position of being the initiator of sexual behavior, you owe sexual respect to your potential partner. These suggestions may help you to reduce your risk for being accused of sexual misconduct:

- DO NOT MAKE ASSUMPTIONS about consent, about someone's sexual availability, about whether they are attracted to you, about how far you can go or about whether they are physically or mentally able to consent to you.
- Clearly communicate your intentions to your sexual partner and give them a chance to clearly relate their intentions to you.
- Understand that consent to some forms of sexual behavior does not necessarily imply the consent to other forms of sexual behavior.
- Mixed messages from your partner should be a clear indication that you should step back, defuse the sexual tension, and communicate better. Perhaps you are misreading them.
- Do not take advantage of someone's drunkenness, impaired or drugged state, even if they did it to themselves.
- Realize that your potential partner could be intimidated by, or fearful of you.
- Silence and passivity cannot be interpreted by you

## STUDENT EXPECTATIONS, RIGHTS, AND RESPONSIBILITIES

as an indication of consent. Read your partner carefully, paying attention to verbal and non-verbal communication.

### **Retaliation**

The college strictly prohibits retaliation against any person for reporting, testifying, assisting or participating, in any manner, in any investigation or proceeding involving allegations of discrimination or harassment. Any person who violates this policy will be subject to discipline, up to and including termination if they are an employee, and/or expulsion if they are a student. Retaliation is any action by any person that is perceived as: intimidating, hostile, harassing, a form of retribution, or violence that occurs in connection to the making and follow-up of the report.

### **Dating Violence**

The term "dating violence" means violence committed by a person (a) who is or has been in a social relationship of romantic or intimate nature with the complainant; and (b) where the existence of such a relationship shall be determined based on a consideration of the following: the length of relationship, the type of relationship and the frequency of interaction between the persons involved in the relationship.

### **Domestic Violence**

The term "domestic violence" includes felony or misdemeanor crimes committed by the current or former spouse of the complainant, by a person whom the complainant has a child with, by a person who is cohabitating with or has cohabitated with the victim as a spouse, by a person similarly situated to a spouse of the complainant under the domestic or family violence laws of the jurisdiction receiving grant monies, or by any other person against an adult or youth victim who is protected from the person's acts under the domestic or family violence laws of the jurisdiction.

### **Stalking**

The term "stalking" means engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his or her safety or the safety of others; or suffer substantial emotional distress.

### **Conduct Warning, Probation, Suspension, and Expulsion**

Any student whose conduct becomes unsatisfactory may be placed on conduct warning, probation, suspension, or may be expelled from the college. Any misconduct after a person is placed on conduct probation may result in prompt suspension or expulsion. However, a student is subject to immediate suspension or expulsion if deemed necessary by the Vice President for Student Services and Enrollment Management.

**Warning** – is a status of "conduct warning" through the duration at CFCC.

**Probation** – is a status of "conduct probation" for the duration at CFCC, considered not to be in good standing with the College, and will remain on the student's permanent record.

As part of conduct probation, the student may have restrictions placed on specific student privileges, as determined by an administrative hearing and/or the Dean of Student Affairs. In the event of a further violation of the Code of Conduct, or other College rules while on disciplinary probation, the College will seek the penalty of suspension or expulsion if deemed necessary.

**Suspension** – is the status of "conduct suspension", which involves immediate removal from campus, withdrawal from enrollment, registration privileges revoked, and will remain on the student's permanent record.

**Expulsion** – is the permanent dismissal of a student from the College. Expulsion will result in immediate removal from campus, withdrawal from enrollment, registrations, privileges revoked, and will result in a permanent notation on the CFCC official transcript.

All suspended students must meet with the Dean of Student Affairs or designee to make clear the terms of their suspension or expulsion from the College. Re-enrollment after a suspension period requires that the student apply to the Dean of Student Affairs at the close of the imposed period, and the Dean will determine whether the student has met the conditions imposed and is otherwise eligible for re-enrollment. A denial may be appealed to the Judicial Board.

During the term of suspension and/or expulsion, the student may not come onto campus and may be served with a No-Trespass Notice (campus ban). Failure to abide by this condition may result in arrest for criminal trespassing.

A student who is suspended or expelled after the deadline for withdrawal ("W"), shall be assigned a grade of "W" and administratively withdrawn regardless of academic performance.

### **Right of Appeal**

If a student wishes to appeal a conduct action taken by the College, he/she may file a written appeal with the Vice President for Student Services and Enrollment Management. Within ten (10) weekdays of receipt of the written appeal, the Vice President for Student Services and Enrollment Management will convene the Code of Conduct Subcommittee of the Judicial Board to hear the appeal and make a determination regarding the issue. The Vice President for Student Services and Enrollment Management will then notify, in writing, the student and the Dean of Student Affairs of the Code of Conduct Subcommittee's decision. The student may appeal the Code of Conduct Subcommittee's decision to the President of the College or his/her designee.

This appeal must be made within ten (10) weekdays of the student's receipt of the Code of Conduct Subcommittee's decision. The appeal process consists of the President of the College or his/her designee reviewing the written record submitted to date and does not involve an additional hearing. The President of the College or his/her designee will respond with his/her final decision to the appeal within ten (10) weekdays of receipt of the appeal.

### **Judicial Board**

Cape Fear Community College supports students' constitutional right to due process. The Judicial Board is the vehicle to ensure the right of appeal.

The right of appeal is granted to any student who has a grievance concerning final grades, academic integrity (cheating/plagiarism), financial aid suspension, conduct suspension or expulsion, or feels he/she has been discriminated against or denied service on the basis of race, color, national origin, age, religion, disability or sex.

The Judicial Board will consist of thirteen (13) representatives from all areas of the College - faculty, staff, students and administration. The Judicial Board's subcommittees will act on the following categories of student appeals. The Judicial Board will hear appeals concerning final grades, academic integrity, financial aid suspension, conduct suspension or expulsion, and charges of discrimination and/or denial of service on the basis of race, color, national origin, age, religion, handicap or sex. The subcommittees, areas of responsibility, and composition of the Judicial Board are listed below.

#### **Academic Subcommittee of the Judicial Board**

The Academic Subcommittee will hear appeals in the matter of academic integrity (cheating or plagiarism) and grade appeal (final grades). The subcommittee consists of two (2) faculty, two (2) students and one (1) Student Services and Enrollment Management staff. One faculty member is to be chosen from each of the academic areas - vocational/technical and college transfer. The committee will select its chairman from the faculty membership.

#### **Financial Aid Subcommittee of the Judicial Board**

The Financial Aid Subcommittee will hear appeals concerning suspension from the College's financial aid programs. The committee will consist of one (1) representative from the following areas - Financial Services, Student Services and Enrollment Management, faculty, and students. The chairman will be selected by the committee.

#### **Code of Conduct (Disciplinary and Sexual Misconduct) Subcommittee of the Judicial Board**

The Code of Conduct (Disciplinary and Sexual Misconduct) Subcommittee will hear appeals concerning conduct from the College's Office of Student Affairs. The committee will consist of three (3) or more representative from the CFCC faculty and/or staff as designated by the Dean of Student Affairs, with one (1) additional student member for disciplinary hearings. The chairman will be selected by the Dean of Student Affairs.

### **Grievance Procedures**

If you believe that you have a legitimate grievance against another CFCC student or college employee, in a matter other than those covered by the aforementioned, or those outside the jurisdiction of the CFCC Code of Conduct, you may seek a resolution of that grievance through an informal complaint with the Dean of Student Affairs. If your grievance cannot be resolved at an informal level, you may file a formal complaint with the Vice President of Student Services and Enrollment Management to initiate a hearing with the Judicial Board to seek additional understanding and/or resolution.

### **Student Complaint Procedures**

As a matter of practice, CFCC subscribes to the philosophy that student complaints are best resolved on an informal basis. When a student has a complaint he/she should attempt to resolve concerns with college personnel having responsibilities directly at the source of the complaint. When informal procedures do not resolve concerns, written student complaints should be sent to the Dean of Student Affairs who will determine the appropriate college personnel to review the complaint. The student should receive written acknowledgment of receipt of the complaint from the Dean of Student Affairs or designee within 24 hours.

The complaint will be reviewed and a collaborative effort will be made to resolve the complaint within twenty (20) working days of receipt of the complaint. The student will receive notification of the resolution of the complaint, or of the College's position on the complaint.

CFCC also provides its students, employees, and guests with an on-line form at <http://cfcc.edu/osa/complaint/> for reporting alleged incidents of harassment, discrimination, sexual misconduct and/or breaches of the CFCC Code of Conduct.

### **Public Complaint Procedures**

Members of the public may also register complaints by forwarding signed, written statements to the Office of the President, Cape Fear Community College, 411 N. Front Street, Wilmington, North Carolina. CFCC will not entertain complaints that are not in writing or which are anonymous, nor will it consider complaints sent electronically or through facsimile transmission. The President, or the President's designee, may require further information from the complainant and may seek information from appropriate college offices, as needed, to respond to the complaint.

## **Crime Awareness and Campus Security Policy (Jeanne Clery Act)**

### **I. Intro**

The goal of CFCC Police is to provide students, faculty, staff, and visitors with a safe educational environment. The Campus Police Department is comprised of both sworn Law Enforcement Officers and non-sworn Campus Security Officers as well as Parking Enforcement. The Police Department is responsible for crime reports, initial and follow-up investigations, traffic accident reports, and other public safety services.

### **A. Mission Statement of the Cape Fear Community College Police Department**

- We will provide a safe learning environment by enforcing law and upholding college policy in a legal, ethical, and professional manner.
- We will provide effective law enforcement by building relationships with students, staff and faculty.
- We will value each person as we work to build trust, reduce crime, and create a safe environment while supporting the mission of the college.

### **B. Vision Statement**

The core values of our department, in order to accomplish our mission, are built upon: Professionalism, Respect, Integrity, and Responsibility.

We will work through partnerships with other agencies as we strive to maintain an environment which the primary education mission of the college can be met.

## **II. College Safety**

### **A. Law Enforcement**

Sworn Police Officers are armed and are identified by their gray and blue uniforms with a distinctive CFCC POLICE shoulder patch and badge. They have full police authority on College property under the provisions of Chapter 17C of the General Statutes of the State of North Carolina. Police commissions are granted under that statute by the Attorney General of North Carolina. Police Officers possess all the powers of Municipal and county police officers to make arrest for both felonies and misdemeanors and charge for infractions within the agency's jurisdiction. Police Officers normally do not wear civilian or plain clothes while conducting police business on the campus.

### **B. Security**

Non-sworn Campus Security officers are unarmed and are identified by the yellow or blue and black uniforms with a distinctive white and blue shoulder patch and security badge. They perform many of the same tasks as sworn police officers with the exception of effecting arrest. An arrest (if necessary) will be referred to a sworn officer. Security Officers normally do not wear civilian or plain clothes while conducting security business on the campus.

### **C. Parking Enforcement**

Parking Enforcement Officers are unarmed and are identified by the white and black uniforms with a distinctive black and white shoulder patch, and a black security officer badge patch. They assist with parking management throughout campus and the enforcement, to include: ticketing, booting and towing for violations.

## **III. Reporting and Notifications**

Students who are victim of or witness to a crime or criminal incident, or are aware of a potential threat on campus have the responsibility to report it immediately to the police.

Reporting crime helps law enforcement agencies find and arrest a suspect in a crime, tracking criminal activity and identify trends in various areas, and recover stolen property.

### **A. Methods**

If you have any doubt about safety, especially if you feel like you're in immediate danger, do not hesitate to call 9-1-1. Crimes occurring on campus should be reported to the Campus Police. For Crimes in progress (happening now) the Emergency Phone number is 910-362-7777. For Crimes not in progress, reporting, or questions, the non-emergency phone number is 910-362-7855. Emergency "Blue Light" Telephones: Emergency phones are installed throughout the campus. Activating this box will connect you to the 911 Dispatch Center which notifies Campus Police or Emergency Services of an emergency in that area and send help.

### **B. Enforcement**

Police commissions are granted under that statute by the Attorney General of North Carolina. Police Officers possess all the powers of Municipal and county police officers to make arrest for both felonies and misdemeanors and charge for infractions within the agency's jurisdiction.

Students should be aware that many of our Wilmington Campus neighbors are privately owned businesses and residential structures. They reserve many parking spaces for customers, staff, or residential parking. Please be aware of the policy that applies to any parking facility that you use.

### **C. Notification Systems**

Cape Fear Community College has an Emergency Notification System in place, primarily intended to rapidly disseminate emergency information about an incident or emerging situation and provide instructions to Students, Faculty and Staff.

In the event that a situation arises, either on or off campus, that, in the judgement of the President, her

senior administrative staff, or Chief of Police, is a potential ongoing or continuing threat, a campus wide “timely warning” will be issued.

The warning will be issued through the most effective and efficient means available and may include text messages, emails, voicemails and social media.

### **D. Campus Sex Crimes Prevention Act**

The federal Campus Sex Crimes Prevention Act enacted on October 28, 2000 requires all colleges to issue a statement advising the campus community where information on registered sex offenders who are employed, enrolled, or volunteering at Cape Fear Community College can be obtained.

### **E. Sex Offender Notification**

Persons who have been convicted of an offense against a minor or a sexually violent offense are required by law to register with the county sheriff in the county where they reside. The law requires that they also inform the county sheriff if they register for school. New Hanover and Pender County Sheriff's Departments have indicated they will notify the college when a sex offender indicates they plan to attend CFCC. These notifications are intended to inform rather than create panic.

Notifications of registered sex offenders are public knowledge and may be found at the following sites:

- North Carolina Sex Offender and Public Protection Registry: <http://sexoffender.ncsbi.gov/>
- U.S. Department of Justice, National Sex Offender Public Website: <https://www.nsopw.gov/>

### **F. Protect Yourself**

Students and employees can do much to protect themselves from crime. Many crimes occur only because there was an opportunity for them to happen. For example, most crimes of theft are random, not calculated. They occur because personal property is left unattended. Locking doors and windows, securing valuables in your car trunk are methods of reducing temptation and opportunity which can result in a thwarted burglary or theft.

Personal protection is also important. When walking, plan the safest and most well-lit route. Be aware of your surroundings including persons, places and things.

Remember, you can take steps to protect yourself from being the victim of a crime, educate yourself, protect yourself, and report all criminal activity or suspected criminal activity to the Campus Police.

## ***The Jeanne Clery Act***

Cape Fear Community College seeks to protect the college learning environment and provide a safe campus for all students, faculty, staff and visitors while on college premises. CFCC complies with the Jeanne Clery Act that requires all colleges and universities who receive federal funding to share information publicly about crime on campus and their efforts to improve campus safety. Disclosure of the CFCC campus crime statistics (Clery Report) may be found at the following website for review:

<http://ope.ed.gov/security/>

## ***Behavioral Intervention Team (BIT)***

Cape Fear Community College is committed to providing the best possible and working environment that is free of discrimination, harassment and/or sexual violence. By establishing a Behavioral Intervention Team (BIT) at CFCC, formal lines of communication will be clear and efforts will be strengthened during heightened security threats at all college campuses and sites. The BIT will provide a college-wide, integrated approach to addressing extraordinary discipline and/or safety issues on campus. The ongoing in development and coordination of a team of CFCC administrators to address crisis intervention situation will ultimately reinforce the college's overall safety and security infrastructure.

## ***Weapons on Campus***

It is unlawful for any person to possess or carry, openly or concealed, any weapon on campus. The only exception made to this directive is in the case where training or job requirements of the student or employee requires that such a weapon be carried.

## ***Evacuation of Buildings***

An evacuation diagram is located on each floor and in each room of every building. The primary route for evacuating a building is indicated by a solid red line. If, for any reason, the primary route is blocked, use the secondary escape route indicated by a broken red line on the diagram. All occupants will follow this procedure EXCEPT HANDICAPPED PERSONS: CFCC staff will make provisions for all handicapped persons to be evacuated from the building by way of utilization of the outside stairwell and Wilmington Fire Department personnel.

## ***Emergency Evacuation***

Everyone must exit the building when the fire alarm sounds. IT IS NOT AN OPTION TO REMAIN IN THE BUILDING. Treat all alarms as the real thing. Students should take all personal belongings with them when evacuating the building.

# CONTINUING EDUCATION DIVISION

## General Course Information

The Continuing Education Division promotes the personal and professional development of individuals and employee groups by offering non-credit courses and seminars. Courses and seminars vary from a few hours in length to several hundred hours, depending on their purpose and content. Continuing Education instruction generally includes a combination of lecture, demonstration, and application, and may be delivered in a classroom setting, on location, or through an online learning environment.

Courses open to the general public are advertised through various print, online, social media, and news outlets. New courses are added throughout the year. An up-to-date listing can be found at [cfcc.edu/ce](http://cfcc.edu/ce).

Courses developed and customized for current or future employees of client companies are not advertised to the general public.

The Continuing Education Division offers a broad range of educational services: basic skills and developmental assessments, high school equivalency exam testing, training and testing for professional licenses and certifications, career assessments, training needs assessments and job task analyses, as well as courses designed for personal enrichment and lifelong learning. Some specialized programs include the Small Business Center, Career Readiness courses, Customized Training Programs, workplace literacy, and English as a Second Language (ESL).

Courses taken through Continuing Education are generally not transferable to curriculum programs at CFCC or other colleges. CFCC does award curriculum credit in limited areas, such as Emergency Medical Science, using a combination of Continuing Education credits (CEUs), current certifications, and work experience.

Classes are held at the Wilmington downtown campus, North Campus, Burgaw Center, Alston W. Burke Center, and at other locations throughout New Hanover and Pender counties.

For more information and an up-to-date listing of upcoming courses, visit [www.cfcc.edu/ce](http://www.cfcc.edu/ce).

## Admission

Generally, any person who is 18 years of age or older, or whose high school class has graduated, is eligible for admission to Continuing Education courses. High school juniors and seniors, 16 years of age and older, may enroll with permission from high school officials and a signed parental consent form. Applicants are usually admitted on a first-come, first-serve basis. Some courses have specific admission requirements. Information on requirements is available online at [cfcc.edu/ce](http://cfcc.edu/ce) or by calling the number listed with the course. Individuals interested in attending any occupational extension or community enrichment course may register online through WebAdvisor at [www.cfcc.edu](http://www.cfcc.edu) or in person by visiting the college.

## Change of Name/Address

It is extremely important for the College to have accurate name and address information for each student. Students must have their name formally changed with the Social Security Administration and the Department of Motor Vehicles in order to process a name change. Name changes can only be done in person in Student Services and Enrollment Management on either campus. Students with new addresses may complete a form in Student Services and Enrollment Management or update their address online through WebAdvisor.

## Registration Information

Most courses require pre-registration. For information concerning the current course offerings and their locations in New Hanover or Pender counties, call (910) 362-7170 or visit the website at [www.cfcc.edu/ce](http://www.cfcc.edu/ce).

## Course Schedules

Continuing Education courses are scheduled on a continuous basis with new courses starting often. Specific announcements of course offerings, registration dates, locations, and other pertinent information will be through various print, online, social media, and news outlets.

For current course information, please call (910) 362-7170 or visit [www.cfcc.edu/ce](http://www.cfcc.edu/ce).

Special seminars and industrial courses may be scheduled to begin at any time period appropriate to a company and Cape Fear Community College.

For more information about customized training, please call (910) 362.7846. For Small Business seminars, call (910) 362-7469.

## **Minimum Enrollment Required**

The college reserves the right to cancel any course when an insufficient number of people register.

## **Course Schedules**

Continuing Education course schedules vary depending on the subject matter and intent of the course. Specific information on course schedules can be found within the online description of that course at [www.cfcc.edu/ce](http://www.cfcc.edu/ce).

## **Fees**

Registrations fees for occupational extension courses are set by the State of North Carolina. Based on the length of the course, the costs range from \$70 to \$180. In compliance with North Carolina statutes, registration fees may be waived for selected courses and qualifying individuals. Occupational Extension registration fees are subject to change contingent upon action by the NC General Assembly.

Registration fees for self-supporting courses are set by the college. They are based on a number of factors specific to each course and may vary greatly from course to course. For specific course costs, visit [www.cfcc.edu/ce](http://www.cfcc.edu/ce).

Additional costs may include textbooks, equipment and/or supplies specific to the course, insurance fees, a \$5.00 Campus access/parking/security fee, and a \$5.00 technology fee where applicable. In a limited number of self-supporting classes and seminars, other special fees may be charged.

## **Withdrawal and Refund Policy**

The refund policy, as set forth by the North Carolina General Assembly, follows in the next paragraph. To be eligible for a refund the student must officially withdraw from the class by completing a refund request form. Any additional fees paid are nonrefundable, including professional liability insurance and technology fees.

A 100 percent tuition refund shall be made if the student officially withdraws from class before the first class meeting (fax: 910-362-7990 or email: [ceRegistrar@cfcc.edu](mailto:ceRegistrar@cfcc.edu)). A written request must be dated and received by the registrar before the first class meeting.

A 75 percent tuition refund shall be made if the student officially withdraws from class prior to or on the 10 percent date of scheduled hours. A written request must be dated and received by the registrar prior to or on the 10 percent date of scheduled hours. Students are responsible for obtaining the 10 percent date from their instructor on the first class meeting. Please note: For courses that meet fewer than 10 times, the 10 percent date will usually be the first class meeting.

A full refund shall be made for classes canceled by the college. Students do not have to request refunds in this case.

## **Transcript of Record (Curriculum and Continuing Education)**

Upon written request of the student, a transcript of classes taken and credits earned at Cape Fear Community College will be sent to other colleges or third parties. Transcripts can be requested for colleges to which you have applied through the College's website ([www.cfcc.edu](http://www.cfcc.edu)). Transcripts requested in person will be printed on demand except during peak registration days or mailed as designated. The non-refundable cost for an official transcript is \$5.00 each.

## **Continuing Education Registration-Campus Access Fee**

All parking decals may be obtained in person Monday through Friday, 8 a.m.–5 p.m. in the college business office at both the Wilmington and North Campus.

At the Burgaw Center and Alston Burke Center, parking decals may be obtained in person Monday through Friday, 8 a.m.–5 p.m. from the front desk.

Students are required to display parking passes on vehicles parked on campus at any site.

## **Academic and Career Readiness Department**

The Academic and Career Readiness Department includes the following programs for adults 16 years of age or older, who wish to begin, continue, or expand their educational skills. All interested participants in Academic and Career Readiness must demonstrate the ability to benefit from the program by being able to take one of the following pre-tests as determined by the college: CASAS, TABE. Students unable to complete the pre-test will be admitted to the program at a future date once they are able to complete the pre-test.

- **Adult Basic Education (ABE)**
- **Adult High School Diploma (AHS)**
- **Career Readiness (formerly known as Human Resources Development)**
- **English as a Second Language (ESL)**
- **High School Equivalency Exam Prep for the GED® Test**
- **National Career Readiness Certification**

All classes are offered at convenient times and locations. All classes are free. Anyone under 18 years of age must have school and parental release forms. High School Equivalency Exam Prep classes for the GED® Test, Adult High School classes are also offered online to students who meet eligibility requirements. National Career Readiness Certification prep classes are also offered online.

For more information log onto <http://cfcc.edu/basicskills>.

## ***Basic Skills Attendance Policy for High School Equivalency Prep, ABE, ABE Essentials, ESL***

Students must be in attendance at least eighty percent (80%) of the clock hours of a class in order to remain in the class.

Those who do not meet minimum attendance requirements will be dropped from the class for that session and will be given a grade of "U". Students are expected to punctually attend all lecture and laboratory sessions in the classes for which they are registered. Late arrivals and/or early departures will count

toward total absences in classes. Attendance in online classes (HSE, AHS online) is measured not only by initial login but also by completion of 80% of the required coursework. Students MUST also meet on the published meeting dates (registration/ orientation, required testing dates).

## ***Pre-Registration/Orientation***

To enroll in ABE, AHS, High School Equivalency Exam preparation, ESL, or AHS classes at CFCC, students must attend a pre-registration and orientation session. No appointment is necessary. All sessions are held on the Wilmington Campus of CFCC. Students who wish to enroll in off-campus classes may register at the class site. Cost is free.

## ***Adult Basic Education (ABE) Classes***

The ABE program is designed for persons 16 or older with or without a high school diploma or its equivalency who function below the ninth grade level. Students receive individualized and classroom instruction in basic math, reading, writing, computer and employability skills. These classes improve adults' basic skills preparing them to enter the workforce, enhance daily living skills, prepare for the GED® Test or Adult High School Diploma classes and enroll in college.

For more information, call (910) 362-7324 or log onto <http://cfcc.edu/ce/basic-skills/ged-abe>.

## ***Adult Basic Education Essentials***

The ABE Essentials classes are designed for adults that have completed high school but want to continue improving their reading, writing, computer and employability skills with the goal of getting a job. Classes meet Monday through Thursday on campus and Monday through Friday at off campus locations. Cost varies.

Call (910) 362-7457 for more information.

## ***Adult High School Diploma (AHS) Classes***

The Adult High School (AHS) program is designed for adult learners 16 years of age or older who have not completed high school, but have academic skills at or above the 9th grade level. Students who are 16 or 17 years old may enroll only if they have officially withdrawn from public school. Students must complete 22 units to be eligible to graduate. Classes meet nightly, Monday through Thursday, from 5:30 p.m. until 9:30 p.m. at campus sites in Wilmington and Burgaw. The cost is free. Registration for all AHS classes is held at the Wilmington campus.

Classes are also available online to students who meet eligibility requirements.

For information, please call (910) 362-7324 or log onto <http://cfcc.edu/basicskills/ahs/>.

## ***Career Readiness Classes (formerly known as Human Resources Development)***

The Career Readiness program is designed for individuals who wish to become more marketable by upgrading their employability skills. Classes are year round and include Introduction to Computers, Resume Preparation, Interview Coaching, Career Interests and Aptitudes, Confidence Building, and Self-Discovery. Classes are reasonably priced and the fee may be waived for those who qualify.

For more information, call (910) 362-7324

## ***English as a Second Language (ESL) Classes***

The ESL program is designed for persons 16 years or older whose native language is not English. Instruction focuses on English skills that will enable students to interact effectively in the community, workplace, or in higher education.

Classes are designed to serve the needs of those individuals who have no English skills up to and including individuals who are preparing for university study. ESL classes help individuals develop skills to secure a job, help children with schoolwork, talk on the phone, meet new people, and improve communication skills.

For information call (910) 362-7324 or log onto <http://cfcc.edu/basicskills/esl/>.

## ***GED® Testing***

GED® Tests are offered at the downtown campus.

For registration Information call (910) 362-7324.

## ***High School Equivalency Exam Prep Classes for the GED® Test***

This program is designed for persons 16 or older without a high school diploma or its equivalency and who function at or above the 9th grade level. Students receive individualized and classroom instruction to prepare for the four areas of the GED® Test. Classes are also available online to students who meet eligibility requirements.

For more information, call (910) 362-7324 or log onto <http://cfcc.edu/basicskills/ged-abe/>.

## ***National Career Readiness Certification (CRC)***

Cape Fear Community College in partnership with NC Department of Commerce, Work Force, Centers in New Hanover and Pender counties, is offering the National Career Readiness Certificate (NCRC) program. The NCRC is a portable credential recognized by many employers across the State and nationwide that allows a job candidate to prove his/her skills in three areas Applied Mathematics, Reading for Information and Locating Information. This allows employers to make informed employment and training decisions. After taking the KeyTrain pre-assessments students will know if there are any skills gaps and exactly what areas in which they need to improve when considering specific jobs. Certifications awarded in: bronze, silver, gold, and platinum.

For more information, call (910) 362-7324, or go to our website at <http://cfcc.edu/basicskills/careerreadiness/>.

## ***Community Enrichment Department***

The Community Enrichment department offers short term, non-credit courses that encourage and support individuals interested in lifelong learning opportunities and becoming active citizens in their community. Students receive an abundance of opportunities to meet new people, explore their interests, and develop new skills. CFCC Community Enrichment is committed to facilitating personal transformations that enrich the education and lives of our students.

Four areas of course offerings are included within the Community Enrichment department. Personal enrichment courses cover a broad range of topics from culinary techniques to small scale farming. In addition, **defensive driving courses** encourage the general public to learn safe driving strategies to reduce risk of citations and motor vehicle crashes. Below is a brief sampling of courses available.

For more information about these courses, or to suggest a new course offering, please call (910) 362-7199 unless otherwise noted.

Community Enrichment courses are frequently designed to meet specific requests; therefore, course offerings may change with the interests and the needs of residents in CFCC's service areas of New Hanover and Pender counties. Input from the community is welcome and encouraged, and we are always seeking talented instructors.

If you are interested in teaching for Community Enrichment, please call the Director of Community Enrichment at (910) 362-7254.

## ***Personal Enrichment Courses***

It's never too late to try something new! CFCC Community Enrichment offers a variety of personal enrichment courses and workshops which are open to the general public. Areas of course offerings include, but are not limited to: personal health and wellness, computers and technology, recreational sports, foreign and sign languages, heritage arts and crafts, boating safety, visual and performing arts, home and garden, and much more.

For information about upcoming personal enrichment courses, please call (910) 362-7199 or visit [www.cfcc.edu/communityenrichment](http://www.cfcc.edu/communityenrichment).

## ***Defensive Driving Courses***

Defensive Driving courses are available to individuals with moving violations and also to the general public to improve driving skills.

For information and class schedules, call (910) 362-7219, or (910) 362-7175 or visit <http://cfcc.edu/communityenrichment>.

**Alive@25:** This course is ideal for young drivers age 16-25. Through interactive media segments, workbook exercises, role playing, and classroom participation, young drivers develop strategies that will keep them safe on the road.

**DDC4:** This four (4) hour Defensive Driving course will motivate drivers to change behind-the-wheel behaviors and attitudes. It will give them key understanding, skills and techniques to avoid collisions and reduce future violations. The result is a more responsible driver who grasps best practices to prevent injury and death while operating a motor vehicle. This class is open to any individual or business wanting to increase their awareness of roadway safety.

**DDC8:** The eight (8) hour Defensive Driving Course is used extensively for court referrals, as a diversion program for drivers with excessive violations, and to retrain drivers with poor driving records. This course addresses the attitudes of drivers so participants can see that their choices have financial, legal, and personal consequences.

## ***Motorcycle Rider Safety - Basic***

This basic twenty-two (22) hour course is designed for new riders who have never ridden a motorcycle and for re-entry riders who need a refresher course. Students will learn about the different types of motorcycles, layout and operation of the basic controls, and how to become a safer, more responsible rider. Successful participants will receive a NC DMV skills waiver card.

For information and class schedules, call (910) 362-7219 or 362-7175.

## ***Motorcycle Rider Safety - Experienced***

A one-day course for riders with basic skills, this class provides more in-depth riding techniques and procedures than practiced in the basic motorcycle rider course. This course consists of activities that emphasize personal risk management and self-assessment strategies and on-cycle exercises with emphasis in cornering, braking and swerving.

For information and class schedules, call (910) 362-7219 or 362-7175.

## ***Customized Training and Workforce Development Department***

**502 N Front Street – Union Station U550  
Wilmington, North Carolina 28401**

Located at 502 N Front Street, the Customized Training and Workforce Development Department offers courses in a wide variety of areas for job training as well as and customized industry training in New Hanover and Pender counties.

To request industry training or receive information on upcoming courses or seminars, call (910) 362-7170 or visit <http://cfcc.edu/workforce>. The following is a small sampling of courses available.

### ***Auto Safety Inspection and OBD Emissions***

This course prepares auto technicians and service personnel as safety and emission inspectors for motor vehicles. It includes regulations and test inspection procedures and is taught to insure that the student understands rules and regulations, can inspect a vehicle properly and can successfully pass qualification exams for certification as a safety and emission inspector at a licensed inspection station.

### ***Auto Safety & OBD Emission Inspection Certification***

This course is designed to prepare auto technicians and service personnel as OBD (On-Board Diagnostics) emission inspectors for motor vehicles. Course topics include regulations and test inspection procedures required by the NC DMV – Enforcement Section – OBD emission inspectors. Upon completion a student will understand the rules, regulations and procedures for OBD emission inspections, be able to inspect a vehicle properly, and be prepared to sit for the state certification exam.

### ***Aviation Ground School***

This course is designed to provide ground school training for people interested in flying or working with the Federal Aviation Administration (FAA) as tower operators or radar operators. The course provides instruction in general airplane knowledge, weather patterns, FAA regulations and flight planning. Students are prepared to successfully complete flight training and receive the FAA Private Pilot license. This course is only classroom time and does not include flight lessons.

## ***Assistance Towing Endorsement***

This 4 hour U.S. Coast Guard approved course is intended for those who hold, or are in the process of attaining, their Operator of Uninspected Passenger Vehicles (OUPV) 6-Passenger or Master's Licenses. In order to commercially assist other vessels that may be aground, disabled, out of fuel, or experiencing some other malfunction, a boat operator must hold this "Assistance Towing" Endorsement. This course serves in lieu of taking an Assistance Towing Endorsement examination at any U.S. Coast Guard Regional Examination Center.

## ***Celestial Navigation***

This course will cover the theory and technique of finding one's position at sea through sextant observations of celestial bodies.

## ***Coastal Navigation***

This course provides training in marine piloting and electronic navigation techniques. Upon successful completion, students will gain competence in the safe navigation of vessels utilizing and interpreting information obtained from navigational aids.

## ***Barber School***

The barbering program consists of four courses students take consecutively to prepare them for the NC State Barbering Exam. Completion of the program takes approximately 14 months. Day and evening courses are available.

For more information, call (910) 362-7693.

## ***Customized Training Program***

The Customized Training Program provides training for industry at CFCC as well as on-site for businesses. Topics vary widely according to industry need and can be customized. Examples of industry offerings include: technical training, basic computer and software program skills, oral and written communication skills, management, supervision, quality standards, customer service, and team-building.

The Customized Training Program supports the economic development efforts of the State by providing education and training opportunities for eligible businesses and industries. Amended in 2008, this program integrates the New and Expanding Industry Training Program and the Customized Industry Training Program to more effectively respond to business and industry (G.S. 115D-5.1e). The Customized Training Program also includes the former Focused Industry Training Program and shall offer programs and training services to assist new and existing business and industry to remain productive, profitable, and within the State.

The program was developed in recognition of the fact that one of the most important factors for a business or industry considering locating, expanding, or remaining in North Carolina is the ability of the State to ensure the presence of a well-trained workforce. The program is designed to react quickly to the needs of businesses and to respect the confidential nature of proprietary processes and information within those businesses.

The purpose of the Customized Training Program is to provide customized training assistance in support of full-time production and direct customer service positions created in the State of North Carolina, thereby enhancing the growth potential of companies located in the state while simultaneously preparing North Carolina's workforce with the skills essential to successful employment in emerging industries.

For more information, call (910) 362-7176.

## ***Ed2Go - Online Courses***

More than 350 instructor-led courses are available via the Internet through Ed2Go. Topic areas include computer applications, web design, customer service, project management, production and inventory management, small business, healthy lifestyle, writing, and many more. All courses begin on the third Wednesday of every month.

For more information, call (910) 362-7572 or log onto <http://ed2go.com/cfcc>.

Professional development courses include training necessary to earn and maintain licensing, commissioning, or certification in various fields of employment and meet the continuing education requirements of trade contractors and other occupations. Through a partnership with Ed2Go, CFCC offers over 350 non-credit, instructor-led online courses ranging from Accounting to Writing Essentials.

## ***Effective Substitute Teacher Training***

This course is required by New Hanover County Schools and provides prospective substitute teachers with the principles and practices of effective teaching, including: skills in planning, classroom management, and instructional techniques. This course is also suitable for new teachers and teacher assistants. Upon completion of the course, students will receive a certificate that proves participation and successful completion of the course.

For information about requirements and upcoming courses, please call (910) 362-7199.

## ***Continuing Education for Teachers***

Teachers in need of license renewal credits can receive Continuing Education Units (CEUs) through Ed2Go, which offers flexible and affordable online courses in the following areas: classroom computing, languages, mathematics, reading and writing, science, test prep, and tools for teachers. Each course runs for six weeks and consists of twelve lessons.

For information about upcoming course offerings or to request a customized Continuing Education course for your school, please call (910) 362-7199 or visit the Ed2Go website at: [www.ed2go.com/cfcc](http://www.ed2go.com/cfcc).

## ***Electrical Contractors' Renewal***

Electrical Contractors' Renewal courses are held throughout the year. This provides electrical contractors the eight hours of mandatory continuing education credits required to maintain a license.

For more information, call (910) 362-7319

## ***Electrical Apprenticeship Training***

Offered in partnership with the NC Department of Labor, this program is designed to provide the specific skills associated with the electrical trade. On-the-job training, combined with classroom instruction, develops the employees' hands-on skills, and results in the award of a certificate as a journeyman in the trade.

For more information, call (910) 362-7319.

## ***Notary Public***

The North Carolina Secretary of State's office requires that anyone wishing to serve as a Notary Public in North Carolina must successfully complete an approved Notary Public course before applying for commission. In order to take this course and become a Notary Public in North Carolina, an individual must meet certain requirements which include, but are not limited to the following: 18 years of age or older; reside or work in the state of North Carolina; possess a high school diploma or equivalent, legally reside in the United States; speak, read, and write in English; and have no felony convictions. In the event of a misdemeanor conviction or any question about eligibility, interested students should call the NC Secretary of State's office at (919) 807-2000 before signing up for the course.

## ***Marine Captain's License Preparation***

This 64-hour course provides students with the information necessary to take the US Coast Guard examination for licensing as an Operator of Uninspected Passenger Vessels (OUPV) up to 100 gross tons, on inland, near coastal or ocean waters. The examination is then administered upon conclusion of the course.

## ***Upgrade from Operator of Uninspected Passenger Vessels (OUPV) to Master***

This 24-hour course is provided to enable the holder of a 6 Passenger OUPV Captain's license to upgrade to a Master's Level License, which is required for inspected vessels certified to carry more than 6 passengers. Upon successful completion of this course, a Certificate of Completion is awarded which is then presented to the Coast Guard as part of the Master's License issuance process. The subject material covered in the course is in accordance with guidelines set by the U. S. Coast Guard.

## ***Medical Coding and Billing Specialist***

This program prepares students to take the AAPC Certified Medical Coder exam. To complete the program students must take the following classes Anatomy & Physiology/Medical Terminology, Introduction to Medical Coding and Advanced Medical Coding. Each class is 96 hours. An optional Certification Exam Prep class is provided before the certification exam date. A required orientation session for newly enrolled students is held prior to the first class. Online classes will be scheduled accordingly.

For more information, call (910) 362-7370.

## ***Nurse Aide Program***

This program provides students with the required classroom, skills lab and direct patient care experience to become a Certified Nursing Assistant, and Personal and Home Care Aide.

Nurse Aide Level I - Prepares graduates to provide personal care and perform basic nursing skills for the elderly and other adults.

Nurse Aide Refresher - A refresher course designed for skill/competency testing of Nurse Aide I employees.

Nurse Aide Level II - Prepares Nurse Aides to perform more complex nursing skills.

Nurse Aide Level II Refresher (with Competency Assessment) - This Refresher with competency assessment is available for the Nurse Aide II who has an expired Nurse Aide II listing.

Personal and Home Care Aide - this course provides advanced training in Home Care for the Nurse Aide I.

For additional information and class schedules..

- Wilmington location: (910) 362-7370
- Burgaw location: (910) 362-7909 or 362-7370
- Surf City location: (910) 362-7370

## ***Photography***

The DSLR photography series of courses takes the serious aspiring photographer from the basics of digital photography through more advanced techniques to studio lighting and on-location photo shoots. Courses for recreational point-and-shoot photographers are also available.

## ***ServSafe® Certification***

The ServSafe® Certification course teaches safe food handling practices and prepares students to take the ServSafe® Certification exam created by the National Restaurant Association. The exam is administered on the last night of class. This is an important certification for anyone working in food service.

## ***Substance Abuse Counseling Program***

This program provides students with the 270 education/training hours required by the North Carolina Substance Abuse Professional Practice Board (NCSAPPB) in order to earn certification as a Certified Substance Abuse Counselor (CSAC). It is important for those interested in this program to review the additional requirements that are outlined on the NCSAPPB website.

For more information, call (910) 362-7370.

## ***Welding: 4 Modules***

Topics include Blueprint Reading, Virtual Welding Simulation, and Testing/Inspection.

Qualifications: Upon completion of this course, students will demonstrate and understand how to read blueprints using symbols and specifications, use the virtual welding simulation software, and better understand the testing/inspection qualifications. Students who complete this first course will be eligible for hands-on welding courses to earn AWS certifications in MIG, TIG, and Stick welding.

About Duke Energy: Duke Energy has recognized that even though the Carolinas have top-rated community and technical college systems, budgetary constraints present a challenge for them. Duke Energy's Community College Grant Program provides a financial boost that helps enable college systems to extend their expertise, to provide rewarding opportunities for students, and ultimately, to help revitalize manufacturing in the Carolinas.

About North Carolina Community Foundation: North Carolina Community Foundation administers the Duke Energy Community College Grant Program in the Duke Energy Progress area of the state. The Foundation is the single statewide community foundation in North Carolina, serving the philanthropic needs of donors and a broad range of charitable purposes in North Carolina. Visit [www.nccommunityfoundation.org](http://www.nccommunityfoundation.org).

# Small Business Center

The Small Business Center is a provider of business counseling, education, training, and referrals developed to provide start-up assistance to individuals or advice to existing business owners. Our goal is to improve the success rate and number of viable small businesses in Pender and New Hanover counties.

The following services are provided (Free):

## CLASSES/SEMINARS

Targeted to prospective and existing Small Business owners including topics like Business Basics, Marketing, Financials, Writing the Business Plan, QuickBooks, Grant Writing, and Customer Service just to name a few!

## COUNSELING

Confidential one-on-one business counseling services.

## REFERENCE LIBRARY

Access to our Reference Library is available by appointment and includes Internet Access, business planning, and accounting software, marketing/website videos, and business books.

Visit us online at <http://www.cfcc.edu/sbc> to register for classes, find how-to startup documents, and download helpful demographics and statistics to aid in writing a business plan, or call the SBC at (910) 362-7216.

# Public Safety Department

[cfcc.edu/publicsafety](http://cfcc.edu/publicsafety)

## Emergency Medical Technician/Paramedic Program

Emergency Medical Technician initial training prepares the student to perform basic patient care in a pre-hospital setting. The AEMT and Paramedic initial training builds on the EMT initial training and prepares the student to perform basic and advanced patient care in the pre-hospital setting. The course goal for the EMT, AEMT, and Paramedic is to prepare competent entry-level EMS personnel in the cognitive, psychomotor, and affective learning domains. After successful completion of the course, a state examination is required for credentialing. Additional courses offered include continuing education and refresher for all levels of EMS training. Specialty courses may be offered upon request.

For information and class schedules, call (910) 362-7751.

## In-Service Law Enforcement Continuing Education Courses

Our program offers State Mandated In-Service Training courses for Sworn Law Enforcement Officers affiliated with an existing Law Enforcement Agency. We offer RADAR/LIDAR Certification & Recertification classes several times per year. A Law-Enforcement General Instructor course is offered 2 times per year. We can provide specialized training to Law Enforcement officers on an as needed basis.

For more information see the CFCC Law Enforcement website at [www.cfcc.edu/publicsafety/law-enforcement-training](http://www.cfcc.edu/publicsafety/law-enforcement-training). E-mail [lawenfrtraining@cfcc.edu](mailto:lawenfrtraining@cfcc.edu) or call (910)-362-7217, (910) 362-7649 or (910) 362-7822.

## ***Fire/Rescue and Emergency Management***

The Public Safety Fire/Rescue Training Department offers fire and rescue training as well as Emergency Management certification classes and National Fire Academy Programs in New Hanover and Pender counties. Classes for North Carolina Office of the State Fire Marshall (OSFM) State Certification, National Fire Academy and NC State Emergency Management Certification programs are offered by coordinating with area fire and rescue departments and emergency management personnel. Firefighter recertification and courses in the latest technology are also offered locally. CERT (Community Emergency Response Team), fire brigade/emergency response team training and customized training programs are available upon request.

For more information call (910) 362-7799 or (910) 362-7711.

## ***First Responder Academy***

This academy is a comprehensive program which includes Firefighter, Haz-Mat, Technical Rescue, TR Vehicle Rescue, Driver Operator, Emergency Vehicle Driver, Emergency Medical Technician (EMT), Driver Operator Pump Operations, Driver Operator Aerial Operations, Rapid Intervention and other vital classes necessary for future firefighters.

For additional information about the Academy, please call (910) 362-7770 or e-mail [firetraining@cfcc.edu](mailto:firetraining@cfcc.edu).

## ***NC OSFM State Certification Programs and National Fire Academy Programs***

- Chief 101
- Leadership I, II, & III (NFA)

## ***NC Emergency Management State Certification Program***

NC Emergency Management Levels I-IV All Hazards Courses are offered.

For more information call 362-7799 or 362-7711.

## ***NIMS ICS (National Incident Management System)***

### ***Incident Command System FEMA-Federal Emergency Management Agency***

The National Incident Management System (NIMS) which is under the Federal Emergency Management Agency provides consistent nationwide template to enable all government, private sector, and nongovernmental organizations, including all first responders, to work together effectively during domestic incidents. The intent of NIMS is to be applicable across a full spectrum of potential incidents and hazard scenarios, regardless of size or complexity and improve coordination and cooperation between public and private entities in a variety of domestic incident management activities. NIMS provides for interoperability and compatibility among all responders.

- NIMS ICS-700 National Incident Management System An Introduction
- NIMS ICS-100 NIMS: Introduction to the Incident Command System
- NIMS ICS-200 NIMS: ICS for Single Resources and Initial Action Incidents
- NIMS ICS-300 NIMS: Incident Command System, Intermediate
- NIMS ICS-400 NIMS: Incident Command System, Advanced
- NIMS ICS-402 NIMS: Overview for Executives, Senior Officials
- NIMS ICS-Special classes upon request.

For more information call 362-7799 or 362-7770.

## ***Public Safety Colleges***

- Pender County Firefighters Association Public Safety College – annually in January.
- New Hanover County Firefighters Association Public Safety College – annually in April.
- Eastern Carolina Firefighters Association Public Safety College – annually in October.

For more information call (910) 362-7799 or (910) 362-7770.

## ***Fire/Security Alarms System Technician (FAST)***

The Fire Alarm System Training (FAST) program is designed to produce competent and qualified individuals in the field of alarm systems. It is our belief that properly trained and knowledgeable alarm system designers and technicians will reduce the losses due to fire or false alarms and improve the quality of life in the community. This program is offered on-line.

For more information contact Paul Inferrera at [pinferrera@cfcc.edu](mailto:pinferrera@cfcc.edu).

## ***Burgaw Center***

**100 East Industrial Drive  
Burgaw, North Carolina 28425  
Phone: (910) 259-4966 or 362-7900  
Fax: (910) 259-9048**

The CFCC Burgaw Center offers continuing education classes at this Pender County location. Pre-registration is required, call: (910) 362-7909. The curriculum classes that meet in the Burgaw Center are registered through the main campus at CFCC in Wilmington, NC.

## ***Alston W. Burke Center***

**621 NC Highway 210 E  
Surf City, North Carolina 28445**

CFCC offers continuing education classes at the Alston W. Burke Center. Pre-registration is required, call: (910) 362-7931.

# ONLINE LEARNING

Online Learning (OL) refers to all courses in which a portion of instruction takes place online. There are two types of OL courses: Internet and Hybrid. Internet courses are fully online courses where the students and instructors do not meet face-to-face, but instead interact entirely in an online environment. These courses are always indicated by an "I" in the course code (e.g. CIS-110-I2 and BIO-240-I1). Hybrid courses have both a face-to-face (in-classroom) component and an online component. These courses are always indicated by a "Y" in the course code (e.g. BIO-112-DY1 and ACA-122-NYE1A).

**Note:** Some Internet and Hybrid courses may have required face-to-face, proctored exams. Please contact the individual instructor or department to determine if a particular section has such a requirement.

Online Learning courses follow the same college requirements as traditional courses. College policies, such as admission, withdrawal, financial aid, etc. apply to OL courses. OL courses are not self-paced. They follow the same college calendar as face-to-face courses.

Online Learning requires students to pace their work and meet regular deadlines. These courses can, when fully online, require a minimum of 6-10 hours of independent work each week. Because of this, OL courses are best suited for students who are strongly self-motivated, self-disciplined, and have excellent time management skills. Additionally, because all OL courses require the use of a computer, they should only be taken by students who are already comfortable using computers for various types of applications, such as word processing, web browsing, chat, discussion boards, etc.; who are proficient in communicating in writing alone; and who have regular access to a computer and internet service. A tutorial for Blackboard--the online environment where OL courses are taught--is available at <http://online.cfcc.edu> and can be accessed using the generic username and password given on that page.

More Online Learning resources can be found at <http://cfcc.edu/online/>.

## ***Online Learning Attendance***

Attendance in Online Learning courses is by completing an initial "Enrollment Verification" assignment and completion of required coursework. In Hybrid courses, where students meet face-to-face and online, attendance may be measured by presence at the first (and subsequent) face-to-face meetings, completion of the online "Enrollment Verification" assignment and assigned coursework, or both.

"Enrollment Verification" (EV) assignment require the student to 1) login to the Blackboard course site and 2) complete an activity that involves engagement with course material. Failure to login and complete the EV activities for each Internet and Hybrid course by the 10 percent date of the class may result in the student being dropped by the instructor as a "No Show" and assigned a non-punitive transcript grade of "NS." No tuition and fee adjustments will be made.

Help completing the Enrollment Verification activity can be found at <http://cfcc.edu/online/help-page/#ev>.

# PROGRAMS OF STUDY

## General Education Values Statement

### General Education Courses and Competencies

All associate degree programs at Cape Fear Community College (CFCC) comply with the program standards established by the North Carolina Community College System. Each degree program includes a general education component consisting of a minimum of 15 credit hours:

- The Associate in General Education program requires a minimum of 15 general education credit hours;
- The Associate in Applied Science programs require a minimum of 15 general education credit hours;
- The Associate in Engineering requires a minimum of 42 general education credit hours;
- The Associate in Arts requires a minimum of 46 general education credit hours;
- The Associate in Science requires a minimum of 45 general education credit hours; and
- The Associate in Fine Arts programs require the following: 25-26 general education credit hours in the Music premajor, 31-32 general education credit hours in the Theatre premajor, and 25-26 general education credit hours in the Visual Arts premajor.

Degree programs' general education components are comprised of courses from some or all of the following areas: communications, humanities and fine arts, social and behavioral sciences, natural sciences, and mathematics.

General education courses are designed to introduce students to a wide variety of academic topics and traditions. These courses also help promote students' attainment of CFCC's general education competencies, which represent the broad areas of knowledge and skills that students develop in the general education component of their degree programs. CFCC's general education competencies include:

- **Computer Literacy:** Utilizing computing technologies for academic, professional, and personal productivity.
- **Critical Thinking:** Applying critical thinking to problems, scenarios, and arguments in order to reach sound solutions, decisions, and positions.
- **Global Awareness:** Utilizing the knowledge and skills necessary for understanding world events, cultures, and social institutions.

- **Oral Communications:** Using oral communications skills to convey information, ideas, and arguments to specific audiences.
- **Quantitative Reasoning:** Utilizing quantitative reasoning skills to make sense of and solve numerical problems and scenarios.
- **Scientific Reasoning:** Using fundamental scientific concepts and theories to analyze problems, observations, and/or experiments.
- **Written Communications:** Using written communications skills to convey information, ideas, and arguments to specific audiences.

These competencies promote learners' appreciation for intellectual rigor, academic integrity, cultural diversity, and responsible citizenship.

## College Transfer/ University Parallel

### General Information and Articulation Agreements

### University of North Carolina Minimum Admission Requirements, Effective Fall 2006

(More commonly referred to as "Minimum Course Requirements" or "MCR")

To enroll in a senior institution in the University of North Carolina (UNC) System, students whose high school class graduated in 1990 or later must have completed the following high school requirements:

- Four (4) units of English (emphasizing grammar, composition, and literature)
- Two (2) units of a language other than English
- Four (4) units of mathematics in any of the following combinations:
  - Algebra I and II and geometry and one unit beyond Algebra II, or
  - Algebra I and II and two units beyond Algebra II, or
  - Integrated Mathematics I, II, and III and one unit beyond Integrated Math III (The fourth unit of mathematics affects applicants to all UNC institutions except the North Carolina School of Arts. The mathematics courses with Algebra II as a prerequisite that meet the new UNC Minimum Course Requirement are AP Calculus; AP Statistics; Pre-Calculus, formerly Advanced Math; Discrete Mathematics; IB Mathematics IV; and Advanced Functions and Modeling.)

- Two (2) units of social studies (including one unit of US history).
- Three (3) units of science (including a unit of life or biological science, a unit of physical science, and at least one laboratory course).

If a student has not met all the above requirements, the student is considered deficient in MCR. To remove an MCR deficiency and enroll in the UNC System, a student may choose one of the following options:

1. Earn an Associate in Arts degree, an Associate in Science degree, a baccalaureate, or any other higher degree.
2. Complete the following:
  - Six (6) semester hours of freshman composition.
  - Six (6) semester hours of college-level mathematics
    - (must have an M-A-T prefix).
  - Six (6) semester hours of natural sciences.
  - Six (6) semester hours of social and behavioral sciences.
  - Six (6) semester hours of a foreign-language sequence (for students who graduate from high school in 2003-04 and beyond).

Students should always check with the Admissions Office of the receiving institution for the most current transfer information. Effective fall of 2014, UNC institutions will develop, publish, and maintain four-year degree plans identifying community college courses that provide pathways leading to associate degree completion, admission into the major, and baccalaureate completion. Students who complete the AA or AS degree and the degree plan tracks published by a UNC institution, and who are accepted into that institution and into that major within four years of initial enrollment at the community college, will continue into that major at the UNC institution with all courses fulfilling lower division general education requirements.

## ***The North Carolina Comprehensive Articulation Agreement***

To facilitate the transfer of students between the North Carolina Community College System and the constituent institutions of the University of North Carolina System, the North Carolina General Assembly mandated the Comprehensive Articulation Agreement (CAA). The CAA applies to students who are pursuing an Associate in Arts or an Associate in Science degree and provides guidance to

those who are pursuing an Associate in Fine Arts degree. The main difference between the Associate in Arts and the Associate in Science degrees is that the Associate in Science degree requires a stronger background in math and science. These two transfer programs consist mainly of general education courses. The general education courses provide opportunities for students to know the philosophy, literature, institutions, and art of their own culture and other cultures; to understand math and science; to communicate with others and develop a sense of community. These courses also help students achieve competencies in the following: reading, writing, oral communication, fundamental mathematical skills, and the basic use of computers. Students should choose electives that align with their intended major and institution.

While general education courses may be used as electives, electives may not be used to fulfill general education requirements. Students must meet the receiving university's foreign language and/or health and physical education requirements, if applicable, before or after transfer to the senior institution. Only 60-61 semester hours are guaranteed to transfer.

To receive the maximum benefit from the CAA, students may transfer as juniors if they follow these guidelines:

- Earn an Associate in Arts degree or an Associate in Science degree.
- Earn a grade of "C" or better in all CAA courses.
- Earn an overall grade-point average of a "C" or a 2.0 at the time of transfer (Note: If the entering grade-point average of the receiving institution is higher than the 2.0 CAA grade-point average, the student must comply with the requirement of the receiving institution. Students should always contact the receiving institutions for the latest information about the admission and program standards. Some UNC institutions do not accept grades of a "C-," even though CFCC will accept a "C-.")
- Obtain acceptance at the UNC institution.

Under the CAA, no student is guaranteed admission to the UNC institution of his/her choice or to any specific program or professional school in the institution. Admission is a competitive process.

## ***Students Not Completing the Associate in Arts or Associate in Science Degrees***

A North Carolina community college student who satisfactorily completes, with a grade of "C" or better, courses identified in the Universal General Education Transfer Component (UGETC) will receive credit applied toward the university's lower-division general education course requirements, subject to the following distribution limit: maximum of 6 hours in English Composition, 9 hours in Humanities/Fine Arts/Communications, 9 hours in Social/Behavioral Sciences, 8 hours in Mathematics, and 8 hours in the Natural Sciences.

A North Carolina community college student who satisfactorily completes a transfer course that is not designated as a UGETC course will receive transfer credit for the course. The receiving institution will determine whether the course will count as general education, pre-major, or elective credit. (Source: CAA Manual, February 21, 2014)

## ***Transfer of Courses Not Originated at North Carolina Community Colleges***

Transfer credit for courses that originate at a UNC institution or an independent college or university that is part of the CAA is acceptable as part of a student's successfully completed general education core or associate in arts or associate in science program under the CAA.

Transfer courses that do not originate at a North Carolina community college may be used under the CAA with the following stipulations:

- a Courses must be completed at a regionally accredited institution of higher education (like the Southern Association of Colleges and Schools, the North Central Association of Colleges and Schools, and the New England Association of Schools and Colleges); and
- b Courses must meet the general education requirements; and
- c Courses may total no more than 14 semester hours of credit of the general education course credit.
- d For courses not originating at a North Carolina community college, if the courses are used to complete the associate in arts or science degree, the courses will be taken as a complete package. Otherwise, if 14 or fewer hours are presented without completion of the associate in arts or science, then the receiving institution will consider the courses on a course-by-course basis.

## ***Transfer Assured Admissions Policy (TAAP)***

The Comprehensive Articulation Agreement (CAA) assures the admission of a North Carolina community college graduate to one of the sixteen (16) University of North Carolina (UNC) institutions with the following stipulations:

- Admission is not assured to a specific campus or program or major.
- Students must have graduated from a North Carolina community college with an Associate in Arts or an Associate in Science degree.
- Students must meet all requirements of the CAA.
- Students must have a minimum grade-point average of 2.0 on a 4.0 scale, as calculated by the college from which they graduated, and a grade of "C" or better in all CAA courses. (Note: If the entering grade-point average of the receiving institution is higher than the 2.0 CAA grade-point average, the student must comply with the requirement of the receiving institution. Students should always contact the receiving institutions for the latest information about admission and program standards.)
- Students must be academically eligible for re-admission to the last institution attended.
- Students must meet judicial requirements for the institution to which they apply.
- Students must meet all application requirements at the receiving institution, including the submission of all required documentation by stated deadlines.

If a student is denied admission to a UNC institution, he or she should receive a letter from that institution directing the student to the College Foundation of North Carolina (CFNC) website. At the CFNC website, the student will be presented with the conditions of the TAAP. If these conditions are met, the student will be given information regarding space availability and contacts within other UNC institutions. The student should contact those institutions and get specific information about admissions and available majors.

If the steps above do not result in admission to a UNC institution, then the student should contact the CFNC Resource Center at 1-866-866-CFNC.

## ***The Articulation Agreement Between Cape Fear Community College and The University of North Carolina at Wilmington***

Effective March 1, 1999, the University of North Carolina at Wilmington (UNCW) agrees to accept for academic credit college transfer course work completed at Cape Fear Community College (CFCC). Graduates of a college transfer program at CFCC may receive automatic admission provided that space is available, which is usually in the summer and the fall, and may transfer to UNCW as a junior if they meet the following criteria:

- Earn at least a "C" in each transferable course
- Earn an overall grade-point average of a "B" or a 3.0 on a 4.0 scale (based on CFCC's calculation)
- Complete an Associate in Arts degree or an Associate in Science degree
- Complete the admissions process at UNCW.

One foreign language course (3 SHC) is required under the bilateral agreement, and the PE requirement is waived. The foreign language course may be taken at CFCC or UNCW.

## ***Purpose of the College Transfer Programs***

Most of the college transfer programs provide the first two years or the basic studies requirements of a baccalaureate degree. If students plan to transfer to a four-year college or university, they should declare a college transfer program as their program of study. Cape Fear Community College (CFCC) offers six college transfer programs: one (1) associate in arts, one (1) associate in science, one (1) associate in engineering, and three (3) associate in fine arts.

These academic programs help students develop the abilities to solve problems, understand scientific principles, write and speak effectively, use computers, reason and think critically, research, understand cultures, manipulate numerical data, and work in teams—invaluable workplace skills for the 21st

century. Across the college transfer curricula, faculty try to adapt to students' learning styles by using a variety of teaching techniques. In turn, students are expected to adapt to a variety of teaching styles. To evaluate student performance, faculty use some of the following methods: critical analysis papers and research papers; article reviews; book critiques; organized discussions; video summaries and applications; journals and novels; study guides/concept sheet assignments; readers' analysis of readings; debates; current events papers; project/oral presentations; exams/quizzes (true/false, fill in the blanks, short answers, multiple choice, essay); portfolios; hands-on assignments and faculty observation; peer reviews; role-playing; resumes, business letters, and compositions.

Enrollment in the college transfer programs averages 3,400 students per semester, excluding summer sessions. A majority of CFCC students transfer to UNC-Wilmington, East Carolina University, Appalachian State University, North Carolina State University, and UNC-Charlotte.

## ***Choosing a Program of Study***

When choosing a program of study, students should

- Consider their talents/abilities, personality, and passions/ dreams.
- Research the career of their choice for information about the following: the nature of the career, qualifications, salary range, market demand, employment locations, and related fields. For information about careers, students may visit CFCC's Career and Testing Services.
- Be willing to change their program if they discover a more rewarding academic field. Through a classroom project, an extracurricular activity, or an interview with someone in a field, a student may decide his or her career goal. Review the websites about academic majors from senior institutions.

## Art Supplies

In addition to the purchase of a textbook, some art classes require students to purchase supplies. The following costs are estimations and will depend on the instructor, the place of purchase, and the maker/manufacture: ART 121 - Design I, \$75-\$100; ART 131 - Drawing I, \$80-\$100; ART 240 - Painting I, \$150-\$175 (an additional \$80 needed if a class wants to learn about watercolors and oils/ acrylics.); and ART 261- Photography I, \$120 for film, paper and supplies. ART 261 also requires students to have a manual 35-millimeter camera. ART 283 - Students in ART 283 Ceramics I, must pay \$10-\$20 for a personal tool packet, available at the CFCC Bookstore.

## Math Supplies

Students are required to purchase a graphic calculator (an estimate of \$100) if they enroll in the following math classes: MAT 121, MAT 122, MAT 152, 171, 172, 271, 272, and 273. (TI-84Plus is recommended.)

Internet, hybrid, and some face-to-face math courses require a MyLabsPlus student access code. This code is included with the purchase of a new textbook from the CFCC bookstore and is used to access the online portion of the class. If a used book is purchased, the code must be purchased separately at an additional cost either at the CFCC Bookstore or online from the publisher of the textbook.

## Physical Education (PED) Information

Some PED classes require membership at a commercial facility approved by the class instructor. The cost ranges from \$20 to \$144 depending on the course and the facility. Some PED courses meet off campus at local parks.

All PED courses require a physical activity component. Details on specific PED course requirements may be found in the COURSE DESCRIPTION section at the rear of the catalog.

NOTE: The course PED 110 requires the commercial membership only if the PED 110 class is an internet class. The commercial facility must be approved by the instructor.

## Science Supplies

Interest, hybrid, and face-to-face science courses may require software as an online supplement. This software will be included with the purchase of a new textbook from the CFCC Bookstore. The software may also be purchased separately at an additional cost if one is using a used textbook.

Students enrolled in BIO 175 are required to buy their own disposable lab coats, gloves, and goggles. These items may be purchased through the CFCC Bookstore. More information concerning lab coats and safety glasses will be given during the first day of class.

Students enrolled in CHM 131/131A, 151, 152, 251 and 252 are required to buy safety glasses that give full coverage with side protection for the eyes. Safety glasses may be purchased through the CFCC Bookstore. In addition, students taking CHM 251 and 252 will also need to purchase a cloth lab coat. More information concerning lab coats and safety glasses will be given during the first day of class.

Students enrolled in the Internet sections of BIO 110 or CHM 151, as designated as "I" followed by the section number, are required to purchase a science lab kit. Please check with the CFCC Bookstore for the cost of the kit.

Students enrolled in the Internet sections of PHY 110 are required to purchase a metric ruler, a metric stick and a 128 Hz tuning fork. Please check the instructor's syllabus for purchasing details.

## Staying Informed

Students should observe the school calendar, published in the front of the catalog, and read their CFCC email regularly to keep current. Such information as the following is provided: College Day at CFCC; announcements about the monthly visits from UNCW representatives on CFCC's campus, fall and spring semesters; the Spring Fling; announcements about the Advisement Period; the dates for non-punitive withdrawals from classes.

# COLLEGE TRANSFER ASSOCIATE DEGREE PROGRAMS

## Associate in Arts

A.A. DEGREE (A10100)

### Associate in Arts Program – A10100

As a result of a legislative mandate from the NC General Assembly, fall of 1997, the 58 North Carolina community colleges and the 16 institutions in the University of North Carolina (UNC) System entered into an agreement called the statewide Comprehensive Articulation Agreement, better known as the CAA. This agreement has been updated, and the revisions were implemented in the fall of 2014. This agreement includes two degrees—the Associate in Arts and the Associate in Science—and enables North Carolina community college graduates to receive junior status if the graduates meet certain criteria. Students are encouraged to complete their degree before they transfer. Admission to a UNC institution is a competitive process.

The Associate in Arts degree requires 60-61 credit hours. It allows students to take the first two years of their baccalaureate degree at CFCC and enables them to transfer to one of the 16 institutions in the UNC System with junior status. To graduate from CFCC under this agreement, students must meet all prerequisite and corequisite requirements, successfully complete all the required CAA courses with a grade of "C" or better, and earn at least a 2.0 overall grade-point average. (Note: To enroll at a senior institution, students must meet the grade-point average requirement of the receiving institution, which may be higher than a 2.0. While CFCC will accept a grade of "C-" from another institution, students should be aware that some UNC institutions will not accept this grade.)

It is the responsibility of the student to meet all graduation requirements.

Students are advised to take **ACA 122: College Transfer Success** in their first or second semester and create a suitable plan of study. Students are required to demonstrate their computer competency before graduation by taking CIS 110 or CIS 115 or CSC 151. If a student is enrolled in the last semester of coursework, is computer-competent, but has not fulfilled the computer requirement, the student may opt to take a computer competency in the Learning Lab at the North or Wilmington campus.

Students must meet the receiving institution's foreign language and/or health and physical education course, if applicable, prior to or after transfer to the senior institution.

Website that houses CFCC's college transfer curriculum worksheets:  
<http://cfcc.edu/transfer/current-student/>.

Website that houses the four-year baccalaureate plans at the 16 institutions in the University of North Carolina System:  
<http://cfcc.edu/transfer/curriculum-pathways/>.

The Associate in Arts program requirements are outlined as follows:

### Universal General Education Transfer Component (32-33 semester-hour credits)

These courses are sometimes referred to as the UGETC courses and are supposed to transfer for equivalency credit at the 16 University of North Carolina institutions.

### Additional General Education Courses (14 semester-hour credits)

These may be additional general education courses that CFCC has selected for its students and/or additional general education courses that a senior institution has recommended or required for an intended major.

### Other Requirements

(14 semester-hour credits)

A few electives are mandated by CFCC. Students should select the remaining electives based on the intended major of the senior institution.

### Semester Hour Credits

### I. UNIVERSAL GENERAL EDUCATION 32-33 SHC TRANSFER COMPONENT

#### English Composition .....6

Take the following:

ENG 111	Writing and Inquiry* <sup>u</sup> .....	3
ENG 112	Writing/Research in the Disc* <sup>u</sup> .....	3

#### Humanities/Fine Arts .....9

Take one from each group below:

#### Group I

Take one of the following:

ART 111	Art Appreciation* <sup>u</sup> .....	3
ART 114	Art History Survey I* <sup>u</sup> .....	3
ART 115	Art History Survey II* <sup>u</sup> .....	3
MUS 110	Music Appreciation* <sup>u</sup> .....	3
MUS 112	Introduction to Jazz* <sup>u</sup> .....	3

# CAPE FEAR COMMUNITY COLLEGE

## Group II

Take one of the following:

ENG 231	American Literature I*	3
ENG 232	American Literature II*	3
ENG 241	British Literature I*	3
ENG 242	British Literature II*	3
PHI 215	Philosophical Issues*	3
PHI 240	Introduction to Ethics*	3

## Group III

Take one of the following unused courses:

ART 111	Art Appreciation*	3
ART 114	Art History Survey I*	3
ART 115	Art History Survey II*	3
ENG 231	American Literature I*	3
ENG 232	American Literature II*	3
ENG 241	British Literature I*	3
ENG 242	British Literature II*	3
MUS 110	Music Appreciation*	3
MUS 112	Introduction to Jazz*	3
PHI 215	Philosophical Issues*	3
PHI 240	Introduction to Ethics*	3

## Social/Behavioral Sciences.....9

Take one from each group below:

### Group I

Take one of the following:

HIS 111**	World Civilizations I*	3
HIS 112**	World Civilizations II*	3
HIS 131**	American History I*	3
HIS 132**	American History II*	3

### Group II

Take one of the following:

ECO 251	Prin of Microeconomics*	3
ECO 252	Prin of Macroeconomics*	3
POL 120	American Government*	3
PSY 150	General Psychology*	3
SOC 210	Introduction to Sociology*	3

### Group III

Take one of the following unused courses:

ECO 251	Prin of Microeconomics*	3
ECO 252	Prin of Macroeconomics*	3
HIS 111	World Civilizations I*	3
HIS 112	World Civilizations II*	3
HIS 131	American History I*	3
HIS 132	American History II*	3
POL 120	American Government*	3
PSY 150	General Psychology*	3
SOC 210	Introduction to Sociology*	3

## Mathematics .....3-4

Take one of the following:

MAT 143	Quantitative Literacy*	3
MAT 152	Statistical Methods I*	4
MAT 171	Precalculus Algebra*	4

## Natural Sciences .....4

Take one of the following:

AST 111 / 111A	Descriptive Astronomy*	3/1
BIO 110	Principles of Biology*	4
BIO 111	General Biology I*	4
CHM 151	General Chemistry I*	4
GEL 111	Introductory Geology*	4
PHY 110 / 110A	Conceptual Physics*	3/1

## II. ADDITIONAL GENERAL EDUCATION COURSES

14 SHC

## Critical Thinking .....6

Take two of the following:

ART 116	Survey of American Art*	3
BIO 112	General Biology II*	4
BIO 120	Introductory Botany*	4
BIO 130	Introductory Zoology*	4
BIO 140 / 140A	Environmental Biology* / Lab*	3/1
CHM 131 / 131A	Intro to Chemistry* / Lab*	3/1
CHM 152	General Chemistry II*	4
CIS 110	Introduction to Computers*	3
CIS 115	Intro to Prog & Logic*	3
DRA 111	Theatre Appreciation*	3
DRA 122	Oral Interpretation*	3
DRA 126	Storytelling*	3
DRA 211	Theatre History I*	3
DRA 212	Theatre History II*	3
ECO 151	Survey of Economics*	3
ENG 131	Introduction to Literature*	3
GEL 113	Historical Geology*	4
GEL 230	Environmental Geology*	4
HUM 110	Technology and Society*	3
HUM 115	Critical Thinking*	3
HUM 121	The Nature of America*	3
HUM 122	Southern Culture*	3
HUM 150	American Women's Studies*	3
HUM 160	Introduction to Film*	3
HUM 161	Advanced Film Studies*	3
MAT 172	Precalculus Trigonometry*	3
MAT 263	Brief Calculus*	3
MAT 271	Calculus I*	4
MAT 272	Calculus II*	4
MAT 273	Calculus III*	4
MUS 113	American Music*	3
MUS 210	History of Rock Music*	3
MUS 211	History of Country Music*	3
MUS 212	American Musical Theatre*	3
PHI 210	History of Philosophy*	3
PHI 220	Western Philosophy I*	3
PHI 230	Introduction to Logic*	3
PHY 151	College Physics I*	4
PHY 152	College Physics II*	4
PHY 251	General Physics I*	4
PHY 252	General Physics II*	4
POL 110	Intro Political Science*	3
PSY 241	Developmental Psych*	3
PSY 281	Abnormal Psychology*	3
REL 211	Intro to Old Testament*	3
REL 212	Intro to New Testament*	3
REL 221	Religion in America*	3
SOC 213	Sociology of the Family*	3
SOC 220	Social Problems*	3
SOC 240	Social Psychology*	3

Courses designate with an asterisk (\*) are college transfer courses. Courses designate with an asterisk and u (\*) are UGETC courses.

Check with your senior institution to ensure the course will be appropriate for your program at that institution

# COLLEGE TRANSFER/UNIVERSITY PARALLEL PROGRAM

## Global Awareness and Foreign Languages.....9

Take three of the following:

ANT 210	General Anthropology*	3
ANT 220	Cultural Anthropology*	3
ANT 240	Archaeology*	3
ART 117	Non-Western Art History*	3
ASL 111**	Elementary ASL I*	3
ASL 112**	Elementary ASL II*	3
ASL 211**	Intermediate ASL I*	3
ASL 212	Intermediate ASL II*	3
ENG 241	British Literature I* <sup>u</sup>	3
ENG 242	British Literature II* <sup>u</sup>	3
ENG 261	World Literature I*	3
ENG 262	World Literature II*	3
FRE 111**	Elementary French I*	3
FRE 112**	Elementary French II*	3
FRE 211	Intermediate French I*	3
FRE 212	Intermediate French II*	3
GER 111**	Elementary German I*	3
GER 112**	Elementary German II*	3
GER 211	Intermediate German I*	3
GER 212	Intermediate German II*	3
HIS 121	Western Civilization I*	3
HIS 122	Western Civilization II*	3
HUM 120	Cultural Studies*	3
HUM 130	Myth in Human Culture*	3
HUM 220	Human Values and Meaning*	3
MUS 114	Non-Western Music*	3
MUS 210	History of Rock Music*	3
POL 210	Comparative Government*	3
POL 220	International Relations*	3
REL 110	World Religions*	3
REL 111	Eastern Religions*	3
REL 112	Western Religions*	3
SPA 111**	Elementary Spanish I*	3
SPA 112**	Elementary Spanish II*	3
SPA 211	Intermediate Spanish I*	3
SPA 212	Intermediate Spanish II*	3
SOC 230	Race and Ethnic Relations*	3

\*\*ASL 111, ASL 112, ASL 211, FRE 111, FRE 112, GER 111, GER 112, SPA 111, and SPA 112 have mandatory labs.

## III. OTHER REQUIRED HOURS 14 SHC

### Academic Transition.....1

Take the following:

ACA 122**	College Transfer Success*	1
-----------	---------------------------	---

\*\*ACA 122 is recommended during the student's first or second semester at CFCC.

### Required Course.....3

Take one of the following:

COM 110	Introduction to Communication*	3
COM 120	Intro Interpersonal Comm*	3
COM 140	Intro Intercultural Comm*	3
COM 231	Public Speaking* <sup>u</sup>	3

## Electives .....10

Take 10 credits from the following unused courses based on your intended major and senior institution:

ACC 120	Prin of Financial Accounting*	4
ACC 121	Prin of Managerial Accounting*	4
ANT 210	General Anthropology*	3
ANT 220	Cultural Anthropology*	3
ANT 240	Archaeology*	3
ART 111	Art Appreciation* <sup>u</sup>	3
ART 113	Art Methods and Materials*	3
ART 114	Art History Survey I* <sup>u</sup>	3
ART 115	Art History Survey II* <sup>u</sup>	3
ART 116	Survey of American Art*	3
ART 117	Non-Western Art History*	3
ART 118	Art by Women*	3
ART 121	Design I*	3
ART 122	Design II*	3
ART 131	Drawing I*	3
ART 132	Drawing II*	3
ART 135	Figure Drawing*	3
ART 171	Computer Art I*	3
ART 212	Gallery Assistantship I*	1
ART 214	Portfolio and Resume*	1
ART 231	Printmaking I*	3

					<b>TOTAL CREDITS ..... 60-61 SHC</b>

**Note: A course may be used only once to fulfill a requirement.**

# Associate in Engineering

A.E. DEGREE (A10500)

## Associate in Engineering Program – A10500

The Associate in Engineering (AE) degree shall be granted for a planned program of study consisting of a minimum of 60 semester hours of credit (SHC) of courses. Within the degree program, the institution shall include opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and basic computer use.

The degree plan includes required general education and prerequisite courses that are acceptable to all state-funded Bachelor of Engineering programs. Students who follow the degree progression plan will meet the entrance requirements at all of the North Carolina public Bachelor of Science Engineering programs. Associate in Engineering graduates may then apply to any of these programs without taking additional and sometimes duplicative courses. Admission to Engineering programs is highly competitive and admission is not guaranteed.

To be eligible for the transfer of credits under the AE to the Bachelor of Science in Engineering Articulation Agreement, community college graduates must obtain a grade of "C" or better in each course and an overall GPA of at least 2.5 on a 4.0 scale.

**(Students must meet the receiving university's foreign language and/or health and physical education requirements, if applicable, prior to or after transfer to the senior institution.)**

### Semester Hour Credits

#### I. UNIVERSAL GENERAL EDUCATION 42 SHC TRANSFER COMPONENT

##### English Composition ..... 6

Take the following:

ENG 111	Writing and Inquiry* <sup>u</sup> .....	3
ENG 112	Writing Research in the Disc* <sup>u</sup> .....	3

##### Communications ..... 6

Take the following:

COM 231	Public Speaking* <sup>u</sup> .....	3
---------	-------------------------------------	---

##### Humanities/Fine Arts ..... 6

Take one of the following:

ENG 231	American Literature I* <sup>u</sup> .....	3
ENG 232	American Literature II* <sup>u</sup> .....	3
ENG 241	British Literature I* <sup>u</sup> .....	3
ENG 242	British Literature II* <sup>u</sup> .....	3
PHI 215	Philosophical Issues* <sup>u</sup> .....	3
PHI 240	Introduction to Ethics* <sup>u</sup> .....	3
REL 110	World Religions* .....	3

##### Social/Behavioral Sciences ..... 6

Take the following:

ECO 251	Prin of Microeconomics* <sup>u</sup> .....	3
Take one of the following:		
HIS 111	World Civilizations I* <sup>u</sup> .....	3
HIS 112	World Civilizations II* <sup>u</sup> .....	3
HIS 131	American History I* <sup>u</sup> .....	3
HIS 132	American History II* <sup>u</sup> .....	3
POL 120	American Government* <sup>u</sup> .....	3
PSY 150	General Psychology* <sup>u</sup> .....	3
SOC 210	Introduction to Sociology* <sup>u</sup> .....	3

##### Mathematics ..... 12

Take the following:

MAT 271	Calculus I* <sup>u</sup> .....	4
MAT 272	Calculus II* <sup>u</sup> .....	4
MAT 273	Calculus III* <sup>u</sup> .....	4

##### Natural Sciences ..... 12

Take the following:

CHM 151	General Chemistry I* <sup>u</sup> .....	4
PHY 251	General Physics I* <sup>u</sup> .....	4
PHY 252	General Physics II* <sup>u</sup> .....	4

### III. OTHER REQUIRED HOURS 18-19 SHC

#### Required Courses ..... 3

Take the following:

ACA 122**	College Transfer Success* .....	1
EGR 150	Introduction to Engineering* .....	2

**\*\*ACA 122 is recommended during the student's first or second semester at CFCC.**

#### Other Required Hours ..... 3

Take the following:

DFT 170	Engineering Graphics* .....	3
---------	-----------------------------	---

#### Pre-Major Elective Hours I ..... 3

Take one of the following:

EGR 212	Logic System Design I* .....	3
EGR 220	Engineering Statics* .....	3
EGR 225	Engineering Dynamics* .....	3

#### Pre-Major Electives Hours II ..... 9-10

Select the remaining hours from any of the unused courses below. The courses should be appropriate to the specific university and engineering major requirements.

BIO 111	General Biology I* <sup>u</sup> .....	4
CHM 152	General Chemistry II* <sup>u</sup> .....	4
CSC 151	JAVA Programming* .....	3
ECO 252	Prin of Macroeconomics* <sup>u</sup> .....	3
EGR 212	Logic System Design I* .....	3
EGR 220	Engineering Statics* .....	3
EGR 225	Engineering Dynamics* .....	3
HUM 110	Technology and Society* .....	3
MAT 280	Linear Algebra* .....	3
MAT 285	Differential Equations* .....	3
PED 110	Fitness and Wellness for Life* .....	2

#### Total Credits ..... 60-61 SHC

**Note: A course may be used only once to fulfill a requirement.**

## Associate in Fine Arts

A.F.A. MUSIC DEGREE (A10700)

A.F.A. THEATRE DEGREE (A10800)

A.F.A. VISUAL ARTS DEGREE (A10600)

It is the responsibility of the student to know and to comply with the prerequisites and the corequisites listed in this catalog. If students have previous college credits from other institutions, students are advised to check first with a counselor at the receiving institution (the institution in which they plan to attend upon leaving CFCC). A counselor at the receiving institution should advise students of the courses to take at CFCC if the students have credits from other institutions. Otherwise, students will be encouraged to 1) complete their associate degree, which consists of 60-61 semester hours, or, the general education core, which consists of 25 semester hours; 2) contact their CFCC advisor, register early, and pay their tuition on time; and 3) earn a grade of "C" or higher on the first attempt. Since this program has only 25 credit hours in the general education core, students may be required to fulfill their basic studies requirements after they transfer. While some UNC institutions accept students with a 2.0 grade-point average, other UNC institutions require at least a 2.5 grade-point average. Students must always comply with the admission requirements of the receiving institution. **Reminder:** CFCC accepts a grade of "C-," but some UNC institutions will not accept this grade.

Within the degree program, the institution shall include opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and basic computer use. Degree-seekers must demonstrate their computer competency before graduation. They may take a computer competency in the CFCC Learning Lab on either campus. The following courses are not listed in this program, but if students have successfully completed any of the following, they would have met their computer competency: CIS 110 or CIS 115 or CSC 151 or CTS 115.

### Important Websites

The following website provides more CFCC college transfer and advising information:  
<http://cfcc.edu/transfer/>.

The following website lists the academic programs offered at the sixteen (16) UNC institutions:  
<http://www.northcarolina.edu/programs/index.php>.

Students who need assistance in deciding their major may visit CFCC's Career and Testing Services or visit the website about academic majors from their institution of choice. Example:  
[https://www1.cfnc.org/Plan/For\\_A\\_Career/\\_default.aspx](https://www1.cfnc.org/Plan/For_A_Career/_default.aspx).

## Associate in Fine Arts in MUSIC

A.F.A. MUSIC DEGREE (A10700)

### Associate in Fine Arts in Music Program – A10700

While the courses in this pre-major are not taught every semester, **every effort is made** to see that each course is taught at least once per year. When planning a class schedule, students should consider the frequency of the course offerings.

Since requirements vary, each student should first contact the senior institution of choice to determine the specific requirements of that institution and to determine whether it is better to complete this pre-major or the Associate in Arts program or the minimum transfer hours of the receiving institution. Some senior institutions offer a Bachelor in Fine Arts degree while others offer a Bachelor in Arts degree. Depending on the institution of choice, some students will not have satisfied the general education core or the basic studies requirements even if the students complete this degree. Students are encouraged to contact the senior institution to confirm degree offerings.

The following UNC institutions offer a BM – Bachelor of Music:

- East Carolina University
- UNC School of the Arts
- Western Carolina University
- North Carolina Central University
- UNC Charlotte
- Appalachian State University
- UNC Wilmington
- UNC Greensboro
- UNC Pembroke
- UNC Chapel Hill.

The following UNC institutions offer a BA in Music:

- NC Agricultural and Technical State University
- Winston-Salem State University
- UNC Wilmington
- Western Carolina University
- UNC Greensboro
- UNC Charlotte
- UNC-Chapel Hill
- UNC Pembroke
- Elizabeth City State University
- UNC Asheville.

The following UNC institutions offer a BS in Music:

- Appalachian State University
- Elizabeth City State University
- UNC Asheville

# CAPE FEAR COMMUNITY COLLEGE

## I. UNIVERSAL GENERAL EDUCATION 25-26 SHC TRANSFER COMPONENT

### English Composition ..... 6

Take the following:

ENG 111	Writing and Inquiry* <sup>u</sup>	3
ENG 112	Writing/Research in the Disc* <sup>u</sup>	3

### Humanities/Fine Arts Electives ..... 3

Take one of the following:

ART 111	Art Appreciation* <sup>u</sup>	3
ART 114	Art History Survey I * <sup>u</sup>	3
ART 115	Art History Survey II * <sup>u</sup>	3
ENG 231	American Literature I* <sup>u</sup>	3
ENG 232	American Literature II* <sup>u</sup>	3
ENG 241	British Literature I* <sup>u</sup>	3
ENG 242	British Literature II* <sup>u</sup>	3
MUS 110	Music Appreciation* <sup>u</sup>	3
MUS 112	Introduction to Jazz* <sup>u</sup>	3
PHI 215	Philosophical Issues* <sup>u</sup>	3
PHI 240	Introduction to Ethics* <sup>u</sup>	3

### Social/Behavioral Sciences Electives ..... 6

Take two of the following from two different disciplines below:

ECO 251	Prin of Microeconomics* <sup>u</sup>	3
ECO 252	Prin of Macroeconomics* <sup>u</sup>	3
HIS 111	World Civilizations I* <sup>u</sup>	3
HIS 112	World Civilizations II* <sup>u</sup>	3
HIS 131	American History I* <sup>u</sup>	3
HIS 132	American History II* <sup>u</sup>	3
POL 120	American Government* <sup>u</sup>	3
PSY 150	General Psychology* <sup>u</sup>	3
SOC 210	Introduction to Sociology* <sup>u</sup>	3

### Mathematics ..... 3-4

Take one of the following:

MAT 143	Quantitative Literacy* <sup>u</sup>	3
MAT 171	Precalculus Algebra* <sup>u</sup>	4

### Natural Sciences ..... 4

Take one of the following:

AST 111 / 111A	Descriptive Astronomy* <sup>u</sup> / Lab* <sup>u</sup>	3/1
BIO 110	Principles of Biology* <sup>u</sup>	4
BIO 111	General Biology I* <sup>u</sup>	4
CHM 151	General Chemistry I* <sup>u</sup>	4
GEL 111	Geology* <sup>u</sup>	4
PHY 110 / 110A	Conceptual Physics* <sup>u</sup>	3/1

### Additional General Education Hours ..... 3

Take the following:

COM 231	Public Speaking * <sup>u</sup>	3
---------	--------------------------------	---

## II. OTHER REQUIRED HOURS 35 SHC

### Academic Transition ..... 1

Take the following:

ACA 122**	College Transfer Success	1
-----------	--------------------------	---

**\*\*ACA 122 is recommended during the student's first or second semester at CFCC.**

### Music Theory ..... 8

Take the following:

MUS 121	Music Theory I*	4
MUS 122	Music Theory II*	4

### Applied Music ..... 4

Take the following:

MUS 161	Applied Music I*	2
MUS 162	Applied Music II*	2

### Ensemble ..... 2

Take two of the following:

MUS 131	Chorus I*	1
MUS 132	Chorus II*	1
MUS 133	Band I*	1
MUS 134	Band II*	1
MUS 135	Jazz Ensemble I*	1
MUS 136	Jazz Ensemble II*	1
MUS 137	Orchestra I*	1
MUS 138	Orchestra II*	1
MUS 141	Ensemble I*	1
MUS 142	Ensemble II*	1
MUS 231	Chorus III*	1
MUS 232	Chorus IV*	1
MUS 233	Band III*	1
MUS 234	Band IV*	1
MUS 235	Jazz Ensemble III*	1
MUS 236	Jazz Ensemble IV*	1
MUS 237	Orchestra III*	1
MUS 238	Orchestra IV*	1
MUS 241	Ensemble III*	1
MUS 242	Ensemble IV*	1
MUS 253	Big Band*	1

### Class Music ..... 2

Take the following:

MUS 151	Class Music I*	1
MUS 152	Class Music II*	1

**Music Electives .....18**

Take 18 credits from the following unused courses based on your intended major and senior institution:

MUS 110	Music Appreciation* <sup>u</sup> .....	3
MUS 111	Fundamentals of Music*.....	3
MUS 112	Introduction to Jazz* <sup>u</sup> .....	3
MUS 113	American Music*.....	3
MUS 114	Non-Western Music*.....	3
MUS 123	Music Composition*.....	1
MUS 131	Chorus*.....	1
MUS 132	Chorus II*.....	1
MUS 133	Band I*.....	1
MUS 134	Band II*.....	1
MUS 135	Jazz Ensemble I*.....	1
MUS 136	Jazz Ensemble II*.....	1
MUS 137	Orchestra I*.....	1
MUS 138	Orchestra II*.....	1
MUS 141	Ensemble I*.....	1
MUS 142	Ensemble II*.....	1
MUS 170	Business of Music*.....	3
MUS 210	History of Rock Music*.....	3
MUS 211	History of Country Music*.....	3
MUS 212	American Musical Theatre*.....	3
MUS 221	Music Theory III*.....	4
MUS 222	Music Theory IV*.....	4
MUS 231	Chorus III*.....	1
MUS 232	Chorus IV*.....	1
MUS 233	Band III*.....	1
MUS 234	Band IV*.....	1
MUS 235	Jazz Ensemble III*.....	1
MUS 236	Jazz Ensemble IV*.....	1
MUS 237	Orchestra II*.....	1
MUS 238	Orchestra IV*.....	1

# Associate in Science

A.S. DEGREE (A10400)

## Associate in Science Program – A10400

As a result of a legislative mandate from the NC General Assembly, fall of 1997, the 58 North Carolina community colleges and the 16 institutions in the University of North Carolina (UNC) System entered into an agreement called the statewide Comprehensive Articulation Agreement, better known as the CAA. This agreement has been updated, and the revisions were implemented fall of 2014. This agreement includes two degrees—the Associate in Arts and the Associate in Science—and enables North Carolina community college graduates to receive junior status if the graduates meet certain criteria. Students are encouraged to complete their degree before they transfer. Admission to a UNC institution is a competitive process.

The Associate in Science degree requires 60-61 credit hours. It allows students to take the first two years of their baccalaureate degree at CFCC and enables them to transfer to one of the 16 institutions in the University of North Carolina System with junior status. Students in this program may choose majors in architecture, agriculture, biology, chemistry, computer science, dentistry, forestry, mathematics, medicine, pharmacy, and textiles. To graduate from CFCC, students must meet all prerequisite and corequisite requirements, successfully complete all the required CAA courses with a grade of "C" or above, and earn at least a 2.0 overall grade-point average. (Note: To enroll at a senior institution, students must meet the grade-point average requirement of the receiving institution, which may be higher than a 2.0. While CFCC may accept a grade of "C-" from another institution, students should be aware that some UNC institutions will not accept this grade.)

This plan of study is subject to change when the college thinks that such action is in the best interest of the student or the program. It is the responsibility of the student to meet all graduation requirements.

When students enroll at CFCC, they are advised to take **ACA 122: College Transfer Success** in their first or second semester and create a suitable plan of study. Students must also demonstrate their computer competency before graduation by taking CIS 110 or CIS 115 or CSC 151. If a student is enrolled in the last semester of course work, is computer-competent, but has not fulfilled the computer requirement, the student may opt to take a computer competency in the Learning Lab at the North or the Wilmington campus.

Students must meet the receiving institution's foreign language and/or health and physical education course, if applicable, prior to or after transfer to the senior institution.

Website that houses CFCC's college transfer curriculum worksheets:  
<http://cfcc.edu/transfer/current-student/>.

Website that houses the four-year baccalaureate plans at the 16 institutions in the University of North Carolina System:  
<http://cfcc.edu/transfer/curriculum-pathways/>.

The Associate in Science program requirements are outlined as follows:

### Universal General Education Transfer Component

(34 semester hour credits)

These courses are sometimes referred to as the UGETC courses and are supposed to transfer for equivalency credit at the 16 University of North Carolina institutions.

### Additional General Education Courses

(11 semester hour credits)

These may be additional general education courses that CFCC has selected for its students and/or additional general education courses that a senior institution has recommended or required for an intended major.

### Other Requirements

(15 semester hour credits)

A few electives are mandated by CFCC. Students should select the remaining electives based on their intended major and the senior institution of choice.

### Semester Hour Credits

#### I. UNIVERSAL GENERAL EDUCATION TRANSFER COMPONENT 34 SHC

##### English Composition .....6

Take the following:

ENG 111	Writing and Inquiry* <sup>u</sup>	3

PHY 252	General Physics II* <sup>u</sup> .....	4

## Communications .....3

Take one of the following:

COM 110	Introduction to Communication*.....	3
COM 120	Intro Interpersonal Comm*.....	3
COM 140	Intro to Intercultural Comm*.....	3
COM 231	Public Speaking* <sup>u</sup> .....	3

## III. OTHER REQUIREMENTS 15 SHC

### Academic Transition.....1

Take the following:

ACA 122**	College Transfer Success*.....	1
-----------	--------------------------------	---

\*\*ACA 122 is recommended during the student's first or second semester at CFCC.

### Electives .....14

Take 14 credits from the following unused courses based on your intended major and senior institution:

ACC 120	Prin of Financial Accounting*.....	4
ACC 121	Prin of Managerial Accounting*.....	4
ANT 210	General Anthropology*.....	3
ANT 220	Cultural Anthropology*.....	3
ANT 240	Archaeology*.....	3
ART 111	Art Appreciation* <sup>u</sup> .....	3
ART 113	Art Methods and Materials*.....	3
ART 114	Art History Survey I* <sup>u</sup> .....	3
ART 115	Art History Survey II* <sup>u</sup> .....	3
ART 116	Survey of American Art*.....	3
ART 117	Non-Western Art History*.....	3
ART 118	Art by Women*.....	3
ART 121	Design I*.....	3
ART 122	Design II*.....	3
ART 131	Drawing I*.....	3
ART 132	Drawing II*.....	3
ART 135	Figure Drawing*.....	3
ART 171	Computer Art I*.....	3
ART 212	Gallery Assistantship I*.....	1
ART 214	Portfolio and Resume*.....	1
ART 231	Printmaking I*.....	3
ART 232	Printmaking II*.....	3
ART 240	Painting I*.....	3
ART 241	Painting II*.....	3
ART 245	Metals I*.....	3
ART 246	Metals II*.....	3
ART 247	Jewelry I*.....	3
ART 248	Jewelry II*.....	3
ART 261	Photography I*.....	3
ART 262	Photography II*.....	3
ART 264	Digital Photography I*.....	3

# Associate in General Education

A.G.E. DEGREE (A10300)

A.G.E. NURSING DEGREE (A1030N)

## Associate in General Education

A.G.E. DEGREE (A10300)

### Associate in General Education Program – A10300

The Associate in General Education (AGE) curriculum is designed for individuals who wish to broaden their education, with emphasis on personal interest, growth, and development. The two-year General Education program provides students opportunities to study English, literature, fine arts, philosophy, social science, and science and mathematics at the college level. All courses in the program are college-level courses which may be selected based upon ■ student's personal interests rather than specific technical or professional requirements. Many of the courses are equivalent to college transfer courses; however, the program is not principally designed for college transfer.

#### Semester Hour Credits

#### I. GENERAL EDUCATION REQUIREMENTS 15 SHC

<b>English Composition</b> .....	<b>6</b>
ENG 111      Writing and Inquiry* <sup>u</sup> .....	3
ENG 114      Prof Research & Reporting* .....	3

**Natural Sciences/Mathematics Elective** .....3

**Humanities/Fine Arts Elective** .....3

**Social/Behavioral Sciences Elective** .....3

#### II. MAJOR REQUIREMENTS 49 SHC

**Computer Literacy** .....3-2

*Take one of the following:*

CIS 110      Introduction to Computers* .....	3
CIS 111      Basic PC Literacy .....	2

**Free Electives** .....47

Free electives may be any college transfer or vocational technical course numbered 110 or higher as selected by the student and approved by the student's advisor. Courses numbered below 110 in any discipline may not be used for this degree.

**Note: Financial assistance is not available for all free-elective courses. Please check with the Financial Aid Office for more information.**

**TOTAL CREDITS** .....64-65 SHC

# Associate in General Education NURSING

A.G.E. NURSING DEGREE (A1030N)

### Associate in General Education Nursing Program – A1030N

The Associate in General Education (AGE) - Nursing is designed for students who wish to begin their study toward the Associate in Nursing degree and ■ Baccalaureate degree in Nursing as based on Blocks 1 through 3 of the Uniform Articulation Agreement between the University of North Carolina's Registered Nurse (RN) to Bachelor of Science in Nursing (BSN) programs and the North Carolina Community College Associate Degree Nursing Programs which was approved by the State Board of Community Colleges and the UNC Board of Governors in February 2015. The AGE - Nursing shall be granted for ■ planned program of study consisting of a minimum of 60 semester hours of credit (SHC) of courses.

A student who completes an Associate in Applied Science (AAS) in Nursing with ■ GPA of at least 2.0 and ■ grade of C or better in the AGE-Nursing courses listed below and who holds ■ current unrestricted license as a Registered Nurse in North Carolina will have fulfilled the UNC institutions lower-division general education requirements as well as nursing program entry requirements. However, because nursing program admissions are competitive, no student is guaranteed admission to the program of his or her choice.

#### Semester Hour Credits

#### I. GENERAL EDUCATION REQUIREMENTS 53-54 SHC

**English Composition** .....6

*Take the following:*

ENG 111      Writing and Inquiry* <sup>u</sup> .....	3
--	---

*Take one of the following:*

ENG 112      Writing Research in the Disc* <sup>u</sup> .....	3
ENG 114      Prof Research & Reporting* .....	3

**Humanities/Fine Arts** .....9

# ASSOCIATE IN APPLIED SCIENCE, DIPLOMA, AND CERTIFICATE PROGRAMS

## Accounting

A.A.S. DEGREE (A25100)  
DIPLOMA (D25100)  
CERTIFICATE - APPLICATIONS (C25100)

## Accounting

### Associate in Applied Science Program - A25100

The Accounting curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth in the accounting profession. Using the language of business, accountants assemble and analyze, process, and communicate essential information about financial operations.

In addition to course work in accounting principles, theories, and practice, students will study business law, finance, management, and economics. Related skills are developed through the study of communications, computer applications, financial analysis, critical thinking skills, and ethics.

Graduates should qualify for entry-level accounting positions in many types of organizations including accounting firms, small businesses, manufacturing firms, banks, hospitals, school systems, and governmental agencies. With work experience and additional education, an individual may advance in the accounting profession.

## Accounting APPLICATIONS

### Certificate Program - C25100

This program is designed to prepare students to perform fundamental accounting applications. Students that enter this program will have specific training in basic financial accounting, payroll, and accounting technology, including instruction in computer technology and software specific to the accounting field. The courses in this certificate program will transfer into the Associate of Applied Science Degree and the Diploma in Accounting.

# Air Conditioning, Heating, and Refrigeration Technology

DIPLOMA (D35100)  
CERTIFICATE (C35100)

## Air Conditioning, Heating, and Refrigeration Technology

### Diploma Program - D35100

The Air Conditioning, Heating, and Refrigeration Technology curriculum provides the basic knowledge to develop skills necessary to work with residential and light commercial systems.

Topics include mechanical refrigeration, heating and cooling theory, electricity, controls, and safety. The diploma program covers air conditioning, furnaces, heat pumps, tools, and instruments.

Diploma graduates should be able to assist in the start-up, preventive maintenance, service, repair, and/or installation of residential and light commercial systems.

# Architectural Technology

A.A.S. DEGREE (A40100)  
CERTIFICATE (C40100C)

## Architectural Technology

### Associate in Applied Science Program - A40100

The Architectural Technology curriculum prepares individuals with knowledge and skills that can lead to employment in the field of architecture or one of the associated professions.

Students receive instruction in construction document preparation, materials and methods, environmental and structural systems, building codes and specifications, and computer applications as well as completing a design project. Optional courses may be provided to suit specific career needs.

Upon completion, graduates have career opportunities within the architectural, engineering, and construction professions as well as positions in industry and government. A strong emphasis on sustainable design and construction techniques is included.

*See Nursing Programs*

# Automotive Customizing Technology

DIPLOMA (D60190)  
CERTIFICATE (C60190)

## Automotive Customizing Technology

### Diploma Program - D60190

The curriculum prepares individuals to modify existing automotive vehicle components, fabrication techniques to create custom vehicle components, non-structural damage repair, custom painting and refinishing techniques, custom upholstery and glass removal/replacement/custom modifications, and other automotive technology related systems.

Course work may include transportation systems theory, custom fabrication, custom fiberglass skills, auto shop management, and basic welding for transportation.

Graduates of this pathway should be prepared to take professional licensure exams, which correspond to certain programs of study, and to enter careers as entry-level technicians in the transportation industry.

# Automotive Systems Technology

A.A.S. DEGREE (A60160)  
CERTIFICATE (C60160A)  
DIPLOMA (D60160)

## Automotive Systems Technology

### Associate in Applied Science Program - A60160

The curriculum prepares individuals for employment as automotive service technicians. It provides an introduction to automotive careers and increases student awareness of the challenges associated with this fast and ever-changing field.

Classroom and lab experiences integrate technical and academic coursework. Emphasis is placed on theory, servicing and operation of brakes, electrical/electronic systems, engine performance, steering/suspension, automatic transmission/transaxles, engine repair, climate control, and manual drive trains.

Upon completion of this curriculum, students should be prepared to take the ASE exam and be ready for full-time employment in dealerships and repair shops in the automotive service industry.

# Baking and Pastry Arts

A.A.S. Degree (A55130)

## Baking and Pastry Arts

### Associate in Applied Science Program - A55130

This curriculum is designed to provide students with the skills and knowledge required for employment in the baking/pastry industry, including restaurants, hotels, independent bakeries/pastry shops, wholesale/retail markets, and high-volume bakeries, and/or further academic studies. Students will be provided theoretical knowledge/practical applications that provide critical competencies to meet industry demands, including environmental stewardship, operational efficiencies and professionalism. Course work includes specialty/artisanal breads, desserts/pastries, decorative work, high-volume production and food marketing. Graduates should qualify for entry-level positions, such as pastry/bakery assistant, area pastry chef and assistant pastry chef. American Culinary Federation certification may be available to graduates.

*Please note that all CUL and BPA classes taught in the Baking and Pastry Arts program are only offered on a mini session schedule. Please see your academic advisor for assistance with scheduling.*

# Basic Law Enforcement Training

CERTIFICATE (C55120)

## Basic Law Enforcement Training

### Certificate Program - C55120

Basic Law Enforcement Training (BLET) is designed to give students essential skills required for entry-level employment as law enforcement officers with state, county, or municipal governments, or with private enterprise. This program utilizes state commission-mandated topics and methods of instruction. General subjects include, but are not limited to, criminal investigation, juvenile laws, civil process, law enforcement driver training, ABC laws, motor vehicle laws, patrol techniques, court procedures, emergency responses, and ethics and community relations.

Students must successfully complete and pass all units of study to receive a certificate. Upon successful passage of the certification examination mandated by the North Carolina Criminal Justice Education and Training Standards Commission and the North Carolina Sheriffs' Education and Training Standards Commission, students may seek job opportunities with state, county, and municipal governments, or with private enterprise in North Carolina.

Students who successfully complete the BLET Program can receive credit for CJC 120, CJC 131 and CJC 221.

### CJC 100 - Law Enforcement Training

Prerequisite: Approval of the BLET Director; Copy of reading placement test results, taken less than one year prior to the class starting date with a score indicating placement into course DRE 098 or above at a North Carolina Community College. A certified copy of High School transcript, GED, or Adult High School diploma is required. (Diplomas earned through correspondence enrollment are not recognized toward the educational requirements by North Carolina Training and Standards.)

The following items are also required for admission to the BLET program:

- Must be at least 20 years of age
- Must have a valid North Carolina driver's license
- Must submit a Medical Examination Form completed by a North Carolina licensed physician
- Must provide a Certified Criminal History Check report
- Must be a citizen of the United States
- A sponsorship letter is recommended

This course is designed to provide the student with basic skills and basic knowledge necessary to perform those tasks essential to function in law enforcement. The course consists of 620 hours of instruction in the following topic areas:

Course Orientation .....	6
Physical Fitness Training .....	54
Ethics for Professional Law Enforcement.....	4
Arrest, Search & Seizure/Constitutional Law .....	28
Elements of Criminal Law .....	24
Communication Skills for Law Enforcement Officers.....	8
Law Enforcement Radio Procedures and Information Systems .....	8
Field Notetaking & Report Writing .....	12
Interviews: Field & In-Custody .....	16
Subject Control/Arrest Techniques.....	40
Juvenile Laws & Procedures .....	8
Fingerprinting & Photographing Arrestees .....	6
Responding to Victims & the Public .....	10
Firearms.....	48
Criminal Investigation.....	34
ABC Laws and Procedures .....	4
Motor Vehicle Law.....	20
Law Enforcement Driver Training.....	40
Crime Prevention Techniques.....	6
First Responder.....	32
Domestic Violence Response .....	12
Controlled Substances .....	12
Techniques of Traffic Law Enforcement.....	24
In-Custody Transportation.....	8
Traffic Crash Investigation .....	20
Explosives & Hazardous Material Emergencies.....	12
Individuals with Mental Illness or Developmental Disabilities .....	8
Crowd Management.....	12
Preparing for & Testifying In Court.....	12
Patrol Techniques .....	28
Sheriff's Responsibilities: Detention Duties.....	4
Sheriff's Responsibilities: Court Duties .....	6
Civil Process .....	24
Testing .....	16
Anti-Terrorism .....	4
Rapid Deployment.....	8
Human Trafficking .....	2

**Total Hours ..... 620**

**TOTAL CREDITS ..... 19 SHC**

# Boat Building (Wooden)

DIPLOMA (D35120)  
CERTIFICATE (C35120)

## Boat Building

### Diploma Program - D35120

The Boat Building curriculum prepares individuals for employment in the boat building and boat repair industry. Today's boat builders are highly skilled craftspeople who can create complex shapes out of wood.

Course work includes reading boat plans, lofting, setting up the building jig, fashioning the structural timbers, and different planking techniques. Interior joinery, exterior joinery, and yacht rigging is also covered.

Graduates may find work with yacht manufacturers, high end furniture shops, architectural millwork shops, and companies installing built in furniture in homes. Other opportunities can be found in boat maintenance and repair yards.

# Boat Manufacture and Service

DIPLOMA (D60330)

## Boat Manufacture and Service

### Diploma Program - D60330

The Boat Manufacture and Service Technology program prepares students for employment in the manufacture and service of boats. Students learn the basics of boat design and the implementation of those designs in various components and/or complete boats or yachts.

Course work includes reading and interpreting marine blueprints, manuals, and other documents common to the industry; lofting; constructing forms and mold-making; application of concepts and techniques in composite, and fiberglass; marine woodworking; interior finishing; and marine mechanical, electrical, and plumbing systems.

Graduates may find employment with boat/yacht manufacturers, service yards, dealerships doing commissioning work, and companies doing custom boat building.

## Business Administration

### Associate in Applied Science Program - A25120

The Business Administration curriculum is designed to introduce students to the various aspects of the free enterprise system. Students will be provided with fundamental knowledge of business functions, processes, and an understanding of business organizations in today's global economy. Course work includes business concepts such as accounting, business law, economics, management, and marketing. Skills related to the application of these concepts are developed through the study of computer applications, communication, team building, and decision making. Through these skills, students will have a sound business education base for lifelong learning. Graduates are prepared for employment opportunities in government agencies, financial institutions, and large to small business or industry.

# Business Analytics

A.A.S. DEGREE (A25350)

## Business Analytics

### Associate in Applied Science Program – A25350

The Business Analytics curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth in analytical professions. Business analysts process and analyze essential information about business operations and also assimilate data for forecasting purposes.

Students will complete course work in business analytics, including general theory, best practices, data mining, data warehousing, predictive modeling, project and operations management, statistical analysis, and software packages. Related skills include business communication, critical thinking and decision making.

Graduates should qualify for employment as data technicians, data scientists, business and data analytics engineers, and business analysts in the fields of finance, banking, logistics, marketing, healthcare, manufacturing, information technology, and government organizations.

# Cardiovascular Sonography

A.A.S. DEGREE (A45160)  
DIPLOMA (D45160)

*This program has selective admission requirements.*

*Contact the Counseling Office for information and application deadlines.*

*Students must achieve a "C" or higher in each course in the curriculum in order to progress semester by semester and to graduate.*

## Cardiovascular Sonography

### Associate in Applied Science Program - A45160

The Cardiovascular Sonography curriculum provides the individual with the knowledge and skills necessary to acquire, process, and evaluate the human heart and vascular structures. A cardiovascular sonographer uses high frequency sound waves to produce images of the heart and vascular structures.

Course work includes effective communication and patient care skills combined with a knowledge of physics, human anatomy, physiology, and pathology, all of which are essential to obtaining high quality sonographic images.

Graduates may be eligible to apply to the American Registry of Diagnostic Medical Sonographers for examinations in physics, vascular technology, and adult echocardiography. Graduates may find employment in hospitals, physicians' offices, mobile services, and educational institutions.

# Carpentry

DIPLOMA (D35180)  
CERTIFICATE (C35180)

## Carpentry

### Diploma Program - D35180

The Carpentry curriculum is designed to train students to construct residential structures using standard building materials and hand and power tools. Carpentry skills and a general knowledge of residential construction will also be taught.

Course work includes footings and foundations, framing, interior and exterior trim, cabinetry, blueprint reading, residential planning and estimating, and other related topics. Students will develop skills through hands-on participation.

Graduates should qualify for employment in the residential building construction field as rough carpenters, framing carpenters, roofers, maintenance carpenters and other related jobs.

# Chemical Technology

A.A.S. DEGREE (A20120)

## Chemical Technology

### Associate in Applied Science Program - A20120

The Chemical Technology curriculum prepares individuals for work as analytical technicians in chemical laboratories associated with chemical production, environmental concerns, pharmaceuticals, or general analysis.

Course work includes general chemistry, organic chemistry, introductory chemical engineering, qualitative analysis, and quantitative analysis, including such instrumental techniques as spectroscopy (UV-Vis, IR, AA) and chromatography (GC, LC, IC). Students also utilize computerized data collection, reduction, and graphic presentation.

Graduates should qualify as entry-level chemical laboratory technicians. Their duties may include chemical solution preparation, raw material, product, or environmental sampling, and/or sample testing via wet chemistry or instrumental techniques.

# Collision Repair and Refinishing Technology

DIPLOMA (D60130)  
CERTIFICATE (C60130)

## Collision Repair and Refinishing Technology

### Diploma Program - D60130

The Collision Repair and Refinishing Technology curriculum prepares individuals to become qualified technicians who possess the diverse skills required to perform quality repairs and proper refinishing techniques on automobile bodies and to diagnose and repair mechanical and electrical systems.

Coursework includes classroom and laboratory experiences that integrate technical application with academic theory. Emphasis is placed on autobody fundamentals, painting and refinishing, structural and non-structural damage repair, mechanical and electrical component repair or replacement, and common industry practices.

Graduates should be qualified to take National Institute for Automotive Service Excellence (ASE) certification examinations and also for entry-level employment in automotive dealerships, independent repair shops, or through self-employment, as collision repair and refinishing technicians.

### Semester Hour Credits

# Community Spanish Interpreter

A.A.S. DEGREE (A55370)

## Community Spanish Interpreter

### Associate in Applied Science Program - A55370

The Community Spanish Interpreter curriculum prepares individuals to work as entry-level bilingual professionals who will provide communication access in interview and interactive settings. In addition, this curriculum provides educational training for working professionals who want to acquire Spanish language skills.

Course work includes the acquisition of Spanish: grammar, structure, and sociolinguistic properties, cognitive processes associated with interpretation between Spanish and Communications; the structure and character of the Hispanic community; and acquisition of communication skills.

Graduates should qualify for entry-level jobs as para-professional bilingual employees in educational systems or a variety of community settings. Individuals may choose from part-time, full-time, or self-employment/free-lance positions, or apply language skills to other human service related areas.

#### Semester Hour Credits

#### I. GENERAL EDUCATION REQUIREMENTS 6 SHC

# Computer-Integrated Machining

A.A.S. DEGREE (A50210)  
CERTIFICATE (C50210)

## Computer-Integrated Machining

### Associate in Applied Science Program - A50210

The Computer-Integrated Machining curriculum prepares students with the analytical, creative and innovative skills necessary to take a production idea from an initial concept through design, development and production, resulting in a finished product.

Coursework may include manual machining, computer applications, engineering design, computer-aided drafting (CAD), computer-aided machining (CAM), blueprint interpretation, advanced computerized numeric control (CNC) equipment, basic and advanced machining operations, precision measurement and high-speed multi-axis machining.

Graduates should qualify for employment as machining technicians in high-tech manufacturing, rapid-prototyping and rapid-manufacturing industries, specialty machine shops, fabrication industries, and high-tech or emerging industries such as aerospace, aviation, medical, and renewable energy, and to sit for machining certification examinations.

### Semester Hour Credits

A.A.S. DEGREE (A35190)  
CERTIFICATE (C35190)

## Construction Management Technology

### Associate in Applied Science Program - A35190

This curriculum is designed to prepare individuals for careers in the construction management field. Such positions may include project manager, superintendent, estimator, or foreman.

Course work includes safety, planning, scheduling, cost control, productivity, human relations, estimating, and building codes. Students will also gain proficiency in specific construction related skills.

Graduates should qualify for entry-level positions in the field of construction management.

*Uniforms and name tags are required at an additional cost.*

*Students will be required to meet all applicable requirements of the State Board of Cosmetic Arts Rules and Regulations for graduation and licensure.*

## Cosmetology

### Associate in Applied Science Program - A55140

The Cosmetology curriculum is designed to provide competency-based knowledge, scientific/artistic principles, and hands-on fundamentals associated with the cosmetology industry. The curriculum provides a simulated salon environment which enables students to develop manipulative skills. Course work includes instruction in all phases of professional imaging, hair design, chemical processes, skin care, nail care, multi-cultural practices, business/computer principles, product knowledge, and other selected topics. Graduates should qualify to sit for the State Board of Cosmetic Arts examination. Upon successfully passing the State Board exam, graduates will be issued a license. Employment is available in beauty salons and related businesses.

# Cosmetology

## Diploma Program - D55140

The Cosmetology curriculum is designed to provide competency-based knowledge, scientific/artistic principles, and hands-on fundamentals associated with the cosmetology industry. The curriculum provides a simulated salon environment which enables students to develop manipulative skills.

Course work includes instruction in all phases of professional imaging, hair design, chemical processes, skin care, nail care, multi-cultural practices, business/computer principles, product knowledge, and other selected topics.

Graduates should qualify to sit for the State Board of Cosmetic Arts examination. Upon successfully passing the State Board exam, graduates will be issued a license. Employment is available in beauty salons and as skin/nail specialists, platform artists, and related business.

The listed courses, CFCC Cosmetology competencies, NC State Board Performances and a minimum of 1500 hours are required for graduation.

This curriculum complies with the standard approved by the State Board of Community Colleges.

## Cosmetology

### Certificate Program - C55140

Successful completion of this certificate program will give the student 1,200 hours of cosmetology training and allow the student to sit for the North Carolina State Board of Cosmetic Arts Apprenticeship License Examination. Passing the North Carolina written and practical exam will qualify the student to pay for and receive an apprenticeship license. The student must then complete a 1,040 hour mentorship with a licensed cosmetologist in order to earn a full cosmetology license.

# Criminal Justice Technology

A.A.S. DEGREE (A55180)  
 CERTIFICATE (C55180)  
 CERTIFICATE - INDUSTRIAL SECURITY (C55180S)  
 CERTIFICATE - LEADERSHIP (C55180L)

## Criminal Justice Technology

### Associate in Applied Science Program - A55180

The Criminal Justice Technology curriculum is designed with a core of courses to afford one the opportunity to acquire basic knowledge, skills and attitudes in the generally accepted subject areas associated with a two-year study of law enforcement services. It includes subjects such as interpersonal communications, law, psychology and sociology.

In addition to core subjects, students are given instruction in topic areas where they will become exposed to and need knowledge of in order to become entry level professionals within the criminal justice community such as, but not limited to areas of study such as the correctional services program such as confinement facility administration, correctional law, counseling, probation-parole services and rehabilitation options. Similarly, the law enforcement option provides an opportunity to study other generally accepted subjects included in a law enforcement services program such as criminal behavior, criminal investigation, patrol operation, traffic management, and other aspects of law enforcement administration and operations. The security services option provides an opportunity to study other generally accepted subjects related to a security services program such as accident prevention and safety management, common carrier protection, fire prevention, private security, industrial security, retail security, security systems cyber security, private investigations and surveillance.

Job opportunities are available with federal, state, county and municipal governments. In addition, knowledge, skills and attitudes acquired in this course of study qualify one for job opportunities with private enterprise in such areas as industrial, retail physical, cyber, and private security.

# Culinary Arts

A.A.S. DEGREE (A55150)  
DIPLOMA (D55150)

*Students are responsible for purchasing their own uniforms and knife kit.*

## Culinary Arts

### Associate in Applied Science Program - A55150

This curriculum provides specific training required to prepare students to assume positions as trained culinary professionals in a variety of foodservice settings including full service restaurants, hotels, resorts, clubs, catering operations, contract foodservice and health care facilities.

Students will be provided theoretical knowledge/practical applications that provide critical competencies to meet industry demands, including environmental stewardship, operational efficiencies and professionalism. Courses include sanitation/safety, baking, garde manger, culinary fundamentals/production skills, nutrition, customer service, purchasing/cost control, and human resource management.

Graduates should qualify for entry-level opportunities including prep cook, line cook, and station chef. American Culinary Federation certification may be available to graduates. With experience, graduates may advance to positions including sous chef, pastry chef, executive chef, or foodservice manager.

# Dental Assisting

DIPLOMA (D45240)

*This program has selective admission requirements.*

**Contact the Counseling Office for information and application deadlines.**

**Note:** There are additional requirements for equipment, insurance, books, and vaccinations. These requirements and expenses are outlined in the Dental Assisting information packet, available upon admittance.

## Dental Assisting

### Diploma Program - D45240

The Dental Assisting curriculum prepares individuals to assist the dentist in the delivery of dental treatment and to function as integral members of the dental team while performing chairside and related office and laboratory procedures.

Course work includes instruction in general studies, biomedical sciences, dental sciences, clinical sciences, and clinical practice. A combination of lecture, laboratory, and clinical experiences provide students with knowledge in infection/hazard control, radiography, dental materials, preventive dentistry, and clinical procedures.

Graduates may be eligible to take the Dental Assisting National Board Examination to become Certified Dental Assistants. As a Dental Assistant II, defined by the Dental Laws of North Carolina, graduates work in dental offices and other related areas.

The program in Dental Assisting is accredited by the Commission on Dental Accreditation and has been granted the accreditation status of accreditation without reporting requirements. The Commission is a specialized accrediting body recognized by the United States Department of Education.

The Commission on Dental Accreditation will review complaints that relate to a program's compliance with the accreditation standards. The Commission is interested in the sustained quality and continued improvement of dental and dental-related education programs, but it does not intervene on behalf of individuals or act as a court of appeal for individuals in matters of admission, appointment, promotion or dismissal of faculty, staff or students.

A copy of the appropriate accreditation standards and/or the Commission's policy and procedure for submission of complaints may be obtained by contacting the Commission at 211 East Chicago Avenue, Chicago, IL 60611 or by calling 1-800-621-8099 extension 4653.

# Dental Hygiene

A.A.S. DEGREE (A45260)

*This program has selective admission requirements.*

*Contact the Counseling Office for information and application deadlines.*

*Students must achieve a "C" or higher in each course in the curriculum in order to progress semester by semester and to graduate.*

**Note:** There are additional requirements for insurance, instruments, books, criminal background checks, drug screens, medical physical exam, and vaccinations. These requirements and expenses are outlined in the Dental Hygiene Information Packet available upon admittance.

## Dental Hygiene

### Associate in Applied Science Program - A45260

The Dental Hygiene curriculum provides individuals with the knowledge and skills to assess, plan, implement, and evaluate dental hygiene care for the individual and the community.

Students will learn to prepare the operatory, take patient histories, note abnormalities, plan care, teach oral hygiene, clean teeth, take x-rays, apply preventive agents, complete necessary chart entries, and perform other procedures related to dental hygiene care.

Graduates of this program may be eligible to take national and state/regional examinations for licensure which are required to practice dental hygiene. Employment opportunities include dental offices, clinics, schools, public health agencies, industry, and professional education.

The program in dental hygiene is accredited by the Commission on Dental Accreditation and has been granted the accreditation status of accreditation without reporting requirements. The Commission is a specialized accrediting body recognized by the United States Department of Education.

The Commission on Dental Accreditation will review complaints that relate to a program's compliance with the accreditation standards. The Commission is interested in the sustained quality and continued improvement of dental and dental-related education programs but does not intervene on behalf of individuals or act as a court of appeal for individuals in matters of admission, appointment, promotion or dismissal of faculty, staff or students.

A copy of the appropriate accreditation standards and/or the Commission's policy and procedure for submission of complaints may be obtained by contacting the Commission at 211 East Chicago Avenue, Chicago, IL 60611 or by calling 1-800-621-8099 extension 4653.

## TECHNICAL AND VOCATIONAL PROGRAMS

### Semester Hour Credits

#### I. GENERAL EDUCATION REQUIREMENTS 16 SHC

##### General Education Courses ..... 10

Take the following:

BIO 169	Anatomy and Physiology II*	4
ENG 114	Prof Research & Reporting*	3
SOC 240	Social Psychology*	3

##### Communications ..... 3

Take the following:

ENG 111	Writing and Inquiry* <sup>u</sup>	3
---------	-----------------------------------	---

##### Humanities/Fine Arts Electives ..... 3

Take one of the following:

# Diesel and Heavy Equipment Technology

A.A.S. DEGREE (A60460)  
DIPLOMA (D60460)  
CERTIFICATE (C60460)

## Diesel and Heavy Equipment Technology

### Associate in Applied Science Program - A60460

This curriculum provides training for individuals interested in becoming technicians who service and maintain the propulsion systems of boats and other types of marine and industrial equipment.

The course work includes the maintenance and repair procedures of mechanical, electrical, hydraulics equipment used on marine systems. Students will inspect and test equipment to determine the cause of faulty operation, and then repair and replace defective parts.

Graduates of the curriculum should qualify as marine technicians which may be employed in marinas, shipyards, industrial and trucking industries.

## Early Childhood Education

A.A.S. DEGREE (A55220)

DIPLOMA (D55220)

CERTIFICATE (C55220)

## Early Childhood Education

### Associate in Applied Science Program - A55220

The Early Childhood Education curriculum prepares individuals to work with children from infancy through middle childhood in diverse learning environments. Students will combine learned theories with practice in actual settings with young children under the supervision of qualified teachers.

Course work includes child growth and development; physical/nutritional needs of children; care and guidance of children; and communication skills with parents and children. Students will foster the cognitive/language, physical/motor, social/emotional and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Head Start Programs, and school age programs.

# Electrical Systems Technology

A.A.S. DEGREE (A35130)  
DIPLOMA (D35130)  
CERTIFICATE (C35130)

## Electrical Systems Technology

### Associate in Applied Science Program - A35130

The Electrical Systems Technology curriculum is designed to provide training for persons interested in the installation and maintenance of electrical/electronic systems found in residential, commercial and industrial facilities.

Training, most of which is hands-on, will include such topics as AC/DC theory, basic wiring practices, digital electronics, programmable logic controllers, industrial motor controls, the National Electric Code, and other subjects as local needs require.

Graduates should qualify for a variety of jobs in the electrical/electronic field as an on-the-job trainee or apprentice, assisting in the layout, installation, and maintenance of electrical/electronic systems.

## Associate in Applied Science Program - A40200

The Electronics Engineering Technology curriculum prepares individuals to become technicians who build, install, test, troubleshoot, repair, and modify developmental and production electronic components, equipment, and systems such as industrial/computer controls, manufacturing systems, communication systems, and electronic systems.

A broad-based core of courses, including basic electricity, solid-state fundamentals, and digital concepts, ensures the student will develop the skills necessary to perform entry-level tasks. Emphasis is placed on developing the student's ability to analyze and troubleshoot electronic systems.

Graduates should qualify for employment as engineering assistants or electronic technicians with job titles such as electronics engineering technician, field service technician, maintenance technician, electronic tester, electronic systems integrator, bench technician, and production control technician.

# Emergency Management

A.A.S. DEGREE (A55460)

## Emergency Management

### Associate in Applied Science Program - A55460

The Emergency Management curriculum is designed to provide students with a foundation of technical and professional knowledge needed for emergency services delivery in local and state government agencies. Study involves both management and technical aspects of law enforcement, fire protection, emergency medical services, and emergency planning.

Course work includes classroom and laboratory exercises to introduce the student to various aspects of emergency preparedness, protection, and enforcement. Students will learn technical and administrative skills such as investigative principles, hazardous materials, codes, standards, emergency agency operations, and finance.

Employment opportunities include ambulance services, fire/rescue agencies, law enforcement agencies, fire marshal offices, industrial firms, educational institutions, emergency management offices, and other government agencies. Employed persons should have opportunities for skilled and supervisory-level positions.

# Emergency Medical Science

A.A.S. DEGREE (A45340)

## Emergency Medical Science

### Associate in Applied Science Program - A45340

The Emergency Medical Science curriculum provides individuals with the knowledge, skills and attributes to provide advanced emergency medical care as a paramedic for critical and emergent patients who access the emergency medical system and prepares graduates to enter the workforce.

Students will gain complex knowledge, competency, and experience while employing evidence based practice under medical oversight, and serve as a link from the scene into the healthcare system.

Graduates of this program may be eligible to take state and/or national certification examinations. Employment opportunities include providers of emergency medical services, fire departments, rescue agencies, hospital specialty areas, industry, educational and government agencies.

# Esthetics Technology

CERTIFICATE (C55230)

*Uniforms and name tags are required at an additional cost.*

*Students will be required to meet all applicable requirements of the State Board of Cosmetic Arts Rules and Regulations for graduation and licensure.*

## Esthetics Technology

### Certificate Program - C55230

The Esthetics Technology curriculum provides competency-based knowledge, scientific/artistic principles and hands-on fundamentals associated with the art of skin care. The curriculum provides a simulated salon environment which enables students to develop manipulative skills.

Course work includes instruction in all phases of professional Esthetics Technology, business/human relations, product knowledge, and other related topics.

Graduates should be prepared to take the North Carolina Cosmetology State Board Licensing Exam and upon passing be licensed and qualify for employment in beauty and cosmetic/skin care salons, as a platform artist, and in related businesses.

# Film and Video Production Technology

A.A.S. DEGREE (A30140)  
DIPLOMA (D30140)  
CERTIFICATE (C30140)

*Note: Limited classes are offered in this program. Please check with Public Services Department Chair or Student Development.*

## Film and Video Production Technology

### Associate in Applied Science Program - A30140

The Film and Video Production Technology curriculum prepares students for entry-level employment in production support and selected technical areas of film, video, and associated media production. Instruction provides training for entry-level crew and/or production and post-production assistants in many moving image media forms.

The first year content includes exposure to the entire production process. Students are taught by industry professionals who provide extensive hands-on instruction. In the second year, students receive professional training by performing in various crew positions on actual production projects.

Graduates may find employment as entry-level crew and/or production assistants in feature and short films, commercials, and industrial, educational, and documentary productions. Other opportunities include entry-level employment in pre-production and post-production areas for film and video.

## Fire Protection Technology

A.A.S. DEGREE (A55240)

## Fire Protection Technology

### Associate in Applied Science Program - A55240

The Fire Protection Technology curriculum is designed to provide students with knowledge and skills in the technical, managerial, and leadership areas necessary for advancement within the fire protection community and related firefighting industries, and to provide currently employed firefighters with knowledge and skills often required for promotional consideration.

Course work includes diverse fire protection subject areas, including fire prevention and safety, public education, building construction, fire ground strategies and tactics, and local government finance and laws, as they apply to emergency services management. Emphasis includes understanding fire characteristics and the structural consequences of fire; risk assessment and management; and relevant research, communications, and leadership methodologies.

Employment opportunities exist with fire departments, governmental agencies, industrial firms, insurance rating organizations, and educational organizations.

# Healthcare Business Informatics

A.A.S. DEGREE (A25510)

## Healthcare Business Informatics

### Associate in Applied Science Program - A25510

The Healthcare Business Informatics curriculum prepares individuals for employment as specialists in installation, data management, data archiving/retrieval, system design and support, and computer training for medical information systems.

Students learn about the field through multidisciplinary coursework including the study of terminology relating to informatics, systems analysis, networking technology, computer/network security, data warehousing, archiving and retrieval of information, and healthcare computer infrastructure support.

Graduates should qualify for employment as database/data warehouse analysts, technical support professionals, informatics technology professionals, systems analysts, networking and security technicians, and computer maintenance professionals in the healthcare field.

# Hospitality Management

A.A.S. DEGREE (A25110)  
CERTIFICATE (C25110)

## Hospitality Management

### Associate in Applied Science Program - A25110

This curriculum prepares individuals to understand and apply the administrative and practical skills needed for supervisory and managerial positions in hotels, motels, resorts, inns, restaurants, institutions, and clubs.

Course work includes guest services, leadership, management, restaurant operations, lodging operations, marketing, sanitation, food preparation, food and beverage management and other critical areas.

Graduates should qualify for management or entry-level supervisory positions in food and lodging operations, including restaurants, foodservice, beverage service, catering, front office, reservations and housekeeping. Opportunities are also available in product services, and technology support and sales.

# Industrial Systems Technology

A.A.S. DEGREE (A50240)  
DIPLOMA (D50240)  
CERTIFICATE (C50240)

## Industrial Systems Technology

### Associate in Applied Science Program - A50240

The Industrial Systems Technology curriculum is designed to prepare or upgrade individuals to service, maintain, repair, or install equipment for a wide range of industries. Instruction includes theory and skill training needed for inspecting, testing, troubleshooting, and diagnosing industrial equipment and physical facilities.

Students will learn technical skills in blueprint reading, electricity, hydraulics/pneumatics, machining, welding, and various maintenance procedures. Practical application in these industrial systems will be emphasized and additional advanced course work may be offered.

Upon completion of any of the various levels of this curriculum, graduates should gain the necessary practical skills and related technical information to qualify for employment or advancement in the various areas of industrial maintenance technology.

# Information Technology

## Associate in Applied Science Program - A25590

The Information Technology (IT) curriculum prepares graduates for employment in the technology sector as designers, testers, support technicians, system administrators, developers, or programmers who use computer software and/or hardware to design, process, implement and manage information systems in specialties such as database services, security, business intelligence, healthcare informatics and others depending on the technical path selected within this curriculum.

Course work includes development of ■ student's ability to create, store, communicate, exchange and use information to solve technical issues related to information support and services, interactive media, network systems, programming and software development, information security and other emerging technologies based on the selected area of study.

Graduates should qualify for employment in entry-level positions with businesses, educational systems, and governmental agencies which rely on computer systems to design and manage information. The program will incorporate the competencies of industry-recognized certification exams.

## Semester Hour Credits

### I. GENERAL EDUCATION REQUIREMENTS 15 SHC

#### Communications .....3

Take the following:

ENG 111      Writing and Inquiry\*<sup>u</sup> .....3

#### Communications Electives .....3

Take one of the following:

COM 110      Introduction to Communication\*.....3

COM 120      Intro to Interpersonal Com\*.....3

COM 231      Public Speaking\*<sup>u</sup> .....3

ENG 114      Prof Research & Reporting\* .....3

# CAPE FEAR COMMUNITY COLLEGE

## Mathematics .....3-4

Take one of the following:

MAT 121	Algebra/Trigonometry I .....	3
MAT 171	Precalculus Algebra* <sup>u</sup> .....	4

## Humanities/Fine Arts Electives .....3

Take one of the following:

ART 111	Art Appreciation* <sup>u</sup> .....	3
HUM 110	Technology and Society* .....	3
HUM 115	Critical Thinking* .....	3
MUS 110	Music Appreciation* <sup>u</sup> .....	3
PHI 230	Introduction to Logic* .....	3
PHI 240	Introduction to Ethics* <sup>u</sup> .....	3

## Social/Behavioral Sciences Electives .....3

Take one of the following:

ECO 151	Survey of Economics* .....	3
ECO 251	Prin of Microeconomics* <sup>u</sup> .....	3
ECO 252	Prin of Macroeconomics* <sup>u</sup> .....	3
POL 120	American Government* <sup>u</sup> .....	3
PSY 118	Interpersonal Psychology .....	3
PSY 150	General Psychology* <sup>u</sup> .....	3
SOC 210	Introduction to Sociology* <sup>u</sup> .....	3
SOC 220	Social Problems* .....	3
SOC 240	Social Psychology* .....	3

## II. MAJOR REQUIREMENTS 12 SHC

### Technical Core .....12

Take the following:

CTI 110	Web, Pgm, & Db Foundation .....	3
CTI 120	Network & Sec Foundation .....	3
CTS 115	Info Sys Business Concepts* .....	3
CTS 120	Hardware/Software Support .....	3

## III. CONCENTRATION REQUIREMENTS 6 SHC

### Systems Security .....6

Take one of the following groups:

#### Group 1

Take the following:

SEC 110	Security Concepts.....	3
NET 110	Networking Concepts.....	3

#### Group 2

Take the following:

SEC 110	Security Concepts.....	3
NET 125	Introduction to Networks .....	3

## IV. OTHER MAJOR REQUIREMENTS 39 SHC

### Information Technology Electives .....33

Take eleven of the following:

CCT 250	Network Vulnerabilities I .....	3
CCT 251	Network Vulnerabilities II .....	3
CCT 260	Mobile Phone Examination .....	3
CET 125	Voice and Data Cabling .....	3
CET 130	Operating System Prin.....	3
CET 150	Computer Forensics I .....	3
CET 172	Internet Technologies .....	3
CET 245	Internet Servers .....	3

# Interior Design

A.A.S. DEGREE (A30220)

DIPLOMA - KITCHEN AND BATH DESIGN (D30220)

## Interior Design

### Associate in Applied Science Program - A30220

The Interior Design curriculum is designed to prepare students for a variety of job opportunities in the field of both residential and non-residential interior design. The focus of the studies is technical knowledge, professional practices, and aesthetic principles.

Curriculum content includes residential and non-residential interior design, architectural drafting, computer aided design, and universal design. Also included are basic design, history of interiors and furnishings, color theory, products, business practices, graphic presentations, and General Education Requirements.

Graduates should qualify for a variety of jobs including residential and commercial interior design, showroom design, and sales positions for furniture, textiles and accessories, and all business dealing with interiors.

## Semester Hour Credits

# Interpreter Education

A.A.S. Degree (A55300)

## Interpreter Education

### Associate in Applied Science Program - A55300

The Interpreter Education curriculum prepares individuals to work as entry-level Sign Language Interpreters who will provide communication access in interview and interactive settings. In addition, this curriculum provides in-service training for working interpreters who want to upgrade their skills. Course work includes the acquisition of American Sign Language (ASL); grammar, structure, and sociolinguistic properties; cognitive processes associated with interpretation between ASL and Communications; the structure and character of the deaf community; and acquisition of consecutive and simultaneous interpreting skills. Entry-level jobs for para-professional interpreters are available in educational systems or a variety of community settings. Individuals may choose from part-time, full-time, or self-employment/freelance positions or apply language skills to other human service related areas.

# Landscape Gardening

A.A.S. DEGREE (A15260)

CERTIFICATE (C15260)

CERTIFICATE - RETENTION POND MANAGEMENT (C15260R)

CERTIFICATE - SUSTAINABLE GARDENING (C15260S)

## Landscape Gardening

### Associate in Applied Science Program - A15260

Landscape Gardening curriculum is designed to prepare individuals for various careers in horticulture. Classroom instruction and practical laboratory applications of horticultural principles and practices are included in the program of study.

Course work includes plant identification, pest management, plant science and soil science. Also included are courses in sustainable plant production and management, landscaping, and the operation of horticulture businesses.

Graduates should qualify for employment in a variety of positions associated with nurseries, garden centers, greenhouses, landscape operations, governmental agencies/parks, golf courses, sports complexes, highway vegetation, turf maintenance companies, and private and public gardens. Graduates should also be prepared to take the North Carolina Pesticide Applicator's Examination and/or the North Carolina Certified Plant Professional Examination.

Landscape Gardening: A program that prepares individuals to manage and maintain indoor and/or outdoor ornamental and recreational plants and groundcovers and related conceptual designs established by landscape architects, interior designers, enterprise owners or managers, and individual clients. Potential course work includes instruction in applicable principles of horticulture, gardening, plant and soil irrigation and nutrition, turf maintenance, plant maintenance, equipment operation and maintenance, personnel supervision, and purchasing.

## Landscape Gardening RETENTION POND MANAGEMENT

### Certificate Program - C15260R

The Retention Pond Management Certificate Program provides a heavy concentration of hands-on retention pond management experience using retention ponds at the CFCC North Campus. Students will learn how to select aquatic and wetland plants for use around a retention pond including planting, fertilization and pruning. Students will also learn the basics of aquatic and wetland weed management and pest control and will receive the North Carolina Commercial Aquatic Pest Control license and the Commercial Pesticide Ground Applicators license.

# Marine Technology

A.A.S. DEGREE (A15320)

*Marine Technology students are required, for completion of their degree, to complete 5 separate training cruises. During these cruises students should not be excused from assignments and tests but are required to arrange make-ups with faculty well in advance of departure. If the faculty maintains a graded attendance policy, cruises should be treated as an excused absence and not be punitive.*

## Marine Technology

**Associate in Applied Science - A15320**

These curricula prepare individuals for a variety of marine-related occupations such as marine conservation, water analysis, marine scientific research support and commercial fishing. Individuals will be prepared as naturalists within the ecotourism industry and be trained in observational and measurement techniques aboard a variety of vessels including ocean-going research vessels. Course work includes a unique blend of traditional and contemporary vocational, technical, and scientific marine education. Course work specific for Marine Sciences includes instruction in biological sciences, environmental sciences, and marine sciences. Field and laboratory experiences prepare students to identify, observe, and collect scientific data associated with the fauna and flora found in the rivers, estuaries, sounds, and ocean. Course work in Marine Technologies includes instruction in the use of physical, chemical, meteorological, biological, and geological oceanographic instrumentation and sampling equipment. Graduates are prepared for employment opportunities with aquariums, fisheries, corps of engineers, marine patrol, ecotourism companies, commercial fishing industries, entry-level field or laboratory positions with industries, state and federal agencies, and educational facilities associated with marine science and research. Career opportunities include oceanography, environmental science, marine biology, geophysical exploration, and fisheries-related employment.

Marine Technology: A program that provides the practical and academic skills essential for success in marine scientific support. Training in the operation and maintenance of seismic and hydrographic instrumentation including: side scan sonar, multibeam echo sounders, and sub-bottom profilers is provided in the classroom and underway at sea. Additional course work includes: classic and digital navigation techniques, practical applications of boat handling, seamanship, marlinspike seamanship, and safety at sea. Instruction applicable to fisheries science and environmental assessment is provided.

# CAPE FEAR COMMUNITY COLLEGE

## Social/Behavioral Sciences Electives .....3

Take one of the following:

HIS 121	Western Civilization I*	3
HIS 122	Western Civilization II*	3
HIS 131	American History I* <sup>u</sup>	3
HIS 132	American History II* <sup>u</sup>	3
POL 120	American Government* <sup>u</sup>	3
POL 130	State & Local Government*	3
PSY 118	Interpersonal Psychology	3
PSY 150	General Psychology* <sup>u</sup>	3
SOC 210	Introduction to Sociology* <sup>u</sup>	3
SOC 213	Sociology of the Family*	3
SOC 220	Social Problems*	3

## II. MAJOR REQUIREMENTS 39 SHC

### Required Courses .....39

Take the following:

MSC 110	Training Cruise I	1
MSC 112	Training Cruise II	1
MSC 114	Training Cruise III	1
MSC 122	Boat Handling/ Seamanship	3
MSC 124	Industrial Skills	3
MSC 126	Marine Engines	2
MSC 132	Fishing Gear Technology I	3
MSC 134	Fishing Gear Technology II	2
MSC 150	Navigation	3
MSC 152	Marine Instrumentation	2
MSC 160	Oceanography	4
MSC 172	Marine Biology	3
MSC 174	Marine Invertebrate Zoology	4
MSC 180	Water Analysis	3
MSC 276	Marine Vertebrate Zoology	4

## III. OTHER MAJOR REQUIREMENTS 15 SHC

### Required Courses .....15

Take the following:

ELN 114	Marine Electronics	2
MSC 120	Marine Software & Data Ntwks	2
MSC 210	Marine Envir Samp & Analysis	2
MSC 216	Training Cruise IV	1
MSC 218	Training Cruise V	1
MSC 220	Marine GIS	3
MSC 254	Marine Data Processing	2
MSC 256	Hydrographic Surveying	2

## TOTAL CREDITS ..... 69 SHC

### FALL SEMESTER I

MSC 126
MSC 134
MSC 152

#### Note:

As a student participating on training cruises in the Marine Technology program at Cape Fear Community College, all students must have a licensed physician complete a physical in addition to passing a drug screen (documentation is available in the MT department office). This exam and test will be conducted at the student's expense.

The physical will be valid for the two years that the student is enrolled in the program. After this time period the student will be required to complete another physical if the training cruises are not completed.

If a student demonstrates behavior causing concern as to alcohol or drug use they will be required to submit to an immediate drug screening at his/her expense. Failure to comply or evidence of drug or alcohol in a screening test will result in revocation of training cruise participation for 1 year. After this time, the student must submit a clean drug test for consideration.

# Mechanical Engineering Technology

A.A.S. DEGREE (A40320)  
DIPLOMA - CAD DRAFTING (D40320)  
CERTIFICATE - CAD DRAFTING (C40320C)

## Mechanical Engineering Technology

### Associate in Applied Science Program - A40320

The Mechanical Engineering Technology curriculum prepares graduates for employment as technicians in the diversified mechanical and manufacturing engineering fields. Mechanical Engineering technicians assist in design, development, testing, process design and improvement, and troubleshooting and repair of engineered systems. Emphasis is placed on the integration of theory and hands-on application of engineering principles.

In addition to course work in engineering graphics, engineering fundamentals, materials and manufacturing processes, mathematics, and physics, students will study computer applications, critical thinking, planning and problem solving, and oral and written communications.

Graduates of the curriculum will find employment opportunities in the manufacturing or service sectors of engineering technology. Engineering technicians may obtain professional certification by application to organizations such as ASQ, SME, and NICET.

### Semester Hour Credits

#### I. GENERAL EDUCATION REQUIREMENTS 15 SHC

##### General Education Courses .....9

Take the following:

COM 110	Introduction to Communication*	3
ENG 111	Writing and Inquiry* <sup>u</sup>	3
MAT 121	Algebra/Trigonometry I	3

##### Humanities/Fine Arts Electives .....3

Take one of the following:

ART 111	Art Appreciation* <sup>u</sup>	3
ART 114	Art History Survey I* <sup>u</sup>	3
ART 115	Art History Survey II* <sup>u</sup>	3
ART 117	Non-Western Art History*	3
ART 131	Drawing I*	3
DRA 111	Theatre Appreciation*	3
DRA 112	Literature of the Theatre*	3
DRA 122	Oral Interpretation*	3
DRA 211	Theatre History I*	3
DRA 212	Theatre History II*	3

MUS 110	Music Appreciation* <sup>u</sup>	3
MUS 111	Fundamentals of Music*	3
MUS 112	Introduction to Jazz* <sup>u</sup>	3
MUS 113	American Music*	3

# Mechatronics Engineering Technology

A.A.S. DEGREE (A40350)

## Mechatronics Engineering Technology

Associate in Applied Science - A40350

A course of study that prepares the students to use basic engineering principles and technical skills in developing and testing automated, servomechanical, and other electromechanical systems. Includes instruction in prototype testing, manufacturing and operational testing, systems analysis and maintenance procedures.

Graduates should be qualified for employment in industrial maintenance and manufacturing including assembly, testing, startup, troubleshooting, repair, process improvement, and control systems, and should qualify to sit for Packaging Machinery Manufacturers Institute (PMMI) mechatronics or similar industry examinations.

# Medical Office Administration

A.A.S. DEGREE (A25310)  
DIPLOMA - HEALTHCARE ADMINISTRATION (D25310A)  
DIPLOMA - MEDICAL CODING AND BILLING (D25310B)

## Medical Office Administration

### Associate in Applied Science Program - A25310

The Medical Office Administration curriculum prepares individuals for employment as medical administrative personnel in the areas of medical office, medical billing and coding, dental office, patient services, and medical documents.

Course work includes medical terminology, computer applications, medical office management, medical coding, medical insurance and billing, medical legal and ethical issues, oral and written communication, and other topics depending on the subject area selected within this curriculum.

Graduates should qualify for employment opportunities in a variety of medical office positions in medical and dental offices, hospitals, insurance companies, laboratories, medical supply companies, and other healthcare related organizations. Upon graduation, students may be eligible to sit for industry recognized certification exams.

### Semester Hour Credits

### I. GENERAL EDUCATION REQUIREMENTS 15 SHC

#### Communications .....3

*Take the following:*

ENG 111      Writing and Inquiry\*<sup>u</sup> .....3

#### Communications Elective .....3

*Take one of the following:*

# Medical Sonography

A.A.S. DEGREE (A45440)

*This program has selective admission requirements.*

*Contact the Counseling Office for information and application deadlines.*

*Students must achieve a "C" or higher in each course in the curriculum in order to progress semester by semester and to graduate.*

The program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of The Joint Review Committee on Education in Diagnostic Medical Sonography.

The CAAHEP address is 25400 US Highway 19 N., Suite 158 Clearwater, Florida 33763 Phone: 727-210-2350

## Medical Sonography

### Associate in Applied Science Program - A45440

The Medical Sonography curriculum provides knowledge and clinical skills in the application of high frequency sound waves to image internal body structures.

Course work includes physics, cross-sectional anatomy, abdominal, introductory vascular, and obstetrical/gynecological sonography. Competencies are attained in identification of normal anatomy and pathological processes, use of equipment, fetal growth and development, integration of related imaging, and patient interaction skills.

Graduates of accredited programs are eligible to take National Registry Examinations in ultrasound physics and instrumentation and specialty examinations administered by the American Registry of Diagnostic Medical Sonographers. Graduates may find employment in clinics, physicians' offices, mobile services, equipment manufacturers, hospitals, and educational institutions.

Students are required to pass the computer competency test administered in the Learning Lab, or pass CIS 110 or CIS 111.

# Nuclear Technology

A.A.S. DEGREE (A50460)

## Nuclear Technology

### Associate in Applied Science Program - A50460

The Nuclear Technology curriculum prepares individuals to become qualified reactor field technicians who are employed by licensed nuclear reactor facilities.

Course work includes theory and application related to industrial and engineering technology disciplines including nuclear reactor theory, reactor systems, industrial and nuclear safety, instrumentation, electrical generation, automation and robotics, and may include quality control, welding, and various metallurgical inspection procedures.

Upon completion, graduates should qualify as entry-level nuclear reactor technicians and have academic preparations to advance into other industrial or engineering technician positions within the commercial nuclear power industry.

**DIPLOMA (D45660)**

*This program has selective admission requirements.*

*Contact the Counseling Office for information and application deadlines.*

*Students must achieve a "C" or higher in each course in the curriculum in order to progress semester by semester and to graduate.*

## **Practical Nursing (LPN)**

### **Diploma Program - D45660**

The practical nursing curriculum provides knowledge and skills to integrate safety and quality into nursing care to meet the needs of the holistic individual which impact health, quality of life and achievement of potential.

Course work includes and builds upon the domains of healthcare, nursing practice, and the holistic individual. Content emphasizes safe, individualized nursing care and participation in the interdisciplinary team while employing evidence-based practice, quality improvement, and informatics.

Graduates are eligible to apply to take the National Council Licensure Examination (NCLEX-PN) which is required for practice as a Licensed Practical Nurse. Employment opportunities include hospitals, rehabilitation/long term care/home health facilities, clinics, and physicians' offices.

# Occupational Therapy Assistant

A.A.S. DEGREE (A45500)

*This program has selective admission requirements.*

*Contact the Counseling Office for information and application deadlines.*

*Students must achieve a "C" or higher in each course in the curriculum in order to progress semester by semester and to graduate.*

*OTA core courses cannot be taken out of sequence.*

## Occupational Therapy Assistant

### Associate in Applied Science Program - A45500

The Occupational Therapy Assistant curriculum prepares individuals to work under the supervision of a registered/licensed occupational therapist in screening, assessing, planning, and implementing treatment and documenting progress for clients receiving occupational therapy services.

Course work includes human growth and development, conditions which interfere with activities of daily living, theory and process of occupational therapy, individual/group treatment activities, therapeutic use of self, activity analysis, and grading/adapting activities and environments.

Graduates may be eligible to take the national certification examination for practice as a certified occupational therapy assistant. Employment opportunities include hospitals, rehabilitation facilities, long-term/extended care facilities, sheltered workshops, schools, home health programs, and community programs. Successful completion of the program is required for certification and licensure.

The National Board of Certification in Occupational Therapy administers the national certification examination. The NBCOT is the certifying body for occupational therapy practitioners.

The Occupational Therapy Assistant program at CFCC is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 4720 Montgomery Lane, Suite 200, Bethesda, MD 20814-3449. AOTA's phone number is (301) 652-AOTA. Website: [www.acoteonline.org](http://www.acoteonline.org)

# Paralegal Technology

## (Legal Assistant)

A.A.S. DEGREE (A25380)\*

DIPLOMA (D25380)

CERTIFICATE - CIVIL LITIGATION (C25380C)

CERTIFICATE - CIVIL REAL PROPERTY (C25380R)

# Paralegal Technology

## Associate in Applied Science Program - A25380

The Paralegal Technology curriculum prepares individuals to work under the supervision of attorneys by performing routine legal tasks, and assisting with substantive legal work. A paralegal/legal assistant may not practice law, give legal advice, or represent clients in a court of law.

Course work includes substantive and procedural legal knowledge in the areas of civil litigation, legal research and writing, real estate, family law, wills, estates, trusts, and commercial law. Required courses also include subjects such as Communications, mathematics, and computer utilization.

Graduates are trained to assist attorneys in probate work, investigations, public records search, drafting and filing legal documents, research, and office management. Employment opportunities are available in private law firms, governmental agencies, banks, insurance agencies, and other business organizations.

**\*Graduates of the A.A.S. program will be eligible to take the North Carolina Paralegal Certification Examination and the National Association of Legal Assistants (NALA) exam. The Certificate program does qualify the student to take both the NC State Bar Paralegal Certification exam and the NALA exam, if they also have a 4 year degree in any major and in addition to the courses in the certificate program also take LEX 280 (Ethics and Professionalism) course. The Diploma program does not qualify a student to take the NALA or the NC State Bar Paralegal Certification Exam. Please contact the Paralegal Department for further information.**

*This program has selective admission requirements.*

*Contact the Counseling Office for information and application deadlines.*

*Students must achieve a "C" or higher in each course in the curriculum in order to progress semester by semester and to graduate.*

## Pharmacy Technology

### Associate in Applied Science Program - A45580

The Pharmacy Technology Program prepares individuals to assist the pharmacist in duties that a technician can legally perform and to function within the boundaries prescribed by the pharmacist and the employment agency.

Students will prepare prescription medications, mix intravenous solutions and other specialized medications, update patient profiles, maintain inventories, package medications in unit-dose or med-card form, and gather data used by pharmacists to monitor drug therapy.

Employment opportunities include retail, hospitals, nursing homes, research laboratories, wholesale drug companies, and pharmaceutical manufacturing facilities. Graduates from the program may be eligible to take the National Certification Examination to become a certified pharmacy technician.

Semester Hour Credits

### I. GENERAL EDUCATION REQUIREMENTS 20 SHC

#### General Education Courses ..... 8

Take the following:

BIO 163	Basic Anat & Physiology*	5
ENG 111	Writing and Inquiry* <sup>u</sup>	3

#### Communications Electives ..... 3

Take one of the following:

COM 110	Introduction to Communication*	3
COM 120	Intro to Interpersonal Com*	3

#### Mathematics Electives ..... 3

Take one of the following:

MAT 110	Math Measurement and Literacy	3
MAT 143	Quantitative Literacy* <sup>u</sup>	3

**Humanities/Fine Arts Electives.....3**

*Take one of the following:*

HUM 115	Critical Thinking*	3
PHI 240	Introduction to Ethics* <sup>u</sup>	3

**Social/Behavioral Sciences Electives .....3**

*Take one of the following:*

PSY 118	Interpersonal Psychology	3
PSY 150	General Psychology* <sup>u</sup>	3

**II. MAJOR REQUIREMENTS 49 SHC**

**Required Courses .....49**

*Take the following:*

PHM 110	Intro to Pharmacy	3
PHM 111	Pharmacy Practice I	4
PHM 115 / 115A	Pharmacy Calculations / Lab	3/1
PHM 118	Sterile Products	4

# Phlebotomy

Certificate Program - C45600

The Phlebotomy curriculum prepares the graduate to be a phlebotomist, a skilled health care professional who obtains blood and other specimens for the purpose of laboratory analysis.

Course work includes clinical rotations to area health care facilities, patient care, safety, quality assurance/control and regulatory applications, processes related to the collection of non-blood specimens, knowledge and processes associated with rapid test methods, processes related to the handling, transport and processing of laboratory specimens, knowledge of circulatory system and blood composition, processes related to the collection of blood specimens.

Graduates may be qualified to take the national American Society of Clinical Pathologist (ASCP) certification in phlebotomy. Employment opportunities include hospitals, physician's offices, home health care, research facilities, inpatient/outpatient surgery centers, and other health care settings.

### Semester Hour Credits

# Plumbing

DIPLOMA (D35300)  
CERTIFICATE (C35300)

## Plumbing

### Diploma Program - D35300

These curriculums are designed to prepare individuals to apply technical knowledge and skills to the fields of architecture, construction, construction management, and other associated professions.

Course work includes instruction in sustainable building and design, print reading, building codes, estimating, construction materials and methods, and other topics related to design and construction occupations.

Graduates of this pathway should qualify for entry-level jobs in architectural, engineering, construction and trades professions as well as positions in industry and government.

A program that prepares individuals to work in the field of plumbing by applying technical knowledge and skills to lay out, assemble, install, and maintain piping fixtures and systems for natural gas, lp gas, hot water, drainage, sprinkling, and plumbing processing systems in residential and commercial environments. Includes instruction in source determination, water service and distribution, waste removal, pressure adjustment, basic physics, technical mathematics, print reading, pipe installation, pumps, soldering, plumbing inspection, and applicable codes and standards.

# Radiography

A.A.S. DEGREE (A45700)

*This program has selective admission requirements.*

*Contact the Counseling Office for information and application deadlines.*

*Students must achieve a "C" or higher in each course in the curriculum in order to progress semester by semester and to graduate.*

## Radiography

### Associate in Applied Science Program - A45700

The Radiography curriculum prepares the graduate to be a radiographer, a skilled health care professional who uses radiation to produce images of the human body.

Course work includes clinical rotations to area health care facilities, radiographic exposure, image processing, radiographic procedures, physics, pathology, patient care and management, radiation protection, quality assurance, anatomy and physiology, and radiobiology.

Graduates of this program are eligible to apply to take the American Registry of Radiologic Technologists' national examination for certification and registration as medical radiographers. Graduates may be employed in hospitals, clinics, physicians' offices, public health, mobile x-ray companies, and industry. With more specialized education, a qualified Radiographer may advance into the areas of Radiation Therapy, Nuclear Medicine, Ultrasonography, Computerized Tomography (CT), Magnetic Resonance Imaging (MRI), education, or hospital administration.

Students are required to pass the computer competency test administered in the Learning Lab, or pass CIS 110 or CIS 111 or take CLEP test for CIS 110.

# Real Estate Licensing

CERTIFICATE (C25480)

## Real Estate Licensing

### Certificate Program - C25480

The Real Estate Licensing curriculum provides licensing education required by the North Carolina Real Estate Commission for students preparing to take the real estate license examination and for provisional brokers that are seeking removal of the provisional status.

Course work includes the practices and principles of real estate, broker relationships as they apply to customers, sellers and buyers, contract procedures, fair housing and real estate methodology. Course work also includes professional development opportunities.

Graduates who have passed the real estate license examination and obtained a real estate provisional broker license should then qualify for removal of the provisional status and be able to provide basic, residential real estate services as a broker affiliated with a real estate brokerage firm.

*A license issued to a resident provisional broker shall be issued on inactive status. In order for a provisional broker license to be eligible for active status, the provisional broker must affiliate the license with a qualified broker-in-charge. Additionally, in order for the license to remain eligible for active status, the provisional broker must complete at least one 30-hour post licensing course on or before his or her anniversary date of licensure. The provisional broker must further complete a second and third post licensing course on or before the second and third respective anniversary dates of licensure in order to retain the eligibility for "active" license status. Please note that post licensing education requirements are in addition to continuing education requirements and the two are not synonymous.*

## Surgical Technology

A.A.S. DEGREE (A45740)

*This program has selective admission requirements.*

*Contact the Counseling Office for information and application deadlines.*

*Students must achieve a "C" or higher in each course in the curriculum in order to progress semester by semester and to graduate.*

## Surgical Technology

**Associate in Applied Science Program - A45740**

The Surgical Technology curriculum prepares individuals to assist in the care of the surgical patient in the operating room and to function as a member of the surgical team.

Students will apply theoretical knowledge to the care of patients undergoing surgery and develop skills necessary to prepare supplies, equipment, and instruments; maintain aseptic conditions; prepare patients for surgery; and assist surgeons during operations.

Employment opportunities include labor/delivery/emergency departments, inpatient/outpatient surgery centers, dialysis units/facilities, physicians' offices, and central supply processing units.

*Students of Commission on Accreditation of Allied Health Education Programs (CAAHEP) accredited programs are required to take the national certification exam administered by the National Board on Certification in Surgical Technology and Surgical Assisting (NBSTSA) within a four week period prior to or after graduation.*

# Sustainability Technologies

A.A.S. DEGREE (A40370)

CERTIFICATE - SUSTAINABILITY TECHNOLOGY (C40370)

CERTIFICATE - RENEWABLE ENERGY TECHNOLOGY (C40370R)

CERTIFICATE - SUSTAINABLE BUILDING TECHNOLOGY (C40370S)

## Sustainability Technologies

### Associate in Applied Science Program - A40370

The Sustainability Technologies curriculum is designed to prepare individuals for employment in environmental, construction, alternative energy, manufacturing, or related industries, where key emphasis is placed on energy production and waste reduction along with sustainable technologies.

Course work may include alternative energy, environmental engineering technology, sustainable manufacturing, and green building technology. Additional topics may include sustainability, energy management, waste reduction, renewable energy, site assessment, and environmental responsibility.

Graduates should qualify for positions within the alternative energy, construction, environmental, and/or manufacturing industries. Employment opportunities exist in both the government and private industry sectors where graduates may function as manufacturing technicians, sustainability consultants, environmental technicians, or green building supervisors.

# Truck Driver Training

CERTIFICATE (C60300)

## Truck Driver Training

### Certificate Program - C60300

The Truck Driver Training curriculum prepares individuals to drive tractor trailer rigs. This program teaches proper driving procedures, safe driver responsibility, commercial motor vehicle laws and regulations, and the basic principles and practices for operating commercial vehicles.

The course work includes motor vehicle laws and regulations, map reading, vehicle maintenance, safety procedures, daily logs, defensive driving, freight handling, security, and fire protection. Highway driving, training range exercises, and classroom lectures are used to develop the student's knowledge and skills.

Graduates of the curriculum are qualified to take the Commercial Driver's License and employable by commercial trucking firms. They may also become owner-operators and work as private contract haulers.

# Veterinary Medical Technology

A.A.S. DEGREE (A45780)

*This program has selective admission requirements.*

*Contact the Counseling Office for information and application deadlines.*

*Students must achieve a "C" or higher in each course in the curriculum in order to progress semester by semester and to graduate.*

## Veterinary Medical Technology

### Associate in Applied Science Program - A45780

The Veterinary Medical Technology is designed to prepare individuals to assist veterinarians in preparing animals, equipment, and medications for examination and surgery; collecting specimens; performing laboratory, radiographic, anesthetic, dental procedures; assisting in surgery; and providing proper husbandry of animals and their environment.

Course work includes instruction in veterinary anatomy, nutrition, parasitology, pathology, physiology, radiology, terminology, zoology, office practices, laboratory techniques, dentistry, and small and large animal clinical practices.

Graduates of accredited programs may be eligible to take state and national examinations administered by the North Carolina Veterinary Medical Board. Graduates may be employed in veterinary clinics; diagnostic, research, or pharmaceutical laboratories; zoos; academic institutions; or other areas associated with animal care.

#### Semester Hour Credits

# Welding Technology

DIPLOMA (D50420)  
 CERTIFICATE - GTAW/GMAW (C50420F)  
 CERTIFICATE - SMAW/GTAW (C50420)

## Welding Technology

### Diploma Program - D50420

The Welding Technology curriculum provides students with a sound understanding of the science, technology, and applications essential for successful employment in the welding and metal industry.

Instruction includes consumable and non-consumable electrode welding and cutting processes. Courses in math, blueprint reading, metallurgy, welding inspection, and destructive and non-destructive testing provides the student with industry-standard skills developed through classroom training and practical application.

Successful graduates of the Welding Technology curriculum may be employed as entry level technicians in welding and metalworking industries. Career opportunities also exist in construction, manufacturing, fabrication, sales, quality control, supervision, and welding-related self-employment.

# COURSE DESCRIPTIONS

## Please Note:

1. CFCC administers one placement test: NCDAP. Satisfactory scores on placement tests taken at other colleges (SAT, ACT, COMPASS) may be used to waive Reading, Writing and Mathematical prerequisites. See the Placement Test Advising Guide, for additional information or talk with a counselor.

2. Receipt of transfer credit for ENG 111 or above will waive the Reading and/or Writing prerequisites for certain courses.

3. Receipt of a curriculum math credit will waive the prerequisites for certain courses.

Some courses in communications, humanities/fine arts, mathematics, natural science, or social/behavioral science may fulfill a general education requirement in one of the following programs: AA (Associate in Arts), AS (Associate in Science), AFA (Associate in Fine Arts), AGE (Associate in General Education), AAS (Associate in Applied Science), DIP (Diploma), or CER (Certificate). Please refer to the programs of study section of this catalog for courses that satisfy each program's general education requirements.

**Developmental Math:** Effective 2014 Fall, as mandated by the System Office, developmental math has been broken up into eight modules agreed upon and approved by the state. Students who have taken previous developmental math courses should refer to this table to equate current developmental math courses.

MAT 060 = DMA 010, DMA 020, DMA 030

MAT 070 = DMA 040, DMA 050

MAT 080 = DMA 060, DMA 070, DMA 080

**Developmental English and Reading:** Students who have taken previous developmental English and Reading courses should refer to this table to equate current developmental English and Reading courses.

ENG 075 = DRE 096

ENG 085 = DRE 097

ENG 095 = DRE 098

**Prerequisites:** A course taken prior to another course.

**Corequisites:** A course taken at the same time as another course or prior to the course to be taken.

## ACA 111 – AUT 281

**ACA 111 College Student Success** 1 0 0 1  
Prerequisites: None  
Corequisites: None

This course introduces the college's physical, academic, and social environment and promotes the personal development essential for success. Topics include campus facilities and resources; policies, procedures, and programs; study skills; and life management issues such as health, self-esteem, motivation, goal setting, diversity, and communication. Upon completion, students should be able to function effectively within the college environment to meet their educational objectives. (S13509)

**ACA 122\* College Transfer Success** 0 2 0 1  
Prerequisites: None  
Corequisites: None

This course provides information and strategies necessary to develop clear academic and professional goals beyond the community college experience. Topics include the CAA, college policies and culture, career exploration, gathering information on senior institutions, strategic planning, critical thinking, and communications skills for a successful academic transition. Upon completion, students should be able to develop an academic plan to transition successfully to senior institutions. (S24018)

**ACC 120\* Prin of Financial Acct** 3 2 0 4  
Prerequisites: Take DMA 010, DMA 020, and DMA 030  
Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course introduces business decision-making using accounting information systems. Emphasis is placed on analyzing, summarizing, reporting, and interpreting financial information. Upon completion, students should be able to prepare financial statements, understand the role of financial information in decision-making and address ethical considerations. (S20278)

**ACC 121\* Principles of Managerial Accounting** 3 2 0 4  
Prerequisites: Take ACC 120 (Minimum grade of C)  
Corequisites: None

This course includes a greater emphasis on managerial and cost accounting skills. Emphasis is placed on managerial accounting concepts for external and internal analysis, reporting and decision-making. Upon completion, students should be able to analyze and interpret transactions relating to managerial concepts including product-costing systems. (S20282)

## CAPE FEAR COMMUNITY COLLEGE

		Class	Lab	Clinical	Credits
<b>ACC 122</b>	<b>Principles of Financial Accounting II</b>	3	0	0	3

Prerequisites: Take ACC 120 (Minimum grade of C)  
Corequisites: None

This course provides additional instruction in the financial accounting concepts and procedures introduced in ACC 120. Emphasis is placed on the analysis of specific balance sheet accounts, with in-depth instruction of the accounting principles applied to these accounts. Upon completion, students should be able to analyze data, prepare journal entries, and prepare reports in compliance with generally accepted accounting principles. (S20286)

<b>ACC 129</b>	<b>Individual Income Taxes</b>	2	2	0	3
----------------	--------------------------------	---	---	---	---

Prerequisites: Take ACC 120  
Corequisites: None

This course introduces the relevant laws governing individual income taxation. Topics include tax law, electronic research and methodologies, and the use of technology for preparation of individual income tax returns. Upon completion, students should be able to analyze basic tax scenarios, research applicable tax law, and complete various individual tax forms. (S20283)

<b>ACC 130</b>	<b>Business Income Taxes</b>	2	2	0	3
----------------	------------------------------	---	---	---	---

Prerequisites: Take ACC 129  
Corequisites: None

This course introduces the relevant laws governing business and fiduciary income taxes. Topics include tax law relating to business organizations, electronic research and methodologies, and the use of technology for the preparation of business tax returns. Upon completion, students should be able to analyze basic tax scenarios, research applicable tax law, and complete various business tax forms. (S20277)

<b>ACC 140</b>	<b>Payroll Accounting</b>	1	2	0	2
----------------	---------------------------	---	---	---	---

Prerequisites: Take one: ACC 115 or ACC 120  
Corequisites: None

This course covers federal and state laws pertaining to wages, payroll taxes, payroll tax forms, and journal and general ledger transactions. Emphasis is placed on computing wages; calculating social security, income, and unemployment taxes; preparing appropriate payroll tax forms; and journalizing/posting transactions. Upon completion, students should be able to analyze data, make appropriate computations, complete forms, and prepare accounting entries using appropriate technology. (S20281)

<b>ACC 150</b>	<b>Accounting Software Application</b>	1	2	0	2
----------------	--	---	---	---	---

Prerequisites: Take one: ACC 115 or ACC 120  
Take one: CIS 110 or CIS 111  
Corequisites: None

This course introduces microcomputer applications related to accounting systems. Topics include general ledger, accounts receivable, accounts payable, inventory, payroll, and correcting, adjusting, and closing entries. Upon completion, students should be able to use a computer accounting package to solve accounting problems. (S20275)

		Class	Lab	Clinical	Credits
<b>ACC 175</b>	<b>Hotel &amp; Restaurant Accounting</b>	3	2	0	4

Prerequisites: None  
Corequisites: None

This course covers generally accepted accounting principles and the uniform system of accounts for small hotels and motels of the American Hotel and Motel Association. Emphasis is placed on the accounting cycle, analysis of financial statements, and payroll procedures including treatment of tips. Upon completion, students should be able to demonstrate competence in the accounting principles and procedures used in hotels and restaurants. **\*\*This is a Fall Only Class\*\*** (S11585)

<b>ACC 220</b>	<b>Intermediate Accounting I</b>	3	2	0	4
----------------	----------------------------------	---	---	---	---

Prerequisites: Take ACC 120 and ACC 122  
Corequisites: None

This course is a continuation of the study of accounting principles with in-depth coverage of theoretical concepts and financial statements. Topics include generally accepted accounting principles and extensive analysis of balance sheet components. Upon completion, students should be able to demonstrate competence in the conceptual framework underlying financial accounting, including the application of financial standards. (S20836)

<b>ACC 221</b>	<b>Intermediate Accounting II</b>	3	2	0	4
----------------	-----------------------------------	---	---	---	---

Prerequisites: Take ACC 220  
Corequisites: None

This course is a continuation of ACC 220. Emphasis is placed on special problems which may include leases, bonds, investments, ratio analyses, present value applications, accounting changes, and corrections. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered. (S10687)

<b>ACC 225</b>	<b>Cost Accounting</b>	3	0	0	3
----------------	------------------------	---	---	---	---

Prerequisites: Take ACC 121  
Corequisites: None

This course introduces the nature and purposes of cost accounting as an information system for planning and control. Topics include direct materials, direct labor, factory overhead, process, job order, and standard cost systems. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered. (S10695)

Courses designate with an asterisk (\*) are college transfer courses. Courses designate with an asterisk and u (\*)u are UGETC courses. Check with your senior institution to ensure the course will be appropriate for your program at that institution

## COURSE DESCRIPTIONS

		Class	Lab	Clinical	Credits
<b>AGR 139</b>	<b>Introduction to Sustainable Agriculture</b>	3	0	0	3

Prerequisites: None  
Corequisites: None

This course will provide students with a clear perspective on the principles, history and practices of sustainable agriculture in our local and global communities. Students will be introduced to the economic, environmental and social impacts of agriculture. Upon completion, students will be able to identify the principles of sustainable agriculture as they relate to basic production practices. **\*\*This is a Spring Only Class\*\*** (S23337)

<b>AHR 110</b>	<b>Introduction to Refrigeration</b>	2	6	0	5
----------------	--------------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces the basic refrigeration process used in mechanical refrigeration and air conditioning systems. Topics include terminology, safety, and identification and function of components; refrigeration cycle; and tools and instrumentation used in mechanical refrigeration systems. Upon completion, students should be able to identify refrigeration systems and components, explain the refrigeration process, and use the tools and instrumentation of the trade. **\*\*This is a Fall Only Class\*\*** (S23419)

<b>AHR 111</b>	<b>HVACR Electricity</b>	2	2	0	3
----------------	--------------------------	---	---	---	---

Prerequisites: None  
Corequisites: Take AHR 110

This course introduces electricity as it applies to HVACR equipment. Emphasis is placed on power sources, interaction of electrical components, wiring of simple circuits, and the use of electrical test equipment. Upon completion, students should be able to demonstrate good wiring practices and the ability to read simple wiring diagrams. **\*\*This is a Fall Only Class\*\*** (S23420)

<b>AHR 112</b>	<b>Heating Technology</b>	2	4	0	4
----------------	---------------------------	---	---	---	---

Prerequisites: None  
Corequisites: Take AHR 110

This course covers the fundamentals of heating including oil, gas, and electric heating systems. Topics include safety, tools and instrumentation, system operating characteristics, installation techniques, efficiency testing, electrical power, and control systems. Upon completion, students should be able to explain the basic oil, gas, and electrical heating systems and describe the major components of a heating system. **\*\*This is a Fall Only Class\*\*** (S23421)

		Class	Lab	Clinical	Credits
<b>AHR 113</b>	<b>Comfort Cooling</b>	2	4	0	4

Prerequisites: Take AHR 110  
Corequisites: None

This course covers the installation procedures, system operations, and maintenance of residential and light commercial comfort cooling systems. Topics include terminology, component operation, and testing and repair of equipment used to control and produce assured comfort levels. Upon completion, students should be able to use psychrometrics, manufacturer specifications, and test instruments to determine proper system operation. **\*\*This is a Spring Only Class\*\*** (S23422)

<b>AHR 114</b>	<b>Heat Pump Technology</b>	2	4	0	4
----------------	-----------------------------	---	---	---	---

Prerequisites: Take one: AHR 110 or AHR 113  
Corequisites: None

This course covers the principles of air source and water source heat pumps. Emphasis is placed on safety, modes of operation, defrost systems, refrigerant charging, and system performance. Upon completion, students should be able to understand and analyze system performance and perform routine service procedures. **\*\*This is a Spring Only Class\*\*** (S23423)

<b>AHR 115</b>	<b>Refrigeration Systems</b>	1	3	0	2
----------------	------------------------------	---	---	---	---

Prerequisites: Take AHR 110  
Corequisites: None

This course introduces refrigeration systems and applications. Topics include defrost methods, safety and operational control, refrigerant piping, refrigerant recovery and charging, and leak testing. Upon completion, students should be able to assist in installing and testing refrigeration systems and perform simple repairs. **\*\*This is a Summer Only Class\*\*** (S14137)

<b>AHR 120</b>	<b>HVACR Maintenance</b>	1	3	0	2
----------------	--------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces the basic principles of industrial air conditioning and heating systems. Emphasis is placed on preventive maintenance procedures for heating and cooling equipment and related components. Upon completion, students should be able to perform routine preventive maintenance tasks, maintain records, and assist in routine equipment repairs. **\*\*This is a Summer Only Class\*\*** (S13153)

<b>AHR 130</b>	<b>HVAC Controls</b>	2	2	0	3
----------------	----------------------	---	---	---	---

Prerequisites: Take one: AHR 111 or ELC 111 or ELC 112  
Corequisites: None

This course covers the types of controls found in residential and commercial comfort systems. Topics include electrical and electronic controls, control schematics and diagrams, test instruments, and analysis and troubleshooting of electrical systems. Upon completion, students should be able to diagnose and repair common residential and commercial comfort system controls. **\*\*This is a Summer Only Class\*\***(S23273)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>AHR 133 HVAC Servicing</b>	2	6	0	4

Prerequisites: None

Corequisites: Take one: AHR 112 or AHR 113

The course covers the maintenance and servicing of HVAC equipment. Topics include testing, adjusting, maintaining, and troubleshooting HVAC equipment and record keeping. Upon completion, students should be able to adjust, maintain, and service HVAC equipment. **\*\*This is a Spring Only Class\*\*** (S13769)

<b>AHR 140 All-Weather Systems</b>	1	3	0	2
------------------------------------	---	---	---	---

Prerequisites: Take one: AHR 112 or AHR 113

Corequisites: None

This course covers the principles of combination heating and cooling systems including gas-electric, all-electric, and oil-electric systems. Topics include PTAC's and package and split-system units. Upon completion, students should be able to understand systems performance and perform routine maintenance procedures. **\*\*This is a Summer Only Class\*\*** (S11450)

<b>AHR 210 Residential Building Code</b>	1	2	0	2
--	---	---	---	---

Prerequisites: None

Corequisites: Take AHR 110

This course covers the residential building codes that are applicable to the design and installation of HVAC systems. Topics include current residential codes as applied to HVAC design, service, and installation. Upon completion, students should be able to demonstrate the correct usage of residential building codes that apply to specific areas of the HVAC trade. **\*\*This is a Fall Only Class\*\*** (S10349)

<b>AHR 211 Residential System Design</b>	2	2	0	3
--	---	---	---	---

Prerequisites: None

Corequisites: None

This course introduces the principles and concepts of conventional residential heating and cooling system design. Topics include heating and cooling load estimating, basic psychrometrics, equipment selection, duct system selection, and system design. Upon completion, students should be able to design a basic residential heating and cooling system. **\*\*This is a Spring Only Class\*\*** (S23445)

<b>ALT 120 Renewable Energy Technology</b>	2	2	0	3
--	---	---	---	---

Prerequisites: None

Corequisites: None

This course provides an introduction to multiple technologies that allow for the production and conservation of energy from renewable sources. Topics include hydroelectric, wind power, passive and active solar energy, tidal energy, appropriate building techniques, and energy conservation methods. Upon completion, students should be able to demonstrate an understanding of renewable energy production and its impact on humans and their environment. (S22049)

	Class	Lab	Clinical	Credits
<b>ALT 250 Thermal Systems</b>	2	2	0	3

Prerequisites: None

Corequisites: None

This course introduces concepts, tools, techniques, and materials used to convert thermal energy into a viable, renewable energy resource. Topics include forced convection, heat flow and exchange, radiation, the various elements of thermal system design, regulations, and system installation and maintenance. Upon completion, students should be able to demonstrate an understanding of geothermal and solar thermal systems and corresponding regulations. **\*\*This is a Spring Only Class\*\*** (S22481)

<b>ANT 210* General Anthropology</b>	3	0	0	3
--------------------------------------	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course introduces the physical, archaeological, linguistic, and ethnological fields of anthropology. Topics include human origins, genetic variations, archaeology, linguistics, primatology, and contemporary cultures. Upon completion, students should be able to demonstrate an understanding of the four major fields of anthropology. (S13262)

<b>ANT 220* Cultural Anthropology</b>	3	0	0	3
---------------------------------------	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course introduces the nature of human culture. Emphasis is placed on cultural theory, methods of fieldwork, and cross-cultural comparisons in the areas of ethnology, language, and the cultural past. Upon completion, students should be able to demonstrate an understanding of basic cultural processes and how cultural data are collected and analyzed. (S10526)

<b>ANT 240* Archaeology</b>	3	0	0	3
-----------------------------	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course introduces the scientific study of the unwritten record of the human past. Emphasis is placed on the process of human cultural evolution as revealed through archaeological methods of excavation and interpretation. Upon completion, students should be able to demonstrate an understanding of how archaeologists reconstruct the past and describe the variety of past human cultures. (S10965)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>ARC 111 Introduction to Architectural Technology</b>	1	6	0	3

Prerequisites: Take DMA 010, DMA 020, and DMA 030  
 Take one: DRE 097 or ENG 085 or  
 ENG 095 or ENG 111 or  
 RED 080 or RED 090

Corequisites: None

This course introduces basic architectural drafting techniques, lettering, use of architectural and engineer scales, and sketching. Topics include orthographic, axonometric, and oblique drawing techniques using architectural plans, elevations, sections, and details; reprographic techniques; and other related topics. Upon completion, students should be able to prepare and print scaled drawings within minimum architectural standards. **\*\*This is a Fall Only Class\*\*** (S11683)

<b>ARC 112 Construction Materials &amp; Methods</b>	3	2	0	4
---	---	---	---	---

Prerequisites: Take DMA 010, DMA 020, and DMA 030  
 Take one: DRE 097 or ENG 085 or  
 ENG 095 or ENG 111 or  
 RED 080 or RED 090

Corequisites: None

This course introduces construction materials & methodologies. Topics include construction terminology, traditional & alternative materials & their properties, manufacturing processes, construction techniques, & other related topics. Upon completion, students should be able to detail construction assemblies & identify construction materials and properties. **\*\*This is a Fall Only Class\*\*** (S23271)

<b>ARC 113 Residential Architectural Technology</b>	1	6	0	3
---	---	---	---	---

Prerequisites: Take ARC 111 and ARC 114 and ARC 114A  
 Corequisites: Take ARC 112

This course covers intermediate residential working drawings. Topics include residential plans, elevations, sections, details, schedules, and other related topics. Upon completion, students should be able to prepare a set of residential working drawings that are within accepted architectural standards. (S11635)

<b>ARC 114 Architectural CAD</b>	1	3	0	2
----------------------------------	---	---	---	---

Prerequisites: None  
 Corequisites: Take ARC 114A

This course introduces basic architectural CAD techniques. Topics include basic commands and system hardware and software. Upon completion, students should be able to prepare and plot architectural drawings to scale within accepted architectural standards. (S10248)

	Class	Lab	Clinical	Credits
<b>ARC 114A Architectural CAD Lab</b>	0	3	0	1

Prerequisites: None  
 Corequisites: Take ARC 114

This course provides a laboratory setting to enhance architectural CAD skills. Emphasis is placed on further development of commands and system operation. Upon completion, students should be able to prepare and plot scaled architectural drawings. (S11284)

<b>ARC 132 Specifications and Contracts</b>	2	0	0	2
---	---	---	---	---

Prerequisites: Take ARC 112 and ARC 230  
 Corequisites: None

This course covers the development of written specifications and the implications of different contractual arrangements. Topics include specification development, contracts, bidding material research, and agency responsibilities. Upon completion, students should be able to write a specification section and demonstrate the ability to interpret contractual responsibilities. **\*\*This is a Spring Only Class\*\*** (S12627)

<b>ARC 211 Light Construction Technology</b>	1	6	0	3
--	---	---	---	---

Prerequisites: Take ARC 111 and ARC 230  
 Corequisites: Take ARC 112

This course covers working drawings for light construction. Topics include plans, elevations, sections, and details; schedules; and other related topics. Upon completion, students should be able to prepare a set of working drawings which are within accepted architectural standards. **\*\*This is a Fall Only Class\*\*** (S13934)

<b>ARC 213 Design Project</b>	2	6	0	4
-------------------------------	---	---	---	---

Prerequisites: Take ARC 111 and ARC 112 and  
 ARC 114 and ARC 114A and  
 ARC 211 and ARC 230

Corequisites: None

This course provides the opportunity to design and prepare a set of contract documents within an architectural setting. Topics include schematic design, design development, construction documents, and other related topics. Upon completion, students should be able to prepare a set of commercial contract documents. **\*\*This is a Spring Only Class\*\*** (S10726)

<b>ARC 214 Architectural Statics</b>	3	0	0	3
--------------------------------------	---	---	---	---

Prerequisites: Take ARC 111 and ARC 112 and MAT 121  
 Corequisites: None

This course covers the concepts of elementary statics as applied to architecture. Topics include forces, resultants, and types of force system; equations of equilibrium; reactions of simple architectural structures; internal forces in architectural roof trusses; frames and beams; centroids and moments of inertia as applied to architecture. Upon completion, students should be able to solve problems which require the ability to analyze systems of forces in static equilibrium as applied to architectural forms. (S10740)

## CAPE FEAR COMMUNITY COLLEGE

		Class	Lab	Clinical	Credits
<b>ARC 220</b>	<b>Advanced Architectural CAD</b>	1	3	0	2

Prerequisites: Take ARC 114 and ARC 114A  
Corequisites: None

This course provides file management, productivity, and CAD customization skills. Emphasis is placed on developing advanced proficiency techniques. Upon completion, students should be able to create prototype drawings and symbol libraries, compose sheets with multiple details, and use advanced drawing and editing commands. (S13375)

<b>ARC 221</b>	<b>Architectural 3-D CAD</b>	1	4	0	3
----------------	------------------------------	---	---	---	---

Prerequisites: Take ARC 114 and ARC 220  
Corequisites: None

This course introduces architectural three-dimensional CAD applications. Topics include three-dimensional drawing, coordinate systems, viewing, rendering, modeling, and output options. Upon completion, students should be able to prepare architectural three-dimensional drawings and renderings. **\*\*This is a Fall Only Class\*\*** (S13466)

<b>ARC 225</b>	<b>Architectural BIM I</b>	1	3	0	2
----------------	----------------------------	---	---	---	---

Prerequisites: Take ARC 114 and ARC 114A  
Corequisites: Take ARC-225A

This course is an introduction to the fundamentals of Building Information Modeling (BIM) as a construction documentation system. Topics include basic parametric modeling, creating new types and families of components, and using 3D models to create design drawings. Upon completion, students should be able to use BIM software to create, edit, and print rudimentary architectural 3D computer models. (S23627)

<b>ARC 225A</b>	<b>Architectural BIM I Lab</b>	0	3	0	1
-----------------	--------------------------------	---	---	---	---

Prerequisites: Take ARC 114 and ARC 114A  
Corequisites: Take ARC-225

This course provides a laboratory setting to enhance architectural BIM skills. Emphasis is placed on further development of basic parametric modeling, creating new types and families of components. Upon completion, students should be able to use BIM software to create, edit, and print rudimentary architectural 3D computer models. (S23629)

<b>ARC 230</b>	<b>Environmental Systems</b>	3	3	0	4
----------------	------------------------------	---	---	---	---

Prerequisites: Take one set:  
Set 1: ARC 111 and MAT 121  
Set 2: ARC 111 and MAT 171  
Corequisites: None

This course introduces plumbing, mechanical (HVAC), and electrical systems for the architectural environment. Topics include basic plumbing, mechanical, and electrical systems for residential and/or commercial buildings with an introduction to selected code requirements. Upon completion, students should be able to develop schematic drawings for plumbing, mechanical, and electrical systems and perform related calculations. (S23949)

		Class	Lab	Clinical	Credits
<b>ARC 231</b>	<b>Architectural Presentations</b>	2	4	0	4

Prerequisites: Take ARC 111  
Corequisites: None

This course introduces architectural presentation techniques. Topics include perspective drawing, shadow projection, texturization, rendered plans, elevations, and other related topics. Upon completion, students should be able to present ideas graphically and do rendered presentation drawings. **\*\*This is a Spring Only Class\*\*** (S13888)

<b>ARC 235</b>	<b>Architectural Portfolio</b>	2	3	0	3
----------------	--------------------------------	---	---	---	---

Prerequisites: Take ARC 113 and ARC 231  
Corequisites: None

This course covers the methodology for the creation of an architectural portfolio. Topics include preparation of marketing materials and a presentation strategy using conventional and/or digital design media. Upon completion, students should be able to produce an architectural portfolio of selected projects. **\*\*This is a Spring Only Class\*\*** (S13879)

<b>ARC 264</b>	<b>Digital Architecture</b>	1	3	0	2
----------------	-----------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course covers multiple digital architectural techniques. Topics include spreadsheets and word processing procedures, on-line resources, modems, e-mail, image capture, multimedia, and other related topics. Upon completion, students should be able to transmit/receive electronic data, create multimedia presentations, and produce a desktop publishing document. (S22026)

<b>ART 111<sup>u</sup></b>	<b>Art Appreciation</b>	3	0	0	3
----------------------------	-------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces the origins and historical development of art. Emphasis is placed on the relationship of design principles to various art forms including but not limited to sculpture, painting, and architecture. Upon completion, students should be able to identify and analyze a variety of artistic styles, periods, and media. *This is a Universal General Education Transfer Component (UGETC) course.* [SBCC/BOG 02/21/14] (S10139)

<b>ART 113*</b>	<b>Art Methods and Materials</b>	0	6	0	3
-----------------	----------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course provides an overview of media and techniques. Emphasis is placed on exploration and manipulation of materials. Upon completion, students should be able to demonstrate familiarity with a variety of methods, materials, and processes. (S24618)

	Class	Lab	Clinical	Credits
<b>ART 114*<sup>u</sup> Art History Survey I</b>	3	0	0	3

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course covers the development of art forms from ancient times to the Renaissance. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S10200)*

<b>ART 115*<sup>u</sup> Art History Survey II</b>	3	0	0	3
---	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course covers the development of art forms from the Renaissance to the present. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S10149)*

<b>ART 116* Survey of American Art</b>	3	0	0	3
--	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course covers the development of American art forms from colonial times to the present. Emphasis is placed on architecture, painting, sculpture, graphics, and the decorative arts. Upon completion, students should be able to demonstrate understanding of the history of the American creative experience. (S10174)

<b>ART 117* Non-Western Art History</b>	3	0	0	3
---	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course introduces non-Western cultural perspectives. Emphasis is placed on, but not limited to, African, Oriental, and Oceanic art forms throughout history. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of non-Western social and cultural development. (S10125)

<b>ART 118* Art by Women</b>	3	0	0	3
------------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course provides an analytical study of the works of representative female artists. Emphasis is placed on the historical and cultural contexts, themes, and aesthetic features of individual works. Upon completion, students should be able to interpret, analyze, and discuss selected works. (S22465)

	Class	Lab	Clinical	Credits
<b>ART 121* Two-Dimensional Design</b>	0	6	0	3

Prerequisites: None

Corequisites: None

This course introduces the elements and principles of design as applied to two-dimensional art. Emphasis is placed on the structural elements, the principles of visual organization, and the theories of color mixing and interaction. Upon completion, students should be able to understand and use critical and analytical approaches as they apply to two-dimensional visual art. (S23014)

<b>ART 122* Three-Dimensional Design</b>	0	6	0	3
--	---	---	---	---

Prerequisites: None

Corequisites: None

This course introduces basic studio problems in three-dimensional visual design. Emphasis is placed on the structural elements and organizational principles as applied to mass and space. Upon completion, students should be able to apply three-dimensional design concepts. (S23015)

<b>ART 131* Drawing I</b>	0	6	0	3
---------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course introduces the language of drawing and the use of various drawing materials. Emphasis is placed on drawing techniques, media, and graphic principles. Upon completion, students should be able to demonstrate competence in the use of graphic form and various drawing processes. (S10812)

<b>ART 132* Drawing II</b>	0	6	0	3
----------------------------	---	---	---	---

Prerequisites: Take ART 131

Corequisites: None

This course continues instruction in the language of drawing and the use of various materials. Emphasis is placed on experimentation in the use of drawing techniques, media, and graphic materials. Upon completion, students should be able to demonstrate increased competence in the expressive use of graphic form and techniques. (S10831)

<b>ART 135* Figure Drawing I</b>	0	6	0	3
----------------------------------	---	---	---	---

Prerequisites: Take ART 131

Corequisites: None

This course introduces rendering the human figure with various drawing materials. Emphasis is placed on the use of the visual elements, anatomy, and proportion in the representation of the draped and undraped figure. Upon completion, students should be able to demonstrate competence in drawing the human figure. (S16219)

<b>ART 171* Computer Art I</b>	0	6	0	3
--------------------------------	---	---	---	---

Prerequisites: Take ART 131

Corequisites: None

This course introduces the use of the computer as a tool for solving visual problems. Emphasis is placed on fundamentals of computer literacy and design through bit-mapped image manipulation. Upon completion, students should be able to demonstrate an understanding of paint programs, printers, and scanners to capture, manipulate, and output images. (S10922)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>ART 212* Gallery Assistantship I</b>	0	6	0	3
Prerequisites: None				
Corequisites: None				

This course covers the practical application of display techniques. Emphasis is placed on preparation of artwork for installation, hardware systems, and exhibition graphics. Upon completion, students should be able to demonstrate basic gallery exhibition skills. (S24621)

<b>ART 214* Portfolio and Resume</b>	0	2	0	1
Prerequisites: None				
Corequisites: None				

This course covers resume writing, interview skills, and the preparation and presentation of an art portfolio. Emphasis is placed on the preparation of a portfolio of original artwork, the preparation of a photographic portfolio, approaches to resume writing, and interview techniques. Upon completion, students should be able to mount original art for portfolio presentation, photograph and display a professional slide portfolio, and write an effective resume. (S10900)

<b>ART 231* Printmaking I</b>	0	6	0	3
Prerequisites: None				
Corequisites: None				

This course introduces printmaking: its history, development techniques, and processes. Emphasis is placed on basic applications with investigation into image source and development. Upon completion, students should be able to produce printed images utilizing a variety of methods. (S10482)

<b>ART 232* Printmaking II</b>	0	6	0	3
Prerequisites: Take ART 231				
Corequisites: None				

This course includes additional methods and printmaking processes. Emphasis is placed on the printed image as related to method, source, and concept. Upon completion, students should be able to produce expressive images utilizing both traditional and innovative methods. (S10421)

<b>ART 235* Figure Drawing II</b>	0	6	0	3
Prerequisites: Take ART 135				
Corequisites: None				

This course extends the study and rendering of the draped and undraped human figure. Emphasis is placed on the exploration of materials and approaches to drawing. Upon completion, students should be able to demonstrate creativity in the representation of the figure. (S10465)

	Class	Lab	Clinical	Credits
<b>ART 240* Painting I</b>	0	6	0	3
Prerequisites: Take ART 131				
Corequisites: None				

This course introduces the language of painting and the use of various painting materials. Emphasis is placed on the understanding and use of various painting techniques, media, and color principles. Upon completion, students should be able to demonstrate competence in the use of creative processes directed toward the development of expressive form. (S11426)

<b>ART 241* Painting II</b>	0	6	0	3
Prerequisites: Take ART 240				
Corequisites: None				

This course provides a continuing investigation of the materials, processes, and techniques of painting. Emphasis is placed on the exploration of expressive content using a variety of creative processes. Upon completion, students should be able to demonstrate competence in the expanded use of form and variety. (S11518)

<b>ART 245* Metals I</b>	0	6	0	3
Prerequisites: None				
Corequisites: None				

This course introduces basic metal design in traditional and contemporary art forms using brass, copper, and silver. Emphasis is placed on designing and fabricating jewelry, small sculptures, and utilitarian objects. Upon completion, students should be able to design and produce small art objects. (S11515)

<b>ART 246* Metals II</b>	0	6	0	3
Prerequisites: Take ART 245				
Corequisites: None				

This course provides a continuation of metal design utilizing basic methods of casting and other processes. Emphasis is placed on individualized design. Upon completion, students should be able to design and produce expressive forms. (S11473)

<b>ART 247* Jewelry I</b>	0	6	0	3
Prerequisites: None				
Corequisites: None				

This course introduces a basic understanding of the design and production of jewelry. Emphasis is placed on concepts and techniques using metals and other materials. Upon completion, students should be able to demonstrate an ability to use appropriate methods to create unique jewelry. (S11479)

<b>ART 248* Jewelry II</b>	0	6	0	3
Prerequisites: Take ART 247				
Corequisites: None				

This course is a continuation of the skills learned in ART 247. Emphasis is placed on the creation of individual designs that utilize a variety of techniques such as casting, cloisonne, and plique-a-jour. Upon completion, students should be able to create jewelry which demonstrates originality. (S11436)

	Class	Lab	Clinical	Credits
<b>ART 250* Surface Design: Textiles</b>	0	6	0	3

Prerequisites: None  
Corequisites: None

This course introduces the basic principles and elements of art as applied to textile surfaces. Emphasis is placed on direct, top-dyed processes that utilize both synthetic and natural dyes, and techniques such as batik, stenciling, and stamping. Upon completion, students should be able to demonstrate a basic understanding of appropriate materials and techniques as they apply to original design on a variety of textile surfaces. (S11144)

<b>ART 261* Photography I</b>	0	6	0	3
-------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces photographic equipment, theory, and processes. Emphasis is placed on camera operation, composition, darkroom technique, and creative expression. Upon completion, students should be able to successfully expose, develop, and print a well-conceived composition. (S11374)

<b>ART 262* Photography II</b>	0	6	0	3
--------------------------------	---	---	---	---

Prerequisites: Take ART 261  
Corequisites: None

This course introduces the creative manipulation of alternative photographic materials and processes such as toning, hand coloring, infrared, and multiple exposure. Emphasis is placed on personal vision and modes of seeing. Upon completion, students should be able to create properly exposed images using a variety of photographic materials and processes. (S11289)

<b>ART 264* Digital Photography I</b>	0	6	0	3
---------------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces digital photographic equipment, theory and processes. Emphasis is placed on camera operation, composition, computer photo manipulation and creative expression. Upon completion, students should be able to successfully expose, digitally manipulate, and print a well-conceived composition. (S24622)

<b>ART 265* Digital Photography II</b>	0	6	0	3
--	---	---	---	---

Prerequisites: Take ART 264  
Corequisites: None

This course provides exploration of the concepts and processes of photo manipulation through complex composite images, special effects, color balancing and image/text integration. Emphasis is placed on creating a personal vision and style. Upon completion, students should be able to produce well-executed images using a variety of photographic and photo manipulative approaches. (S24620)

	Class	Lab	Clinical	Credits
<b>ART 266* Videography I</b>	0	6	0	3

Prerequisites: None  
Corequisites: None

This course introduces various aspects of basic video production including concept development, scripting, camera operation, and post-production. Emphasis is placed on creative expression, camera handling, story boarding, and editing. Upon completion, students should be able to demonstrate a basic understanding of video camera operation and production techniques. (S11306)

<b>ART 267* Videography II</b>	0	6	0	3
--------------------------------	---	---	---	---

Prerequisites: Take ART 266  
Corequisites: None

This course is designed to provide a framework for the production of a long-term video project. Emphasis is placed on realization of the unique creative vision. Upon completion, students should be able to produce a thematically coherent, edited video with sound and titling. (S11402)

<b>ART 271* Computer Art II</b>	0	6	0	3
---------------------------------	---	---	---	---

Prerequisites: Take ART 171  
Corequisites: None

This course includes advanced computer imaging techniques. Emphasis is placed on creative applications of digital technology. Upon completion, students should be able to demonstrate command of computer systems and applications to express their personal vision. (S10264)

<b>ART 276* Interactive Media Design</b>	0	6	0	3
--	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces students to the concepts and techniques used in designing and producing interactive projects. Emphasis is placed on the interactive development process, aesthetics of visual solutions, technical proficiency, and graphical user interface (GUI) with projects including digital imaging, web design, simple animation, graphics and copyright issues. Upon completion, students should be able to use contemporary software to solve a variety of multimedia problems for a range of platforms and devices that may include web-based interaction, mobile devices or other emerging technology. (S24476)

<b>ART 281* Sculpture I</b>	0	6	0	3
-----------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course provides an exploration of the creative and technical methods of sculpture with focus on the traditional processes. Emphasis is placed on developing basic skills as they pertain to three-dimensional expression in various media. Upon completion, students should be able to show competence in variety of sculptural approaches. (S16229)

## CAPE FEAR COMMUNITY COLLEGE

**ART 282\* Sculpture II** Class Lab Clinical Credits  
0 6 0 3  
Prerequisites: Take ART 281  
Corequisites: None

This course builds on the visual and technical skills learned in ART 281. Emphasis is placed on developing original solutions to sculptural problems in a variety of media. Upon completion, students should be able to express individual ideas using the techniques and materials of sculpture. (S12071)

**ART 283\* Ceramics I** 0 6 0 3  
Prerequisites: None  
Corequisites: None

This course provides an introduction to three-dimensional design principles using the medium of clay. Emphasis is placed on fundamentals of forming, surface design, glaze application, and firing. Upon completion, students should be able to demonstrate skills in slab and coil construction, simple wheel forms, glaze technique, and creative expression. (S11998)

**ART 284\* Ceramics II** 0 6 0 3  
Prerequisites: Take ART 283  
Corequisites: None

This course covers advanced hand-building and wheel techniques. Emphasis is placed on creative expression, surface design, sculptural quality, and glaze effect. Upon completion, students should be able to demonstrate a high level of technical competence in forming and glazing with a development of three-dimensional awareness. (S12018)

**ART 285\* Ceramics III** 0 6 0 3  
Prerequisites: Take ART 284  
Corequisites: None

This course provides the opportunity for advanced self-determined work in sculptural and functional ceramics. Emphasis is placed on developing the technical awareness of clay bodies, slips, engobes, and firing procedures necessary to fulfill the student's artistic goals. Upon completion, students should be able to demonstrate a knowledge of materials and techniques necessary to successfully create original projects in the clay medium. (S11957)

**ART 286\* Ceramics IV** 0 6 0 3  
Prerequisites: Take ART 285  
Corequisites: None

This course provides the opportunity for self-determined work in sculptural and functional ceramics. Emphasis is placed on developing the technical awareness of glaze materials, glaze formulation, and firing techniques necessary to fulfill the student's artistic goals. Upon completion, students should be able to demonstrate knowledge of materials and techniques necessary to successfully create original projects in the clay medium. (S12082)

**ASL 111\* Elementary ASL I** Class Lab Clinical Credits  
3 0 0 3  
Prerequisites: None  
Corequisites: Take ASL 181

This course introduces the fundamental elements of American Sign Language within a cultural context. Emphasis is placed on the development of basic expressive and receptive skills. Upon completion, students will be able to comprehend and respond with grammatical accuracy to expressive American Sign Language and demonstrate cultural awareness. (S11976)

**ASL 112\* Elementary ASL II** 3 0 0 3  
Prerequisites: Take ASL 111 (Minimum grade of C)  
Corequisites: Take ASL 182

This course is a continuation of ASL 111 focusing on the fundamental elements of American Sign Language in a cultural context. Emphasis is placed on the progressive development of expressive and receptive skills. Upon completion, the students should be able to comprehend and respond with increasing accuracy to expressive American Sign Language and demonstrate cultural awareness. (S12047)

**ASL 181\* ASL Lab 1** 0 2 0 1  
Prerequisites: None  
Corequisites: Take ASL 111

This course provides an opportunity to enhance acquisition of the fundamental elements of American Sign Language. Emphasis is placed on the progressive development of basic expressive and receptive skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to expressive American Sign Language and demonstrate cultural awareness. (S20855)

**ASL 182\* ASL Lab 2** 0 2 0 1  
Prerequisites: Take ASL 181 (Minimum grade of C)  
Corequisites: Take ASL 112

This course provides an opportunity to enhance acquisition of the fundamental elements of American Sign Language. Emphasis is placed on the progressive development of basic expressive and receptive skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to expressive American Sign Language and demonstrate cultural awareness. (S20856)

**ASL 211\* Intermediate ASL I** 3 0 0 3  
Prerequisites: Take ASL 112 (Minimum grade of C)  
Corequisites: Take ASL 281

This course provides a review and expansion of the essential skills of American Sign Language. Emphasis is placed on the progressive development of expressive and receptive skills, study of authentic and representative literacy and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively using American Sign Language about the past, present, and future. (S20054)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>ASL 212* Intermediate ASL II</b>	3	0	0	3

Prerequisites: Take ASL 211 (Minimum grade of C)  
Corequisites: None

This course provides a continuation of ASL 211. Emphasis is placed on the continuing development of expressive and receptive skills, with study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. **\*\*This is a Summer Only Class\*\*** (S16236)

<b>ASL 221 Advanced ASL I</b>	3	0	0	3
-------------------------------	---	---	---	---

Prerequisites: Take ASL 212  
Corequisites: None

This course provides an expansion of the essential and advanced skills of ASL, including advanced vocabulary, lexicalized fingerspelling, and complex grammatical structures. Emphasis is placed on the advanced development of expressive, receptive and conversational skills, study of authentic and representative literacy and cultural texts. Upon completion, students will communicate more accurately with advanced complexity, and to present the topics in the various registers, pragmatics and genres of ASL. **\*\*This is a Spring Only Class\*\*** (S22134)

<b>ASL 250 Linguistics of ASL</b>	3	0	0	3
-----------------------------------	---	---	---	---

Prerequisites: Take ASL 112  
Corequisites: None

This course is designed to increase knowledge and skills necessary to linguistically analyze ASL. Emphasis is placed on applying phonology, morphology, syntax, semantics, discourse and socio- linguistics of ASL. Upon completion, students should be able to demonstrate knowledge and understanding of the basic linguistics of ASL through a variety of assessment methods. **\*\*This is a Fall Only Class\*\*** (S22682)

<b>ASL 281* ASL Lab 3</b>	0	2	0	1
---------------------------	---	---	---	---

Prerequisites: Take ASL 182 (Minimum grade of C)  
Corequisites: Take ASL 211

This course provides an opportunity to enhance the review and expansion of the essential skills of American Sign Language. Emphasis is placed on the progressive development of expressive and receptive skills through the study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. (S20857)

	Class	Lab	Clinical	Credits
<b>AST 111*<sup>u</sup> Descriptive Astronomy</b>	3	0	0	3

Prerequisites: None  
Corequisites: Take AST 111A

This course introduces an overall view of modern astronomy. Topics include an overview of the solar system, the sun, stars, galaxies, and the larger universe. Upon completion, students should be able to demonstrate an understanding of the universe around them. *This is a Universal General Education Transfer Component (UGETC) course.* [SBCC/BOG 02/21/14] (S10553)

<b>AST 111A*<sup>u</sup> Descriptive Astronomy Lab</b>	0	2	0	1
--	---	---	---	---

Prerequisites: None  
Corequisites: Take AST 111

The course is a laboratory to accompany AST 111. Emphasis is placed on laboratory experiences which enhance the materials presented in AST 111 and which provide practical experience. Upon completion, students should be able to demonstrate an understanding of the universe around them. *This is a Universal General Education Transfer Component (UGETC) course.* [SBCC/BOG 02/21/14] (S13670)

<b>ATR 112 Intro to Automation</b>	2	3	0	3
------------------------------------	---	---	---	---

Prerequisites: Take DMA 010, DMA 020, DMA 030, DMA 040, and DMA 050  
Take one: DRE 098 or ENG 095 or ENG 111 or RED 090

Corequisites: None

This course introduces the basic principles of automated systems and describes the tasks that technicians perform on the job. Topics include the history, development, and current applications of robots and automated systems including their configuration, operation, components, and controls. Upon completion, students should be able to understand the basic concepts of automation and robotic systems. (S23467)

<b>AUB 111 Painting &amp; Refinishing I</b>	2	6	0	4
---	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces the proper procedures for using automotive refinishing equipment and materials in surface preparation and application. Topics include federal, state, and local regulations, personal safety, refinishing equipment and materials, surface preparation, masking, application techniques, and other related topics. Upon completion, students should be able to identify and use proper equipment and materials in refinishing following accepted industry standards. (S10171)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>AUB 112 Painting &amp; Refinishing II</b>	2	6	0	4

Prerequisites: Take AUB 111  
Corequisites: None

This course covers advanced painting techniques and technologies with an emphasis on identifying problems encountered by the refinishing technician. Topics include materials application, color matching, correction of refinishing problems, and other related topics. Upon completion, students should be able to perform spot, panel, and overall refinishing repairs and identify and correct refinish problems. **\*\*This is a Spring Only Class\*\*** (S10119)

<b>AUB 114 Special Finishes</b>	1	2	0	2
---------------------------------	---	---	---	---

Prerequisites: Take AUB 111  
Corequisites: None

This course introduces multistage finishes, custom painting, and protective coatings. Topics include base coats, advanced intermediate coats, clear coats, and other related topics. Upon completion, students should be able to identify and apply specialized finishes based on accepted industry standards. **\*\*This is a Summer Only Class\*\*** (1997SU)

<b>AUB 121 Non-Structural Damage I</b>	1	4	0	3
--	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces safety, tools, and the basic fundamentals of body repair. Topics include shop safety, damage analysis, tools and equipment, repair techniques, materials selection, materials usage, and other related topics. Upon completion, students should be able to identify and repair minor direct and indirect damage including removal/repairing/replacing of body panels to accepted standards. (S12230)

<b>AUB 122 Non-Structural Damage II</b>	2	6	0	4
---	---	---	---	---

Prerequisites: Take AUB 121  
Corequisites: None

This course covers safety, tools, and advanced body repair. Topics include shop safety, damage analysis, tools and equipment, advanced repair techniques, materials selection, materials usage, movable glass, and other related topics. Upon completion, students should be able to identify and repair or replace direct and indirect damage to accepted standards including movable glass and hardware. **\*\*This is a Spring Only Class\*\*** (S12174)

<b>AUB 131 Structural Damage I</b>	2	4	0	4
------------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces safety, equipment, structural damage analysis, and damage repairs. Topics include shop safety, design and construction, structural analysis and measurement, equipment, structural glass, repair techniques, and other related topics. Upon completion, students should be able to analyze and perform repairs to a vehicle which has received light/moderate structural damage. **\*\*This is a Fall Only Class\*\*** (S10839)

	Class	Lab	Clinical	Credits
<b>AUB 136 Plastics &amp; Adhesives</b>	1	4	0	3

Prerequisites: None  
Corequisites: None

This course covers safety, plastic and adhesive identification, and the various repair methods of automotive plastic components. Topics include safety, identification, preparation, material selection, and the various repair procedures including refinishing. Upon completion, students should be able to identify, remove, repair, and/or replace automotive plastic components in accordance with industry standards. **\*\*This is a Summer Only Class\*\*** (S10794)

<b>AUB 141 Mechanical &amp; Electrical Components I</b>	2	2	0	3
---	---	---	---	---

Prerequisites: None  
Corequisites: None

This course covers the basic principles of automotive mechanical and electrical components. Topics include personal and environmental safety and suspension and steering, electrical, brake, heating and air-conditioning, cooling, drive train, and restraint systems. Upon completion, students should be able to identify system components and perform basic system diagnostic checks and/or repairs according to industry standards. **\*\*This is a Spring Only Class\*\*** (S13093)

<b>AUB 162 Autobody Estimating</b>	1	2	0	2
------------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course provides a comprehensive study of autobody estimating. Topics include collision damage analysis, industry regulations, flat-rate and estimated time, and collision estimating manuals. Upon completion, students should be able to prepare and interpret a damage report. **\*\*This is a Summer Only Class\*\*** (S11329)

<b>AUC 111 Automotive Customizing Research</b>	3	0	0	3
--	---	---	---	---

Prerequisites: None  
Corequisites: None

This course covers planning, designs, and research used in automotive customizing. Emphasis is placed on auto customization planning, cost analysis, creative design techniques, and research of available add-on components used in auto customizing. Upon completion, students should be able to develop designs and prepare cost analyses incorporated into a plan of action for customizing vehicles. **\*\*This is a Spring Only Class\*\*** (S21523)

	Class	Lab	Clinical	Credits
<b>AUC 112 Automotive Custom Fabrication</b>	2	4	0	4

Prerequisites: None  
Corequisites: None

This course covers modifications of existing vehicle components, as well as fabrication of new vehicle components. Emphasis is placed on basic customizing techniques used on factory original parts, as well as fabrication of custom components using machining processes and customizing techniques. Upon completion, students should be able to modify existing factory components and create custom-fabricated components using auto customizing techniques. **\*\*This is a Summer Only Class\*\*** (S21524)

<b>AUC 114 Custom Fiberglass Skills</b>	2	4	0	4
---	---	---	---	---

Prerequisites: None  
Corequisites: None

This course will provide instruction in non-metallic customizing and repair techniques. Emphasis will be placed on diagnosis and repair of cracks, proper use of bonding agents, fiberglass body parts removal/replacement, and custom fabrication techniques using fiberglass materials. Upon completion, students should be able to identify types of fiberglass and demonstrate the ability to properly prepare, apply, and finish fiberglass components. (S21526)

<b>AUC 115 Glass Customizing Methods</b>	2	4	0	4
--	---	---	---	---

Prerequisites: None  
Corequisites: None

This course will provide instruction on window removal/replacement, window tinting, and custom glass design etching techniques. Emphasis will be placed on proper removal/replacement, window tinting, laws concerning window tinting, and customizing techniques used to etch designs in auto glasses. Upon completion, students should be able to interpret the laws concerning window tinting, perform removal/replacement/tinting, and use customizing techniques to etch designs on auto glass. (S21527)

<b>AUT 116 Engine Repair</b>	2	3	0	3
------------------------------	---	---	---	---

Prerequisites: Take TRN 110  
Take one: DRE 097 or ENG 085 or  
ENG 095 or ENG 111 or  
RED 080 or RED 090  
Corequisites: Take AUT 116A

This course covers the theory, construction, inspection, diagnosis, and repair of internal combustion engines and related systems. Topics include fundamental operating principles of engines and diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis, measurement and repair of automotive engines using appropriate tools, equipment, procedures, and service information. **\*\*This is a Fall Only Class\*\*** (S21687)

	Class	Lab	Clinical	Credits
<b>AUT 116A Engine Repair Lab</b>	0	3	0	1

Prerequisites: Take TRN 110  
Take one: DRE 097 or ENG 085 or  
ENG 095 or ENG 111 or  
RED 080 or RED 090  
Corequisites: Take AUT 116

This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis, measurement and repair of automotive engines using appropriate tools, equipment, procedures, and service information. **\*\*This is a Fall Only Class\*\*** (S21688)

<b>AUT 117 Custom Airbrushing</b>	2	6	0	4
-----------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course covers custom airbrushing techniques, finish application, and equipment selection. Emphasis is placed on the design and application of custom airbrushing techniques and proper equipment maintenance. Upon completion, students should be able to design and apply custom airbrush graphics using a variety of techniques. (S22945)

<b>AUT 123 Powertrain Diagnosis and Service</b>	1	3	0	2
---	---	---	---	---

Prerequisites: Take TRN 110  
Take one: DRE 097 or ENG 085 or  
ENG 095 or ENG 111 or  
RED 080 or RED 090  
Corequisites: None

This course covers the diagnosis, repair and service of the vehicle powertrain and related systems. Topics include fundamental operating principles of engines and transmissions and use of proper service procedures for diagnosis, service and removal and replacement of major components. Upon completion, students should be able to perform basic service and diagnosis of the powertrain and related systems, and to perform in vehicle repairs and remove and replace components. **\*\*This is a Fall Only Class\*\*** (S21689)

<b>AUT 141 Suspension &amp; Steering Systems</b>	2	3	0	3
--	---	---	---	---

Prerequisites: Take TRN 110  
Corequisites: None

This course covers principles of operation, types, and diagnosis/repair of suspension and steering systems to include steering geometry. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair steering and suspension components, check and adjust alignment angles, repair tires, and balance wheels. **\*\*This is a Spring Only Class\*\*** (S21690)

## CAPE FEAR COMMUNITY COLLEGE

		Class	Lab	Clinical	Credits
<b>AUT 141A</b>	<b>Suspension &amp; Steering Lab</b>	0	3	0	1

Prerequisites: Take TRN 110  
Corequisites: Take AUT 141

This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair steering and suspension components, check and adjust alignment angles, repair tires, and balance wheels. **\*\*This is a Spring Only Class\*\*** (S21691)

<b>AUT 151</b>	<b>Brake Systems</b>	2	3	0	3
----------------	----------------------	---	---	---	---

Prerequisites: Take one: DRE 097 or ENG 085 or  
ENG 095 or ENG 111 or  
RED 080 or RED 090

Corequisites: Take AUT 151A

This course covers principles of operation and types, diagnosis, service, and repair of brake systems. Topics include drum and disc brakes involving hydraulic, vacuum boost, hydra-boost, electrically powered boost, and anti-lock and parking brake systems. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems. **\*\*This is a Fall Only Class\*\*** (S21692)

<b>AUT 151A</b>	<b>Brakes Systems Lab</b>	0	3	0	1
-----------------	---------------------------	---	---	---	---

Prerequisites: Take one: DRE 097 or ENG 085 or  
ENG 095 or ENG 111 or  
RED 080 or RED 090

Corequisites: Take AUT 151

This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include drum and disc brakes involving hydraulic, vacuum-boost, hydra-boost, electrically powered boost, and anti-lock, parking brake systems and emerging brake systems technologies. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems. **\*\*This is a Fall Only Class\*\*** (S21693)

<b>AUT 163</b>	<b>Advanced Automotive Electricity</b>	2	3	0	3
----------------	--	---	---	---	---

Prerequisites: Take TRN 120  
Corequisites: None

This course covers electronic theory, wiring diagrams, test equipment, and diagnosis, repair, and replacement of electronics, lighting, gauges, horn, wiper, accessories, and body modules. Topics include networking and module communication, circuit construction, wiring diagrams, circuit testing, and troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns. **\*\*This is a Spring Only Class\*\*** (S23604)

		Class	Lab	Clinical	Credits
<b>AUT 163A</b>	<b>Advanced Automotive Electricity Lab</b>	0	3	0	1

Prerequisites: Take TRN 120  
Corequisites: Take AUT 163

This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include networking and module communication, circuit construction, wiring diagrams, circuit testing, troubleshooting and emerging electrical/electronic systems technologies. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns. **\*\*This is a Spring Only Class\*\*** (S21699)

<b>AUT 181</b>	<b>Engine Performance I</b>	2	3	0	3
----------------	-----------------------------	---	---	---	---

Prerequisites: Take TRN 110  
Corequisites: None

This course covers the introduction, theory of operation, and basic diagnostic procedures required to restore engine performance to vehicles equipped with complex engine control systems. Topics include an overview of engine operation, ignition components and systems, fuel delivery, injection components and systems and emission control devices. Upon completion, students should be able to describe operation and diagnose/repair basic ignition, fuel and emission related drivability problems using appropriate test equipment/service information. **\*\*This is a Summer Only Class\*\*** (S21701)

<b>AUT 181A</b>	<b>Engine Performance I Lab</b>	0	3	0	1
-----------------	---------------------------------	---	---	---	---

Prerequisites: Take TRN 110  
Corequisites: Take AUT 181

This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include overviews of engine operation, ignition components and systems, fuel delivery, injection components and systems and emission control devices and emerging engine performance technologies. Upon completion, students should be able to describe operation and diagnose/repair basic ignition, fuel and emission related drivability problems using appropriate test equipment/service information. **\*\*This is a Summer Only Class\*\*** (2007FA)

<b>AUT 212</b>	<b>Auto Shop Management</b>	3	0	0	3
----------------	-----------------------------	---	---	---	---

Prerequisites: Take TRN 110  
Corequisites: None

This course covers the principles of management essential to decision-making, communication, authority, and leadership. Topics include shop supervision, shop organization, customer relations, cost effectiveness and workplace ethics. Upon completion, students should be able to describe basic automotive shop operation from a management standpoint. **\*\*This is a Summer Only Class\*\*** (S21705)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>AUT 213 Automotive Servicing 2</b>	1	3	0	2

Prerequisites: None  
Corequisites: None

This course is a lab used as an alternative to co-op placement. Emphasis is placed on shop operations, troubleshooting, testing, adjusting, repairing, and replacing components using appropriate test equipment and service information. Upon completion, students should be able to perform a variety of automotive repairs using proper service procedures and to operate appropriate equipment. **\*\*This is a Spring Only Class\*\*** (S21706)

<b>AUT 221 Automatic Transm/Transaxles</b>	2	3	0	3
--	---	---	---	---

Prerequisites: Take TRN 110  
Corequisites: None

This course covers operation, diagnosis, service, and repair of automatic transmissions/transaxles. Topics include hydraulic, pneumatic, mechanical, and electrical/electronic operation of automatic drive trains and the use of appropriate service tools and equipment. Upon completion, students should be able to explain operational theory, diagnose and repair automatic drive trains. **\*\*This is a Spring Only Class\*\*** (S21707)

<b>AUT 221A Automatic Transm/Transaxles Lab</b>	0	3	0	1
---	---	---	---	---

Prerequisites: Take TRN 110  
Corequisites: Take AUT 221

This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include hydraulic, pneumatic, mechanical, and electrical/electronic operation of automatic drive trains and the use of appropriate service tools and equipment. Upon completion, students should be able to diagnose and repair automatic drive trains. **\*\*This is a Spring Only Class\*\*** (S21710)

<b>AUT 231 Manual Transm/Transaxles/ Drive Trains</b>	2	3	0	3
---	---	---	---	---

Prerequisites: Take TRN 110  
Corequisites: None

This course covers the operation, diagnosis, and repair of manual transmissions/transaxles, clutches, driveshafts, axles, and final drives. Topics include theory of torque, power flow, and manual drive train servicing and repair using appropriate service information, tools, and equipment. Upon completion, students should be able to explain operational theory, diagnose and repair manual drive trains. **\*\*This is a Spring Only Class\*\*** (S22040)

	Class	Lab	Clinical	Credits
<b>AUT 231A Manual Transm/Transaxles/ Drive Trains Lab</b>	0	3	0	1

Prerequisites: Take TRN 110  
Corequisites: Take AUT 231

This course is an optional lab for the program that needs to meet NATEF hour standards but does not have a co-op component in the program. Topics include manual drive train diagnosis, service and repair using appropriate service information, tools, and equipment. Upon completion, students should be able to diagnose and repair manual drive trains. **\*\*This is a Spring Only Class\*\*** (S21712)

<b>AUT 281 Advanced Engine Performance</b>	2	2	0	3
--	---	---	---	---

Prerequisites: Take one: AUT 181 or AUT 183  
Corequisites: None

This course utilizes service information and specialized test equipment to diagnose and repair power train control systems. Topics include computerized ignition, fuel and emission systems, related diagnostic tools and equipment, data communication networks, and service information. Upon completion, students should be able to perform diagnosis and repair. **\*\*This is a Fall Only Class\*\*** (S21713)

# BAF 110 – BUS 285

**BAF 110 Principles of Banking** 3 0 0 3  
Prerequisites: None  
Corequisites: None

This course covers the fundamentals of bank functions in a descriptive fashion. Topics include banks and the monetary system, the relationship of banks to depositors, the payment functions, bank loans and accounting, regulations, and examinations. Upon completion, students should be able to demonstrate an understanding of the business of banking from a broad perspective. (S24131)

**BAF 111 Teller Training** 3 0 0 3  
Prerequisites: None  
Corequisites: None

This course provides an overview of banking teller operations, bank security, and customer relations in preparation for work as a bank teller. Topics include bank profitability, cash and cash handling, checks and other transactions, balancing and setting, and security threats and their detection. Upon completion, students should be able to discuss the components of teller performance and perform effectively as a teller after minimal on-the-job training. (S10163)

**BAF 232 Consumer Lending** 3 0 0 3  
Prerequisites: None  
Corequisites: None

This course details the many types of credit arrangements in which a finance charge is paid for the privilege of repaying debt in delayed payments. Topics include consumer credit policy, the loan process, servicing and collecting loans, consumer compliance, and evaluating credit risks. Upon completion, students should be able to identify collection policies and procedures, explain principles of credit evaluation, define open-end credit, and describe indirect lending. **\*\*This is a Spring Only Class\*\*** (S12709)

**BAF 234 Residential Mortgage Lending** 3 0 0 3  
Prerequisites: None  
Corequisites: None

This course provides an overview of the field of mortgage lending and the various financial markets for real estate mortgages. Topics include conventional and government related mortgages, contracts, financial markets, and qualifying prospective loan customers. Upon completion, students should be able to demonstrate an understanding of mortgage loan origination and processing, government regulations, and compliance issues. **\*\*This is a Spring Only Class\*\*** (S12657)

**BAS 120 Introduction to Analytics** 2 3 0 3  
Prerequisites: None  
Corequisites: None

This course introduces basic concepts and applications of analytics. Topics include an overview of the analytical process and the role of the analyst, applied descriptive statistics, and exploratory data analysis. Upon completion, students should be able to demonstrate a basic understanding of analytics for decision-making in business. (S24318)

**BAS 121 Data Visualization** 2 3 0 3  
Prerequisites: Take BAS 120  
Corequisites: None

This course introduces key concepts in data visualization and reporting. Topics include concepts and methods used in graphical representation of data, exploration and reporting of data, and basic linear regression methods. Upon completion, students should be able to effectively use graphical tools to communicate insights about data. (S24319)

**BAS 150 Introduction to Analytical Programming** 2 3 0 3  
Prerequisites: None  
Corequisites: None

This course introduces statistical software for analytics. Topics include utilization of analytical and statistical software packages for data management, data visualization, and exploratory data analysis. Upon completion, students should be able to use statistical programming tools to conduct descriptive analytics. (S24320)

**BAS 220 Applied Analytical Programming** 2 3 0 3  
Prerequisites: Take BAS 150  
Corequisites: None

This course covers applications of statistical software for data management and reporting. Topics include data management, data preprocessing, and modeling including linear and logistic regression analysis using programming tools. Upon completion, students should be able to process data and generate reports that support business decision-making. (S24321)

**BAS 221 Introduction to Predictive Analytics** 2 3 0 3  
Prerequisites: Take BAS 121 and BAS 220  
Corequisites: None

This course introduces foundations of predictive analytics. Topics include basic predictive modeling methods for both classification and regression tasks. Upon completion, students should be able to build and validate predictive models. (S24322)

## COURSE DESCRIPTIONS

		Class	Lab	Clinical	Credits
<b>BAS 230</b>	<b>Applied Predictive Modeling</b>	2	3	0	3

Prerequisites: Take BAS 221  
Corequisites: None

This course covers advanced applications of predictive models. Topics include the advanced use of classification and regression models in real-world scenarios. Upon completion, students should be able to utilize their knowledge and skills in predictive analytics to independently guide decision makers. (S24323)

<b>BAS 240</b>	<b>Data Structures for Analytics</b>	2	3	0	3
----------------	--------------------------------------	---	---	---	---

Prerequisites: Take BAS 121 and BAS 220  
Corequisites: None

This course is designed to enhance student proficiency in data management skills for analytics applications. Topics include techniques and methods for identification, extraction, and preparation of data for processing with analytical software. Upon completion, students should be able to demonstrate the skills necessary to effectively organize and combine different data sources for analytic applications. (S24330)

<b>BAS 270</b>	<b>Advanced Analytical Tools &amp; Methods</b>	2	3	0	3
----------------	--	---	---	---	---

Prerequisites: Take BAS 221 and BAS 240  
Corequisites: None

This course covers the planning and execution of an analytics project that integrates the analytical knowledge and skills acquired through prior coursework. Students will define and carry out an analytics project from inception to final reporting. Upon completion, students should be able to demonstrate their ability to apply analytic methods and best practices in a simulated business setting. (S24333)

<b>BIO 106</b>	<b>Intro to Anatomy/Physiology/Microbiology</b>	2	2	0	3
----------------	---	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090  
Corequisites: None

This course covers the fundamental and principle concepts of human anatomy and physiology and microbiology. Topics include an introduction to the structure and function of cells, tissues, and human organ systems, and an overview of microbiology, epidemiology, and control of microorganisms. Upon completion, students should be able to identify structures and functions of the human body and describe microorganisms and their significance in health and disease. (S14010)

		Class	Lab	Clinical	Credits
<b>BIO 110*</b>	<b>Principles of Biology</b>	3	3	0	4

Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090

Corequisites: None

This course provides a survey of fundamental biological principles for non-science majors. Emphasis is placed on basic chemistry, cell biology, metabolism, genetics, evolution, ecology, diversity, and other related topics. Upon completion, students should be able to demonstrate increased knowledge and better understanding of biology as it applies to everyday life. *The on-line lab will require a Custom Lab Kit which can be purchased through the CFCC Bookstore. This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S24019)*

<b>BIO 111*</b>	<b>General Biology I</b>	3	3	0	4
-----------------	--------------------------	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090

Corequisites: None

This course introduces the principles and concepts of biology. Emphasis is placed on basic biological chemistry, molecular and cellular biology, metabolism and energy transformation, genetics, evolution, and other related topics. Upon completion, students should be able to demonstrate understanding of life at the molecular and cellular levels. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S24020)*

<b>BIO 112*</b>	<b>General Biology II</b>	3	3	0	4
-----------------	---------------------------	---	---	---	---

Prerequisites: Take BIO 111

Corequisites: None

This course is a continuation of BIO 111. Emphasis is placed on organisms, evolution, biodiversity, plant and animal systems, ecology, and other related topics. Upon completion, students should be able to demonstrate comprehension of life at the organismal and ecological levels. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S24021)*

<b>BIO 120*</b>	<b>Introductory Botany</b>	3	3	0	4
-----------------	----------------------------	---	---	---	---

Prerequisites: Take one: BIO 110 or BIO 111

Corequisites: None

This course provides an introduction to the classification, relationships, structure, and function of plants. Topics include reproduction and development of seed and non-seed plants, levels of organization, form and function of systems, and a survey of major taxa. Upon completion, students should be able to demonstrate comprehension of plant form and function, including selected taxa of both seed and non-seed plants. (S13789)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>BIO 130* Introductory Zoology</b>	3	3	0	4

Prerequisites: Take one: BIO 110 or BIO 111

Corequisites: None

This course provides an introduction to the classification, relationships, structure, and function of major animal phyla. Emphasis is placed on levels of organization, reproduction and development, comparative systems, and a survey of selected phyla. Upon completion, students should be able to demonstrate comprehension of animal form and function including comparative systems of selected groups. (S11571)

<b>BIO 140* Environmental Biology</b>	3	0	0	3
---------------------------------------	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: Take BIO 140A

This course introduces environmental processes and the influence of human activities upon them. Topics include ecological concepts, population growth, natural resources, and a focus on current environmental problems from scientific, social, political, and economic perspectives. Upon completion, students should be able to demonstrate an understanding of environmental interrelationships and of contemporary environmental issues. (S14156)

<b>BIO 140A* Environmental Biology Lab</b>	0	3	0	1
--	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: Take BIO 140

This course provides a laboratory component to complement BIO 140. Emphasis is placed on laboratory and field experience. Upon completion, students should be able to demonstrate a practical understanding of environmental interrelationships and of contemporary environmental issues. (S13084)

<b>BIO 143* Field Biology Minicourse</b>	1	2	0	2
--	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course introduces the biological and physical components of a field environment. Emphasis is placed on a local field environment with extended field trips to other areas. Upon completion, students should be able to demonstrate an understanding of the biological and physical components of the specific biological environment. (S14183)

	Class	Lab	Clinical	Credits
<b>BIO 150* Genetics in Human Affairs</b>	3	0	0	3

Prerequisites: Take one: BIO 110 or BIO 111

Corequisites: None

This course describes the importance of genetics in everyday life. Topics include the role of genetics in human development, birth defects, cancer and chemical exposure, and current issues including genetic engineering and fertilization methods. Upon completion, students should be able to understand the relationship of genetics to society today and its possible influence on our future. (S12454)

<b>BIO 163* Basic Anatomy &amp; Physiology</b>	4	2	0	5
--	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course provides a basic study of the structure and function of the human body. Topics include a basic study of the body systems as well as an introduction to homeostasis, cells, tissues, nutrition, acid-base balance, and electrolytes. Upon completion, students should be able to demonstrate a basic understanding of the fundamental principles of anatomy and physiology and their interrelationships. (S13508)

<b>BIO 168* Anatomy and Physiology I</b>	3	3	0	4
--	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course provides a comprehensive study of the anatomy and physiology of the human body. Topics include body organization, homeostasis, cytology, histology, and the integumentary, skeletal, muscular, and nervous systems and special senses. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. (S11555)

<b>BIO 169* Anatomy and Physiology II</b>	3	3	0	4
---	---	---	---	---

Prerequisites: Take BIO 168

Corequisites: None

This course provides a continuation of the comprehensive study of the anatomy and physiology of the human body. Topics include the endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems as well as metabolism, nutrition, acid-base balance, and fluid and electrolyte balance. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. (S11629)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>BIO 175* General Microbiology</b>	2	2	0	3

Prerequisites: Take one: BIO 110 or BIO 111 or  
BIO 163 or BIO 165 or  
BIO 168

Corequisites: None

This course covers principles of microbiology with emphasis on microorganisms and human disease. Topics include an overview of microbiology and aspects of medical microbiology, identification and control of pathogens, disease transmission, host resistance, and immunity. Upon completion, students should be able to demonstrate knowledge of microorganisms and the disease process as well as aseptic and sterile techniques. (S20491)

<b>BIO 250* Genetics</b>	3	3	0	4
--------------------------	---	---	---	---

Prerequisites: Take BIO 112

Corequisites: None

This course covers principles of prokaryotic and eukaryotic cell genetics. Emphasis is placed on the molecular basis of heredity, chromosome structure, patterns of Mendelian and non-Mendelian inheritance, evolution, and biotechnological applications. Upon completion, students should be able to recognize and describe genetic phenomena and demonstrate knowledge of important genetic principles. (S12198)

<b>BIO 275* Microbiology</b>	3	3	0	4
------------------------------	---	---	---	---

Prerequisites: Take one: BIO 110 or BIO 111 or  
BIO 163 or BIO 165 or BIO 168

Corequisites: None

This course covers principles of microbiology and the impact these organisms have on man and the environment. Topics include the various groups of microorganisms, their structure, physiology, genetics, microbial pathogenicity, infectious diseases, immunology, and selected practical applications. Upon completion, students should be able to demonstrate knowledge and skills including microscopy, aseptic technique, staining, culture methods, and identification of microorganisms. (S22585)

<b>BMS 117 Marine Spray Finishing</b>	1	2	0	2
---------------------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course covers the fundamental techniques used in the preparation and application of marine finishes, using modern coatings and spray equipment common to the marine manufacturing and service industry. Emphasis is placed on safety, product data sheets, mixing ratios, proper spray technique, troubleshooting finishes and equipment. Upon completion, students should be able to correctly operate tools to efficiently prepare surfaces, apply fairing compounds, primers and finish coats to industry standards. (S21973)

	Class	Lab	Clinical	Credits
<b>BPA 120 Petit Fours &amp; Pastries</b>	1	4	0	3

Prerequisites: Take CUL 110 and CUL 160

Corequisites: None

This course introduces the basic principles of the preparation and plating of a variety of petit fours and individual dessert pastries. Emphasis is placed on traditional and contemporary petit fours and pastries utilizing updated production methods. Upon completion, students should be able to produce individual pastries and petit fours for buffet and special event settings. (S22827)

<b>BPA 130 European Cakes and Tortes</b>	1	4	0	3
--	---	---	---	---

Prerequisites: Take CUL 110 and CUL 160

Corequisites: None

This course introduces the production of a wide variety of classical and modern cakes suitable for restaurants, retail shops and large-scale production. Emphasis is placed on classic cakes using the methods of mixing, filling, glazing and icing. Upon completion, students should be able to prepare, assemble, and decorate gelatin-based and layered tortes and cakes such as Bavarian, Dobos, and Sacher. **\*\*This is a Fall Only Class\*\*** (S22828)

<b>BPA 150 Artisan &amp; Specialty Bread</b>	1	6	0	4
--	---	---	---	---

Prerequisites: Take CUL 110 and CUL 160

Corequisites: None

This course provides an advanced study in the art and craft of bread making. Topics include pertinent formulas and techniques associated with naturally leavened loaves, hearth breads, focaccia, flat breads, and other breads utilizing a variety of grains. Upon completion, students should be able to prepare artisan and specialty breads that meet or exceed the expectations of restaurant and retail publics. **\*\*This is a Spring Only Class\*\*** (S20739)

<b>BPA 165 Hot and Cold Desserts</b>	1	4	0	3
--------------------------------------	---	---	---	---

Prerequisites: Take CUL 110 and CUL 160

Corequisites: None

This course covers the principles and techniques of frozen desserts, soufflés, cobblers, crisps, and strudel dough products. Topics include bombes, parfaits, baked Alaska, ice cream, sorbets, sherbets and granites; hand-stretched strudel products, crepes, and hot/cold soufflés. Upon completion, student should be able to prepare and plate hot and cold desserts with suitable sauces and garnishes. **\*\*This is a Spring Only Class\*\*** (S22829)

<b>BPA 210 Cake Design &amp; Decorating</b>	1	4	0	3
---	---	---	---	---

Prerequisites: Take CUL 110 and CUL 160

Corequisites: None

This course covers advanced concepts in the design and decoration of wedding cakes and other specialty cakes. Topics include baking, filling, and assembling cakes; cake design; finishing techniques utilizing gum paste, fondant, and royal icing; and advanced piping skills. Upon completion, students should be able to design, create, finish and evaluate the quality of wedding and specialty cakes. **\*\*This is a Spring Only Class\*\*** (S22830)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>BPA 220 Confection Artistry</b>	1	6	0	4
Prerequisites: Take CUL 110 and CUL 160				
Corequisites: None				

This course introduces the principles and techniques of decorative sugar work and confectionary candy. Topics include nougat, marzipan modeling, pastillage and cocoa painting, confection candy and a variety of sugar techniques including blown, spun, poured and pulled. Upon completion, students should be able to prepare edible centerpieces and confections to enhance dessert buffets and plate presentations. **\*\*This is a Fall Only Class\*\*** (S20764)

<b>BPA 230 Chocolate Artistry</b>	1	4	0	3
Prerequisites: Take CUL 110 and CUL 160				
Corequisites: None				

This course provides a study in the art and craft of chocolate. Topics include chocolate tempering, piping, and molding; decorative work associated with cakes and centerpieces; and the candy production techniques of filling, enrobing and dipping. Upon completion, students should be able to properly evaluate tempered chocolate and produce a variety of chocolate candies and decorative elements for garnishing desserts. **\*\*This is a Spring Only Class\*\*** (S22831)

<b>BPA 230A Chocolate Artistry Lab</b>	0	2	0	1
--	---	---	---	---

Prerequisites: Take CUL 110 and CUL 160  
Corequisites: Take BPA 230

This course provides a laboratory experience for enhancing student skills in the art and craft of chocolate. Emphasis is placed on chocolate tempering, piping, and molding; decorative work associated with cakes and centerpieces; and candy production techniques of filling, enrobing and dipping. Upon completion, students should be able to demonstrate a basic proficiency in the preparation of decorative chocolate centerpieces, garnishes and candies. **\*\*This is a Spring Only Class\*\*** (S22803)

<b>BPA 240 Plated Desserts</b>	1	4	0	3
Prerequisites: Take CUL 110 and CUL 160				
Corequisites: None				

This course provides a study in the elements and principles of design as they relate to plated desserts. Topics include plate composition, portioning, flavor pairings, textures, temperatures, eye appeal, balance, color harmony and plate decorating/painting techniques such as stenciling and chocolate striping. Upon completion, students should be able to demonstrate competence in combining a variety of dessert components enhanced with plate decorating techniques. **\*\*This is a Fall Only Class\*\*** (S22832)

	Class	Lab	Clinical	Credits
<b>BPA 250 Dessert and Bread Production</b>	1	8	0	5
Prerequisites: Take BPA 150				
Corequisites: None				

This course is designed to merge artistry and innovation with the practical baking and pastry techniques utilized in a production setting. Emphasis is placed on quantity bread and roll-in dough production, plated and platter presentations, seasonal/theme product utilization and cost effectiveness. Upon completion, students should be able to plan, prepare and evaluate breads and desserts within a commercial environment and determine production costs and selling prices. (S23072)

<b>BPA 260 Pastry &amp; Baking Marketing</b>	2	2	0	3
Prerequisites: Take BPA 150 and BPA 210				
Corequisites: Take BPA 250				

This course is designed to cover the marketing concepts and merchandising trends utilized in bakery and pastry operations. Emphasis is placed on menu planning, pricing products/strategies, resale and wholesale distribution methods, legal implications, and advertising techniques. Upon completion, students should be able to create a marketing plan that will serve as a basis for a capstone experience. **\*\*This is a Spring Only Class\*\*** (S22834)

<b>BPR 111 Print Reading</b>	1	2	0	2
Prerequisites: None				
Corequisites: None				

This course introduces the basic principles of print reading. Topics include line types, orthographic projections, dimensioning methods, and notes. Upon completion, students should be able to interpret basic prints and visualize the features of a part or system. **\*\*This is a Fall Only Class\*\*** (S23466)

<b>BPR 121 Blueprint Reading - Mechanical</b>	1	2	0	2
---	---	---	---	---

Prerequisites: Take one: BPR 111 or MAC 131  
Corequisites: None

This course covers the interpretation of intermediate blueprints. Topics include tolerancing, auxiliary views, sectional views, and assembly drawings. Upon completion, students should be able to read and interpret a mechanical working drawing. **\*\*This is a Spring Only Class\*\*** (S10436)

<b>BPR 130 Print Reading-Construction</b>	3	0	0	3
Prerequisites: None				
Corequisites: None				

This course covers the interpretation of prints and specifications that are associated with design and construction projects. Topics include interpretation of documents for foundations, floor plans, elevations, and related topics. Upon completion, students should be able to read and interpret construction prints and documents. **\*\*This is a Fall Only Class\*\*** (S23275)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>BTB 101 Boat Building I</b>	5	15	0	10
Prerequisites: None				
Corequisites: Take DFT 100				

This course introduces the modern wood and composite boat shop. Topics include maintaining, sharpening, and safely using hand and power tools; building station molds; and setting up the building jig prior to planking a boat. Upon completion, students should be able to set up a building jig for any boat and use it for the planking process. (S23276)

<b>BTB 101A Boat Building I</b>	3	6	0	5
Prerequisites: None				
Corequisites: Take DFT 100				
Restrictions: Must be enrolled in C35120 Boat Building – Wooden (Cert) program				

This course introduces the modern wood and composite boat shop. Topics include maintaining, sharpening, and safely using hand and power tools; lofting; and properly utilizing materials common in the boat-building industry.

<b>BTB 101B Boat Building I</b>	2	9	0	5
Prerequisites: Take BTB 101A and DFT 100				
Corequisites: None				
Restrictions: Must be enrolled in C35120 Boat Building – Wooden (Cert) program				

Upon completion, students should be able to loft a simple flat or V-bottom boat and build it using sheet plywood construction methods.

<b>BTB 102 Boat Building II</b>	4	15	0	9
Prerequisites: Take BTB 101				
Corequisites: None				

This course introduces more advanced hull development. Topics include advanced lofting, building jigs and birdcage building forms, wood and composite lamination techniques, marine finishing materials and methods, and quality control procedures. Upon completion, students should be able to build, fit out, and finish a small boat using modern fabrics, core materials, and methods of construction. (S23277)

<b>BTB 103 Yacht Joiner Practices I</b>	2	4	0	4
Prerequisites: Take BTB 101				
Corequisites: Take BTB 102				

This course introduces the fundamental skills and attention to detail necessary to fine yacht joinery. Emphasis is placed on fitting, mortise/tenon, and dowel joints; fitting dadoes in grooves; and building a project to close tolerances from a blueprint. Upon completion, students should be able to build a cabinet carcass with face frame, round corner posts, laminate surfaces, and a dove-tailed drawer. (S23278)

	Class	Lab	Clinical	Credits
<b>BTB 104 Yacht Joiner Practices II</b>	1	4	0	3
Prerequisites: Take BTB 103				
Corequisites: Take BTB 102 and BTB 105				

This course covers advanced yacht joiner practices and emphasizes finishing cabinets and rough-in of yacht interiors. Topics include manufacturing and fitting moldings, door construction methods, bright work finishing, and bulkhead and cabin sole fitting and installation. Upon completion, students should be able to build raised panel doors and moldings, apply modern finishes, and rough in bulkheads, soles, and yacht furniture. (S23279)

<b>BTB 105 Yacht Repair/ Renovation</b>	3	4	0	5
Prerequisites: Take BTB 102				
Corequisites: None				

This course introduces repair/renovation principles and methods for wood and fiberglass boats. Emphasis is placed on surveying boats for needed repairs, planning repairs, and estimating costs in tools, materials, and techniques used in repair and renovation. Upon completion, students should be able to plan and execute repairs in wood and fiberglass boats (structural and cosmetic) and execute marine refinishing techniques. (S23280)

<b>BTB 106 Engine Install/Systems</b>	2	9	0	5
Prerequisites: None				
Corequisites: None				

This course familiarizes students with marine engines and related systems, installation, troubleshooting and minor repairs. Topics covered are drivetrains and cooling, fuel, exhaust, and electrical systems for a typical inboard engine. Upon completion, students should be able to install, troubleshoot, and perform minor repairs on marine engines and related systems. (S21974)

<b>BTB 107 Boat Electrical Systems</b>	2	9	0	5
Prerequisites: None				
Corequisites: None				

This course teaches students the skills necessary to wire 12-volt direct current and 120-volt alternating current electrical systems found on modern boats. Topics covered are electrical system and wiring sizing, batteries, wire harnesses, distribution panels, electronic component installation, and electrical system troubleshooting. Upon completion, students should be able to install a complete electrical system on a mock-up yacht. (S21975)

<b>BTB 108 Boat Plumbing Systems</b>	2	6	0	4
Prerequisites: None				
Corequisites: None				

This course is an introduction to the plumbing systems used on modern yachts. Topics will include pressurized hot water systems, water closets, sanitation systems, thru hulls, and sea cocks. Upon completion, students should be able to install heads, showers, and drains found on yachts. (S23843)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>BTB 109 Yacht Rigging</b>	1	2	0	2

Prerequisites: None

Corequisites: None

This course provides an introduction of Marlinspike Seamanship, rigging and tuning masts, and commissioning yachts. Topics covered are knot tying, whipping lines, standing and running rigging on spars, maintaining winches, anchoring systems and care and rigging of sails. Upon completion, students should be able to efficiently complete yacht rigging competencies to industry standards. (S23281)

<b>BTB 110 Fiberglass Boat Building I</b>	2	9	0	5
---	---	---	---	---

Prerequisites: None

Corequisites: None

This course introduces fiberglass boat building using polyester and vinylester resins in conjunction with single skin and composite covered construction. Topics covered are the types and uses of resins, fabrics, and cores, and chopper and gel coat guns. Upon completion, students should be able to build a composite core boat and a single skin boat. (S21978)

<b>BTB 111 Fiberglass Boat Building II</b>	2	9	0	5
--	---	---	---	---

Prerequisites: Take BTB 110

Corequisites: None

This course covers the skills necessary to build fiberglass molds for hulls and decks. Topics include the proper use of tooling gel coats, proper lay-ups, heat problems during lay-ups, reinforcing techniques and resin infusion. Upon completion, students should be able to build a female mold, a "quickie" female deck mold and various "quickie" male molds for custom parts. (S21979)

<b>BTB 112 Fiberglass Boat Repairs</b>	2	2	0	3
--	---	---	---	---

Prerequisites: None

Corequisites: None

This course covers many aspects of fiberglass hull and deck repair. Topics include performing repairs on single skin hulls, composite hulls, decks and gel coats. Upon completion, students should be able to demonstrate skills necessary to repair damaged laminates to boat industry standards. (S21980)

<b>BTB 115 Hull and Joinerwork Preparation</b>	1	4	0	3
--	---	---	---	---

Prerequisites: None

Corequisites: None

This course covers the proper techniques for prepping all boat surfaces for stain, paint or varnish. Emphasis is placed on the safe use of faring and glazing compounds and various primers. Upon completion, students should be able to demonstrate the techniques required to prepare a boat hull for various finishes and topcoats. (S23862)

	Class	Lab	Clinical	Credits
<b>BUS 110* Introduction to Business</b>	3	0	0	3

Prerequisites: Take DRE 097

Corequisites: None

This course provides a survey of the business world. Topics include the basic principles and practices of contemporary business. Upon completion, students should be able to demonstrate an understanding of business concepts as a foundation for studying other business subjects. (S24149)

<b>BUS 115* Business Law I</b>	3	0	0	3
--------------------------------	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or

ENG 111 or RED 090

Corequisites: None

This course introduces the student to the legal and ethical framework of business. Contracts, negotiable instruments, the law of sales, torts, crimes, constitutional law, the Uniform Commercial Code, and the court systems are examined. Upon completion the student should be able to identify legal and ethical issues that arise in business decisions and the laws that apply to them. (S24153)

<b>BUS 121 Business Math</b>	2	2	0	3
------------------------------	---	---	---	---

Prerequisites: Take DMA 010 and DMA 020 and DMA 030

Corequisites: None

This course covers fundamental mathematical operations and their application to business problems. Topics include payroll, pricing, interest and discount, commission, taxes, and other pertinent uses of mathematics in the field of business. Upon completion, students should be able to apply mathematical concepts to business. (S14289)

<b>BUS 125 Personal Finance</b>	3	0	0	3
---------------------------------	---	---	---	---

Prerequisites: Take DMA 010 and DMA 020 and DMA 030

Corequisites: None

This course provides a study of individual and family financial decisions. Emphasis is placed on building useful skills in buying, managing finances, increasing resources, and coping with current economic conditions. Upon completion, students should be able to develop a personal financial plan. (S14300)

<b>BUS 135 Principles of Supervision</b>	3	0	0	3
--	---	---	---	---

Prerequisites: Take BUS 110

Corequisites: None

This course introduces the basic responsibilities and duties of the supervisor and his/her relationship to higher-level supervisors, subordinates, and associates. Emphasis is placed on effective utilization of the workforce and understanding the role of the supervisor. Upon completion, students should be able to apply supervisory principles in the workplace. (S12738)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>BUS 137* Principles of Management</b>	3	0	0	3

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course is designed to be an overview of the major functions of management. Emphasis is placed on planning, organizing, controlling, directing, and communicating. Upon completion, students should be able to work as contributing members of a team utilizing these functions of management. (S24151)

<b>BUS 225 Business Finance</b>	2	2	0	3
---------------------------------	---	---	---	---

Prerequisites: Take ACC 120 and BUS 121 and  
DMA 010 and DMA 020 and  
DMA 030

Corequisites: None

This course provides an overview of business financial management. Emphasis is placed on financial statement analysis, time value of money, management of cash flow, risk and return, and sources of financing. Upon completion, students should be able to interpret and apply the principles of financial management. (S13686)

<b>BUS 230 Small Business Management</b>	3	0	0	3
--	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course introduces the challenges of entrepreneurship including the startup and operation of a small business. Topics include market research techniques, feasibility studies, site analysis, financing alternatives, and managerial decision-making. Upon completion, students should be able to develop a small business plan. (S11937)

<b>BUS 239 Bus Applications Seminar</b>	1	2	0	2
---	---	---	---	---

Prerequisites: Take ACC 120 and BUS 115 and  
BUS 137 and MKT 120

Take one: ECO 151 or ECO 251 or ECO 252

Corequisites: None

This course is designed as a capstone course for Business Administration majors. Emphasis is placed on decision making in the areas of management, marketing, production, purchasing, and finance. Upon completion, students should be able to apply the techniques, processes, and vital professional skills needed in the workplace. (S12076)

<b>BUS 240 Business Ethics</b>	3	0	0	3
--------------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course introduces contemporary and controversial ethical issues that face the business community. Topics include moral reasoning, moral dilemmas, law and morality, equity, justice and fairness, ethical standards, and moral development. Upon completion, students should be able to demonstrate an understanding of their moral responsibilities and obligations as members of the workforce and society. (S14002)

<b>BUS 253 Leadership and Management Skills</b>	3	0	0	3
---	---	---	---	---

Prerequisites: None

Corequisites: None

This course includes a study of the qualities, behaviors, and personal styles exhibited by leaders. Emphasis is placed on coaching, counseling, team building, and employee involvement. Upon completion, students should be able to identify and exhibit the behaviors needed for organizational effectiveness. (S13328)

<b>BUS 260 Business Communication</b>	3	0	0	3
---------------------------------------	---	---	---	---

Prerequisites: Take one: ENG 110 or ENG 111

Take one: CIS 110 or CIS 111

Corequisites: None

This course is designed to develop skills in writing business communications. Emphasis is placed on business reports, correspondence, and professional presentations. Upon completion, students should be able to communicate effectively in the workplace. (S23621)

<b>BUS 285 Business Management Issues</b>	2	2	0	3
---	---	---	---	---

Prerequisites: Take ACC 120 and BUS 115 and  
BUS 137 and ECO 151 and  
MKT 120

Corequisites: None

This course covers contemporary issues that affect successful businesses and their managers and employees. Emphasis is placed on using case studies and exercises to develop analytical and problem-solving skills, ethics, quality management concepts, team skills, and effective communication. Upon completion, students should be able to apply the specific knowledge and skills covered to become more effective managers and employees. (S14221)

Class Lab Clinical Credits

# CAR 111 – CVS 277

**CAR 111 Carpentry I** 3 15 0 8  
Prerequisites: None  
Corequisites: None

This course introduces the theory and construction methods associated with the building industry, including framing, materials, tools, and equipment. Topics include safety, hand/power tool use, site preparation, measurement and layout, footings and foundations, construction framing, and other related topics. Upon completion, students should be able to safely lay out and perform basic framing skills with supervision. **\*\*This is a Fall Only Class\*\*** (S16248)

**CAR 112 Carpentry II** 3 15 0 8  
Prerequisites: Take CAR 111  
Corequisites: None

This course covers the advanced theory and construction methods associated with the building industry including framing and exterior finishes. Topics include safety, hand/power tool use, measurement and layout, construction framing, exterior trim and finish, and other related topics. Upon completion, students should be able to safely frame and apply exterior finishes to a residential building with supervision. **\*\*This is a Spring Only Class\*\*** (S16249)

**CAR 113 Carpentry III** 3 9 0 6  
Prerequisites: Take CAR 111  
Corequisites: None

This course covers interior trim and finishes. Topics include safety, hand/power tool use, measurement and layout, specialty framing, interior trim and finishes, cabinetry, and other related topics. Upon completion, students should be able to safely install various interior trim and finishes in a residential building with supervision. **\*\*This is a Summer Only Class\*\*** (S11773)

**CAR 114 Residential Building Codes** 3 0 0 3  
Prerequisites: None  
Corequisites: None

This course covers building codes and the requirements of state and local construction regulations. Emphasis is placed on the minimum requirements of the North Carolina building codes related to residential structures. Upon completion, students should be able to determine if a structure is in compliance with North Carolina building codes. **\*\*This is a Summer Only Class\*\*** (S11702)

Class Lab Clinical Credits

**CAR 115 Residential Planning/Estimating** 3 0 0 3

Prerequisites: Take BPR 130  
Corequisites: None

This course covers project planning, management, and estimating for residential or light commercial buildings. Topics include planning and scheduling, interpretation of working drawings and specifications, estimating practices, and other related topics. Upon completion, students should be able to perform quantity take-offs and cost estimates. **\*\*This is a Spring Only Class\*\*** (S11735)

**CCT 250 Network Vulnerabilities I** 2 2 0 3

Prerequisites: Take one: CTI 120 or NET 110  
Corequisites: None

This course introduces students to penetration testing, network vulnerabilities, and hacking. Topics include an overview of traditional network security, system hardening, and known weaknesses. Upon completion, students should be able to evaluate weaknesses of traditional and wireless network for the purpose of incident response, reconstruction, and forensic investigation. (S24040)

**CCT 251 Network Vulnerabilities II** 2 2 0 3

Prerequisites: Take CCT 250  
Corequisites: None

This course advances students' knowledge of penetration testing, network vulnerabilities, and hacking. Topics include analyzing advanced techniques for circumventing network security hardware and software. Upon completion, students should be able to assemble test kits for multiple operating systems, scan and footprint networks, and perform advanced forensic investigation. (S21750)

**CCT 260 Mobile Phone Examination** 1 4 0 3

Prerequisites: Take CET 150  
Corequisites: None

This course introduces the unique skills and methodologies necessary to assist in the investigation and prosecution of cybercrimes involving mobile phones. Topics include the basics of the cellular networks as well as data extraction from GSM, iDEN and CDMA handsets. Upon completion, students should be able to use the course processes and methodologies to obtain forensic evidence from GSM, iDEN and CDMA handsets. (S22653)

	Class	Lab	Clinical	Credits
<b>CET 125 Voice and Data Cabling</b>	2	3	0	3

Prerequisites: None

Corequisites: None

This course provides an understanding of the industry and its worldwide standards, types of media and cabling, physical and logical networks, including signal transmission. Topics include network design documentation, part list set-up, pulling and mounting cable, cable management, wiring closets, patch panel installation and termination including cable testing. Upon completion, students should be able to understand documentation, design, installation and safety issues associated with voice and data cabling. (S20154)

	Class	Lab	Clinical	Credits
<b>CET 130 Operating System Principles</b>	2	3	0	3

Prerequisites: None

Corequisites: None

This course introduces the concepts, usage, internals and applications of operating systems used in engineering technology. Topics include resource management, shells, schedulers, file systems, networking, software considerations and other related topics. Upon completion, students should be able to choose and evaluate an operating system for engineering applications. (S21771)

	Class	Lab	Clinical	Credits
<b>CET 150 Computer Forensics I</b>	2	3	0	3

Prerequisites: Take one: CET 130 or CTS 120

Corequisites: None

This course is an introduction to computer forensic concepts, with emphasis on computer forensic methods and best practices. Topics include computer system analysis, physical and logical storage methods for different types of media, tools to recover and analyze data from storage media, system security. Upon completion, students should be able to use diagnostic and investigative techniques to identify and retrieve data from various types of computer media. (S21772)

	Class	Lab	Clinical	Credits
<b>CET 172 Internet Technologies</b>	2	3	0	3

Prerequisites: None

Corequisites: None

The goal of this course is to provide an introduction to Internet technologies and prepare students to pass vendor independent internet technology certification exams. Topics cover using different Internet protocols, programming on the Internet, the OSI model, the Internet infrastructure, security, and e-commerce. Upon completion, students should be prepared to take vendor independent Internet technology certification exams. (S21775)

	Class	Lab	Clinical	Credits
<b>CET 211 Computer Upgrade/Repair II</b>	2	3	0	3

Prerequisites: None

Corequisites: Take CIS 110

This course covers concepts of repair, service, and upgrade of computers and peripherals in preparation for industry certification. Topics may include resolving resource conflicts and system bus specifications, configuration and troubleshooting peripherals, operating system configuration and optimization, and other related topics. Upon completion, students should be able to identify and resolve system conflicts and optimize system performance. (S21575)

	Class	Lab	Clinical	Credits
<b>CET 245 Internet Servers</b>	2	3	0	3

Prerequisites: Take CET 130

Corequisites: None

This course covers the setup and management of Internet server hardware and software. Topics include TCP/IP, FTP, SMTP, and HTTP; installation and configuration of server software for web, FTP, DNS, mail, and other services. Upon completion, students should be able to set up and maintain Internet servers. (S21578)

	Class	Lab	Clinical	Credits
<b>CET 250 Computer Forensics II</b>	2	3	0	3

Prerequisites: Take CET 150

Corequisites: None

This course is a study in computer forensic practices with emphasis placed on methods used for prevention, detection, and apprehension of perpetrators of cyber-criminal activity. Topics include the roles of Chief Security Officers in the securing of system breaches, vulnerabilities, network and server security issues, OS and application security risks. Upon completion students should be able to identify and collect evidence to prove unauthorized and inappropriate access on computer systems and networks. (S21781)

	Class	Lab	Clinical	Credits
<b>CHM 121 Foundations of Chemistry</b>	3	0	0	3

Prerequisites: None

Corequisites: None

This course is designed for those who have no previous high school chemistry or a grade of C or less in high school chemistry. Topics include matter, structure of the atom, nomenclature, chemical equations, bonding and reactions; mathematical topics include measurements, scientific notation, and stoichiometry. Upon completion, students should be able to demonstrate an understanding of chemical concepts and an ability to solve related problems in subsequent chemistry courses. (S14237)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>CHM 130* General, Organic, &amp; Biochemistry</b>	3	0	0	3

Prerequisites: Take DMA 010, DMA 020, and DMA 030  
Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course provides a survey of basic facts and principles of general, organic, and biochemistry. Topics include measurement, molecular structure, nuclear chemistry, solutions, acid-base chemistry, gas laws, and the structure, properties, and reactions of major organic and biological groups. Upon completion, students should be able to demonstrate an understanding of fundamental chemical concepts. (S12547)

<b>CHM 130A* General, Organic, &amp; Biochemistry Lab</b>	0	2	0	1
---	---	---	---	---

Prerequisites: None  
Corequisites: Take CHM 130

This course is a laboratory for CHM 130. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 130. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical principles presented in CHM 130. (S12547)

<b>CHM 131* Introduction to Chemistry</b>	3	0	0	3
---	---	---	---	---

Prerequisites: Take DMA 010, DMA 020, DMA 030,  
DMA 040, and DMA 050  
Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None  
Corequisites: Take CHM 131A

This course introduces the fundamental concepts of inorganic chemistry. Topics include measurement, matter and energy, atomic and molecular structure, nuclear chemistry, stoichiometry, chemical formulas and reactions, chemical bonding, gas laws, solutions, and acids and bases. Upon completion, students should be able to demonstrate a basic understanding of chemistry as it applies to other fields. (S12692)

<b>CHM 131A* Introduction to Chemistry Lab</b>	0	3	0	1
--	---	---	---	---

Prerequisites: Take DMA 010, DMA 020, DMA 030,  
DMA 040, and DMA 050  
Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: Take CHM 131

This course is a laboratory to accompany CHM 131. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 131. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical principles presented in CHM 131. (S12403)

	Class	Lab	Clinical	Credits
<b>CHM 151** General Chemistry I</b>	3	3	0	4

Prerequisites: Take DRE 098, DMA 010, DMA 020,  
DMA 030, DMA 040, DMA 050,  
DMA 060, DMA 070, and DMA 080

Corequisites: None

This course covers fundamental principles and laws of chemistry. Topics include measurement, atomic and molecular structure, periodicity, chemical reactions, chemical bonding, stoichiometry, thermochemistry, gas laws, and solutions. Upon completion, students should be able to demonstrate an understanding of fundamental chemical laws and concepts as needed in CHM 152. *This is a Universal General Education Transfer Component (UGETC) course.* [SBCC/BOG 02/21/14] (S12258)

<b>CHM 152** General Chemistry II</b>	3	3	0	4
---------------------------------------	---	---	---	---

Prerequisites: Take CHM 151  
Corequisites: None

This course provides a continuation of the study of the fundamental principles and laws of chemistry. Topics include kinetics, equilibrium, ionic and redox equations, acid-base theory, electrochemistry, thermodynamics, introduction to nuclear and organic chemistry, and complex ions. Upon completion, students should be able to demonstrate an understanding of chemical concepts as needed to pursue further study in chemistry and related professional fields. *This is a Universal General Education Transfer Component (UGETC) course.* [SBCC/BOG 02/21/14] (S12137)

<b>CHM 251* Organic Chemistry I</b>	3	3	0	4
-------------------------------------	---	---	---	---

Prerequisites: Take CHM 152  
Corequisites: None

This course provides a systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of hydrocarbons, alkyl halides, alcohols, and ethers; further topics include isomerization, stereochemistry, and spectroscopy. Upon completion, students should be able to demonstrate an understanding of the fundamental concepts of covered organic topics as needed in CHM 252. (S13152)

<b>CHM 252* Organic Chemistry II</b>	3	3	0	4
--------------------------------------	---	---	---	---

Prerequisites: Take CHM 251  
Corequisites: None

This course provides continuation of the systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of aromatics, aldehydes, ketones, carboxylic acids and derivatives, amines and heterocyclics; multi-step synthesis will be emphasized. Upon completion, students should be able to demonstrate an understanding of organic concepts as needed to pursue further study in chemistry and related professional fields. (S13184)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>CIS 070      Fundamentals of Computing</b>	0	2	0	1
Prerequisites: None				
Corequisites: None				

This course covers fundamental functions and operations of the computer. Topics include identification of components, overview of operating systems, and other basic computer operations. Upon completion, students should be able to operate computers, access files, print documents and perform basic applications operations. (S11239)

<b>CIS 110*      Introduction to Computers</b>	2	2	0	3
--	---	---	---	---

Prerequisites: Take DRE 098, DMA 010, DMA 020, DMA 030, and DMA 040

Corequisites: None

This course introduces computer concepts, including fundamental functions and operations of the computer. Topics include identification of hardware components, basic computer operations, security issues, and use of software applications. Upon completion, students should be able to demonstrate an understanding of the role and function of computers and use the computer to solve problems. (S21058)

<b>CIS 111      Basic PC Literacy</b>	1	2	0	2
---------------------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course provides an overview of computer concepts. Emphasis is placed on the use of personal computers and software applications for personal and fundamental workplace use. Upon completion, students should be able to demonstrate basic personal computer skills. (S21059)

<b>CIS 115*      Introduction to Programming and Logic</b>	2	3	0	3
--	---	---	---	---

Prerequisites: Take one set:

Set 1: DMA 010, DMA 020, DMA 030, and DMA 040

Set 2: MAT 121

Set 3: MAT 171

Corequisites: None

This course introduces computer programming and problem solving in a structured program logic environment. Topics include language syntax, data types, program organization, problem solving methods, algorithm design, and logic control structures. Upon completion, students should be able to use top-down algorithm design and implement algorithmic solutions in a programming language. (S24352)

	Class	Lab	Clinical	Credits
<b>CJC 100      Basic Law Enforcement Training</b>	9	30	0	19

Prerequisites: None

Corequisites: None

This course covers the basic skills and knowledge needed for entry-level employment as a law enforcement officer in North Carolina. Topics are divided into general units of study: legal, patrol duties, law enforcement communications, investigations, practical application and sheriff-specific. Upon successful completion, the student will be able to demonstrate competence in the topics and areas required for the state comprehensive certification examination. This is a certificate-level course. (S21127)

<b>CJC 111*      Introduction to Criminal Justice</b>	3	0	0	3
---	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090

Corequisites: None

This course introduces the components and processes of the criminal justice system. Topics include history, structure, functions, and philosophy of the criminal justice system and their relationship to life in our society. Upon completion, students should be able to define and describe the major system components and their interrelationships and evaluate career options. (S10631)

<b>CJC 112      Criminology</b>	3	0	0	3
---------------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course introduces deviant behavior as it relates to criminal activity. Topics include theories of crime causation; statistical analysis of criminal behavior; past, present, and future social control initiatives; and other related topics. Upon completion, students should be able to explain and discuss various theories of crime causation and societal response. (S10598)

<b>CJC 113      Juvenile Justice</b>	3	0	0	3
--------------------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course covers the juvenile justice system and related juvenile issues. Topics include an overview of the juvenile justice system, treatment and prevention programs, special areas and laws unique to juveniles, and other related topics. Upon completion, students should be able to identify/discuss juvenile court structure/procedures, function and jurisdiction of juvenile agencies, processing/detention of juveniles, and case disposition. (S10602)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>CJC 114 Investigative Photography</b>	1	2	0	2

Prerequisites: None

Corequisites: None

This course covers the operation of digital photographic equipment and its application to criminal justice. Topics include the use of digital cameras, storage of digital images, the retrieval of digital images and preparation of digital images as evidence. Upon completion, students should be able to demonstrate and explain the role and use of digital photography, image storage and retrieval in criminal investigations. (S20900)

<b>CJC 120 Interviews/Interrogations</b>	1	2	0	2
--	---	---	---	---

Prerequisites: None

Corequisites: None

This course covers basic and special techniques employed in criminal justice interviews and interrogations. Emphasis is placed on the interview/interrogation process, including interpretation of verbal and physical behavior and legal perspectives. Upon completion, students should be able to conduct interviews/interrogations in a legal, efficient, and professional manner and obtain the truth from suspects, witnesses, and victims. (S11674)

<b>CJC 121* Law Enforcement Operations</b>	3	0	0	3
--	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course introduces fundamental law enforcement operations. Topics include the contemporary evolution of law enforcement operations and related issues. Upon completion, students should be able to explain theories, practices, and issues related to law enforcement operations. (S11746)

<b>CJC 122 Community Policing</b>	3	0	0	3
-----------------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course covers the historical, philosophical, and practical dimensions of community policing. Emphasis is placed on the empowerment of police and the community to find solutions to problems by forming partnerships. Upon completion, students should be able to define community policing, describe how community-policing strategies solve problems, and compare community policing to traditional policing. (S11648)

<b>CJC 131 Criminal Law</b>	3	0	0	3
-----------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course covers the history/evolution/principles and contemporary applications of criminal law. Topics include sources of substantive law, classification of crimes, parties to crime, elements of crimes, matters of criminal responsibility, and other related topics. Upon completion, students should be able to discuss the sources of law and identify, interpret, and apply the appropriate statutes/elements. (S11110)

	Class	Lab	Clinical	Credits
<b>CJC 132 Court Procedure &amp; Evidence</b>	3	0	0	3

Prerequisites: None

Corequisites: None

This course covers judicial structure/process/procedure from incident to disposition, kinds and degrees of evidence, and the rules governing admissibility of evidence in court. Topics include consideration of state and federal courts, arrest, search and seizure laws, exclusionary and statutory rules of evidence, and other related issues. Upon completion, students should be able to identify and discuss procedures necessary to establish a lawful arrest/search, proper judicial procedures, and the admissibility of evidence. (S11046)

<b>CJC 141* Corrections</b>	3	0	0	3
-----------------------------	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course covers the history, major philosophies, components, and current practices and problems of the field of corrections. Topics include historical evolution, functions of the various components, alternatives to incarceration, treatment programs, inmate control, and other related topics. Upon completion, students should be able to explain the various components, processes, and functions of the correctional system. (S12643)

<b>CJC 160 Terrorism: Underlying Issues</b>	3	0	0	3
---	---	---	---	---

Prerequisites: None

Corequisites: None

This course identifies the fundamental reasons why America is a target for terrorists, covering various domestic/international terrorist groups and ideologies from a historical aspect. Emphasis is placed upon recognition of terrorist crime scene; weapons of mass destruction; chemical, biological, and nuclear terrorism; and planning considerations involving threat assessments. Upon completion, students should be able to identify and discuss the methods used in terrorists' activities and complete a threat assessment for terrorists' incidents. (S20701)

<b>CJC 170 Critical Incident Management for Public Safety</b>	3	0	0	3
---	---	---	---	---

Prerequisites: None

Corequisites: None

This course prepares the student to specialize in the direct response, operations, and management of critical incidents. Emphasis is placed upon the theoretical and applied models to understand and manage disasters, terrorism, and school/workplace violence. Upon completion, the student should be able to identify and discuss managerial techniques legal issues, and response procedures to critical incidents. (S20591)

## COURSE DESCRIPTIONS

		Class	Lab	Clinical	Credits
<b>CJC 212</b>	<b>Ethics &amp; Community Relations</b>	3	0	0	3

Prerequisites: None  
Corequisites: None

This course covers ethical considerations and accepted standards applicable to criminal justice organizations and professionals. Topics include ethical systems; social change, values, and norms; cultural diversity; citizen involvement in criminal justice issues; and other related topics. Upon completion, students should be able to apply ethical considerations to the decision-making process in identifiable criminal justice situations. (S10970)

<b>CJC 213</b>	<b>Substance Abuse</b>	3	0	0	3
----------------	------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course is a study of substance abuse in our society. Topics include the history and classifications of drug abuse and the social, physical, and psychological impact of drug abuse. Upon completion, students should be able to identify various types of drugs, their effects on human behavior and society, and treatment modalities. (S10983)

<b>CJC 214</b>	<b>Victimology</b>	3	0	0	3
----------------	--------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces the study of victims. Emphasis is placed on roles/characteristics of victims, victim interaction with the criminal justice system and society, current victim assistance programs, and other related topics. Upon completion, students should be able to discuss and identify victims, the uniqueness of victims' roles, and current victim assistance programs. (S10951)

<b>CJC 215</b>	<b>Organization &amp; Administration</b>	3	0	0	3
----------------	--	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces the components and functions of organization and administration as it applies to the agencies of the criminal justice system. Topics include operations/functions of organizations; recruiting, training, and retention of personnel; funding and budgeting; communications; span of control and discretion; and other related topics. Upon completion, students should be able to identify and discuss the basic components and functions of a criminal justice organization and its administrative operations. (S11008)

		Class	Lab	Clinical	Credits
<b>CJC 221</b>	<b>Investigative Principles</b>	3	2	0	4

Prerequisites: None  
Corequisites: None

This course introduces the theories and fundamentals of the investigative process. Topics include crime scene/incident processing, information gathering techniques, collection/preservation of evidence, preparation of appropriate reports, court presentations, and other related topics. Upon completion, students should be able to identify, explain, and demonstrate the techniques of the investigative process, report preparation, and courtroom presentation. **\*\*This is a Fall Only Class\*\*** (S12498)

<b>CJC 222</b>	<b>Criminalistics</b>	3	0	0	3
----------------	-----------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course covers the functions of the forensic laboratory and its relationship to successful criminal investigations and prosecutions. Topics include advanced crime scene processing, investigative techniques, current forensic technologies, and other related topics. Upon completion, students should be able to identify and collect relevant evidence at simulated crime scenes and request appropriate laboratory analysis of submitted evidence. (S12396)

<b>CJC 225</b>	<b>Crisis Intervention</b>	3	0	0	3
----------------	----------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces critical incident intervention and management techniques as they apply to operational criminal justice practitioners. Emphasis is placed on the victim/offender situation as well as job-related high stress, dangerous, or problem-solving citizen contacts. Upon completion, students should be able to provide insightful analysis of emotional, violent, drug-induced, and other critical and/or stressful incidents that require field analysis and/or resolution. (S12466)

<b>CJC 231</b>	<b>Constitutional Law</b>	3	0	0	3
----------------	---------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

The course covers the impact of the Constitution of the United States and its amendments on the criminal justice system. Topics include the structure of the Constitution and its amendments, court decisions pertinent to contemporary criminal justice issues, and other related topics. Upon completion, students should be able to identify/discuss the basic structure of the United States Constitution and the rights/procedures as interpreted by the courts. (S10090)

## CAPE FEAR COMMUNITY COLLEGE

		Class	Lab	Clinical	Credits
<b>CJC 240</b>	<b>Law Enforcement Management &amp; Supervision</b>	3	0	0	3

Prerequisites: Take BUS 253

Corequisites: None

This course provides a study of the best-known methods and practices of police leadership and management. Topics include the role of the manager in law enforcement, communications, time-management in law enforcement, managing problems, training and law enforcement productivity. Upon completion, students should be able to identify and discuss methods and practices capable of moving law enforcement agencies forward into the twenty-first century. (S10480)

<b>CMT 112</b>	<b>Construction Management I</b>	4	4	0	6
----------------	----------------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course introduces students to the field of construction management technology. Topics include job planning, work methods, materials, equipment, and other related topics. Upon completion, students should be able to demonstrate basic knowledge of methods, materials, equipment, and the logical sequence of a construction project. **\*\*This is a Spring Only Class\*\*** (S21745)

<b>CMT 120</b>	<b>Codes and Inspections</b>	3	0	0	3
----------------	------------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course covers building codes and the code inspections process used in the design and construction of residential and commercial buildings. Emphasis is placed on commercial, residential, and accessibility (ADA) building codes. Upon completion, students should understand the building code inspections process and apply building code principles and requirements to construction projects. (S23269)

<b>CMT 210</b>	<b>Construction Management Fundamentals</b>	3	0	0	3
----------------	---	---	---	---	---

Prerequisites: None

Corequisites: None

This course introduces the student to the fundamentals of effective supervision emphasizing professionalism through knowledge and applied skills. Topics include safety, planning and scheduling, contracts, problem-solving, communications, conflict resolution, recruitment, employment laws and regulations, leadership, motivation, teamwork, discipline, setting objectives, and training. Upon completion, students should be able to demonstrate the basic skills necessary to be successful as a supervisor in the construction industry. (S23270)

		Class	Lab	Clinical	Credits
<b>CMT 212</b>	<b>Total Safety Performance</b>	3	0	0	3

Prerequisites: None

Corequisites: Take CMT 210

This course covers the importance of managing safety and productivity equally by encouraging people to take individual responsibility for safety and health in the workplace. Topics include safety management, controlling construction hazards, communicating and enforcing policies, OSHA compliance, personal responsibility and accountability, safety planning, training, and personal protective equipment. Upon completion, the student should be able to properly supervise safety at a construction jobsite and qualify for OSHA Training Certification. **\*\*This is a Spring Only Class\*\*** (S20398)

<b>CMT 214</b>	<b>Planning and Scheduling</b>	3	0	0	3
----------------	--------------------------------	---	---	---	---

Prerequisites: Take BPR 130 and CMT 210

Corequisites: None

This course covers the need for and the process of planning construction projects, as well as the mechanics and vocabulary of project scheduling. Topics include project pre-planning, scheduling formats, planning for production, short interval planning, schedule updating and revising, and computer-based planning and scheduling. Upon completion, the student should be able to understand the need for planning and scheduling, the language and logic of scheduling, and use of planning skills. **\*\*This is a Fall Only Class\*\*** (S13439)

<b>CMT 218</b>	<b>Human Relations Issues</b>	3	0	0	3
----------------	-------------------------------	---	---	---	---

Prerequisites: Take CMT 210

Corequisites: None

This course provides instruction on human relations issues as they relate to construction project supervision. Topics include relationships, human behavior, project staffing issues, teamwork, effective communication networks, laws and regulations, and identifying and responding to conflict, crisis, and discipline. Upon completion, the student will demonstrate an understanding of the importance of human relations in the success of a construction project. **\*\*This is a Spring Only Class\*\*** (S13461)

<b>COM 110*</b>	<b>Introduction to Communication</b>	3	0	0	3
-----------------	--------------------------------------	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course provides an overview of the basic concepts of communication and the skills necessary to communicate in various contexts. Emphasis is placed on communication theories and techniques used in interpersonal group, public, intercultural, and mass communication situations. Upon completion, students should be able to explain and illustrate the forms and purposes of human communication in a variety of contexts. (S13264)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>COM 111* Voice and Diction I</b>	3	0	0	3

Prerequisites: None

Corequisites: None

This course provides guided practice in the proper production of speech. Emphasis is placed on improving speech, including breathing, articulation, pronunciation, and other vocal variables. Upon completion, students should be able to demonstrate effective natural speech in various contexts. (S13362)

<b>COM 120* Introduction to Interpersonal Communication</b>	3	0	0	3
---	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course introduces the practices and principles of interpersonal communication in both dyadic and group settings. Emphasis is placed on the communication process, perception, listening, self-disclosure, speech apprehension, ethics, nonverbal communication, conflict, power, and dysfunctional communication relationships. Upon completion, students should be able to demonstrate interpersonal communication skills, apply basic principles of group discussion, and manage conflict in interpersonal communication situations. (S21722)

<b>COM 140* Introduction to Intercultural Communication</b>	3	0	0	3
---	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course introduces techniques of cultural research, definitions, functions, characteristics, and impacts of cultural differences in public address. Emphasis is placed on how diverse backgrounds influence the communication act and how cultural perceptions and experiences determine how one sends and receives messages. Upon completion, students should be able to demonstrate an understanding of the principles and skills needed to become effective in communicating outside one's primary culture. (S22118)

<b>COM 150* Introduction to Mass Communication</b>	3	0	0	3
--	---	---	---	---

Prerequisites: Take ENG 111

Corequisites: Take one: ENG 112 or ENG 113 or  
ENG 114

This course introduces print and electronic media and the new information technologies in terms of communication theory and as economic, political, and social institutions. Topics include the nature, history, functions, and responsibilities of mass communication industries in a global environment and their role and impact in American society. Upon completion, students should be able to demonstrate awareness of the pervasive nature of mass media and how media operate in an advanced post-industrial society. (S22466)

	Class	Lab	Clinical	Credits
<b>COM 160* Small Group Communication</b>	3	0	0	3

Prerequisites: None

Corequisites: None

This course provides an overview of the theory, practice, and critical analysis of communication in the small group setting. Emphasis is placed on group development, conflict, and conformity; leadership skills and styles; group roles and ranks; and decision making, problem solving, and conflict resolution. Upon completion, students should be able to apply topics of gender, culture, and social-emotional functions within group settings. (S21739)

<b>COM 231*<sup>u</sup> Public Speaking</b>	3	0	0	3
---	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course provides instruction and experience in preparation and delivery of speeches within a public setting and group discussion. Emphasis is placed on research, preparation, delivery, and evaluation of informative, persuasive, and special occasion public speaking. Upon completion, students should be able to prepare and deliver well-organized speeches and participate in group discussion with appropriate audiovisual support. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S12601)*

<b>COS 111 Cosmetology Concepts I</b>	4	0	0	4
---------------------------------------	---	---	---	---

Prerequisites: Take one: DRE 097 or ENG 085 or  
ENG 095 or ENG 111 or  
RED 080 or RED 090

Corequisites: Take COS 112

This course introduces basic cosmetology concepts. Topics include safety, first aid, sanitation, bacteriology, anatomy, diseases and disorders, hygiene, product knowledge, chemistry, ethics, manicures, and other related topics. Upon completion, students should be able to safely and competently apply cosmetology concepts in the salon setting. (S12363)

<b>COS 112 Salon I</b>	0	24	0	8
------------------------	---	----	---	---

Prerequisites: None

Corequisites: Take COS 111

This course introduces basic salon services. Topics include scalp treatments, shampooing, rinsing, hair color, design, haircutting, permanent waving, pressing, relaxing, wigs, and other related topics. Upon completion, students should be able to safely and competently demonstrate salon services. (S12316)

## CAPE FEAR COMMUNITY COLLEGE

**COS 113 Cosmetology Concepts II**      Class Lab Clinical Credits  
4    0    0    4  
Prerequisites: Take COS 111 and COS 112  
Corequisites: None

This course covers more comprehensive cosmetology concepts. Topics include safety, product knowledge, chemistry, manicuring, chemical restructuring, and hair coloring. Upon completion, students should be able to safely and competently apply these cosmetology concepts in the salon setting. (S24638)

**COS 114 Salon II**      0    24    0    8  
Prerequisites: Take COS 111 and COS 112  
Corequisites: None

This course provides experience in a simulated salon setting. Topics include basic skin care, manicuring, nail application, scalp treatments, shampooing, rinsing, hair color, design, haircutting, chemical restructuring, pressing, wigs, and other related topics. Upon completion, students should be able to safely and competently demonstrate these salon services. (S24639)

**COS 115 Cosmetology Concepts III**      4    0    0    4  
Prerequisites: Take COS 111 and COS 112  
Corequisites: None

This course covers more comprehensive cosmetology concepts. Topics include safety, product knowledge, salon management, salesmanship, skin care, electricity/light therapy, wigs, thermal hair styling, lash and brow tinting, superfluous hair removal, and other related topics. Upon completion, students should be able to safely and competently apply these cosmetology concepts in the salon setting. **\*\*This is a Summer Only Class\*\*** (S24640)

**COS 116 Salon III**      0    12    0    4  
Prerequisites: Take COS 111 and COS 112  
Corequisites: None

This course provides comprehensive experience in a simulated salon setting. Emphasis is placed on intermediate-level of skin care, manicuring, scalp treatments, shampooing, hair color, design, haircutting, chemical restructuring, pressing, and other related topics. Upon completion, students should be able to safely and competently demonstrate these salon services. **\*\*This is a Summer Only Class\*\*** (S24641)

**COS 117 Cosmetology Concepts IV**      2    0    0    2  
Prerequisites: Take COS 111 and COS 112  
Take one: COS 115 or COS 113  
Corequisites: None

This course covers advanced cosmetology concepts. Topics include chemistry and hair structure, advanced cutting and design, and an overview of all cosmetology concepts in preparation for the licensing examination. Upon completion, students should be able to demonstrate an understanding of these cosmetology concepts and meet program completion requirements. (S24642)

**COS 118 Salon IV**      Class Lab Clinical Credits  
0    21    0    7  
Prerequisites: Take COS 111 and COS 112  
Take one: COS 114 or COS 116  
Corequisites: None

This course provides advanced experience in a simulated salon setting. Emphasis is placed on efficient and competent delivery of all salon services in preparation for the licensing examination and employment. Upon completion, students should be able to demonstrate competence in program requirements and the areas covered on the Cosmetology Licensing Examination and meet entry-level employment requirements. (S24643)

**COS 119 Esthetics Concepts I**      2    0    0    2  
Prerequisites: Take one: DRE 097 or ENG 085 or  
ENG 095 or ENG 111 or  
RED 080 or RED 090  
Corequisites: Take COS 120

This course covers the concepts of esthetics. Topics include orientation, anatomy, physiology, hygiene, sterilization, first aid, chemistry, basic dermatology, and professional ethics. Upon completion, students should be able to demonstrate an understanding of the concepts of esthetics and meet course requirements. (S12170)

**COS 120 Esthetics Salon I**      0    18    0    6  
Prerequisites: None  
Corequisites: Take COS 119

This course covers the techniques of esthetics in a comprehensive experience in a simulated salon setting. Topics include client consultation, facials, body treatments, hair removal, make-up applications, and color analysis. Upon completion, students should be able to safely and competently demonstrate esthetic services on clients in a salon setting. (S10851)

**COS 125 Esthetics Concepts II**      2    0    0    2  
Prerequisites: Take COS 119 and COS 120  
Corequisites: Take COS 126

This course covers more comprehensive esthetics concepts. Topics include nutrition, business management, makeup, and color analysis. Upon completion, students should be able to demonstrate an understanding of the advanced esthetics concepts and meet course requirements. (S10785)

**COS 126 Esthetics Salon II**      0    18    0    6  
Prerequisites: None  
Corequisites: None

This course provides experience in a simulated esthetics setting. Topics include machine facials, aromatherapy, surface manipulation in relation to skin care, electricity, and apparatus. Upon completion, students should be able to demonstrate competence in program requirements and the areas covered on the Cosmetology licensing examination for Estheticians. (S24328)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>COS 223 Contemporary Hair Coloring</b>	1	3	0	2

Prerequisites: Take COS 111 and COS 112  
Corequisites: None

This course covers basic color concepts, hair coloring problems, and application techniques. Topics include color theory, terminology, contemporary techniques, product knowledge, and other related topics. Upon completion, students should be able to identify a client's color needs and safely and competently perform color applications and correct problems. (S10820)

<b>COS 224 Trichology &amp; Chemistry</b>	1	3	0	2
---	---	---	---	---

Prerequisites: None  
Corequisites: None

This course is a study of hair and the interaction of applied chemicals. Emphasis is placed on pH actions and the reactions and effects of chemical ingredients. Upon completion, students should be able to demonstrate an understanding of chemical terminology, pH testing, and chemical reactions on hair. (S10836)

<b>COS 240 Contemporary Design</b>	1	3	0	2
------------------------------------	---	---	---	---

Prerequisites: Take COS 111 and COS 112  
Corequisites: None

This course covers methods and techniques for contemporary designs. Emphasis is placed on contemporary designs and other related topics. Upon completion, students should be able to demonstrate and apply techniques associated with contemporary design. **\*\*This is a Spring Only Class\*\*** (S10391)

<b>COS 253 Esthetic Instructional Concepts I</b>	6	15	0	11
--	---	----	---	----

Prerequisites: Valid NC Cosmetology or Esthetician License  
Corequisites: None

This course introduces esthetic instructional concepts and skills. Topics include orientation, theories of education, unit planning, daily lesson plans, laboratory management, student assessment in a laboratory setting. Upon completion, students should be able to demonstrate esthetic services and instruct and objectively assess student performance in a classroom setting. (S13101)

<b>COS 254 Esthetic Instructional Concepts II</b>	6	15	0	11
---	---	----	---	----

Prerequisites: Take COS 253  
Corequisites: None

This course covers advanced esthetic instructional concepts and skills. Topics include practical demonstrations, lesson planning, lecture techniques, development and administration of assessment tools, record keeping and other related topics. Upon completion, students should be able to demonstrate competencies in the areas covered by the Esthetics Instructor Licensing Examination and meet program requirements. (S13008)

	Class	Lab	Clinical	Credits
<b>COS 260 Design Applications</b>	1	3	0	2

Prerequisites: None  
Corequisites: None

This course provides an overview of the design concepts used in cosmetology. Topics include the application of art principles and elements to artistically design hair, nails, and makeup and other related topics. Upon completion, students should be able to demonstrate knowledge and techniques associated with design concepts. (S11199)

<b>COS 271 Instructor Concepts I</b>	5	0	0	5
--------------------------------------	---	---	---	---

Prerequisites: Valid NC Cosmetology License  
Corequisites: Take COS 272

This course introduces the basic cosmetology instructional concepts. Topics include orientation, theories of education, unit planning, daily lesson planning, laboratory management, student assessment, record keeping, and other related topics. Upon completion, students should be able to identify theories of education, develop lesson plans, demonstrate supervisory techniques, and assess student performance in a classroom setting. (S11990)

<b>COS 272 Instructor Practicum I</b>	0	21	0	7
---------------------------------------	---	----	---	---

Prerequisites: None  
Corequisites: Take COS 271

This course covers supervisory and instructional skills for teaching entry-level cosmetology students in a laboratory setting. Topics include demonstrations of services, supervision, and entry-level student assessment. Upon completion, students should be able to demonstrate salon services and instruct and objectively assess the entry-level student. (S12026)

<b>COS 273 Instructor Concepts II</b>	5	0	0	5
---------------------------------------	---	---	---	---

Prerequisites: Take COS 271 and COS 272  
Corequisites: Take COS 274

This course covers advanced cosmetology instructional concepts. Topics include practical demonstrations, lesson planning, lecture techniques, development and administration of assessment tools, record keeping, and other related topics. Upon completion, students should be able to develop lesson plans, demonstrate supervision techniques, assess student performance in a classroom setting, and keep accurate records. (S11965)

<b>COS 274 Instructor Practicum II</b>	0	21	0	7
--	---	----	---	---

Prerequisites: Take COS 271 and COS 272  
Corequisites: Take COS 273

This course is designed to develop supervisory and instructional skills for teaching advanced cosmetology students in a laboratory setting. Topics include practical demonstrations, supervision, and advanced student assessment. Upon completion, students should be able to demonstrate competence in the areas covered by the Instructor Licensing Examination and meet program completion requirements. (S12083)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>CSC 120* Computing Fundamentals I</b>	3	2	0	4

Prerequisites: Take one set:

Set 1: DMA 010, DMA 020, DMA 030, DMA 040, and DMA 050

Set 2: MAT 121

Set 3: MAT 171

Set 4: MAT 080

Set 5: MAT 090

Set 6: MAT 095

Corequisites: None

This course provides the essential foundation for the discipline of computing and a program of study in computer science, including the role of the professional. Topics include algorithm design, data abstraction, searching and sorting algorithms, and procedural programming techniques. Upon completion, students should be able to solve problems, develop algorithms, specify data types, perform sorts and searches, and use an operating system. (S24356)

<b>CSC 130* Computing Fundamentals II</b>	3	2	0	4
---	---	---	---	---

Prerequisites: Take CSC 120

Corequisites: None

This course provides in-depth coverage of the discipline of computing and the role of the professional. Topics include software design methodologies, analysis of algorithm and data structures, searching and sorting algorithms, and file organization methods. Upon completion, students should be able to use software design methodologies and choice of data structures and understand social/ethical responsibilities of the computing professional. (S14281)

<b>CSC 133 C Programming</b>	2	3	0	3
------------------------------	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090

Corequisites: Take CIS 110

This course introduces computer programming using the C programming language with structured programming principles. Topics include input/output operations, iteration, arithmetic operations, arrays, pointers, filters, and other related topics. Upon completion, students should be able to design, code, test and debug at a beginning level. (S21065)

<b>CSC 151* JAVA Programming</b>	2	3	0	3
----------------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course introduces computer programming using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug JAVA language programs. (S21076)

	Class	Lab	Clinical	Credits
<b>CSC 153 C# Programming</b>	2	3	0	3

Prerequisites: Take one: CIS 115 or CSC 151

Corequisites: None

This course introduces computer programming using the C# programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment at the beginning level. **\*\*This is a Summer Only Class\*\*** (S21077)

<b>CSC 251 Advanced JAVA Programming</b>	2	3	0	3
--	---	---	---	---

Prerequisites: Take CSC 151

Corequisites: None

This course is a continuation of CSC 151 using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment. (S21089)

<b>CSC 284 Emerging Computer Prog Technologies</b>	2	3	0	3
--	---	---	---	---

Prerequisites: Take CET 172

Corequisites: None

This course provides students with the latest technologies and strategies in the field of Computer Programming. Emphasis is placed on the evaluation of developing Computer Programming Technologies and presenting those findings to the class. Upon completion, students should be able to critically analyze emerging Computer Programming Technologies and establish informed opinions. (S21093)

<b>CST 111 Construction I</b>	3	3	0	4
-------------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course covers standard and alternative building methods to include wall framing. Topics include safety and footings, foundations, floor framing systems, and wall framing systems commonly used in the construction industry. Upon completion, students should be able to safely erect all framing necessary to begin roof framing. **\*\*This is a Fall Only Class\*\*** (S10559)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>CST 150     Building Science</b>	2	2	0	3

Prerequisites: None

Corequisites: None

This course introduces concepts and techniques for the design and interaction of the mechanical systems of high performance buildings. Topics include building envelope, heating, ventilation and air conditioning (HVAC), indoor air quality, lighting, plumbing and electrical. Upon completion, students should be able to understand building systems interaction and performance. **\*\*This is a Spring Only Class\*\*** (S23517)

<b>CST 238     Weatherization</b>	2	3	0	3
-----------------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course covers the use of current energy efficiency methods, materials, and techniques as applied to the weatherization of commercial and residential structures. Topics include the assessment of environmental impacts on energy consumption and building modifications that yield decreases in energy usage and increases in energy efficiency. Upon completion, students should be able to demonstrate competencies in building envelop analysis, energy-efficiency plan design, and implementation of weatherization plan. (S23592)

<b>CST 241     Planning/Estimating I</b>	2	2	0	3
--	---	---	---	---

Prerequisites: Take one: BPR 130 or MAT 121 or MAT 171

Corequisites: None

This course covers the procedures involved in planning and estimating a construction/building project. Topics include performing quantity take-offs of materials necessary for a building project. Upon completion, students should be able to accurately complete a take-off of materials and equipment needs involved in a construction project. **\*\*This is a Fall Only Class\*\*** (S23984)

<b>CTC 110     Chemical Safety &amp; Technology</b>	2	0	0	2
---	---	---	---	---

Prerequisites: None

Corequisites: None

This course covers chemical safety and terminology with a focus on applications to chemical technology. Topics include chemical hazards, safe handling, storage, hazard recognition and control, waste management, OSHA regulations, and terminology used in a laboratory setting. Upon completion, students should be able to identify potential chemical safety hazards and the appropriate procedures to remediate such hazards. (S24926)

	Class	Lab	Clinical	Credits
<b>CTC 111     Basic Chemistry I</b>	4	6	0	7

Prerequisites: None

Corequisites: None

This course introduces the basic principles of chemistry with emphasis on applications to chemical technology. Topics include measurement, elements, compounds, moles, solutions, reactions, gases, molecular structure, electron configurations, nomenclature, periodic trends, stoichiometry, and basic laboratory tools, techniques, and safety. Upon completion, students should be able to demonstrate an understanding of basic chemical calculations and routine laboratory procedures. **\*\*This is a Fall Only Class\*\*** (S22570)

<b>CTC 112     Basic Chemistry II</b>	4	6	0	7
---------------------------------------	---	---	---	---

Prerequisites: Take CTC 111

Corequisites: None

This course introduces solubility, electrochemistry, chemical kinetics, chemical equilibrium, acid/base chemistry, and nuclear chemistry. Topics include solubility products, element families, and basic laboratory tools, techniques, and safety. Upon completion, students should be able to demonstrate an understanding of basic chemical calculations and routine laboratory procedures. **\*\*This is a Spring Only Class\*\*** (S22577)

<b>CTC 114     Wet Laboratory Techniques</b>	2	6	0	5
--	---	---	---	---

Prerequisites: None

Corequisites: None

This course introduces basic wet laboratory methods with emphasis on applications in chemical technology. Topics include measurements, physical property identification, separation techniques, gravimetric analysis, titrations, qualitative and quantitative methods, and basic laboratory tools, techniques, and safety. Upon completion, students should be able to demonstrate an understanding of basic chemical calculations and routine laboratory procedures. (S24927)

<b>CTC 115     Quality Control Laboratory</b>	2	6	0	5
---	---	---	---	---

Prerequisites: None

Corequisites: None

This course introduces quality control procedures with emphasis on applications in chemical technology. Topics include ISO 9000, calibration curves, reagent blanks, internal standards, detection limits, and terminology used in a quality-controlled laboratory. Upon completion, students should be able to demonstrate an understanding of quality control and assurance in routine laboratory procedures. (S24928)

# CAPE FEAR COMMUNITY COLLEGE

-----CTC 120 Organic Chemistry I Class Lab Clinical Credits  
2 2 0 0

Prerequisites: Take CTC 111  
Corequisites: None

This course covers the nomenclature and properties of organic functional groups with a focus on applications to chemical technology. Emphasis is placed on properties of aliphatic and aromatic hydrocarbons, including alkanes, cycloalkanes, alkenes, alkynes, alcohols and ethers. Upon completion, students should be able to name, identify, and predict reactions for organic molecules. **\*\*This is a Spring Only Class\*\*** (S22578)

CTC 140 Organic Processes 2 10 0 7

Prerequisites: Take CTC 120  
Corequisites: None

This course introduces a chemical technology "real world" laboratory experience. Topics include stereochemistry, delocalization, substitution, elimination reactions and basic laboratory methods such as distillation, extraction, and the use of IR and UV-VIS. Upon completion, students should be able to demonstrate competence in the laboratory techniques presented as well as predict organic reactions. (S22579)

CTC 145 Advanced Laboratory Methods 1 10 0 6

Prerequisites: Take one: CTC 114 or CTC 115  
Corequisites: None

This course introduces advanced techniques in a laboratory environment. Topics include synthesis, distillation, extraction, recrystallization, reflux techniques and the use of instrumentation to determine purity. Upon completion, students should be able to identify common glassware and perform advanced synthesis techniques presented. (S24929)

CTC 150 Standards & Solutions 1 3 0 2

Prerequisites: Take one: CTC 114 or CTC 115  
Corequisites: None

This course introduces proper procedures for solution preparation in a chemical laboratory environment and the analytical methods used in substance identification. Topics include molarity, normality, dilution, parts per million (ppm), parts per billion (ppb), weight/volume percent, the use of calibration curves and standards, laboratory techniques and analytical equipment used to analyze solutions. Upon completion, students should be able to prepare common laboratory solutions used in an analytical laboratory. (S24930)

CTC 210 Forensic Laboratory Class Lab Clinical Credits  
1 3 0 2

Prerequisites: Take CTC 145  
Corequisites: None

This course introduces forensic chemistry and related laboratory techniques. Topics include the application of laboratory techniques and analytical equipment to compounds associated with blood alcohol content, illicit drugs, questioned document analysis, arson investigation, gunshot residues, and DNA. Upon completion, students should be able to perform common laboratory methods used in a forensic chemistry laboratory. (S24931)

CTC 220 Organic Chemistry II 3 6 0 6

Prerequisites: Take CTC 140  
Corequisites: None

This course covers intermediate nomenclature and properties of organic functional groups with emphasis on applications to chemical technology. Topics include the preparation, reactions, and analysis of alcohols, amines, ethers, epoxides, and carbonyl compounds. Upon completion, students should be able to predict products from intermediate reactions and determine structures of organic compounds by utilizing IR, UV, and RI. **\*\*This is a Fall Only Class\*\*** (S22580)

CTC 230 Biochemistry 2 6 0 5

Prerequisites: Take CTC 140  
Corequisites: None

This course introduces chemistry at the biological level. Topics include nitrogen compounds, polymers, stereochemistry, carbohydrates, lipids, amino acids, proteins, nucleic acids, protein and nucleic purification, electrophoresis, PCR, and enzymes. Upon completion, students should be able to recognize biologically active compounds, describe their structure and activity, and predict organic products of biological reactions. **\*\*This is a Spring Only Class\*\*** (S24094)

CTC 235 Food Chemistry 1 3 0 2

Prerequisites: Take CTC 145  
Corequisites: None

This course introduces food chemistry and corresponding laboratory techniques. Topics include carbohydrates, lipids, amino acids, proteins, preservatives, antibiotics, laboratory techniques and analytical equipment used to analyze these classes of compounds. Upon completion, students should be able to recognize biologically active compounds, describe their structure, and perform common laboratory methods used in the food industry. (S24932)

		Class	Lab	Clinical	Credits
<b>CTC 240</b>	<b>Instrumentation I: Spectroscopy</b>	2	8	0	6

Prerequisites: Take one: CTC 114 or CTC 115  
Corequisites: None

This course covers appropriate use of equipment and instruments in pharmaceutical and industrial settings as well as qualitative chemical analysis of selected inorganic ions. Emphasis is placed on sample preparation, statistical parameters, titrations, potentiometric methods and various forms of spectroscopy, including UV, AA, AE, IR, NMR, and mass spectroscopy. Upon completion, students should be able to carry out all analytical schemes presented. **\*\*This is a Fall Only Class\*\*** (S24923)

<b>CTC 250</b>	<b>Instrumentation II: Chromatography</b>	2	8	0	6
----------------	---	---	---	---	---

Prerequisites: Take one: CTC 114 or CTC 115  
Corequisites: None

This course covers the use of various instruments and analytical methods in pharmaceutical, academic, or industrial settings. Emphasis is placed on various forms of chromatography, including GC, HPLC, IC, TLC, and size exclusion, as well as chemiluminescence and radioactive labels. Upon completion, students should be able to carry out all analytical schemes presented and be able to utilize all applicable instruments. **\*\*This is a Spring Only Class\*\*** (S24924)

<b>CTC 260</b>	<b>Chemical Technology Capstone</b>	1	3	0	3
----------------	-------------------------------------	---	---	---	---

Prerequisites: Take one: CTC 240 or CTC 250  
Corequisites: None

This course is designed to assemble major aspects of the chemical technology field. Emphasis is placed on students completing a small-scale research project in their specialty area. Upon completion, students should be able to develop or modify a laboratory experiment in a current publication or scientific journal, perform tests, and incorporate the data into a formal report and oral presentation. (S24933)

<b>CTI 110</b>	<b>Web, Programming, &amp; Database Foundation</b>	2	2	0	3
----------------	--	---	---	---	---

Prerequisites: None  
Corequisites: None

This course covers the introduction of the tools and resources available to students in programming, markup language and services on the Internet. Topics include standard markup language Internet services, creating web pages, using search engines, file transfer programs; and database design and creation with DBMS products. Upon completion students should be able to demonstrate knowledge of programming tools, deploy a website with mark-up tools, and create a simple database table. (S22510)

		Class	Lab	Clinical	Credits
<b>CTI 120</b>	<b>Network &amp; Security Foundation</b>	2	2	0	3

Prerequisites: None  
Corequisites: None

This course introduces students to the Network concepts, including networking terminology and protocols, local and wide area networks, and network standards. Emphasis is placed on securing information systems and the various implementation policies. Upon completion, students should be able to perform basic tasks related to networking mathematics, terminology, media and protocols. (S22511)

<b>CTI 141</b>	<b>Cloud &amp; Storage Concepts</b>	1	4	0	3
----------------	-------------------------------------	---	---	---	---

Prerequisites: Take CTS 220  
Corequisites: None

This course introduces cloud computing and storage concepts. Emphasis is placed on cloud terminology, virtualization, storage networking and access control. Upon completion, students should be able to perform tasks related to installation, configuration and management of cloud storage systems. (S23206)

<b>CTI 240</b>	<b>Virtualization Administration I</b>	1	4	0	3
----------------	--	---	---	---	---

Prerequisites: Take one: CET 130 or CTS 220 or NOS 110  
Corequisites: None

This course covers data center virtualization concepts. Topics include data storage, virtual network configuration, virtual machine and virtual application deployment. Upon completion, students should be able to perform tasks related to virtual machine and hypervisor installation and configuration. (S23207)

<b>CTI 241</b>	<b>Virtualization Administration II</b>	1	4	0	3
----------------	---	---	---	---	---

Prerequisites: Take CTI 240  
Corequisites: None

This course covers administration of datacenter virtualization infrastructure. Topics include access control, fault tolerance, scalability, resource management, virtual machine migration and troubleshooting. Upon completion, students should be able to perform tasks related to virtualization security, data protection and resource monitoring. (S23208)

<b>CTS 115*</b>	<b>Information Systems Business Concepts</b>	3	0	0	3
-----------------	--	---	---	---	---

Prerequisites: None  
Corequisites: None

The course introduces the role of IT in managing business processes and the need for business process and IT alignment. Emphasis is placed on industry need for understanding business challenges and developing/managing information systems to contribute to the decision making process based on these challenges. Upon completion, students should be able to demonstrate knowledge of the 'hybrid business manager' and the potential offered by new technology and systems. (S20996)

## CAPE FEAR COMMUNITY COLLEGE

		Class	Lab	Clinical	Credits
<b>CTS 120</b>	<b>Hardware/Software Support</b>	2	3	0	3

Prerequisites: None  
Corequisites: None

This course covers the basic hardware of a personal computer, including installation, operations and interactions with software. Topics include component identification, memory-system, peripheral installation and configuration, preventive maintenance, hardware diagnostics/repair, installation and optimization of system software, commercial programs, system configuration, and device-drivers. Upon completion, students should be able to select appropriate computer equipment and software, upgrade/maintain existing equipment and software, and troubleshoot/repair non-functioning personal computers. (S23679)

<b>CTS 130</b>	<b>Spreadsheet</b>	2	2	0	3
----------------	--------------------	---	---	---	---

Prerequisites: Take one: CIS 110 or CIS 111 or OST 137

Corequisites: None

This course introduces basic spreadsheet design and development. Topics include writing formulas, using functions, enhancing spreadsheets, creating charts, and printing. Upon completion, students should be able to design and print basic spreadsheets and charts. (S24366)

<b>CTS 220</b>	<b>Advanced Hardware/Software Support</b>	2	3	0	3
----------------	---	---	---	---	---

Prerequisites: Take CTS 120  
Corequisites: None

This course provides advanced knowledge and competencies in hardware and operating system technologies for computer technicians to support personal computers. Emphasis is placed on configuring and upgrading; diagnosis and troubleshooting; as well as preventive maintenance of hardware and system software. Upon completion, students should be able to install, configure, diagnose, perform preventive maintenance, and maintain basic networking on personal computers. (S21005)

<b>CTS 240</b>	<b>Project Management</b>	2	2	0	3
----------------	---------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces computerized project management software. Topics include identifying critical paths, cost management, and problem solving. Upon completion, students should be able to plan a complete project and project time and costs accurately. **\*\*This is a Spring Only Class\*\*** (S24369)

		Class	Lab	Clinical	Credits
<b>CTS 285</b>	<b>Systems Analysis &amp; Design</b>	3	0	0	3

Prerequisites: Take CIS 115  
Corequisites: None

This course introduces established and evolving methodologies for the analysis, design, and development of an information system. Emphasis is placed on system characteristics, managing projects, prototyping, CASE/OOM tools, and systems development life cycle phases. Upon completion, students should be able to analyze a problem and design an appropriate solution using a combination of tools and techniques. (S21012)

<b>CTS 289</b>	<b>System Support Project</b>	1	4	0	3
----------------	-------------------------------	---	---	---	---

Prerequisites: Take CTS 285  
Corequisites: None

This course provides an opportunity to complete a significant support project with minimal instructor assistance. Emphasis is placed on written and oral communication skills, project definition, documentation, installation, testing, presentation, and user training. Upon completion, students should be able to complete a project from the definition phase through implementation. (S21015)

<b>CUL 110</b>	<b>Sanitation &amp; Safety</b>	2	0	0	2
----------------	--------------------------------	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090

Corequisites: Take CUL 110A

This course introduces the basic principles of sanitation and safety relative to the hospitality industry. Topics include personal hygiene, sanitation and safety regulations, use and care of equipment, the principles of food-borne illness, and other related topics. Upon completion, students should be able to demonstrate an understanding of the content necessary for successful completion of a nationally recognized food/safety/sanitation exam. (S22835)

<b>CUL 110A</b>	<b>Sanitation &amp; Safety Lab</b>	0	2	0	1
-----------------	------------------------------------	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090

Corequisites: Take CUL 110

This course provides a laboratory experience for enhancing student skills in the basic principles of sanitation and safety. Emphasis is placed on personal hygiene, sanitation and safety regulations, use and care of equipment, the principles of food-borne illness, and other related topics. Upon completion, students should be able to demonstrate practical applications of sanitation and safety procedures in the hospitality industry. (S22836)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>CUL 112 Nutrition for Foodservice</b>	3	0	0	3

Prerequisites: None  
Corequisites: None

This course covers the principles of nutrition and its relationship to the foodservice industry. Topics include personal nutrition fundamentals, weight management, exercise, nutritional adaptation/analysis of recipes/menus, healthy cooking techniques and marketing nutrition in a foodservice operation. Upon completion, students should be able to apply basic nutritional concepts to food preparation and selection. (S22837)

<b>CUL 120 Purchasing</b>	2	0	0	2
---------------------------	---	---	---	---

Prerequisites: None  
Corequisites: Take CUL 120A

This course covers purchasing for foodservice operations. Emphasis is placed on yield tests, procurement, negotiating, inventory control, product specification, purchasing ethics, vendor relationships, food product specifications and software applications. Upon completion, students should be able to apply effective purchasing techniques based on the end-use of the product. **\*\*This is a Fall Only Class\*\*** (S22838)

<b>CUL 120A PurchasingLab</b>	0	2	0	1
-------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: Take CUL 120

This course provides a laboratory experience for enhancing student skills in purchasing for foodservice operations. Emphasis is placed on practical experiences in yield tests, procurement, negotiating, inventory control, product specification, purchasing ethics, vendor relationships, food product specifications and software applications. Upon completion, students should be able to demonstrate practical applications of purchasing within the hospitality industry. **\*\*This is a Fall Only Class\*\*** (S22839)

<b>CUL 130 Menu Design</b>	2	0	0	2
----------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces menu design and its relationship to foodservice operations. Topics include layout, marketing, concept development, dietary concerns, product utilization, target consumers and trends. Upon completion, students should be able to design, create and produce menus for a variety of foodservice settings. (S22841)

<b>CUL 135 Food &amp; Beverage Service</b>	2	0	0	2
--	---	---	---	---

Prerequisites: None  
Corequisites: Take CUL 135A

This course is designed to cover the practical skills and knowledge necessary for effective food and beverage service in a variety of settings. Topics include greeting/service of guests, dining room set-up, profitability, menu sales and merchandising, service styles and reservations. Upon completion, students should be able to demonstrate competence in human relations and the skills required in the service of foods and beverages. (S22842)

	Class	Lab	Clinical	Credits
<b>CUL 135A Food &amp; Beverage Service Lab</b>	0	2	0	1

Prerequisites: None  
Corequisites: Take CUL 135

This course provides a laboratory experience for enhancing student skills in effective food and beverage service. Emphasis is placed on practical experiences including greeting/service of guests, dining room setup, profitability, menu sales and merchandising, service styles and reservations. Upon completion, students should be able to demonstrate practical applications of human relations and the skills required in the service of foods and beverages. (S22843)

<b>CUL 140 Culinary Skills I</b>	2	6	0	5
----------------------------------	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090  
Corequisites: Take CUL 110 and CUL 110A

This course introduces the fundamental concepts, skills and techniques in basic cookery, and moist, dry and combination heat. Emphasis is placed on recipe conversion, measurements, terminology, classical knife cuts, safe food/equipment handling, flavorings/seasonings, stocks/sauces/soups, and related topics. Upon completion, students should be able to exhibit the basic cooking skills used in the foodservice industry. **\*\*This is a Fall Only Class\*\*** (S22844)

<b>CUL 150 Food Science</b>	1	2	0	2
-----------------------------	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090  
Corequisites: Take CUL 110 and CUL 110A

This course covers the chemical and physical changes in foods that occur with cooking, handling, and processing. Emphasis is placed on practical application of heat transfer and its effect on color/flavor/texture, emulsification, protein coagulation, leavening agents, viscosity, and gel formation. Upon completion, students should be able to demonstrate an understanding of these principles as they apply to food preparation in an experimental setting. **\*\*This is a Fall Only Class\*\*** (S22846)

<b>CUL 160 Baking I</b>	1	4	0	3
-------------------------	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090  
Corequisites: Take CUL 110 and CUL 110A

This course covers basic ingredients, techniques, weights and measures, baking terminology and formula calculations. Topics include yeast/chemically leavened products, laminated doughs, pastry dough batter, pies/tarts, meringue, custard, cakes and cookies, icings, glazes and basic sauces. Upon completion, students should be able to demonstrate proper scaling and measurement techniques, and prepare and evaluate a variety of bakery products. **\*\*This is a Fall Only Class\*\*** (S22847)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>CUL 170 Garde-Manger I</b>	1	4	0	3

Prerequisites: Take CUL 140

Corequisites: Take CUL 110 and CUL 110A

This course introduces basic cold food preparation techniques and pantry production. Topics include salads, sandwiches, appetizers, dressings, basic garnishes, cheeses, cold sauces, and related food items. Upon completion, students should be able to present a cold food display and exhibit an understanding of the cold kitchen and its related terminology. (S22849)

<b>CUL 214 Wine Appreciation</b>	1	2	0	2
----------------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course provides an introduction to information about wine from all the major wine producing regions. Emphasis is placed on the history of wine, production, characteristics, wine list development, laws, purchasing and storing requirements. Upon completion, students should be able to evaluate varietal wines and basic food pairings. (S22852)

<b>CUL 230 Global Cuisines</b>	1	8	0	5
--------------------------------	---	---	---	---

Prerequisites: Take CUL 110 and CUL 140

Corequisites: None

This course provides practical experience in the planning, preparation, and presentation of representative foods from a variety of world cuisines. Emphasis is placed on indigenous ingredients and customs, nutritional concerns, and cooking techniques. Upon completion, students should be able to research and execute a variety of international and domestic menus. **\*\*This is a Spring Only Class\*\*** (S22808)

<b>CUL 240 Culinary Skills II</b>	1	8	0	5
-----------------------------------	---	---	---	---

Prerequisites: Take CUL 110 and CUL 140

Corequisites: None

This course is designed to further students' knowledge of the fundamental concepts, skills, and techniques involved in basic cookery. Emphasis is placed on meat identification/fabrication, butchery and cooking techniques/methods; appropriate vegetable/starch accompaniments; compound sauces; plate presentation; breakfast cookery; and quantity food preparation. Upon completion, students should be able to plan, execute, and successfully serve entrees with complementary side items. **\*\*This is a Spring Only Class\*\*** (S22853)

<b>CUL 245 Contemporary Cuisines</b>	1	8	0	5
--------------------------------------	---	---	---	---

Prerequisites: Take CUL 110 and CUL 140

Corequisites: None

This course introduces students to current culinary trends which include a variety of preparation methods. Topics include current and developing trends such as adaptation of native/regional ingredients and preparation methods into contemporary cuisines. Upon completion, students should be able to demonstrate knowledge of a variety of contemporary cuisines. (S22810)

	Class	Lab	Clinical	Credits
<b>CUL 250 Classical Cuisine</b>	1	8	0	5

Prerequisites: Take CUL 110 and CUL 140 and CUL 240

Corequisites: None

This course is designed to reinforce the classical culinary kitchen. Topics include the working Grand Brigade of the kitchen, signature dishes and classical banquets. Upon completion, students should be able to demonstrate competence in food preparation in a classical/upscale restaurant or banquet setting. (S22855)

<b>CUL 260 Baking II</b>	1	4	0	3
--------------------------	---	---	---	---

Prerequisites: Take CUL 110 and CUL 160

Corequisites: None

This course is designed to further students' knowledge in ingredients, weights and measures, baking terminology and formula calculation. Topics include classical desserts, frozen desserts, cake and torte production, decorating and icings/glazes, dessert plating and presentation. Upon completion, students should be able to demonstrate pastry preparation, plating, and dessert buffet production skills. (S22857)

<b>CUL 270 Garde-Manger II</b>	1	4	0	3
--------------------------------	---	---	---	---

Prerequisites: Take CUL 110 and CUL 140 and CUL 170

Corequisites: None

This course is designed to further student's knowledge in basic cold food preparation techniques and pantry production. Topics include pâtés, terrines, galantines, decorative garnishing skills, carving, charcuterie, smoking, canapés, hors d'oeuvres, and related food items. Upon completion, students should be able to design, set up, and evaluate a catering/event display to include a cold buffet with appropriate showpieces. (S22859)

<b>CUL 275 Catering Cuisine</b>	1	8	0	5
---------------------------------	---	---	---	---

Prerequisites: Take CUL 110 and CUL 140 and CUL 240

Corequisites: None

This course covers the sequential steps to successful catering that include sales, client needs, menu planning, purchasing, costing, event pricing, staffing and sanitation concerns. Emphasis is placed on new culinary competencies and skills specific to catering preparation, presentation, and customer service. Upon completion, students should be able to demonstrate proficiency in the successful design and execution of various types of catering events. (S22861)

<b>CUL 280 Pastry &amp; Confections</b>	1	4	0	3
---	---	---	---	---

Prerequisites: Take CUL 110 and CUL 140 and CUL 160

Corequisites: None

This course includes confections and candy, chocolate techniques, transfer sheets, pulled and blown sugar, pastillage, marzipan and custom silicon molding. Emphasis is placed on showpieces, pre-set molding, stencil cutouts, pattern tracing and/or free hand shaping. Upon completion, students should be able to design and produce centerpieces and showpieces. (S22862)

Courses designate with an asterisk (\*) are college transfer courses. Courses designate with an asterisk and u (\*\*) are UGETC courses.

Check with your senior institution to ensure the course will be appropriate for your program at that institution

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>CUL 283 Farm-To-Table</b>	2	6	0	5

Prerequisites: Take CUL 110 and CUL 140  
Corequisites: None

This course introduces students to the cooperation between sustainable farmers and foodservice operations. Emphasis is placed on environmental relationships, including how foods are grown, processed, and distributed, as well as related implications on quality and sustainability. Upon completion, students should be able to demonstrate an understanding of environmental stewardship and its impact on cuisine. (S22813)

<b>CUL 285 Competition Fundamentals</b>	1	4	0	3
---	---	---	---	---

Prerequisites: Take one: CUL 110 or CUL 110A or CUL 140 or CUL 160  
Corequisites: None

This course provides practical experience in planning, techniques, and procedures required for culinary competitions and exhibitions. Emphasis is placed on competition strategies including menu planning, teamwork, plate design, flavor profiles, recipe development, nutrition, advanced knife/culinary skills, professionalism, and portfolio development. Upon completion, students should be able to apply competition/exhibition skills and standards in the competition arena and professional kitchen. (S20901)

<b>CVS 160 CVS Clinical Ed I</b>	0	4	9	5
----------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None  
Restrictions: Must be enrolled in A45160  
Cardiovascular Sonography program

This course provides active participation in clinical sonography. Emphasis is placed on imaging, processing, and technically evaluating sonographic examinations. Upon completion, students should be able to image, process, and evaluate sonographic examinations. (S23618)

<b>CVS 161 CVS Clinical Ed II</b>	0	0	24	8
-----------------------------------	---	---	----	---

Prerequisites: Take CVS 160  
Corequisites: None  
Restrictions: Must be enrolled in A45160  
Cardiovascular Sonography program

This course provides continued participation in clinical sonography. Emphasis is placed on imaging, processing, and technically evaluating sonographic examinations. Upon completion, students should be able to image, process, and evaluate sonographic examinations. (S102018)

<b>CVS 162 CVS Clinical Ed III</b>	0	0	15	5
------------------------------------	---	---	----	---

Prerequisites: Take CVS 161  
Corequisites: None  
Restrictions: Must be enrolled in A45160  
Cardiovascular Sonography program

This course provides continued participation in clinical sonography. Emphasis is placed on imaging, processing, and technically evaluating sonographic examinations. Upon completion, students should be able to image, process, and evaluate sonographic examinations. (S10146)

	Class	Lab	Clinical	Credits
<b>CVS 16 Echo I</b>	3	2	0	4

Prerequisites: None  
Corequisites: None  
Restrictions: Must be enrolled in A45160  
Cardiovascular Sonography program

This course covers cardiac anatomy and introduces cardiac scanning techniques. Topics include normal cardiac anatomy, Doppler physics, and 2-D and M-mode imaging. Upon completion, students should be able to perform 2-D and M-mode studies. (S10197)

<b>CVS 164 Echo II</b>	3	2	0	4
------------------------	---	---	---	---

Prerequisites: Take CVS 163  
Corequisites: None  
Restrictions: Must be enrolled in A45160  
Cardiovascular Sonography program

This course is a continuation of CVS 163 with continued study of 2-D and M-mode imaging. Emphasis is placed on continuous wave, pulsed wave, color, and power Doppler imaging of normal and abnormal cardiac conditions. Upon completion, students should be able to perform and recognize normal and abnormal cardiac studies. (S10106)

<b>CVS 277 Cardiovascular Topics</b>	2	0	0	2
--------------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None  
Restrictions: Must be enrolled in A45160  
Cardiovascular Sonography program

This course provides an overview of cardiovascular topics in preparation for certification examinations. Emphasis is placed on registry preparation. Upon completion, students should be able to sit for the registry examinations. (S22965)

Class Lab Clinical Credits

# DBA 110 – DRE 098

**DBA 110 Database Concepts** 2 3 0 3

Prerequisites: Take one: CIS 110 or CIS 111

Corequisites: None

This course introduces database design and creation using a DBMS product. Emphasis is placed on data dictionaries, normalization, data integrity, data modeling, and creation of simple tables, queries, reports, and forms. Upon completion, students should be able to design and implement normalized database structures by creating simple database tables, queries, reports, and forms. (S21017)

**DBA 120 Database Programming I** 2 2 0 3

Prerequisites: Take CIS 110

Corequisites: None

This course is designed to develop SQL programming proficiency. Emphasis is placed on data definition, data manipulation, and data control statements as well as on report generation. Upon completion, students should be able to write programs which create, update, and produce reports. (S21020)

**DBA 210 Database Administration** 2 3 0 3

Prerequisites: Take CIS 110

Corequisites: None

This course covers database administration issues and distributed database concepts. Topics include database administrator (DBA) goals and functions, backup and recovery, standards and procedures, training, and database security and performance evaluations. Upon completion, students should be able to produce functional DBA documentation and administer a database. (S21021)

**DDF 211 Design Process I** 1 6 0 4

Prerequisites: Take DFT 112 and DFT 154 and DFT 211 and MEC 145

Corequisites: None

This course emphasizes design processes for finished products. Topics include data collection from manuals and handbooks, efficient use of materials, design sketching, specifications, and vendor selection. Upon completion, students should be able to research and plan the design process for a finished product. **\*\*This is a Fall Only Class\*\*** (S20641)

**DDF 212 Design Process II** 1 6 0 4

Prerequisites: Take DDF 211 and ELC 111 and MEC 111

Corequisites: None

This course stresses the integration of various design practices. Emphasis is placed on the creation of an original design. Upon completion, students should be able to apply engineering graphics and design procedures to a design project. **\*\*This is a Spring Only Class\*\*** (S20817)

Class Lab Clinical Credits

**DEN 100 Basic Orofacial Anatomy** 2 0 0 2

Prerequisites: None

Corequisites: Take DEN 101

Restrictions: Must be enrolled in D45240  
Dental Assisting program

This course provides a basic introduction to the structures of the head, neck, and oral cavity. Topics include tooth morphology, head and neck anatomy, histology, and embryology. Upon completion, students should be able to demonstrate knowledge of normal structures and development and how they relate to the practice of dental assisting. This is a diploma-level course. (S14129)

**DEN 101 Preclinical Procedures** 4 6 0 7

Prerequisites: None

Corequisites: Take DEN 111

Restrictions: Must be enrolled in D45240  
Dental Assisting program

This course provides instruction in procedures for the clinical dental assistant as specified by the North Carolina Dental Practice Act. Emphasis is placed on orientation to the profession, infection control techniques, instruments, related expanded functions, and diagnostic, operative, and specialty procedures. Upon completion, students should be able to demonstrate proficiency in clinical dental assisting procedures. (S20496)

**DEN 102 Dental Materials** 2 4 0 4

Prerequisites: None

Corequisites: Take DEN 101

Restrictions: Must be enrolled in D45240  
Dental Assisting program

This course provides instruction in identification, properties, evaluation of quality, principles, and procedures related to manipulation and storage of operative and specialty dental materials. Emphasis is placed on the understanding and safe application of materials used in the dental office and laboratory. Upon completion, students should be able to demonstrate proficiency in the laboratory and clinical application of routinely used dental materials. (S24548)

**DEN 103 Dental Sciences** 2 0 0 2

Prerequisites: Take DEN 100

Corequisites: Take DEN 106

Restrictions: Must be enrolled in D45240  
Dental Assisting program

This course is a study of oral pathology, pharmacology, and dental office emergencies. Topics include oral pathological conditions, dental therapeutics, and management of emergency situations. Upon completion, students should be able to recognize abnormal oral conditions, identify classifications, describe actions and effects of commonly prescribed drugs, and respond to medical emergencies. (S14117)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>DEN 104 Dental Health Education</b>	2	2	0	3

Prerequisites: Take DEN 101 and DEN 111  
 Corequisites: Take DEN 106  
 Restrictions: Must be enrolled in D45240  
 Dental Assisting program

This course covers the study of preventive dentistry to prepare dental assisting students for the role of dental health educator. Topics include etiology of dental diseases, preventive procedures, and patient education theory and practice. Upon completion, students should be able to demonstrate proficiency in patient counseling and oral health instruction in private practice or public health settings. (S240498)

<b>DEN 105 Practice Management</b>	2	0	0	2
------------------------------------	---	---	---	---

Prerequisites: Take DEN 100  
 Corequisites: Take DEN 106  
 Restrictions: Must be enrolled in D45240  
 Dental Assisting program

This course provides a study of principles and procedures related to management of the dental practice. Emphasis is placed on maintaining clinical and financial records, patient scheduling, and supply and inventory control. Upon completion, students should be able to demonstrate fundamental skills in dental practice management. (S14095)

<b>DEN 106 Clinical Practice I</b>	2	0	12	6
------------------------------------	---	---	----	---

Prerequisites: Take DEN 101 and DEN 111  
 Corequisites: Take DEN 103 and DEN 104 and DEN 112  
 Restrictions: Must be enrolled in D45240  
 Dental Assisting program

This course is designed to provide experience assisting in a clinical setting. Emphasis is placed on the application of principles and procedures of fourhanded dentistry and laboratory and clinical support functions. Upon completion, students should be able to utilize classroom theory and laboratory and clinical skills in a dental setting. (S24527)

<b>DEN 107 Clinical Practice II</b>	1	0	12	5
-------------------------------------	---	---	----	---

Prerequisites: Take DEN 106  
 Corequisites: None  
 Restrictions: Must be enrolled in D45240  
 Dental Assisting program

This course is designed to increase the level of proficiency in assisting in a clinical setting. Emphasis is placed on the application of principles and procedures of fourhanded dentistry and laboratory and clinical support functions. Upon completion, students should be able to combine theoretical and ethical principles necessary to perform entry-level skills including functions delegable to a DA II. (S14107)

	Class	Lab	Clinical	Credits
<b>DEN 110 Orofacial Anatomy</b>	2	2	0	3

Prerequisites: None  
 Corequisites: Take DEN 121  
 Restrictions: Must be enrolled in A45260  
 Dental Hygiene program

This course introduces the structures of the head, neck, and oral cavity. Topics include tooth morphology, head and neck anatomy, histology, and embryology. Upon completion, students should be able to relate the identification of normal structures and development to the practice of dental assisting and dental hygiene. (S13235)

<b>DEN 111 Infection/Hazard Control</b>	2	0	0	2
---	---	---	---	---

Prerequisites: None  
 Corequisites: Take one: DEN 101 or DEN 121  
 Restrictions: Must be enrolled in at least one:  
 Dental Hygiene program - A45260  
 Dental Assisting program - D45240

This course introduces the infection and hazard control procedures necessary for the safe practice of dentistry. Topics include microbiology, practical infection control, sterilization and monitoring, chemical disinfectants, aseptic technique, infectious diseases, OSHA standards, and applicable North Carolina laws. Upon completion, students should be able to understand infectious diseases, disease transmission, infection control procedures, biohazard management, OSHA standards, and applicable North Carolina laws. (S13136)

<b>DEN 112 Dental Radiography</b>	2	3	0	3
-----------------------------------	---	---	---	---

Prerequisites: None  
 Corequisites: Take DEN 111  
 Take one: DEN 100 or DEN 110  
 Restrictions: Must be enrolled in at least one:  
 Dental Hygiene program - A45260  
 Dental Assisting program - D45240

This course provides a comprehensive view of the principles and procedures of radiology as they apply to dentistry. Topics include techniques in exposing, processing, and evaluating radiographs, as well as radiation safety, quality assurance, and legal issues. Upon completion, students should be able to demonstrate proficiency in the production of diagnostically acceptable radiographs using appropriate safety precautions. (S20500)

<b>DEN 120 Dental Hygiene Preclinic Lecture</b>	2	0	0	2
---	---	---	---	---

Prerequisites: None  
 Corequisites: Take DEN 121  
 Restrictions: Must be enrolled in A45260  
 Dental Hygiene program

This course introduces preoperative and clinical dental hygiene concepts. Emphasis is placed on the assessment phase of patient care as well as the theory of basic dental hygiene instrumentation. Upon completion, students should be able to collect and evaluate patient data at a basic level and demonstrate knowledge of dental hygiene instrumentation. (S13771)

## CAPE FEAR COMMUNITY COLLEGE

		Class	Lab	Clinical	Credits
<b>DEN 121</b>	<b>Dental Hygiene Preclinic Lab</b>	0	6	0	2
Prerequisites: None					
Corequisites: Take DEN 110 and DEN 111 and DEN 120					
Restrictions: Must be enrolled in A45260 Dental Hygiene program					

This course provides the opportunity to perform clinical dental hygiene procedures discussed in DEN 120. Emphasis is placed on clinical skills in patient assessment and instrumentation techniques. Upon completion, students should be able to demonstrate the ability to perform specific preclinical procedures. (S13759)

<b>DEN 123</b>	<b>Nutrition/Dental Health</b>	2	0	0	2
Prerequisites: None					
Corequisites: None					
Restrictions: Must be enrolled in A45260 Dental Hygiene program					

This course introduces basic principles of nutrition with emphasis on nutritional requirements and their application to individual patient needs. Topics include the study of Federal Nutritional Guidelines, nutrient functions, Recommended Daily Allowances, Adequate Intake, Tolerable Upper Intake Level, Estimated Average Requirement, and related psychological principles. Upon completion, students should be able to recommend and counsel individuals on their food intake as related to their dental health. (S24466)

<b>DEN 124</b>	<b>Periodontology</b>	2	0	0	2
Prerequisites: Take DEN 110					
Corequisites: None					
Restrictions: Must be enrolled in A45260 Dental Hygiene program					

This course provides an in-depth study of the periodontium, periodontal pathology, periodontal monitoring, and the principles of periodontal therapy. Topics include periodontal anatomy and a study of the etiology, classification, and treatment modalities of periodontal diseases. Upon completion, students should be able to describe, compare, and contrast techniques involved in periodontal/maintenance therapy, as well as patient care management. (S13772)

<b>DEN 125</b>	<b>Dental Office Emergencies</b>	0	2	0	1
Prerequisites: None					
Corequisites: None					
Restrictions: Must be enrolled in A45260 Dental Hygiene program					

This course provides a study of the management of dental office emergencies. Topics include methods of prevention, necessary equipment/drugs, medicolegal considerations, recognition and effective initial management of a variety of emergencies. Upon completion, the student should be able to recognize, assess and manage various dental office emergencies and activate advanced medical support when indicated. (S12820)

		Class	Lab	Clinical	Credits
<b>DEN 130</b>	<b>Dental Hygiene Theory I</b>	2	0	0	2
Prerequisites: Take DEN 120					
Corequisites: Take DEN 131					
Restrictions: Must be enrolled in A45260 Dental Hygiene program					

This course is a continuation of the didactic dental hygiene concepts necessary for providing an oral prophylaxis. Topics include deposits/removal, instrument sharpening, patient education, fluorides, planning for dental hygiene treatment, charting, and clinical records and procedures. Upon completion, students should be able to demonstrate knowledge needed to complete a thorough oral prophylaxis. (S11503)

<b>DEN 131</b>	<b>Dental Hygiene Clinic I</b>	0	0	9	3
Prerequisites: Take DEN 121					
Corequisites: Take DEN 130					
Restrictions: Must be enrolled in A45260 Dental Hygiene program					

This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of the recall patients with gingivitis or light deposits. Upon completion, students should be able to assess these patients' needs and complete the necessary dental hygiene treatment. (S11463)

<b>DEN 140</b>	<b>Dental Hygiene Theory II</b>	1	0	0	1
Prerequisites: Take DEN 130					
Corequisites: Take DEN 141					
Restrictions: Must be enrolled in A45260 Dental Hygiene program					

This course introduces principles in treatment modification. Topics include modification of treatment for pain management and advanced radiographic interpretation. Upon completion, students should be able to differentiate necessary treatment modifications and radiographic abnormalities. (S24467)

<b>DEN 141</b>	<b>Dental Hygiene Clinic II</b>	0	0	6	2
Prerequisites: Take DEN 131					
Corequisites: Take DEN 140					
Restrictions: Must be enrolled in A45260 Dental Hygiene program					

This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of patients with early periodontal disease and subgingival deposits. Upon completion, students should be able to assess these patients' needs and complete the necessary dental hygiene treatment. (S14275)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>DEN 220 Dental Hygiene Theory III</b>	2	0	0	2

Prerequisites: Take DEN 140  
 Corequisites: Take DEN 221  
 Restrictions: Must be enrolled in A45260  
 Dental Hygiene program

This course introduces advanced principles of patient care. Topics include advanced periodontal debridement, subgingival irrigation, air polishing, special needs and case presentations. Upon completion, students should be able to demonstrate knowledge of methods of treatment and management of periodontally compromised and special needs patients. (S24468)

<b>DEN 221 Dental Hygiene Clinic III</b>	0	0	12	4
--	---	---	----	---

Prerequisites: Take DEN 141  
 Corequisites: Take DEN 220  
 Restrictions: Must be enrolled in A45260  
 Dental Hygiene program

This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of patients with moderate to advanced periodontal involvement and moderate deposits. Upon completion, students should be able to assess these patients' needs and complete the necessary dental hygiene treatment. (S11261)

<b>DEN 222 General &amp; Oral Pathology</b>	2	0	0	2
---	---	---	---	---

Prerequisites: Take DEN 110  
                   Take one: BIO 163 or BIO 165 or BIO 168  
 Corequisites: None  
 Restrictions: Must be enrolled in A45260  
 Dental Hygiene program

This course provides a general knowledge of oral pathological manifestations associated with selected systemic and oral diseases. Topics include developmental and degenerative diseases, selected microbial diseases, specific and nonspecific immune and inflammatory responses with emphasis on recognizing abnormalities. Upon completion, students should be able to differentiate between normal and abnormal tissues and refer unusual findings to the dentist for diagnosis. (S11225)

<b>DEN 223 Dental Pharmacology</b>	2	0	0	2
------------------------------------	---	---	---	---

Prerequisites: None  
 Corequisites: Take one: BIO 163 or BIO 165 or BIO 168  
 Restrictions: Must be enrolled in A45260  
 Dental Hygiene program

This course provides basic drug terminology, general principles of drug actions, dosages, routes of administration, adverse reactions, and basic principles of anesthesiology. Emphasis is placed on knowledge of drugs in overall understanding of patient histories and health status. Upon completion, students should be able to recognize that each patient's general health or drug usage may require modification of the treatment procedures. (S11244)

	Class	Lab	Clinical	Credits
<b>DEN 224 Materials and Procedures</b>	1	3	0	2

Prerequisites: Take DEN 111  
 Corequisites: None  
 Restrictions: Must be enrolled in A45260  
 Dental Hygiene program

This course introduces the physical properties of materials and related procedures used in dentistry. Topics include restorative and preventive materials, fabrication of casts and appliances, and chairside functions of the dental hygienist. Upon completion, students should be able to demonstrate proficiency in the laboratory and/or clinical application of routinely used dental materials and chairside functions. (S11204)

<b>DEN 230 Dental Hygiene Theory IV</b>	1	0	0	1
---	---	---	---	---

Prerequisites: Take DEN 220  
 Corequisites: Take DEN 231  
 Restrictions: Must be enrolled in A45260  
 Dental Hygiene program

This course provides an opportunity to increase knowledge of the profession. Emphasis is placed on dental specialties, technological advances, and completion of a case study presentation. Upon completion, students should be able to demonstrate knowledge of various disciplines of dentistry, technological advances and principles of case presentations. (S24469)

<b>DEN 231 Dental Hygiene Clinic IV</b>	0	0	12	4
---	---	---	----	---

Prerequisites: Take DEN 221  
 Corequisites: Take DEN 230  
 Restrictions: Must be enrolled in A45260  
 Dental Hygiene program

This course provides an opportunity to increase knowledge of the profession. Emphasis is placed on dental specialties, technological advances, and completion of a case study presentation. Upon completion, students should be able to demonstrate knowledge of various disciplines of dentistry, technological advances and principles of case presentations. (S12938)

<b>DEN 232 Community Dental Health</b>	2	3	0	3
--	---	---	---	---

Prerequisites: None  
 Corequisites: None  
 Restrictions: Must be enrolled in A45260  
 Dental Hygiene program

This course provides a study of the principles and methods used in assessing, planning, implementing, and evaluating community dental health programs. Topics include epidemiology, research methodology, biostatistics, preventive dental care, dental health education, program planning, and financing and utilization of dental services. Upon completion, students should be able to assess, plan, implement, and evaluate a community dental health program. (S24470)

## CAPE FEAR COMMUNITY COLLEGE

		Class	Lab	Clinical	Credits
<b>DEN 233</b>	<b>Professional Development</b>	2	0	0	2
Prerequisites: None					
Corequisites: None					
Restrictions: Must be enrolled in A45260 Dental Hygiene program					

This course includes professional development, ethics, and jurisprudence with applications to practice management. Topics include conflict management, state laws, resumes, interviews, and legal liabilities as health care professionals. Upon completion, students should be able to demonstrate the ability to practice dental hygiene within established ethical standards and state laws. (S12943)

<b>DES 110</b>	<b>Architectural Graphics</b>	0	6	0	2
Prerequisites: None					
Corequisites: Take DES 125 and DES 135					

This course introduces basic drafting skills and techniques. Emphasis is placed on the use of drafting equipment, lettering, dimensioning, elevations, sections, construction details, and design standards as related to interior design. Upon completion, students should be able to complete construction documents skillfully utilizing principles of drafting. **\*\*This is a Fall Only Class\*\*** (S24219)

<b>DES 111</b>	<b>Creative Problem Solving</b>	2	0	0	2
Prerequisites: Take DES 110					
Corequisites: None					

This course is designed to improve conceptual abilities as applied to problems involved with creating practical designs. Emphasis is placed on the awareness of creative thinking techniques that are involved with producing a workable design in an innovative fashion. Upon completion, students should be able to apply creative thinking techniques to find innovative solutions to design challenges. (S24220)

<b>DES 112</b>	<b>Building and Construction Systems</b>	3	0	0	3
Prerequisites: None					
Corequisites: None					

This course provides an overview of the residential construction process for the interior designer. Emphasis is placed on providing the fundamental knowledge needed by the designer in residential construction basics and methods, including electrical and lighting, plumbing, sustainability, mechanical and ventilation, and the building envelope. Upon completion, students should be able to demonstrate effective communication required for effective collaboration with architects, engineers, and building contractors. **\*\*This is a Spring Only Class\*\*** (S23623)

		Class	Lab	Clinical	Credits
<b>DES 115</b>	<b>Color Theory</b>	2	2	0	3
Prerequisites: Take DES 110 and DES 125 and DES 135 and DES 225					
Corequisites: None					

This course introduces the element of color as a major design factor. Emphasis is placed on the physical, psychological, and other implications of color in design. Upon completion, students should be able to demonstrate knowledge of color and its effects on the human environment. (S10308)

<b>DES 120</b>	<b>CAD for Interior Design</b>	0	6	0	2
Prerequisites: Take DES 110					
Corequisites: None					

This course introduces basic computer-aided design and drafting skills and techniques within interior design applications. Emphasis is placed on the most common computer commands used in architectural drafting and design to draw, edit, manipulate layers, and create templates. Upon completion, students should be able to use specific computer applications to complete drawings and plot/print. **\*\*This is a Spring Only Class\*\*** (S24221)

<b>DES 125</b>	<b>Visual Presentation I</b>	0	6	0	2
Prerequisites: None					
Corequisites: Take DES 110 and DES 135					

This course introduces visual presentation techniques for communicating ideas. Topics include drawing, perspective drawing, rendering and mixed media. Upon completion, students should be able to present a design concept through graphic media. **\*\*This is a Fall Only Class\*\*** (S24222)

<b>DES 126</b>	<b>Visual Presentation II</b>	0	6	0	2
Prerequisites: Take DES 125					
Corequisites: None					

This course provides an in-depth study of visual presentation techniques. Topics include extensive rendering and mixed media experience and advanced measured perspective techniques. Upon completion, students should be able to present a complex design concept through graphic media. (S24223)

<b>DES 130</b>	<b>Digital Applications &amp; Interior Design</b>	2	3	0	3
Prerequisites: Take DES 110 and DES 125 and DES 135					
Corequisites: None					

This course introduces digital applications using current appropriate software and emerging technologies. Emphasis is placed on the operation of computer software in interior design applications. Upon completion, students should be able to use digital media to prepare a design solution. (S24224)

		Class	Lab	Clinical	Credits
<b>DES 135</b>	<b>Principles and Elements of Design I</b>	2	4	0	4

Prerequisites: None  
Corequisites: Take DES 110 and DES 125

This course introduces the basic concepts and terminology of design as they relate to the design profession. Topics include line, pattern, space, mass, shape, texture, color, unity, variety, rhythm, emphasis, balance, proportion, scale, and function. Upon completion, students should be able to demonstrate an understanding of the principles covered through 2D and 3D exploration. **\*\*This is a Fall Only Class\*\*** (S24225)

<b>DES 136</b>	<b>Principles and Elements of Design II</b>	2	4	0	4
----------------	---	---	---	---	---

Prerequisites: Take DES 135  
Corequisites: None

This course provides advanced study of design principles and elements. Emphasis is placed on color theory, pattern, and texture as used in design as well as an investigation of the psychology of color. Upon completion, students should be able to originate a color program for 2D and 3D exploration. (S24226)

<b>DES 210</b>	<b>Professional Practices for Interior Design</b>	2	0	0	2
----------------	---	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090  
Corequisites: None

This course introduces contemporary business practices for interior design. Topics include employment skills, business formations, professional associations, preparation of professional contracts and correspondence, and means of compensation. Upon completion, students should be able to demonstrate an understanding of basic business practices as they relate to the interior design profession. (S24227)

<b>DES 220</b>	<b>Interior Design Fundamentals</b>	1	6	0	3
----------------	-------------------------------------	---	---	---	---

Prerequisites: Take one set from each group:  
Group 1:  
Set 1: DES 135 and ARC 111  
Set 2: DES 110  
Set 3: DFT 115  
Group 2:  
Set 1: DES 125, DES 135, DES 225, and ENG 095  
Set 2: DES 125, DES 135, DES 225, and RED 090  
Set 3: DES 125, DES 135, DES 225, and ENG 111  
Set 4: DES 125, DES 135, DES 225, and DRE 098  
Corequisites: None

This course provides an introduction to the application of interior design principles. Emphasis is placed on spatial relationships, material selections, craftsmanship, and visual presentation techniques. Upon completion, students should be able to apply interior design principles and illustrate design solutions through visual communication. **\*\*This is a Spring Only Class\*\*** (S24228)

		Class	Lab	Clinical	Credits
<b>DES 225</b>	<b>Textiles for Interiors</b>	2	2	0	3

Prerequisites: None  
Corequisites: None

This course includes the study of textiles and their applications for a variety of interiors. Emphasis is placed on history, manufacturing processes, fiber characteristics, and residential and non-residential applications. Upon completion, students should be able to specify appropriate textiles. (S24229)

<b>DES 230</b>	<b>Residential Design I</b>	1	6	0	3
----------------	-----------------------------	---	---	---	---

Prerequisites: Take DES 125 and DES 136 and DES 220  
Corequisites: None

This course includes principles of interior design for various residential design solutions. Emphasis is placed on visual presentation and selection of appropriate styles to meet specifications. Upon completion, students should be able to present scaled floor plans, elevations, specifications, color schemes finishes and furniture selection. **\*\*This is a Fall Only Class\*\*** (S24230)

<b>DES 231</b>	<b>Residential Design II</b>	1	6	0	3
----------------	------------------------------	---	---	---	---

Prerequisites: Take DES 230  
Corequisites: None

This course provides advanced projects with a client profile that utilizes the skills developed in DES 230. Emphasis is placed on a total concept and the presentation of appropriate and creative design solutions. Upon completion, students should be able to complete a detailed floorplan, space planning, furniture plan, specifications, program schedules, finishes, and detailed window treatments. **\*\*This is a Spring Only Class\*\*** (S10619)

<b>DES 235</b>	<b>Products</b>	2	2	0	3
----------------	-----------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course provides an overview of interior products. Topics include floor coverings; wall coverings and finishes; ceilings, moldings, and furniture construction techniques; and other interior components. Upon completion, students should be able to identify and select appropriate materials and furnishings for interior spaces based on application. **\*\*This is a Fall Only Class\*\*** (S24231)

<b>DES 238</b>	<b>Sustainable Interiors</b>	2	2	0	3
----------------	------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces basic concepts of sustainability and green design as they relate to interior environments. Topics include sustainable design principles, LEED® and other sustainable rating and certification programs, low impact materials, indoor air quality, and energy and water conservation. Upon completion, students should be able to demonstrate a general understanding of the basic principles of sustainable interiors through hands-on application. (S24232)

## CAPE FEAR COMMUNITY COLLEGE

		Class	Lab	Clinical	Credits
--	--	-------	-----	----------	---------

**DES 240 Commercial and Contract Design I** 1 6 0 3

Prerequisites: Take DES 220

Corequisites: None

This course is designed to focus on commercial/contract design including retail, office, institutional, healthcare and hospitality design. Emphasis is placed on ADA requirements, building codes and standards, space planning, and selection of appropriate materials for non-residential interiors. Upon completion, students should be able to analyze design and present non-residential projects. **\*\*This is a Fall Only Class\*\*** (S24233)

**DES 241 Commercial and Contract Design II** 1 6 0 3

Prerequisites: Take DES 240

Corequisites: None

This course provides an in-depth study of non-residential design exploring more comprehensive design solutions such as health care facilities, furniture gallery design, and large office complexes. Emphasis is placed on design of commercial interiors and suitability of materials to meet ADA requirements, codes, and standards. Upon completion, students should be able to design non-residential spaces meeting ADA requirements and select furniture, materials, fabrics, and accessories meeting codes and flammability standards. **\*\*This is a Spring Only Class\*\*** (S21678)

**DES 242 Kitchen and Bath Design** 2 2 0 3

Prerequisites: Take one: ARC 111 or DES 110 or DFT 115

Corequisites: None

This course covers the fundamentals of kitchen and bath design. Emphasis is placed on the principles and elements of kitchen and bath design, analysis of client needs, specifying products, and drafting design solutions. Upon completion, students should be able to produce basic kitchen and bath design utilizing standards established by the National Kitchen and Bath Association (NKBA). **\*\*This is a Spring Only Class\*\*** (S23672)

**DES 243 Advanced Kitchen and Bath Design** 2 2 0 3

Prerequisites: Take DES 242

Corequisites: None

This course covers advanced kitchen and bath design. Emphasis will be placed on universal design solutions, producing professional working documents, and mastery of developing and presenting a design concept and theme. Upon completion, students should be able to execute complex kitchen and bath designs. (S23673)

		Class	Lab	Clinical	Credits
--	--	-------	-----	----------	---------

**DES 255 History of Interiors & Furnishings I** 3 0 0 3

Prerequisites: None

Corequisites: None

This course introduces architecture, interiors, and furnishings in a variety of historic styles from Prehistoric to Neoclassical. Emphasis is placed on vocabulary, chronology, and style recognition. Upon completion, students should be able to recognize, classify and describe major styles of furniture, interiors, and architecture. (S24234)

**DES 256 History of Interiors & Furnishing II** 3 0 0 3

Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090

Corequisites: None

This course continues the study of architecture, interiors, and furnishings from a variety of historic styles from Colonial to Contemporary. Emphasis is placed on style recognition, vocabulary, and chronology. Upon completion, students should be able to recognize, classify and describe major styles of furniture, interiors, and exteriors. **\*\*This is a Fall Only Class\*\*** (S24235)

**DES 260 Materials Calculation / Interior Design** 3 0 0 3

Prerequisites: Take DES 225 and DES 235

Corequisites: None

This course includes the study of calculations for square footage, square yardage, and cut-length yardage. Emphasis is placed on the development of workable formulas, worksheets, and order forms that can be used in an interior design business. Upon completion, students should be able to produce electronic worksheets and order forms for calculating window treatments, wall coverings, and floor coverings for a given space. (S12551)

**DES 265 Lighting/ Interior Design** 1 2 0 2

Prerequisites: Take DES 110

Corequisites: None

This course introduces theory and contemporary concepts in lighting. Topics include light levels, light quality, lamps and fixtures, and their use and application in interior design. Upon completion, students should be able to visually communicate light concepts and requirements based on national standards and select solutions for specific lighting scenarios. (S24236)

**DES 285 Capstone/Interior Design** 2 6 0 4

Prerequisites: Take DES 230 and DES 240

Corequisites: Take DES 210

This course provides additional studio time to investigate areas of special interest, upgrade weaknesses, and/or capitalize on strengths. Topics include a broad range of options, both residential and non-residential, combining individual research and instructional guidance. Upon completion, students should be able to complete the graphics, client folder, and all schedules for a professional project. **\*\*This is a Spring Only Class\*\*** (S24324)

	Class	Lab	Clinical	Credits
<b>DFT 100 Marine Drafting</b>	1	2	0	2

Prerequisites: None  
Corequisites: Take BTB 101

This course introduces the student to the art of lofting. Topics include utilization of architectural ruler, battens, bevel sticks, trammel points and other lofting tools in order to draw a full size boat from a lines drawing. Upon completion, students should be able to loft a boat full size, determine stem and station bevels, draw deck crown, and expand transoms. (S23283)

	1	3	0	2
--	---	---	---	---

**DFT 111 Technical Drafting I**  
Prerequisites: Take DMA 010 and DMA 020 and DMA 030  
Corequisites: Take DFT 111A and DFT 151

This course introduces basic drafting skills, equipment, and applications. Topics include sketching, measurements, lettering, dimensioning, geometric construction, orthographic projections and pictorials drawings, sections, and auxiliary views. Upon completion, students should be able to understand and apply basic drawing principles and practices. (S16295)

	0	3	0	1
--	---	---	---	---

**DFT 111A Technical Drafting I Lab**  
Prerequisites: None  
Corequisites: Take DFT 111

This course provides a laboratory setting to enhance basic drafting skills. Emphasis is placed on practical experiences that enhance the topics presented in DFT 111. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in DFT 111. **\*\*This is a Fall Only Class\*\*** (S11814)

	1	3	0	2
--	---	---	---	---

**DFT 112 Technical Drafting II**  
Prerequisites: Take DFT 111 and DFT 151  
Corequisites: Take DFT 112A

This course provides for advanced drafting practices and procedures. Topics include detailed working drawings, hardware, fits and tolerances, assembly and sub-assembly, geometric dimensioning and tolerancing, intersections, and developments. Upon completion, students should be able to produce detailed working drawings. **\*\*This is a Spring Only Class\*\*** (S16296)

	0	3	0	1
--	---	---	---	---

**DFT 112A Technical Drafting II Lab**  
Prerequisites: Take DFT 111 and DFT 151  
Corequisites: Take DFT 112

This course provides a laboratory setting to enhance advance drafting skills. Emphasis is placed on practical experiences that enhance the topics presented in DFT 112. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in DFT 112. **\*\*This is a Spring Only Class\*\*** (S10249)

	1	2	0	2
--	---	---	---	---

**DFT 119 Basic CAD**  
Prerequisites: Take MAC 111 and MAC 132  
Corequisites: None

This course introduces computer-aided drafting software for specific technologies to non-drafting majors. Emphasis is placed on understanding the software command structure and drafting standards for specific technical fields. Upon completion, students should be able to create and plot basic drawings. (S13624)

	2	3	0	3
--	---	---	---	---

**DFT 151 CAD I**  
Prerequisites: Take DMA 010 and DMA 020 and DMA 030  
Corequisites: None

This course introduces CAD software as a drawing tool. Topics include drawing, editing, file management, and plotting. Upon completion, students should be able to produce and plot a CAD drawing. **\*\*This is a Fall Only Class\*\*** (S13857)

	2	3	0	3
--	---	---	---	---

**DFT 152 CAD II**  
Prerequisites: Take DFT 151  
Corequisites: None

This course introduces extended CAD applications. Emphasis is placed upon intermediate applications of CAD skills. Upon completion, students should be able to use extended CAD applications to generate and manage drawings. (S20642)

	2	3	0	3
--	---	---	---	---

**DFT 154 Intro Solid Modeling**  
Prerequisites: Take DFT 151  
Corequisites: None

This course is an introduction to basic three-dimensional solid modeling and design software. Topics include basic design, creation, editing, rendering and analysis of solid models, and creation of multiview drawings. Upon completion, students should be able to use design techniques to create, edit, render and generate a multiview drawing. **\*\*This is a Spring Only Class\*\*** (S20664)

	2	2	0	3
--	---	---	---	---

**DFT 170 Engineering Graphics**  
Prerequisites: None  
Corequisites: None

This course introduces basic engineering graphics skills and applications. Topics include sketching, selection and use of current methods and tools, and the use of engineering graphics applications. Upon completion, students should be able to demonstrate an understanding of basic engineering graphics principles and practices. (S20734)

## CAPE FEAR COMMUNITY COLLEGE

		Class	Lab	Clinical	Credits
--	--	-------	-----	----------	---------

**DFT 211 Gears, Cams, & Pulleys** 1 3 0 2

Prerequisites: Take one set:

Set 1: DFT 111 and MAT 121

Set 2: DFT 111 and MAT 171

Corequisites: None

This course introduces the principles of motion transfer. Topics include gears, cams, pulleys, and drive components. Upon completion, students should be able to solve problems and produce drawings dealing with ratios. (S23985)

**DFT 231 Jig and Fixture Design** 1 2 0 2

Prerequisites: Take DFT 254

Corequisites: None

This course introduces the study of jigs and fixtures. Topics include different types, components, and uses of jigs and fixtures. Upon completion, students should be able to analyze, design, and complete a set of working drawings for a jig or fixture. **\*\*This is a Spring Only Class\*\*** (S20665)

**DFT 254 Intermediate Solid Modeling & Rendering** 2 3 0 3

Prerequisites: Take DFT 154

Corequisites: None

This course presents a continuation of basic three-dimensional solid modeling and design software. Topics include advanced study of parametric design, creation, editing, rendering and analysis of solid model assemblies, and multiview drawing generation. Upon completion, students should be able to use parametric design techniques to create and analyze the engineering design properties of a model assembly. (S20156)

**DMA 010 Operations with Integers** .75 .50 0 1

Prerequisites: None

Corequisites: None

This course provides a conceptual study of integers and integer operations. Topics include integers, absolute value, exponents, square roots, perimeter and area of basic geometric figures, Pythagorean theorem, and use of the correct order of operations. Upon completion, students should be able to demonstrate an understanding of pertinent concepts and principles and apply this knowledge in the evaluation of expressions. (S23164)

**DMA 020 Fractions and Decimals** .75 .50 0 1

Prerequisites: Take DMA 010

Corequisites: None

This course provides a conceptual study of the relationship between fractions and decimals and covers related problems. Topics include application of operations and solving contextual application problems, including determining the circumference and area of circles with the concept of pi. Upon completion, students should be able to demonstrate an understanding of the connections between fractions and decimals. (S23168)

**DMA 030 Proportion/Ratios/Rates/ Percents** .75 .50 0 1

Prerequisites: Take DMA 010 and DMA 020

Corequisites: None

This course provides a conceptual study of the problems that are represented by rates, ratios, percent, and proportions. Topics include rates, ratios, percent, proportion, conversion of English and metric units, and applications of the geometry of similar triangles. Upon completion, students should be able to use their understanding to solve conceptual application problems. (S23169)

**DMA 040 Expressions, Linear Equations, Linear Inequalities** .75 .50 0 1

Prerequisites: Take one set:

Set 1: DMA 010, DMA 020, and DMA 030

Set 2: MAT 060

Corequisites: None

This course provides a conceptual study of problems involving linear expressions, equations, and inequalities. Emphasis is placed on solving contextual application problems. Upon completion, students should be able to distinguish between simplifying expressions and solving equations and apply this knowledge to problems involving linear expressions, equations, and inequalities. (S23170)

**DMA 050 Graphs and Equations of Lines** .75 .50 0 1

Prerequisites: Take one set:

Set 1: DMA 010, DMA 020, DMA 030, and DMA 040

Set 2: DMA 040 and MAT 060

Corequisites: None

This course provides a conceptual study of problems involving graphic and algebraic representations of lines. Topics include slope, equations of lines, interpretation of basic graphs, and linear modeling. Upon completion, students should be able to solve contextual application problems and represent real-world situations as linear equations in two variables. (S23171)

**DMA 060 Polynomial and Quadratic Applications** .75 .50 0 1

Prerequisites: Take one set:

Set 1: DMA 010, DMA 020, DMA 030, DMA 040, and DMA 050

Set 2: DMA 040, DMA 050, and MAT 060

Set 3: MAT 060 and MAT 070

Corequisites: None

This course provides a study of problems involving algebraic representations of quadratic equations. Topics include basic polynomial operations, factoring polynomials, and solving polynomial equations by means of factoring. Upon completion, students should be able to find algebraic solutions to contextual problems with quadratic applications. (S24128)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>DMA 065 Algebra for Precalculus</b>	1.5	1	0	2

Prerequisites: Take DMA 010 and DMA 020 and  
DMA 030 and DMA 040 and  
DMA 050

Corequisites: None

This course provides a study of problems involving algebraic representations of quadratic, rational, and radical equations. Topics include simplifying polynomial, rational, and radical expressions and solving quadratic, rational, and radical equations. Upon completion, students should be able to find algebraic solutions to contextual problems with quadratic and rational applications. (S24074)

<b>DMA 070 Rational Expressions and Equations</b>	.75	.50	0	1
---	-----	-----	---	---

Prerequisites: Take one set:

Set 1: DMA 010, DMA 020, DMA 030, DMA 040,  
DMA 050, and DMA 060

Set 2: DMA 040, DMA 050, DMA 060, and MAT 060

Set 3: DMA 060, MAT 060, and MAT 070

Set 4: DMA 010, DMA 020, DMA 030, DMA 060, and  
MAT 070

Corequisites: None

This course provides a study of problems involving algebraic representations of rational equations. Topics include simplifying and performing operations with rational expressions and equations, understanding the domain, and determining the reasonableness of an answer. Upon completion, students should be able to find algebraic solutions to contextual problems with rational applications. (S24129)

<b>DMA 080 Rational Expressions and Equations</b>	.75	.50	0	1
---	-----	-----	---	---

Prerequisites: Take one set:

Set 1: DMA 010, DMA 020, DMA 030, DMA 040,  
DMA 050, DMA 060, and DMA 070

Set 2: DMA 060, DMA 070, MAT 060, and MAT 070

Set 3: DMA 040, DMA 050, DMA 060, DMA 070, and  
MAT 060

Set 4: DMA 010, DMA 020, DMA 030, DMA 060,  
DMA 070, and MAT 070

Corequisites: None

This course provides a study of problems involving algebraic representations of the manipulation of radical expressions and the application of radical equations. Topics include simplifying and performing operations with radical expressions and rational exponents, solving radical equations, and determining the reasonableness of a solution. Upon completion, students should be able to find algebraic solutions to contextual problems with radical applications. (S24130)

	Class	Lab	Clinical	Credits
<b>DMS 001 Developmental Math Shell I</b>	.75	.50	0	1

Prerequisites: None

Corequisites: None

This course provides an opportunity to customize developmental math content in specific developmental math areas. Content will be one DMA module appropriate to the required level of the student. Upon completion, students should be able to demonstrate an understanding of their specific developmental math area of content. (S23632)

<b>DMS 002 Developmental Math Shell 2</b>	1.5	1	0	2
---	-----	---	---	---

Prerequisites: None

Corequisites: None

This course provides an opportunity to customize developmental math content in specific developmental math areas. Content will be two DMA modules appropriate to the required level of the student. Upon completion, students should be able to demonstrate an understanding of their specific developmental math area of content. (S23633)

<b>DMS 003 Developmental Math Shell 3</b>	2.25	1.5	0	3
---	------	-----	---	---

Prerequisites: None

Corequisites: None

This course provides an opportunity to customize developmental math content in specific developmental math areas. Content will be three DMA modules appropriate to the required level of the student. Upon completion, students should be able to demonstrate an understanding of their specific developmental math area of content. (S23634)

<b>DMS 004 Developmental Math Shell 4</b>	3	2	0	4
---	---	---	---	---

Prerequisites: None

Corequisites: None

This course provides an opportunity to customize developmental math content in specific developmental math areas. Content will be four DMA modules appropriate to the required level of the student. Upon completion, students should be able to demonstrate an understanding of their specific developmental math area of content. (S23635)

<b>DRA 111* Theatre Appreciation</b>	3	0	0	3
--------------------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course provides a study of the art, craft, and business of the theatre. Emphasis is placed on the audience's appreciation of the work of the playwright, director, actor, designer, producer, and critic. Upon completion, students should be able to demonstrate a vocabulary of theatre terms and to recognize the contributions of various theatre artists. (S11248)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>DRA 112* Literature of the Theatre</b>	3	0	0	3
Prerequisites: None				
Corequisites: None				

This course provides a survey of dramatic works from the classical Greek through the present. Emphasis is placed on the language of drama, critical theory, and background as well as on play reading and analysis. Upon completion, students should be able to articulate, orally and in writing, their appreciation and understanding of dramatic works. (S10971)

<b>DRA 120* Voice for Performance</b>	3	0	0	3
Prerequisites: None				
Corequisites: None				

This course provides guided practice in the proper production of speech for the theatre. Emphasis is placed on improving speech, including breathing, articulation, pronunciation, and other vocal variables. Upon completion, students should be able to demonstrate effective theatrical speech. (S12868)

<b>DRA 122* Oral Interpretation</b>	3	0	0	3
Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090				
Corequisites: None				

This course introduces the dramatic study of literature through performance. Emphasis is placed on analysis and performance of poetry, drama, and prose fiction. Upon completion, students should be able to embody and discuss critically the speakers inherent in literature. (S12397)

<b>DRA 126* Storytelling</b>	3	0	0	3
Prerequisites: None				
Corequisites: None				

This course introduces the art of storytelling and the oral traditions of folk literature. Topics include the history of storytelling, its value and purpose, techniques of the storyteller, and methods of collecting verbal art. Upon completion, students should be able to present and discuss critically stories from the world's repertory of traditional lore. (S12896)

<b>DRA 128* Children's Theatre</b>	3	0	0	3
Prerequisites: None				
Corequisites: None				

This course introduces the philosophy and practice involved in producing plays for young audiences. Topics include the selection of age-appropriate scripts and the special demands placed on directors, actors, designers, and educators in meeting the needs of young audiences. Upon completion, students should be able to present and critically discuss productions for children. (S12864)

	Class	Lab	Clinical	Credits
<b>DRA 130* Acting I</b>	0	6	0	3
Prerequisites: None				
Corequisites: None				

This course provides an applied study of the actor's craft. Topics include role analysis, training the voice, and body concentration, discipline, and self-evaluation. Upon completion, students should be able to explore their creativity in an acting ensemble. (S10305)

<b>DRA 131* Acting II</b>	0	6	0	3
Prerequisites: Take DRA 130				
Corequisites: None				

This course provides additional hands-on practice in the actor's craft. Emphasis is placed on further analysis, characterization, growth, and training for acting competence. Upon completion, students should be able to explore their creativity in an acting ensemble. (S10315)

<b>DRA 135* Acting for the Camera I</b>	1	4	0	3
Prerequisites: None				
Corequisites: None				

This course provides an applied study of the camera actor's craft. Topics include commercial, dramatic, and print performance styles. Upon completion, students should be able to explore their creativity in on-camera performance. (S10316)

<b>DRA 136* Acting for the Camera II</b>	1	4	0	3
Prerequisites: Take DRA 135				
Corequisites: None				

This course provides additional hands-on study of the camera actor's craft. Emphasis is placed on more advanced camera acting theories, auditioning techniques, daytime drama, feature film, and print advertisement performance styles. Upon completion, students should be able to explore their creativity in on-camera performance. (S10289)

<b>DRA 140* Stagecraft I</b>	0	6	0	3
Prerequisites: None				
Corequisites: None				

This course introduces the theory and basic construction of stage scenery and properties. Topics include stage carpentry, scene painting, stage electrics, properties, and backstage organization. Upon completion, students should be able to pursue vocational and avocational roles in technical theatre. (S11936)

<b>DRA 141* Stagecraft II</b>	0	6	0	3
Prerequisites: Take DRA 140				
Corequisites: None				

This course provides additional hands-on practice in the elements of stagecraft. Emphasis is placed on the design and implementation of the arts and crafts of technical theatre. Upon completion, students should be able to pursue vocational or avocational roles in technical theatre. (S12066)

## COURSE DESCRIPTIONS

**DRA 142\* Costuming** Class Lab Clinical Credits  
2 2 0 3  
Prerequisites: None  
Corequisites: None

This course covers the techniques of costume construction and crafts processes. Emphasis is placed on learning costuming techniques, using equipment and materials, and finishing production-appropriate costumes. Upon completion, students should be able to demonstrate an understanding of pattern drafting, construction techniques, and costume fitting procedures. (S11992)

**DRA 145\* Stage Make-up** 1 2 0 2  
Prerequisites: None  
Corequisites: None

This course covers the research, design, selection of materials, and application of stage make-up, prosthetics, wigs, and hairpieces. Emphasis is placed on the development of techniques, style, and presentation of the finished make-up. Upon completion, students should be able to create and apply make-up, prosthetics, and hairpieces. (S12089)

**DRA 170\* Play Production I** 0 9 0 3  
Prerequisites: None  
Corequisites: None

This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. (S10529)

**DRA 171\* Play Production II** 0 9 0 3  
Prerequisites: Take DRA 170  
Corequisites: None

This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. (S10530)

**DRA 175\* Teleplay Production I** 0 9 0 3  
Prerequisites: None  
Corequisites: None

This course provides an applied laboratory study of the processes involved in production of a dramatic television program. Emphasis is placed on the fundamental practices, principles, and techniques associated with producing dramatic television programming. Upon completion, students should be able to participate in an assigned position with a college dramatic television production. (S10542)

**DRA 211\* Theatre History I** Class Lab Clinical Credits  
3 0 0 3  
Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090  
Corequisites: None

This course covers the development of theatre from its origin to the closing of the British theatre in 1642. Topics include the history, aesthetics, and representative dramatic literature of the period. Upon completion, students should be able to trace the evolution of theatre and recognize the styles and types of world drama. (S10268)

**DRA 212\* Theatre History II** 3 0 0 3  
Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090  
Corequisites: None

This course covers the development of theatre from 1660 through the diverse influences which shaped the theatre of the twentieth century. Topics include the history, aesthetics, and representative dramatic literature of the period. Upon completion, students should be able to trace the evolution of theatre and recognize the styles and types of world drama. (S10226)

**DRA 230\* Acting III** 0 6 0 3  
Prerequisites: Take DRA 131  
Corequisites: None

This course covers the development of theatre from 1660 through the diverse influences which shaped the theatre of the twentieth century. Topics include the history, aesthetics, and representative dramatic literature of the period. Upon completion, students should be able to trace the evolution of theatre and recognize the styles and types of world drama. (S10671)

**DRA 231\* Acting IV** 0 6 0 3  
Prerequisites: Take DRA 230  
Corequisites: None

This course covers the development of theatre from 1660 through the diverse influences which shaped the theatre of the twentieth century. Topics include the history, aesthetics, and representative dramatic literature of the period. Upon completion, students should be able to trace the evolution of theatre and recognize the styles and types of world drama. (S10673)

**DRA 240\* Lighting for the Theatre** 2 2 0 3  
Prerequisites: None  
Corequisites: None

This course is an applied study of theatre lighting and is designed to train theatre technicians. Emphasis is placed on lighting technology including the mechanics of lighting and light control equipment by practical work with lighting equipment. Upon completion, students should be able to demonstrate competence with lighting equipment. (S13476)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>DRA 260* Directing</b>	0	6	0	3

Prerequisites: Take DRA 130

Corequisites: Take DRA 140

This course provides an analysis and application of the techniques of theatrical directing. Topics include script selection, analysis, casting, rehearsal planning, blocking, stage business, tempo, and technical considerations. Upon completion, students should be able to plan, execute, and critically discuss a student-directed production. (S11775)

<b>DRA 270* Play Production III</b>	0	9	0	3
-------------------------------------	---	---	---	---

Prerequisites: Take DRA 171

Corequisites: None

This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. (S11079)

<b>DRA 271* Play Production IV</b>	0	9	0	3
------------------------------------	---	---	---	---

Prerequisites: Take DRA 270

Corequisites: None

This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. (S11029)

<b>DRE 096 Integrated Reading and Writing</b>	2.5	1	0	3
---	-----	---	---	---

Prerequisites: None

Corequisites: None

This course is designed to develop proficiency in specific integrated and contextualized reading and writing skills and strategies. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; these topics are primarily taught at the introductory level using texts primarily in a Lexile™ range of 960 to 1115. Upon completion, students should be able to apply those skills toward understanding a variety of academic and career-related texts and composing effective paragraphs. (S23641)

	Class	Lab	Clinical	Credits
<b>DRE 097 Integrated Reading and Writing II</b>	2.5	1	0	3

Prerequisites: Take DRE 096

Corequisites: None

This course is designed to develop proficiency in integrated and contextualized reading and writing skills and strategies. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; except where noted, these topics are taught at a reinforcement level using texts primarily in a Lexile™ range of 1070 to 1220. Upon completion, students should be able to demonstrate and apply those skills toward understanding a variety of complex academic and career texts and composing essays incorporating relevant, valid evidence. (S23642)

<b>DRE 098 Integrated Reading and Writing III</b>	2.5	1	0	3
---	-----	---	---	---

Prerequisites: Take DRE 097

Corequisites: None

This course is designed to develop proficiency in integrated and contextualized reading and writing skills and strategies. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; these topics are taught using texts primarily in the Lexile™ range of 1185 to 1385. Upon completion, students should be able to apply those skills toward understanding a variety of texts at the career and college ready level and toward composing a documented essay. (S23643)

Class Lab Clinical Credits

# ECO 151 – EPT 275

**ECO 151\* Survey of Economics** 3 0 0 3Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course, for those who have not received credit for ECO 251 or 252, introduces basic concepts of micro- and macroeconomics. Topics include supply and demand, optimizing economic behavior, prices and wages, money, interest rates, banking system, unemployment, inflation, taxes, government spending, and international trade. Upon completion, students should be able to explain alternative solutions for economic problems faced by private and government sectors. (S13257)

**ECO 251\*<sup>u</sup> Principles of Microeconomics** 3 0 0 3Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course introduces economic analysis of individual, business, and industry in the market economy. Topics include the price mechanism, supply and demand, optimizing economic behavior, costs and revenue, market structures, factor markets, income distribution, market failure, and government intervention. Upon completion, students should be able to identify and evaluate consumer and business alternatives in order to efficiently achieve economic objectives. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S11774)*

**ECO 252\*<sup>u</sup> Principles of Macroeconomics** 3 0 0 3Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course introduces economic analysis of aggregate employment, income, and prices. Topics include major schools of economic thought; aggregate supply and demand; economic measures, fluctuations, and growth; money and banking; stabilization techniques; and international trade. Upon completion, students should be able to evaluate national economic components, conditions, and alternatives for achieving socioeconomic goals. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S11710)*

Class Lab Clinical Credits

**EDU 114 Introduction to Family Childcare** 3 0 0 3Prerequisites: Take DMA 010 and DMA 020 and  
DMA 030

Take one: ENG 085 or DRE 097

Corequisites: Take DRE 097

This course introduces the student to family childcare home environments with emphasis on standards and developmentally effective approaches for supporting diverse children and families. Topics include standards for quality, curriculum for multiple age groups, authentic assessment methods, business practices, building positive family and community partnerships, and professionalism. Upon completion, students should be able to design a family childcare handbook that reflects a healthy, respectful, supportive, and stimulating learning environment. (S23993)

**EDU 119 Introduction to Early Child Education** 4 0 0 4

Prerequisites: None

Corequisites: None

This course introduces the foundations of early childhood education, the diverse educational settings for young children, professionalism and planning intentional developmentally appropriate experiences for each child. Topics include theoretical foundations, national early learning standards, NC Foundations for Early Learning and Development, state regulations, program types, career options, professionalism, ethical conduct, quality inclusive environments, and curriculum responsive to the needs of each child/family. Upon completion, students should be able to design a career/professional development plan, appropriate environments, schedules, and activity plans. (S24238)

**EDU 131 Child, Family, & Community** 3 0 0 3

Prerequisites: Take EDU 119

Corequisites: Take DRE 097

This course covers the development of partnerships between culturally, linguistically and ability diverse families, children, schools and communities through the use of evidence-based strategies. Emphasis is placed on developing skills and identifying benefits for establishing, supporting, and maintaining respectful, collaborative relationships between diverse families, programs/schools, and community agencies/resources reflective of the NAEYC Code of Ethical Conduct. Upon completion, students should be able to identify appropriate relationship building strategies between diverse families, children, schools, and communities and demonstrate a variety of communication skills including appropriate use of technology to support every child. (S24558)

## CAPE FEAR COMMUNITY COLLEGE

**EDU 144 Child Development I**      Class 3 Lab 0 Clinical 0 Credits 3  
 Prerequisites: Take EDU 119 and PSY 150  
 Corequisites: Take DRE 097

This course includes the theories of child development, observation and assessment, milestones, and factors that influence development, from conception through approximately 36 months. Emphasis is placed on knowledge, observation and assessment of developmental sequences in approaches to play/learning, emotional/social, health/physical, language/communication and cognitive domains. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain biological and environmental factors that impact development, and identify evidence-based strategies for enhancing development for children that are culturally, linguistically, and ability diverse. (S24559)

**EDU 145 Child Development II**      Class 3 Lab 0 Clinical 0 Credits 3  
 Prerequisites: Take EDU 119 and PSY 150  
 Corequisites: Take DRE 097

This course includes the theories of child development, observation and assessment, milestones, and factors that influence development, from preschool through middle childhood. Emphasis is placed on knowledge, observation and assessment of developmental sequences in approaches to play/learning, emotional/social, health/physical, language/communication and cognitive domains. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain biological and environmental factors that impact development, and identify evidence-based strategies for enhancing development for children that are culturally, linguistically, and ability diverse. (S24560)

**EDU 146 Child Guidance**      Class 3 Lab 0 Clinical 0 Credits 3  
 Prerequisites: Take EDU 119 and PSY 150  
 Corequisites: Take DRE 097

This course introduces evidence-based strategies to build nurturing relationships with each child by applying principles and practical techniques to facilitate developmentally appropriate guidance. Topics include designing responsive/supportive learning environments, cultural, linguistic and socio-economic influences on behavior, appropriate expectations, the importance of communication with children/families including using technology and the use of formative assessments in establishing intentional strategies for children with unique needs. Upon completion, students should be able to demonstrate direct/indirect strategies to encourage social skills, self-regulation, emotional expression and positive behaviors while recognizing the relationship between children's social, emotional and cognitive development. (S24561)

**EDU 151 Creative Activities**      Class 3 Lab 0 Clinical 0 Credits 3  
 Prerequisites: None  
 Corequisites: Take DRE 097 and EDU 151A

This course introduces developmentally supportive creative learning environments with attention to divergent thinking, creative problem-solving, evidence-based teaching practices, and open-ended learning materials while applying NC Foundations for Early Learning and Development. Emphasis is placed on observation of process driven learning experiences in art, music, creative movement, dance, and dramatics for every young child age birth through eight, integrated through all domains and academic content. Upon completion, students should be able to examine, create, and adapt developmentally creative learning materials, experiences, and environments for children that are culturally, linguistically, and ability diverse. (S24562)

**EDU 151A Creative Activities Lab**      Class 0 Lab 2 Clinical 0 Credits 1  
 Prerequisites: None  
 Corequisites: Take DRE 097 and EDU 151

This course provides a laboratory component to complement EDU 151. Emphasis is placed on practical experiences that enhance concepts introduced in the classroom. Upon completion, students should be able to demonstrate a practical understanding of the development and implementation of appropriate creative activities. (S23696)

**EDU 153 Health, Safety & Nutrition**      Class 3 Lab 0 Clinical 0 Credits 3  
 Prerequisites: Take EDU 119  
 Corequisites: Take DRE 097

This course covers promoting and maintaining the health and well-being of every child. Topics include health and nutritional guidelines, common childhood illnesses, maintaining safe and healthy learning environments, health benefits of active play, recognition and reporting of abuse/neglect, and state regulations. Upon completion, students should be able to apply knowledge of NC Foundations for Early Learning and Development for health, safety, nutritional needs and safe learning environments. (S24564)

**EDU 188 Issues in Early Childhood Education**      Class 2 Lab 0 Clinical 0 Credits 2  
 Prerequisites: Take EDU 119  
 Corequisites: Take DRE 097

This course covers topics and issues in early childhood education. Emphasis is placed on current advocacy issues, emerging technology, professional growth experiences, and other related topics. Upon completion, students should be able to list, discuss, and explain current topics and issues in early childhood education. (S23762)

	Class	Lab	Clinical	Credits
<b>EDU 216 Foundations of Education</b>	4	0	0	4

Prerequisites: None

Corequisites: Take DRE 098

This course introduces the American educational system and the teaching profession. Topics include the historical and philosophical influences on education, various perspectives on educational issues, and experiences in K-12 classrooms. Upon completion, students should be able to reflect on classroom observations, analyze the different educational approaches, including classical/traditional and progressive, and have knowledge of the various roles of educational systems at the federal, state and local level. (S24570)

<b>EDU 221 Children with Exceptionalities</b>	3	0	0	3
---	---	---	---	---

Prerequisites: Take one set:

Set 1: EDU 119, EDU 144, and EDU 145

Set 2: EDU 119, PSY 244, and PSY 245

Corequisites: Take DRE 098

This course covers atypical patterns of child development, inclusive/diverse settings, evidenced-based educational/family plans, differentiated instruction, adaptive materials, and assistive technology. Emphasis is placed on the characteristics of exceptionalities and delays, early intervention/special education, transitions, observation, developmental screening, formative assessment of children, and collaborating with families and community partners. Upon completion, students should be able to recognize diverse abilities, describe the referral process, identify community resources, explain the importance of collaboration with families/professionals, and develop appropriate strategies/adaptations to support children in all environments with best practices as defined by laws, policies and the NC Foundations for Early Learning and Development. (S24571)

<b>EDU 234 Infants, Toddlers, &amp; Twos</b>	3	0	0	3
--	---	---	---	---

Prerequisites: Take EDU 119 and EDU 144

Corequisites: Take DRE 098

This course covers the development of high-quality, individualized, responsive/engaging relationships and experiences for infants, toddlers, and twos. Emphasis is placed on typical and atypical child development, positive early learning experiences, supporting and engaging diverse families, providing safe, warm and nurturing interactions, and the application of the NC Foundations for Early Learning and Development. Upon completion, students should be able to demonstrate responsive planning, respectful relationships and exposure to a variety of developmentally appropriate experiences/materials that support a foundation for healthy development and growth of culturally, linguistically and ability diverse children birth to 36 months. (S24573)

	Class	Lab	Clinical	Credits
<b>EDU 234A Infants/Toddlers &amp; Twos Lab</b>	0	2	0	1

Prerequisites: Take EDU 119 and EDU 144

Corequisites: Take DRE 098 and EDU 234

This course focuses on practical applications that support the healthy development of children birth to 36 months by applying principles of quality, individualized, responsive/engaging relationships and experiences. Emphasis is placed on typical and atypical child development, positive early learning experiences, supporting and engaging diverse families, providing safe, warm and nurturing interactions, and the application of the NC Foundations for Early Learning and Development. Upon completion, students should be able to demonstrate the ability to engage in respectful, responsive care to support a foundation for healthy development and growth of children birth to 36 months culturally, linguistically, and ability diverse through responsive planning and positive exposure to a variety of experiences/materials. (S24574)

<b>EDU 235 School-Age Development and Programs</b>	3	0	0	3
--	---	---	---	---

Prerequisites: Take EDU 119

Corequisites: Take DRE 098

This course includes developmentally appropriate practices in group settings for school-age children. Emphasis is placed on principles of development, environmental planning, and positive guidance techniques and program development. Upon completion, students should be able to discuss developmental principles for culturally, linguistically, and ability diverse children ages five to twelve and plan and implement developmentally appropriate programs and activities. (S24575)

<b>EDU 251 Exploration Activities</b>	3	0	0	3
---------------------------------------	---	---	---	---

Prerequisites: Take EDU 119

Corequisites: Take DRE 098 and EDU 251A

This course covers fundamental concepts in the content areas of science, technology, engineering, math and social studies through investigative experiences. Emphasis is placed on exploring fundamental concepts, developmentally appropriate scope and sequence, and teaching strategies to engage each child in the discovery approach. Upon completion, students should be able to understand major concepts in each content area and implement appropriate experiences for young children. (S24576)

# CAPE FEAR COMMUNITY COLLEGE

**EDU 251A Exploration Activities Lab**      Class Lab Clinical Credits  
0   2   0   1  
Prerequisites: Take EDU 119  
Corequisites: Take DRE 098 and EDU 251

This course provides a laboratory component to practice content knowledge gained from EDU 251. Emphasis is placed on practical experience that enhances the fundamental concepts. Upon completion, students should be able to demonstrate the discovery approach to teaching and plan appropriate science, technology, engineering, math, and social studies experiences for each child. (S24577)

**EDU 259 Curriculum Planning**      3   0   0   3  
Prerequisites: Take one set:  
Set 1: EDU 119, EDU 151, and EDU 151A  
Set 2: EDU 119, EDU 251, and EDU 251A  
Set 3: EDU 119, EDU 280, and EDU 280A  
Corequisites: Take DRE 098

This course is designed to focus on using content knowledge to build developmentally effective approaches for culturally/linguistically/ability diverse young children. Topics include components of curriculum, a variety of curriculum models, authentic observation and assessment, and planning developmentally appropriate experiences aligned with the NC Foundations for Early Learning and Development. Upon completion, students should be able to understand, evaluate, and use curriculum to plan for individual/group needs. (S24578)

**EDU 261 Early Childhood Administration I**      3   0   0   3  
Prerequisites: None  
Corequisites: Take DRE 098 and EDU 119

This course introduces principles and practices essential to preparing and supporting childcare administrators. Topics include program philosophy, policies and procedures, NC Child Care Law and Rules, business planning, personnel and fiscal management, and NAEYC Code of Ethical Conduct Supplement for Early Childhood Program Administration. Upon completion, students should be able to articulate a developmentally appropriate program philosophy, locate current state licensing regulations, analyze a business plan and examine comprehensive program policies and procedures. (S24579)

**EDU 262 Early Childhood Administration II**      3   0   0   3  
Prerequisites: Take DRE 098 and EDU 119 and EDU 261  
Corequisites: None

This course focuses on advocacy/leadership, public relations/community outreach and program quality/evaluation for diverse early childhood programs. Topics include program evaluation/accreditation, involvement in early childhood professional organizations, leadership/mentoring, family, volunteer and community involvement and early childhood advocacy. Upon completion, students should be able to define and evaluate all components of early childhood programs, develop strategies for advocacy and integrate community into programs. (S24580)

**EDU 263 School-Age Program Administration**      Class Lab Clinical Credits  
2   0   0   2  
Prerequisites: Take EDU 119  
Corequisites: Take DRE 098

This course introduces the methods and procedures for development and administration of school-age programs in the public or proprietary setting. Emphasis is placed on the construction and organization of the physical environment. Upon completion, students should be able to plan, develop and administer a quality school-age program. (S23735)

**EDU 271 Educational Technology**      2   2   0   3  
Prerequisites: Take one set:  
Set 1: CIS 110 and EDU 119  
Set 2: CIS 111 and EDU 119  
Corequisites: Take DRE 098

This course introduces the ethical use of technology to enhance teaching and learning in all educational settings. Emphasis is placed on technology concepts, ethical issues, digital citizenship, instructional strategies, assistive technology, and the use of technology for professional development and communication. Upon completion, students should be able to discuss technology concepts, ethically use a variety of technology resources, demonstrate appropriate technology skills in educational environments, and identify assistive technology. (S24581)

**EDU 280 Language & Literacy Experiences**      3   0   0   3  
Prerequisites: Take EDU 119  
Corequisites: Take DRE 098 and EDU 280A

This course provides evidence-based strategies for enhancing language and literacy experiences that align with NC Foundations for Early Learning and Development. Topics include developmental sequences for children's emergent receptive and expressive language, print concepts, appropriate observations/assessments, literacy enriched environments, quality selection of diverse literature, interactive media, and inclusive practices. Upon completion, students should be able to select, plan, implement and evaluate developmentally appropriate language and literacy experiences for children who are culturally, linguistically and ability diverse. (S24582)

**EDU 280A Literacy Experiences Lab**      0   2   0   1  
Prerequisites: Take EDU 119  
Corequisites: Take DRE 098 and EDU 280

This course provides a laboratory component to complement EDU 280. Emphasis is placed on practical experiences that enhance concepts introduced in the classroom. Upon completion, students should be able to demonstrate a practical understanding of the development and implementation of appropriate early literacy experiences. (S23739)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>EDU 284 Early Childhood Capstone Practicum</b>	1	9	0	4

Prerequisites: Take one set:

Set 1: EDU 119, EDU 144, EDU 145, EDU 146, EDU 151, and EDU 259

Set 2: EDU 119, EDU 146, EDU 151, EDU 259, PSY 244, and PSY 245

Set 3: EDU 119, EDU 144, EDU 146, EDU 151, EDU 259, and PSY 245

Set 4: EDU 119, EDU 145, EDU 146, EDU 151, EDU 259, and PSY 244

Corequisites: Take DRE 098

This course is designed to allow students to demonstrate acquired skills in a three star (minimum) or NAEYC accredited or equivalent, quality early childhood environment. Emphasis is placed on designing, implementing and evaluating developmentally appropriate activities and environments for all children; supporting/engaging families; and modeling reflective and professional practices based on national and state guidelines. Upon completion, students should be able to apply NC Foundations for Early Learning and Development to demonstrate developmentally appropriate plans/assessments, appropriate guidance techniques and ethical/professional behaviors, including the use of appropriate technology, as indicated by assignments and onsite faculty assessments. (S24584)

<b>EGR 115 Introduction to Technology</b>	2	3	0	3
---	---	---	---	---

Prerequisites: None

Corequisites: None

This course introduces the basic skills and career fields for technicians. Topics include career options, technical vocabulary, dimensional analysis, measurement systems, engineering graphics, calculator applications, professional ethics, safety practices, and other related topics. Upon completion, students should be able to demonstrate an understanding of the basic technologies, prepare drawings and sketches, and perform computations using a scientific calculator. (S20666)

<b>EGR 150* Intro to Engineering</b>	1	2	0	2
--------------------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course is an overview of the engineering profession. Topics include goal setting and career assessment, ethics, public safety, the engineering method and design process, written and oral communication, interpersonal skills and team building, and computer applications. Upon completion, students should be able to understand the engineering process, the engineering profession, and utilize college resources to meet their educational goals. (S20709)

	Class	Lab	Clinical	Credits
<b>EGR 212* Logic System Design I</b>	3	0	0	3

Prerequisites: Take MAT 271 and PHY 251

Corequisites: None

This course provides an introduction to digital circuits and analysis. Topics include Boolean Algebra; mixed logic; design of combinational circuits; introduction to sequential systems; and MSI building blocks. Upon completion, students should be able to analyze and design digital circuits and systems. (S20145)

<b>EGR 220* Engineering Statics</b>	3	0	0	3
-------------------------------------	---	---	---	---

Prerequisites: Take PHY 251

Corequisites: Take MAT 272

This course introduces the concepts of engineering based on forces in equilibrium. Topics include concentrated forces, distributed forces, forces due to friction, and inertia as they apply to machines, structures, and systems. Upon completion, students should be able to solve problems which require the ability to analyze systems of forces in static equilibrium. (S13929)

<b>EGR 225* Engineering Dynamics</b>	3	0	0	3
--------------------------------------	---	---	---	---

Prerequisites: Take EGR 220

Corequisites: Take MAT 273

This course introduces the concepts of engineering based on the analysis of motion in Cartesian, cylindrical, and spherical coordinate systems. Topics include the two and three dimensional motion of particles and rigid bodies, the forces associated with that motion, and relative motion between two coordinate systems. Upon completion, students should be able to solve problems which require the ability to analyze the motion and forces involved in a dynamic system. (S13963)

<b>EGR 251 Statics</b>	2	2	0	3
------------------------	---	---	---	---

Prerequisites: Take PHY 131

Corequisites: None

This course covers the concepts and principles of statics. Topics include systems of forces and moments on structures in two- and three-dimensions in equilibrium. Upon completion, students should be able to analyze forces and moments on structures. **\*\*This is a Fall Only Class\*\*** (S23502)

<b>EGR 252 Strength of Materials</b>	2	2	0	3
--------------------------------------	---	---	---	---

Prerequisites: Take EGR 251 and MEC 145

Corequisites: None

This course covers the principles and concepts of stress analysis. Topics include centroids, moments of inertia, shear/moment diagrams, and stress and strain. Upon completion, students should be able to perform a stress and strain analysis on structural components. **\*\*This is a Spring Only Class\*\*** (S23503)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>ELC 111 Intro to Electricity</b>	2	2	0	3
Prerequisites: None				
Corequisites: None				

This course introduces the fundamental concepts of electricity and test equipment to non-electrical/electronics majors. Topics include basic DC and AC principles (voltage, resistance, current, impedance); components (resistors, inductors, and capacitors); power; and operation of test equipment. Upon completion, students should be able to construct and analyze simple DC and AC circuits using electrical test equipment. **\*\*This is a Fall Only Class\*\*** (S11841)

<b>ELC 112 DC/AC Electricity</b>	3	6	0	5
Prerequisites: Take DMA 010, DMA 020, DMA 030, DMA 040, and DMA 050				
Take one: DRE 098 or ENG 095 or ENG 111 or RED 090				
Corequisites: None				

This course introduces the fundamental concepts of and computations related to DC/AC electricity. Emphasis is placed on DC/AC circuits, components, operation of test equipment; and other related topics. Upon completion, students should be able to construct, verify, and analyze simple DC/AC circuits. **\*\*This is a Fall Only Class\*\*** (S23481)

<b>ELC 113 Residential Wiring</b>	2	6	0	4
Prerequisites: Take DMA 010, DMA 020, DMA 030, DMA 040, and DMA 050				
Take one: DRE 098 or ENG 095 or ENG 111 or RED 090				
Corequisites: None				

This course introduces the care/usage of tools and materials used in residential electrical installations and the requirements of the National Electrical Code. Topics include NEC, electrical safety, and electrical print reading; planning, layout; and installation of electrical distribution equipment; lighting; overcurrent protection; conductors; branch circuits; and conduits. Upon completion, students should be able to properly install conduits, wiring, and electrical distribution equipment associated with residential electrical installations. **\*\*This is a Fall Only Class\*\*** (S23518)

	Class	Lab	Clinical	Credits
<b>ELC 114 Commercial Wiring</b>	2	6	0	4
Prerequisites: Take DMA 010, DMA 020, DMA 030, DMA 040, and DMA 050				
Take one: DRE 098 or ENG 095 or ENG 111 or RED 090				
Corequisites: None				

This course provides instruction in the application of electrical tools, materials, and test equipment associated with commercial electrical installations. Topics include the NEC; safety; electrical blueprints; planning, layout, and installation of equipment and conduits; and wiring devices such as panels and overcurrent devices. Upon completion, students should be able to properly install equipment and conduit associated with commercial electrical installations. **\*\*This is a Spring Only Class\*\*** (S23519)

<b>ELC 115 Industrial Wiring</b>	2	6	0	4
Prerequisites: Take ELC 113				
Corequisites: None				

This course covers layout, planning, and installation of wiring systems in industrial facilities. Emphasis is placed on industrial wiring methods and materials. Upon completion, students should be able to install industrial systems and equipment. **\*\*This is a Summer Only Class\*\*** (S23520)

<b>ELC 117 Motors and Controls</b>	2	6	0	4
Prerequisites: Take DMA 010, DMA 020, DMA 030, DMA 040, and DMA 050				
Take one: DRE 098 or ENG 095 or ENG 111 or RED 090				
Corequisites: None				

This course introduces the fundamental concepts of motors and motor controls. Topics include ladder diagrams, pilot devices, contactors, motor starters, motors, and other control devices. Upon completion, students should be able to properly select, connect, and troubleshoot motors and control circuits. **\*\*This is a Spring Only Class\*\*** (S23521)

<b>ELC 118 National Electrical Code</b>	1	2	0	2
Prerequisites: Take one: ELC 111 or ELC 112 or ELC 113				
Corequisites: None				

This course covers the use of the current National Electrical Code. Topics include the NEC history, wiring methods, overcurrent protection, materials, and other related topics. Upon completion, students should be able to effectively use the NEC. **\*\*This is a Spring Only Class\*\*** (S11926)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>ELC 119     NEC Calculations</b>	1	2	0	2
Prerequisites: Take ELC 118				
Corequisites: None				

This course covers branch circuit, feeder, and service calculations. Emphasis is placed on sections of the National Electrical Code related to calculations. Upon completion, students should be able to use appropriate code sections to size wire, conduit, and overcurrent devices for branch circuits, feeders, and service. **\*\*This is a Summer Only Class\*\*** (S11833)

<b>ELC 121     Electrical Estimating</b>	1	2	0	2
Prerequisites: Take ELC 113				
Corequisites: None				

This course covers the principles involved in estimating electrical projects. Topics include take-offs of materials and equipment, labor, overhead, and profit. Upon completion, students should be able to estimate simple electrical projects. **\*\*This is a Fall Only Class\*\*** (S21591)

<b>ELC 125     Diagrams and Schematics</b>	1	2	0	2
Prerequisites: None				
Corequisites: None				

This course covers the interpretation of electrical diagrams, schematics, and drawings common to electrical applications. Emphasis is placed on reading and interpreting electrical diagrams and schematics. Upon completion, students should be able to read and interpret electrical diagrams and schematics. (S10647)

<b>ELC 128     Introduction to                  Programmable Logic Controller</b>	2	3	0	3
Prerequisites: Take one: ELC 111 or ELC 117 or ELC 131				
Corequisites: None				

This course introduces the programmable logic controller (PLC) and its associated applications. Topics include ladder logic diagrams, input/output modules, power supplies, surge protection, selection/installation of controllers, and interfacing of controllers with equipment. Upon completion, students should be able to understand basic PLC systems and create simple programs. (S23522)

	Class	Lab	Clinical	Credits
<b>ELC 131     Circuit Analysis I</b>	3	3	0	4
Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090				
Corequisites: Take MAT 121 or MAT 171				

This course introduces DC and AC electricity with an emphasis on circuit analysis, measurements, and operation of test equipment. Topics include DC and AC principles, circuit analysis laws and theorems, components, test equipment operation, circuit simulation, and other related topics. Upon completion, students should be able to interpret circuit schematics; design, construct, verify, and analyze DC/AC circuits; and properly use test equipment. (S23482)

<b>ELC 133     Circuit Analysis II</b>	3	3	0	4
Prerequisites: Take ELC 131				
Corequisites: None				

This course covers additional concepts of DC/AC electricity, the use of test equipment, and measurement techniques. Topics include the application of network theorems such as delta/wye transformations, Superposition Theorem, and other advanced circuit analysis principles. Upon completion, students should be able to construct and analyze DC/AC circuits used advanced circuit analysis theorems, circuit simulators, and test equipment. **\*\*This is a Spring Only Class\*\*** (S23484)

<b>ELC 213     Instrumentation</b>	3	2	0	4
Prerequisites: Take one: ELC 111 or ELC 112 or ELC 131				
Corequisites: None				

This course covers the fundamentals of instrumentation used in industry. Emphasis is placed on electric, electronic, and other instruments. Upon completion, students should be able to install, maintain, and calibrate instrumentation. (S25198)

<b>ELC 220     Photovoltaic System                  Technology</b>	2	3	0	3
Prerequisites: Take one: ALT 120 or ELC 111				
Corequisites: None				

This course introduces the concepts, tools, techniques, and materials needed to understand systems that convert solar energy into electricity with photovoltaic (pv) technologies. Topics include site analysis for system integration, building codes, and advances in photovoltaic technology. Upon completion, students should be able to demonstrate an understanding of the principles of photovoltaic technology and current applications. **\*\*This is a Fall Only Class\*\*** (S23449)

## CAPE FEAR COMMUNITY COLLEGE

		Class	Lab	Clinical	Credits
<b>ELC 221</b>	<b>Advanced Photovoltaic System Designs</b>	2	3	0	3

Prerequisites: Take ELC 220  
Corequisites: None

This course introduces specific elements in photovoltaic (pv) systems technologies including efficiency, modules, inverters, charge controllers, batteries, and system installation. Topics include National Electrical Code (NEC), electrical specifications, photovoltaic system components, array design and power integration requirements that combine to form a unified structure. Upon completion, students should be able to demonstrate an understanding of various photovoltaic designs and proper installation of NEC compliant solar electric power systems. **\*\*This is a Spring Only Class\*\*** (S23453)

<b>ELC 228</b>	<b>Programmable Logic Controllers Applications</b>	2	6	0	4
----------------	--	---	---	---	---

Prerequisites: Take ELC 128  
Corequisites: None

This course covers programming and applications of programmable logic controllers. Emphasis is placed on programming techniques, networking, specialty I/O modules, and system troubleshooting. Upon completion, students should be able to specify, implement, and maintain complex PLC controlled systems. (S21601)

<b>ELC 230</b>	<b>Wind &amp; Hydro Power Systems</b>	2	2	0	3
----------------	---------------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces concepts, designs, tools, techniques, and material requirements for systems that convert wind and water into usable energy. Topics include the analysis, measurement, and estimation of potential energy of wind and water systems. Upon completion, students should be able to demonstrate an understanding of the technologies associated with converting wind and water into a viable energy source. **\*\*This is a Fall Only Class\*\*** (S23454)

<b>ELN 114</b>	<b>Marine Electronics</b>	1	2	0	2
----------------	---------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces a wide variety of marine electronics that are used in the marine research industry. Topics include basic theory, AC/DC power systems, components, circuits, testing, troubleshooting, and installation of AC and DC marine electronics. Upon completion, students should be able to install, maintain, and operate basic marine electronics used in the marine research industry. (S21621)

		Class	Lab	Clinical	Credits
<b>ELN 131</b>	<b>Analog Electronics I</b>	3	3	0	4

Prerequisites: Take one set:  
Set 1: ELC 131 and MAT 121  
Set 2: ELC 131 and MAT 171  
Corequisites: None

This course introduces the characteristics and applications of semiconductor devices and circuits. Emphasis is placed on analysis, selection, biasing, and applications. Upon completion, students should be able to construct, analyze, verify, and troubleshoot analog circuits using appropriate techniques and test equipment. **\*\*This is a Spring Only Class\*\*** (S23487)

<b>ELN 132</b>	<b>Analog Electronics II</b>	3	3	0	4
----------------	------------------------------	---	---	---	---

Prerequisites: Take ELN 131  
Corequisites: None

This course covers additional applications of analog electronic circuits with an emphasis on analog and mixed signal integrated circuits (IC). Topics include amplification, filtering, oscillation, voltage regulation, and other analog circuits. Upon completion, students should be able to construct, analyze, verify, and troubleshoot analog electronic circuits using appropriate techniques and test equipment. (S23509)

<b>ELN 133</b>	<b>Digital Electronics</b>	3	3	0	4
----------------	----------------------------	---	---	---	---

Prerequisites: Take ELC 131  
Corequisites: None

This course covers combinational and sequential logic circuits. Topics include number systems, Boolean algebra, logic families, medium scale integration (MSI) and large-scale integration (LSI) circuits, analog to digital (AD) and digital to analog (DA) conversion, and other related topics. Upon completion, students should be able to construct, analyze, verify, and troubleshoot digital circuits using appropriate techniques and test equipment. **\*\*This is a Fall Only Class\*\*** (S23488)

<b>ELN 150</b>	<b>CAD for Electronics</b>	1	3	0	2
----------------	----------------------------	---	---	---	---

Prerequisites: Take ELC 131  
Corequisites: None

This course introduces computer-aided drafting (CAD) with an emphasis on applications in the electronics field. Topics include electronics industry standards (symbols, schematic diagrams, and layouts); drawing electronic circuit diagrams; and specialized electronic drafting practices and components such as resistors, capacitors, and ICs. Upon completion, students should be able to prepare electronic drawings with CAD software. (S21630)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>ELN 152     Fabrication Techniques</b>	1	3	0	2

Prerequisites: None

Corequisites: None

This course covers the fabrication methods required to create a prototype product from the initial circuit design. Topics include CAD, layout, sheet metal working, component selection, PC board layout and construction, reverse engineering, soldering, and other related topics. Upon completion, students should be able to design and construct an electronic product with all its associated documentation. (S21631)

<b>ELN 231     Industrial Controls</b>	2	3	0	3
--	---	---	---	---

Prerequisites: Take one: ELC 111 or ELC 131

Corequisites: None

This course introduces the fundamental concepts of control of rotating machinery and associated peripheral devices. Topics include rotating machine theory, ladder logic, electromechanical and solid state relays, motor controls, pilot devices, three-phase power systems, and other related topics. Upon completion, students should be able to interpret schematics and demonstrate an understanding of electromechanical and electronic control of rotating machinery. (S21639)

<b>ELN 232     Introduction to Microprocessors</b>	3	3	0	4
--	---	---	---	---

Prerequisites: Take CSC 133 and ELN 133

Corequisites: None

This course introduces microprocessor architecture and microcomputer systems including memory and input/output interfacing. Topics include low-level language programming, bus architecture, I/O systems, memory systems, interrupts, and other related topics. Upon completion, students should be able to interpret, analyze, verify, and troubleshoot fundamental microprocessor circuits and programs using appropriate techniques and test equipment. (S21640)

<b>ELN 234     Communication Systems</b>	3	3	0	4
--	---	---	---	---

Prerequisites: Take ELN 133

Corequisites: None

This course introduces the fundamentals of electronic communication systems. Topics include the frequency spectrum, electrical noise, modulation techniques, characteristics of transmitters and receivers, and digital communications. Upon completion, students should be able to interpret analog and digital communication circuit diagrams, analyze transmitter and receiver circuits, and use appropriate communication test equipment. **\*\*This is a Fall Only Class\*\*** (S21642)

	Class	Lab	Clinical	Credits
<b>ELN 236     Fiber Optics and Lasers</b>	3	2	0	4

Prerequisites: Take one: ELC 111 or ELC 131

Corequisites: None

This course introduces the fundamentals of fiber optics and lasers. Topics include the transmission of light; characteristics of fiber optic and lasers and their systems; fiber optic production; types of lasers; and laser safety. Upon completion, students should be able to understand fiber optic communications and basic laser fundamentals. (S20400)

<b>ELN 238     Advanced LANs</b>	2	3	0	3
----------------------------------	---	---	---	---

Prerequisites: Take TNE 255

Corequisites: None

This course covers advanced concepts, tools, and techniques associated with servers, workstations, and overall local area network performance. Topics include network security and configuration, system performance and optimization, communication protocols and packet formats, troubleshooting techniques, multi-platform integration, and other related topics. Upon completion, students should be able to use advanced techniques to install, manage, and troubleshoot networks and optimize server and workstation performance. **\*\*This is a Spring Only Class\*\*** (S21645)

<b>ELN 246     Certified Electronic Technician Preparation</b>	3	0	0	3
--	---	---	---	---

Prerequisites: Take ELN 234

Corequisites: None

This course covers electronic principles, theories, and concepts. Emphasis is placed on those items covered in the Certified Electronic Technician examination. Upon completion, students should be able to demonstrate competence in electronics and be prepared for the Certified Electronic Technician examination. (S11665)

<b>ELN 275     Troubleshooting</b>	1	3	0	2
------------------------------------	---	---	---	---

Prerequisites: Take ELN 133 or ELN 141

Corequisites: None

This course covers electronic principles, theories, and concepts. Emphasis is placed on those items covered in the Certified Electronic Technician examination. Upon completion, students should be able to demonstrate competence in electronics and be prepared for the Certified Electronic Technician examination. (S11665)

## CAPE FEAR COMMUNITY COLLEGE

		Class	Lab	Clinical	Credits
--	--	-------	-----	----------	---------

**EMS 110 EMT** 6 6 0 8  
 Prerequisites: None  
 Corequisites: None  
 Restrictions: Must be enrolled in A45340  
 Emergency Medical Science program

This course introduces basic emergency medical care. Topics include preparatory, airway, patient assessment, medical emergencies, trauma, infants and children, and operations. Upon completion, students should be able to demonstrate the knowledge and skills necessary to achieve North Carolina State or National Registry EMT certification. **\*\*This is a Fall Only Class\*\*** (S23869)

**EMS 122 EMS Clinical Practicum I** 0 0 3 1  
 Prerequisites: Take EMS 110  
 Corequisites: Take EMS 130  
 Restrictions: Must be enrolled in A45340  
 Emergency Medical Science program

This course provides the introductory hospital clinical experience for the paramedic student. Emphasis is placed on mastering fundamental paramedic skills. Upon completion, students should be able to demonstrate competence with fundamental paramedic level skills. (S23872)

**EMS 125 EMS Instructor Methodology** 1 2 0 2  
 Prerequisites: None  
 Corequisites: None  
 Restrictions: Must be enrolled in A45340  
 Emergency Medical Science program

This course covers the information needed to develop and instruct EMS courses. Topics include instructional methods, lesson plan development, time management skills, and theories of adult learning. Upon completion, students should be able to teach EMS courses and meet the North Carolina EMS requirements for instructor methodology. (S10755)

**EMS 130 Pharmacology** 3 3 0 4  
 Prerequisites: Take EMS 110  
 Corequisites: Take EMS 122  
 Restrictions: Must be enrolled in A45340  
 Emergency Medical Science program

This course introduces the fundamental principles of pharmacology and medication administration and is required for paramedic certification. Topics include medical terminology, pharmacological concepts, weights, measures, drug calculations, vascular access for fluids and medication administration and legislation. Upon completion, students should be able to accurately calculate drug dosages, properly administer medications, and demonstrate general knowledge of pharmacology. (S23874)

		Class	Lab	Clinical	Credits
--	--	-------	-----	----------	---------

**EMS 131 Advanced Airway Management** 1 2 0 2  
 Prerequisites: Take EMS 110  
 Corequisites: None  
 Restrictions: Must be enrolled in A45340  
 Emergency Medical Science program

This course is designed to provide advanced airway management techniques and is required for paramedic certification. Topics include respiratory anatomy and physiology, airway/ventilation, adjuncts, surgical intervention, and rapid sequence intubation. Upon completion, students should be able to properly utilize all airway adjuncts and pharmacology associated with airway control and maintenance. (S23875)

**EMS 140 Rescue Scene Management** 1 3 0 2  
 Prerequisites: None  
 Corequisites: None  
 Restrictions: Must be enrolled in A45340  
 Emergency Medical Science program

This course introduces rescue scene management. Topics include response to hazardous material conditions, incident command, and extrication of patients from a variety of situations. Upon completion, students should be able to recognize and manage rescue operations based upon initial and follow-up scene assessment. **\*\*This is a Summer Only Class\*\*** (S23876)

**EMS 160 Cardiology** 1 3 0 2  
 Prerequisites: Take EMS 110  
 Corequisites: None  
 Restrictions: Must be enrolled in A45340  
 Emergency Medical Science program

This course introduces the study of cardiovascular emergencies and is required for paramedic certification. Topics include anatomy and physiology, pathophysiology, electrophysiology, and basic rhythm interpretation in the monitoring leads. Upon completion, students should be able to recognize and interpret basic rhythms. (S23873)

**EMS 220 Cardiology II** 2 3 0 2  
 Prerequisites: Take EMS 122 and EMS 130 and EMS 160  
 Corequisites: None  
 Restrictions: Must be enrolled in A45340  
 Emergency Medical Science program

This course provides an in-depth study of cardiovascular emergencies and is required for paramedic certification. Topics include assessment and treatment of cardiac emergencies, application and interpretation of advanced electrocardiography utilizing the twelve-lead ECG, cardiac pharmacology, and patient care. Upon completion, students should be able to assess and treat patients utilizing American Heart Association guidelines. (S23878)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>EMS 221 EMS Clinical Practicum II</b>	0	0	6	2

Prerequisites: Take EMS 122 and EMS 130  
 Corequisites: None  
 Restrictions: Must be enrolled in A45340  
                   Emergency Medical Science program

This course provides clinical experiences in the hospital and/or field. Emphasis is placed on increasing the proficiency of students' skills and abilities in patient assessments and the delivery of care. Upon completion, students should be able to demonstrate continued progress in advanced-level patient care. **\*\*This is a Summer Only Class\*\*** (S23879)

<b>EMS 231 EMS Clinical Practicum III</b>	0	0	9	3
---	---	---	---	---

Prerequisites: Take EMS 130 and EMS 221  
 Corequisites: None  
 Restrictions: Must be enrolled in A45340  
                   Emergency Medical Science program

This course provides clinical experiences in the hospital and/or field. Emphasis is placed on enhancing the students' skills and abilities in providing advanced-level care. Upon completion, students should be able to demonstrate continued progress in advanced-level patient care. **\*\*This is a Fall Only Class\*\*** (S23880)

<b>EMS 235 EMS Management</b>	2	0	0	2
-------------------------------	---	---	---	---

Prerequisites: None  
 Corequisites: None  
 Restrictions: Must be enrolled in A45340  
                   Emergency Medical Science program

This course stresses the principles of managing a modern emergency medical service system. Topics include structure and function of municipal governments, EMS grantsmanship, finance, regulatory agencies, system management, legal issues, and other topics relevant to the EMS manager. Upon completion, students should be able to understand the principles of managing emergency medical service delivery systems. (S11658)

<b>EMS 240 Patients with Special Challenges</b>	1	2	0	2
---	---	---	---	---

Prerequisites: Take EMS 122 and EMS 130  
 Corequisites: None  
 Restrictions: Must be enrolled in A45340  
                   Emergency Medical Science program

This course includes concepts of crisis intervention and techniques of interacting with patients with special challenges and is required for paramedic certification. Topics include appropriate intervention and interaction for neglected, abused, terminally ill, chronically ill, technology assisted, bariatric, physically challenged, mentally challenged, or assaulted patients as well as behavioral emergencies. Upon completion, students should be able to recognize and manage the care of patients with special challenges. (S23919)

	Class	Lab	Clinical	Credits
<b>EMS 241 EMS Clinical Practicum IV</b>	0	0	12	4

Prerequisites: Take EMS 130 and EMS 231  
 Corequisites: None  
 Restrictions: Must be enrolled in A45340  
                   Emergency Medical Science program

This course provides clinical experiences in the hospital and/or field. Emphasis is placed on mastering the skills/competencies required of the paramedic providing advanced-level care. Upon completion, students should be able to provide advanced-level patient care as an entry-level paramedic. (S23920)

<b>EMS 250 Medical Emergencies</b>	3	3	0	4
------------------------------------	---	---	---	---

Prerequisites: Take EMS 122 and EMS 130  
 Corequisites: None  
 Restrictions: Must be enrolled in A45340  
                   Emergency Medical Science program

This course provides an in-depth study of medical conditions frequently encountered in the prehospital setting and is required for paramedic certification. Topics include appropriate interventions/treatments for disorders/diseases/injuries affecting the following systems: respiratory, neurological, abdominal/gastrointestinal, endocrine, genitourinary, musculoskeletal, and immunological as well as toxicology, infectious diseases and diseases of the eyes, ears, nose and throat. Upon completion, students should be able to recognize, assess and manage the care of frequently encountered medical conditions based upon initial patient assessment. (S23921)

<b>EMS 260 Trauma Emergencies</b>	1	3	0	2
-----------------------------------	---	---	---	---

Prerequisites: Take EMS 122 and EMS 130  
 Corequisites: None  
 Restrictions: Must be enrolled in A45340  
                   Emergency Medical Science program

This course provides in-depth study of trauma including pharmacological interventions for conditions frequently encountered in the prehospital setting and is required for paramedic certification. Topics include an overview of thoracic, abdominal, genitourinary, orthopedic, neurological, and multi-system trauma, soft tissue trauma of the head, neck, and face as well as environmental emergencies. Upon completion, students should be able to recognize and manage trauma situations based upon patient assessment and should adhere to standards of care. **\*\*This is a Fall Only Class\*\*** (S23922)

## CAPE FEAR COMMUNITY COLLEGE

		Class	Lab	Clinical	Credits
<b>EMS 270</b>	<b>Life Span Emergencies</b>	2	3	0	3
Prerequisites: Take EMS 122 and EMS 130					
Corequisites: None					
Restrictions: Must be enrolled in A45340					
Emergency Medical Science program					

This course covers medical/ethical/legal issues and the spectrum of age-specific emergencies from conception through death required for paramedic certification. Topics include gynecological, obstetrical, neonatal, pediatric, and geriatric emergencies and pharmacological therapeutics. Upon completion, students should be able to recognize and treat age-specific emergencies. (S23923)

<b>EMS 280</b>	<b>EMS Bridging Course</b>	2	2	0	3
Prerequisites: None					
Corequisites: None					
Restrictions: Must be enrolled in A45340					
Emergency Medical Science program					

This course is designed to bridge the knowledge gained in a continuing education paramedic program with the knowledge gained in an EMS curriculum program. Emphasis is placed on patient assessment, advanced electrocardiography utilizing the twelve-lead ECG, advanced pharmacology, the appropriate intervention and treatment of multi-system injuries/disorders, ethics, and NC laws and rules. Upon completion, students should be able to perform advanced patient assessment and practice skills. (S23924)

<b>EMS 285</b>	<b>EMS Capstone</b>	1	3	0	2
Prerequisites: Take EMS 220 and EMS 250 and EMS 260					
Corequisites: None					
Restrictions: Must be enrolled in A45340					
Emergency Medical Science program					

This course provides an opportunity to demonstrate problem-solving skills as a team leader in simulated patient scenarios and is required for paramedic certification. Emphasis is placed on critical thinking, integration of didactic and psychomotor skills, and effective performance in simulated emergency situations. Upon completion, students should be able to recognize and appropriately respond to a variety of EMS-related events. (S10931)

<b>ENG 101</b>	<b>Applied Communications I</b>	3	0	0	3
Prerequisites: None					
Corequisites: None					

This course is designed to enhance reading and writing skills for the workplace. Emphasis is placed on technical reading, job-related vocabulary, sentence writing, punctuation, and spelling. Upon completion, students should be able to identify main ideas with supporting details and produce mechanically correct short writings appropriate to the workplace. *This course may meet the communication requirement for DIP and CER programs.* (S12858)

		Class	Lab	Clinical	Credits
<b>ENG 102</b>	<b>Applied Communications II</b>	3	0	0	3
Prerequisites: None					
Corequisites: None					

This course is designed to enhance writing and speaking skills for the workplace. Emphasis is placed on generating short writings such as job application documents, memoranda, and reports and developing interpersonal communication skills with employees and the public. Upon completion, students should be able to prepare effective, short, and job-related written and oral communications. *This course may meet the communication requirement for DIP and CER programs.* (S12952)

<b>ENG 111*</b>	<b>Writing and Inquiry</b>	3	0	0	3
Prerequisites: Take one set:					
Set 1: ENG 090 and RED 090					
Set 2: ENG 095					
Set 3: DRE 098					
Corequisites: None					

This course is designed to develop the ability to produce clear writing in a variety of genres and formats using a recursive process. Emphasis includes inquiry, analysis, effective use of rhetorical strategies, thesis development, audience awareness, and revision. Upon completion, students should be able to produce unified, coherent, well-developed essays using standard written English. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S24022)*

<b>ENG 112*</b>	<b>Writing and Research in the Disciplines</b>	3	0	0	3
Prerequisites: Take ENG 111					
Corequisites: None					

This course, the second in a series of two, introduces research techniques, documentation styles, and writing strategies. Emphasis is placed on analyzing information and ideas and incorporating research findings into documented writing and research projects. Upon completion, students should be able to evaluate and synthesize information from primary and secondary sources using documentation appropriate to various disciplines. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S24024)*

<b>ENG 113*</b>	<b>Literature-Based Research</b>	3	0	0	3
Prerequisites: Take ENG 111					
Corequisites: None					

This course, the second in a series of two, expands the concepts developed in ENG 111 by focusing on writing that involves literature-based research and documentation. Emphasis is placed on critical reading and thinking and the analysis and interpretation of prose, poetry, and drama: plot, characterization, theme, cultural context, etc. Upon completion, students should be able to construct mechanically-sound, documented essays and research papers that analyze and respond to literary works. (S13650)

**ENG 114\* Professional Research & Reporting**      Class Lab Clinical Credits  
3    0    0    3  
Prerequisites: Take ENG 111  
Corequisites: None

This course, the second in a series of two, is designed to teach professional communication skills. Emphasis is placed on research, listening, critical reading and thinking, analysis, interpretation, and design used in oral and written presentations. Upon completion, students should be able to work individually and collaboratively to produce well-designed business and professional written and oral presentations. (S13706)

**ENG 125\* Creative Writing I**      3    0    0    3  
Prerequisites: Take ENG 111  
Corequisites: None

This course is designed to provide students with the opportunity to practice the art of creative writing. Emphasis is placed on writing, fiction, poetry, and sketches. Upon completion, students should be able to craft and critique their own writing and critique the writing of others. (S16350)

**ENG 126\* Creative Writing II**      3    0    0    3  
Prerequisites: Take ENG 125  
Corequisites: None

This course is designed as a workshop approach for advancing imaginative and literary skills. Emphasis is placed on the discussion of style, techniques, and challenges for first publications. Upon completion, students should be able to submit a piece of their writing for publication. (S12088)

**ENG 131\* Introduction to Literature**      3    0    0    3  
Prerequisites: Take ENG 111  
Corequisites: Take one: ENG 112 or ENG 113 or ENG 114

This course introduces the principal genres of literature. Emphasis is placed on literary terminology, devices, structure, and interpretation. Upon completion, students should be able to analyze and respond to literature. (S14000)

**ENG 231\*<sup>u</sup> American Literature I**      3    0    0    3  
Prerequisites: Take one: ENG 112 or ENG 113 or ENG 114  
Corequisites: None

This course covers selected works in American literature from its beginnings to 1865. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to analyze and interpret literary works in their historical and cultural contexts. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S24025)*

**ENG 232\*<sup>u</sup> American Literature II**      3    0    0    3  
Prerequisites: Take one: ENG 112 or ENG 113 or ENG 114  
Corequisites: None

This course covers selected works in American literature from 1865 to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to analyze and interpret literary works in their historical and cultural contexts. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S24026)*

**ENG 241\*<sup>u</sup> British Literature I**      3    0    0    3  
Prerequisites: Take one: ENG 112 or ENG 113 or ENG 114  
Corequisites: None

This course covers selected works in British literature from its beginnings to the Romantic Period. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S11763)*

**ENG 242\*<sup>u</sup> British Literature II**      3    0    0    3  
Prerequisites: Take one: ENG 112 or ENG 113 or ENG 114  
Corequisites: None

This course covers selected works in British literature from the Romantic Period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S11698)*

**ENG 261\* World Literature I**      3    0    0    3  
Prerequisites: Take one: ENG 112 or ENG 113 or ENG 114  
Corequisites: None

This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from their literary beginnings through the seventeenth century. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. (S12708)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>ENG 262* World Literature II</b>	3	0	0	3
Prerequisites: Take one: ENG 112 or ENG 113 or ENG 114				
Corequisites: None				

This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from the eighteenth century to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. (S12600)

<b>ENG 272* Southern Literature</b>	3	0	0	3
Prerequisites: Take one: ENG 112 or ENG 113 or ENG 114				
Corequisites: None				

This course provides an analytical study of the works of several Southern authors. Emphasis is placed on the historical and cultural contexts, themes, aesthetic features of individual works, and biographical backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and discuss selected works. (S13535)

<b>ENG 273* African-American Literature</b>	3	0	0	3
Prerequisites: Take one: ENG 112 or ENG 113 or ENG 114				
Corequisites: None				

This course provides a survey of the development of African-American literature from its beginnings to the present. Emphasis is placed on historical and cultural context, themes, literary traditions, and backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and respond to selected texts. (S13578)

<b>ENG 274* Literature by Women</b>	3	0	0	3
Prerequisites: Take one: ENG 112 or ENG 113 or ENG 114				
Corequisites: None				

This course provides an analytical study of the works of several women authors. Emphasis is placed on the historical and cultural contexts, themes and aesthetic features of individual works, and biographical backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and discuss selected works. (S13548)

<b>ENV 110 Environmental Science</b>	3	0	0	3
Prerequisites: None				
Corequisites: None				

This course covers fundamental scientific principles and problems facing society today. Topics include population, natural resources, air and water pollution, and waste disposal problems. Upon completion, students should be able to demonstrate insight into the role the individual plays in shaping the environment. **\*\*This is a Summer Only Class\*\*** (S23360)

	Class	Lab	Clinical	Credits
<b>ENV 226 Environmental Law</b>	3	0	0	3
Prerequisites: None				
Corequisites: None				

This course covers federal laws and acts concerning environmental quality standards and the use of resources, legal procedures for enforcing laws, and problems concerning enforcement. Emphasis is placed on environmental law basics, water quality laws, air quality laws, waste disposal laws, and biological resource protection laws. Upon completion, students should be able to demonstrate an understanding of federal/state environmental laws and their importance to the protection of environmental quality. (S23490)

<b>EPT 120 Sociology of Disaster</b>	3	0	0	3
Prerequisites: None				
Corequisites: None				

This course is designed to overview sociological disaster research, disaster systems, and alternative research approaches. Topics include human and organizational behaviors, long disaster impact on communities, disaster warning, and evacuation considerations. Upon completion, students should be able to assess and predict the impact of disaster-related human behavior. (S20530)

<b>EPT 124 EM Services Law &amp; Ethics</b>	3	0	0	3
Prerequisites: None				
Corequisites: None				

This course covers federal and state laws that affect emergency service personnel in the event of a natural disaster or terrorist incident. Topics include initial response and long-term management strategies, with an emphasis on legal and ethical considerations and coordination between local, state, and federal agencies. Upon completion, students should have an understanding of the role of private industry, government agencies, public policies, and federal/state declarations of disasters in emergency situations. (S22188)

<b>EPT 130 Mitigation &amp; Preparedness</b>	3	0	0	3
Prerequisites: None				
Corequisites: None				

This course introduces the mitigation and preparation techniques and methods necessary to minimize the impact of natural, technological, and man-made disasters. Topics include hazard identification and mapping, design and construction applications, financial incentives, insurance, structural controls, preparation, planning, assessment, implementation, and exercises. Upon completion students should be able to develop a mitigation and preparedness plan. (S22189)

**EPT 140     Emergency Management**     Class Lab Clinical Credits  
 3     0     0     3  
 Prerequisites: None  
 Corequisites: None

This course covers the four phases of emergency management: mitigation, preparedness, response, and recovery. Topics include organizing for emergency management, coordinating for community resources, public sector liability, and the roles of government agencies at all levels. Upon completion, students should be able to demonstrate an understanding of comprehensive emergency management and the integrated emergency management system. (S23936)

**EPT 150     Incident Management**     3     0     0     3  
 Prerequisites: None  
 Corequisites: None

This course introduces the National Incident Management System (NIMS). Topics include integrating command and control systems, maintaining communication within command and control systems, and using NIMS procedures. Upon completion, students should be able to demonstrate knowledge of key concepts necessary for operating within the National Incident Management System. (S22186)

**EPT 210     Response & Recovery**     3     0     0     3  
 Prerequisites: None  
 Corequisites: None

This course introduces the basic concepts, operational procedures, and authorities involved in response and recovery efforts to major disasters. Topics include federal, state, and local roles and responsibilities in major disaster, response, and recovery work, with an emphasis on governmental coordination. Upon completion, students should be able to implement a disaster response plan and assess the needs of those involved in a major disaster. (S22187)

**EPT 220     Terrorism and Emergency Management**     3     0     0     3  
 Prerequisites: None  
 Corequisites: None

This course covers preparing for, responding to, and safely mitigating terrorism incidents. Topics include the history of terrorism, scene hazards, evidence preservation, risk assessment, roles and responsibilities, explosive recognition, and terrorism planning. Upon completion, students should be able to recognize the threat of terrorism and operate within the emergency management framework at a terrorism incident. (S22024)

**EPT 275     Emergency Operations Center Management**     Class Lab Clinical Credits  
 3     0     0     3  
 Prerequisites: None  
 Corequisites: None

This course provides students with the knowledge and skills to effectively manage and operate an emergency operations center (EOC) during crisis situations. Topics include properly locating and designing an EOC, staffing, training and briefing EOC personnel, and how to operate an EOC. Upon completion, students should be able to demonstrate how to set up and operate an effective emergency operations center. (S22025)

Class Lab Clinical Credits

# FIP 120 – FVP 251

**FIP 120 Introduction to Fire Protection** 3 0 0 3

Prerequisites: None

Corequisites: None

This course provides an overview of the development, methods, systems and regulations that apply to the fire protection field. Topics include history, evolution, statistics, suppression, organizations, careers, curriculum, and related subjects. Upon completion, students should be able to demonstrate a broad understanding of the fire protection field.

**\*\*This is a Fall Only Class\*\*** (S23882)

**FIP 124 Fire Prevention & Public Education** 3 0 0 3

Prerequisites: None

Corequisites: None

This course introduces fire prevention concepts as they relate to community and industrial operations referenced in NFPA standard 101. Topics include the development and maintenance of fire prevention programs, educational programs, and inspection programs. Upon completion, students should be able to research, develop, and present a fire safety program to a citizens or industrial group. **\*\*This is a Fall Only Class\*\*** (S23883)

**FIP 128 Detection & Investigation** 3 0 0 3

Prerequisites: None

Corequisites: None

This course covers procedures for determining the origin and cause of accidental and incendiary fires referenced in NFPA standard 921. Topics include collection and preservation of evidence, detection and determination of accelerants, courtroom procedure and testimony, and documentation of the fire scene. Upon completion, students should be able to conduct a competent fire investigation and present those findings to appropriate officials or equivalent. **\*\*This is a Fall Only Class\*\*** (S23884)

**FIP 132 Building Construction** 3 0 0 3

Prerequisites: None

Corequisites: None

This course covers the principles and practices reference in NFPA standard 220 related to various types of building construction, including residential and commercial, as impacted by fire conditions. Topics include types of construction and related elements, fire resistive aspects of construction materials, building codes, collapse, and other related topics. Upon completion, students should be able to understand and recognize various types of construction and their positive or negative aspects as related to fire conditions.

**\*\*This is a Fall Only Class\*\*** (S23885)

Class Lab Clinical Credits

**FIP 136 Inspections & Codes** 3 0 0 3

Prerequisites: None

Corequisites: None

This course covers the fundamentals of fire and building codes and procedures to conduct an inspection referenced in NFPA standard 1730. Topics include review of fire and building codes, writing inspection reports, identifying hazards, plan reviews, site sketches, and other related topics. Upon completion, students should be able to conduct a fire code compliance inspection and produce a written report. **\*\*This is a Summer Only Class\*\*** (S23886)

**FIP 152 Fire Protection Law** 3 0 0 3

Prerequisites: None

Corequisites: None

This course covers fire protection law as referenced in NFPA standard. Topics include legal terms, contracts, liability, review of case histories, and other related topics. Upon completion, students should be able to discuss laws, codes, and ordinances as they relate to fire protection. **\*\*This is a Spring Only Class\*\*** (S23888)

**FIP 156 Computers in Fire Service** 1 2 0 2

Prerequisites: None

Corequisites: None

This course covers the use of computers by fire protection organizations. Topics include operating systems, networking concepts, fire incident reporting systems, and other software applications in fire protection. Upon completion, students should be able to demonstrate knowledge of computers and their applications to fire protection. **\*\*This is a Spring Only Class\*\*** (S23890)

**FIP 162 Firefighter Safety & Wellness** 3 0 0 3

Prerequisites: None

Corequisites: None

The purpose of this course is to reduce firefighter injuries and fatalities by discussing topics that impact firefighter safety. Emphasis is placed on national standards, the 16 Life Safety Initiatives, and current events to identify changes needed to create a culture of safety. Upon completion, students should be able to define and describe the need for cultural and behavioral changes within the emergency services. (S24210)

**FIP 164 OSHA Standards** 3 0 0 3

Prerequisites: None

Corequisites: None

This course covers public and private sector OSHA work site requirements referenced in NFPA standard 1250. Emphasis is placed on accident prevention and reporting, personal safety, machine operations, and hazardous material handling. Upon completion, students should be able to analyze and interpret specific OSHA regulations and write workplace policies designed to achieve compliance. **\*\*This is a Fall Only Class\*\*** (S23893)

**FIP 220 Fire Fighting Strategies**      Class Lab Clinical Credits  
3    0    0    3  
Prerequisites: None  
Corequisites: None

This course provides preparation for command of initial incident operations involving emergencies within both the public and private sector referenced in NFPA standards 1561, 1710, and 1720. Topics include incident management, fire-ground tactics and strategies, incident safety, and command/control of emergency operations. Upon completion, students should be able to describe the initial incident system as it relates to operations involving various emergencies in fire and non-fire situations. **\*\*This is a Fall Only Class\*\*** (S23898)

**FIP 221 Advanced Fire Fighting Strategies**      Class Lab Clinical Credits  
3    0    0    3  
Prerequisites: Take FIP 220  
Corequisites: None

This course covers command-level operations for multi-company/agency operations involving fire and non-fire emergencies. Topics include advanced use of the Incident Command System (ICS), advanced incident analysis, command-level fire operations, and control of both manmade and natural major disasters. Upon completion, students should be able to describe proper and accepted systems for the mitigation of emergencies at the level of overall scene command. **\*\*This is a Spring Only Class\*\*** (2014FA)

**FIP 228 Local Government Finance**      Class Lab Clinical Credits  
3    0    0    3  
Prerequisites: None  
Corequisites: None

This course introduces local governmental financial principles and practices. Topics include budget preparation and justification, revenue policies, statutory requirements, audits, and the economic climate. Upon completion, students should be able to comprehend the importance of finance as it applies to the operations of a department. **\*\*This is a Spring Only Class\*\*** (S23902)

**FIP 240 Fire Service Supervision**      Class Lab Clinical Credits  
3    0    0    3  
Prerequisites: None  
Corequisites: None

This course covers supervisory skills and practices in the fire protection field. Topics include the supervisor's job, supervision skills, the changing work environment, managing change, organizing for results, discipline and grievances, and safety. Upon completion, students should be able to demonstrate an understanding of the roles and responsibilities of effective fire service supervision, meeting elements of NFPA 1021. **\*\*This is a Spring Only Class\*\*** (S23908)

**FIP 256 Municipal Public Relations**      Class Lab Clinical Credits  
3    0    0    3  
Prerequisites: None  
Corequisites: None

This course is a general survey of municipal public relations and their effect on the governmental process referenced in NFPA standard 1035. Topics include principles of public relations, press releases, press conferences, public information officers, image surveys, and the effects of perceived service on fire protection delivery. Upon completion, students should be able to manage public relations functions of organizations which meet elements of NFPA 1021 for Fire Officer I and II. (S23912)

**FIP 276 Managing Fire Services**      Class Lab Clinical Credits  
3    0    0    3  
Prerequisites: None  
Corequisites: None

This course provides an overview of fire department operative services referenced in NFPA standard 1021. Topics include finance, staffing, equipment, code enforcement, management information, specialized services, legal issues, planning, and other related topics. Upon completion, students should be able to understand concepts and apply fire department management and operations principles. **\*\*This is a Summer Only Class\*\*** (S23917)

**FRE 111\* Elementary French I**      Class Lab Clinical Credits  
3    0    0    3  
Prerequisites: Take one: DRE 097 or DRE 098 or  
ENG 085 or ENG 095 or  
ENG 111 or RED 080 or RED 090  
Corequisites: Take FRE 181

This course introduces the fundamental elements of the French language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written French and demonstrate cultural awareness. *Students who have completed two units of foreign language in high school are advised to take the CLEP (College Level Examination for Placement) before registering for FRE 111. The CLEP is given daily at the University of North Carolina-Wilmington Testing Center and requires a fee. Students should make an appointment by calling 910-362-7444. CFCC discourages students from taking elementary levels of global languages if they have had satisfactory grades in high school language courses.* (S11554)

**FRE 112\* Elementary French II**      Class Lab Clinical Credits  
3    0    0    3  
Prerequisites: Take FRE 111  
Corequisites: Take FRE 182

This course is a continuation of FRE 111 focusing on the fundamental elements of the French language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written French and demonstrate further cultural awareness. (S11626)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>FRE 181* French Lab 1</b>	0	2	0	1
Prerequisites: Take one: DRE 097 or DRE 098 or ENG 085 or ENG 095 or ENG 111 or RED 080 or RED 090				
Corequisites: Take FRE 111				

This course provides an opportunity to enhance acquisition of the fundamental elements of the French language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written French and demonstrate cultural awareness. *Students who have completed two units of foreign language in high school are advised to take the CLEP (College Level Examination for Placement) before registering for FRE 111. The CLEP is given daily at the University of North Carolina-Wilmington Testing Center and requires a fee. Students should make an appointment by calling 910-362-7444. CFCC discourages students from taking elementary levels of global languages if they have had satisfactory grades in high school language courses.* (S10406)

<b>FRE 182* French Lab 2</b>	0	2	0	1
Prerequisites: Take FRE 181				
Corequisites: Take FRE 112				

This course provides an opportunity to enhance acquisition of the fundamental elements of the French language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written French and demonstrate cultural awareness. (S10371)

<b>FRE 211* Intermediate French I</b>	3	0	0	3
Prerequisites: Take FRE 112				
Corequisites: None				

This course provides a review and expansion of the essential skills of the French language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. (S12685)

	Class	Lab	Clinical	Credits
<b>FRE 212* Intermediate French II</b>	3	0	0	3
Prerequisites: Take FRE 211				
Corequisites: None				

This course is a continuation of FRE 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. (S12610)

<b>FVP 111 Introduction to Film and Video</b>	2	3	0	3
Prerequisites: None				
Corequisites: None				

This course is an overview of the film making process from conceptualization to execution and examines film genres in the context of history, theory, creativity, and commerce. Topics include the history of film and video in the US, technical terminology, relationships between various job categories, and the language of film. Upon completion, students should be able to demonstrate a film vocabulary and knowledge of working conditions in the film/video production field. (S13357)

<b>FVP 112 Art Department Operations I</b>	1	4	0	3
Prerequisites: None				
Corequisites: None				

This course introduces practical fabrication skills for wood and other materials required to build both props and sets from blueprints, photographs, or sketches. Emphasis is placed on the safe use of hand and power tools, and the skills required for collaborative efforts in set and prop construction. Upon completion students should be able to demonstrate a working knowledge of the equipment and skills necessary to assist in constructing sets and props. **\*\*This is a Fall Only Class\*\*** (S13281)

<b>FVP 113 Grip &amp; Electrical I</b>	1	4	0	3
Prerequisites: None				
Corequisites: None				

This course covers various grip/support packages used in different environments for studio and location. Topics include lighting units, hardware, stands, color media, and electrical theory with emphasis on safety. Upon completion, students should be able to execute basic grip and electrical directions given by the key grip, and/or gaffer. (S13333)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>FVP 114 Camera &amp; Lighting I</b>	2	3	0	3
Prerequisites: None				
Corequisites: None				

This course covers the basic principles of video camera and recorder operations in professional formats, crew protocol and safety, and basic lighting theory and application. Emphasis is placed on terminology, the characteristics of light, basic lighting procedures, and proper procedures of field recording with video equipment. Upon completion, students should be able to demonstrate an understanding of the basic technical terms of camera operation, video recording and lighting equipment. **\*\*This is a Fall Only Class\*\*** (S13243)

<b>FVP 115 Camera &amp; Lighting II</b>	2	3	0	3
Prerequisites: Take FVP 114				
Corequisites: None				

This course offers advanced principles of video camera and recorder operations and introduces students to film formats and equipment as well as advanced lighting theory applications. Emphasis is placed on terminology, lighting for effect, and color correction. Upon completion, students should be able to demonstrate an understanding of camera terms and equipment, lighting theory and applications, and assist on studio and location shoots. (S13336)

<b>FVP 116 Sound Operation</b>	2	3	0	3
Prerequisites: None				
Corequisites: None				

This course provides an overview of sound theory, methods, and technologies for location and studio recording, and hands-on work in location sound gathering. Emphasis is placed on terminology, protocol, cabling, trouble-shooting, mixing skills and safety aspects associated with hands-on work in sound gathering. Upon completion, students should be able to demonstrate an understanding of sound theory and terminology and assist professionals in sound gathering in both film and audio production. (S16377)

<b>FVP 120 Art Department Operations II</b>	1	4	0	3
Prerequisites: Take FVP 112				
Corequisites: None				

This course provides a more in depth coverage of the skills necessary to assist in the set construction, paint, set dressing, props and greens departments. Emphasis is placed on the skill range required for each craft including, but not limited to, plumbing, casting, wallpapering, furniture construction, upholstery, wiring and drapery. Upon completion, students should be competent to assist in all fields related to the fabrication and decoration of sets and props. **\*\*This is a Spring Only Class\*\*** (S10528)

	Class	Lab	Clinical	Credits
<b>FVP 130 Grip and Electrical II</b>	1	4	0	3
Prerequisites: Take FVP 113				
Corequisites: None				

This course provides a more in depth coverage of grip/support packages used in studio work and on location. Topics include advanced coverage of lighting, color media, and camera dollies, rigging, and electrical distribution with emphasis on safety issues. Upon completion students should be able to execute grip and electrical directions given by the key grip, gaffer, cinematographer and/or director of photography. **\*\*This is a Fall Only Class\*\*** (S11543)

<b>FVP 212 Production Techniques I</b>	1	12	0	5
Prerequisites: None				
Corequisites: None				

This course provides experience working in a variety of crew positions with both student and professional productions and covers advanced film production concepts. Emphasis is placed on successful interaction with other advanced students and/or professionals as well as competency in advanced film production concepts. Upon completion, students should be able to demonstrate professional skills needed to pursue careers in the film and video industry. **\*\*This is a Summer Only Class\*\*** (S20850)

<b>FVP 213 Production Techniques II</b>	1	12	0	5
Prerequisites: Take FVP 212				
Corequisites: None				

This course provides experience working in a variety of crew positions with both student and professional productions and covers advanced film production concepts. Emphasis is placed on successful interaction with other advanced students and/or professionals as well as competency in advanced film production concepts. Upon completion, students should be able to demonstrate professional skills needed to pursue careers in key positions in the film and video industry. **\*\*This is a Summer Only Class\*\*** (S16382)

<b>FVP 215 Production Management</b>	2	3	0	3
Prerequisites: Take FVP 111				
Corequisites: Take FVP 238 or FVP 240				

This course emphasizes the activity of script breakdown in pre-production as well as the activities of the production office in both the production and post-production stages. Emphasis is placed on procedures, use of industry standard forms and software, as well as the functions and practices of the production office. Upon completion students should be able to demonstrate the people and technical skills necessary to assist above-the-line professionals in all types of film and video production. (S24281)

## CAPE FEAR COMMUNITY COLLEGE

		Class	Lab	Clinical	Credits
<b>FVP 220</b>	<b>Editing I</b>	2	3	0	3

Prerequisites: None

Corequisites: None

This course covers film and video editing from traditional methods to digital non-linear systems and basic film lab and transfer facility procedures. Topics include terminology, technologies, aesthetics, basic picture-only editing skills; and the editor's role augmented by hands-on experience. Upon completion, students should be able to use editing equipment and basic digitizing, logging, and picture only editing skills.

**\*\*This is a Fall Only Class\*\*** (S20851)

<b>FVP 223</b>	<b>Postproduction Sound Design</b>	1	4	0	3
----------------	------------------------------------	---	---	---	---

Prerequisites: Take one: FVP 116 or FVP 220

Corequisites: None

This course covers audio postproduction recording, mixing, and editing techniques, technologies, and aesthetics for the development of a compelling soundtrack for film and video media. Topics include using library effects, recording sound, effects and Foley to reinforce images and the story, preparing and mixing sound tracks for media productions. Upon completion students should be able to record, edit and mix sound design projects that strengthen narrative elements and perform critique of media sound design. (S22164)

<b>FVP 227</b>	<b>Multimedia Production</b>	2	3	0	3
----------------	------------------------------	---	---	---	---

Prerequisites: Take FVP 212

Corequisites: None

This course covers technical terms used in the multimedia industry and introduces skills related to digital manipulation of audio and video materials. Emphasis is placed on technical terms used in multimedia work and integration of sound, video, graphics, and text into a single production. Upon completion, students should be able to define technical terms in multimedia work and work with a variety of computer hardware and software. (S11272)

<b>FVP 240</b>	<b>Introduction to Screenwriting</b>	3	0	0	3
----------------	--------------------------------------	---	---	---	---

Prerequisites: Take ENG 111

Corequisites: None

This course introduces the principles and practices of the screenwriting craft. Emphasis is placed on analysis of screenwriting and script components and the preparation and development of motion picture and television treatments and scripts. Upon completion, students should be able to critically analyze the components of both motion picture and television treatments and scripts, and prepare effective, camera-ready motion picture and television scripts. **\*\*This is a Fall Only Class\*\*** (S23626)

		Class	Lab	Clinical	Credits
<b>FVP 250</b>	<b>Production Specialities I</b>	1	6	0	3

Prerequisites: Take FVP 111 and FVP 114

Corequisites: None

This course provides education and training through contextual learning in the film production areas of art department, camera, sound, grip, electric, locations, script, and continuity. Emphasis is placed on successful professional level interaction with other students and industry and professionals through pre-production and initial production of an actual film/video project. Upon completion, students should demonstrate an understanding of the film/video pre-production and initial production process, and the relationship among the departments in these areas.

**\*\*This is a Spring Only Class\*\*** (S11311)

<b>FVP 251</b>	<b>Production Specialities II</b>	1	6	0	3
----------------	-----------------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course provides education and training through contextual learning in the film production area of concluding photography and post-production areas of sound and picture editing. Emphasis is placed on successful professional level interaction with other students and industry professionals through concluding production and post-production of an actual film/video project. Upon completion, student should demonstrate an understanding of film/video production from concluding photography to the post-production areas of sound and picture editing. (S11406)

Class Lab Clinical Credits

# GEL 111 – GER 212

**GEL 111\*<sup>u</sup> Geology** 3 2 0 4Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course introduces basic landforms and geological processes. Topics include rocks, minerals, volcanoes, fluvial processes, geological history, plate tectonics, glaciers, and coastal dynamics. Upon completion, students should be able to describe basic geological processes that shape the earth. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S24027)*

**GEL 113\* Historical Geology** 3 2 0 4Prerequisites: Take one: GEL 111 or GEL 120  
Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 095

Corequisites: None

This course covers the geological history of the earth and its life forms. Emphasis is placed on the study of rock strata, fossil groups, and geological time. Upon completion, students should be able to identify major fossil groups, associated rock strata, and approximate ages of geological formations. (S20058)

**GEL 120\* Physical Geology** 3 2 0 4Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course provides a study of the structure and composition of the earth's crust. Emphasis is placed on weathering, erosional and depositional processes, mountain building forces, rocks and minerals, and structural changes. Upon completion, students should be able to explain the structure, composition, and formation of the earth's crust. (S10883)

**GEL 230\* Environmental Geology** 3 2 0 4Prerequisites: Take one: GEL 111 or GEL 120 or PHS 130  
Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course provides insights into geologic forces that cause environmental changes influencing man's activities. Emphasis is placed on natural hazards and disasters caused by geologic forces. Upon completion, students should be able to relate major hazards and disasters to the geologic forces responsible for their occurrence. (S20238)

Class Lab Clinical Credits

**GER 111\* Elementary German I** 3 0 0 3Prerequisites: Take one: DRE 097 or DRE 098 or  
ENG 085 or ENG 095 or  
ENG 111 or RED 080 or RED 090

Corequisites: Take GER 181

This course introduces the fundamental elements of the German language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written German and demonstrate cultural awareness. *Students who have completed two units of foreign language in high school are advised to take the CLEP (College Level Examination for Placement) before registering for GER 111. The CLEP is given daily at the University of North Carolina-Wilmington Testing Center and requires a fee. Students should make an appointment by calling 910-362-7444. CFCC discourages students from taking elementary levels of global languages if they have had satisfactory grades in high school language courses. (S12750)*

**GER 112\* Elementary German II** 3 0 0 3

Prerequisites: Take GER 111

Corequisites: Take GER 182

This course is a continuation of GER 111 focusing on the fundamental elements of the German language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written German and demonstrate further cultural awareness. (S12801)

**GER 181\* German Lab 1** 0 2 0 1Prerequisites: Take one: DRE 097 or DRE 098 or  
ENG 085 or ENG 095 or  
ENG 111 or RED 080 or RED 090

Corequisites: Take GER 111

This course provides an opportunity to enhance acquisition of the fundamental elements of the German language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written German and demonstrate cultural awareness. *Students who have completed two units of foreign language in high school are advised to take the CLEP (College Level Examination for Placement) before registering for GER 111. The CLEP is given daily at the University of North Carolina-Wilmington Testing Center and requires a fee. Students should make an appointment by calling 910-362-7444. CFCC discourages students from taking elementary levels of global languages if they have had satisfactory grades in high school language courses. (S10984)*

# CAPE FEAR COMMUNITY COLLEGE

-------	-----	----------	---------

Class Lab Clinical Credits

# HBI 110 – HYD 112

**HBI 110 Issues and Trends in Healthcare Business Informatics** 3 0 0 3

Prerequisites: None

Corequisites: None

This course is a survey of current and emerging technology applications and data standards in the healthcare industry. Topics include the history, implementation, use, management, and impact of information technology in healthcare settings. Upon completion, students should have an understanding of the current trends and issues in healthcare informatics. **\*\*This is a Fall Only Class\*\*** (S22762)

**HBI 113 Survey of Medical Insurance** 3 0 0 3

Prerequisites: Take MED 121

Corequisites: None

This course is a survey of the healthcare insurance system. Emphasis is placed on the foundation necessary for understanding the healthcare delivery system, terminology and practices of healthcare insurance, and provider reimbursement. Upon completion, students should have an understanding of healthcare insurance and how outcomes are addressed through healthcare informatics. **\*\*This is a Spring Only Class\*\*** (S22763)

**HBI 250 Data Management and Utilization** 2 2 0 3

Prerequisites: Take one: DBA 110 or DBA 120 or DBA 210

Corequisites: None

This course covers the management and usage of data in healthcare settings according to current practices in healthcare informatics. Topics include data warehousing, data integrity, data security, data mining, and report generating in healthcare settings. Upon completion, students should be able to demonstrate an understanding of using healthcare data to support reporting and decision making in healthcare settings. **\*\*This is a Fall Only Class\*\*** (S22764)

**HBI 289 Healthcare Business Informatics Project** 1 4 0 3

Prerequisites: Take HBI 250

Corequisites: None

This course provides an opportunity to complete a significant healthcare business informatics project with minimal instructor assistance. Emphasis is placed on written and oral communication skills, project definition, documentation, installation, testing, presentation, and user training. Upon completion, students should be able to complete a healthcare informatics project from the definition phase through implementation. **\*\*This is a Spring Only Class\*\*** (S22765)

Class Lab Clinical Credits

**HET 110 Diesel Engines**

3 9 0 6

Prerequisites: Take TRN 110

Corequisites: Take MRN 121

This course introduces theory, design, terminology, and operating adjustments for diesel engines. Emphasis is placed on safety, theory of operation, inspection, measuring, and rebuilding diesel engines according to factory specifications. Upon completion, students should be able to measure, diagnose problems, and repair diesel engines. **\*\*This is a Spring Only Class\*\*** (S12126)

**HET 114 Power Trains**

3 6 0 5

Prerequisites: None

Corequisites: None

This course introduces power transmission devices. Topics include function and operation of gears, chains, clutches, planetary gears, drivelines, differentials, and transmissions. Upon completion, students should be able to identify, research specifications, repair, and adjust power train components. **\*\*This is a Fall Only Class\*\*** (S12114)

**HET 115 Electronic Engines**

2 3 0 3

Prerequisites: Take TRN 120

Corequisites: None

This course introduces the principles of electronically controlled diesel engines. Emphasis is placed on testing and adjusting diesel engines in accordance with manufacturer's specifications. Upon completion, students should be able to diagnose, test, and calibrate electronically controlled diesel engines. **\*\*This is a Summer Only Class\*\*** (S12235)

**HET 125 Preventive Maintenance**

1 3 0 2

Prerequisites: None

Corequisites: None

This course introduces preventive maintenance practices used on medium and heavy-duty vehicles and rolling assemblies. Topics include preventive maintenance schedules, services, DOT rules and regulations, and road ability. Upon completion, students should be able to set up and follow a preventive maintenance schedule as directed by manufacturers. (S10840)

**HET 128 Medium/Heavy Duty Tune Up**

1 2 0 2

Prerequisites: None

Corequisites: None

This course introduces tune-up and troubleshooting according to manufacturers' specifications. Topics include troubleshooting engine systems, tune-up procedures, and use and care of special test tools and equipment. Upon completion, students should be able to troubleshoot, diagnose, and repair engines and components using appropriate diagnostic equipment. **\*\*This is a Spring Only Class\*\*** (S10823)

## CAPE FEAR COMMUNITY COLLEGE

		Class	Lab	Clinical	Credits
<b>HET 134</b>	<b>Diesel Fuel &amp; Power Systems</b>	2	3	0	3

Prerequisites: None

Corequisites: None

This course introduces the principles of fuel injection and other power systems used in the heavy equipment industry including newer and cleaner technology. Emphasis is placed on test equipment, component functions, safety, and theories of older conventional and newer and cleaner Tier III and Tier IV fuel systems. Upon completion, students should be able to diagnose and service fuel systems and explain proper safety procedures on alternative fuel systems used in heavy equipment industry. **\*\*This is a Fall Only Class\*\*** (S23319)

<b>HET 229</b>	<b>Brakes and Steering</b>	1	2	0	2
----------------	----------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course introduces the theory and principles of braking and steering in medium and heavy-duty vehicles. Topics include wheel and tire problems, frame members, bearings, fifth wheel, coupling systems, and braking systems. Upon completion, students should be able to diagnose, adjust, and repair steering and braking problems on medium and heavy-duty vehicles. **\*\*This is a Fall Only Class\*\*** (S10429)

<b>HET 230</b>	<b>Air Brakes</b>	1	2	0	2
----------------	-------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course introduces the operation and design of air braking systems used on trucks. Topics include safety, governors, compressors, and supporting systems. Upon completion, students should be able to diagnose, disassemble, inspect, repair, and reassemble air brake systems. **\*\*This is a Fall Only Class\*\*** (S11522)

<b>HIS 111<sup>u</sup></b>	<b>World Civilizations I</b>	3	0	0	3
----------------------------	------------------------------	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course introduces world history from the dawn of civilization to the early modern era. Topics include Eurasian, African, American, and Greco-Roman civilizations and Christian, Islamic and Byzantine cultures. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in pre-modern world civilizations. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S10799)*

		Class	Lab	Clinical	Credits
<b>HIS 112<sup>u</sup></b>	<b>World Civilizations II</b>	3	0	0	3

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course introduces world history from the early modern era to the present. Topics include the cultures of Africa, Europe, India, China, Japan, and the Americas. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in modern world civilizations. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S10844)*

<b>HIS 121*</b>	<b>Western Civilization I</b>	3	0	0	3
-----------------	-------------------------------	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course introduces western civilization from pre-history to the early modern era. Topics include ancient Greece, Rome, and Christian institutions of the Middle Ages and the emergence of national monarchies in western Europe. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early western civilization. (S13000)

<b>HIS 122*</b>	<b>Western Civilization II</b>	3	0	0	3
-----------------	--------------------------------	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course introduces western civilization from the early modern era to the present. Topics include the religious wars, the Industrial Revolution, World Wars I and II, and the Cold War. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in modern western civilization. (S13096)

<b>HIS 131<sup>u</sup></b>	<b>American History I</b>	3	0	0	3
----------------------------	---------------------------	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course is a survey of American history from pre-history through the Civil War era. Topics include the migrations to the Americas, the colonial and revolutionary periods, the development of the Republic, and the Civil War. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early American history. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S10372)*

## COURSE DESCRIPTIONS

	Class Lab Clinical Credits
<b>HIS 132*<sup>u</sup> American History II</b>	3 0 0 3

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course is a survey of American history from the Civil War era to the present. Topics include industrialization, immigration, the Great Depression, the major American wars, the Cold War, and social conflict. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in American history since the Civil War. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S10386)*

<b>HIS 221* African-American History</b>	3 0 0 3
--	---------

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course covers African-American history from the Colonial period to the present. Topics include African origins, the slave trade, the Civil War, Reconstruction, the Jim Crow era, the civil rights movement, and contributions of African Americans. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the history of African Americans. (S11507)

<b>HIS 227* Native American History</b>	3 0 0 3
---	---------

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course surveys the history and cultures of Native Americans from pre-history to the present. Topics include Native American civilizations, relations with Europeans, and the continuing evolution of Native American cultures. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments among Native Americans. (S11493)

<b>HIS 228* History of the South</b>	3 0 0 3
--------------------------------------	---------

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course covers the origin and development of the South as a distinct region of the United States. Emphasis is placed on Southern identity and its basis in cultural, social, economic, and political developments during the 19th and 20th centuries. Upon completion, students should be able to identify and analyze the major cultural, social, economic, and political developments in the South. (S11422)

	Class Lab Clinical Credits
<b>HIS 229* History of the Old South</b>	3 0 0 3

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090

Corequisites: None

This course is a study of the development of the South from European settlement through the Civil War. Topics include the multi-ethnic character of colonization, the plantation economy, relations between social classes, the nature of slavery, and issues leading to the Civil War. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the antebellum South. (S11514)

<b>HMT 110 Introduction to Healthcare Management</b>	3 0 0 3
--	---------

Prerequisites: None

Corequisites: None

This course introduces the functions, practices, organizational structures, and professional issues in healthcare management. Emphasis is placed on planning, controlling, directing, and communicating within health and human services organizations. Upon completion, students should be able to apply the concepts of management within a healthcare service environment. **\*\*This is a Fall Only Class\*\*** (S20232)

<b>HOR 112 Landscape Design I</b>	2 3 0 3
-----------------------------------	---------

Prerequisites: None

Corequisites: None

This course covers landscape principles and practices for residential and commercial sites. Emphasis is placed on drafting, site analysis, and common elements of good design, plant material selection, and proper plant utilization (encouraged use of native plants and discouraged use of invasive species). Upon completion, students should be able to read plans and draft a landscape design according to sustainable practices. **\*\*This is a Fall Only Class\*\*** (S23383)

<b>HOR 114 Landscape Construction</b>	2 2 0 3
---------------------------------------	---------

Prerequisites: None

Corequisites: None

This course introduces the design and fabrication of landscape structures/features. Emphasis is placed on safety, tool identification and use, material selection, construction techniques, and fabrication. Upon completion, students should be able to design and construct common landscape structures/features. **\*\*This is a Fall Only Class\*\*** (S13181)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>HOR 134 Greenhouse Operations</b>	2	2	0	3
Prerequisites: None				
Corequisites: None				

This course covers the principles and procedures involved in the operation and maintenance of greenhouse facilities. Emphasis is placed on the operation of greenhouse systems, including the environmental control, record keeping, scheduling, and production practices. Upon completion, students should be able to demonstrate the ability to operate greenhouse systems and facilities to produce greenhouse crops. **\*\*This is a Fall Only Class\*\*** (S11499)

<b>HOR 160 Plant Materials I</b>	2	2	0	3
Prerequisites: None				
Corequisites: None				

This course covers identification, culture, characteristics, and use of plants in a sustainable landscape. Emphasis is placed on nomenclature, identification, growth requirements, cultural requirements, soil preferences, and landscape applications. Upon completion, students should be able to demonstrate knowledge of the proper selection and utilization of plant materials, including natives and invasive plants. **\*\*This is a Fall Only Class\*\*** (S23284)

<b>HOR 161 Plant Materials II</b>	2	2	0	3
Prerequisites: Take HOR 160				
Corequisites: None				

This course provides a supplementary opportunity to cover identification, culture, characteristics, and use of plants in a sustainable landscape, giving students a broader knowledge of available landscape plants for utilization in landscapes and plant production. Emphasis is placed on nomenclature, identification, growth requirements, cultural requirements, soil preferences, landscape applications and expansion of the plant palette. Upon completion, students should be able to demonstrate knowledge of the proper selection and utilization of plant materials, including natives and invasive plants. **\*\*This is a Spring Only Class\*\*** (S24316)

<b>HOR 164 Horticultural Pest Management</b>	2	2	0	3
Prerequisites: None				
Corequisites: None				

This course covers the identification and management of plant pests including insects, diseases, and weeds. Topics include pest identification and beneficial organisms, pesticide application safety and use of least toxic methods of management. Upon completion, students should be able to manage common landscape pests using least toxic methods of control and be prepared to sit for North Carolina Commercial Pesticide Ground Applicators license. (S23384)

	Class	Lab	Clinical	Credits
<b>HOR 213 Landscape Design II</b>	2	2	0	3
Prerequisites: Take HOR 112				
Corequisites: None				

This course covers residential and commercial landscape design, cost analysis, and installation. Emphasis is placed on job cost estimates, installation of the landscape design, and maintenance techniques. Upon completion, students should be able to read landscape design blueprints, develop cost estimates, and implement the design. **\*\*This is a Spring Only Class\*\*** (S11339)

<b>HOR 235 Greenhouse Production</b>	2	2	0	3
Prerequisites: None				
Corequisites: None				

This course covers the production of greenhouse crops. Emphasis is placed on product selection and production based on market needs and facility availability, including record keeping. Upon completion, students should be able to select and make production schedules to successfully produce greenhouse crops. (S12953)

<b>HOR 257 Arboriculture Practices</b>	1	3	0	2
Prerequisites: Take one: HOR 160 or LSG 111				
Corequisites: None				

This course covers the culture and maintenance of trees and shrubs. Topics include fertilization, pruning, approved climbing techniques, pest control, and equipment use and safety. Upon completion, students should be able to properly prune trees and shrubs and perform arboricultural practices. **\*\*This is a Fall Only Class\*\*** (S23257)

<b>HRM 110 Introduction to Hospitality and Tourism</b>	3	0	0	3
Prerequisites: None				
Corequisites: None				

This course covers the growth and progress of the hospitality industry. Topics include tourism, lodging, resorts, gaming, restaurants, foodservice and clubs. Upon completion, students should be able to demonstrate an understanding of the background, context, and career opportunities that exist within the hospitality industry. (S22898)

<b>HRM 115 Housekeeping</b>	3	0	0	3
Prerequisites: None				
Corequisites: Take HRM 115A				

This course covers the scope, responsibilities, communications, terminology, materials, and concerns specific to hotel housekeeping. Topics include management and supervision of housekeeping staff, proper cleaning and sanitation of rooms and public areas, budgeting, purchasing, security, and inventory control. Upon completion, students should be able to understand and apply the principles of organization and management of a housekeeping department. (S22899)

## COURSE DESCRIPTIONS

**HRM 115A Housekeeping Lab**      Class Lab Clinical Credits  
    0   2   0   1  
 Prerequisites: None  
 Corequisites: Take HRM 115

This course provides a laboratory experience for enhancing student skills in the responsibilities, communications, terminology, materials, and concerns specific to hotel housekeeping. Emphasis is placed on practical experiences of management/supervision of housekeeping staff in the proper cleaning/sanitation of rooms/public areas, budgeting, purchasing, security, and inventory control. Upon completion, students should be able to demonstrate mastery of housekeeping skills. This course is a laboratory to accompany HRM 115. Emphasis is placed on the development of skills for the performance of housekeeping tasks. (S22900)

**HRM 120 Front Office Procedures**      3   0   0   3  
 Prerequisites: None  
 Corequisites: Take HRM 120A

This course introduces a systematic approach to lodging front office procedures. Topics include reservations, registration, guest satisfaction, occupancy and revenue management, security, interdepartmental communications, and related guest services. Upon completion, students should be able to demonstrate a basic understanding of current front office operating systems, including efficient and courteous guest services. (S22901)

**HRM 120A Front Office Procedures Lab**   0   2   0   1  
 Prerequisites: None  
 Corequisites: Take HRM 120

This course provides a laboratory experience for enhancing student skills in lodging front office procedures. Emphasis is placed on practical computer applications of reservations, registration, guest satisfaction, occupancy and revenue management, security, interdepartmental communications, and related guest services. Upon completion, students should be able to demonstrate a basic proficiency in computer-based, front office applications. (S22902)

**HRM 124 Guest Service Management**   2   2   0   3  
 Prerequisites: None  
 Corequisites: None

This course is designed to provide an introduction to the culture of dining room service management. Emphasis is placed on the dignity and psychology of service work, dining room organization/infrastructure, service delivery, and modeling management roles in a dining room environment. Upon completion, students should be able to demonstrate an understanding of the guest/server dynamic and apply these principles in a dining room setting. (S22904)

**HRM 130 Bed and Breakfast Management**      Class Lab Clinical Credits  
    3   0   0   3  
 Prerequisites: None  
 Corequisites: None

This course provides an overview of the management of bed and breakfast facilities. Emphasis is placed on lifestyle commitment, property needs, computer operations, business and marketing plans, customer service and facility management. Upon completion, students should be able to describe and apply the principles of management unique to the bed and breakfast industry. (S22906)

**HRM 135 Facilities Management**      3   0   0   3  
 Prerequisites: None  
 Corequisites: None

This course introduces the basic elements of planning and designing hospitality facilities including environmental impacts, maintenance, and upkeep. Topics include equipment and plant preventive maintenance, engineering, interior design, space utilization, remodeling and expansion, and traffic and work flow patterns. Upon completion, students should be able to demonstrate an understanding of the planning, design, national certification, and maintenance of hospitality physical plants and equipment. (S22907)

**HRM 140 Legal Issues - Hospitality**      3   0   0   3  
 Prerequisites: None  
 Corequisites: None

This course covers the rights and responsibilities that the law grants to or imposes upon the hospitality industry. Topics include federal and state regulations, historical and current practices, safety and security, risk management, loss prevention, relevant torts, and contracts. Upon completion, students should be able to demonstrate an understanding of the legal system and the concepts necessary to prevent or minimize organizational liability. **\*\*This is a Spring Only Class\*\*** (S22908)

**HRM 160 Information Systems for Hospitality**      2   2   0   3  
 Prerequisites: None  
 Corequisites: None

This course covers current technology and technological issues for the future as they apply to the hospitality industry. Emphasis is placed on the effect of technology on e-commerce, human resources, menu management, and hospitality management systems. Upon completion, students will be able to demonstrate competence in utilizing contemporary information application systems in a hospitality setting. (S22821)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>HRM 210 Meetings &amp; Event Planning</b>	3	0	0	3

Prerequisites: None

Corequisites: None

This course introduces concepts related to the planning and operation of conventions, trade shows, professional meetings, and foodservice events. Emphasis is placed on methods of marketing, selling, organizing, and producing conventions, events, and trade shows that will increase financial and environmental value. Upon completion, students should be able to demonstrate an understanding of management principles for multi-function, multi-day conferences and events. (S22910)

<b>HRM 215 Restaurant Management</b>	3	0	0	3
--------------------------------------	---	---	---	---

Prerequisites: Take one: CUL 135 or HRM 124

Corequisites: Take HRM 215A

This course provides an overview of the responsibilities and activities encountered in managing a food and beverage operation. Topics include planning, organization, accounting, marketing, trends, and human resources from an integrated managerial viewpoint. Upon completion, students should be able to demonstrate an understanding of the operation of a restaurant. **\*\*This is a Spring Only Class\*\*** (S22911)

<b>HRM 215A Restaurant Management Lab</b>	0	2	0	1
---	---	---	---	---

Prerequisites: Take one: CUL 135 or HRM 124

Corequisites: Take HRM 215

This course provides a laboratory experience for enhancing student skills in the responsibilities and activities encountered in managing a food and beverage operation. Emphasis is placed on practical applications of planning, organization, accounting, marketing, trends, and human resources from an integrated managerial viewpoint. Upon completion, students should be able to demonstrate a basic proficiency in restaurant management operations which may include overseeing and execution of production and service. This course is a laboratory to accompany HRM 215. Emphasis is placed on practical applications of restaurant management principles. **\*\*This is a Spring Only Class\*\*** (S22912)

<b>HRM 220 Cost Control - Food &amp; Beverage</b>	3	0	0	3
---	---	---	---	---

Prerequisites: Take DMA 010 and DMA 020 and DMA 030

Corequisites: Take HRM 220A

This course introduces controls and accounting procedures as applied to costs in the hospitality industry. Topics include reports, cost control, planning and forecasting, control systems, financial statements, operational efficiencies, labor controls and scheduling. Upon completion, students should be able to demonstrate an understanding of food, beverage, and labor cost control systems for operational troubleshooting and problem solving. **\*\*This is a Fall Only Class\*\*** (S22913)

	Class	Lab	Clinical	Credits
<b>HRM 220A Cost Control - Food &amp; Beverage Lab</b>	0	2	0	1

Prerequisites: None

Corequisites: Take HRM 220

This course provides a laboratory experience for enhancing student skills in controls and purchasing procedures as applied to costs in the hospitality industry. Emphasis is placed on practical applications of reports, cost control, planning and forecasting, control systems, financial statements, operational efficiencies, labor controls and scheduling. Upon completion, students should be able to demonstrate proficiency in computer-based control applications. **\*\*This is a Fall Only Class\*\*** (S22914)

<b>HRM 225 Beverage Management</b>	3	0	0	3
------------------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course introduces the management of beverages served in hospitality operations. Topics include history and trends; service, procurement and storage; knowledge and control of wines and fermented/distilled beverages; and non-alcoholic beverages, coffees, and teas. Upon completion, students should be able to demonstrate an understanding of responsible alcohol service and the knowledge of beverages consumed in a hospitality operation. (S22915)

<b>HRM 228 Mixology</b>	1	4	0	3
-------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course provides instruction and demonstration for the practice of bartending. Emphasis is placed on set-up, including equipment/supplies/glassware; and production/service of alcoholic beverages including, but not limited to, beer, wine, cocktails, mixed/blended drinks, and specialty products. Upon completion, students should be able to demonstrate the basics of mixing alcoholic beverages in a commercial bar, tavern or nightclub setting. (S22822)

<b>HRM 230 Club &amp; Resort Management</b>	3	0	0	3
---	---	---	---	---

Prerequisites: None

Corequisites: None

This course introduces specific principles of managing a hospitality operation in a resort or club setting. Topics include operational efficiencies, resort and club marketing, recreational and sport activity management, and retail management. Upon completion, students should be able to demonstrate an understanding of the specialized skills involved in resort and club management. (S22916)

## COURSE DESCRIPTIONS

	Class   Lab   Clinical   Credits
<b>HRM 240    Marketing for Hospitality</b>	3   0   0   3
Prerequisites: None	
Corequisites: None	

This course covers planning, organizing, directing, and analyzing the results of marketing programs for the hospitality industry. Emphasis is placed on target marketing, marketing mix, analysis, product and image development, use of current media, sales planning, advertising, public relations, and collateral materials. Upon completion, students should be able to apply the marketing process as it relates to the hospitality industry. **\*\*This is a Fall Only Class\*\*** (S2291)

<b>HRM 245    Human Resource Management-Hospitality</b>	3   0   0   3
Prerequisites: None	
Corequisites: None	

This course introduces a systematic approach to human resource management in the hospitality industry. Topics include training/development, staffing, selection, hiring, recruitment, evaluation, benefit administration, employee relations, labor regulations/laws, discipline, motivation, productivity, shift management, contract employees and organizational culture. Upon completion, students should be able to apply human resource management skills for the hospitality industry. (S22919)

<b>HRM 260    Procurement for Hospitality</b>	3   0   0   3
Prerequisites: None	
Corequisites: None	

This course provides information for management decisions regarding needs analysis and fulfillment for hospitality operations. Emphasis is placed on supply chain sourcing, environmental impacts, procurement technologies, and packaging of products such as food, beverages, supplies, furniture, and equipment. Upon completion, students should be able to demonstrate competence in planning and executing the procurement function. **\*\*This is a Spring Only Class\*\*** (S22823)

<b>HRM 275    Leadership-Hospitality</b>	3   0   0   3
Prerequisites: None	
Corequisites: None	

This course introduces leadership traits, styles, and the roles and responsibilities of successful hospitality leaders while developing the student's personal leadership skills. Topics include formal and informal hospitality leadership; defining effective and ineffective leadership behavior; and leadership organizational change and planning within the hospitality industry. Upon completion, students will be able to apply appropriate leadership actions in real-world situations ranging from local to global hospitality environments. (S22824)

<b>HRM 280    Management Problems-Hospitality</b>	3   0   0   3
Prerequisites: Take HRM 110	
Corequisites: None	

This course is designed to introduce students to timely issues within the hospitality industry and is intended to move students into a managerial mindset. Emphasis is placed on problem-solving skills using currently available resources. Upon completion, students should be able to demonstrate knowledge of how hospitality management principles may be applied to real challenges facing industry managers. **\*\*This is a Spring Only Class\*\*** (S22920)

<b>HRM 285    Service Projects-Hospitality</b>	2   6   0   5
Prerequisites: None	
Corequisites: None	

This course introduces the application of hospitality management through engaging in community service. Emphasis is placed on problem solving skills, critical thinking, and applying academic concepts while using limited resources. Upon completion, students should be able to plan and execute hospitality-related projects that meet community needs. (S22825)

<b>HSC 110    Orientation to Health Careers</b>	1   0   0   1
Prerequisites: None	
Corequisites: None	

This course is a survey of health care professions. Topics include professional duties and responsibilities, working environments, and career choices. Upon completion, students should be able to demonstrate an understanding of the health care professions and be prepared to make informed career choices. (S12920)

<b>HUM 110*    Technology and Society</b>	3   0   0   3
Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090	
Corequisites: None	

This course considers technological change from historical, artistic, and philosophical perspectives and its effect on human needs and concerns. Emphasis is placed on the causes and consequences of technological change. Upon completion, students should be able to critically evaluate the implications of technology. (S14059)

<b>HUM 115*    Critical Thinking</b>	3   0   0   3
Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090	
Corequisites: None	

This course introduces the use of critical thinking skills in the context of human conflict. Emphasis is placed on evaluating information, problem solving, approaching cross-cultural perspectives, and resolving controversies and dilemmas. Upon completion, students should be able to demonstrate orally and in writing the use of critical thinking skills in the analysis of appropriate texts. (S24055)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>HUM 120* Cultural Studies</b>	3	0	0	3
Prerequisites: None				
Corequisites: None				

This course introduces the distinctive features of a particular culture. Topics include art, history, music, literature, politics, philosophy, and religion. Upon completion, students should be able to appreciate the unique character of the study culture. (S12973)

<b>HUM 121* The Nature of America</b>	3	0	0	3
Prerequisites: None				
Corequisites: None				

This course provides an interdisciplinary survey of the American cultural, social, and political experience. Emphasis is placed on the multicultural character of American society, distinctive qualities of various regions, and the American political system. Upon completion, students should be able to analyze significant cultural, social, and political aspects of American life. (S13080)

<b>HUM 122* Southern Culture</b>	3	0	0	3
Prerequisites: None				
Corequisites: None				

This course explores the major qualities that make the South a distinct region. Topics include music, politics, literature, art, religion, race relations, and the role of social class in historical and contemporary contexts. Upon completion, students should be able to identify the characteristics that distinguish Southern culture. (S13030)

<b>HUM 130* Myth in Human Culture</b>	3	0	0	3
Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090				
Corequisites: None				

This course provides an in-depth study of myths and legends. Topics include the varied sources of myths and their influence on the individual and society within diverse cultural contexts. Upon completion, students should be able to demonstrate a general familiarity with myths and a broad-based understanding of the influence of myths and legends on modern culture. (S13721)

	Class	Lab	Clinical	Credits
<b>HUM 140* The History of Architecture</b>	3	0	0	3
Prerequisites: None				
Corequisites: None				

This course provides an in-depth study of myths and legends. Topics include the varied sources of myths and their influence on the individual and society within diverse cultural contexts. Upon completion, students should be able to demonstrate a general familiarity with myths and a broad-based understanding of the influence of myths and legends on modern culture. (S11314)

<b>HUM 150* American Women's Studies</b>	3	0	0	3
Prerequisites: None				
Corequisites: None				

This course provides an inter-disciplinary study of the history, literature, and social roles of American women from Colonial times to the present. Emphasis is placed on women's roles as reflected in American language usage, education, law, the workplace, and mainstream culture. Upon completion, students should be able to identify and analyze the roles of women as reflected in various cultural forms. (S11249)

<b>HUM 160* Introduction to Film</b>	2	2	0	3
Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090				
Corequisites: None				

This course introduces the fundamental elements of film artistry and production. Topics include film styles, history, and production techniques, as well as the social values reflected in film art. Upon completion, students should be able to critically analyze the elements covered in relation to selected films. (S16395)

<b>HUM 161* Advanced Film Studies</b>	2	2	0	3
Prerequisites: Take HUM 160				
Corequisites: None				

This course provides an advanced study of film art and production, building on skills learned in HUM 160. Topics include advanced film production techniques, film genres, examination of master directors' styles, and the relation of film to culture. Upon completion, students should be able to recognize and critically analyze advanced elements of film production. (S10896)

**HUM 170\* The Holocaust**                      Class Lab Clinical Credits  
3    0    0    3  
Prerequisites: None  
Corequisites: None

This course provides a survey of the destruction of European Jewry by the Nazis during World War II. Topics include the anti-Semitic ideology, bureaucratic structures, and varying conditions of European occupation and domination under the Third Reich. Upon completion, students should be able to demonstrate an understanding of the historical, social, religious, political, and economic factors, which cumulatively resulted in the Holocaust. (S13684)

**HUM 180\* International Cultural Exploration**                      2    3    0    3  
Prerequisites: None  
Corequisites: None

This course provides a framework for students to visit, examine, and analyze a country/region outside the United States to learn about the place and people. Emphasis is placed on the distinctive cultural characteristics of a country or region. Upon completion, students should be able to identify similarities/differences, analyze causes/effects, and clearly articulate the impact of one or more cultural elements. (S22360)

**HUM 220\* Human Values and Meaning**                      3    0    0    3  
Prerequisites: Take ENG 111  
Corequisites: None

This course presents some major dimensions of human experience as reflected in art, music, literature, philosophy, and history. Topics include the search for identity, the quest for knowledge, the need for love, the individual and society, and the meaning of life. Upon completion, students should be able to recognize interdisciplinary connections and distinguish between open and closed questions and between narrative and scientific models of understanding. (S11527)

**HUM 230\* Leadership Development**                      0    3    0    3  
Prerequisites: Take ENG 111  
Corequisites: None

This course explores the theories and techniques of leadership and group process. Emphasis is placed on leadership styles, theories of group dynamics, and the moral and ethical responsibilities of leadership. Upon completion, students should be able to identify and analyze a personal philosophy and style of leadership and integrate these concepts in various practical situations. (S11154)

**HYD 110 Hydraulics/Pneumatics I**                      Class Lab Clinical Credits  
2    3    0    3  
Prerequisites: None  
Corequisites: None

This course introduces the basic components and functions of hydraulic and pneumatic systems. Topics include standard symbols, pumps, control valves, control assemblies, actuators, FRL, maintenance procedures, and switching and control devices. Upon completion, students should be able to understand the operation of a fluid power system, including design, application, and troubleshooting. (S23526)

**HYD 112 Hydraulics-Medium and Heavy Duty**                      1    2    0    2  
Prerequisites: None  
Corequisites: None

This course introduces hydraulic theory and applications as applied to mobile equipment. Topics include component studies such as pumps, motors, valves, cylinders, filters, reservoirs, lines, and fittings. Upon completion, students should be able to identify, diagnose, test, and repair hydraulic systems using schematics and technical manuals. (S10750)

Class Lab Clinical Credits

# INT 110 – ISC 278

**INT 110 International Business** 3 0 0 3  
Prerequisites: None  
Corequisites: None

This course provides an overview of the environment, concepts, and basic differences involved in international business. Topics include forms of foreign involvement, international trade theory, governmental influences on trade and strategies, international organizations, multinational corporations, personnel management, and international marketing. Upon completion, students should be able to describe the foundation of international business. (S24145)

**IPP 111 Intro to Interpretation** 3 0 0 3  
Prerequisites: None  
Corequisites: None  
Restrictions: Must be enrolled in A55300  
Interpreter Education program

This course provides an orientation to the field of interpreting, interpretation models, cognitive processes associated with interpretation, professional ethical standards, employment opportunities, and working conditions. Topics include specialized jargon, code of ethics, theories, interpreter assessments/qualifications, and protocol associated with various settings. Upon completion, students should be able to explain the rationale for placement of interpreters and apply ethical standards to a variety of working situations. **\*\*This is a Fall Only Class\*\*** (S22719)

**IPP 112 Comparative Cultures** 3 0 0 3  
Prerequisites: None  
Corequisites: None  
Restrictions: Must be enrolled in A55300  
Interpreter Education program

This course introduces various cultural attributes and how they impact the consumers and the interpreting process. Topics include value systems of deaf and non-deaf individuals, enculturation stages, sociolinguistic continuum of language use within the deaf community, and cross-cultural management. Upon completion, students should be able to compare deaf and non-deaf cultures and discuss how attitudes impact communication interactions and interpreting. **\*\*This is a Fall Only Class\*\*** (S22720)

Class Lab Clinical Credits

**IPP 130 Analytical Skills for Interpreting** 1 4 0 3  
Prerequisites: None  
Corequisites: None  
Restrictions: Must be enrolled in A55300  
Interpreter Education program

This course is designed to improve cognitive processes associated with interpreting, listening, short-term memory, semantic equivalence, visual/auditory processing, thought organization, and logic. Emphasis is placed on developing skills necessary to generate equivalent messages between ASL and English. Upon completion, students should be able to consecutively interpret non-technical, interactive messages between ASL and English. **\*\*This is a Spring Only Class\*\*** (S12361)

**IPP 152 ASL to English Translation** 3 0 0 3  
Prerequisites: Take ASL 112  
Corequisites: None  
Restrictions: Must be enrolled in A55300  
Interpreter Education program

This course provides a study of the component parts of a cultural scheme and the manner in which ASL and English differ. Emphasis is placed on analyzing, discussing, and translating basic ASL and English texts. Upon completion, students should be able to discuss and apply techniques of cross-cultural communication and translation between deaf and non-deaf communities. **\*\*This is a Spring Only Class\*\*** (S13199)

**IPP 161 Consecutive Interpreting** 2 6 0 5  
Prerequisites: Take IPP 152  
Corequisites: None  
Restrictions: Must be enrolled in A55300  
Interpreter Education program

This course introduces the process of ASL/English consecutive interpreting in a variety of interview, meeting, and small conference settings. Emphasis is placed on generating equivalent messages between ASL and English. Upon completion, students should be able to discuss and apply the principles of the protocol of consecutive interpreting. **\*\*This is a Summer Only Class\*\*** (S13756)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>IPP 221 Simultaneous Interpreting I</b>	2	6	0	5

Prerequisites: Take IPP 161  
 Corequisites: None  
 Restrictions: Must be enrolled in A55300 Interpreter Education program

This course introduces simultaneous ASL/English interpreting through a variety of expository texts originating in group, meeting, and conference settings. Emphasis is placed on analyzing expository texts, identifying registers, and applying principles of the protocol of interpreting. Upon completion, students should be able to apply the appropriate linguistic and/or cultural adjustments required to generate equivalent messages. **\*\*This is a Spring Only Class\*\*** (S14047)

<b>IPP 224 ASL to English Interpreting</b>	1	3	0	2
--	---	---	---	---

Prerequisites: Take IPP 152  
 Corequisites: None  
 Restrictions: Must be enrolled in A55300 Interpreter Education program

This course is designed to improve skills in ASL to English interpretation. Emphasis is placed on receptive skills, equivalent messages, grammatically correct English, and appropriate content, mood, and register. Upon completion, students should be able to generate appropriate English equivalents and apply appropriate linguistic and/or cultural adjustments. **\*\*This is a Fall Only Class\*\*** (S14062)

<b>IPP 240 Ethical Standards and Practices</b>	3	0	0	3
--	---	---	---	---

Prerequisites: None  
 Corequisites: Take IPP 221  
 Restrictions: Must be enrolled in A55300 Interpreter Education program

This course develops intellectual and ethical decision-making abilities and considers common ethical dilemmas that arise within the interpreting process. Topics include a model of ethical/intellectual development and the application of the model to interpreting practices. Upon completion, students should be able to discuss ethical resolution to various case studies and apply recognized principles of professional behavior to the interpreting process. **\*\*This is a Spring Only Class\*\*** (S13736)

<b>ISC 112 Industrial Safety</b>	2	0	0	2
----------------------------------	---	---	---	---

Prerequisites: None  
 Corequisites: None

This course introduces the principles of industrial safety. Emphasis is placed on industrial safety and OSHA regulations. Upon completion, students should be able to demonstrate knowledge of a safe working environment and OSHA compliance. (S23527)

	Class	Lab	Clinical	Credits
<b>ISC 121 Environmental Health &amp; Safety</b>	3	0	0	3

Prerequisites: None  
 Corequisites: None

This course covers workplace environmental, health, and safety concepts. Emphasis is placed on managing the implementation and enforcement of environmental health and safety regulations and on preventing accidents, injuries, and illnesses. Upon completion, students should be able to demonstrate an understanding of basic concepts of environmental health and safety. **\*\*This is a Spring Only Class\*\*** (S20650)

<b>ISC 130 Introduction to Quality Control</b>	3	0	0	3
--	---	---	---	---

Prerequisites: Take one: MAT 121 or MAT 171  
 Corequisites: None

This course introduces the philosophies, principles, and techniques of managing quality. Topics include the functions, responsibilities, structures, costs, reports, personnel, and vendor-customer relationships associated with quality control and management. Upon completion, students should be able to demonstrate an understanding of quality control and management. (S12046)

<b>ISC 278 cGMP Quality Systems</b>	2	0	0	2
-------------------------------------	---	---	---	---

Prerequisites: None  
 Corequisites: None

This course focuses on the development, implementation, and ongoing maintenance of a quality system in a cGMP environment. Topics include the cGMP standard, components of cGMP quality systems, quality function roles and training, development of documentation such as SOPs, and system review procedures. Upon completion, students should be able to identify the components of a quality system and develop a quality system manual utilizing the cGMP standard. (S20897)

Class Lab Clinical Credits

# LEX 110 – LSG 232

**LEX 110 Intro to Paralegal Study** 2 0 0 2

Prerequisites: None

Corequisites: None

This course introduces the paralegal profession and the legal system, and an emphasis is placed on the role of professional and legal ethics. Topics include regulations, ethics, case analysis, legal reasoning, career opportunities, professional organizations, terminology and other related topics. Upon completion, students should be able to explain the role of a paralegal and identify the skills, knowledge, and ethics required of paralegals. (S21169)

**LEX 120 Legal Research/Writing I** 2 2 0 3

Prerequisites: None

Corequisites: None

This course introduces the techniques of legal research and writing. Emphasis is placed on locating, analyzing, applying, and updating sources of law; effective legal writing, including proper citation; and the use of electronic research methods. Upon completion, students should be able to perform legal research and writing assignments using techniques covered in the course. **\*\*This is a Spring Only Class\*\*** (S10824)

**LEX 121 Legal Research/ Writing II** 2 2 0 3

Prerequisites: Take LEX 120

Corequisites: None

This course covers advanced topics in legal research and writing. Topics include more complex legal issues and assignments involving preparation of legal memos, briefs, and other documents and the advanced use of electronic research methods. Upon completion, students should be able to perform legal research and writing assignments using techniques covered in the course. **\*\*This is a Summer Only Class\*\*** (S10825)

**LEX 130 Civil Injuries** 3 0 0 3

Prerequisites: None

Corequisites: None

This course covers traditional tort concepts and the evolving body of individual rights created by statute. Topics include intentional and non-intentional torts with emphasis on negligence, strict liability, civil rights, workplace and environmental liability, remedies, and damages. Upon completion, students should be able to recognize, explain, and evaluate elements of civil injuries and related defenses. **\*\*This is a Fall Only Class\*\*** (S16405)

Class Lab Clinical Credits

**LEX 140 Civil Litigation I**

3 0 0 3

Prerequisites: None

Corequisites: None

This course introduces the structure of the legal system and the rules governing civil litigation. Topics include jurisdiction state and federal rules of civil procedure and evidence. Upon completion, students should be able to assist an attorney in pre-litigation matters and preparation of pleadings and motions. (S16406)

**LEX 150 Commercial Law I**

2 2 0 3

Prerequisites: None

Corequisites: None

This course covers legally enforceable agreements, forms of organization, and selected portions of the Uniform Commercial Code. Topics include drafting and enforcement of contracts, leases, and related documents and selection and implementation of business organization forms, sales, and commercial papers. Upon completion, students should be able to apply the elements of a contract, prepare various business documents, and understand the role of commercial paper. **\*\*This is a Fall Only Class\*\*** (S10945)

**LEX 151 Commercial Law II**

3 0 0 3

Prerequisites: Take LEX 150

Corequisites: None

This course is a continuation of LEX 150 and covers advanced topics in Business and Commercial Law. Topics include agency and employment, insurance, computer law, intellectual property, personal property and bailment, corporate organizations and bankruptcy. Upon completion, students will understand and be able to apply legal principles governing these topics and be able to draft a variety of financial instruments. (S11001)

**LEX 160 Criminal Law & Procedure** 2 2 0 3

Prerequisites: None

Corequisites: None

This course is a continuation of LEX 150 and covers advanced topics in Business and Commercial Law. Topics include agency and employment, insurance, computer law, intellectual property, personal property and bailment, corporate organizations and bankruptcy. Upon completion, students will understand and be able to apply legal principles governing these topics and be able to draft a variety of financial instruments. (S11247)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>LEX 170     Administrative Law</b>	2	0	0	2
Prerequisites: None				
Corequisites: None				

This course covers the scope, authority, and regulatory operations of various federal, state, and local administrative agencies. Topics include social security, worker's compensation, unemployment, zoning, and other related topics. Upon completion, students should be able to research sources of administrative law, investigate, and assist in representation of clients before administrative agencies. **\*\*This is a Summer Only Class\*\*** (S12960)

<b>LEX 210     Real Property I</b>	3	0	0	3
Prerequisites: None				
Corequisites: None				

This course introduces the study of real property law. Topics include the distinction between real and personal property, various estates, mechanics of conveyance and encumbrance, recordation, special proceedings, and other related topics. Upon completion, students should be able to identify estates, forms of deeds, requirements for recording, and procedures to enforce rights to real property. **\*\*This is a Fall Only Class\*\*** (S16409)

<b>LEX 211     Real Property II</b>	1	4	0	3
Prerequisites: Take LEX 210				
Corequisites: None				

This course continues the study of real property law relating to title examination and preparation of closing documents. Topics include use of courthouse and other public records in title examination and preparation of documents required in real estate transactions and closings. Upon completion, students should be able to plot/draft a description, perform complete title examination, draft closing documents including title insurance forms, and prepare disbursement reconciliation. (S13155)

<b>LEX 214     Investigation and Trial Preparation</b>	1	4	0	3
Prerequisites: None				
Corequisites: None				

This course introduces the fundamentals of investigation. Topics include compiling / assembling data for cases; investigative planning / information gathering techniques; locating / interviewing witnesses; collection / preserving / evaluating sufficiency / admissibility of evidence; preparation of reports; and evidence presentation at depositions / court proceeding. Upon completion, students should be able to plan/use investigative checklists, understand/demonstrate investigative techniques, prepare reports, and enhance verbal and interpersonal communications skills and interviewing techniques. **\*\*This is a Fall Only Class\*\*** (S10630)

	Class	Lab	Clinical	Credits
<b>LEX 240     Family Law</b>	3	0	0	3
Prerequisites: None				
Corequisites: None				

This course covers laws governing domestic relations. Topics include marriage, separation, divorce, child custody, support, property division, adoption, domestic violence, and other related topics. Upon completion, students should be able to interview clients, gather information, and draft documents related to family law. (S16411)

<b>LEX 250     Wills, Estates, &amp; Trusts</b>	2	2	0	3
Prerequisites: None				
Corequisites: None				

This course covers various types of wills, trusts, probate, estate administration, and intestacy. Topics include types of wills and execution requirements, caveats and dissents, intestate succession, inventories and accountings, distribution and settlement, and other related topics. Upon completion, students should be able to draft simple wills, prepare estate forms, understand administration of estates including taxation, and explain terms regarding trusts. (S12819)

<b>LEX 260     Bankruptcy &amp; Collections</b>	3	0	0	3
Prerequisites: None				
Corequisites: None				

This course provides an overview of the laws of bankruptcy and the rights of creditors and debtors. Topics include bankruptcy procedures and estate management, attachment, claim and delivery, repossession, foreclosure, collection, garnishment, and post-judgment collection procedure. Upon completion, students should be able to prepare and file bankruptcy forms, collection letters, statutory liens, and collection of judgments. (S20834)

<b>LEX 270     Law Office Management/Technology</b>	1	2	0	2
Prerequisites: None				
Corequisites: None				

This course provides an overview of law office management and organization. Topics include office forms, filing systems, billing/time keeping, computer systems, calendar systems, library administration, case management, office/personnel procedures, ethics, and technology. Upon completion, students should be able to establish and maintain various law office systems, monitor case progress, and supervise non-lawyer personnel. **\*\*This is a Fall Only Class\*\*** (S10858)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>LEX 271 Law Office Writing</b>	1	2	0	2

Prerequisites: None

Corequisites: None

This course covers the basics of writing for the law office including the drafting of general correspondence, the briefing of cases, and the preparation of settlement brochures. Emphasis is placed on legal vocabulary in the context of letter writing, briefing judicial opinions, and the preparation of the settlement brochure. Upon completion, students should be able to draft letters to clients, opposing counsel, government entities, and insurance companies and prepare the settlement brochure. **\*\*This is a Summer Only Class\*\*** (S11838)

<b>LEX 280 Ethics &amp; Professionalism</b>	2	0	0	2
---	---	---	---	---

Prerequisites: None

Corequisites: None

This course reinforces legal ethics and the role of the paralegal in a professional work environment. Topics include a review of ethics, employment opportunities, and search techniques; paralegal certification and other related topics. Upon completion, students should be able to understand the paralegal's role in the ethical practice of law. (S16413)

<b>LEX 287 CLA Review Seminar</b>	2	0	0	2
-----------------------------------	---	---	---	---

Prerequisites: Take LEX 210

Corequisites: None

This course is designed to prepare students for voluntary certification sponsored by the National Association of Legal Assistants to demonstrate significant competence in paralegalism. Topics include communications, ethics, human relations, interviewing techniques, judgment and analytical analysis, legal research, legal terminology, general law and nine tested specialty areas of law. Upon completion, students should be able to demonstrate that they are prepared to take the NALA's Certified Legal Assistant Exam. (S20835)

<b>LSG 111 Basic Landscape Technique</b>	2	0	0	2
--	---	---	---	---

Prerequisites: None

Corequisites: Take one: LSG 121 or LSG 122 or LSG 123

This course introduces basic principles essential to sustainable landscape gardening. Topics include soils, propagation, watering, fertilizing, pruning, pest control, and planting. Upon completion, students should be able to perform basic sustainable gardening techniques essential to maintaining a sustainable landscape. **\*\*This is a Fall Only Class\*\*** (S23387)

	Class	Lab	Clinical	Credits
<b>LSG 121 Fall Gardening Lab</b>	0	6	0	2

Prerequisites: None

Corequisites: Take LSG 111

This course provides basic hands-on experience in fall gardening techniques. Emphasis is placed on pruning, irrigation, planting, fertilizing, pest control, equipment operation, and turf maintenance. Upon completion, students should be able to perform various techniques essential to maintaining the fall landscape. **\*\*This is a Fall Only Class\*\*** (S11318)

<b>LSG 122 Spring Gardening Lab</b>	0	6	0	2
-------------------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course provides familiarization with basic gardening techniques by performing practical hands-on exercises required for the spring season. Emphasis is placed on pruning, irrigation, planting, fertilizing, pest control, equipment operation, turf maintenance, and landscape construction. Upon completion, students should be able to satisfactorily perform various practices essential to maintaining the landscape in the spring season. **\*\*This is a Spring Only Class\*\*** (S11369)

<b>LSG 123 Summer Gardening Lab</b>	0	6	0	2
-------------------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course provides basic hands-on experience in summer gardening techniques. Emphasis is placed on pruning, irrigation, planting, fertilizing, pest control, equipment operation, turf maintenance, landscape construction, and maintaining fruits and vegetables. Upon completion, students should be able to perform various techniques essential to maintaining the summer landscape. **\*\*This is a Summer Only Class\*\*** (S11290)

<b>LSG 231 Landscape Supervision</b>	2	6	0	4
--------------------------------------	---	---	---	---

Prerequisites: Take LSG 123 and HOR 260

Corequisites: None

This course provides experience in planning, implementing, and supervising various landscape management projects. Emphasis is placed on supervisory skills, organizing, and scheduling. Upon completion, students should be able to supervise employees in various landscape management jobs. **\*\*This is a Fall Only Class\*\*** (S24084)

<b>LSG 232 Garden Management</b>	1	2	0	2
----------------------------------	---	---	---	---

Prerequisites: Take LSG 123 and HOR 161

Corequisites: None

This course covers the implementation of knowledge gained in previous landscape gardening courses. Emphasis is placed on scheduling, designing, renovation, and plant management. Upon completion, students should be able to collate the material learned in the Landscape Gardening curriculum and apply it to various landscape gardening situations. **\*\*This is a Spring Only Class\*\*** (S24085)

Courses designate with an asterisk (\*) are college transfer courses. Courses designate with an asterisk and u (\*\*) are UGETC courses.

Check with your senior institution to ensure the course will be appropriate for your program at that institution

Class Lab Clinical Credits

# MAC 111 – MUS 262

**MAC 111 Machining Technology I** 2 12 0 6Prerequisites: Take one: DRE 097 or ENG 085 or  
ENG 095 or ENG 111 or  
RED 080 or RED 090

Corequisites: None

This course introduces machining operations as they relate to the metalworking industry. Topics include machine shop safety, measuring tools, lathes, drilling machines, saws, milling machines, bench grinders, and layout instruments. Upon completion, students should be able to safely perform the basic operations of measuring, layout, drilling, sawing, turning, and milling. **\*\*This is a Fall Only Class\*\*** (S11631)

**MAC 112 Machining Technology II** 2 12 0 6

Prerequisites: Take MAC 111

Corequisites: None

This course provides additional instruction and practice in the use of precision measuring tools, lathes, milling machines, and grinders. Emphasis is placed on setup and operation of machine tools including the selection and use of work holding devices, speeds, feeds, cutting tools, and coolants. Upon completion, students should be able to perform basic procedures on precision grinders and advanced operations of measuring, layout, drilling, sawing, turning, and milling. **\*\*This is a Spring Only Class\*\*** (S22988)

**MAC 113 Machining Technology III** 2 12 0 6

Prerequisites: Take MAC 112 and MEC 231

Corequisites: None

This course provides an introduction to advanced and special machining operations. Emphasis is placed on working to specified tolerances with special and advanced setups. Upon completion, students should be able to produce a part to specifications. **\*\*This is a Fall Only Class\*\*** (S22989)

**MAC 121 Intro to CNC** 2 0 0 2Prerequisites: Take one: DRE 097 or ENG 085 or  
ENG 095 or ENG 111 or  
RED 080 or RED 090

Corequisites: None

This course introduces the concepts and capabilities of computer numerical control machine tools. Topics include setup, operation, and basic applications. Upon completion, students should be able to explain operator safety, machine protection, data input, program preparation, and program storage. **\*\*This is a Fall Only Class\*\*** (S11049)

Class Lab Clinical Credits

**MAC 122 CNC Turning**

1 3 0 2

Prerequisites: Take MAC 124

Corequisites: None

This course introduces the programming, setup, and operation of CNC turning centers. Topics include programming formats, control functions, program editing, part production, and inspection. Upon completion, students should be able to manufacture simple parts using CNC turning centers. (S11081)

**MAC 124 CNC Milling**

1 3 0 2

Prerequisites: Take one set:

Set 1: MAC 111 and MAC 121

Set 2: MAC 121 and MEC 111

Corequisites: None

This course introduces the manual programming, setup, and operation of CNC machining centers. Topics include programming formats, control functions, program editing, part production, and inspection. Upon completion, students should be able to manufacture simple parts using CNC machining centers. **\*\*This is a Spring Only Class\*\*** (S11096)

**MAC 131 Blueprint Reading/  
Machining I**

1 2 0 2

Prerequisites: Take one: DRE 097 or ENG 085 or  
ENG 095 or ENG 111 or  
RED 080 or RED 090

Corequisites: None

This course covers the basic principles of blueprint reading and sketching. Topics include multi-view drawings; interpretation of conventional lines; and dimensions, notes, and thread notations. Upon completion, students should be able to interpret basic drawings, visualize parts, and make pictorial sketches. **\*\*This is a Fall Only Class\*\*** (S12563)

**MAC 132 Blueprint Reading/  
Machining II**

1 2 0 2

Prerequisites: Take MAC 131

Corequisites: None

This course introduces more complex industrial blueprints. Emphasis is placed on auxiliary views, section views, violations of true project, special views, applications of GD & T, and interpretation of complex parts. Upon completion, students should be able to read and interpret complex industrial blueprints. **\*\*This is a Spring Only Class\*\*** (S22991)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>MAC 152    Advanced Machining Calculations</b>	1	2	0	2

Prerequisites: Take MAT 120 or MAT 121  
Corequisites: None

This course combines mathematical functions with practical machine shop applications and problems. Emphasis is placed on gear ratios, lead screws, indexing problems, and their applications in the machine shop. Upon completion, students should be able to calculate solutions to machining problems. (S12224)

<b>MAC 222    Advanced CNC Turning</b>	1	3	0	2
--	---	---	---	---

Prerequisites: Take MAC 122  
Corequisites: None

This course covers advanced methods in setup and operation of CNC turning centers. Emphasis is placed on programming and production of complex parts. Upon completion, students should be able to demonstrate skills in programming, operations, and setup of CNC turning centers. **\*\*This is a Spring Only Class\*\*** (S22994)

<b>MAC 224    Advanced CNC Milling</b>	1	3	0	2
--	---	---	---	---

Prerequisites: Take MAC 124  
Corequisites: None

This course covers advanced methods in setup and operation of CNC machining centers. Emphasis is placed on programming and production of complex parts. Upon completion, students should be able to demonstrate skills in programming, operations, and setup of CNC machining centers. **\*\*This is a Fall Only Class\*\*** (S23000)

<b>MAC 233    Appl in CNC Machining</b>	2	12	0	6
---	---	----	---	---

Prerequisites: Take MAC 113 and MAC 224 and MEC 232  
Corequisites: Take MAC 222

This capstone course provides students the opportunity to apply skills learned throughout the curriculum. Emphasis is placed on production of parts and assemblies using modern CNC machine tools. Upon completion, students should be able to manufacture complex parts using a variety of CNC machine tools. **\*\*This is a Spring Only Class\*\*** (S21152)

<b>MAC 241    Jigs &amp; Fixtures I</b>	2	6	0	4
---	---	---	---	---

Prerequisites: Take MAC 112 and MEC 231  
Corequisites: None

This course introduces the application and use of jigs and fixtures. Emphasis is placed on design and manufacture of simple jigs and fixtures. Upon completion, students should be able to design and build simple jigs and fixtures. **\*\*This is a Fall Only Class\*\*** (S22996)

	Class	Lab	Clinical	Credits
<b>MAC 245    Mold Construction I</b>	2	6	0	4

Prerequisites: Take MEC 232  
Corequisites: None

This course introduces the principles of mold making. Topics include types, construction, and application of molds. Upon completion, students should be able to design and build simple molds. **\*\*This is a Spring Only Class\*\*** (S23004)

<b>MAC 248    Production Procedures</b>	1	2	0	2
---	---	---	---	---

Prerequisites: Take MAC 113 and MAT 121  
Corequisites: None

This course covers product planning and control and scheduling and routing of operations. Topics include cost-effective production methods, dimensional and statistical quality control, and the tooling and machines required for production. Upon completion, students should be able to plan, set up, and produce cost-effective quality machined parts. **\*\*This is a Spring Only Class\*\*** (S10897)

<b>MAT 110    Math Measurement &amp; Literacy</b>	2	2	0	3
---	---	---	---	---

Prerequisites: Take DMA 010, DMA 020, and DMA 030  
Corequisites: None

This course provides an activity-based approach that develops measurement skills and mathematical literacy using technology to solve problems for non-math intensive programs. Topics include unit conversions and estimation within a variety of measurement systems; ratio and proportion; basic geometric concepts; financial literacy; and statistics including measures of central tendency, dispersion, and charting of data. Upon completion, students should be able to demonstrate the use of mathematics and technology to solve practical problems, and to analyze and communicate results. (S23926)

<b>MAT 121    Algebra/Trigonometry I</b>	2	2	0	3
--	---	---	---	---

Prerequisites: Take DMA 010 and DMA 020 and DMA 030 and DMA 040 and DMA 050 and DMA 060

Corequisites: None

This course provides an integrated approach to technology and the skills required to manipulate, display, and interpret mathematical functions and formulas used in problem solving. Topics include the properties of plane and solid geometry, area and volume, and basic proportion applications; simplification, evaluation, and solving of algebraic equations and inequalities and radical functions; complex numbers; right triangle trigonometry; and systems of equations. Upon completion, students will be able to demonstrate the ability to use mathematics and technology for problem-solving, analyzing and communicating results. (S23927)

	Class	Lab	Clinical	Credits
<b>MAT 122 Algebra/Trigonometry II</b>	2	2	0	3
Prerequisites: Take MAT 121				
Corequisites: None				

This course is designed to cover concepts in algebra, function analysis, and trigonometry. Topics include exponential and logarithmic functions, transformations of functions, Law of Sines, Law of Cosines, vectors, and statistics. Upon completion, students should be able to demonstrate the ability to use mathematics and technology for problem-solving, analyzing and communicating results. (S23931)

<b>MAT 142* Mathematical Concepts II</b>	3	0	0	3
Prerequisites: Take MAT 141				
Corequisites: None				

This course is the second of a two-course sequence that develops a deeper understanding and appreciation of the basic concepts of mathematics. Emphasis is placed on probability, statistics, functions, introductory geometry, and mathematics of finance. Upon completion, students should be able to communicate orally and in writing these basic mathematical concepts and utilize technology as a mathematical tool. (S20300)

<b>MAT 143*<sup>u</sup> Quantitative Literacy</b>	2	2	0	3
Prerequisites: Take DMA 010, DMA 020, DMA 030, DMA 040, and DMA 050				
Take one: DRE 098 or ENG 095 or ENG 090				
Corequisites: None				

This course is designed to engage students in complex and realistic situations involving the mathematical phenomena of quantity, change and relationship, and uncertainty through project- and activity-based assessment. Emphasis is placed on authentic contexts which will introduce the concepts of numeracy, proportional reasoning, dimensional analysis, rates of growth, personal finance, consumer statistics, practical probabilities, and mathematics for citizenship. Upon completion, students should be able to utilize quantitative information as consumers and to make personal, professional, and civic decisions by decoding, interpreting, using, and communicating quantitative information found in modern media and encountered in everyday life. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S23945)*

	Class	Lab	Clinical	Credits
<b>MAT 152*<sup>u</sup> Statistical Methods I</b>	3	2	0	4
Prerequisites: Take DMA 010 and DMA 020 and DMA 030 and DMA 040 and DMA 050 and DRE 098				

Corequisites: None

This course provides a project-based approach to introductory statistics with an emphasis on using real-world data and statistical literacy. Topics include descriptive statistics, correlation and regression, basic probability, discrete and continuous probability distributions, confidence intervals and hypothesis testing. Upon completion, students should be able to use appropriate technology to describe important characteristics of a data set, draw inferences about a population from sample data, and interpret and communicate results. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S23944)*

<b>MAT 171*<sup>u</sup> Precalculus Algebra</b>	3	2	0	4
Prerequisites: Take one set:				
Set 1: DMA 010, DMA 020, DMA 030, DMA 040, DMA 050, DMA 060, DMA 070, and DMA 080				
Set 2: DMA 010, DMA 020, DMA 030, DMA 040, DMA 050, and DMA 065				
Set 3: MAT 121				
Corequisites: None				

This course is designed to develop topics which are fundamental to the study of Calculus. Emphasis is placed on solving equations and inequalities, solving systems of equations and inequalities, and analysis of functions (absolute value, radical, polynomial, rational, exponential, and logarithmic) in multiple representations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to algebra-related problems with and without technology. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S23934)*

<b>MAT 172*<sup>u</sup> Precalculus Trigonometry</b>	3	2	0	4
Prerequisites: Take MAT 171				
Corequisites: None				

This course is designed to develop an understanding of topics which are fundamental to the study of Calculus. Emphasis is placed on the analysis of trigonometric functions in multiple representations, right and oblique triangles, vectors, polar coordinates, conic sections, and parametric equations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to trigonometry-related problems with and without technology. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S23935)*

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>MAT 263<sup>*u</sup> Brief Calculus</b>	3	2	0	4
Prerequisites: Take MAT 171				
Corequisites: None				

This course is designed to introduce concepts of differentiation and integration and their applications to solving problems. Topics include graphing, differentiation, and integration with emphasis on applications drawn from business, economics, and biological and behavioral sciences. Upon completion, students should be able to demonstrate an understanding of the use of basic calculus and technology to solve problems and to analyze and communicate results. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S23937)*

<b>MAT 271<sup>*u</sup> Calculus I</b>	3	2	0	4
Prerequisites: Take MAT 172				
Corequisites: None				

This course is designed to develop the topics of differential and integral calculus. Emphasis is placed on limits, continuity, derivatives and integrals of algebraic and transcendental functions of one variable. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to derivative-related problems with and without technology. MAT 172 is the prerequisite for this course; however, a student may PLACE DIRECTLY into MAT 271 if the student has met at least one (1) of the following criteria within the past five (5) years: 1. A score of 2 or higher on the AP Calculus AB Exam. 2. A grade of C or higher in an AP Calculus course and an unweighted HS GPA of 3.0 or higher. 3. A score of 90 or higher on the ACCUPLACER College-Level Math (CLM) test. 4. A score of 46 or higher on the trigonometry section of the ACT Compass Math Placement Test. 5. A score of 580 or higher on the SAT Math and a grade of C or higher in the North Carolina Standard Course of Study Pre-Calculus course or an equivalent course from another state. 6. A score of 27 or higher on the ACT Math and a grade of C or higher in the North Carolina Standard Course of Study Pre-Calculus course or an equivalent course from another state. 7. A score of 560 or higher on the SAT Subject Test in Mathematics Level 2. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S23939)*

<b>MAT 272<sup>*u</sup> Calculus II</b>	3	2	0	4
Prerequisites: Take MAT 271				
Corequisites: None				

This course is designed to develop advanced topics of differential and integral calculus. Emphasis is placed on the applications of definite integrals, techniques of integration, indeterminate forms, improper integrals, infinite series, conic sections, parametric equations, polar coordinates, and differential equations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to integral-related problems with and without technology. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S23940)*

	Class	Lab	Clinical	Credits
<b>MAT 273<sup>*</sup> Calculus III</b>	3	2	0	4
Prerequisites: Take MAT 272				
Corequisites: None				

This course is designed to develop the topics of multivariate calculus. Emphasis is placed on multivariate functions, partial derivatives, multiple integration, solid analytical geometry, vector valued functions, and line and surface integrals. Upon completion, students should be able to select and use appropriate models and techniques for finding the solution to multivariate-related problems with and without technology. (S23941)

<b>MAT 280<sup>*</sup> Linear Algebra</b>	2	2	0	3
Prerequisites: Take MAT 271				
Corequisites: None				

This course provides an introduction to linear algebra topics. Emphasis is placed on the development of abstract concepts and applications for vectors, systems of equations, matrices, determinants, vector spaces, multi-dimensional linear transformations, eigenvectors, eigenvalues, diagonalization and orthogonality. Upon completion, students should be able to demonstrate understanding of the theoretical concepts and select and use appropriate models and techniques for finding solutions to linear algebra-related problems with and without technology. (S23942)

<b>MAT 285<sup>*</sup> Differential Equations</b>	2	2	0	3
Prerequisites: Take MAT 272				
Corequisites: None				

This course provides an introduction to topics involving ordinary differential equations. Emphasis is placed on the development of abstract concepts and applications for first-order and linear higher-order differential equations, systems of differential equations, numerical methods, series solutions, eigenvalues and eigenvectors, and Laplace transforms. Upon completion, students should be able to demonstrate understanding of the theoretical concepts and select and use appropriate models and techniques for finding solutions to differential equations-related problems with and without technology. (S23943)

<b>MEC 110 Introduction to CAD/CAM</b>	1	2	0	2
Prerequisites: Take MEC 111 and DFT 151				
Corequisites: None				

This course introduces CAD/CAM. Emphasis is placed on transferring part geometry from CAD to CAM for the development of a CNC-ready program. Upon completion, students should be able to use CAD/CAM software to produce a CNC program. **\*\*This is a Spring Only Class\*\*** (S14051)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>MEC 111 Machine Processes I</b>	1	4	0	3

Prerequisites: None  
Corequisites: None

This course introduces shop safety, hand tools, machine processes, measuring instruments, and the operation of machine shop equipment. Topics include use and care of tools, safety, measuring tools, and the basic setup and operation of common machine tools. Upon completion, students should be able to manufacture simple parts to specified tolerance. (S20654)

<b>MEC 130 Mechanisms</b>	2	2	0	3
---------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces the purpose and action of various mechanical devices. Topics include cams, cables, gear trains, differentials, screws, belts, pulleys, shafts, levers, lubricants, and other devices. Upon completion, students should be able to analyze, maintain, and troubleshoot the components of mechanical systems. **\*\*This is a Spring Only Class\*\*** (S16429)

<b>MEC 145 Manufacturing Materials I</b>	2	3	0	3
--	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces a variety of manufacturing materials and common processing techniques. Emphasis is placed on the processing, testing, and application of materials such as wood, metals, plastics, ceramics, and composites. Upon completion, students should be able to demonstrate an understanding of fundamental engineering applications for a variety of materials, including their process capabilities and limitations. **\*\*This is a Spring Only Class\*\*** (S23498)

<b>MEC 231 Computer-Aided Manufacturing I</b>	1	4	0	3
---	---	---	---	---

Prerequisites: Take MAC 124 and MAC 132  
Corequisites: None

This course introduces computer-aided design/manufacturing (CAD/CAM) applications and concepts. Topics include software, programming, data transfer and verification, and equipment setup. Upon completion, students should be able to produce parts using CAD/CAM applications. (S20658)

<b>MEC 232 Computer-Aided Manufacturing II</b>	1	4	0	3
--	---	---	---	---

Prerequisites: Take MEC 231  
Corequisites: None

This course provides an in-depth study of CAM applications and concepts. Emphasis is placed on the manufacturing of complex parts using computer-aided manufacturing software. Upon completion, students should be able to manufacture complex parts using CAM software. **\*\*This is a Fall Only Class\*\*** (S14320)

	Class	Lab	Clinical	Credits
<b>MEC 265 Fluid Mechanics</b>	2	2	0	3

Prerequisites: Take one set:  
Set 1: Take ENG 111 and MAT 121  
Set 2: Take ENG 111 and MAT 171  
Corequisites: None

This course covers the physical behavior of fluids and fluid systems. Topics include fluid statics and dynamics, laminar and turbulent flow, Bernoulli's Equation, components, applications, and other related topics. Upon completion, students should be able to apply fluid power principles to practical applications. **\*\*This is a Spring Only Class\*\*** (S23504)

<b>MEC 267 Thermal Systems</b>	2	2	0	3
--------------------------------	---	---	---	---

Prerequisites: Take one: PHY 131 or PHY 151  
Take NUC 110  
Corequisites: None

This course introduces the fundamental laws of thermodynamics. Topics include work and energy, open and closed systems, and heat engines. Upon completion, students should be able to demonstrate a knowledge of the laws and principles that apply to thermal power. **\*\*This is a Fall Only Class\*\*** (S11802)

<b>MED 120 Survey of Medical Terminology</b>	2	0	0	2
--	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces the vocabulary, abbreviations, and symbols used in the language of medicine. Emphasis is placed on building medical terms using prefixes, suffixes, and word roots. Upon completion, students should be able to pronounce, spell, and define accepted medical terms. (S12808)

<b>MED 121 Medical Terminology I</b>	3	0	0	3
--------------------------------------	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090  
Corequisites: None

This course introduces prefixes, suffixes, and word roots used in the language of medicine. Topics include medical vocabulary and the terms that relate to the anatomy, physiology, pathological conditions, and treatment of selected systems. Upon completion, students should be able to pronounce, spell, and define medical terms as related to selected body systems and their pathological disorders. (S12737)

<b>MED 122 Medical Terminology II</b>	3	0	0	3
---------------------------------------	---	---	---	---

Prerequisites: Take MED 121  
Corequisites: None

This course is the second in a series of medical terminology courses. Topics include medical vocabulary and the terms that relate to the anatomy, physiology, pathological conditions, and treatment of selected systems. Upon completion, students should be able to pronounce, spell, and define medical terms as related to selected body systems and their pathological disorders. (S12833)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>MED 272 Drug Therapy</b>	3	0	0	3
Prerequisites: Take MED 121				
Corequisites: None				

This course focuses on major drug groups, including their side effects, interactions, methods of administration, and proper documentation. Emphasis is placed on the theory of drug administration. Upon completion, students should be able to identify, spell, recognize side effects of, and document the most commonly used medications in a physician's office. (S16433)

<b>MKT 120 Principles of Marketing</b>	3	0	0	3
Prerequisites: None				
Corequisites: None				

This course introduces principles and problems of marketing goods and services. Topics include promotion, placement, and pricing strategies for products. Upon completion, students should be able to apply marketing principles in organizational decision making. (S24159)

<b>MKT 221 Consumer Behavior</b>	3	0	0	3
Prerequisites: Take BUS 110				
Corequisites: None				

This course is designed to describe consumer behavior as applied to the exchange processes involved in acquiring, consuming, and disposing of goods and services. Topics include an analysis of basic and environmental determinants of consumer behavior with emphasis on the decision-making process. Upon completion, students should be able to analyze concepts related to the study of the individual consumer. (S12308)

<b>MKT 223 Customer Service</b>	3	0	0	3
Prerequisites: None				
Corequisites: None				

This course stresses the importance of customer relations in the business world. Emphasis is placed on learning how to respond to complex customer requirements and to efficiently handle stressful situations. Upon completion, students should be able to demonstrate the ability to handle customer relations. (S12287)

<b>MKT 224 International Marketing</b>	3	0	0	3
Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090				
Corequisites: None				

This course covers the basic concepts of international marketing activity and theory. Topics include product promotion, placement, and pricing strategies in the international marketing environment. Upon completion, students should be able to demonstrate a basic understanding of the concepts covered. **\*\*This is a Spring Only Class\*\*** (S12374)

	Class	Lab	Clinical	Credits
<b>MKT 232 Social Media Marketing</b>	3	2	0	4
Prerequisites: None				
Corequisites: None				

This course is designed to build students' social media marketing skills by utilizing projects that give students hands on experience implementing social media marketing strategies. Topics include integrating different social media technologies into a marketing plan, creating social media marketing campaigns, and applying appropriate social media tools. Upon completion, students should be able to use social media technologies to create and improve marketing efforts for businesses. (S24164)

<b>MNT 110 Introduction to Maintenance Procedures</b>	1	3	0	2
Prerequisites: None				
Corequisites: None				

This course covers basic maintenance fundamentals for power transmission equipment. Topics include equipment inspection, lubrication, alignment, and other scheduled maintenance procedures. Upon completion, students should be able to demonstrate knowledge of accepted maintenance procedures and practices according to current industry standards. **\*\*This is a Fall Only Class\*\*** (S23528)

<b>MNT 111 Maintenance Practices</b>	2	2	0	3
Prerequisites: None				
Corequisites: None				

This course provides in-depth theory and practical applications relating to predictive and preventive maintenance programs. Emphasis is placed on equipment failure analysis, maintenance management software, and techniques such as vibration and infrared analysis. Upon completion, students should be able to demonstrate an understanding of modern analytical and documentation methods. **\*\*This is a Spring Only Class\*\*** (S16435)

<b>MNT 131 Metalworking Processes</b>	2	3	0	3
Prerequisites: None				
Corequisites: None				

This course introduces the standard practices that are found in the metal workshop. Topics include the proper care/use of basic hand tools and precision measuring instruments and layout procedures/operation of lathes, drill presses, grinders, milling machines, and power saws. Upon completion, students should be able to work safely in the metal workshop and use basic metalworking equipment. **\*\*This is a Fall Only Class\*\*** (S20667)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>MNT 220 Rigging &amp; Moving</b>	1	3	0	2

Prerequisites: None  
Corequisites: None

This course covers the principles of safe rigging practices for handling, placing, installing, and moving heavy machinery and equipment. Topics include safety, weight and dimensional estimation, positioning of equipment slings, rollers, jacks, levers, dollies, ropes, chains, padding, and other related topics. Upon completion, students should be able to safely relocate and set up equipment using accepted rigging practices. **\*\*This is a Summer Only Class\*\*** (S13803)

<b>MNT 230 Pumps &amp; Piping Systems</b>	1	3	0	2
---	---	---	---	---

Prerequisites: None  
Corequisites: None

This course covers pump installation and maintenance and related valves and piping systems. Topics include various types of pump systems and their associated valves, piping requirements, and other related topics. Upon completion, students should be able to select and install pump and piping systems and demonstrate proper maintenance and troubleshooting procedures. **\*\*This is a Summer Only Class\*\*** (S10184)

<b>MRN 121 Marine Engines</b>	2	6	0	4
-------------------------------	---	---	---	---

Prerequisites: Take TRN 110  
Corequisites: Take HET 110

This course covers two and four cycle diesel engines that are used for marine vessel propulsion. Emphasis is placed on construction, design, cooling systems, lubrication systems, and air-intake systems. Upon completion, students should be able to test, troubleshoot, diagnose and repair marine engine systems. **\*\*This is a Spring Only Class\*\*** (S23442)

<b>MRN 147 Marine Power Trains</b>	2	6	0	4
------------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course covers the principles and function of marine power trains. Emphasis is placed on marine gears, drivelines, gear reduction, and installation aboard vessels. Upon completion, students should be able to test, service, and trouble shoot marine power trains. **\*\*This is a Summer Only Class\*\*** (S23443)

<b>MRN 150 Advanced Marine Electrical Systems</b>	2	9	0	5
---	---	---	---	---

Prerequisites: Take TRN 120  
Corequisites: None

This course covers the skills necessary to wire 12-volt direct current and 120-volt alternating current electrical systems found on modern boats and marine applications. Topics include wiring sizing, batteries, wire harnesses, distribution panels, electronic component installation, and electrical system troubleshooting, including generators operation and disassembly. Upon completion students should be able to diagnose, test, and repair advanced electrical systems in marine applications and boats. **\*\*This is a Spring Only Class\*\*** (S23444)

	Class	Lab	Clinical	Credits
<b>MSC 110 Training Cruise I</b>	0	3	0	1

Prerequisites: Take one: DRE 097 or ENG 085 or  
ENG 095 or ENG 111 or  
RED 080 or RED 090

Corequisites: None  
Restrictions: Must be enrolled full-time in A15320  
Marine Technology program or  
by permission of the department chair

This course covers the skills necessary to live and work safely aboard oceangoing research vessels. Emphasis is placed on the skills necessary for the safe operation of biological sampling equipment. Upon completion, students should be able to safely live and work aboard an oceanographic research vessel conducting offshore scientific operations. (S21403)

<b>MSC 112 Training Cruise II</b>	0	3	0	1
-----------------------------------	---	---	---	---

Prerequisites: Take one: ENG 085 or ENG 095 or  
ENG 111 or RED 080 or RED 090

Corequisites: None  
Restrictions: Must be enrolled full-time in A15320  
Marine Technology program or  
by permission of the department chair

This course covers the skills necessary to live and work safely aboard oceangoing research vessels. Emphasis is placed on maintaining a 24-hour navigation log and weather watch and safely conducting over-the-side sampling operations. Upon completion, students should be able to maintain a weather log, plot a cruise track, and safely use sampling gear. (S21404)

<b>MSC 114 Training Cruise III</b>	0	3	0	1
------------------------------------	---	---	---	---

Prerequisites: Take one: MSC 110 or MSC 112

Corequisites: None  
Restrictions: Must be enrolled full-time in A15320  
Marine Technology program or  
by permission of the department chair

This course covers the skills necessary to live and work safely aboard oceangoing research vessels. Emphasis is placed on utilizing the navigational and hydrographical techniques needed to conduct an offshore bathymetric survey. Upon completion, students should be able to accurately navigate a vessel, gather bathymetric data, and prepare a depth contour plot of a predetermined quadrant. (S24091)

<b>MSC 120 Marine Software and Data Networks</b>	1	2	0	2
--	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces software used in the marine industry and the network hardware required for data integration. Emphasis is placed on hydrographic/oceanographic software packages, and the use of serial communications, Ethernet, null modem, and USB technologies. Upon completion, students should be able to demonstrate an understanding of the various software applications and be able to integrate networking technologies when underway. (S24942)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>MSC 122 Boat Handling/Seamanship</b>	2	3	0	3

Prerequisites: Take one: DRE 097 or ENG 085 or  
ENG 095 or ENG 111 or  
RED 080 or RED 090

Corequisites: None

This course covers the skills of boat handling, the practice of seamanship, and safety and survival in the marine environment. Topics include safe boat handling, seamanship under adverse conditions, firefighting, man overboard rescue, PFDs, EPIRBs, distress signals, lifeboats, and life rafts. Upon completion, students should be able to competently operate small powerboats and demonstrate proficiency in the use of marine firefighting and lifesaving equipment. (S23388)

<b>MSC 124 Industrial Skills</b>	1	4	0	3
----------------------------------	---	---	---	---

Prerequisites: Take one: DRE 097 or ENG 085 or  
ENG 095 or ENG 111 or  
RED 080 or RED 090

Corequisites: None

This course offers a practical approach to the mechanical and technical skills needed by technicians in a variety of marine-related jobs. Topics include industrial safety, measurement systems, hand and power tools, fasteners, corrosion protection, project design, and construction and cost estimation. Upon completion, students should be able to safely use hand and/or power tools and understand a variety of measurement and pricing systems. (S23389)

<b>MSC 126 Marine Engines</b>	1	2	0	2
-------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course covers fundamental theory, troubleshooting, and maintenance of marine engines and related equipment, especially outboards. Emphasis is placed on maintenance and operational procedures, including corrosion control, lubrication, propellers, carburetors, two-cycle theory, magneto ignition, batteries, starters, alternators, and trailers. Upon completion, students should be able to understand how a marine engine and related components work, perform minor repairs, and properly maintain them. (S13687)

<b>MSC 132 Fishing Gear Technology I</b>	2	3	0	3
--	---	---	---	---

Prerequisites: Take one: DRE 097 or ENG 085 or  
ENG 095 or ENG 111 or  
RED 080 or RED 090

Corequisites: None

This course introduces modern rope seamanship and fishing gear theory, design, repair, and analysis as it relates to fisheries research. Emphasis is placed on various practical knots, rope splicing, marine hardware, biological sampling gear classifications, and the basics of net construction, repair, and design. Upon completion, students should be able to implement marlin spike skills; repair netted material; and identify, design, and construct various types of biological entrapment and entanglement gear. (S23390)

	Class	Lab	Clinical	Credits
<b>MSC 134 Fishing Gear Technology II</b>	1	2	0	2

Prerequisites: Take MSC 132  
Corequisites: None

This course offers further experience and instruction in fishing gear theory and design and the collection and recording of biological data. Emphasis is placed on the general skills needed to design, construct, and repair complex sampling gear and be employed as a fisheries technician. Upon completion, students should be able to understand and apply fishing gear design and construction techniques and collect, compile, and record biological data. (S12028)

<b>MSC 150 Marine Navigation</b>	2	3	0	3
----------------------------------	---	---	---	---

Prerequisites: Take one: DRE 097 or ENG 085 or  
ENG 095 or ENG 111 or  
RED 080 or RED 090  
Corequisites: None

This course provides training in marine piloting and electronic navigation techniques. Topics include use of charts, instruments, navigational aids, compasses, nautical publications, radar, GPS, LORAN, and depth sounders, with an emphasis on plotting techniques. Upon completion, students should be able to demonstrate competence in the safe navigation of vessels utilizing and interpreting information obtained from navigational aids. (S23391)

<b>MSC 152 Marine Instrumentation</b>	1	2	0	2
---------------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces the various types of oceanographic instrumentation used for the collection of data and samples by the oceanographic community. Emphasis is placed on data recording procedures, proper operation, safe handling, and calibration, maintenance, and repair of instruments. Upon completion, students should be able to safely and correctly use the instruments covered to conduct accurate field measurements. (S13363)

<b>MSC 160 Oceanography</b>	4	0	0	4
-----------------------------	---	---	---	---

Prerequisites: Take one: DRE 097 or ENG 085 or  
ENG 095 or ENG 111 or  
RED 080 or RED

Corequisites: None

This course provides a general description of the geology, chemistry, and physics of the oceans. Topics include a history of oceanography, bathymetry, plate tectonics, seawater chemistry and physics, atmospheric circulation, currents, waves, tides, sedimentation, and coastal geology. Upon completion, students should be able to describe bathymetric features, the chemistry and physics of seawater, atmospheric and ocean circulations, marine sediments, and coastal processes. (S23392)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>MSC 172 Marine Biology</b>	2	3	0	3

Prerequisites: Take one: DRE 097 or ENG 085 or  
ENG 095 or ENG 111 or  
RED 080 or RED 090

Corequisites: None

This course utilizes field trips to the beach, salt marsh, and other habitats to study marine animals and plants in their natural communities. Topics include divisions of the marine environment, distribution of life in the ocean, and the interrelationships of marine organisms in various habitats. Upon completion, students should be able to scientifically identify various marine species and describe the role they fill in their biological communities. (S11611)

<b>MSC 174 Marine Invertebrate Zoology</b>	3	2	0	4
--	---	---	---	---

Prerequisites: None

Corequisites: None

This course covers the behavior and classification of marine invertebrates. Topics include identification, feeding behavior, reproduction, and symbiotic relationships of marine invertebrates. Upon completion, students should be able to identify and classify marine invertebrates and demonstrate an understanding of their basic anatomy and physiology. (S11590)

<b>MSC 180 Water Analysis</b>	2	3	0	3
-------------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course covers the practical analysis of water samples with an emphasis on marine-oriented techniques and procedures. Topics include basic laboratory skills, microbiology techniques, and the use of wet chemistry and instruments to quantify chemically and biologically important parameters. Upon completion, students should be able to culture microbes, and measure pH, turbidity, dissolved oxygen, and nutrients in natural water samples. (S23393)

<b>MSC 210 Marine Environmental Sampling and Analysis</b>	1	3	0	2
---	---	---	---	---

Prerequisites: None

Corequisites: None

This course introduces the fundamental principles used in the environmental assessment process and their applicability to environmental laws and policies. Emphasis is placed on characterizing sampling sites; understanding contaminant transport; developing and following sampling plans for the collection of various media; documenting field activities; following proper lab techniques and safety; and interpreting lab reports. Upon completion, students should be able to describe significant environmental regulations applicable to the marine environment, classes and typical sources of contaminants, and current sampling and laboratory techniques and quality control measures. (S24295)

	Class	Lab	Clinical	Credits
<b>MSC 216 Training Cruise IV</b>	0	3	0	1

Prerequisites: Take one set:

Set 1: MSC 110, MSC 114, and MSC 152

Set 2: MSC 112, MSC 114, and MSC 152

Corequisites: None

Restrictions: Must be enrolled full-time in A15320  
Marine Technology program or  
by permission of the department chair

This course covers the skills necessary to live and work safely aboard oceangoing research vessels. Emphasis is placed on conducting standard hydrographic stations using various oceanographic samples. Upon completion, students should be able to set up and conduct a hydrographic station and collect accurate data using various types of marine instrumentation. (S24092)

<b>MSC 218 Training Cruise V</b>	0	3	0	1
----------------------------------	---	---	---	---

Prerequisites: Take one set:

Set 1: MSC 114 and MSC 152

Set 2: MSC 152 and MSC 216

Corequisites: None

Restrictions: Must be enrolled full-time in A15320  
Marine Technology program or  
by permission of the department chair

This course covers the skills necessary to live and work safely aboard oceangoing research vessels. Emphasis is placed on conducting a broad range of oceanographic survey techniques, including chemical, meteorological, geological, physical, and biological surveys. Upon completion, students should be able to demonstrate competence in the skills required of a marine technician aboard an oceanographic or survey vessel. (S24093)

<b>MSC 220 Marine GIS</b>	2	2	0	3
---------------------------	---	---	---	---

Prerequisites: Take MSC 120

Corequisites: None

This course introduces students to the software and data components of a Geographic Information System. Topics include data collection, management, and analysis, and the creation of marine-based GIS maps. Upon completion, students should be able to use GIS software in marine applications. (S24296)

<b>MSC 254 Marine Data Processing</b>	1	3	0	2
---------------------------------------	---	---	---	---

Prerequisites: Take MSC 120 and MSC 152

Corequisites: Take MSC 256

This course introduces standard oceanographic procedures used to process and analyze oceanographic data. Emphasis is placed on the use of standard recording procedures and computer applications for processing and analyzing oceanographic data. Upon completion, students should be able to record and analyze oceanographic data using standard procedures along with computer-based applications. (S24297)

## CAPE FEAR COMMUNITY COLLEGE

		Class	Lab	Clinical	Credits
<b>MSC 256</b>	<b>Cartography/Hydrography Surveying</b>	1	3	0	2
Prerequisites: Take MSC 120 and MSC 152					
Corequisites: Take MSC 254					

This course covers basic surveying and cartography techniques as they apply to marine research. Topics include topographic map and bathymetric chart basics, including symbols, contours, elevations, coordinate systems, and basic survey instruments, modeling, and field projects. Upon completion, students should be able to use topographic and bathymetric maps as a research tool and set up and conduct field surveys. (S11694)

<b>MSC 276</b>	<b>Marine Vertebrate Zoo</b>	3	2	0	4
Prerequisites: None					
Corequisites: None					

This course covers the behavior and classification of marine fishes, reptiles, birds, and mammals. Topics include identification, feeding behavior, reproduction, migration, and other marine vertebrate characteristics. Upon completion, students should be able to identify marine vertebrates and demonstrate an understanding of the methods marine vertebrates use to survive in the ocean. (S23394)

<b>MUS 110*</b>	<b>Music Appreciation</b>	3	0	0	3
Prerequisites: None					
Corequisites: None					

This course is a basic survey of the music of the Western world. Emphasis is placed on the elements of music, terminology, composers, form, and style within a historical perspective. Upon completion, students should be able to demonstrate skills in basic listening and understanding of the art of music. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14]* (S13676)

<b>MUS 111*</b>	<b>Fundamentals of Music</b>	3	0	0	3
Prerequisites: None					
Corequisites: None					

This course is an introductory course for students with little or no music background. Emphasis is placed on music notation, rhythmic patterns, scales, key signatures, intervals, and chords. Upon completion, students should be able to demonstrate an understanding of the rudiments of music. (S16443)

<b>MUS 112*</b>	<b>Introduction to Jazz</b>	3	0	0	3
Prerequisites: None					
Corequisites: None					

This course introduces the origins and musical components of jazz and the contributions of its major artists. Emphasis is placed on the development of discriminating listening habits, as well as the investigation of the styles and structural forms of the jazz idiom. Upon completion, students should be able to demonstrate skills in listening and understanding this form of American music. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14]* (S13646)

		Class	Lab	Clinical	Credits
<b>MUS 113*</b>	<b>American Music</b>	3	0	0	3
Prerequisites: None					
Corequisites: None					

This course introduces various musical styles, influences, and composers of the United States from pre-Colonial times to the present. Emphasis is placed on the broad variety of music particular to American culture. Upon completion, students should be able to demonstrate skills in basic listening and understanding of American music. (S13699)

<b>MUS 114*</b>	<b>Non-Western Music</b>	3	0	0	3
Prerequisites: None					
Corequisites: None					

This course provides a basic survey of the music of the non-Western world. Emphasis is placed on non-traditional instruments, sources, and performing practices. Upon completion, students should be able to demonstrate skills in basic listening and understanding of the art of non-Western music. (S13659)

<b>MUS 121*</b>	<b>Music Theory I</b>	3	2	0	4
Prerequisites: None					
Corequisites: None					

This course provides an in-depth introduction to melody, rhythm, and harmony. Emphasis is placed on fundamental melodic, rhythmic, and harmonic analysis, introduction to part writing, ear-training, and sight-singing. Upon completion, students should be able to demonstrate proficiency in the recognition and application of the above. (S12074)

<b>MUS 122*</b>	<b>Music Theory II</b>	3	2	0	4
Prerequisites: Take MUS 121					
Corequisites: None					

This course is a continuation of studies begun in MUS 121. Emphasis is placed on advanced melodic, rhythmic, and harmonic analysis and continued studies in part-writing, ear-training, and sight-singing. Upon completion, students should be able to demonstrate proficiency in the recognition and application of the above. (S12005)

<b>MUS 123*</b>	<b>Music Composition</b>	0	2	0	1
Prerequisites: Take one: MUS 111 or MUS 121					
Corequisites: None					

This course provides a study of elementary forms and traditional approaches to the organization of melody, harmony, rhythm, etc. in musical composition. Emphasis is placed on using musical notation to create new musical works. (S12023)

<b>MUS 131*</b>	<b>Chorus I</b>	0	2	0	1
Prerequisites: None					
Corequisites: None					

This course provides an opportunity to gain experience singing in a chorus. Emphasis is placed on vocal techniques and the study and performance of a variety of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance. (S14027)

Courses designate with an asterisk (\*) are college transfer courses. Courses designate with an asterisk and u (\*) are UGETC courses. Check with your senior institution to ensure the course will be appropriate for your program at that institution

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>MUS 132* Chorus II</b>	0	2	0	1
Prerequisites: Take MUS 131				
Corequisites: None				

This course provides a continuation of studies begun in MUS 131. Emphasis is placed on vocal techniques and the study and performance of a variety of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance. (S13988)

<b>MUS 133* Band I</b>	0	2	0	1
Prerequisites: None				
Corequisites: None				

This course provides an opportunity for those who play a band instrument to gain experience playing in an ensemble. Emphasis is placed on band techniques and the study and performance of a variety of styles and periods of band literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. (S14035)

<b>MUS 134* Band II</b>	0	2	0	1
Prerequisites: Take MUS 133				
Corequisites: None				

This course is a continuation of MUS 133. Emphasis is placed on band techniques and the study and performance of a variety of styles and periods of band literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. (S14007)

<b>MUS 135* Jazz Ensemble I</b>	0	2	0	1
Prerequisites: None				
Corequisites: None				

This course provides an opportunity for those who play an appropriate instrument to gain experience playing in a jazz ensemble. Emphasis is placed on jazz ensemble techniques and the study and performance of a variety of styles of jazz literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. (S14021)

<b>MUS 136* Jazz Ensemble II</b>	0	2	0	1
Prerequisites: Take MUS 135				
Corequisites: None				

This course is a continuation of MUS 135. Emphasis is placed on jazz ensemble techniques and the study and performance of a variety of styles and periods of jazz literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. (S13994)

	Class	Lab	Clinical	Credits
<b>MUS 137* Orchestra I</b>	0	2	0	1
Prerequisites: None				
Corequisites: None				

This course provides an opportunity for those who play an orchestral instrument to gain experience playing in an ensemble. Emphasis is placed on orchestral techniques and the study and performance of a variety of styles and periods of orchestral and string ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. (S14040)

<b>MUS 138* Orchestra II</b>	0	2	0	1
Prerequisites: Take MUS 137				
Corequisites: None				

This course is a continuation of MUS 137. Emphasis is placed on orchestral techniques and the study and performance of a variety of styles and periods of orchestral and string ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. (S14006)

<b>MUS 141* Ensemble I</b>	0	2	0	1
Prerequisites: None				
Corequisites: None				

This course provides an opportunity to perform in any combination of instrumental, vocal, or keyboard groups of two or more. Emphasis is placed on the development of performance skills and the study of a variety of styles and periods of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. (S13366)

<b>MUS 142* Ensemble II</b>	0	2	0	1
Prerequisites: Take MUS 141				
Corequisites: None				

This course is a continuation of MUS 141. Emphasis is placed on the development of performance skills and the study of a variety of styles and periods of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. (S13271)

<b>MUS 151* Class Music I</b>	0	2	0	1
Prerequisites: None				
Corequisites: None				

This course provides group instruction in skills and techniques of the particular instrument or voice for those with little or no previous experience. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. (S13815)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
--	-------	-----	----------	---------

### MUS 152\* Class Music II

0 2 0 1

Prerequisites: Take MUS 151

Corequisites: None

This course is a continuation of MUS 151. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. (S13794)

### MUS 161\* Applied Music I

1 2 0 2

Prerequisites: None

Corequisites: None

This course provides individual instruction in the skills and techniques of the particular instrument or voice. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. (S16445)

### MUS 162\* Applied Music II

1 2 0 2

Prerequisites: Take MUS 161

Corequisites: None

This course is a continuation of MUS 161. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. (S16446)

### MUS 170\* Business of Music

3 0 0 3

Prerequisites: None

Corequisites: None

This course introduces the basic elements of the music business. Topics include copyright law, musical arrangements and abridgements, recording and songwriting contracts, agents and managers, performing rights organizations, and the musician's union. Upon completion, students should be able to demonstrate an understanding of the basic elements of the music business. (S14169)

### MUS 210\* History of Rock Music

3 0 0 3

Prerequisites: None

Corequisites: None

This course is a survey of Rock music from the early 1950's to the present. Emphasis is placed on musical groups, soloists, and styles related to the evolution of this idiom and on related historical and social events. Upon completion, students should be able to identify specific styles and to explain the influence of selected performers within their respective eras. (S20297)

	Class	Lab	Clinical	Credits
--	-------	-----	----------	---------

### MUS 211\* History of Country Music

3 0 0 3

Prerequisites: None

Corequisites: None

This course introduces the varied origins of country music and the commercialization of this art form. Emphasis is placed on historical, sociocultural, and stylistic factors related to country music and musicians. Upon completion, students should be able to identify specific styles and explain the influence of pop culture on the development of country music. (S13954)

### MUS 212\* American Musical Theatre

3 0 0 3

Prerequisites: None

Corequisites: None

This course covers the origins and development of the musical from Show Boat to the present. Emphasis is placed on the investigation of the structure of the musical and its components through listening and analysis. Upon completion, students should be able to demonstrate skills in listening and understanding this form of American music. (S10054)

### MUS 213\* Opera and Musical Theatre

3 0 0 3

Prerequisites: None

Corequisites: None

This course covers the origins and development of opera and musical theatre from the works of Claudio Monteverdi to the present. Emphasis is placed on how the structure and components of opera and musicals effect dramaturgy through listening examples and analysis. Upon completion, students should be able to demonstrate analytical and listening skills in understanding both opera and the musical. (S13978)

### MUS 214\* Electronic Music I

1 2 0 2

Prerequisites: Take MUS 111

Corequisites: None

This course provides an opportunity to study and explore various electronic instruments and devices. Emphasis is placed on fundamental MIDI applications and implementation, features and application of sequences, sound modules, and digital keyboards. Upon completion, students should be able to demonstrate proficiency by creation of appropriate musical projects using the equipment and techniques covered. (S13938)

### MUS 215\* Electronic Music II

1 2 0 2

Prerequisites: Take MUS 214

Corequisites: None

This course is a continuation of MUS 214. Emphasis is placed on advanced MIDI applications and implementation and continued work with sequencers, sound modules, and digital keyboards. Upon completion, students should be able to demonstrate proficiency by creation of appropriate musical projects using the equipment and techniques covered. (S13959)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>MUS 221* Music Theory III</b>	3	2	0	4

Prerequisites: Take MUS 122  
Corequisites: None

This course is a continuation of MUS 122. Emphasis is placed on altered and chromatic harmony, common practice era compositional techniques and forms, and continued studies in part-writing, ear-training, and sight-singing. Upon completion, students should be able to demonstrate proficiency in the recognition and application of the above. (S13402)

<b>MUS 222* Music Theory IV</b>	3	2	0	4
---------------------------------	---	---	---	---

Prerequisites: Take MUS 221  
Corequisites: None

This course is a continuation of studies begun in MUS 221. Emphasis is placed on continued study of common practice era compositional techniques and forms, 20th century practices, ear-training, and sight-singing. Upon completion, students should be able to demonstrate proficiency in the recognition and application of the above. (S13451)

<b>MUS 231* Chorus III</b>	0	2	0	1
----------------------------	---	---	---	---

Prerequisites: Take MUS 132  
Corequisites: None

This course is a continuation of MUS 132. Emphasis is placed on vocal techniques and the study and performance of a variety of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance. (S13853)

<b>MUS 232* Chorus IV</b>	0	2	0	1
---------------------------	---	---	---	---

Prerequisites: Take MUS 231  
Corequisites: None

This course is a continuation of MUS 231. Emphasis is placed on vocal techniques and the study of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance. (S13907)

<b>MUS 233* Band III</b>	0	2	0	1
--------------------------	---	---	---	---

Prerequisites: Take MUS 234  
Corequisites: None

This course is a continuation of MUS 134. Emphasis is placed on band techniques and the study and performance of a variety of styles and periods of band literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. (S13863)

	Class	Lab	Clinical	Credits
<b>MUS 234* Band IV</b>	0	2	0	1

Prerequisites: Take MUS 234  
Corequisites: None

This course is a continuation of MUS 233. Emphasis is placed on band techniques and the study and performance of a variety of styles and periods of band literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. (S13893)

<b>MUS 235* Jazz Ensemble III</b>	0	2	0	1
-----------------------------------	---	---	---	---

Prerequisites: Take MUS 136  
Corequisites: None

This course is a continuation of MUS 136. Emphasis is placed on jazz ensemble techniques and the study and performance of a variety of styles and periods of jazz literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. (S13840)

<b>MUS 236* Jazz Ensemble IV</b>	0	2	0	1
----------------------------------	---	---	---	---

Prerequisites: Take MUS 235  
Corequisites: None

This course is a continuation of MUS 235. Emphasis is placed on jazz ensemble techniques and the study and performance of a variety of styles and periods of jazz literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. (S13896)

<b>MUS 237* Orchestra III</b>	0	2	0	1
-------------------------------	---	---	---	---

Prerequisites: Take MUS 138  
Corequisites: None

This course is a continuation of MUS 138. Emphasis is placed on orchestral techniques and the study and performance of a variety of styles and periods of orchestral and string ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. (S13868)

<b>MUS 238* Orchestra IV</b>	0	2	0	1
------------------------------	---	---	---	---

Prerequisites: Take MUS 237  
Corequisites: None

This course is a continuation of MUS 237. Emphasis is placed on orchestral techniques and the study and performance of a variety of styles and periods of orchestral and string ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. (S138787)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
--	-------	-----	----------	---------

### MUS 241\* Ensemble III

0 2 0 1

Prerequisites: Take MUS 142

Corequisites: None

This course is a continuation of MUS 142. Emphasis is placed on the development of performance skills and the study of a variety of styles and periods of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. ( )

### MUS 242\* Ensemble IV

0 2 0 1

Prerequisites: Take MUS 241

Corequisites: None

This course is a continuation of MUS 241. Emphasis is placed on the development of performance skills and the study of styles of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. (S11736)

### MUS 251\* Class Music III

0 2 0 1

Prerequisites: Take MUS 152

Corequisites: None

This course is a continuation of MUS 152. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. (S14199)

### MUS 252\* Class Music IV

0 2 0 1

Prerequisites: Take MUS 251

Corequisites: None

This course is a continuation of MUS 251. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. (S14260)

### MUS 253\* Big Band

0 2 0 1

Prerequisites: None

Corequisites: None

This course includes the Big Band instrumentation of five saxes, four trumpets, four trombones, and four-piece rhythm section (bass, piano, drums, and guitar). Emphasis is placed on learning the repertoire specifically written for Big Band instrumentation. Upon completion, students should be able to demonstrate skills needed to participate in performance of Big Band music. (S14231)

### MUS 260\* Introduction to Music Education

2 0 0 2

Prerequisites: Take MUS 121

Corequisites: None

This course provides an introduction to the music education profession. Emphasis is placed on creating successful music learning environments and the role of the music educator. Upon completion, students should be able to demonstrate knowledge and skills related to the philosophy and methods of teaching music. (S24336)

Class Lab Clinical Credits

### MUS 261\* Applied Music III

1 2 0 2

Prerequisites: Take MUS 162

Corequisites: None

This course is a continuation of MUS 162. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. (S16449)

### MUS 262\* Applied Music IV

1 2 0 2

Prerequisites: Take MUS 261

Corequisites: None

This course is a continuation of MUS 261. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. (S16450)

Class Lab Clinical Credits

# NAS 101 – NUT 110

**NAS 101 Nurse Aide I** 3 4 3 6

Prerequisites: None

Corequisites: None

Restrictions: Must be enrolled in at least:

Nurse Aide (Dipl) program – D45970

Nurse Aide (Cert) program – C45840

Phlebotomy (Dipl) program – D45950

This course includes basic nursing skills required to provide safe, competent personal care for individuals. Emphasis is placed on person-centered care, the aging process, communication, safety/emergencies, infection prevention, legal and ethical issues, vital signs, height and weight measurements, elimination, nutrition, basic restorative care/rehabilitation, dementia, mental health and end-of-life care. Upon completion, students should be able to demonstrate knowledge and skills and be eligible to test for listing on the North Carolina Nurse Aide I Registry. (S24247)

**NAS 102 Nurse Aide II** 3 2 6 6

Prerequisites: Take NAS 101

Corequisites: None

Restrictions: Must be enrolled in at least:

Nurse Aide (Dipl) program – D45970

Nurse Aide (Cert) program – C45840

This course provides training in Nurse Aide II tasks. Emphasis is placed on the role of the Nurse Aide II, sterile technique and specific tasks such as urinary catheterization, wound care, respiratory procedures, ostomy care, peripheral IV assistive activities, and alternative feeding methods. Upon completion, students should be able to demonstrate knowledge and skills and safe performance of skills necessary to be eligible for listing on the North Carolina Nurse Aide II Registry. (S24248)

**NAS 103 Home Health Care Nurse Aide** 4 4 0 6

Prerequisites: Take NAS 101

Corequisites: None

Restrictions: Must be enrolled in at least:

Nurse Aide (Dipl) program – D45970

Nurse Aide (Cert) program – C45840

This course provides advanced training for the currently listed Nurse Aide I enhancing specific skills needed when working in the home care setting. Topics include person-centered care, nutrition, hydration, patient and personal safety, mental health, dementia, behavioral challenges, pain management, palliative care, and stress management. Upon completion, students are eligible for listing as a home care nurse aide with the North Carolina Nurse Aide Registry. (S24249)

Class Lab Clinical Credits

**NET 110 Networking Concepts** 2 2 0 3

Prerequisites: None

Corequisites: None

This course introduces students to the networking field. Topics include network terminology and protocols, local-area networks, wide-area networks, OSI model, cabling, router programming, Ethernet, IP addressing, and network standards. Upon completion, students should be able to perform tasks related to networking mathematics, terminology, and models, media, Ethernet, subnetting, and TCP/IP Protocols. (S21056)

**NET 111 Internetwork Architecture & Design** 2 2 0 3

Prerequisites: Take one: CIS 282 or NET 110

Corequisites: None

This course introduces the physical and logical design of local area networks, wide area networks, and networking devices used in the design implementation and integration. Topics include LAN segmentation, VLANs, IP addressing, router, switch, and server placement with an emphasis on design. Upon completion, students should be able to understand fundamental LAN and WAN design and the physical and logical aspects needed to achieve the design goal. (S21057)

**NET 116 Fundamentals of Voice/Data Cable** 2 2 0 3

Prerequisites: Take one: CIS 110 or CIS 111 or CTS 125

Corequisites: None

This introductory course to voice and data cabling focuses on cabling issues related to data and voice connections. Topics include skills in design documentation, determining cabling equipment, pulling, mounting and managing cable, selecting wiring closets, terminating cable, installing jacks, and testing cable. Upon completion, students should be able to understand of the industry, media and cabling, physical and logical networks, and signal transmission. (S21423)

**NET 125 Introduction to Networks** 1 4 0 3

Prerequisites: None

Corequisites: None

This course introduces the architecture, structure, functions, components, and models of the Internet and computer networks. Topics include introduction to the principles of IP addressing and fundamentals of Ethernet concepts, media, and operations. Upon completion, students should be able to build simple LANs, perform basic configurations for routers and switches, and implement IP addressing schemes. (S24501)

## CAPE FEAR COMMUNITY COLLEGE

**NET 126 Routing Basics** Class 1 Lab 4 Clinical 0 Credits 3

Prerequisites: Take NET 125

Corequisites: None

This course focuses on initial router configuration, router software management, routing protocol configuration, TCP/IP, and access control lists (ACLs). Emphasis will be placed on the fundamentals of router configuration, managing router software, routing protocol, and access lists. Upon completion, students should have an understanding of routers and their role in WANs, router configuration, routing protocols, TCP/IP, troubleshooting, and ACLs. (S24393)

**NET 225 Routing & Switching I** Class 1 Lab 4 Clinical 0 Credits 3

Prerequisites: None

Corequisites: None

This course focuses on advanced IP addressing techniques, intermediate routing protocols, command-line interface configuration of switches, Ethernet switching, VLANs, STP, and VTP. Emphasis will be placed on application and demonstration of skills acquired in pre-requisite courses. Upon completion, students should be able to perform tasks related to VLSM, routing protocols, switching concepts and configuration, STP, VLANs, and VTP. (S24385)

**NET 226 Routing & Switching II** Class 1 Lab 4 Clinical 0 Credits 3

Prerequisites: None

Corequisites: None

This course introduces WAN theory and design, WAN technology, PPP, Frame Relay, ISDN, and additional case studies. Topics include network congestion problems, TCP/IP transport and network layer protocols, advanced routing and switching configuration, ISDN protocols, PPP encapsulation operations on a router. Upon completion, students should be able to provide solutions for network routing problems, identify ISDN protocols, and describe the Spanning Tree protocol. (S24386)

**NOS 110 Operating System Concepts** Class 2 Lab 3 Clinical 0 Credits 3

Prerequisites: None

Corequisites: Take one: CIS 110 or CIS 111

This course introduces students to a broad range of operating system concepts, including installation and maintenance. Emphasis is placed on operating system concepts, management, maintenance, and resources required. Upon completion of this course, students will have an understanding of OS concepts, installation, management, maintenance, using a variety of operating systems. (S20980)

**NOS 130 Windows Single User** Class 2 Lab 2 Clinical 0 Credits 3

Prerequisites: Take one: CET 211 or CTI 130 or NOS 110

Corequisites: None

This course introduces operating system concepts for single-user systems. Topics include hardware management, file and memory management, system configuration/optimization, and utilities. Upon completion, students should be able to perform operating system functions at the support level in a single-user environment. (S24049)

**NOS 230 Windows Administration I** Class 2 Lab 2 Clinical 0 Credits 3

Prerequisites: Take NOS 130

Corequisites: None

This course covers the installation and configuration of a Windows Server operating system. Emphasis is placed on the basic configuration of core network services, Active Directory and group policies. Upon completion, students should be able to install and configure a Windows Server operating system. (S24041)

**NUC 110 Nuclear Reactor Systems** Class 3 Lab 0 Clinical 0 Credits 3

Prerequisites: None

Corequisites: None

This course provides an introduction to nuclear power plants. Topics include the description and function of each major component of the primary and secondary systems. Upon completion, students should be able to demonstrate a working knowledge of major nuclear energy power systems and processes including their application during refueling operations. (S23252)

**NUC 120 Nuclear Reactor Theory** Class 4 Lab 0 Clinical 0 Credits 4

Prerequisites: Take one set:

Set 1: ENG 111 and MAT 122

Set 2: ENG 111 and MAT

Corequisites: Take NUC 110

This course covers the fundamental operating theory of nuclear reactors used by electric utilities. Topics include nuclear fission, radioactivity, radiation, reactivity effects from control rods, fission products, and the burnable poisons created during reactor steady-state and transient operations. Upon completion, students should be able to demonstrate a working knowledge of the neutron life cycle, reactor kinetics, reactivity coefficients, and the effects from xenon. **\*\*This is a Spring Only Class\*\*** (S23253)

**NUC 130 Applied NDE-Nuclear** Class 1 Lab 2 Clinical 0 Credits 2

Prerequisites: Take one: DRE 097 ENG 095 or

ENG 111 or RED 090

Take one: MAT 121 and MAT 171

Corequisites: None

This course introduces the principles of nondestructive examination (NDE) of the quality of stainless steel pipe, reactor vessel, and nozzle welds. Topics include practical applications of visual inspection along with dye penetrant, magnetic particle, ultrasonic, and radiographic testing, of acceptable and unacceptable welds. Upon completion, students should be able to select and apply the proper testing method to detect surface and subsurface flaws. (S22454)

Courses designate with an asterisk (\*) are college transfer courses. Courses designate with an asterisk and u (\*\*) are UGETC courses.

Check with your senior institution to ensure the course will be appropriate for your program at that institution

## COURSE DESCRIPTIONS

		Class	Lab	Clinical	Credits
<b>NUC 210</b>	<b>Nuclear Steam Plant Systems</b>	3	2	0	4

Prerequisites: Take NUC 110 and NUC 120  
Corequisites: None

This course provides the student with detailed knowledge of the secondary systems in a nuclear power plant, their interface with the primary systems, and the operation and control of these components and systems. Topics include steam generators, main steam systems, condensate and feed water systems, main turbines, main generators and support, control systems, and plant auxiliary systems. Upon completion, students should be able to describe nuclear plant secondary systems, functioning of components, the interactions between the systems parts, the interactions between the various secondary systems, and the interactions between the secondary and primary systems and the control of these systems. (S23259)

<b>NUC 220</b>	<b>Nuclear Primary Plant Systems</b>	3	2	0	4
----------------	--------------------------------------	---	---	---	---

Prerequisites: Take NUC110 and NUC 120  
Corequisites: None

This course provides the student with detailed knowledge of the primary systems in a nuclear power plant and their interface with the secondary systems and the operation and control of these components and systems. Topics include containment systems, radiation protection systems including components and testing devices, primary systems such as the reactor, reactor vessel, reactor coolant, and reactor coolant pumps, system pressure and water level controls, and refueling systems and reactor safety systems. Upon completion, students should be able to describe nuclear plant primary systems, functioning of components, the interactions between the systems parts, the interactions between the various secondary systems, and the interactions between the secondary and primary systems and the control of these systems. (S23262)

<b>NUR 101</b>	<b>Practical Nursing I</b>	7	6	6	11
----------------	----------------------------	---	---	---	----

Prerequisites: None  
Corequisites: Take BIO 163 and PSY 150  
Restrictions: Must be enrolled in D45660  
Practical Nursing program

This course introduces the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts within each domain including assessment, clinical decision-making, professional behaviors, caring interventions, biophysical and psychosocial concepts, communication, collaboration, teaching/learning, safety, ethical principles, legal issues, informatics, and evidence-based practice. Upon completion, students should be able to provide safe nursing care across the lifespan incorporating the concepts identified in this course. (S24252)

		Class	Lab	Clinical	Credits
<b>NUR 102</b>	<b>Practical Nursing II</b>	7	0	9	10

Prerequisites: Take NUR 101  
Corequisites: Take ENG 111 and PSY 241  
Restrictions: Must be enrolled in D45660  
Practical Nursing program

This course is designed to further develop the concepts within the three domains of the individual, nursing, and healthcare. Emphasis is placed on the concepts within each domain including clinical decision-making, caring interventions, biophysical and psychosocial concepts, communication, collaboration, teaching and learning, accountability, safety, informatics, and evidence-based practice. Upon completion, students should be able to provide safe nursing care across the lifespan incorporating the concepts identified in this course. (S24253)

<b>NUR 103</b>	<b>Practical Nursing III</b>	6	0	9	9
----------------	------------------------------	---	---	---	---

Prerequisites: Take NUR 101  
Corequisites: None  
Restrictions: Must be enrolled in D45660  
Practical Nursing program

This course is designed to assimilate the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on biophysical and psychosocial concepts, professional behaviors, healthcare systems, health policy, and quality improvement. Upon completion, students should be able to demonstrate the knowledge, skills, and attitudes necessary to provide safe, quality, and individualized entry-level nursing care. (S24254)

<b>NUR 111</b>	<b>Intro to Health Concepts</b>	4	6	6	8
----------------	---------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: Take BIO 168 and PSY 150  
Restrictions: Must be enrolled in A45110  
Associate Degree Nursing program

This course introduces the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts within each domain including medication administration, assessment, nutrition, ethics, interdisciplinary teams, informatics, evidence-based practice, individual-centered care, and quality improvement. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course. (S22213)

<b>NUR 112</b>	<b>Health-Illness Concepts</b>	3	0	6	5
----------------	--------------------------------	---	---	---	---

Prerequisites: Take BIO 168 and NUR 111 and PSY 150  
Corequisites: Take BIO 169 and PSY 241  
Restrictions: Must be enrolled in A45110  
Associate Degree Nursing program

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of acid-base, metabolism, cellular regulation, oxygenation, infection, stress/coping, health-wellness-illness, communication, caring interventions, managing care, safety, quality improvement, and informatics. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course. (S22212)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>NUR 113 Family Health Concepts</b>	3	0	6	5

Prerequisites: Take BIO 169 and NUR 111 and NUR 114 and PSY 241

Corequisites: Take CIS 111 or CIS 110

Restrictions: Must be enrolled in A45110  
Associate Degree Nursing program

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of oxygenation, sexuality, reproduction, grief/loss, mood/affect, behaviors, development, family, health-wellness-illness, communication, caring interventions, managing care, safety, and advocacy. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course. (S22214)

<b>NUR 114 Holistic Health Concepts</b>	3	0	6	5
---	---	---	---	---

Prerequisites: Take NUR 111 and NUR 112

Corequisites: Take BIO 169 and PSY 241

Restrictions: Must be enrolled in A45110  
Associate Degree Nursing program

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, inflammation, sensory perception, stress/coping, mood/affect, cognition, self, violence, health-wellness-illness, professional behaviors, caring interventions, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course. (S22215)

<b>NUR 211 Health Care Concepts</b>	3	0	6	5
-------------------------------------	---	---	---	---

Prerequisites: Take NUR 111 and NUR 113

Corequisites: Take BIO 175 and ENG 111

Restrictions: Must be enrolled in A45110  
Associate Degree Nursing program

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, infection, immunity, mobility, comfort, behaviors, health-wellness-illness, clinical decision-making, caring interventions, managing care, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course. (S22216)

<b>NUR 212 Health System Concepts</b>	3	0	6	5
---------------------------------------	---	---	---	---

Prerequisites: Take NUR 111 and NUR 211

Corequisites: Take BIO 175 and ENG 111

Restrictions: Must be enrolled in A45110  
Associate Degree Nursing program

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of grief/loss, violence, health-wellness-illness, collaboration, managing care, safety, advocacy, legal issues, policy, healthcare systems, ethics, accountability, and evidence-based practice. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course. (S22217)

	Class	Lab	Clinical	Credits
<b>NUR 213 Complex Health Concepts</b>	4	3	15	10

Prerequisites: Take ENG 111 and NUR 111

Corequisites: Take one set:  
Set 1: ENG 114, NUR 112, NUR 113, NUR 114, NUR 211, and NUR 212  
Set 2: ENG 112, NUR 112, NUR 113, NUR 114, NUR 211, and NUR 212

Restrictions: Must be enrolled in A45110  
Associate Degree Nursing program

This course is designed to assimilate the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of fluid/electrolytes, metabolism, perfusion, mobility, stress/coping, violence, health-wellness-illness, professional behaviors, caring interventions, managing care, healthcare systems, and quality improvement. Upon completion, students should be able to demonstrate the knowledge, skills, and attitudes necessary to provide quality, individualized, entry-level nursing care. (S23071)

<b>NUT 110 Nutrition</b>	3	0	0	3
--------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course covers basic principles of nutrition and their relationship to human health. Topics include meeting nutritional needs of healthy people, menu modification based on special dietary needs, food habits, and contemporary problems associated with nutrition. Upon completion, students should be able to apply basic nutritional concepts as they relate to health and wellbeing. (S16468)

Class Lab Clinical Credits

# OMT 156 – OTA 280

**OMT 156 Problem-Solving Skills** 3 0 0 3

Prerequisites: None

Corequisites: None

This course provides a foundation for creating constructive relationships and presents the processes behind problem solving for groups and individuals. Emphasis is placed on building constructive relationships, confronting issues, winning support, and the basic processes of problem solving. Upon completion, students should be able to enhance relationships with others and apply a systematic approach to problem solving. (S12579)

**OST 131 Keyboarding** 1 2 0 2

Prerequisites: None

Corequisites: None

This course covers basic keyboarding skills. Emphasis is placed on the touch system, correct techniques, and development of speed and accuracy. Upon completion, students should be able to key at an acceptable speed and accuracy level using the touch system. (S13790)

**OST 136 Word Processing** 2 2 0 3

Prerequisites: Take one: CIS 110 or CIS 111 or OST 131

Corequisites: None

This course is designed to introduce word processing concepts and applications. Topics include preparation of a variety of documents and mastery of specialized software functions. Upon completion, students should be able to work effectively in a computerized word processing environment. (S22144)

**OST 148 Medical Insurance and Billing** 3 0 0 3

Prerequisites: Take OST 248

Corequisites: None

This course introduces fundamentals of medical insurance and billing. Emphasis is placed on the medical billing cycle to include third party payers, coding concepts, and form preparation. Upon completion, students should be able to explain the life cycle of and accurately complete a medical insurance claim. (S24693)

Class Lab Clinical Credits

**OST 149 Medical Legal Issues** 3 0 0 3

Prerequisites: None

Corequisites: None

This course introduces the complex legal, moral, and ethical issues involved in providing health-care services. Emphasis is placed on the legal requirements of medical practices; the relationship of physician, patient, and office personnel; professional liabilities; and medical practice liability. Upon completion, students should be able to demonstrate a working knowledge of current medical law and accepted ethical behavior. (S10679)

**OST 164 Office Editing** 3 0 0 3

Prerequisites: Take one set:

Set 1: ENG 090 and RED 090

Set 2: ENG 098

Set 3: DRE 098

Corequisites: Take ENG 111

This course provides a comprehensive study of editing skills needed in the workplace. Emphasis is placed on grammar, punctuation, sentence structure, proofreading, and editing. Upon completion, students should be able to use reference materials to compose and edit text. (S24696)

**OST 241 Medical Office Transcription I** 1 2 0 2

Prerequisites: Take one set:

Set 1: BIO 163, MED 121, MED 122, OST 136, and OST 164

Set 2: BIO 168, MED 122, OST 136, OST 141, and OST 164

Set 3: BIO 168, MED 121, MED 122, OST 136, and OST 164

Set 4: BIO 163, MED 122, OST 136, OST 141, and OST 164

Corequisites: None

This course introduces machine transcription techniques as applied to medical documents. Emphasis is placed on accurate transcription, proofreading, and use of reference materials as well as vocabulary building. Upon completion, students should be able to prepare accurate and usable transcripts of voice recordings in the covered specialties. (S12641)

**OST 242 Medical Office Transcription II** 1 2 0 2

Prerequisites: Take OST 241

Corequisites: None

This course continues building transcription techniques as applied to medical documents. Emphasis is placed on accurate transcription and text editing, efficient use of reference materials, increasing transcription speed and accuracy, and improving understanding of medical terminology. Upon completion, students should be able to display competency in accurately transcribing medical documents. (S22157)

## CAPE FEAR COMMUNITY COLLEGE

		Class	Lab	Clinical	Credits
<b>OST 243</b>	<b>Medical Office Simulation</b>	2	2	0	3

Prerequisites: Take OST 131 and OST 148  
Corequisites: None

This course introduces medical systems used to process information in the automated office. Topics include traditional and electronic information resources, storing and retrieving information, and the billing cycle. Upon completion, students should be able to use the computer accurately to schedule, bill, update, and make corrections. (S12315)

<b>OST 247</b>	<b>Procedure Coding</b>	2	2	0	3
----------------	-------------------------	---	---	---	---

Prerequisites: Take one set:  
Set 1: MED 121 and MED 122  
Set 2: OST 141 and OST 142  
Corequisites: None

This course provides in-depth coverage of procedural coding. Emphasis is placed on CPT and HCPCS coding systems. Upon completion, students should be able to properly code procedures and services performed in a medical facility. (S24704)

<b>OST 248</b>	<b>Diagnostic Coding</b>	2	2	0	3
----------------	--------------------------	---	---	---	---

Prerequisites: Take one set:  
Set 1: MED 121 and MED 122  
Set 2: OST 141 and OST 142  
Corequisites: None

This course provides an in-depth study of diagnostic coding. Emphasis is placed on ICD coding system. Upon completion, students should be able to properly code diagnoses in a medical facility. (S24705)

<b>OST 249</b>	<b>Medical Coding Certification Preparation</b>	2	3	0	3
----------------	---	---	---	---	---

Prerequisites: Take OST 247 and OST 248  
Corequisites: None

This course provides instruction that will prepare students to sit for a national coding certification exam. Topics include diagnostic and procedural coding. Upon completion, students should be able to sit for various medical coding certification exams. (S24706)

<b>OST 260</b>	<b>Advanced Coding Methodologies</b>	2	2	0	3
----------------	--------------------------------------	---	---	---	---

Prerequisites: Take OST 247 and OST 248  
Corequisites: None

This course provides advanced instruction in a variety of emergent methodologies in medical coding. Topics include advanced outpatient coding, inpatient coding, risk adjustment coding, online encoder software, Correct Coding Initiatives (CCI), and advanced record abstraction. Upon completion, students should be able to perform advanced coding in a healthcare facility. (S24668)

		Class	Lab	Clinical	Credits
<b>OST 280</b>	<b>Electronic Health Records</b>	2	2	0	3

Prerequisites: Take one: CIS 110 or CIS 111 or OST 137  
Corequisites: None

This course focuses on the use of electronic health records in medical documentation and patient management. Emphasis is placed on creating and maintaining patient medical information, scheduling patient appointments, documenting patient encounters, and billing/insurance claim processing. Upon completion, students should be able to perform the required software tasks following a patient visit from start to finish. (S24673)

<b>OST 288</b>	<b>Medical Office Administration Capstone</b>	2	2	0	3
----------------	---	---	---	---	---

Prerequisites: Take one: OST 148 or HMT 210  
Corequisites: None

This course is designed to be a capstone course for the medical office professional and provides a working knowledge of medical office procedures. Emphasis is placed on written and oral communication skills, practice management, electronic health records, medical office procedures, ethics, and professional development. Upon completion, students should be able to demonstrate the skills necessary to manage a medical office. (S24674)

<b>OST 289</b>	<b>Administrative Office Management</b>	2	2	0	3
----------------	---	---	---	---	---

Prerequisites: Take one set:  
Set 1: OST 134, OST 148, and OST 164  
Set 2: OST 136, OST 148, and OST 164  
Corequisites: None

This course is designed to be a capstone course for the office professional and provides a working knowledge of modern office procedures. Emphasis is placed on scheduling, telephone procedures, travel arrangements, event planning, office design, and ergonomics. Upon completion, students should be able to adapt in an office environment. (S22162)

<b>OTA 110</b>	<b>Fundamentals of OT</b>	2	3	0	3
----------------	---------------------------	---	---	---	---

Prerequisites: None  
Corequisites: Take one set:  
Set 1: BIO 165, OTA 120, and OTA 140  
Set 2: BIO 168, OTA 120, and OTA 140  
Restrictions: Must be enrolled in A45500 Occupational Therapy Assistant

This course introduces occupational therapy (OT) theory, practice, philosophy, and principles. Emphasis is placed on providing a basic understanding of the profession as well as beginning to develop interaction and observation skills. Upon completion, students should be able to demonstrate basic understanding of the domain and practice of occupational therapy, practice settings and professional roles, OT terminology, activity analysis, principles, process, philosophies, and frames of reference. (S24624)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>OTA 120 OT Media I 1</b>	3	0	2	
Prerequisites: None				
Corequisites: Take OTA 110 and OTA 140				
Restrictions: Must be enrolled in A45500 Occupational Therapy Assistant program				

This course provides training in recognizing the therapeutic value and use of a wide variety of human occupations including basic activities of daily living, instrumental activities of daily living, rest and sleep, education, work, play, leisure, and social participation. Topics include the understanding of different teaching and learning methods and styles, the language of occupational therapy (OT), OT interventions including preparatory methods and tasks, and restorative and compensatory techniques. Upon completion, students should be able to analyze, design, select, and safely perform occupation related activities that would be therapeutic for various populations across the lifespan. (S24625)

<b>OTA 130 Assessment Skills</b>	2	3	0	3
Prerequisites: Take OTA 120 and OTA 140				
Corequisites: Take OTA 110 and OTA 150 and OTA 161 and OTA 170				
Restrictions: Must be enrolled in A45500 Occupational Therapy Assistant program				

This course provides training in appropriate and accurate assessment skills related to sensation, movement, vision, perception, cognition, emotions, and performance of basic activities of daily living and instrumental activities of daily living. Topics include physical and psychosocial factors affecting performance; and sensory, range of motion, strength, coordination, cognitive, visual-perceptual, self-care, and work-related assessments. Upon completion, students should be able to gather and share data for the purpose of screening and evaluation, administer selected assessments using appropriate procedures and protocols, and articulate the role of the occupational therapy assistant and occupational therapist in the screening and evaluation process. (S24626)

<b>OTA 140 Professional Skills I</b>	0	3	0	1
Prerequisites: None				
Corequisites: Take OTA 110 and OTA 120				
Restrictions: Must be enrolled in A45500 Occupational Therapy Assistant program				

This course introduces the roles and responsibilities of the occupational therapy assistant (OTA) and the occupational therapist (OT) in occupational therapy practice and facilitates development of professional behaviors and skills. Topics include professional ethics, supervisory roles, responsibilities, and collaborative professional relationships; credentialing, certification, and licensure; documentation, which communicates the need and rationale for occupational therapy services; therapeutic use of self; and professional identity and professional behaviors; and observation skills. Upon completion, students should be able to demonstrate ethical behavior, discriminate between roles and responsibilities of the OTA and OT, and explain acceptable supervision and documentation. (S24628)

	Class	Lab	Clinical	Credits
<b>OTA 150 Pediatric Concepts and Interventions</b>	2	3	0	3
Prerequisites: Take OTA 110 and OTA 120 and OTA 140				
Corequisites: Take OTA 130 and OTA 161 and OTA 170 and PSY 241				
Restrictions: Must be enrolled in A45500 Occupational Therapy Assistant program				

This course provides knowledge and skills needed for working with children from birth through adolescence. Topics include review of normal growth and development, habituation of healthy habits/routines, the role of occupational therapy with caregivers/providers, understanding of common conditions and developmental delays; and the role of occupation in assessment, intervention planning and implementation with pediatric populations. Upon completion, students should be able to plan, implement, and modify appropriate interventions with children in their context and environment to promote engagement in occupation. (S24629)

<b>OTA 161 Fieldwork I- Placement 1</b>	0	0	3	1
Prerequisites: Take OTA 110 and OTA 120 and OTA 140				
Corequisites: Take OTA 150 and OTA 170				
Restrictions: Must be enrolled in A45500 Occupational Therapy Assistant program				

This course provides introductory-level clinical training opportunities. Emphasis is placed on observational and basic interactional skills in a setting with a culturally diverse client population. Upon completion, students should be able to use observational and interactional skills to relate effectively with clients under the guidance/direction of fieldwork supervisors. (S24530)

<b>OTA 162 Fieldwork I- Placement 2</b>	0	0	3	1
Prerequisites: Take OTA 120 and OTA 140 and OTA 150 and OTA 161 and OTA 170				
Corequisites: Take OTA 130 and OTA 220				
Restrictions: Must be enrolled in A45500 Occupational Therapy Assistant program				

This course provides introductory-level clinical training opportunities. Emphasis is placed on observational and basic interactional skills in a setting with a culturally diverse client population. Upon completion, students should be able to use observational and interactional skills to relate effectively with clients under the guidance/direction of fieldwork supervisors. (S13445)

## CAPE FEAR COMMUNITY COLLEGE

		Class	Lab	Clinical	Credits
<b>OTA 163</b>	<b>Fieldwork I- Placement 3</b>	0	0	3	1

Prerequisites: Take OTA 120 and OTA 140 and OTA 220  
 Corequisites: Take OTA 130, OTA 180, OTA 240, and OTA 250  
 Restrictions: Must be enrolled in A45500  
 Occupational Therapy Assistant program

This course provides introductory-level clinical training opportunities. Emphasis is placed on observational and basic interactional skills in a setting with a culturally diverse client population. Upon completion, students should be able to use observational and interactional skills to relate effectively with clients under the guidance/direction of fieldwork supervisors. (S13397)

<b>OTA 170</b>	<b>Physical Conditions</b>	2	3	0	3
----------------	----------------------------	---	---	---	---

Prerequisites: Take OTA 110 and OTA 120 and OTA 140  
 Corequisites: Take OTA 130 and OTA 150 and OTA 161  
 Restrictions: Must be enrolled in A45500  
 Occupational Therapy Assistant program

This course is designed to provide knowledge and skills needed for working with individuals experiencing various medical conditions to help them achieve participation in life through engagement in occupation. Topics include medical terminology, common conditions, body functions that change with disease processes, applicable theories and principles, assessment and intervention priorities for commonly treated conditions. Upon completion, students should be able to recognize common symptoms, prioritize mental, neuromusculoskeletal and movement related functional problems, while providing for patient safety within the patient's context and environment. (S24630)

<b>OTA 180</b>	<b>Psychosocial Conditions</b>	2	3	0	3
----------------	--------------------------------	---	---	---	---

Prerequisites: Take OTA 220 and PSY 281  
 Corequisites: Take OTA 130 and OTA 163 and OTA 240 and OTA 250  
 Restrictions: Must be enrolled in A45500  
 Occupational Therapy Assistant program

Topics include mental health conditions, applicable theories and principles, symptoms of dysfunction, assessment and treatment of individuals, planning and facilitating therapeutic groups, client safety, therapeutic use of self, and psychosocial aspects of practice. Upon completion, students should be able to effectively plan and conduct individual and group interventions for client conditions related to psychosocial dysfunction while recognizing contexts and environments that may also impact occupational performance. (S24631)

		Class	Lab	Clinical	Credits
<b>OTA 220</b>	<b>OT Media II</b>	1	6	0	3

Prerequisites: Take OTA 120 and OTA 130 and OTA 150 and OTA 161 and OTA 170  
 Corequisites: Take OTA 162  
 Restrictions: Must be enrolled in A45500  
 Occupational Therapy Assistant program

This course provides training in appropriate and accurate assessment and intervention skills related to orthotics, prosthetics, assistive devices, assistive technology, client mobility, and Americans with Disabilities Act (ADA) issues. Topics include ergonomics seating and positioning, community mobility, use of physical agent modalities, and technology in occupational therapy intervention. Upon completion, students should be able to demonstrate competency fabricating and utilizing orthotic and assistive devices, understanding ADA guidelines, and using technology for engagement in occupation. (S24632)

<b>OTA 240</b>	<b>Professional Skills II</b>	0	3	0	1
----------------	-------------------------------	---	---	---	---

Prerequisites: Take OTA 140 and OTA 220  
 Corequisites: Take OTA 163 and OTA 180 and OTA 250  
 Restrictions: Must be enrolled in A45500  
 Occupational Therapy Assistant program

This course covers professional development, supervisory relationships, involvement in the profession, and clinic management skills. Topics include clarification of roles and responsibilities, detailed examination of the supervisory process, participation in professional organizations, and the mechanics of assisting in clinic operations. Upon completion, students should be able to work effectively with a supervisor, plan and implement a professional activity, and perform routine clinic management tasks. (S24633)

<b>OTA 250</b>	<b>Adult Concepts &amp; Interventions</b>	2	3	0	3
----------------	---	---	---	---	---

Prerequisites: Take OTA 220  
 Corequisites: Take OTA 163 and OTA 170 and OTA 180 and OTA 240 and PSY 241  
 Restrictions: Must be enrolled in A45500  
 Occupational Therapy Assistant program

This course provides knowledge and skills needed for working with adults through the lifespan. Emphasis is placed on identification and discussion of common changes associated with aging, disabilities and chronic diseases affecting this population, assessments and intervention, including developing healthy habits and routines, and the impact on participation in occupation in various settings. Upon completion, students should be able to plan, implement, and modify appropriate interventions with adults in their context and environment to promote engagement in occupations. (S24634)

		<u>Class</u>	<u>Lab</u>	<u>Clinical</u>	<u>Credits</u>		<u>Class</u>	<u>Lab</u>	<u>Clinical</u>	<u>Credits</u>
<b>OTA 260</b>	<b>Level II Fieldwork Placement 1</b>	0	0	18	6					
Prerequisites: None Corequisites: Take OTA 261 Restrictions: Must be enrolled in A45500 Occupational Therapy Assistant program										
This course provides clinical experience under the direct supervision of experienced occupational therapists or occupational therapy assistant practitioners working in various practice settings. Emphasis is placed on final clinical preparation for entry-level practice in the profession. Upon completion, students should be able to meet all critical competencies for entry-level practice established by the curriculum, AOTA guidelines, and regulatory bodies. (S24635)										
<b>OTA 261</b>	<b>Level II Fieldwork Placement 2</b>	0	0	18	6					
Prerequisites: None Corequisites: Take OTA 260 Restrictions: Must be enrolled in A45500 Occupational Therapy Assistant program										
This course provides the final clinical experience under the direct supervision of experienced occupational therapists or occupational therapy assistant practitioners working in various practice settings. Emphasis is placed on final clinical preparation for entry-level practice in the profession. Upon completion, students should be able to meet all critical competencies for entry-level practice established by the curriculum, AOTA guidelines, and regulatory bodies. (S24636)										
<b>OTA 280</b>	<b>Professional Transitions</b>	0	2	0	1					
Prerequisites: None Corequisites: Take OTA 260 and OTA 261 Restrictions: Must be enrolled in A45500 Occupational Therapy Assistant program										
This course provides closure to the educational program following Fieldwork II placements. Emphasis is placed on portfolio development and presentation, program evaluation, Fieldwork II experience analysis and synthesis, and final preparation for the certification examination. Upon completion, students should be able to enter the OT work force with supportive documentation demonstrating progress toward meeting critical competencies set forth by the curriculum. (S12531)										

# PBT 100 – PSY 281

**PBT 100 Phlebotomy Technology** 5 2 0 6

Prerequisites: None

Corequisites: Take PBT 101

Restrictions: Must be enrolled in at least one:

Phlebotomy (Diploma) – D45950

Phlebotomy (Certificate) – C45600

This course provides instruction in the skills needed for the proper collection of blood and other specimens used for diagnostic testing. Emphasis is placed on ethics, legalities, medical terminology, safety and universal precautions, health care delivery systems, patient relations, anatomy and physiology, and specimen collection. Upon completion, students should be able to demonstrate competence in the theoretical comprehension of phlebotomy techniques. (S10532)

**PBT 101 Phlebotomy Practicum** 0 0 9 3

Prerequisites: None

Corequisites: Take PBT 100

Restrictions: Must be enrolled in at least one:

Phlebotomy (Diploma) – D45950

Phlebotomy (Certificate) – C45600

This course provides supervised experience in the performance of venipuncture and micro collection techniques in a clinical facility. Emphasis is placed on patient interaction and application of universal precautions, proper collection techniques, special procedures, specimen handling, and data management. Upon completion, students should be able to safely perform procedures necessary for specimen collections on patients in various health care settings. (S10511)

**PED 110\* Fit and Well for Life** 1 2 0 2

Prerequisites: Take one: DRE 097 or ENG 085 or  
ENG 095 or ENG 111 or  
RED 080 or RED 090

Corequisites: None

This course is designed to investigate and apply the basic concepts and principles of lifetime physical fitness and other health-related factors. Emphasis is placed on wellness through the study of nutrition, weight control, stress management, and consumer facts on exercise and fitness. Upon completion, students should be able to plan a personal, lifelong fitness program based on individual needs, abilities, and interests. *Most PED 110 distance learning courses require membership at an approved commercial facility.* (S11789)

**PED 113\* Aerobics I** 0 3 0 1

Prerequisites: None

Corequisites: None

This course introduces a program of cardiovascular fitness involving continuous, rhythmic exercise. Emphasis is placed on developing cardiovascular efficiency, strength, and flexibility and on safety precautions. Upon completion, students should be able to select and implement a rhythmic aerobic exercise program. (S11650)

**PED 117\* Weight Training I** 0 3 0 1

Prerequisites: None

Corequisites: None

This course introduces the basics of weight training. Emphasis is placed on developing muscular strength, muscular endurance, and muscle tone. Upon completion, students should be able to establish and implement a personal weight training program. *This course requires membership to an approved commercial facility. Membership costs approximately \$144.00 (subject to change). No textbook is required. The first class meeting is always on the CFCC campus, and subsequent classes will meet at the off-campus site.* (S11656)

**PED 120\* Walking for Fitness** 0 3 0 1

Prerequisites: None

Corequisites: None

This course introduces fitness through walking. Emphasis is placed on stretching, conditioning exercises, proper clothing, fluid needs, and injury prevention. Upon completion, students should be able to participate in a recreational walking program. (S11072)

**PED 122\* Yoga I** 0 2 0 1

Prerequisites: None

Corequisites: None

This course introduces the basic discipline of yoga. Topics include proper breathing, relaxation techniques, and correct body positions. Upon completion, students should be able to demonstrate the procedures of yoga. (S11107)

**PED 123\* Yoga II** 0 2 0 1

Prerequisites: Take PED 122

Corequisites: None

This course introduces more detailed aspects of the discipline of yoga. Topics include breathing and physical postures, relaxation, and mental concentration. Upon completion, students should be able to demonstrate advanced procedures of yoga. (S11044)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>PED 125* Self-Defense: Beginning</b>	0	2	0	1
Prerequisites: None				
Corequisites: None				

This course is designed to aid students in developing rudimentary skills in self-defense. Emphasis is placed on stances, blocks, punches, and kicks as well as non-physical means of self-defense. Upon completion, students should be able to demonstrate basic self-defense techniques of a physical and non-physical nature. (S11023)

<b>PED 128* Golf-Beginning</b>	0	2	0	1
Prerequisites: None				
Corequisites: None				

This course emphasizes the fundamentals of golf. Topics include the proper grips, stance, alignment, swings for the short and long game, putting, and the rules and etiquette of golf. Upon completion, students should be able to perform the basic golf shots and demonstrate a knowledge of the rules and etiquette of golf. (S11067)

<b>PED 129* Golf-Intermediate</b>	0	2	0	1
Prerequisites: Take PED 128				
Corequisites: None				

This course covers the more advanced phases of golf. Emphasis is placed on refining the fundamental skills and learning more advanced phases of the games such as club selection, trouble shots, and course management. Upon completion, students should be able demonstrate the knowledge and ability to play a recreational round of golf. (S11033)

<b>PED 130* Tennis-Beginning</b>	0	2	0	1
Prerequisites: None				
Corequisites: None				

This course emphasizes the fundamentals of tennis. Topics include basic strokes, rules, etiquette, and court play. Upon completion, students should be able to play recreational tennis. (S12680)

<b>PED 131* Tennis-Intermediate</b>	0	2	0	1
Prerequisites: Take PED 130				
Corequisites: None				

This course emphasizes the refinement of playing skills. Topics include continuing the development of fundamentals, learning advanced serves, and strokes and pace and strategies in singles and doubles play. Upon completion, students should be able to play competitive tennis. *The first class meeting is always on the CFCC campus, subsequent classes will meet at an off-campus site.* (S12604)

	Class	Lab	Clinical	Credits
<b>PED 143* Volleyball-Beginning</b>	0	2	0	1
Prerequisites: None				
Corequisites: None				

This course covers the fundamentals of volleyball. Emphasis is placed on the basics of serving, passing, setting, spiking, blocking, and the rules and etiquette of volleyball. Upon completion, students should be able to participate in recreational volleyball. (S10153)

<b>PED 145* Basketball-Beginning</b>	0	2	0	1
Prerequisites: None				
Corequisites: None				

This course covers the fundamentals of basketball. Emphasis is placed on skill development, knowledge of the rules, and basic game strategy. Upon completion, students should be able to participate in recreational basketball. (S10128)

<b>PED 149* Flag Football</b>	0	2	0	1
Prerequisites: None				
Corequisites: None				

This course introduces the fundamentals and rules of flag football. Emphasis is placed on proper techniques and strategies for playing in game situations. Upon completion, students should be able to participate in recreational flag football. *The first class meeting is always on the CFCC campus, and subsequent classes will meet at an off-campus site.* (S10111)

<b>PED 170* Backpacking</b>	0	2	0	1
Prerequisites: None				
Corequisites: None				

This course covers the proper techniques for establishing a campsite, navigating in the wilderness, and planning for an overnight trip. Topics include planning for meals, proper use of maps and compass, and packing and dressing for extended periods in the outdoors. Upon completion, students should be able to identify quality-backpacking equipment, identify the principles of no-trace camping, and successfully complete a backpacking experience. *This course requires an overnight camping trip. Contact Doc Wilson at [dwilson@cfcc.edu](mailto:dwilson@cfcc.edu) for more information.* (S13081)

<b>PED 210* Team Sports</b>	0	3	0	1
Prerequisites: None				
Corequisites: None				

This course introduces the fundamentals of popular American team sports. Emphasis is placed on rules, equipment, and motor skills used in various sports. Upon completion, students should be able to demonstrate knowledge of the sports covered. (S12519)

# CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>PED 211* New Games</b>	0	2	0	1
Prerequisites: None				
Corequisites: None				

This course includes explanation, demonstration, and participation in games that provide an alternative to traditional sports. Emphasis is placed on playing for pleasure rather than for competitive purposes. Upon completion, students should be able to participate and lead others in participating in non-competitive games. *The first class meeting is always on the CFCC campus, and subsequent classes will meet at an off-campus site.* (S12438)

<b>PED 216* Indoor Cycling</b>	0	3	0	1
Prerequisites: None				
Corequisites: None				

This course is designed to promote physical fitness through indoor stationary cycling. Emphasis is placed on pedaling techniques, safety procedures, and conditioning exercises necessary for cycling. Upon completion, students should have improved cardiovascular and muscular endurance and be able to design and participate in a cycling for fitness program. *This course requires membership to an approved commercial facility. Membership costs approximately \$144.00 (subject to change). No textbook is required. The first class meeting is always on the CFCC campus, and subsequent classes will meet at the off-campus site.* (S20842)

<b>PED 219* Disc Golf</b>	0	2	0	1
Prerequisites: None				
Corequisites: None				

This course introduces the fundamentals of disc golf. Emphasis is placed on basic throwing techniques, putting, distance driving, scoring, and single and doubles play. Upon completion, students should be able to perform the skills required in playing situations. *The first class meeting is always on the CFCC campus, and subsequent classes will meet at an off-campus site.* (S22467)

<b>PED 233* Ju-Jitsu</b>	0	3	0	1
Prerequisites: None				
Corequisites: None				

This course introduces martial arts using the ju-jitsu form. Topics include proper conditioning exercises, proper terminology, historical foundations, etiquette, and drills. Upon completion, students should be able to perform skills and techniques related to this form of martial arts. (S20630)

	Class	Lab	Clinical	Credits
<b>PED 235* Tai Chi</b>	0	3	0	1
Prerequisites: None				
Corequisites: None				

This course introduces martial arts using the Tai Chi form. Topics include proper conditioning exercises, proper terminology, historical foundations, etiquette, and drills. Upon completion, students should be able to perform skills and techniques related to this form of martial arts. (S20632)

<b>PHI 210* History of Philosophy</b>	3	0	0	3
Prerequisites: Take ENG 111				
Corequisites: None				

This course introduces fundamental philosophical issues through an historical perspective. Emphasis is placed on such figures as Plato, Aristotle, Lao-Tzu, Confucius, Augustine, Aquinas, Descartes, Locke, Kant, Wollstonecraft, Nietzsche, and Sartre. Upon completion, students should be able to identify and distinguish among the key positions of the philosophers studied. (S14081)

<b>PHI 215<sup>u</sup> Philosophical Issues</b>	3	0	0	3
Prerequisites: Take ENG 111				
Corequisites: None				

This course introduces fundamental issues in philosophy considering the views of classical and contemporary philosophers. Emphasis is placed on knowledge and belief, appearance and reality, determinism and free will, faith and reason, and justice and inequality. Upon completion, students should be able to identify, analyze, and critically evaluate the philosophical components of an issue. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S240258)*

<b>PHI 220* Western Philosophy I</b>	3	0	0	3
Prerequisites: Take ENG 111				
Corequisites: None				

This course covers Western intellectual and philosophic thought from the early Greeks through the medievalists. Emphasis is placed on such figures as the pre-Socratics, Plato, Aristotle, Epicurus, Epictetus, Augustine, Suarez, Anselm, and Aquinas. Upon completion, students should be able to trace the development of leading ideas regarding reality, knowledge, reason, and faith. (S13045)

<b>PHI 221 Western Philosophy II</b>	3	0	0	3
Prerequisites: Take ENG 111				
Corequisites: None				

This course covers Western intellectual and philosophic thought from post-medievalists through recent thinkers. Emphasis is placed on such figures as Descartes, Spinoza, Leibnitz, Locke, Berkeley, Hume, Kant, Hegel, Marx, Mill, and representatives of pragmatism, logical positivism, and existentialism. Upon completion, students should be able to trace the development of leading ideas concerning knowledge, reality, science, society, and the limits of reason. (S12988)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>PHI 230* Introduction to Logic</b>	3	0	0	3

Prerequisites: Take ENG 111  
Corequisites: None

This course introduces basic concepts and techniques for distinguishing between good and bad reasoning. Emphasis is placed on deduction, induction, validity, soundness, syllogisms, truth functions, predicate logic, analogical inference, common fallacies, and scientific methods. Upon completion, students should be able to analyze arguments, distinguish between deductive and inductive arguments, test validity, and appraise inductive reasoning. (S13741)

<b>PHI 240*<sup>u</sup> Introduction to Ethics</b>	3	0	0	3
--	---	---	---	---

Prerequisites: Take ENG 111  
Corequisites: None

This course introduces theories about the nature and foundations of moral judgments and applications to contemporary moral issues. Emphasis is placed on moral theories such as consequentialism, deontology, and virtue ethics. Upon completion, students should be able to apply various ethical theories to moral issues such as abortion, capital punishment, poverty, war, terrorism, the treatment of animals, and issues arising from new technologies. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S24029)*

<b>PHM 110 Introduction to Pharmacy</b>	3	0	0	3
---	---	---	---	---

Prerequisites: None  
Corequisites: None  
Restrictions: Must be enrolled in at least one:  
Pharm Tech program – A45580  
Pharm Tech (Dipl) program – D45580

This course introduces pharmacy practice and the technician's role in a variety of pharmacy settings. Topics include medical terminology and abbreviations, drug delivery systems, law and ethics, prescription and medication orders, and the health care system. Upon completion, students should be able to explain the role of pharmacy technicians, read and interpret drug orders, describe quality assurance, and utilize pharmacy references. (S21732)

<b>PHM 111 Pharmacy Practice I</b>	3	3	0	4
------------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: Take BIO 163 and PHM 110 and PHM 115 and PHM 115A  
Restrictions: Must be enrolled in at least one:  
Pharm Tech program – A45580  
Pharm Tech (Dipl) program – D45580

This course provides instruction in the technical procedures for preparing and dispensing drugs in the hospital and retail settings under supervision of a registered pharmacist. Topics include drug packaging and labeling, outpatient dispensing, hospital dispensing procedures, controlled substance procedures, inventory control, and non-sterile compounding. Upon completion, students should be able to perform basic supervised dispensing techniques in a variety of pharmacy settings. (S12794)

	Class	Lab	Clinical	Credits
<b>PHM 115 Pharmacy Calculations</b>	3	0	0	3

Prerequisites: None  
Corequisites: Take PHM 115A  
Restrictions: Must be enrolled in at least one:  
Pharm Tech program – A45580  
Pharm Tech (Dipl) program – D45580

This course provides an introduction to the metric, avoirdupois, and apothecary systems of measurement and the calculations used in pharmacy practice. Topics include ratio and proportion, dosage determinations, percentage preparations, reducing and enlarging formulas, dilution and concentration, aliquots, specific gravity and density, and flow rates. Upon completion, students should be able to correctly perform calculations required to properly prepare a medication order. (S21733)

<b>PHM 115A Pharmacy Calculations Lab</b>	0	2	0	1
---	---	---	---	---

Prerequisites: None  
Corequisites: Take PHM 115  
Restrictions: Must be enrolled in at least one:  
Pharm Tech program – A45580  
Pharm Tech (Dipl) program – D45580

This course provides an opportunity to practice and perform calculations encountered in pharmacy practice. Emphasis is placed on ratio and proportion, dosage calculations, percentage, reduction/enlargement formulas, aliquots, flow rates, and specific gravity/density. Upon completion, students should be able to perform the calculations required to properly prepare a medication order. (S12969)

<b>PHM 118 Sterile Products</b>	3	3	0	4
---------------------------------	---	---	---	---

Prerequisites: Take PHM 110 and PHM 111  
Corequisites: Take PHM 120 and PHM 136  
Restrictions: Must be enrolled in at least one:  
Pharm Tech program – A45580  
Pharm Tech (Dipl) program – D45580

This course provides an introduction to intravenous admixture preparation and other sterile products, including total parenteral nutrition and chemotherapy. Topics include aseptic techniques; facilities, equipment, and supplies utilized in admixture preparation; incompatibility and stability; laminar flow hoods; immunizations and irrigation solutions; and quality assurance. Upon completion, students should be able to describe and demonstrate the steps involved in preparation of intermittent and continuous infusions, total parenteral nutrition, and chemotherapy. (S12780)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>PHM 120 Pharmacology I</b>	3	0	0	3
Prerequisites: Take PHM 110 and PHM 111				
Corequisites: Take PHM 118 and PHM 136				
Restrictions: Must be enrolled in at least one: Pharm Tech program – A45580 Pharm Tech (Dipl) program – D45580				

This course introduces the study of the properties, effects, and therapeutic value of the primary agents in the major drug categories. Topics include nutritional products, blood modifiers, hormones, diuretics, cardiovascular agents, respiratory drugs, and gastrointestinal agents. Upon completion, students should be able to place major drugs into correct therapeutic categories and identify indications, side effects, and trade and generic names. (S13587)

<b>PHM 125 Pharmacology II</b>	3	0	0	3
Prerequisites: Take PHM 110 and PHM 111 and PHM 120				
Corequisites: Take PHM 133 and PHM 140				
Restrictions: Must be enrolled in at least one: Pharm Tech program – A45580 Pharm Tech (Dipl) program – D45580				

This course provides a continuation of the study of the properties, effects, and therapeutic value of the primary agents in the major drug categories. Topics include autonomic and central nervous system agents, anti-inflammatory agents, and anti-infective drugs. Upon completion, students should be able to place major drugs into correct therapeutic categories and identify indications, side effects, and trade and generic names. (S13637)

<b>PHM 133 Pharmacy Clinical</b>	0	0	9	3
Prerequisites: None				
Corequisites: None				
Restrictions: Must be enrolled in at least one: Pharm Tech program – A45580 Pharm Tech (Dipl) program – D45580				

This course provides an opportunity to work in pharmacy settings under a pharmacist's supervision. Emphasis is placed on effective communication with personnel, developing proper employee attitude, and dispensing of medications. Upon completion, students should be able to demonstrate an understanding of pharmacy operations, utilize references, dispense medications, prepare patient charges, and efficiently operate computers. (S11908)

	Class	Lab	Clinical	Credits
<b>PHM 135 Pharmacy Clinical</b>	0	0	15	5
Prerequisites: None				
Corequisites: None				
Restrictions: Must be enrolled in A45580 Pharmacy Technology program				

This course provides an opportunity to work in pharmacy settings under a pharmacist's supervision. Emphasis is placed on effective communication with personnel, developing proper employee attitude, and dispensing of medications. Upon completion, students should be able to demonstrate an understanding of pharmacy operations, utilize references, dispense medications, prepare patient charges, and efficiently operate computers. (S11888)

<b>PHM 136 Pharmacy Clinical</b>	0	0	18	6
Prerequisites: Take PHM 110 and PHM 111				
Corequisites: Take PHM 118 and PHM 120				
Restrictions: Must be enrolled in at least one: Pharm Tech program – A45580 Pharm Tech (Dipl) program – D45580				

This course provides an opportunity to work in pharmacy settings under a pharmacist's supervision. Emphasis is placed on effective communication with personnel, developing proper employee attitude, and dispensing of medications. Upon completion, students should be able to demonstrate an understanding of pharmacy operations, utilize references, dispense medications, prepare patient charges, and efficiently operate computers. (S11827)

<b>PHM 140 Trends in Pharmacy</b>	2	0	0	2
Prerequisites: Take PHM 110 and PHM 111				
Corequisites: Take PHM 125 and PHM 133 and PHM 140				
Restrictions: Must be enrolled in at least one: Pharm Tech program – A45580 Pharm Tech (Dipl) program – D45580				

This course covers the major issues, trends, and concepts in contemporary pharmacy practice. Topics include professional ethics, continuing education, job placement, and the latest developments in pharmacy technician practice. Upon completion, students should be able to demonstrate a basic knowledge of the topics discussed. (S13926)

<b>PHM 150 Hospital Pharmacy</b>	3	3	0	4
Prerequisites: None				
Corequisites: Take PHM 118				
Restrictions: Must be enrolled in A45580 Pharmacy Technology program				

This course provides an in-depth study of hospital pharmacy practice. Topics include hospital organizational structure, committee functions, utilization of reference works, purchasing and inventory control, drug delivery systems, and intravenous admixture preparation. Upon completion, students should be able to explain hospital organization/committee functions, interpret and enter patient orders, fill unit-dose cassettes, and prepare intravenous admixtures. (S13458)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>PHM 155 Community Pharmacy</b>	2	2	0	3

Prerequisites: Take PHM 110 and PHM 111 and PHM 125 and PHM 118

Corequisites: None

Restrictions: Must be enrolled in A45580 Pharmacy Technology program

This course covers the operational procedures relating to retail pharmacy. Emphasis is placed on a general knowledge of over-the-counter products, prescription processing, business/inventory management, and specialty patient services. Upon completion, students should be able to provide technical assistance and support to the retail pharmacist. (S13388)

<b>PHM 160 Pharm Dosage Forms</b>	3	0	0	3
-----------------------------------	---	---	---	---

Prerequisites: Take PHM 125 and PHM 118

Corequisites: None

Restrictions: Must be enrolled in A45580 Pharmacy Technology program

This course is a study of pharmaceutical dosage forms and considerations in their manufacture. Topics include bioavailability, routes of administration, tablets, capsules, solutions, syrups, suspensions, elixirs, aerosols, transdermals, topicals, ophthalmics, otics, and other dosage forms. Upon completion, students should be able to describe the characteristics of the major dosage forms and explain how these characteristics affect the action of the drug. (S13904)

<b>PHM 165 Pharmacy Prof Practice</b>	2	0	0	2
---------------------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

Restrictions: Must be enrolled in at least one:  
Pharm Tech program – A45580  
Pharm Tech (Dipl) program – D45580

This course provides a general overview of all aspects of pharmacy technician practice. Emphasis is placed on pharmacy law, calculations, compounding, pharmacology, and pharmacy operations. Upon completion, students should be able to demonstrate competence in the areas required for the Pharmacy Technician Certification Examination. (S13870)

<b>PHM 265 Professional Issues</b>	3	0	0	3
------------------------------------	---	---	---	---

Prerequisites: Take PHM 165

Corequisites: None

Restrictions: Must be enrolled in A45580 Pharmacy Technology program

This course provides a comprehensive discussion of topics common to the practice of the pharmacy technician. Emphasis is placed on application of professional competencies including legal/ethical issues, leadership/management concepts and employability skills. Upon completion, students should be able to demonstrate competence in pharmacy workplace skills and leadership/management roles. (S22262)

	Class	Lab	Clinical	Credits
<b>PHY 110*<sup>u</sup> Conceptual Physics</b>	3	0	0	3

Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090

Corequisites: Take PHY 110A

This course provides a conceptually based exposure to the fundamental principles and processes of the physical world. Topics include basic concepts of motion, forces, energy, heat, electricity, magnetism, and the structure of matter and the universe. Upon completion, students should be able to describe examples and applications of the principles studied. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S12004)*

<b>PHY 110A*<sup>u</sup> Conceptual Physics Lab</b>	0	2	0	1
---	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090

Corequisites: Take PHY 110

This course is a laboratory for PHY 110. Emphasis is placed on laboratory experiences that enhance materials presented in PHY 110. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in PHY 110. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S13531)*

<b>PHY 131 Physics-Mechanics</b>	3	2	0	4
----------------------------------	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090

Take one: MAT 121 or MAT 171

Corequisites: None

This algebra/trigonometry-based course introduces fundamental physical concepts as applied to engineering technology fields. Topics include systems of units, problem-solving methods, graphical analysis, vectors, motion, forces, Newton's laws of motion, work, energy, power, momentum, and properties of matter. Upon completion, students should be able to apply the principles studied to applications in engineering technology fields. (S23976)

<b>PHY 132 Physics-Electricity &amp; Magnetism</b>	3	2	0	4
--	---	---	---	---

Prerequisites: Take PHY 131

Corequisites: None

This algebra/trigonometry-based course is a study of fundamental physical concepts as applied to engineering technology fields. Topics include systems of units, problem-solving methods, graphical analysis, waves, electricity, magnetism, circuits, transformers, motors, and generators. Upon completion, students should be able to apply the principles studied to applications in engineering technology fields. (S13247)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>PHY 151*<sup>u</sup> College Physics I</b>	3	2	0	4
Prerequisites: Take MAT 171				
Corequisites: None				

This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vectors, linear kinematics and dynamics, energy, power, momentum, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S23977)*

<b>PHY 152*<sup>u</sup> College Physics II</b>	3	2	0	4
Prerequisites: Take PHY 151				
Corequisites: None				

This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S11553)*

<b>PHY 251*<sup>u</sup> General Physics I</b>	3	3	0	4
Prerequisites: Take MAT 271				
Corequisites: Take MAT 272				

This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vector operations, linear kinematics and dynamics, energy, power, momentum, rotational mechanics, periodic motion, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S12543)*

<b>PHY 252*<sup>u</sup> General Physics II</b>	3	3	0	4
Prerequisites: Take MAT 272 and PHY 251				
Corequisites: None				

This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S11553)*

	Class	Lab	Clinical	Credits
<b>PLU 110 Modern Plumbing</b>	4	15	0	9
Prerequisites: None				
Corequisites: None				

This course introduces the tools, equipment, and materials associated with the plumbing industry. Topics include safety, use and care of tools, recognition and assembly of fittings and pipes, and other related topics. Upon completion, students should be able to safely assemble various pipes and fittings in accordance with state code requirements. **\*\*This is a Fall Only Class\*\*** (S10579)

<b>PLU 111 Introduction to Basic Plumbing</b>	1	3	0	2
Prerequisites: None				
Corequisites: None				

This course introduces basic plumbing tools, materials, and fixtures. Topics include standard tools, materials, and fixtures used in basic plumbing systems and other related topics. Upon completion, students should be able to demonstrate an understanding of a basic plumbing system. **\*\*This is a Fall Only Class\*\*** (S10637)

<b>PLU 120 Plumbing Applications</b>	4	15	0	9
Prerequisites: None				
Corequisites: None				

This course covers general plumbing layout, fixtures, and water heaters. Topics include drainage, waste and vent pipes, water service and distribution, fixture installation, water heaters, and other related topics. Upon completion, students should be able to safely install common fixtures and systems in compliance with state and local building codes. **\*\*This is a Spring Only Class\*\*** (S11704)

<b>PLU 130 Plumbing Systems</b>	3	9	0	6
Prerequisites: None				
Corequisites: None				

This course covers the maintenance and repair of plumbing lines and fixtures. Emphasis is placed on identifying and diagnosing problems related to water, drain and vent lines, water heaters, and plumbing fixtures. Upon completion, students should be able to identify and diagnose needed repairs to the plumbing system. **\*\*This is a Summer Only Class\*\*** (S11016)

<b>PLU 140 Introduction to Plumbing Codes</b>	1	2	0	2
Prerequisites: None				
Corequisites: None				

This course covers plumbing industry codes and regulations. Emphasis is placed on North Carolina regulations and the minimum requirements or plumbing materials and design. Upon completion, students should be able to research and interpret North Carolina plumbing codes. **\*\*This is a Spring Only Class\*\*** (S12595)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>PLU 150 Plumbing Diagrams</b>	1	2	0	2

Prerequisites: None  
Corequisites: None

This course introduces sketching diagrams and interpretation of blueprints applicable to the plumbing trades. Emphasis is placed on plumbing plans for domestic and/or commercial buildings. Upon completion, students should be able to sketch plumbing diagrams applicable to the plumbing trades. **\*\*This is a Spring Only Class\*\*** (S10118)

<b>PLU 160 Plumbing Estimates</b>	1	2	0	2
-----------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course covers techniques for estimating quantities of materials and cost of installation for various types of plumbing systems. Topics include design of systems, codes, material take-offs, pricing, and public relations. Upon completion, students should be able to order materials needed for installation from a designed system. **\*\*This is a Summer Only Class\*\*** (S12176)

<b>PMT 110 Introduction to Project Management</b>	3	0	0	3
---	---	---	---	---

Prerequisites: Take BUS 110  
Corequisites: None

This course introduces project management fundamentals and principles for organizing, planning, implementing, and controlling nonroutine activities to achieve schedule, budget and performance objectives. Topics include project life cycles; work breakdown structures; responsibility matrixes; as well as planning and control methods such as PERT/CPM and Gantt charts. Upon completion, students should be able to demonstrate knowledge, strategies, and techniques needed to create and execute plans for project development and management. (S22221)

<b>POL 110* Introduction to Political Science</b>	3	0	0	3
---	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090  
Corequisites: None

This course introduces basic political concepts used by governments and addresses a wide range of political issues. Topics include political theory, ideologies, legitimacy, and sovereignty in democratic and non-democratic systems. Upon completion, students should be able to discuss a variety of issues inherent in all political systems and draw logical conclusions in evaluating these systems. (S13770)

	Class	Lab	Clinical	Credits
<b>POL 120*u American Government</b>	3	0	0	3

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090  
Corequisites: None

This course is a study of the origins, development, structure, and functions of American government. Topics include the constitutional framework, federalism, the three branches of government including the bureaucracy, civil rights and liberties, political participation and behavior, and policy process. Upon completion, students should be able to demonstrate an understanding of the basic concepts and participatory processes of the American political system. *This is a Universal General Education Transfer Component (UGETC) course.* [SBCC/BOG 02/21/14] (S24030)

<b>POL 130* State &amp; Local Government</b>	3	0	0	3
--	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090  
Corequisites: None

This course includes state and local political institutions and practices in the context of American federalism. Emphasis is placed on procedural and policy differences as well as political issues in state, regional, and local governments of North Carolina. Upon completion, students should be able to identify and discuss various problems associated with intergovernmental politics and their effect on the community and the individual. (S14316)

<b>POL 210* Comparative Government</b>	3	0	0	3
--	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090  
Corequisites: None

This course provides a cross-national perspective on the government and politics of contemporary nations such as Great Britain, France, Germany, and Russia. Topics include each country's historical uniqueness, key institutions, attitudes and ideologies, patterns of interaction, and current political problems. Upon completion, students should be able to identify and compare various nations' governmental structures, processes, ideologies, and capacity to resolve major problems. (S14332)

<b>POL 220* International Relations</b>	3	0	0	3
---	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or  
ENG 111 or RED 090  
Corequisites: None

This course provides a study of the effects of ideologies, trade, armaments, and alliances on relations among nation-states. Emphasis is placed on regional and global cooperation and conflict, economic development, trade, non-governmental organizations, and international institutions such as the World Court and UN. Upon completion, students should be able to identify and discuss major international relationships, institutions, and problems. (S12877)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>POL 250* Introduction to Political Theory</b>	3	0	0	3

Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090

Corequisites: None

This course introduces students to normative political theory and examines basic questions and issues about the nature and purpose of politics. Emphasis is placed on the classical and modern political theories of Plato, Aristotle, Machiavelli, Hobbes, Locke, Rousseau, Mill, and Marx. Upon completion, students should be able to discuss and evaluate normative political theories about the nature and purpose of politics. (S22932)

<b>PSY 118 Interpersonal Psychology</b>	3	0	0	3
---	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090

Corequisites: None

This course introduces the basic principles of psychology as they relate to personal and professional development. Emphasis is placed on personality traits, communication/leadership styles, effective problem solving, and cultural diversity as they apply to personal and work environments. Upon completion, students should be able to demonstrate an understanding of these principles of psychology as they apply to personal and professional development. (S11025)

<b>PSY 150** General Psychology</b>	3	0	0	3
-------------------------------------	---	---	---	---

Prerequisites: Take one: DRE 098 or ENG 095 or RED 090

Corequisites: None

This course provides an overview of the scientific study of human behavior. Topics include history, methodology, biopsychology, sensation, perception, learning, motivation, cognition, abnormal behavior, personality theory, social psychology, and other relevant topics. Upon completion, students should be able to demonstrate a basic knowledge of the science of psychology. *This is a Universal General Education Transfer Component (UGETC) course. [SBCC/BOG 02/21/14] (S10777)*

<b>PSY 211* Psychology of Adjustment</b>	3	0	0	3
--	---	---	---	---

Prerequisites: Take PSY 150

Corequisites: None

This course introduces the study of the adjustment process focusing on contemporary challenges individuals must deal with in everyday life. Topics include theories of behavior, career choices, self-understanding, coping mechanisms, human relationships, intimacy, sociocultural factors influencing healthy personal adjustment, and other related topics. Upon completion, students should be able to demonstrate an awareness of the processes of adjustment. (S10085)

	Class	Lab	Clinical	Credits
<b>PSY 241* Developmental Psychology</b>	3	0	0	3

Prerequisites: Take PSY 150

Corequisites: None

This course is a study of human growth and development. Emphasis is placed on major theories and perspectives as they relate to the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span. (S13114)

<b>PSY 259* Human Sexuality</b>	3	0	0	3
---------------------------------	---	---	---	---

Prerequisites: Take PSY 150

Corequisites: None

This course provides the biological, psychological, and sociocultural aspects of human sexuality and related research. Topics include reproductive biology, sexual and psychosexual development, sexual orientation, contraception, sexually transmitted diseases, sexual disorders, theories of sexuality, and related issues. Upon completion, students should be able to demonstrate an overall knowledge and understanding of human sexuality. (S10448)

<b>PSY 263* Educational Psychology</b>	3	0	0	3
--	---	---	---	---

Prerequisites: Take PSY 150

Corequisites: None

This course examines the application of psychological theories and principles to the educational process and setting. Topics include learning and cognitive theories, achievement motivation, teaching and learning styles, teacher and learner roles, assessment, and developmental issues. Upon completion, students should be able to demonstrate an understanding of the application of psychological theory to educational practice. (S11448)

<b>PSY 265 Behavioral Modification</b>	3	0	0	3
--	---	---	---	---

Prerequisites: Take PSY 150

Corequisites: None

This course is an applied study of factors influencing human behavior and strategies for behavioral change. Emphasis is placed on cognitive-behavioral theory, behavioral assessment, practical applications of conditioning techniques, and maintenance of adaptive behavior patterns. Upon completion, students should be able to implement basic learning principles to effect behavioral changes in self and others. (S11424)

<b>PSY 281* Abnormal Psychology</b>	3	0	0	3
-------------------------------------	---	---	---	---

Prerequisites: Take PSY 150

Corequisites: None

This course provides an examination of the various psychological disorders, as well as theoretical, clinical, and experimental perspectives of the study of psychopathology. Emphasis is placed on terminology, classification, etiology, assessment, and treatment of the major disorders. Upon completion, students should be able to distinguish between normal and abnormal behavior patterns as well as demonstrate knowledge of etiology, symptoms, and therapeutic techniques. (S12906)

# RAD 110 – RLS 123

Class Lab Clinical Credits

## RAD 110 RAD Intro & Patient Care 2 3 0 3

Prerequisites: None

Corequisites: Take RAD 111 and RAD 151

Restrictions: Must be enrolled in A45700

Radiography program

This course provides an overview of the radiography profession and student responsibilities. Emphasis is placed on basic principles of patient care, radiation protection, technical factors, and medical terminology. Upon completion, students should be able to demonstrate basic skills in these areas. (S13079)

## RAD 111 RAD Procedures I 3 3 0 4

Prerequisites: None

Corequisites: Take RAD 110 and RAD 151

Restrictions: Must be enrolled in A45700

Radiography program

This course provides the knowledge and skills necessary to perform standard radiographic procedures. Emphasis is placed on radiography of the chest, abdomen, extremities, spine, and pelvis. Upon completion, students should be able to demonstrate competence in these areas. (S13029)

## RAD 112 RAD Procedures II 3 3 0 4

Prerequisites: Take RAD 110 and RAD 111 and RAD 151

Corequisites: None

Restrictions: Must be enrolled in A45700

Radiography program

This course provides the knowledge and skills necessary to perform standard radiographic procedures. Emphasis is placed on radiography of the skull, bony thorax, and gastrointestinal, biliary, and urinary systems. Upon completion, students should be able to demonstrate competence in these areas. (S13039)

## RAD 121 Radiographic Imaging I 2 3 0 3

Prerequisites: Take RAD 110 and RAD 111 and RAD 151

Corequisites: Take RAD 112 and RAD 161

Restrictions: Must be enrolled in A45700

Radiography program

This course provides the basic principles of imaging. Emphasis is placed on the factors that impact density, contrast, recorded detail, and distortion. Upon completion, students should be able to demonstrate an understanding of basic radiographic imaging. (S23863)

Class Lab Clinical Credits

## RAD 122 Radiographic Imaging II 1 3 0 2

Prerequisites: Take RAD 112 and RAD 121 and RAD 161

Corequisites: Take RAD 131 and RAD 171

Restrictions: Must be enrolled in A45700

Radiography program

This course provides advanced principles of imaging including digital radiography. Emphasis is placed on the factors that impact brightness, contrast, recorded detail, and distortion. Upon completion, students should be able to demonstrate an understanding of advanced principles of imaging. (S22448)

## RAD 131 Radiographic Physics I 1 3 0 2

Prerequisites: Take RAD 121

Corequisites: Take RAD 122 and RAD 171

Restrictions: Must be enrolled in A45700

Radiography program

This course introduces the principles of radiation characteristics and production. Emphasis is placed on imaging equipment. Upon completion, students should be able to demonstrate a basic understanding of radiation characteristics and production. (S23864)

## RAD 151 RAD Clinical Ed I 0 0 6 2

Prerequisites: None

Corequisites: Take RAD 110 and RAD 111

Restrictions: Must be enrolled in A45700

Radiography program

This course introduces patient management and basic radiographic procedures in the clinical setting. Emphasis is placed on mastering positioning of the chest and extremities, manipulating equipment, and applying principles of ALARA. Upon completion, students should be able to demonstrate successful completion of clinical objectives. (S12925)

## RAD 161 RAD Clinical Ed II 0 0 15 5

Prerequisites: Take RAD 110 and RAD 111 and RAD 151

Corequisites: Take RAD 112 and RAD 121

Restrictions: Must be enrolled in A45700

Radiography program

This course provides additional experience in patient management and in more complex radiographic procedures. Emphasis is placed on mastering positioning of the spine, pelvis, head and neck, and thorax and adapting procedures to meet patient variations. Upon completion, students should be able to demonstrate successful completion of clinical objectives. (S13703)

## CAPE FEAR COMMUNITY COLLEGE

		Class	Lab	Clinical	Credits
<b>RAD 171</b>	<b>RAD Clinical Ed III</b>	0	0	12	4
Prerequisites: Take RAD 112 and RAD 121 and RAD 161					
Corequisites: Take RAD 122 and RAD 131					
Restrictions: Must be enrolled in A45700 Radiography program					

This course provides experience in patient management specific to fluoroscopic and advanced radiographic procedures. Emphasis is placed on applying appropriate technical factors to all studies and mastering positioning of gastrointestinal and urological studies. Upon completion, students should be able to demonstrate successful completion of clinical objectives. (S12024)

<b>RAD 181</b>	<b>RAD Clinical Elective</b>	0	0	3	1
Prerequisites: None					
Corequisites: None					
Restrictions: Must be enrolled in A45700 Radiography program					

This course provides advanced knowledge of clinical applications. Emphasis is placed on enhancing clinical skills. Upon completion, students should be able to successfully complete the clinical course objectives. (S13957)

<b>RAD 182</b>	<b>RAD Clinical Elective</b>	0	0	6	2
Prerequisites: None					
Corequisites: None					
Restrictions: Must be enrolled in A45700 Radiography program					

This course provides advanced knowledge of clinical applications. Emphasis is placed on enhancing clinical skills. Upon completion, students should be able to successfully complete the clinical course objectives. (S13921)

<b>RAD 211</b>	<b>RAD Procedures III</b>	2	3	0	3
Prerequisites: Take RAD 122 and RAD 131 and RAD 171					
Corequisites: Take RAD 231 and RAD 241 and RAD 251					
Restrictions: Must be enrolled in A45700 Radiography program					

This course provides the knowledge and skills necessary to perform standard and specialty radiographic procedures. Emphasis is placed on radiographic specialty procedures, sectional anatomy, and advanced imaging. Upon completion, students should be able to demonstrate an understanding of these areas. (S23865)

<b>RAD 231</b>	<b>Radiographic Physics II</b>	1	3	0	2
Prerequisites: Take RAD 171 or RAD 131					
Corequisites: Take RAD 211 and RAD 241 and RAD 251					
Restrictions: Must be enrolled in A45700 Radiography program					

This course provides advanced principles of radiation characteristics and production including digital imaging and Computed Tomography (CT). Emphasis is placed on imaging equipment. Upon completion, students should be able to demonstrate an understanding of radiation characteristics and production. (S23866)

		Class	Lab	Clinical	Credits
<b>RAD 241</b>	<b>Radiobiology/Protection</b>	2	0	0	2
Prerequisites: Take RAD 122 and RAD 131 and RAD 171					
Corequisites: Take RAD 211 and RAD 231 and RAD 251					
Restrictions: Must be enrolled in A45700 Radiography program					

This course covers the principles of radiation protection and radiobiology. Topics include the effects of ionizing radiation on body tissues, protective measures for limiting exposure to the patient and personnel, and radiation monitoring devices. Upon completion, students should be able to demonstrate an understanding of the effects and uses of radiation in diagnostic radiology. (S20874)

<b>RAD 245</b>	<b>Image Analysis</b>	1	3	0	2
Prerequisites: Take RAD 211 and RAD 231 and RAD 241 and RAD 251					
Corequisites: Take RAD 261 and RAD 271					
Restrictions: Must be enrolled in A45700 Radiography program					

This course provides an overview of image analysis and introduces methods of quality management. Topics include image evaluation, pathology, quality control, and quality assurance. Upon completion, students should be able to demonstrate a basic knowledge of image analysis and quality management. (S23867)

<b>RAD 251</b>	<b>RAD Clinical Ed IV</b>	0	0	21	7
Prerequisites: Take RAD 122 and RAD 131 and RAD 171					
Corequisites: Take RAD 211 and RAD 231 and RAD 241					
Restrictions: Must be enrolled in A45700 Radiography program					

This course provides the opportunity to continue mastering all basic radiographic procedures and to attain experience in advanced areas. Emphasis is placed on equipment operation, pathological recognition, pediatric and geriatric variations, and a further awareness of radiation protection requirements. Upon completion, students should be able to demonstrate successful completion of clinical objectives. (S11897)

<b>RAD 261</b>	<b>RAD Clinical Ed V</b>	0	0	21	7
Prerequisites: Take RAD 251					
Corequisites: Take RAD 245 and RAD 271					
Restrictions: Must be enrolled in A45700 Radiography program					

This course is designed to enhance expertise in all radiographic procedures, patient management, radiation protection, and image production and evaluation. Emphasis is placed on developing an autonomous approach to the diversity of clinical situations and successfully adapting to those procedures. Upon completion, students should be able to demonstrate successful completion of clinical objectives. (S23868)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>RAD 271 Radiography Capstone</b>	0	3	0	1
Prerequisites: Take RAD 211 and RAD 231 and RAD 241 and RAD 251				
Corequisites: Take RAD 245 and RAD 261				
Restrictions: Must be enrolled in A45700 Radiography program				

This course provides an opportunity to exhibit problem-solving skills required for certification. Emphasis is placed on critical thinking and integration of didactic and clinical components. Upon completion, students should be able to demonstrate the knowledge required of an entry-level radiographer. (S20871)

<b>RAD 281 RAD Clinical Elective</b>	0	0	3	1
Prerequisites: Take RAD 161				
Corequisites: None				
Restrictions: Must be enrolled in A45700 Radiography program				

This course provides advanced knowledge of clinical applications. Emphasis is placed on enhancing clinical skills. Upon completion, students should be able to successfully complete the clinical course objectives. (S13793)

<b>REL 110* World Religions</b>	3	0	0	3
Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090				
Corequisites: None				

This course introduces the world's major religious traditions. Topics include Primal religions, Hinduism, Buddhism, Islam, Judaism, and Christianity. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. (S13358)

<b>REL 111* Eastern Religions</b>	3	0	0	3
Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090				
Corequisites: None				

This course introduces the major Asian religious traditions. Topics include Hinduism, Buddhism, Taoism, Confucianism, and Shinto. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. (S13358)

<b>REL 112* Western Religions</b>	3	0	0	3
Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090				
Corequisites: None				

This course introduces the major western religious traditions. Topics include Zoroastrianism, Islam, Judaism, and Christianity. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. (S13280)

	Class	Lab	Clinical	Credits
<b>REL 211* Introduction to Old Testament</b>	3	0	0	3
Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090				
Corequisites: None				

This course is a survey of the literature of the Hebrews with readings from the law, prophets, and other writings. Emphasis is placed on the use of literary, historical, archeological, and cultural analysis. Upon completion, students should be able to use the tools of critical analysis to read and understand Old Testament literature. (S11707)

<b>REL 212* Introduction to New Testament</b>	3	0	0	3
Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090				
Corequisites: None				

This course is a survey of the literature of first-century Christianity with readings from the gospels, Acts, and the Pauline and pastoral letters. Topics include the literary structure, audience, and religious perspective of the writings, as well as the historical and cultural context of the early Christian community. Upon completion, students should be able to use the tools of critical analysis to read and understand New Testament literature. (S11723)

<b>REL 221* Religion in America</b>	3	0	0	3
Prerequisites: Take one: DRE 098 or ENG 095 or ENG 111 or RED 090				
Corequisites: None				

This course is an examination of religious beliefs and practice in the United States. Emphasis is placed on mainstream religious traditions and non-traditional religious movements from the Colonial period to the present. Upon completion, students should be able to recognize and appreciate the diversity of religious traditions in America. (S11026)

<b>RLS 112 Broker Prelicensing</b>	5	0	0	5
Prerequisites: None				
Corequisites: None				

This course provides basic instruction in real estate principles and practices. Topics include law, finance, brokerage, closing, valuation, management, taxation, mathematics, construction, land use, property insurance, and NC License Law and Commission Rules. Upon completion, students should be able to demonstrate basic knowledge and skills necessary for real estate sales. (S21721)

# CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>RLS 113 Real Estate Mathematics</b>	2	0	0	2

Prerequisites: None

Corequisites: None

This course provides basic instruction in business mathematics applicable to real estate situations. Topics include area computations, percentage of profit/loss, bookkeeping and accounting methods, appreciation and depreciation, financial calculations and interest yields, property valuation, insurance, taxes, and commissions. Upon completion, students should be able to demonstrate proficiency in applied real estate mathematics. (S12735)

<b>RLS 121 Broker Relationships</b>	2	0	0	2
-------------------------------------	---	---	---	---

Prerequisites: Take RLS 112

Corequisites: None

This course provides post-licensing instruction in broker relationships and responsibilities when working with residential sellers and buyers. Topics include agency relationships and duties, agency contracts and disclosure, and the practical aspects of working with residential buyers and sellers. Upon completion, students should be able to demonstrate knowledge and skills necessary to effectively work with residential buyers/sellers according to law and prevailing practices. (S21954)

<b>RLS 122 Contracts and Closing</b>	2	0	0	2
--------------------------------------	---	---	---	---

Prerequisites: Take RLS 112

Corequisites: None

This course provides post-licensing instruction in broker responsibilities relating to real estate sales contracts, contract procedures, the Real Estate Settlement Procedures Act and closings. Topics include contract law concepts, residential sales contract preparation and procedures, closing procedures and closing statement preparation. Upon completion, students should be able to handle sales contract negotiations, prepare residential sales contracts, assist sellers/buyers prepare for closing and verify closing statements. (S21955)

<b>RLS 123 Select Real Estate Issues</b>	2	0	0	2
--	---	---	---	---

Prerequisites: Take RLS 112

Corequisites: None

This course provides post-licensing instruction in real estate on selected topics of special importance to licensees. Topics include commercial real estate brokerage, residential property management, land use controls, loan fraud, license law, fair housing, establishing a brokerage firm, and manufactured/modular homes. Upon completion, students should be able to demonstrate knowledge of commercial real estate brokerage, residential property management, and the other topics addressed in this course. (S21956)

Class	Lab	Clinical	Credits
-------	-----	----------	---------

# SEC 110 – SUR 211

Class Lab Clinical Credits

**SEC 110 Security Concepts** 2 2 0 3

Prerequisites: None

Corequisites: None

This course introduces the concepts and issues related to securing information systems and the development of policies to implement information security controls. Topics include the historical view of networking and security, security issues, trends, security resources, and the role of policy, people, and processes in information security. Upon completion, students should be able to identify information security risks, create an information security policy, and identify processes to implement and enforce policy. (S23204)

**SEC 160 Security Administration I** 2 2 0 3

Prerequisites: None

Corequisites: None

This course provides an overview of security administration and fundamentals of designing security architectures. Topics include networking technologies, TCP/IP concepts, protocols, network traffic analysis, monitoring, and security best practices. Upon completion, students should be able to identify normal network traffic using network analysis tools and design basic security defenses. (S24399)

**SOC 210\*<sup>u</sup> Introduction to Sociology** 3 0 0 3

Prerequisites: Take one: DRE 098 or RED 090 or  
ENG 095 or ENG 111

Corequisites: None

This course introduces the scientific study of human society, culture, and social interactions. Topics include socialization, research methods, diversity and inequality, cooperation and conflict, social change, social institutions, and organizations. Upon completion, students should be able to demonstrate knowledge of sociological concepts as they apply to the interplay among individuals, groups, and societies. *This is a Universal General Education Transfer Component (UGETC) course.* [SBCC/BOG 02/21/14] (S11919)

Class Lab Clinical Credits

**SOC 213\* Sociology of the Family** 3 0 0 3

Prerequisites: Take one: DRE 098 or RED 090 or  
ENG 095 or ENG 111

Corequisites: None

This course covers the institution of the family and other intimate relationships. Emphasis is placed on mate selection, gender roles, sexuality, communication, power and conflict, parenthood, diverse lifestyles, divorce and remarriage, and economic issues. Upon completion, students should be able to analyze the family as a social institution and the social forces which influence its development and change. (S11798)

**SOC 220\* Social Problems** 3 0 0 3

Prerequisites: Take one: DRE 098 or RED 090 or  
ENG 095 or ENG 111

Corequisites: None

This course provides an in-depth study of current social problems. Emphasis is placed on causes, consequences, and possible solutions to problems associated with families, schools, workplaces, communities, and the environment. Upon completion, students should be able to recognize, define, analyze, and propose solutions to these problems. (S13948)

**SOC 230\* Race and Ethnic Relations** 3 0 0 3

Prerequisites: Take one: DRE 098 or RED 090 or  
ENG 095 or ENG 111

Corequisites: None

This course includes an examination of the various aspects of race and ethnicity and how these lead to different experiences, opportunities, problems, and contributions. Topics include prejudice, discrimination, perceptions, myths, stereotypes, and intergroup relationships. Upon completion, students should be able to identify and analyze relationships among racial and ethnic groups within the larger society. (S13407)

**SOC 240\* Social Psychology** 3 0 0 3

Prerequisites: Take one: DRE 098 or RED 090 or  
ENG 095 or ENG 111

Corequisites: None

This course examines the influence of culture and social groups on individual behavior and personality. Emphasis is placed on the process of socialization, communication, conformity, deviance, interpersonal attraction, intimacy, race and ethnicity, small group experiences, and social movements. Upon completion, students should be able to identify and analyze cultural and social forces that influence the individual in a society. (S13849)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>SOC 242* Sociology of Deviance</b>	3	0	0	3

Prerequisites: Take SOC 210  
Corequisites: None

This course provides an overview of deviant behavior and the processes involved in its definition, causation, prevention, control, and treatment. Topics include theories of causation, social control, delinquency, victimization, criminality, the criminal justice system, punishment, rehabilitation, and restitution. Upon completion, students should be able to identify and analyze issues surrounding the nature and development of social responses to deviance. (S13866)

<b>SON 110 Introduction to Sonography</b>	1	3	3	3
---	---	---	---	---

Prerequisites: None  
Corequisites: None  
Restrictions: Must be enrolled in A45440  
Medical Sonography program

This course provides an introduction to medical sonography. Topics include applications, sonographic terminology, history, patient care, ethics, and basic skills. Upon completion, students should be able to define professionalism and sonographic applications and perform basic patient care skills and preliminary scanning techniques. (S13282)

<b>SON 111 Sonographic Physics</b>	3	3	0	4
------------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None  
Restrictions: Must be enrolled in A45440  
Medical Sonography program

This course introduces ultrasound physical principles, bioeffects, and sonographic instrumentation. Topics include sound wave mechanics, transducers, sonographic equipment, Doppler physics, bioeffects, and safety. Upon completion, students should be able to demonstrate knowledge of sound wave mechanics, transducers, sonography equipment, the Doppler effect, bioeffects, and safety. (S23619)

<b>SON 120 SON Clinical Ed I</b>	0	0	15	5
----------------------------------	---	---	----	---

Prerequisites: Take SON 110  
Corequisites: None  
Restrictions: Must be enrolled in A45440  
Medical Sonography program

This course provides active participation in clinical sonography. Emphasis is placed on imaging, processing, and technically evaluating sonographic examinations. Upon completion, students should be able to image, process, and evaluate sonographic examinations. (S10505)

	Class	Lab	Clinical	Credits
<b>SON 121 SON Clinical Ed II</b>	0	0	15	5

Prerequisites: Take SON 120  
Corequisites: None  
Restrictions: Must be enrolled in A45440  
Medical Sonography program

This course provides continued active participation in clinical sonography. Emphasis is placed on imaging, processing, and technically evaluating sonographic examinations. Upon completion, students should be able to image, process, and evaluate sonographic examinations. (S10547)

<b>SON 130 Abdominal Sonography I</b>	2	3	0	3
---------------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None  
Restrictions: Must be enrolled in A45440  
Medical Sonography program

This course introduces abdominal and small parts sonography. Emphasis is placed on the sonographic anatomy of the abdomen and small parts with correlated laboratory exercises. Upon completion, students should be able to recognize and acquire basic abdominal and small parts images. (S11569)

<b>SON 131 Abdominal Sonography II</b>	1	3	0	2
--	---	---	---	---

Prerequisites: Take SON 130  
Corequisites: None  
Restrictions: Must be enrolled in A45440  
Medical Sonography program

This course covers abdominal and small parts pathology recognizable on sonograms. Emphasis is placed on abnormal sonograms of the abdomen and small parts with correlated sonographic cases. Upon completion, students should be able to recognize abnormal pathological processes in the abdomen and on small parts sonographic examinations. (S11608)

<b>SON 140 Gynecological Sonography</b>	2	0	0	2
---	---	---	---	---

Prerequisites: Take SON 110  
Corequisites: None  
Restrictions: Must be enrolled in A45440  
Medical Sonography program

This course is designed to relate gynecological anatomy and pathology to sonography. Emphasis is placed on gynecological relational anatomy, endovaginal anatomy, and gynecological pathology. Upon completion, students should be able to recognize normal and abnormal gynecological sonograms. (S10950)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>SON 220 SON Clinical Ed III</b>	0	0	24	8
Prerequisites: Take SON 121				
Corequisites: None				
Restrictions: Must be enrolled in A45440 Medical Sonography program				

This course provides continued active participation in clinical sonography. Emphasis is placed on imaging, processing, and technically evaluating sonographic examinations. Upon completion, students should be able to image, process, and evaluate sonographic examinations. (S11100)

<b>SON 221 SON Clinical Ed IV</b>	0	0	24	8
Prerequisites: Take SON 220				
Corequisites: None				
Restrictions: Must be enrolled in A45440 Medical Sonography program				

This course provides continued active participation off campus in clinical sonography. Emphasis is placed on imaging, processing, and technically evaluating sonographic examinations. Upon completion, students should be able to image, process, and evaluate sonographic examinations. (S11048)

<b>SON 225 Case Studies</b>	0	3	0	1
Prerequisites: Take one: SON 110 or CVS 163				
Corequisites: None				
Restrictions: Must be enrolled in A45440 Medical Sonography program				

This course offers the opportunity to present interesting cases found during clinical education. Emphasis is placed on presentation methods which integrate patient history, laboratory results, and sonographic findings with reference to current literature. Upon completion, students should be able to correlate information necessary for complete presentation of case studies. (S16541)

<b>SON 241 Obstetrical Sonography I</b>	2	0	0	2
Prerequisites: Take SON 110				
Corequisites: None				
Restrictions: Must be enrolled in A45440 Medical Sonography program				

This course covers normal obstetrical sonography techniques, the normal fetal environment, and abnormal first trimester pregnancy states. Topics include gestational dating, fetal anatomy, uterine environment, and first trimester complications. Upon completion, students should be able to produce gestational sonograms which document age, evaluate the uterine environment, and recognize first trimester complications. (S10156)

	Class	Lab	Clinical	Credits
<b>SON 242 Obstetrical Sonography II</b>	2	0	0	2
Prerequisites: Take SON 241				
Corequisites: None				
Restrictions: Must be enrolled in A45440 Medical Sonography program				

This course covers second and third trimester obstetrical complications and fetal anomalies. Topics include abnormal fetal anatomy and physiology and complications in the uterine environment. Upon completion, students should be able to identify fetal anomalies, fetal distress states, and uterine pathologies. (S10167)

<b>SON 250 Vascular Sonography</b>	1	3	0	2
Prerequisites: Take SON 111				
Corequisites: None				
Restrictions: Must be enrolled in at least one: Med Sonography program – A45440 Cardio Sonography program – A45160				

This course provides an in-depth study of the anatomy and pathology of the vascular system. Topics include peripheral arterial, peripheral venous, and cerebrovascular disease testing. Upon completion, students should be able to identify normal vascular anatomy and recognize pathology of the vascular system. (S23622)

<b>SON 272 Advanced Pathology</b>	0	3	0	1
Prerequisites: Take SON 110				
Corequisites: None				
Restrictions: Must be enrolled in at least one: Med Sonography program – A45440 Cardio Sonography program – A45160				

This course is designed to concentrate on complex pathological states seen on sonograms. Emphasis is placed on systemic diseases and multi-organ disease states as seen on sonograms. Upon completion, students should be able to research, present, and discuss system diseases presented on sonograms. (S13095)

<b>SON 289 Sonographic Topics</b>	2	0	0	2
Prerequisites: Take SON 110				
Corequisites: None				
Restrictions: Must be enrolled in A45440 Medical Sonography program				

This course provides an overview of sonographic topics in preparation for certification examinations. Emphasis is placed on registry preparation. Upon completion, students should be able to demonstrate a comprehensive knowledge of sonography and be prepared for the registry examinations. (S22124)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>SPA 111* Elementary Spanish I</b>	3	0	0	3

Prerequisites: Take one: DRE 097 or RED 080 or  
RED 090 or ENG 085 or  
ENG 095 or ENG 111

Corequisites: Take SPA 181

This course introduces the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness. *Students who have completed two units of foreign language in high school are advised to take the CLEP (College Level Examination for Placement) before registering for SPA 111. The CLEP is given daily at the University of North Carolina-Wilmington Testing Center and requires a fee. Students should make an appointment by calling 910-362-7444. CFCC discourages students from taking elementary levels of global languages if they have had satisfactory grades in high school language courses.* (S13047)

<b>SPA 112* Elementary Spanish II</b>	3	0	0	3
---------------------------------------	---	---	---	---

Prerequisites: Take SPA 111

Corequisites: Take SPA 182

This course is a continuation of SPA 111 focusing on the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Spanish and demonstrate further cultural awareness. (S12995)

<b>SPA 120 Spanish for the Workplace</b>	3	0	0	3
--	---	---	---	---

Prerequisites: None

Corequisites: None

This course offers applied Spanish for the workplace to facilitate basic communication with people whose native language is Spanish. Emphasis is placed on oral communication and career-specific vocabulary that targets health, business, and/or public service professions. Upon completion, students should be able to communicate at a functional level with native speakers and demonstrate cultural sensitivity. **\*\*This is a Spring Only Class\*\*** (S13709)

<b>SPA 141* Culture and Civilization</b>	3	0	0	3
--	---	---	---	---

Prerequisites: None

Corequisites: None

This course provides an opportunity to explore issues related to the Hispanic world. Topics include historical and current events, geography, and customs. Upon completion, students should be able to identify and discuss selected topics and cultural differences related to the Hispanic world. **\*\*This is a Spring Only Class\*\*** (S11221)

	Class	Lab	Clinical	Credits
<b>SPA 161* Cultural Immersion</b>	2	3	0	3

Prerequisites: Take SPA 111

Corequisites: None

This course explores Hispanic culture through intensive study on campus and field experience in a host country or comparable area within the United States. Topics include an overview of linguistic, historical, geographical, sociopolitical, economic, and/or artistic concerns of the area visited. Upon completion, students should be able to exhibit first-hand knowledge of issues pertinent to the host area and demonstrate understanding of cultural differences. **\*\*This is a Fall Only Class\*\*** (S23680)

<b>SPA 181* Spanish Lab 1</b>	0	2	0	1
-------------------------------	---	---	---	---

Prerequisites: Take one: DRE 097 or DRE 098 or

ENG 085 or ENG 095 or

ENG 111 or RED 080 or RED 090

Corequisites: Take SPA 111

This course provides an opportunity to enhance acquisition of the fundamental elements of the Spanish language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness. *Students who have completed two units of foreign language in high school are advised to take the CLEP (College Level Examination for Placement) before registering for SPA 111. The CLEP is given daily at the University of North Carolina-Wilmington Testing Center and requires a fee. Students should make an appointment by calling 910-362-7444. CFCC discourages students from taking elementary levels of global languages if they have had satisfactory grades in high school language courses.* (S13916)

<b>SPA 182* Spanish Lab 2</b>	0	2	0	1
-------------------------------	---	---	---	---

Prerequisites: Take SPA 111 and SPA 181

Corequisites: Take SPA 112

This course provides an opportunity to enhance acquisition of the fundamental elements of the Spanish language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Spanish and demonstrate cultural awareness. (S24207)

<b>SPA 211* Intermediate Spanish I</b>	3	0	0	3
--	---	---	---	---

Prerequisites: Take SPA 112

Corequisites: None

This course provides a review and expansion of the essential skills of the Spanish language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. (S11415)

Courses designate with an asterisk (\*) are college transfer courses. Courses designate with an asterisk and u (\*\*) are UGETC courses.

Check with your senior institution to ensure the course will be appropriate for your program at that institution

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>SPA 212* Intermediate Spanish II</b>	3	0	0	3

Prerequisites: Take SPA 211  
Corequisites: None

This course provides a continuation of SPA 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. (S11504)

<b>SPA 215 Spanish Phonetics/Structure</b>	3	0	0	3
--	---	---	---	---

Prerequisites: None  
Corequisites: None

This course is designed to improve the understanding of Spanish phonetics and the structure of the Spanish language. Topics include the structure of the Spanish language, phonology, morphology, and syntax. Upon completion, students should have an understanding of the phonetics and structure of the Spanish language and be able to contrast the structure of the Spanish and English languages. **This is a Summer Only Class\*\*** (S13285)

<b>SPA 221* Spanish Conversation</b>	3	0	0	3
--------------------------------------	---	---	---	---

Prerequisites: Take SPA 212  
Corequisites: None

This course provides an opportunity for intensive communication in spoken Spanish. Emphasis is placed on vocabulary acquisition and interactive communication through the discussion of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, express ideas and opinions clearly, and engage in formal and informal conversations. **This is a Summer Only Class\*\*** (S14295)

<b>SPA 231* Reading and Composition</b>	3	0	0	3
---	---	---	---	---

Prerequisites: Take SPA 212  
Corequisites: None

This course provides an opportunity for intensive reading and composition in Spanish. Emphasis is placed on the use of literary and cultural materials to enhance and expand reading and writing skills. Upon completion, students should be able to demonstrate in writing an in-depth understanding of assigned readings. **\*\*This is a Spring Only Class\*\*** (S12741)

<b>SPA 281* Spanish Lab 3</b>	0	2	0	1
-------------------------------	---	---	---	---

Prerequisites: Take SPA 182  
Corequisites: Take SPA 211

This course provides an opportunity to enhance the review and expansion of the essential skills of the Spanish language. Emphasis is placed on the study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. (S13831)

	Class	Lab	Clinical	Credits
<b>SPA 282* Spanish Lab 4</b>	0	2	0	1

Prerequisites: Take SPA 281  
Corequisites: Take SPA 212

This course provides an opportunity to enhance the review and expansion of the essential skills of the Spanish language. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. (S13801)

<b>SPI 113 Introduction to Spanish Interpreting</b>	3	0	0	3
---	---	---	---	---

Prerequisites: Take ENG 111  
Corequisites: None

This course introduces the field of interpreting, interpretation models, cognitive processes associated with interpretation, professional ethical standards, employment opportunities, and working conditions. Topics include specialized jargon, code of ethics, interpreter assessments/qualifications, and protocol associated with various settings. Upon completion, students should be able to explain the rationale for placement of interpreters and apply ethical standards to a variety of working situations. **\*\*This is a Fall Only Class\*\*** (S12939)

<b>SPI 114 Analytical Skills Spanish Interpreting</b>	3	0	0	3
---	---	---	---	---

Prerequisites: None  
Corequisites: None

This course is designed to improve cognitive processes associated with interpreting, listening, short-term memory, semantic equivalence, visual/auditory processing, thought organization and logic. Emphasis is placed on developing skills necessary to generate equivalent messages between Spanish and English. Upon completion, students should be able to consecutively interpret non-technical, interactive messages between Spanish and English. **\*\*This is a Fall Only Class\*\*** (S12853)

<b>SPI 213 Review of Grammar</b>	3	0	0	3
----------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course is designed to review the common elements of Spanish grammar in oral and written form. Emphasis is placed on the fundamental grammatical concepts of the Spanish language. Upon completion, students should be able to demonstrate comprehension and correct usage of specified grammatical concepts in both oral and written form. **\*\*This is a Fall Only Class\*\*** (S11896)

## CAPE FEAR COMMUNITY COLLEGE

		Class	Lab	Clinical	Credits
<b>SPI 214</b>	<b>Introduction to Translation</b>	3	0	0	3

Prerequisites: None  
Corequisites: None

This course is designed to improve the quality of Spanish to English and English to Spanish translation. Emphasis is placed on the practice of Spanish to English and English to Spanish translation in a variety of prose styles. Upon completion, students should be able to demonstrate the usage and understanding of the processes involved in translating. **\*\*This is a Spring Only Class\*\*** (S11799)

<b>SPI 221</b>	<b>Consecutive Interp I</b>	3	0	0	3
----------------	-----------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces skills of consecutive interpretation used by professional interpreters. Topics include memory development, note taking, sight translation and non-verbal communication. Upon completion, students should be able to apply consecutive interpretation techniques in a variety of role-playing situations and settings. (S11731)

<b>SPI 241</b>	<b>Legal Interpreting I</b>	2	3	0	3
----------------	-----------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course is designed for students planning to specialize in legal interpreting in areas such as the courtroom, attorney offices and law enforcement. Emphasis is placed on the development of legal terminology vocabulary and application of legal standards. Upon completion, students should be able to consecutively interpret and provide on-sight translation renderings of basic messages in a variety of legal settings. **\*\*This is a Summer Only Class\*\*** (S24812)

<b>SPI 243</b>	<b>Medical Interpreting I</b>	2	3	0	3
----------------	-------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course is designed for students planning to specialize in medical interpreting in settings such as hospitals, physicians' offices and clinics. Emphasis is placed on the development of medical terminology vocabulary through active role-play. Upon completion, students should be able to apply medical interpretation techniques in a variety of medical situations. (S24813)

<b>SPI 245</b>	<b>Community Interpreting I</b>	2	3	0	3
----------------	---------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course is designed to expose students to interpreting in areas such as social services, business and industry. Emphasis is placed on the development of social services, business and industry vocabulary through role-play. Upon completion, students should be able to consecutively interpret basic messages in a variety of social services, business and industry situations. (S12644)

		Class	Lab	Clinical	Credits
<b>SST 110</b>	<b>Introduction to Sustainability</b>	3	0	0	3

Prerequisites: None  
Corequisites: None

This course introduces sustainability issues and individual contributions toward environmental sustainability. Topics include management processes needed to maximize renewable/non-renewable energy resources, economics of sustainability, and reduction of environmental impacts. Upon completion, students should be able to discuss sustainability practices and demonstrate an understanding of their effectiveness and impacts. (S22468)

<b>SST 120</b>	<b>Energy Use Analysis</b>	2	2	0	3
----------------	----------------------------	---	---	---	---

Prerequisites: Take on set:  
Set 1: DMA 010, DMA 020, and DMA 030  
Set 2: MAT 060  
Corequisites: None

This course introduces the principles of analyzing energy use, energy auditing tools and techniques, conservation techniques, and calculating energy savings. Topics include building system control theory, calibrating digital controls, energy loss calculations, and applicable conservation techniques. Upon completion, students should be able to demonstrate an understanding of energy use, audits, and controls in the analysis of energy consumption. **\*\*This is a Spring Only Class\*\*** (S22469)

<b>SST 130</b>	<b>Modeling Renewable Energy</b>	2	2	0	3
----------------	----------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces software and other technologies used for modeling renewable energy systems. Topics include renewable energy modeling software applications, data analysis, renewable energy sources, and cost of renewable energy systems. Upon completion, students should be able to use appropriate technology to model the effectiveness of renewable energy systems. **\*\*This is a Summer Only Class\*\*** (S22470)

<b>SST 140</b>	<b>Green Building and Design Concepts</b>	3	0	0	3
----------------	---	---	---	---	---

Prerequisites: None  
Corequisites: None

This course is designed to introduce the student to sustainable building design and construction principles and practices. Topics include sustainable building rating systems and certifications, energy efficiency, indoor environmental quality, sustainable building materials and water use. Upon completion, students should be able to identify the principles and practices of sustainable building design and construction. **\*\*This is a Fall Only Class\*\*** (S23302)

		Class	Lab	Clinical	Credits
<b>SST 210</b>	<b>Issues in Sustainability</b>	3	0	0	3

Prerequisites: Take SST 110

Corequisites: None

This course introduces the long-term impacts and difficulties of applying sustainability concepts in an organization, business, or society. Topics include the application of sustainable technologies and the analysis of affordability, efficiencies, recycling, and small and large-scale design. Upon completion, students should be able to recognize the possible limitations of sustainable technologies and be prepared to reconcile such conflicts. **\*\*This is a Fall Only Class\*\*** (S22472)

<b>SST 250</b>	<b>Sustainability Capstone Project</b>	1	6	0	3
----------------	--	---	---	---	---

Prerequisites: Take SST 110

Corequisites: None

This course introduces an integrated team approach to a sustainability topic of interest to students, faculty, or professional community. Topics include problem identification, proposal preparation, conceptual design, and an effective project work schedule. Upon completion, students should be able to integrate the many facets of a topic based on environmental sustainability into a completed project. **\*This is a Spring Only Class\*** (S22473)

<b>SUR 110</b>	<b>Introduction to Surgical Technology</b>	3	0	0	3
----------------	--	---	---	---	---

Prerequisites: None

Corequisites: Take SUR 111

Restrictions: Must be enrolled in A45740

Surgical

Technology program

This course provides a comprehensive study of peri-operative care, patient care concepts, and professional practice concepts within the profession of surgical technology. Topics include: introductory concepts, organizational structure and relationships, legal, ethical and moral issues, medical terminology, pharmacology, anesthesia, wound healing management concepts, and the technological sciences. Upon completion, students should be able to apply theoretical knowledge of the course topics to the practice of surgical technology. (S23183)

<b>SUR 111</b>	<b>Periop Patient Care</b>	5	6	0	7
----------------	----------------------------	---	---	---	---

Prerequisites: None

Corequisites: Take SUR 110

Restrictions: Must be enrolled in A45740

Surgical Technology program

This course provides the surgical technology student the theoretical knowledge required to function in the pre-operative, intra-operative, and post-operative role. Topics include asepsis, disinfection and sterilization, physical environment, instrumentation, equipment, peri-operative patient care, and peri-operative case management. Upon completion, students should be able to apply the principles and practice of the peri-operative team member to the operative environment. (S23184)

		Class	Lab	Clinical	Credits
<b>SUR 122</b>	<b>Surgical Procedures I</b>	5	3	0	6

Prerequisites: Take SUR 110 and SUR 111

Corequisites: Take SUR 123

Restrictions: Must be enrolled in A45740

Surgical Technology program

This course provides an introduction to selected basic and intermediate surgical specialties that students are exposed to the first clinical rotation. Emphasis is placed on related surgical anatomy, pathology, and procedures that enhance theoretical knowledge of patient care, instrumentation, supplies, and equipment. Upon completion, students should be able to correlate, integrate, and apply theoretical knowledge of the course topics to the clinical operative environment. (S24471)

<b>SUR 123</b>	<b>SUR Clinical Practice I</b>	0	0	21	7
----------------	--------------------------------	---	---	----	---

Prerequisites: Take SUR 110 and SUR 111

Corequisites: Take SUR 122

Restrictions: Must be enrolled in A45740

Surgical Technology program

This course provides clinical experience with a variety of perioperative assignments to build upon skills learned in SUR 111. Emphasis is placed on the scrub and circulating roles of the surgical technologist including aseptic technique and basic case preparation for selected surgical procedures. Upon completion, students should be able to prepare, assist with, and dismantle basic surgical cases in both the scrub and circulating roles. (S12656)

<b>SUR 134</b>	<b>Surgical Procedures II</b>	5	0	0	5
----------------	-------------------------------	---	---	---	---

Prerequisites: Take SUR 123

Corequisites: None

Restrictions: Must be enrolled in A45740

Surgical Technology program

This course provides a comprehensive study of intermediate and advanced surgical specialties that students are exposed to in the second clinical rotation. Emphasis is placed on related surgical anatomy, pathology, and procedures that enhance theoretical knowledge of patient care, instrumentation, supplies, and equipment. Upon completion, students should be able to correlate, integrate, and apply theoretical knowledge of the course topics to the clinical operative environment. (S24472)

<b>SUR 135</b>	<b>SUR Clinical Practice II</b>	0	0	12	4
----------------	---------------------------------	---	---	----	---

Prerequisites: Take SUR 123

Corequisites: Take SUR 134

Restrictions: Must be enrolled in A45740

Surgical Technology program

This course provides clinical experience with a variety of perioperative assignments to build skills required for complex perioperative patient care. Emphasis is placed on greater technical skills, critical thinking, speed, efficiency, and autonomy in the operative setting. Upon completion, students should be able to function in the role of an entry-level surgical technologist. (S22703)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>SUR 137 Professional Success Preparation</b>	1	0	0	1

Prerequisites: Take SUR 123

Corequisites: Take SUR 134 and SUR 135

Restrictions: Must be enrolled in A45740  
Surgical Technology program

This course provides employability skills and an overview of theoretical knowledge in preparation for certification. Topics include test-taking strategies, resume preparation, interviewing strategies, communication skills, and teamwork concepts. Upon completion, students should be able to prepare a resume, demonstrate appropriate interview techniques, and identify strengths and weaknesses in preparation for certification. (S24549)

<b>SUR 210 Advanced SUR Clinical Practice</b>	0	0	6	2
---	---	---	---	---

Prerequisites: None

Corequisites: None

Restrictions: Must be enrolled in A45740  
Surgical Technology program

This course is designed to provide individualized experience in advanced practice, education, circulating, and managerial skills. Emphasis is placed on developing and demonstrating proficiency in skills necessary for advanced practice. Upon completion, students should be able to assume leadership roles in a chosen specialty area. (S22704)

<b>SUR 211 Advanced Theoretical Concepts</b>	2	0	0	2
--	---	---	---	---

Prerequisites: None

Corequisites: None

Restrictions: Must be enrolled in A45740  
Surgical Technology program

This course covers theoretical knowledge required for extension of the surgical technologist role. Emphasis is placed on advanced practice in complex surgical specialties, educational methodologies, and managerial skills. Upon completion, students should be able to assume leadership roles in a chosen specialty area. (S22705)

Class Lab Clinical Credits

Class Lab Clinical Credits

# TDP 110 – TRP 100

**TDP 110 Introduction to 3D Printing** 2 3 0 3

Prerequisites: Take DFT 154  
Corequisites: None

This course covers the historical, social and ethical issues, as well as the basic techniques surrounding 3D Printing. Topics include current and historical events, social impact of the technology and basic model creation and manipulation techniques. Upon completion, students should be able to demonstrate an understanding of the major advantages and disadvantages of 3D Printing technology as well as demonstrate an ability to create and print a simple project. (S24064)

**TNE 245 Network Perimeter Security** 2 3 0 3  
Prerequisites: None  
Corequisites: None

This course introduces a variety of ways to implement security into network designs and upgrades. Topics include securing the network through the use of access lists, routers, firewalls, IPchains, and stateful packet filtering. Upon completion, students should be able to demonstrate a variety of techniques to harden the network from outside threats. (S21617)

**TNE 255 Network Servers** 2 3 0 3  
Prerequisites: Take one: CET 130 or CTS 220 or NOS 110  
Corequisites: None

This course covers the activities and methods required to assure productive and reliable operation of network servers. Topics include planning, installing, configuring, and maintaining servers, including knowledge of server-level hardware implementations, operating systems, data storage subsystems, data recovery, and I/O subsystems. Upon completion, students should be able to configure and maintain a network server. (S21619)

**TRF 110 Introduction to Turfgrass Cultivation & ID and Identification** 3 2 0 4  
Prerequisites: None  
Corequisites: None

This course covers the principles of reproduction, growth development, species characteristics, establishment and maintenance of golf courses and sports fields, and lawns. Topics include principles of reproduction, growth development, species characteristics, establishment and maintenance of golf courses and sports fields, and lawn applications. Upon completion, students should be able to identify turfgrass species and develop an establishment and maintenance plan for high quality turf areas in accordance with sustainable practices. **\*\*This is a Summer Only Class\*\*** (S23406)

Class Lab Clinical Credits

**TRN 110 Introduction to Transport Technology** 1 2 0 2

Prerequisites: None  
Corequisites: None

This course covers workplace safety, hazardous materials, environmental regulations, hand tools, service information, basic concepts, vehicle systems, and common transportation industry terminology. Topics include familiarization with major vehicle systems, proper use of various hand and power tools, material safety data sheets, and personal protective equipment. Upon completion, students should be able to demonstrate appropriate safety procedures, identify and use basic shop tools, and describe government regulations regarding transportation repair facilities. (S23455)

**TRN 120 Basic Transportation Electricity** 4 3 0 5

Prerequisites: Take one: DRE 097 or RED 080 or RED 090 or ENG 085 or ENG 095 or ENG 111

Corequisites: None

This course covers basic electrical theory, wiring diagrams, test equipment, and diagnosis, repair and replacement of batteries, starters, and alternators. Topics include Ohm's Law, circuit construction, wiring diagrams, circuit testing, and basic troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair basic wiring, battery, starting, charging, and electrical concerns. **\*\*This is a Fall Only Class\*\*** (S23456)

**TRN 130 Introduction to Sustainable Transportation** 2 2 0 3

Prerequisites: None  
Corequisites: None

This course provides an overview of alternative fuels and alternative fuel vehicles. Topics include composition and use of alternative fuels including compressed natural gas, biodiesel, ethanol, hydrogen, and synthetic fuels, hybrid/electric, and vehicles using alternative fuels. Upon completion, students should be able to identify alternative fuel vehicles, explain how each alternative fuel delivery system operates, and perform minor repairs. **\*\*This is a Spring Only Class\*\*** (S23458)

## CAPE FEAR COMMUNITY COLLEGE

		Class	Lab	Clinical	Credits
<b>TRN 140</b>	<b>Transportation Climate Control</b>	1	2	0	2

Prerequisites: None  
Corequisites: Take TRN 140A

This course covers the theory of refrigeration and heating, electrical/electronic/pneumatic controls, and diagnosis and repair of climate control systems. Topics include diagnosis and repair of climate control components and systems, recovery/recycling of refrigerants, and safety and environmental regulations. Upon completion, students should be able to diagnose and repair vehicle climate control systems. **\*\*This is a Summer Only Class\*\*** (S23460)

<b>TRN 140A</b>	<b>Transportation Climate Control Lab</b>	1	2	0	2
-----------------	---	---	---	---	---

Prerequisites: None  
Corequisites: Take TRN 140

This course provides experiences for enhancing student skills in the diagnosis and repair of transportation climate control systems. Emphasis is placed on reclaiming, recovery, recharging, leak detection, climate control components, diagnosis, air conditioning equipment, tools and safety. Upon completion, students should be able to describe the operation, diagnose, and safely service climate control systems using appropriate tools, equipment, and service information. **\*\*This is a Summer Only Class\*\*** (S23461)

<b>TRN 145</b>	<b>Advanced Transportation Electronics</b>	2	3	0	3
----------------	--	---	---	---	---

Prerequisites: Take TRN 120  
Corequisites: None

This course covers advanced transportation electronic systems including programmable logic controllers, on-board data networks, telematics, high voltage systems, navigation, collision avoidance systems and electronic accessories. Topics include interpretation of wiring schematics, reprogramming PLC's, diagnosing and testing data networks and other electronic concerns. Upon completion, students should be able to reprogram PLC's, diagnose and test data networks and other electronic concerns, and work safely with high voltage systems. (S23462)

<b>TRN 180</b>	<b>Basic Welding for Transportation</b>	1	4	0	3
----------------	---	---	---	---	---

Prerequisites: None  
Corequisites: None

This course covers the terms and procedures for welding various metals used in the transportation industry with an emphasis on personal safety and environmental health. Topics include safety and precautionary measures, setup/operation of MIG equipment, metal identification methods, types of welds/joints, techniques, inspection methods, cutting processes and other related issues. Upon completion, students should be able to demonstrate a basic knowledge of welding operations and safety procedures according to industry standard. (S23464)

		Class	Lab	Clinical	Credits
<b>TRP 100</b>	<b>Truck Driver Training</b>	6	18	0	12

Prerequisites: None  
Corequisites: None

This course provides training in inspecting and driving tractor trailers and assuming driver responsibilities on the road and at pickup and delivery points. Emphasis is placed on defensive driving, federal motor carrier safety regulations, trip planning, cargo handling, vehicle systems, hours of service, and accident prevention. Upon completion, students should be able to demonstrate the skills required for the commercial driver's license and employment. (S14087)

# VET 110 – VET 237

**VET 110 Animal Breeds and Husbandry** 2 2 0 3

Prerequisites: None

Corequisites: None

Restrictions: Must be enrolled in A45780  
Veterinary Medical Technology program

This course provides a study of the individual breed characteristics and management techniques of the canine, feline, equine, bovine, porcine, ovine, caprine, and laboratory animals. Topics include physiological data, animal health management, and basic care and handling of animals. Upon completion, students should be able to identify breeds of domestic and laboratory animals, list physiological data, and outline basic care, handling, and management techniques. (S12169)

**VET 114 Introduction to Veterinary Medicine Technology** 1 0 0 1

Prerequisites: None

Corequisites: None

Restrictions: Must be enrolled in A45780  
Veterinary Medical Technology program

This course introduces the standard operating procedures and responsibilities of veterinary medical technology departments, common zoonotic diseases, safety and ethical issues, and USDA/DEA/OSHA regulations/compliance. Emphasis is placed on standard operating procedures, zoonotic diseases, safety and ethical issues, and the importance of USDA/DEA/OSHA regulations and compliance. Upon completion, students should be able to perform duties assigned in veterinary medical technology, recognize potential zoonotic diseases, and establish safety protocols/regulatory compliance. (S12151)

**VET 120 Veterinary Anatomy & Physiology** 3 3 0 4

Prerequisites: None

Corequisites: None

Restrictions: Must be enrolled in A45780  
Veterinary Medical Technology program

This course covers the structure and function of the animal body with emphasis on the similarities and differences among domestic animals. Emphasis is placed on the structure and function of the major physiological systems of domestic, laboratory, and zoo animals. Upon completion, students should be able to identify relevant anatomical structure and describe basic physiological processes for the major body systems. (S14046)

**VET 121 Veterinary Medical Terminology** 3 0 0 3

Prerequisites: None

Corequisites: None

Restrictions: Must be enrolled in A45780  
Veterinary Medical Technology program

This course covers the basic medical terminology required for veterinary technicians. Topics include the pronunciation, spelling and definition of word parts and vocabulary terms unique to the anatomy, clinical pathology, and treatment of animals. Upon completion, students should be able to demonstrate knowledge and understanding of basic medical terms as they relate to veterinary medicine. (S20429)

**VET 123 Veterinary Parasitology** 2 3 0 3

Prerequisites: None

Corequisites: None

Restrictions: Must be enrolled in A45780  
Veterinary Medical Technology program

This course covers the common internal and external parasites of companion animals, livestock, selected zoo animals, and wild animals. Emphasis is placed on laboratory diagnosis of the most common forms of the parasite through fecal, urine, skin, and blood exams. Upon completion, students should be able to identify common parasites and discuss life cycles, treatment and prevention strategies, and public health aspects of veterinary parasitology. (S14060)

**VET 125 Veterinary Diseases I** 2 0 0 2

Prerequisites: None

Corequisites: None

Restrictions: Must be enrolled in A45780  
Veterinary Medical Technology program

This course introduces basic immunology, fundamentals of disease processes including inflammation, and common infectious diseases of animals and their prevention through immunization. Topics include fundamental disease processes, principles of medical therapy, immunologic processes, infections and zoonotic diseases of domestic animals, and prevention of disease. Upon completion, students should be able to describe basic disease and immunological processes, recognize infections and zoonotic diseases, and discuss prevention strategies. (S14075)

**VET 126 Veterinary Diseases II** 1 3 0 2

Prerequisites: Take VET 125

Corequisites: None

Restrictions: Must be enrolled in A45780  
Veterinary Medical Technology program

This course is the study of basic disease processes and fundamentals of pathology, and other selected topics of veterinary medicine. Topics include histopathology, pathologic changes associated with common diseases of animals, necropsy procedures, and specimen handling. Upon completion, students should be able to describe basic pathologic changes associated with disease, recognize histopathologic changes, and properly perform collection and submission of necropsy specimens. (S14050)

## CAPE FEAR COMMUNITY COLLEGE

		Class	Lab	Clinical	Credits
<b>VET 131</b>	<b>Veterinary Lab Techniques I</b>	2	3	0	3
Prerequisites: Take VET 123					
Corequisites: Take VET 133					
Restrictions: Must be enrolled in A45780					
Veterinary Medical Technology program					

This course includes the fundamental study of hematology, hemostasis, and urinalysis. Emphasis is placed on basic hematology and urinalysis techniques, manual skill development, instrumentation, quality control, and applications to veterinary science. Upon completion, students should be able to perform manual and automated CBCs, hemostatic assays, and complete urinalysis and maintain laboratory equipment and quality control. (S13057)

<b>VET 133</b>	<b>Veterinary Clinical Practice I</b>	2	3	0	3
Prerequisites: None					
Corequisites: Take VET 120					
Restrictions: Must be enrolled in A45780					
Veterinary Medical Technology program					

This course introduces basic practices and techniques of the veterinary clinic and biomedical research fields for dogs, cats, and laboratory animals. Topics include physical exam, husbandry, housing, sanitation, restraint and handling, administration of medications, anesthesia and euthanasia techniques, grooming, and dentistry. Upon completion, students should be able to properly restrain, medicate, examine, groom, and maintain each of the species studied. (S13076)

<b>VET 137</b>	<b>Veterinary Office Practices</b>	1	2	0	2
Prerequisites: None					
Corequisites: None					
Restrictions: Must be enrolled in A45780					
Veterinary Medical Technology program					

This course is designed to teach basic administrative techniques, client communication skills, and regulations pertaining to veterinary medicine. Topics include record keeping, telephone techniques, professional liability, office procedures, state and national regulatory laws, human relations, and animal welfare. Upon completion, students should be able to demonstrate effective communication techniques, office procedures, and knowledge of regulatory laws and issues relating to animal welfare. (S12146)

		Class	Lab	Clinical	Credits
<b>VET 211</b>	<b>Veterinary Lab Techniques II</b>	2	3	0	3
Prerequisites: Take VET 131					
Corequisites: Take VET 213					
Restrictions: Must be enrolled in A45780					
Veterinary Medical Technology program					

This course covers advanced hematology, serology, immunology, and clinical chemistry. Topics include advanced hematologic, serologic, and immunologic test procedures: manual and automated clinical chemistry procedures: laboratory safety: and quality control. Upon completion, students should be able to collect, prepare, and analyze serum and plasma samples and outline quality control and safety procedures. (S13112)

<b>VET 212</b>	<b>Veterinary Lab Techniques III</b>	2	3	0	3
Prerequisites: Take VET 211					
Corequisites: Take VET 214					
Restrictions: Must be enrolled in A45780					
Veterinary Medical Technology program					

This course introduces the basic principles of microbiology, histology, and cytology. Emphasis is placed on collection of microbiological samples for culture and sensitivity and collection and preparation of samples for histological and cytological examination. Upon completion, students should be able to perform microbiological culture and sensitivity and evaluate cytology and histology specimens. (S13216)

<b>VET 213</b>	<b>Veterinary Clinical Practice II</b>	1	9	0	4
Prerequisites: Take VET 133					
Corequisites: None					
Restrictions: Must be enrolled in A45780					
Veterinary Medical Technology program					

This course covers basic radiography, anesthesia techniques, dentistry, sample collection and handling, surgical assistance and instrumentation, sterile techniques, and patient record keeping. Topics include basic radiography, injectable and gas anesthesia, dentistry, instrument identification and care, sterile surgical technique, specimen collection and processing, and maintenance of patient records. Upon completion, students should be able to take and process radiographs, administer and monitor anesthesia, assist in surgical procedures, collect specimens, and maintain surgical records. (S13159)

## COURSE DESCRIPTIONS

		<u>Class</u>	<u>Lab</u>	<u>Clinical</u>	<u>Credits</u>
<b>VET 214</b>	<b>Veterinary Clinical Practice III</b>	1	9	0	4

Prerequisites: Take VET 213  
 Corequisites: None  
 Restrictions: Must be enrolled in A45780  
                   Veterinary Medical Technology program

This course covers advanced anesthetic techniques, special radiographic techniques, advanced dentistry, sample collection and processing, bandaging, and emergency and critical care procedures. Topics include induction and maintenance of anesthesia, radiographic contrast studies, advanced dentistry, external coaptation, intensive care procedures, and advanced sample collection techniques. Upon completion, students should be able to demonstrate proficiency in sample collection, radiology, anesthesia, critical care and emergency procedures, and dentistry. (S13177)

<b>VET 215</b>	<b>Veterinary Pharmacology</b>	3	0	0	3
----------------	--------------------------------	---	---	---	---

Prerequisites: None  
 Corequisites: Take one set:  
     Set 1: CHM 130, CHM 130A, and VET 213  
     Set 2: CHM 151 and VET 213  
 Restrictions: Must be enrolled in A45780  
                   Veterinary Medical Technology program

This course introduces drugs and other substances utilized in veterinary medicine. Emphasis is placed on drug classification and methods of action, administration, effects and side effects, storing and handling of drugs, and dosage calculations. Upon completion, students should be able to properly calculate and administer medications, recognize adverse reactions, and maintain pharmaceutical inventory and administration records. (S21571)

<b>VET 217</b>	<b>Large Animal Clinical Practice</b>	2	3	0	3
----------------	---------------------------------------	---	---	---	---

Prerequisites: Take VET 120  
 Corequisites: Take VET 213  
 Restrictions: Must be enrolled in A45780  
                   Veterinary Medical Technology program

This course covers topics relevant to the medical and surgical techniques for the common domestic large animal species. Topics include physical exam, restraint, sample collection, bandaging, emergency treatment, surgical and obstetrical procedures and instruments, herd health, and lameness topics. Upon completion, students should be able to safely perform restraint, examination, and sample collection; assist surgical, obstetrical, and emergency procedures; and discuss herd health. (S13147)

		<u>Class</u>	<u>Lab</u>	<u>Clinical</u>	<u>Credits</u>
<b>VET 237</b>	<b>Animal Nutrition</b>	3	0	0	3

Prerequisites: None  
 Corequisites: None  
 Restrictions: Must be enrolled in A45780  
                   Veterinary Medical Technology program

This course covers the principles of nutrition and their application to feeding practices of domestic, farm, and companion animals. Topics include basic nutrients and nutritional needs of individual species, proximate analysis, interpretation of food and feed labels, types of animal foods, and ration formulation. Upon completion, students should be able to select appropriate diets for animals in various stages of health and disease, analyze nutrition labels, and identify foods. (S11468)

Class Lab Clinical Credits

# WBL 110 – WLD 231

**WBL 110 World of Work** 1 0 0 1  
Prerequisites: None  
Corequisites: None

This course covers basic knowledge necessary for gaining and maintaining employment. Topics include job search skills, work ethic, meeting employer expectations, workplace safety, and human relations. Upon completion, students should be able to successfully make the transition from school to work. (S23792)

**WBL 111 Work-Based Learning I** 0 0 10 1  
Prerequisites: None  
Corequisites: None

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies. (S23794)

**WBL 112 Work-Based Learning I** 0 0 20 2  
Prerequisites: None  
Corequisites: None

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies. (S23795)

**WBL 115 Work-Based Learning Seminar I** 1 0 0 1  
Prerequisites: None  
Corequisites: Take one: WBL 111 or WBL 112 or WBL 113 or WBL 114

This course is designed to be a corequisite seminar to accompany Work-Based Learning 111. Topics include: examination and analysis of the organizational structure, career path, job descriptions, job breakdowns and management style. (S23799)

Class Lab Clinical Credits

**WBL 121 Work-Based Learning II** 0 0 10 1  
Prerequisites: None  
Corequisites: None

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies. (S23800)

**WBL 125 Work-Based Learning Seminar II** 1 0 0 1  
Prerequisites: None  
Corequisites: Take one: WBL 121 or WBL 122 or WBL 123 or WBL 124

This course is designed to be a corequisite seminar to accompany Work-Based Learning 121. Topics include: examination and analysis of the organizational structure, career path, job descriptions, job breakdowns and management style. (S23804)

**WBL 131 Work-Based Learning III** 0 0 10 1  
Prerequisites: None  
Corequisites: None

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies. (S23805)

**WEB 115 Web Markup and Scripting** 2 2 0 3  
Prerequisites: None  
Corequisites: Take CET 172

This course introduces World Wide Web Consortium (W3C) standard client-side Internet programming using industry-established practices. Topics include JavaScript, markup elements, stylesheets, validation, accessibility, standards, and browsers. Upon completion, students should be able to develop hand-coded web pages using current markup standards. **\*\*This is a Fall Only Class\*\*** (S22059)

**WEB 151 Mobile Application Development I** 2 2 0 3  
Prerequisites: Take CSC 120  
Corequisites: None

This course introduces students to programming technologies, design and development related to mobile applications. Topics include accessing device capabilities, industry standards, operating systems, and programming for mobile applications using an OS Software Development Kit (SDK). Upon completion, students should be able to create basic applications for mobile devices. (S23076)

## COURSE DESCRIPTIONS

	Class	Lab	Clinical	Credits
<b>WEB 210 Web Design</b>	2	2	0	3

Prerequisites: Take one: CIS 110 or CIS 111  
Corequisites: None

This course introduces intermediate to advanced web design techniques. Topics include customer expectations, advanced markup language, multimedia technologies, usability and accessibility practices, and techniques for the evaluation of web design. Upon completion, students should be able to employ advanced design techniques to create high impact and highly functional web sites. (S22061)

<b>WEB 213 Internet Marketing and Analytics</b>	2	2	0	3
---	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces students to Search Engine Optimization (SEO), Search Engine Marketing (SEM) and web analytics. Topics include Search Engine Optimization (SEO), Pay Per Click advertising (PPC), Search Engine Marketing (SEM), web analytics, eye-tracking software and email marketing. Upon completion, students should be able to set up, monitor and maintain SEO optimized websites; and develop strategies for online marketing and advertising plans. **\*\*This is a Spring Only Class\*\*** (S23077)

<b>WEB 215 Advanced Markup and Scripting</b>	2	2	0	3
--	---	---	---	---

Prerequisites: Take WEB 115  
Corequisites: None

This course covers advanced programming skills required to design Internet applications. Emphasis is placed on programming techniques required to support Internet applications. Upon completion, students should be able to design, code, debug, and document Internet-based programming solutions to various real-world problems using an appropriate programming language. **\*\*This is a Spring Only Class\*\*** (S22062)

<b>WEB 289 Internet Technologies Project</b>	1	4	0	3
--	---	---	---	---

Prerequisites: Take CTI 110 and CTI 120 and CTS 115 and WEB 215  
Corequisites: None

This course provides an opportunity to complete a significant Web technologies project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, documentation, installation, testing, presentation, and training. Upon completion, students should be able to complete an Internet project from the definition phase through implementation. (S24411)

	Class	Lab	Clinical	Credits
<b>WLD 110 Cutting Processes</b>	1	3	0	2

Prerequisites: None  
Corequisites: None

This course introduces oxy-fuel and plasma-arc cutting systems. Topics include safety, proper equipment setup, and operation of oxy-fuel and plasma-arc cutting equipment with emphasis on straight line, curve and bevel cutting. Upon completion, students should be able to oxyfuel and plasma-arc cut metals of varying thickness. (S23303)

<b>WLD 112 Basic Welding Processes</b>	1	3	0	2
--	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces basic welding and cutting. Emphasis is placed on beads applied with gases, mild steel fillers, and electrodes and the capillary action of solder. Upon completion, students should be able to set up welding and oxy-fuel equipment and perform welding, brazing, and soldering processes. (S10926)

<b>WLD 115 SMAW (Stick) Plate</b>	2	9	0	5
-----------------------------------	---	---	---	---

Prerequisites: None  
Corequisites: None

This course introduces the shielded metal arc (stick) welding process. Emphasis is placed on padding, fillet, and groove welds in various positions with SMAW electrodes. Upon completion, students should be able to perform SMAW fillet and groove welds on carbon plate with prescribed electrodes. **\*\*This is a Fall Only Class\*\*** (S23304)

<b>WLD 116 SMAW (Stick) Plate/Pip</b>	1	9	0	4
---------------------------------------	---	---	---	---

Prerequisites: Take WLD 115  
Corequisites: None

This course is designed to enhance skills with the shielded metal arc (stick) welding process. Emphasis is placed on advancing manipulative skills with SMAW electrodes on varying joint geometry. Upon completion, students should be able to perform groove welds on carbon steel with prescribed electrodes in the flat, horizontal, vertical, and overhead positions. **\*\*This is a Spring Only Class\*\*** (S10935)

<b>WLD 121 GMAW (MIG) FCAW/Plate</b>	2	6	0	4
--------------------------------------	---	---	---	---

Prerequisites: Take one: WLD 110 or WLD 112  
Corequisites: None

This course introduces metal arc welding and flux core arc welding processes. Topics include equipment setup and fillet and groove welds with emphasis on application of GMAW and FCAW electrodes on carbon steel plate. Upon completion, students should be able to perform fillet welds on carbon steel with prescribed electrodes in the flat, horizontal, and overhead positions. **\*\*This is a Spring Only Class\*\*** (S23305)

## CAPE FEAR COMMUNITY COLLEGE

	Class	Lab	Clinical	Credits
<b>WLD 131 GTAW (TIG) Plate</b>	2	6	0	4

Prerequisites: None

Corequisites: None

This course introduces the gas tungsten arc (TIG) welding process. Topics include correct selection of tungsten, polarity, gas, and proper filler rod with emphasis placed on safety, equipment setup, and welding techniques. Upon completion, students should be able to perform GTAW fillet and groove welds with various electrodes and filler materials.

**\*\*This is a Fall Only Class\*\*** (S23306)

<b>WLD 132 GTAW (TIG) Plate/Pipe</b>	1	6	0	3
--------------------------------------	---	---	---	---

Prerequisites: Take WLD 131

Corequisites: None

This course introduces the basic symbols and specifications used in welding. Emphasis is placed on interpretation of lines, notes, welding symbols, and specifications. Upon completion, students should be able to read and interpret symbols and specifications commonly used in welding. **\*\*This is a Fall Only Class\*\*** (S10497)

<b>WLD 141 Symbols &amp; Specifications</b>	2	2	0	3
---	---	---	---	---

Prerequisites: None

Corequisites: None

This course introduces the basic symbols and specifications used in welding. Emphasis is placed on interpretation of lines, notes, welding symbols, and specifications. Upon completion, students should be able to read and interpret symbols and specifications commonly used in welding. **\*\*This is a Fall Only Class\*\*** (S23307)

<b>WLD 143 Welding Metallurgy</b>	1	2	0	2
-----------------------------------	---	---	---	---

Prerequisites: None

Corequisites: None

This course introduces the concepts of welding metallurgy. Emphasis is placed on basic metallurgy, effects of welding on various metals, and metal classification and identification. Upon completion, students should be able to understand basic metallurgy, materials designation, and classification systems used in welding. (S11434)

<b>WLD 215 SMAW (Stick) Pipe</b>	1	9	0	4
----------------------------------	---	---	---	---

Prerequisites: Take one: WLD 115 or WLD 116

Corequisites: None

This course covers the knowledge and skills that apply to welding pipe. Topics include pipe positions, joint geometry, and preparation with emphasis placed on bead application, profile, and discontinuities. Upon completion, students should be able to perform SMAW welds to applicable codes on carbon steel pipe with prescribed electrodes in various positions. **\*\*This is a Summer Only Class\*\*** (S10353)

	Class	Lab	Clinical	Credits
<b>WLD 231 GTAW (TIG) Pipe</b>	1	6	0	3

Prerequisites: Take WLD 132

Corequisites: None

This course covers gas tungsten arc welding on pipe. Topics include joint preparation and fit up with emphasis placed on safety, GTAW welding technique, bead application, and joint geometry. Upon completion, students should be able to perform GTAW welds to applicable codes on pipe with prescribed electrodes and filler materials in various pipe positions. **\*\*This is a Summer Only Class\*\*** (S11260)

# STAFF AND FACULTY

## Ryan Allison

Basic Skills Instructor, CE  
B.A., Appalachian State University  
e-mail: rallison@cfcc.edu

## Dax Allred

Radiography  
A.A.S., Cape Fear Community College  
B.S., University of North Carolina - Wilmington
